II – WORK SESSION

WORK SESSION TOPICS

Discussion of the amended Table of Permitted Uses (1):

Sanitation Coordinator, Korzeniewski, opened the discussion by highlighting improvements to the convenience center. A new gate and entranceway have been built around the entire site, and the site has been secured. The scale was calibrated, and painted, and the side access road has been rebuilt from scratch with some stronger material that has been recycled from elsewhere in the county. New signs were installed, a digital readout was installed on the scale, clear baseline rules and standard operating procedures were established, and a security camera was installed at the entrance to monitor illegal dumping. Other things need to be addressed, such as improving the security railing around the ramp.

The Board and Staff discussed suggestions for changes, corrections, and additions to the amended Table of Permitted Uses.
