 - **Review of Proposed Changes to the Town Land Use and Development Code (LUDC)** – Mr. Dan Schou presented the Commission members with a couple of recommendations for the changes to be incorporated into the LUDC. Those recommendations include:
 - Additional verbiage for development in the established setback areas; and
 - Town of Alpine’s adoption of the current International Energy Code.

The following recommendation were made:

1. Implement immediate adoption of additional verbiage to the Single Family Residential (R-1) Section 3-202 (e) Minimum Setback; Multi-Family (R-2) Section 3-203 (f) Minimum Setbacks; and the Mixed Residential and Commercial District (MRC) Section 3-204 (f) Minimum Setbacks.

The language for consideration is as follows:

No development in the established setback areas is allowed.

Mr. Dan Schou moved to send a recommendation to the Town Council for their immediate consideration and subsequent implementation into the Alpine Land Use and Development Code, specified in the Single Family, Multi-Family and Mixed Residential and Commercial Zoning Districts. Ms. Susan Kolbas seconded the motion. Vote: 3 yes, 0 no, 0 abstain, 0 absent. Motion carried.

2. Commission members feel that this adoption will aid the Town in effective building practices. The energy code sets minimum efficiency requirements for new and renovated buildings to achieve reductions in energy use and emissions over the life of the building. Energy codes are a subset of building codes, which establish baseline requirements and govern building construction. The code is founded on principles intended to establish provision consistent with the scope of the energy conversation code that adequately conserves energy, provisions that do not unnecessarily increase construction costs; provisions that do not restrict the use of new materials, products or methods of construction; and provisions that do not give preferential treatment to particular types or classes of material, products or methods of construction.

Mr. Dan Schou moved to send a recommendation to the Town Council for consideration of the approval and adoption of the current International Energy Code via Town Ordinance. Ms. Susan Kolbas seconded the motion. Vote: 3 yes, 0 no, 0 abstain, 0 absent. Motion carried.
