B. Council to consider approval and adoption of a resolution creating the City of Jonesboro Charter Review Committee to conduct a comprehensive review of the City Charter and governmental structure.

The committee will evaluate the existing charter, identify areas for modernization or amendment, and provide recommendations for Council consideration in advance of the 2027 legislative session. The timeline would be possibly before January 15, 2027.

The proposed review process is intended to incorporate community input, council participation, and collaboration with the local legislative delegation to ensure any recommended charter changes reflect the needs of the City and its residents. A preliminary budget of $10,000.00 has been proposed to support the committee's work, with funding recommendations to be presented to Council upon approval. The Finance Director was tasked with checking to see where the funds would come from. Mayor Sartor said it would probably come from Professional Services.

Approval of this resolution would authorize the formation of the Charter Review Committee and allow Council to move forward with appointing members and establishing a timeline for the review process.

Council mentioned that getting someone in from the public and getting them trained may not be feasible by January 2027. Council discussed that there should be three (3) people nominated by City Council and 1 person from the local legislative delegation.

City Manager Cole said the last charter review was in 1996. Mayor Sartor asked the City Manager and/or City Attorney to pull a copy of this information regarding the last revision.

Councilmember Curney wanted to clarify if other Councilmembers recall the pushback regarding members of the community being involved in the process of changing some of the information in the charter or if it was an elected official who wanted the change.

Lastly, Mayor Pro-Tem Miller and Councilmember Fox agreed with Councilmember Curney as it relates to having Special Called Meetings to discuss the charter instead of having a committee. The public and legislative would be invited. Mayor Pro-Tem Miller said if Council decides to go this route, then she would like to see a concrete calendar along with having information ready at the August 10th meeting.

City Manager Cole advised that both the Finance Director and City Attorney Wiley had reviewed the document. However, Councilmember Fox maintained that additional revisions were needed and directed the City Manager to review the prior meeting recording and incorporate all Council feedback into an updated draft.

Councilmember Fox requested that a revised version be prepared for Council's consideration at the August 10 meeting. Additionally, Mayor Sartor requested that a draft be provided to her and City Attorney Wiley for review by Friday, August 7th to ensure all comments and recommendations are addressed prior to finalization. E. Council to receive update on OPB Grant progress.

Council received an update on the progress of the OPB Grant. Mayor Sartor reported that the City has engaged Lisa Adeboye with Alliance Group to assist with grant administration and procurement activities. Staff advised that discussions with the grant representative have been favorable regarding proposed amendments and budget revisions. A meeting with the grant administrator was scheduled for the following day to review requested scope and budget changes.

The Police Chief reported that multiple revision requests have been submitted for OPB review, including leadership development training, participation in the Cities United convening, and operational and community safety enhancements. Due to the number of revisions proposed, a formal scope and budget change request was also submitted.

Councilmember Fox expressed concern regarding the amount of grant funds that remain unspent and the lack of concrete expenditure figures. Staff explained that final spending projections are still being calculated due to personnel-related costs and other line-item adjustments. The City is also seeking approval to redirect funding from projects that can no longer be completed to initiatives that better align with current City needs.

Mayor Sartor acknowledged delays in the process and accepted responsibility for ensuring the grant is brought to completion. Staff advised that all grant expenditures must be encumbered and spent by September 30th, with reporting targeted for completion by October 15th. The City has also engaged an outside project manager to assist with grant administration, and Council was advised that updated expenditure figures and a recap of the upcoming meeting with the grant administrator would be provided once additional information is received. Councilmember Fox emphasized the importance of obtaining accurate spending data promptly to maximize the City's use of available grant funding and minimize the loss of potential reimbursements.

Lastly, Police Chief Cato said he would like the Finance Director to be able to work more than two (2) days per week to assist with this matter. Mayor told Council to give her and Cato until tomorrow to get this information. Mayor Sartor said for Council to give staff until tomorrow to receive a recap and then they would get better numbers.

City Manager Cole advised that no substantive updates had been made to the draft scope and indicated that questions had arisen regarding the survey capabilities available through the City's ADP system. He stated that an updated draft could be provided before the August 10 meeting.

Councilmembers expressed concern that the ADP and GMA survey options had previously been discussed and determined not to be the preferred approach. Mayor Pro Tem Miller and Councilmember Fox noted that Council had already completed approximately 80 to 90 percent of the RFP content and expected it to be formatted and prepared for release. Staff explained that the information provided by Council had not yet been converted into the City's standard RFP format due to competing workload priorities.

Council emphasized the importance of moving forward with the employee climate survey to ensure employee voices are heard and requested a firm deadline for completion. City Manager Cole acknowledged the delay, apologized, and committed to working toward completing the RFP by Friday so it could be reviewed by the Mayor and City Attorney prior to publication. Council reiterated that the survey remains a priority initiative and requested regular communication regarding its progress.

Mayor Sartor advised that the personnel policy document had been distributed to Council and noted that the proposed cost for the project may be adjusted based on discussions related to Attorney Wiley's contract. Mayor Sartor stated that, rather than continuing to address policy revisions in separate sections, it is time to move forward with a complete review of the personnel policies as a whole and make the project a priority before the end of the year.

Attorney Wiley advised that, once formally authorized to proceed, the review and revision process is expected to take approximately 60 days to complete. She further stated that she has already begun preliminary work and plans to meet with staff, including the City Manager, City Clerk, and Human Resources personnel, to better understand current operational practices and ensure that any proposed revisions are practical, functional, and aligned with City operations.

Council expressed support for moving forward with the full personnel policy review and emphasized the importance of implementing updates that improve operations without disrupting processes that are already working effectively.

N. Council to consider a Request for Proposal of Key Street Park Redevelopment.

City Manager Cole led the discussion.

Council considered a proposal to move forward with developing a Request for Proposals (RFP) for the redevelopment of Key Street Park. The City Manager explained that the purpose of the RFP would be to solicit ideas, design concepts, and potential uses for the park, while noting the effort could eventually expand into a comprehensive parks master plan for the City.

During discussion, councilmembers expressed support for improving Key Street Park but emphasized the need to consider the City's broader park system, existing funding commitments, and future capital projects. Concerns were raised regarding park accessibility, parking, lighting, water access, maintenance, signage, park rules displayed, benches, handicap ramp, trash receptacles, insurance coverage, and liability considerations before officially opening the park for public use.

Councilmember A. Dixon supported both opening the park for community use and advancing long-term planning efforts. Members also discussed obtaining community input on future park amenities and redevelopment concepts. Consensus emerged for staff to further evaluate the park's immediate needs, explore opening the property for recreational use, and develop a timeline for future RFPs that could potentially include Key Street Park and other city parks as part of a broader master planning effort. No formal action was taken.

Lastly, Council spoke regarding:

- Possibly declaring Key Street Park as a recreation park
- Local government has immunity in regard to the park (negligence vs. nuisance). City Attorney will do a memo on the recreation act that gives the City immunity. Will be done by 08/10/26.
- The team needs to go look at the park prior to making a decision

Mayor Sartor said if an RFP is done then she prefers one to be done for both and then push for October 2026. One of the RFP's can be done in August 2026. This item could possibly be placed on 08/25/26 Special Called Meeting Agenda for further discussion.

During the discussion, councilmembers raised questions regarding participant eligibility, privacy protections, data retention, liability, procurement requirements, installation and maintenance responsibilities, and program oversight. The City Attorney advised that additional language and legal safeguards should be incorporated to address liability concerns and ensure the City does not assume unintended obligations. Councilmembers also suggested adding a public education component, clarifying application requirements, providing assistance with device setup, and exploring alternative safety measures that may better serve vulnerable residents.

Councilmembers emphasized that the initiative would focus on building partnerships, expanding community programming, supporting Main Street activities, strengthening school partnerships, and increasing use of existing city facilities. Staff explained that the program would be implemented in phases, beginning with modest staffing and community partnerships, with future growth potentially supported through grants, sponsorships, program revenues, and athletic programming.
