# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Walter E. Reeves Jr., AICP Development Services Director

**AGENDA CONTENT:** Conduct a public hearing, discussion and possible action on an ordinance to rezone an approximate 7.22 acres of land situated in the East 1/2East Waller League Survey, Abstract No. 134, Brazoria County, Texas from the Manufactured Home (MH) District to the Commercial-General (C-G) District with the Planned Development Overlay (CG-PD). The subject property is located on the south side of Phillips Road approximately 450 feet east of Shanks Road and is more commonly known as 238 E. Phillips Road.

**AGENDA ITEM SECTION:** Public Hearing

**BUDGETED AMOUNT:** None **FUNDS REQUESTED:** None

**FUND:** None

**EXECUTIVE SUMMARY:**

**[CONTINUED FROM MAY 25, 2021 CITY COUNCIL MEETING]**

This is a request from Mr. Manuel Gonzalez to rezone an approximate 7.22 acres of land from the Manufactured Home (MH) District to the Commercial-General (C-G) District with the Planned Development Overlay (CG-PD). The subject property is located on the south side of Phillips Road approximately 450 feet east of Shanks Road and is more commonly known as 238 E. Phillips. Mr. Gonzalez wishes to use the property as both his personal residence and for an internet business. An auxiliary building will be used for an office and warehouse use associated with the business. Mr. Gonzalez has provided information detailing his intended use of the property.

While the Future Land Use Plan from the Angleton Comprehensive Plan Update designates the subject property as being appropriate for single family residential use (a use proposed in the PD), the proposed rezoning would be consistent with the following goals:

*Chapter 3 Land Use Growing Sensibly Goal: High quality development that promotes sensible growth patterns and respects the small town atmosphere and image of the community.*

*Chapter 3 Land Use Economic Sustainability Goal: A pattern of development that promotes livable neighborhoods, viable commercial centers and economic prosperity.*

**Existing Land Use and Zoning**

**North:** Single-family residential use in the SF 7.2 District.

**East:** Single-family residential use and undeveloped land in the MH District.

**South:** Some single-family residential use and undeveloped land in the SF 7.2 District and a Planned Development District.

**West:** Single-family residential use and undeveloped land in the SF 7.2 District and the MFR-29 District.

Phillips Road is designated as a Major Collector on the Mobility Plan in this area. Pursuant to Table 23-12 Major Collector's have 70' to 80' of right-of-way, 36' of pavement and 2-3 twelve (12) foot lanes. Currently, Phillips Road does not currently meet this standard.

The proposed rezoning is consistent (in part) with the Future Land Use Plan and is supported by other policies of the Comprehensive Plan. With use and design standards as part of the PD to mitigate potential impacts, it would be consistent with current surrounding land uses and zonings. The list of standards is Exhibit B of the attached ordinance.

The Planning and Zoning Commission held a public hearing on May 6, 2021. After a motion to approve failed for lack of second, and no further motions were made, the request moves to the City Council without a recommendation.

At the Council's May 25, 2021 meeting, staff was instructed to research whether trucks were prohibited on Phillips Road. Staff could find no resolution or ordinance establishing a truck prohibition on Phillips Road. At the time of preparation of this update, the Police Department was in the process of checking to see if No Truck signs were posted on Phillips Road. Staff will update Council on this aspect on June 22, 2021.

**RECOMMENDATION:**

Staff recommends approval of the ordinance to rezone an approximate 7.22 acres of land from the Manufactured Home (MH) District to the Commercial-General (C-G) District with the Planned Development Overlay (CG-PD).

**SUGGESTED MOTION:**

I move we recommend approval of the ordinance to rezone an approximate 7.22 acres of land from the Manufactured Home (MH) District to the Commercial-General (C-G) District with the Planned Development Overlay (CG-PD).

Proposal to Rezone from MH to PD with Request to have Commercial General as

Underlying District

Hi I bought this Property with the intent of building my Personal Home on it and also to run my existing Small online business Pipelinerscloud.com This online business is strictly online not a storefront and will never be a store front. I have applied and received the permit to build my shop and have already purchased it.

The Building is 7,500 sf it will consist of Office/Warehouse. About 1,250 sf will be for office use and the 6,250 sf will be storage warehouse use. We have a total of 3 employees at the moment plus me and my wife.

Below are some points that I wish to emphasize so yall can take into consideration when deciding the faith of my rezoning proposal.

1. We will have a 60' Landscaped buffer from shop to property line with a Wooden Privacy fence or appropriate natural non invasive bamboo(as shown on site plan)
2. With the Landscaped Buffer the closest neighbor's home will be about 128' to 160' from neighbors back porch to the shop according to Google Earth.
3. The Apartments cady corner in adjacent property will have about 85' of Landscaped buffer to the shop this Could be increased if needed by Giving one side more buffer
4. Entrance to the property would be at about ¼ mile from 288 business
5. Vehicle traffic will not be greatly increased due to it not being a store front. Big truck traffic will also be minimal and will be maybe 1 day a week or UPS trucks 5 times a week. I know that the width of the road is not suitable for big truck traffic but trucks will turn around Inside property and head back to 288 business. Big Trucks are not much wider than current school buses that safely travel that road everyday.
6. I have the construction loan in place and the shop bought and have until OCT 2021 to have the building built before it rolls over into a mortgage. The building permit itself is good until 5/31/2021. Due to financials obligations and Capital already in project I would like to have an Ok or Denial in a timely manner and anything I need to do to get that ok or denial let me know and I will get on it immediately.
7. Work hrs will be from 8am to 530 pm

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Walter E. Reeves Jr., AICP Development Services Director

**AGENDA CONTENT:** Conduct a public hearing, discussion and possible action on an ordinance to rezone an approximate 164.50 acres of land in the J. de J. Valderas Survey, Abstract No. 380, Brazoria County, Texas from the Agricultural District (AG) to the Single-Family Residential 5 (SF-5) District. The subject property is located on the north side of Anchor Road (CR 44) approximately 2,000 feet northwest of W. Wilkens Street.

**AGENDA ITEM SECTION:** Public Hearing

**BUDGETED AMOUNT:** None **FUNDS REQUESTED:** None

**FUND:** None

**EXECUTIVE SUMMARY:**

**[TABLED BY CITY COUNCIL ON MARCH 9, 2021]**

This is a request from Texas Viejo Land Company on behalf of property owners: Leah Tigner, Individually and as Independent Executrix of the Estate of John Hughes Tigner, III Deceased; Williams Marshall Tigner, II with a reservation of Life Estate of Williams Marshall Tigner; Tiffany Aleece Tigner Schlensker with a reservation of Life Estate of Williams Marshall Tigner; and Williams Marshall Tigner; to rezone approximately 164.5 acres of land located on the north side of Anchor Road (CR 44) approximately 2,000 feet northwest of W. Wilkens Street.

The Future Land Use Plan from the Angleton Comprehensive Plan Update designates the subject property as being appropriate for single family residential use and office/retail/multi-family residential use. The proposed rezoning is further supported by Goals 1 & 2 of Chapter 3 Land Use as well as Goals 1 & 2 of Chapter 8 Housing of the Comprehensive Plan.

Chapter 3 – Land Use

*Goal One: High quality development that promotes sensible growth patterns and respects the small-town atmosphere and image of the community.*
*Goal Two: A pattern of development that promotes livable neighborhoods, viable commercial centers, and economic prosperity.*

Chapter 8 – Housing

*Goal One: A community in which quality housing is attractive available and affordable to all residents.*
*Goal Two: A variety of housing options that meets the needs of an increasingly diverse population.*

**Existing Land Use and Zoning**

**North:** Undeveloped land in the ETJ and further north largely undeveloped land in the Commercial General District (C-G).

**East:** Undeveloped land in the Commercial General District (C-G) and the Planned Development District (PD) and developed land in the Single Family 7.2 District (SF 7.2), and undeveloped Multifamily Residential 29 (MFR-29) district for apartments having a maximum density of 29 dwelling units per acre.

**South:** Anchor Road (CR 44), Agricultural (AG) district with a church, single family residential development in the SF-7. 2 district and Lakeside Park.

**West:** Some development the ETJ across Carr Road and then some development in the Planned Development District (PD) and Commercial General (C-G) districts along SH 288.

Anchor Road is designated as a Minor Collector on the Mobility Plan in this area. Car Road is designated as a Minor Collector. Cannan/Tigner Drive is designated to extend into the property. Karankawa Lane (along the eastern property line) is designated in part as an existing Minor Collector and in-part as a proposed Minor Collector.

The proposed rezoning is consistent with the Future Land Use Plan and is supported by several goals of the Comprehensive Plan.

The Planning and Zoning Commission held a public hearing on March 4, 2021 and recommends approval of the proposed rezoning of 164.5 acres from the Agricultural (AG) District to the Single-Family Residential 5 (SF-5) District.

This item was tabled by City Council on March 9, 2021. The developer has since worked with the City to prepare a development agreement that contains requirements that will address concerns expressed by various Council members at the March 9th meeting. As this item was tabled, and not continued to a "date certain," public notice as required by the Texas Local Government Code and the Code of Ordinances of the City of Angleton is required to be redone to bring this item "off-the-table." Public notice appeared in the Facts and was sent to all property owners within 200 ft. on June 4, 2021.

**RECOMMENDATION:**

Staff recommends approval of the proposed rezoning of 164.5 acres from the Agricultural (AG) District to the Single-Family Residential 5 (SF-5) District.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Walter E. Reeves Jr., AICP Development Services Director

**AGENDA CONTENT:** Conduct a public hearing, discussion, and possible action on a request for approval of an ordinance rezoning an approximate 2 acres from the Two-Family Residential District (2F) to the Multi-Family Residential 14 (MFR-14) District. The subject property is located on the east side of Buchta Road, approximately 200 ft. south of Hospital Drive.

**AGENDA ITEM SECTION:** Public Hearing

**BUDGETED AMOUNT:** None **FUNDS REQUESTED:** None

**FUND:** None

**EXECUTIVE SUMMARY:**

This is a request from Miller Rental Properties Inc. LLC, represented by Mr. Torrian Miller, to rezone 2 acres of land located on the east side of Buchta Road approximately 200 feet south of Hospital Drive from the 2F District to the MFR-14 District.

The Future Land Use Plan from the Angleton Comprehensive Plan Update designates the subject property as being appropriate for Office/Retail/Multi-Family Residential. The Office/Retail/Multi-Family Residential category is described in the plan as:

> *Office/Retail/Multifamily (Peach): This category incorporates many of the characteristics of the Office/Retail category, but adds flexibility by including multifamily development outside of SH 288. The Office/Retail/Multifamily category recognizes both the need to promote quality office development, as well as the opportunity to permit a transition between uses when considered necessary. Examples of this category are found along FM 523, Business 288 and SH 35. While visibility remains important, Office/Retail/Multifamily may also be Chapter 3– Land Use Page 3-14: Final Report Angleton Comprehensive Plan Update located away from corridors or as a transition category for low intensity areas.*

The proposed rezoning is further supported by Goals 1 & 2 of Chapter 8 Housing of the Comprehensive Plan.

*Goal One: A community in which quality housing is attractive available and affordable to all residents.*

*Goal Two: A variety of housing options that meets the needs of an increasingly diverse population.*

**Existing Land Use and Zoning**

**North:** Learning academy use on property split zoned between 2F and Commercial-General (C-G) zoning districts with a Specific Use Permit and to the northeast, Bucky's.

**East:** Retail use (flower shop) in the C-G zoning district.

**South:** Funeral home use in the C-G zoning district.

**West:** Attached single-family residential development in the Single Family Residential (SF-7.2) zoning district.

Buchta Street is designated as a Major Collector on the Mobility Plan. Major Collectors are described in Section 23-12 Table 23-12.1 as having 70"-80' of right-of-way, 36' of pavement width, 2-3 lanes and a design speed of 30-35 mph. Even if it were possible to develop the property to the maximum density of 28 dwelling units (14 dwelling units/acre) the trip generation would not be enough to trigger the need for a Traffic Impact Analysis nor would it have a significant impact on Buchta Road and surrounding streets.

The proposed rezoning is consistent with the Future Land Use Plan and is supported by Chapter 8 Housing, Goals 1 & 2 and is in keeping with the existing development pattern in the area. The proposed rezoning and any subsequent development of the property will have little impact upon the City's infrastructure.

The Planning and Zoning Commission held a public hearing on June 3, 2021 and unanimously (7 in-favor/0 opposed/0 absent) recommended approval of the ordinance rezoning an approximate 2 acres from the 2F district to the MFR-14 district.

**RECOMMENDATION:**

Staff recommends approval of the ordinance rezoning an approximate 2 acres from the 2F district to the MFR-14 district.

**SUGGESTED MOTION:**

I move we approve the ordinance rezoning an approximate 2 acres from the 2F district to the MFR-14 district.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Walter E. Reeves Jr., AICP Development Services Director

**AGENDA CONTENT:** Conduct a public hearing, discussion, and possible action on a request for approval of the preliminary replat of Whispering Pines Subdivision and a variance to Section 23-11.I Adequate and Safe Access.

**AGENDA ITEM SECTION:** Public Hearing

**BUDGETED AMOUNT:** None **FUNDS REQUESTED:** None

**FUND:** None

**EXECUTIVE SUMMARY:**

The subject property consists of 28.03 acres in the Single Family Residential 7.2 zoning district and is located south of Angleton Drainage District Ditch 10, approximately 240 ft. east of Heritage Drive W. and approximately 500 ft. north of Western Avenue (Attachment 1). The City Engineer's comments are attached (Attachment 2). The City's Parks and Recreation Director has provided the following comment:

> *"My comments would be that since they have labeled park and detention reserves on the plat they should change "Drainage Easements Maintained by a Homeowners' Association" to "Drainage Easements and Park Reserves Maintained by a Homeowners' Association" as well as throughout the covenants listed."*

**Texas Local Government Code (LGC) Requirements**

The proposed replat is considered under LGC Section 212.014 as a "Replat Without Vacating the Preceding Plat." LGC Section 212.014 authorizes such replatting subject to the following:

> *"A replat of a subdivision or part of a subdivision may be recorded and is controlling over the preceding plat without vacation of that plat if the replat:*
>
> *(1) is signed and acknowledged by only the owners of the property being replatted;*
>
> *(2) is approved by the municipal authority responsible for approving plats; and*
>
> *(3) does not attempt to amend or remove any covenants or restrictions."*

The proposed replat cannot attempt to amend or remove any covenants or restrictions currently on the subject property. Any existing covenants or restrictions on the subject property will continue to apply to the subject property. Those covenants or restrictions are private agreements between the property owners in the subdivision. Those requirements may be more, or less, stringent than requirements of the Code of Ordinances of the City of Angleton and are enforceable by the parties to those covenants or restrictions. The City is not authorized under the LGC and the Code of Ordinances of the City Angleton to enforce the terms of private agreements

like covenants or restrictions, which are outside of the requirements of the City's Code of Ordinances. As a result, a replat of this property could meet all requirements of the Code of Ordinances of the City of Angleton and be approved by the City of Angleton, but that approval could be overturned as a result of a successful lawsuit enforcing such covenants or restrictions.

LGC Section 212.015.(a).(1) requires conformance with LGC Section 212.015 if during the preceding five years, any lot in the preceding plat was limited by an interim or permanent zoning classification to residential use for not more than two residential units per lot. The subject property is in the (SF-7.2) district which limits the number of residential units per lot to one. As a result, conformance with LGC Section 212.015 is required. LGC Section 212.015.(a-1) requires that if a proposed replat described by LGC Section 212.015.(a) requires a variance or exception, a public hearing must be held by the municipal planning commission or governing body of the municipality. LGC Section 212.015.(b) requires notice of the public hearings, as required by LGC Section 212.015.(a-1), be published in the City's official newspaper and sent to all property owners in the original subdivision (Attachment 3) within 200 feet of the lot(s) being replatted before the 15th day before the date of the hearing. Notice was published in the newspaper and mailed to all property owners in the original plat within 200 feet on May 18, 2021.

Finally, pursuant to LGC Section 212.015.(c) "if the proposed replat requires a variance and is protested in accordance with this subsection, the proposed replat must receive, in order to be approved, the affirmative vote of at least three-fourths of the members present of the municipal planning commission or governing body, or both. For a legal protest, written instruments signed by the owners of at least 20% of the area of the lots or land immediately adjoining the area covered by the proposed replat and extending 200 feet from that area, but within the original subdivision, must be filed with the municipal planning commission or governing body, or both, prior to the close of the public hearing." As a variance is required, LGC Section 212.015.(c) is applicable. A three-fourths vote of the City Council members present will be required to approve the variance.

**Variance to Section 23-11.I Adequate and Safe Access**

Section 23-11.I requires the following:

1. All subdivisions containing 30 or more lots must have at least two points of 100-year storm compliant public access constructed to ACM standards, that connect to paved public streets.
2. The city council may approve subdivisions that have more than 30 lots, but fewer than 50 lots, with a single entrance to a paved public street provided that such connection to an existing paved public street is designed as a boulevard with a width sufficient on each driving lane for fire truck access, with an unbroken median length of 100 feet, unless left-turn lanes and median breaks designed to ACM standards, are installed at any crossing streets.
3. The city council may approve subdivisions that have more than 50 lots, with a single entrance to a paved street subject to the entrance to the development being designated as a boulevard with a width sufficient on each driving lane for fire truck access, with an unbroken median length of 150 feet, unless left-turn lanes and median breaks, designed to ACM standards, are installed at any crossings, subject to a phasing plan that stipulates when the second access will be provided and the developer or subdivider posts surety for the second access point. The council may defer plat recordation until adequate access is provided.

The proposed preliminary replat has 80 single-family residential lots and a single access. A variance has been requested (Attachment 4) of Section 23-12.I, that while being supportive of Section 23-11.I is also redundant. Section 23-11.I is where the requirements are located.

Staff met with the developer on June 9, 2021 and discussed the requirements of Section 23-11.I. To meet the boulevard entrance requirement the developer proposed a revised cross-section (Attachment 6) for the existing stub street that is the proposed entrance into the Whispering Pines project. After input from Fire Chief Scott Meyers, EMS Director Lucille Maes, and Acting Police Chief Guadalupe Valdez, the consensus staff direction to the developer in regard to the proposed entrance cross-section was the following:

1. Widen the pavement to 48 feet in width and remove the median due to the property owner to the south taking driveway access to the existing stub street.
2. Post "No Parking" signs along the entrance into the Whispering Pines project.
3. The curbs be rollover curbs.

No proposal was made on the provision of secondary access although several options were discussed.

Pursuant to Section 23-102 B. Variance Approval Standards: Variances may be granted when:

**1. There are circumstances specific to the property that create an undue hardship that generally do not apply to surrounding properties; such as, but not limited to, its shape, or topography;**

There is no known undue hardship that generally does not apply to surrounding properties and the variance request does not identify any undue hardship that generally does not apply to surrounding properties. While discussion has been had regarding a design to meet the boulevard entrance requirement, secondary access has not been resolved. **This criterion is Not Met.**

**2. Special consideration is necessary to allow an applicant the same right of use enjoyed under the LDC by surrounding properties;**

While there may be conditions associated with the proposed preliminary replat that would make "special consideration" appropriate. Discussion has been had regarding a design to meet the boulevard entrance requirement; secondary access has not been resolved. As such, it is impossible to know if "special consideration" is necessary. **This criterion is Not Met**.

**3. Consideration is unique to the subject property and would not generally set an adverse precedent for other applications;**

The variance request identifies this as a criterion applicable to the variance request because former City right-of-way available through the property from the original plat has since been abandoned. Abandonment of the right-of-way does not preclude this development from approaching the owners of that former right-of-way to purchase the property to provide the required access or obtain an easement for its use as a secondary emergency access if City Council is willing to accept that in-lieu of the required 100-year storm compliant public street. Nor does it preclude the development approaching the City with a proposal regarding a lot owned by the City along Western Avenue (Attachment 5) as either a secondary or emergency access. Consideration would be unique only if alternatives had been pursued and determined to be inadequate to meet the requirements. **This criterion is Not Met.**

**4. The hardship was not created by the applicant; and**

While the applicant did not own the property when the previously platted rights-of-way were abandoned the applicant could have designed this project to avoid having to meet the requirement of Section 23-11.I.1 and proposed a replat having less than 30 lots. In this case, the absence of easy solutions does not constitute a hardship. **This criterion is Not Met.**

**5. A variance would not be detrimental to any adjacent properties or to public health and safety.**

While partial options have been explored, a variance would be detrimental to both adjacent properties and to the public health and safety as no secondary access will be provided. The variance request identifies several subdivisions that have a single access point that is not a boulevard but that is irrelevant to this variance request. A variance of the requirements of Section 23-11.I for this property must be based on the conditions and circumstances associated with this property, not whether some other existing property may, or may not, comply with City requirements. **This criterion is Not Met.**

As the criterion of Section 23-102.B Variance Approval Standards are not met staff cannot recommend approval. Further, as of the date of preparation of this agenda summary (06/15/2021) no revisions have been submitted addressing outstanding staff comments. If the variance is not granted the proposed preliminary replat does not meet the minimum requirements of the Code of Ordinances of the City of Angleton and cannot be approved as proposed.

The Planning and Zoning Commission held a public hearing on June 3, 2021, and unanimously (7 in-favor/0 opposed/0 absent) recommends denial of the proposed preliminary replat of Whispering Pines.

**RECOMMENDATION:**

Staff recommends denial of the variance to Section 23-11.I and denial of the proposed preliminary replat.

**SUGGESTED MOTION:**

I move we deny the variance to Section 23-11.I and deny the proposed preliminary replat.

Re: On-Going Services
Whispering Pines Preliminary Plat – 1st Submittal Review
Angleton, Texas
HDR Job No. 10283980

Dear Mr. Reeves:

HDR Engineering, Inc. (HDR) has reviewed the plat for the above referenced subdivision and offers the following comments:

General Comments:

1. A requirement for a Traffic Impact Analysis (TIA) for the proposed subdivision shall be reviewed based on requirements listed in the Angleton LDC Sec. 23-25. A response summary shall be submitted to verify if TIA will be required based on the section requirements in Sec. 23-25.
2. Provide a soil suitability/geotechnical report (see Angleton LDC Sec. 23-25 for requirements and details).
3. For the proposed subdivision drainage and detention, consideration shall be made for overland flow paths and detention pond maintenance berm/strip for the proposed subdivision.
4. A waiver request has been submitted regarding Public Access to Subdivisions for the proposed entrance of the Whispering Pines Subdivision; however, the proposed subdivision shall be in consideration and accordance to the LDC Sec. 23-11, I, parts 1-5.

Plat Comments:

1. Include topographic contours at 1-ft intervals (reference: Angleton LDC Sec. 23.117 - Preliminary Plats).
2. Verify block lengths to be in accordance to Angleton LDC Sec. 24-11.
3. Notate street and filing information where noted on the plat review drawing (S Heritage Drive).
4. For the drainage easement shown along the south boundary, verify location and requirement of the outfall for drainage within this easement.

T (713) 622-9264 F (713) 622-9265
Texas Registered Engineering Firm F-754(713) 622-9264

5. Verify key lot width requirements per Angleton Zoning Ordinance for SF-7.2 zoning for the lots indicated on the plat review drawing.
6. Check the numbering of the reserves/blocks. Indicate which lots are part of the proposed subdivision (since the lots facing Heritage Oaks Drive do not appear to be part of the plat area).
7. Provide a summary table for the proposed reserves shown on the plat.
8. Verify language and referenced in Plat Note No. 11. It appears the references shown do not match what is provided on the plat. The specific use for which each piece of land is to be reserved must be shown by appropriate label or description on the subdivision plat. It is noted that reserve tracts shall have a minimum area as necessary to satisfy the purposes of the reserve.
9. Verify private easement requirement for down guy extensions shown along east boundary.
10. Verify if TNMP is in approval of the proposed land use in relation to the 70-ft easement for access and maintenance purposes. Will the proposed park be considered an access point?
11. For the proposed Park Reserve "B", verify and include description for drainage easement/reserve use.
12. Notate radius on plat for all cul-de-sacs and bump-outs shown on the plat.
13. Move signature block text to correct location in the Angleton Drainage District certification.

The proposed plat is incomplete. We are unable to complete the review until the recommended corrections/changes are made and the additional information requested is submitted. HDR recommends that the Whispering Pines Preliminary Plat be revised and resubmitted.

If you have any questions, please feel free to contact us at our office (713)-622-9264.

Re: Public Access to Subdivisions
Whispering Pines Subdivision

Dear Mr. Reeves,

We are requesting a waiver for the following Section of the City of Angleton Land Development Code (LDC):

**Section 23-12.Streets and Driveways, Subsection I. Public Access to Subdivisions to allow 80 lots with only one access to public roadway.**

**I. Public Access to Subdivisions.**

1. Subdivisions containing 30 or more lots, or multi-family developments with 50 or more units, shall have a minimum of two points of vehicular access to an existing public right-of-way separated as far apart as practical; or

2. The City Council may consider a boulevard style entrance with the following design elements:
   a. A boulevard entrance with a median that has a minimum width of six feet;
   b. Extension of the median into the subdivision an unbroken distance of at least 75 feet to the first intersecting interior street; and
   c. Boulevard lanes with an adequate pavement for emergency access into the development.

The preliminary plat for Whispering Pines Subdivision currently shows a development of 80 lots with a single 60 feet wide right of way access connection to Heritage Oaks Drive on the west side of the subdivision. There is no other available path to another access point because of Western Avenue subdivision to the south Heritage Oaks Subdivision to the west, Angleton Drainage District Ditch 10 to the north and Gambit Energy Battery facility and Private property to the east. A previously platted 60' right of way road through the private property owned now by Richard Willy was allowed to be abandoned a few years ago by the City. The City's abandonment of the right of way prevents a second access point.

**Section 23-102 LDC Variances, Subsection B.3. & 4. states:**

B. Variance Approval Standards. Variances may be granted when:

3. Consideration is unique to the subject property and would not generally set an adverse

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Walter E. Reeves Jr., AICP Development Services Director

**AGENDA CONTENT:** Conduct a public hearing, discuss and possibly act upon a request for approval of the Preliminary Replat of Riverwood Ranch Subdivision Section 2. The subject property is located on northeast corner of N. Downing Street and Hospital Drive and is in a Planned Development (PD) zoning district.

**AGENDA ITEM SECTION:** Public Hearing

**BUDGETED AMOUNT:** None **FUNDS REQUESTED:** None

**FUND:** None

**EXECUTIVE SUMMARY:**

The subject property consists of 19.793 acres, is in a Planned Development (PD) district and is located at the northeast corner of N. Downing Street and Hospital Drive. The proposed preliminary replat is to subdivide the property into 109 single family residential lots and 3 reserve lots. As the Commission will recall, Riverwood Ranch Section 1 consisted of 96 single family residential lots on 22.691 acres.

Attached is the City Engineer's memo. The City's Parks & Recreation Director has also provided the following comment: "Since they have labeled landscape reserves on the plat they should change "Drainage Easements Maintained by a Homeowners' Association" to "Drainage Easements and Landscape Reserves Maintained by a Homeowners' Association" as well as throughout the covenants listed." There are a number of items to be addressed that are mostly minor revisions to the preliminary replat document which can be resolved prior to City Council consideration of this preliminary plat.

The Planning and Zoning Commission held a public hearing on June 3, 2021. A motion was made to approve the preliminary plat as recommended by staff; to approve subject to all comments being resolved prior to City Council. The Commission did not vote in favor of that motion (2 in-favor/5 opposed/0 absent). As a result, no recommendation is made by the Planning and Zoning Commission. As the date of preparation of this agenda summary (6/15/2021) no revisions have been received addressing outstanding staff comments. As the proposed preliminary replat does not meet all of the requirements of the Code of Ordinances of the City of Angleton and as no revisions to address the outstanding comments have been received, staff must change the recommendation to denial.

**RECOMMENDATION:**

Staff recommends denial of the proposed preliminary replat of Riverwood Ranch Section 2 as it does not meet the requirements of the Code of Ordinances of the City of Angleton.

**SUGGESTED MOTION**

I move we deny the preliminary replat of Riverwood Ranch Section 2 as the proposed preliminary replat does not meet the requirements of the Code of Ordinances of the City of Angleton.

2. Include topographic contours at 1-ft intervals (reference: Angleton LDC Sec. 23.117 - Preliminary Plats).
3. Provide 1-ft reserve strip on lots along N. Downing Street and Hospital Drive per LDC Sec. 23-117 B.6.
4. For the 20-ft D.E. noted on the plat drawing, show the easement as existing on the plat.
5. Provide drainage easements in accordance to Angleton LDC where noted on the plat review drawing.
6. Provide right-of-way and filing information for N. Downing Street.
7. For the locations noted on the plat review drawing, revise the text noted to match the metes and bounds legal description.
8. Notate the radius of the street bump-outs where noted on the plat drawing.
9. The specific use for which each piece of land is to be reserved must be shown by appropriate label or description on the subdivision plat. It is noted that reserve tracts shall have a minimum area as necessary to satisfy the purposes of the reserve.
10. Provide a summary table for the proposed reserves shown on the plat.

DEDICATION STATEMENT:

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: THAT JOHN SANTASIERO, President And Managing Director of the Riverway Properties, acting herein by and through its duly authorized officers, does hereby adopt this plat designating the hereinabove described property as Riverwood Ranch Subdivision, a subdivision in the jurisdiction of the City of Angleton, Texas, and does hereby dedicate, in fee simple, to the public use forever, the streets, alleys and public parkland shown thereon. The streets, alleys and parkland are dedicated for street purposes. The easements and public use areas, as shown, are dedicated for the public use forever, for the purposes indicated on this plat. No buildings, fences, trees, shrubs, or other improvements or growths shall be constructed or placed upon, over, or across the easements as shown, except that landscape improvements may be placed in landscape easements, if approved by the City of Angleton. In addition, utility easements may also be used for the mutual use and accommodation of all public utilities desiring to use or using the same unless the easement limits the use to particular utilities, said use by public utilities being subordinate to the public's and City of Angleton's use thereof. The City of Angleton and public utility entities shall have the right to remove and keep removed all or parts of any buildings, fences, trees, shrubs, or other improvements or growths which may in any way endanger or interfere with the construction, maintenance, or efficiency of their respective systems in said easements. The City of Angleton and public utility entities shall at all times have the full right of ingress and egress to or from their respective easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, reading meters, and adding to or removing all or parts of their respective systems without the necessity at any time of procuring permission from anyone.

Drainage Easements Maintained by a Homeowners' Association.
STATE OF TEXAS §
COUNTY OF BRAZORIA §

This plat is hereby adopted by the owners (called "Owners") and approved by the City of Angleton, ("City") subject to the following conditions which shall be binding upon the Owners, their heirs, grantees, successor, and assigns:

"Drainage Easements" shown on the plat are reserved for drainage purposes forever, and the maintenance of the drainage easements shall be provided by all of the owners of lots in the subdivision by and through a lawfully created homeowners association to be created by the Owners. The Owners covenant and agree that such a homeowners' association (called "Association") shall be created prior to the final acceptance of the City. All Association documents shall be subject to the approval of the City and shall specifically contain covenants binding the Association to continuously maintain all Drainage Easements. Such covenants shall not relieve the individual lot owners of the responsibility to maintain the Drainage Easements should the Association default in the performance of its maintenance responsibility. The Association documents shall also contain provisions that they may not be amended with regard to the Drainage Easement maintenance responsibilities without the approval of the City. The fee simple title to all Drainage Easements shall always remain in the Association.

The City and Angleton Drainage District are not responsible for the maintenance and operation of said easements or for any damage or injury to private property or person that results from the flow of water along said easement or for the control of erosion, but reserves the right to use enforcement powers to ensure that drainage easements are properly functioning in the manner in which they were designed and approved.

The City and Angleton Drainage District reserves the right, but not the obligation, to enter upon any Drainage Easement at any point, or points, with all rights of ingress and egress, to investigate, survey, erect, construct, or maintain any drainage facility deemed necessary by the City for drainage and safety purposes.

The Owners shall keep all Drainage Easements clean and free of debris, silt, and any substance which would result in unsanitary conditions or obstruct the flow of water, and the City of Angleton or Angleton Drainage District shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the Owners to alleviate any public health or safety issues.
The Association hereby agrees to indemnify and hold harmless the City from any such damages and injuries.

OWNER'S ACKNOWLEDGEMENT:

STATE OF TEXAS §
COUNTY OF BRAZORIA §

The owner of land shown on this plat, in person or through a duly authorized agent, dedicates to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown for the purpose and consideration therein expressed.

**EXECUTIVE SUMMARY:**

Kristin R. Bulanek, Brazoria County Tax Assessor-Collector will discuss the local option exemption which has a deadline of July 1.

Section 11.13 (n) In addition to any other exemptions provided by this section, an individual is entitled to an exemption from taxation by a taxing unit of a percentage of the appraised value of his residence homestead if the exemption is adopted by the governing body of the taxing unit before July 1 in the manner provided by law for official action by the body. If the percentage set by the taxing unit produces an exemption in a tax year of less than $5,000 when applied to a particular residence homestead, the individual is entitled to an exemption of $5,000 of the appraised value. The percentage adopted by the taxing unit may not exceed 20 percent.

I have attached the requested analysis of a 1%, 2% and 3% local general homestead option using 2021 preliminary values and the adopted tax rate from 2020. Angleton currently has a 1% local general homestead option. The difference between 1% and 3% exemption is $22,812.

# INDUSTRIAL DISTRICT AGREEMENT
# NORTH 288-B INDUSTRIAL DISTRICT OF ANGLETON, TEXAS

This Industrial District Agreement (the "Agreement") is entered into between the CITY OF ANGLETON, TEXAS, a municipal corporation in Brazoria County, Texas, ("City"), and RULICA/ANGLETON, LTD., a Texas limited partnership with its principal place of business located at 11823 Wilcrest Drive, Houston, Texas, 77031, designated as "Company".

## W I T N E S S E T H :

WHEREAS, it is the established policy of City to adopt such reasonable measures from time-to-time as are permitted by law, to endeavor to attract industry and expand its growth and thereby enhance the economic stability and growth of the City; and

WHEREAS, on January 9, 1995, pursuant to such policy, City enacted Ordinance No. 2342 designating the lands described therein as the NORTH 288-B INDUSTRIAL DISTRICT of the City of Angleton, Texas ("NID"), such ordinance then being in compliance with Article 970a, Section 5, Vernon's Annotated Texas Civil Statutes (now Section 42.044, Texas Local Government Code); and

WHEREAS, Company owns land within the exclusive extraterritorial jurisdiction of the City of Angleton, within the NID, said land being described on the attached Exhibit "A" ("Land"); and

NOW, THEREFORE, in consideration of the premises and the mutual agreements of the parties contained herein, and pursuant to the authority granted to City under Section 42.044, Texas Local Government Code, City and Company hereby agree as follows:

SECTION 1. City covenants with Company and agrees and guarantees that during the term of this Agreement, the Land shall be designated as located in the NID within the exclusive extraterritorial jurisdiction of the City, and City does further covenant, agree and guarantee that such Land shall be immune from annexation by City during the term of this Agreement. Company and the Land already have City water and sewer services but shall have no right to any other City services; nor shall the City extend, by ordinance, to the Company, its Land, and any property of Company situated on said Land any rules and regulations (a) governing plats and subdivisions of land, (b) prescribing any building, electrical, plumbing or inspection code or codes, or (c) attempting to exercise in any manner whatever control over the conduct of Company's business thereon. Provided, however, it is agreed that City shall have the right to institute or intervene in any judicial or administrative proceeding authorized by: the Texas Water Code; the Texas Clean Air Act, Chapter 382, Health & Safety Code; and the Texas Solid Waste Disposal Act, Chapter 361, Health & Safety Code.

SECTION 2. Under the terms of the Texas Property Code (S.B. 621, Acts of the 65th Texas Legislature, Regular Session, 1979, as amended), the appraised value for tax purposes of property lying within the corporate limits of the City, shall be determined by the Brazoria County Appraisal District ("BCAD"). The parties hereby agree that for the purposes of this Agreement, all appraisal values will be those determined to be the final appraised values by the BCAD after all appeals, protests, suits, etc, if any, by the Company for property owned by the Company and

subject to this Agreement. The parties recognize that in making such appraisal for "in lieu of" taxes, as described in Section 3.C.,hereof, such appraiser must of necessity appraise the entire Land, and the improvements and tangible personal property of Company located thereon.

SECTION 3.

A. Company shall pay to City an amount which totals "in lieu of" taxes on Company's Property as of January 1st of the prior calendar year ("value year"). Said payments made "in lieu of" taxes under this Agreement shall be made in two (2) equal installments, the first being due on or before January 15, 2019, and the second being due on or before July 15, 2019, with the remaining payments due on or before January 15th and July 15th of each year thereafter, through and including the year 2021.

B. For purposes of this agreement "value year exemptions" means exemptions granted to Company by Brazoria County, Texas, for its taxing purposes.

C. The "in lieu of" taxes payable by Company will be calculated by first ascertaining the final BCAD appraisal value after all appeals, protests, suits, etc., if any, by the Company of the Property (Property is defined as land, improvements, and tangible personal property of every description, including without limitation, inventory, oil, gas, and mineral interests, items of leased equipment, pipelines, and products in storage located on the land.) on January 1st of each value year less value year exemptions and applying the following formulas:

1. Eighty (80%) per cent of the amount of ad valorem taxes which would be payable to the City if all the Property which existed on January 1st of value year had been within the corporate limits of City and appraised at market value by BCAD.

2. There shall be no "in lieu" of payments during the term of this Agreement on new construction commenced after the date of this Agreement. The purpose of this section is to provide an incentive for new construction.

For the purposes of this section, "new construction" contemplates new improvements to realty and new construction and expansion of existing facilities which constitutes an integral, permanent part of the plant, buildings, structures, and facilities of Company. Purchases or acquisitions by Company of existing real or personal properties are excluded.

The new construction incentive provisions of this section terminate at the expiration of this Agreement regardless of the status year of any new construction.

D. Any such amounts not paid when due shall become delinquent on January 16th and July 16th, respectively, of that year, and will be subject to the same provisions for interest, penalty and attorneys fees as are applicable to delinquent ad valorem taxes on lands within the City limits.

SECTION 4. This Agreement shall extend for a three (3) year period, beginning on January 1, 2019, and ending on December 31, 2021, unless extended for an additional period or periods of time upon mutual consent of Company and City as provided by Section 42.044, Texas

Local Government Code. Said extension shall be negotiated six (6) months prior to the expiration of this Agreement. Provided, however, in the event this Agreement is not so extended for an additional period or periods of time on or before August 1, 2021, the covenant of City not to annex the Land shall terminate, and City shall have the right to commence immediate annexation proceedings as to all of Company's Land and Property covered by this Agreement. In such event, Company agrees that the rights of the parties shall be determined in accordance with the provisions of the Texas Municipal Annexation Act.

SECTION 5. This Agreement may be extended for an additional period or periods by agreement between City and Company even though other Industrial District Agreements with other land owners in the NID are not so extended. In this connection, City hereby expresses its belief that industrial district agreements are conducive to the development of existing and future industry and are in the best interest of all citizens of City, and encourages future City Councils to enter into future industrial district agreements and to extend for additional periods permitted by law this Agreement upon request of Company. Provided, however, that nothing herein contained shall be deemed to obligate either party hereto to agree to an extension of this Agreement.

SECTION 6. City shall be entitled to a tax lien on Company's Property in the event of default in payment of "in lieu of" taxes required in this Agreement, which delinquent payments shall accrue penalty and interest in like manner as delinquent ad valorem taxes, and which shall be collectible by City in the same manner as provided by law for delinquent ad valorem taxes.

SECTION 7. This Agreement shall inure to the benefit of and be binding upon City and Company, and upon Company's successors and assigns, affiliates and subsidiaries, and, except as provided in Section 8 below, shall remain in force whether Company sells, assigns, or in any other manner disposes of, either voluntarily or by operation of law, all or any part of the Property, and the agreements herein contained shall be held to be covenants running with the Land for so long as this Agreement or any extension thereof remains in force.

SECTION 8. If Company from time to time contracts to sell a portion of the Property to a third party purchaser (a "Purchaser"), such Purchaser may request that the City enter into a separate industrial district agreement (a "Purchaser IDA") covering only the portion of the Property so sold and conveyed by Company to such Purchaser. Subject to approval of such Purchaser by City, City shall enter into a Purchaser IDA with such Purchaser on the same basic terms and conditions (including, without limitation, the calculation of the "in lieu of" taxes in accordance with Section 3.C. hereof) as this Agreement. Upon the execution of a Purchaser IDA by the City and such Purchaser, the portion of the Property that is the subject of the Purchaser IDA shall be released from this Agreement and this Agreement shall no longer be applicable thereto. If the Purchaser does not request a Purchaser IDA or the City does not approve such Purchaser and execute a Purchaser IDA with such Purchaser, the portion of the Property conveyed to such Purchaser shall be conveyed subject to the terms and conditions of this Agreement, and this Agreement shall continue to apply thereto as provided in Section 7 above.

SECTION 9. In the event any one or more words, phrases, clauses, sentences, paragraphs, sections or other parts of this Agreement or the application thereof to any person, firm, corporation or circumstances shall be held by any court of competent jurisdiction to be invalid or unconstitutional for any reason, then the application, invalidity or unconstitutionality

of such words, phrases, clauses, sentences, paragraphs, sections, or other parts of this Agreement shall be deemed to be independent of and separable from the remainder of this Agreement, and the validity of the remaining parts of this Agreement shall not be affected thereby.

SECTION 10. This Agreement shall in all respects be interpreted and construed in accordance with and governed by the laws of the State of Texas and the City, regardless of the place of its execution or performance. The place of making and the place of performance for all purposes shall be Angleton, Brazoria County, Texas.

SECTION 11. The parties acknowledge that they have read, understand and intend to be bound by the terms and conditions of this Agreement.

# INDUSTRIAL DISTRICT AGREEMENT
## NORTH 288-B INDUSTRIAL DISTRICT OF ANGLETON, TEXAS

This Industrial District Agreement (the "Agreement") is entered into between the CITY OF ANGLETON, TEXAS, a municipal corporation in Brazoria County, Texas, ("City"), and BENCHMARK ELECTRONICS, INC., a Texas Corporation with a place of business located at 3000 Technology Drive, Angleton, Texas, 77515, designated as "Company".

## WITNESSETH:

WHEREAS, it is the established policy of City to adopt such reasonable measures from time-to-time as are permitted by law, to endeavor to attract industry and expand its growth and thereby enhance the economic stability and growth of the City; and

WHEREAS, on January 9, 1995, pursuant to such policy, City enacted Ordinance No. 2342 designating the lands described therein as the NORTH 288-B INDUSTRIAL DISTRICT of the City of Angleton, Texas ("NID"), such ordinance then being in compliance with Article 970a, Section 5, Vernon's Annotated Texas Civil Statutes (now Section 42.044, Texas Local Government Code); and

WHEREAS, Company owns land within the exclusive extraterritorial jurisdiction of the City of Angleton, within the NID, said land being described on the attached Exhibit "A" ("Land"); and

NOW, THEREFORE, in consideration of the premises and the mutual agreements of the parties contained herein, and pursuant to the authority granted to City under Section 42.044, Texas Local Government Code, City and Company hereby agree as follows:

SECTION 1. City covenants with Company and agrees and guarantees that during the term of this Agreement, the Land shall be designated as located in the NID within the exclusive extraterritorial jurisdiction of the City, and City does further covenant, agree and guarantee that such Land shall be immune from annexation by City during the term of this Agreement. Company and the Land already have City water and sewer services but shall have no right to any other City services; nor shall the City extend, by ordinance, to the Company, its Land, and any property of Company situated on said Land any rules and regulations (a) governing plats and subdivisions of land, (b) prescribing any building, electrical, plumbing or inspection code or codes, or (c) attempting to exercise in any manner whatever control over the conduct of Company's business thereon. Provided, however, it is agreed that City shall have the right to institute or intervene in any judicial or administrative proceeding authorized by: the Texas Water Code; the Texas Clean Air Act, Chapter 382, Health & Safety Code; and the Texas Solid Waste Disposal Act, Chapter 361, Health & Safety Code.

SECTION 2. Under the terms of the Texas Property Code (S.B. 621, Acts of the 65th Texas Legislature, Regular Session, 1979, as amended), the appraised value for tax purposes of property lying within the corporate limits of the City, shall be determined by the Brazoria County Appraisal District ("BCAD"). The parties hereby agree that for the purposes of this Agreement, all appraisal values will be those determined to be the final appraised values by the BCAD after all appeals, protests, suits, etc., if any, by the Company for property owned by the Company and subject to this Agreement. The parties recognize that in making such appraisal for

"in lieu of" taxes , as described in Section 3.C., hereof, such appraiser must if necessary appraise the entire Land, and the improvements and tangible personal property of Company located thereon.

SECTION 3. A. Company shall pay to City an amount which totals "in lieu of" taxes on Company's Property as of January 1st of the prior calendar year ("value year"). Said payments made "in lieu of" taxes under this Agreement shall be made in two (2) equal installments, the first being due on or before January 15, 2019, and the second being due on or before July 15, 2019, with the remaining payments due on or before January 15th and July 15th of each year thereafter, through and including the year 2021.

B. For purposes of this agreement "value year exemptions" means exemptions granted to Company by Brazoria County, Texas, for its taxing purposes.

C. The "in lieu of" taxes payable by Company will be calculated by first ascertaining the final BCAD appraisal value after all appeals, protests, suits, etc., if any, by the Company of the Property (Property is defined as land, improvements, and tangible personal property of every description, including without limitation, inventory, oil, gas, and mineral interests, items of leased equipment, pipelines, and products in storage located on the land.) on January 1st of each value year less value year exemptions and applying the following formulas:

1. The appropriate percentage, based upon taxable value as shown on Exhibit "B", of the ad valorem taxes applicable which would be payable to the City if all the Property which existed on January 1st of value year had been within the corporate limits of City and appraised at market value by BCAD.

2. There shall be no "in lieu of" payments during the term of this Agreement on new construction commenced after the date of this Agreement. The purpose of this section is to provide an incentive for new construction.

For the purposes of this section, "new construction" contemplates new improvements to realty and new construction and expansion of existing facilities which constitutes an integral, permanent part of the plant, buildings, structures, and facilities of Company. Purchases or acquisitions by Company of existing real or personal properties are excluded.

The new construction incentive provisions of this section terminate at the expiration of this Agreement regardless of the status year of any new construction.

D. Any such amounts not paid when due shall become delinquent on January 16th and July 16th, respectively, of that year, and will be subject to the same provisions for interest, penalty and attorneys fees as are applicable to delinquent ad valorem taxes on lands within the City limits.

SECTION 4. This Agreement shall extend for a three (3) year period, beginning on January 1, 2019, and ending on December 31, 2021, unless extended for an additional period or periods of time upon mutual consent of Company and City as provided by Section 42.044,

Texas Local Government Code. Said extension shall be negotiated six (6) months prior to the expiration of this Agreement. Provided, however, in the event this Agreement is not so extended for an additional period or periods of time on or before August 1, 2021, the covenant of City not to annex the Land shall terminate, and City shall have the right to commence immediate annexation proceedings as to all of Company's Land and Property covered by this Agreement. In such event, Company agrees that the rights of the parties shall be determined in accordance with the provisions of the Texas Municipal Annexation Act.

SECTION 5. This Agreement may be extended for an additional period or periods by agreement between City and Company even though other Industrial District Agreements with other land owners in the NID are not so extended. In this connection, City hereby expresses its belief that industrial district agreements are conducive to the development of existing and future industry and are in the best interest of all citizens of City, and encourages future City Councils to enter into future industrial district agreements and to extend for additional periods permitted by law this Agreement upon request of Company. Provided, however, that nothing herein contained shall be deemed to obligate either party hereto to agree to an extension of this Agreement.

SECTION 6. City shall be entitled to a tax lien on Company's Property in the event of default in payment of "in lieu of" taxes required in this Agreement, which delinquent payments shall accrue penalty and interest in like manner as delinquent ad valorem taxes, and which shall be collectible by City in the same manner as provided by law for delinquent ad valorem taxes.

SECTION 7. SECTION 9. This Agreement shall in all respects be interpreted and construed in accordance with and governed by the laws of the State of Texas and the City, regardless of the place of its execution or performance. The place of making and the place of performance for all purposes shall be Angleton, Brazoria County, Texas.

SECTION 10. The parties acknowledge that they have read, understand and intend to be bound by the terms and conditions of this Agreement.

## EXECUTIVE SUMMARY:

The City of Angleton has entered into a contract with HDR to perform a traffic study to the Henderson Road corridor to identify future traffic loading and solutions to improve the mobility to the area. HDR performed traffic counts and coordinated with staff to identify population projections to determine the future roadway loading and prepared a report and presentation to discuss the findings. HDR has presented this presentation to City Staff and incorporated their comments.

Staff also requested HDR to provide a cost to perform a right of way survey to Henderson Road to identify location where additional right of way is required to install the proposed improvements.

## RECOMMENDATION:

Staff recommends the approval of the findings in the report and presentation for the Henderson Road Improvements. Staff also recommends that the City more forward with the right of way survey on Henderson Road to identify locations where additional right of way will be required. It is also recommended to move forward with identifying drainage improvements and potential mitigation solutions to allow the roadway improvements to Henderson Road.

**AGENDA ITEM SECTION:** Regular Agenda

## EXECUTIVE SUMMARY:

The City Council has requested staff to identify a path forward on the remaining street projects that were included in the previous bond program. Staff has identified a potential schedule for four of the remaining streets. As of now, the portion of San Felipe and Chevy Chase from Downing to East Mulbury is not included due to the proposed major drainage improvements on and ROW acquisition for a detention pond which were identified in the Downing Drainage Study. The City will be resubmitting the improvements identified in the Downing Study to the GLO's Round Two MIT funding

Please find the attached proposed schedule.

The street bonds also included Chenango in the downtown area by the courthouse. However, these costs did not include major drainage improvements. The drainage in this area was studied at a later time during the Chenango Drainage Study which identified major drainage improvements and ROW acquisition for a detention pond. The City will be resubmitting the improvements identified in the Chenango Drainage Study to the GLO's Round Two MIT funding

Improvements to Hospital Drive pavement were also included in the bond program. The City can proceed with these improvements once bids are received on the two above identified projects.

## RECOMMENDATION:

Staff would like to discuss the possibility of proceeding forward on the identified path for the improvements identified in the Bond Program with the City Council.

# What does this mean?

- 76% on new homes in Houston cost between $200,000 and $400,000.
- 64% on new lots in Houston are under 55 feet in width.
- If you are looking for a new home in Houston between $200,000 and $400,000, then chances are you will be on a lot less than 55 feet wide.

# What does this mean for South Houston?

- Even greater pressure for new homes in South Houston cost between $200,000 and $400,000.
- You might get more for your money in South Houston as 82% on new lots are under 65 feet.
- Possibly due to (relatively) cheaper land prices and less stringent development requirements.
- But the lion's share of new homes being purchased in South Houston are still under 55 feet.

# What can I buy?

- Interest Rates at 3.5%
  - If I am making $80,000 a year, I can afford to buy up to a $300,000 home.
  - If I am making $125,000 a year, I can buy a $550,00 home.
- Interest Rates at 6.5%
  - Now instead of making $80,000, I now have to make almost $125,000 a year to afford a new home at $300,000.
  - My buying power just decreased by 45%!

# 45’ Versus 50’ Lots

## What Difference Does 5’ Make?

- 5’ Feet Means:
  - Square Feet
    - 150 sqft for a 1-Story
    - 163 sqft for a 2-story
  - Features
    - 1-Story: bigger rooms or kitchen
    - 2-Story: 6th BR or bonus room
  - Price
    - 1-Story: $11,000 difference
    - 2-Story: $24,000 difference

# 45’ Versus 50’ Lots

## What Difference Does 5’ Make?

- 5’ Feet Means:
  - More choices
  - Flexibility as interest rates change
  - Changes in customer preferences
    - Do I need a 6th BR or a bonus room?
    - Do I need a bigger kitchen?
    - Can I afford another $11,000 or $24,000?

# Lot Density

- Smaller lots yield higher taxable revenue
- A mix of lots are needed to maximize customer selection

| Lot Size | Value | 45 | 50 | 60 | 65 | Tax Value | 1.50% |
|---|---|---|---|---|---|---|---|
| 45' | $275,000 | 100% | | | | $803,550,000 | $12,053,250 |

DRAFT

(b) The parties agree that nothing in this Agreement can compel the Developer to proceed or continue to develop the Property within any time period.

(c) The parties acknowledge and agree that any substantial deviation by the City from the material terms of this Agreement would frustrate the intent of this Agreement and, therefore, would be a material breach of this Agreement. A material breach of this Agreement by the City shall be deemed to have occurred in any of the following instances:

1. The imposition or attempted imposition of any moratorium on building or growth on the Property prohibited by State law or that treats development authorized under this Agreement differently than other development occurring throughout the City's regulatory jurisdiction;

4. An attempt by the City to unreasonably withhold approval of a plat of land within the Property that complies with the requirements of this Agreement.

In the event that a party to this Agreement believes that another party has, by act or omission, committed a material breach of this Agreement, the provisions of this Agreement shall provide the remedies for such default.

Section 4**.02 Notice of Developer's Default.**

(a) The City shall notify the Developer and any mortgagee of all, or any part of the Property designated by Developer to receive such notices (a "Designated Mortgagee") in writing of an alleged failure by the Developer to comply with a provision of this Agreement, which notice shall specify the alleged failure with reasonable particularity. The alleged defaulting Developer shall, within thirty (30) days after receipt of such notice or such longer period of time as the City may specify in such notice, either cure such alleged failure or, in a written response to the City, either present facts and arguments in refutation or excuse of such alleged failure or state that such alleged failure will be cured and set forth the method and time schedule for accomplishing such cure.

(b) The City shall exercise good faith to determine (i) whether a failure to comply with a provision has occurred; (ii) whether such failure is excusable; and (iii) whether such failure has been cured or will be cured by the alleged defaulting Developer or a Designated Mortgagee. The alleged defaulting Developer shall make available to the City, if requested, any records, documents, or other information necessary to make the determination.

(c) In the event that the City determines that such failure has not occurred, or that such failure either has been or will be cured in a manner and in accordance with a schedule reasonably

DRAFT

satisfactory to the City, or that such failure is excusable, such determination shall conclude the investigation.

(d) If the City determines that a failure to comply with a provision has occurred and that such failure is not excusable and has not been or will not be cured by the alleged defaulting Developer or a Designated Mortgagee in a manner and in accordance with a schedule reasonably satisfactory to the City, then the City Council may proceed to mediation under Section 2.04 and subsequently exercise the applicable remedy under Section 2.05.

**Section 4.03 Notice of City's Default.**

(a) The Developer shall notify the City in writing of an alleged failure by the City to comply with a provision of this Agreement, which notice shall specify the alleged failure with reasonable particularity. The City shall, within thirty (30) days after receipt of such notice or such longer period of time as the Developer may specify in such notice, either cure such alleged failure or, in a written response to the Developer, either present facts and arguments in refutation or excuse of such alleged failure or state that such alleged failure will be cured and set forth the method and time schedule for accomplishing such cure.

(b) The Developer shall exercise good faith to determine (i) whether a failure to comply with a provision has occurred; (ii) whether such failure is excusable; and (iii) whether such failure has been cured or will be cured by the City. The City shall make available to the Developer, if requested, any records, documents, or other information necessary to make the determination.

(c) In the event that the Developer determines that such failure has not occurred or that such failure either has been or will be cured in a manner and in accordance with a schedule reasonably satisfactory to the Developer, or that such failure is excusable, such determination shall conclude the investigation.

(d) If the Developer determines that a failure to comply with a provision has occurred and that such failure is not excusable and has not been or will not be cured by the City in a manner and in accordance with a schedule reasonably satisfactory to the Developer, then the Developer may proceed to mediation under Section 2.04 and subsequently exercise the applicable remedy under Section 2.05.

**Section 4.04 Mediation.** In the event the parties to this Agreement cannot, within a reasonable time, resolve their dispute pursuant to the procedures described in Sections 2.02 or 2.03, the parties agree to submit the disputed issue to non-binding mediation. The parties shall participate in good faith, but in no event shall they be obligated to pursue mediation that does not resolve the issue within fourteen (14) days after the mediation is initiated or thirty (30) days after mediation is requested, whichever is later. The parties participating in the mediation shall share the costs of the mediation equally.

**Section 4.05 Remedies.**

(a) In the event of a determination by the City that the Developer has committed a material breach of this Agreement that is not resolved in mediation pursuant to Section 2.04, the City may

# Memo

| Date: | Friday, March 05, 2021 |
| Project: | Austin Colony Subdivision (Tigner Tract) |
| To: | Walter Reeves, Director of Development Services |
| From: | John Peterson, PE, CFM |
| Subject: | Water and Wastewater Capacity Acquisition Fee |

The City of Angleton has coordinated with a Developer for the proposed subdivision at Austin Colony, along Anchor Road (CR 44) to the east of Highway 288. The proposed development consists of 558 single-family residences on approximately 166 acres and is currently planned to be a phased development. Based on this information and using the planning criteria for water demand and sewer loading from the utility master plan, below is the summary of the assumptions, analysis and model results.

Capacity Verification

- Water Demand
  - Average Daily Demand (ADD): 300 gallons per day per connection, 558 x 300 = 167,400 gpd or 116.25 gpm
  - Max Daily Demand (MDD): 1.7 x ADD = 197.63 gpm
  - Peak Hour Demand (PHD): 1.25 x MDD = 247.03 gpm
- Water Model Run
  - There are two existing water mains located in the vicinity of the proposed subdivision (see Exhibit #1). One is a 12" water main that runs along the north side of Anchor Road, that will be required to be extended northwest along CR 44 to and across the property in order to service the subdivision. The second is a 10" water main that runs along the north side of Tigner Road that will also be required to be extended to the west to serve as a second point of connection for the proposed subdivision. It is currently assumed that the proposed development will make connections to both of these water mains in order to create a looped system within the subdivision.
  - **The existing model was run for the scenario above. The model shows that there is sufficient pressure and fire flow when the systems are looped together (See Exhibit #2).**
- Wastewater Flows
  - Average Daily Flow (ADF): 255 gallons per day per connection, 558 x 255 = 142,290 gpd or 98.81 gpm
  - Peak Hour Wet Weather Flow (PWF): 4 x ADF = 395.25 gpm
- Wastewater Model Run
  - The existing model was run for PWF scenario, which uses a peaking factor of 4.

- There is an existing 24" sewer main along the western boundary of the proposed subdivision that has available capacity at that location. For the wastewater assessment, it was assumed that the wastewater loading for the subdivision will discharge into the City's collection system near the unimproved western portion of Tigner Street.
- This 24" gravity sewer main continues south and discharges into Lift Station No. 7 (N Kaysie Lift Station).
- The Lift Station No. 7 then pumps wastewater through an 18" force main directly to the Oyster Creek WWTP along Sebesta Road.

Capacity Acquisition Fee:

Please see Appendix A for the calculations for the Capacity Acquisition Fee.

- Water Service
  - The City has adopted a flat fee of $536.70 per ESU for water service throughout the City.

- Wastewater Service
  - Total Capacity of 24" Sanitary Sewer set at TCEQ minimum slope is 2,871 gpm
    - Percentage utilization of 24" gravity sanitary sewer for Austin Colony is 14% (peak flow)
  - Total Capacity of 36" Sanitary Sewer set at TCEQ minimum slope is 6,348 gpm
    - Percentage utilization of 36" gravity sanitary sewer for Austin Colony is 6% (peak flow)
  - Total Firm Capacity (assumed) of LS No. 7 is 2,380 gpm
    - Based on the assumed capacity of the lift station, the percent utilization of LS No. 7 pumping capacity and 18" force main for Austin Colony is 17% (peak flow)
  - Fee for sewer service is $850.55 per ESU

Therefore, the combined cost per ESU (water and wastewater) will be approximately $1,387.25. The total fee for the projected 558 homes for Austin Colony is approximately $774,085.50. It is noted that any changes in the projected number of ESUs will need to be updated accordingly in the CAF review. Additionally, proposed ESUs for clubhouses or pools were not considered and shall be included accordingly in the total ESU projection for the proposed Austin Colony Subdivision.

**Section 2.02 Right of Designated Mortgagee to Cure Default.** Any Designated Mortgagee shall have the right, but not the obligation, to cure any default in accordance with the provisions of Section 2.03 and Article II.

**Section 2.03 Designated Mortgagee.** At any time after execution and recordation in the Real Property Records of Brazoria County, Texas, of any mortgage, deed of trust, or security agreement encumbering the Tract or any portion thereof, the Developer (a) shall notify the City in writing that the mortgage, deed of trust, or security agreement has been given and executed by the Developer, and (b) may change the Developer's address for notice pursuant to Section 5.05 to include the address of the Designated Mortgagee to which it desires copies of notice to be provided.

At such time as a full and final release of any such lien is filed in the Real Property Records of Brazoria County, Texas, and the Developer gives notice of such release to the City as provided herein, all rights and obligations of the City with respect to the Designated Mortgagee under this Agreement shall terminate.

The City agrees that it may not exercise any remedies of default hereunder unless and until the Designated Mortgagee has been given thirty (30) days written notice and opportunity to cure (or commences to cure and thereafter continues in good faith and with due diligence to complete the cure) the default complained of. Whenever consent is required to amend a particular provision of this Agreement or to terminate this Agreement, the City and the Developer agree that this Agreement may not be so amended or terminated without the consent of such Designated Mortgagee; provided, however, consent of a Designated Mortgagee shall only be required to the extent the lands mortgaged to such Designated Mortgagee would be affected by such amendment or termination.

Upon foreclosure (or deed in lieu of foreclosure) by a Designated Mortgagee of its security instrument executed by the Developer encumbering the Tract, such Designated Mortgagee (and its affiliates) and their successors and assigns shall not be liable under this Agreement for any defaults that are in existence at the time of such foreclosure (or deed in lieu of foreclosure). Furthermore, so long as such Designated Mortgagee (or its affiliates) is only maintaining the Tract and marketing it for sale and is not actively involved in the development of the Tract, such Designated Mortgagee (and its affiliates) shall not be liable under this Agreement. Upon foreclosure (or deed in lieu of foreclosure) by a Designated Mortgagee, any development of the property shall be in accordance with this Agreement.

If the Designated Mortgagee and/or any of its affiliates and their respective successors and assigns, undertakes development activity, the Designated Mortgagee shall be bound by the terms

of this Agreement. However, under no circumstances shall such Designated Mortgagee ever have liability for matters arising either prior to, or subsequent to, its actual period of ownership of the Tract, or a portion thereof, acquired through foreclosure (or deed in lieu of foreclosure).

## ARTICLE III
## PROVISIONS FOR DEVELOPER

**Section 3.01 Waiver of Actions Under Private Real Property Rights Preservation Act.** The Developer hereby waives its right, if any, to assert any causes of action against the City accruing under the Private Real Property Rights Preservation Act, Chapter 2007, Texas Government Code (the "Act"), that the City's execution or performance of this Agreement or any authorized amendment or supplements thereto may constitute, either now or in the future, a "Taking" of Developer's, Developer's grantee's, or a grantee's successor's "Private Real Property," as such terms are defined in the Act, provided, however, that this waiver does not apply to, and the Developer and Developer's grantees and successors do not waive their rights under the Act to assert a claim under the Act for any action taken by the City beyond the scope of this Agreement which otherwise may give rise to a cause of action under the Act.

**Section 3.02 Developer's Right to Continue Development.** The City and the Developer hereby agree that, subject to Section 5.04 of this Agreement, the Developer may sell all or a portion of the Tract to one or more Persons who shall be bound by this Agreement and perform the obligations of Developer hereunder relative to the portion of the Tract acquired by such Persons, provided that the Developer shall retain ultimate responsibility for complying with the terms of this Agreement unless the City agrees in writing that the purchaser shall be responsible for and perform the Developer's obligations, which such consent shall not be unreasonably delayed, conditioned or withheld.

## ARTICLE IV

## MATERIAL BREACH, NOTICE AND REMEDIES

**4.01 Material Breach of Agreement.** It is the intention of the parties to this Agreement that the Property be developed in accordance with the terms of this Agreement.

(a) The parties acknowledge and agree that any material deviation from the material terms of this Agreement would frustrate the intent of this Agreement, and therefore, would be a material breach of this Agreement. A material breach of this Agreement by Developer shall be deemed to have occurred upon the failure of the Developer to substantially comply with a provision of this Agreement or the Development Ordinances applicable to the Property.

(b) The parties agree that nothing in this Agreement can compel the Developer to proceed or continue to develop the Property within any time period.

(c) The parties acknowledge and agree that any substantial deviation by the City from the material terms of this Agreement would frustrate the intent of this Agreement and, therefore, would be a material breach of this Agreement. A material breach of this Agreement by the City shall be deemed to have occurred in any of the following instances:

1. The imposition or attempted imposition of any moratorium on building or growth on the Property prohibited by State law or that treats development authorized under this Agreement differently than other development occurring throughout the City's regulatory jurisdiction;

2. The imposition of a requirement to provide regionalization or oversizing of public utilities through some method substantially or materially different than as set forth in this Agreement;

3. An attempt by the City to enforce any City ordinance within the Property that is inconsistent with the terms and conditions of this Agreement, unless such ordinance is required by state or federal law; or

4. An attempt by the City to unreasonably withhold approval of a plat of land within the Property that complies with the requirements of this Agreement.

In the event that a party to this Agreement believes that another party has, by act or omission, committed a material breach of this Agreement, the provisions of this Agreement shall provide the remedies for such default.

**4.02 Notice of Developer's Default.**

(a) The City shall notify the Developer and any mortgagee of all or any part of the Property designated by Developer to receive such notices (a "Designated Mortgagee") in writing of an alleged failure by the Developer to comply with a provision of this Agreement, which notice shall specify the alleged failure with reasonable particularity. The alleged defaulting Developer shall, within thirty (30) days after receipt of such notice or such longer period of time as the City may specify in such notice, either cure such alleged failure or, in a written response to the City, either present facts and arguments in refutation or excuse of such alleged failure or state that such alleged failure will be cured and set forth the method and time schedule for accomplishing such cure.

(b) The City shall exercise good faith to determine (i) whether a failure to comply with a provision has occurred; (ii) whether such failure is excusable; and (iii) whether such failure has been cured or will be cured by the alleged defaulting Developer or a Designated Mortgagee. The alleged defaulting Developer shall make available to the City, if requested, any records, documents, or other information necessary to make the determination.

(c) In the event that the City determines that such failure has not occurred, or that such failure either has been or will be cured in a manner and in accordance with a schedule reasonably satisfactory to the City, or that such failure is excusable, such determination shall conclude the investigation.

(d) If the City determines that a failure to comply with a provision has occurred and that such failure is not excusable and has not been or will not be cured by the alleged defaulting Developer or a Designated Mortgagee in a manner and in accordance with a schedule reasonably satisfactory to the City, then the City Council may proceed to mediation under Section 2.04 and subsequently exercise the applicable remedy under Section 2.05.

**Section 4.03 Notice of City's Default.**

(a) The Developer shall notify the City in writing of an alleged failure by the City to comply with a provision of this Agreement, which notice shall specify the alleged failure with reasonable particularity. The City shall, within thirty (30) days after receipt of such notice or such longer period of time as the Developer may specify in such notice, either cure such alleged failure or, in a written response to the Developer, either present facts and arguments in refutation or excuse of such alleged failure or state that such alleged failure will be cured and set forth the method and time schedule for accomplishing such cure.

(b) The Developer shall exercise good faith to determine (i) whether a failure to comply with a provision has occurred; (ii) whether such failure is excusable; and (iii) whether such failure has been cured or will be cured by the City. The City shall make available to the Developer, if requested, any records, documents, or other information necessary to make the determination.

(c) In the event that the Developer determines that such failure has not occurred or that such failure either has been or will be cured in a manner and in accordance with a schedule reasonably satisfactory to the Developer, or that such failure is excusable, such determination shall conclude the investigation.

(d) If the Developer determines that a failure to comply with a provision has occurred and that such failure is not excusable and has not been or will not be cured by the City in a manner and in accordance with a schedule reasonably satisfactory to the Developer, then the Developer may proceed to mediation under Section 4.04 and subsequently exercise the applicable remedy under Section 4.05.

**Section 4.04 Mediation.** In the event the parties to this Agreement cannot, within a reasonable time, resolve their dispute pursuant to the procedures described in Sections 2.02 or 2.03, the parties agree to submit the disputed issue to non-binding mediation. The parties shall participate in good faith, but in no event shall they be obligated to pursue mediation that does not resolve the issue within fourteen (14) days after the mediation is initiated or thirty (30) days after mediation is requested, whichever is later. The parties participating in the mediation shall share the costs of the mediation equally.

**Section 4.05 Remedies.**

(a) In the event of a determination by the City that the Developer has committed a material breach of this Agreement that is not resolved in mediation pursuant to Section 4.04, the City may file suit in a court of competent jurisdiction in Brazoria County, Texas, and seek any relief available at law or in equity, including, but not limited to, an action under the Uniform Declaratory Judgment Act and or termination of this Agreement as to the breaching Developer.

(b) In the event of a determination by a Developer that the City has committed a material breach of this Agreement that is not resolved in mediation pursuant to Section 4.04, the Developer may, without expanding City's liability beyond the statutory limits of the Texas Tort Claims Act or under other law; and, without the City waiving or demising its immunity beyond the scope of that allowed by the Texas Tort Claims Act or other law, and without the City ever being liable for

Developer's consequential, special, indirect or incidental losses or damages, file suit in a court of competent jurisdiction in Brazoria County, Texas, for the limited remedy of seeking City's specific performance of its obligations under this Agreement.

## ARTICLE V

## ADDITIONAL TERMS

Section 5.01 This Agreement shall be effective upon the mutual execution of this Agreement (the "Effective Date") and shall terminate ten years from the date of execution.

Section 5.02 Any person who acquires the Property or any portion of the Property shall take the Property subject to the terms of this Agreement. The terms of this Agreement are binding upon Developer, its successors, and assigns, as provided herein; provided, however, notwithstanding anything to the contrary herein, the Developer's assignee shall not acquire the rights and obligations of Developer unless Developer expressly states in the deed of conveyance or by separate instrument placed of record that said assign is to become the Developer for purposes of this Agreement and notice is sent by the Developer to the City. Provided, however, the Developer's assignee shall not acquire the rights and obligations of the Developer unless the Developer and assignee enter into a written assignment agreement in a form satisfactory to the City, and the City agrees in writing to such assignment, which approval will not be unreasonably delayed, conditioned or withheld. Any contract, agreement to sell land, or instrument of conveyance of land which is a part of the Property shall recite and incorporate this Agreement as binding on any purchaser or assignee. Notwithstanding the above if developer sells the lots to its own or other builders the subject and terms of this agreement shall automatically pass with the lot to said builder who shall retain the rights and obligations of this agreement which shall be set out in a separate recorded document.

Section 5.03 This Agreement may be amended only upon written amendment executed by the City and Developer. In the event Developer sells any portion of the Property, the Developer may assign to such purchaser the right to amend this Agreement as to such purchased property by written assignment and notice thereof to the City. Such assignment shall not grant such purchaser the authority to amend this Agreement as to any other portions of the Property.

Sectio 5.04 The Developer shall notify the City within fifteen (15) business days after any substantial change in ownership or control of the Developer. As used herein, the words "substantial change in ownership or control" shall mean a change of more than 49% of the stock or equitable ownership of the Developer. Any contract or agreement for the sale, transfer, or assignment of control or ownership of the Developer shall recite and incorporate this Agreement as binding on any purchaser, transferee, or assignee.

Section 5.05 The parties contemplate that they will engage in informal communications with respect to the subject matter of this Agreement. However, any formal notices or other communications ("Notice") required to be given by one party to another by this Agreement shall be given in writing addressed to the party to be notified at the address set forth below for such party, (a) by delivering the same in person, (b) by depositing the same in the United States Mail, certified or registered, return receipt requested, postage prepaid, addressed to the Party to be

notified; (c) by depositing the same with Federal Express or another nationally recognized courier service guaranteeing "next day delivery," addressed to the party to be notified, or (d) by sending the same by telefax with confirming copy sent by mail.

# 1 Background

The City of Angleton has received the interest of development near Valderas Street just north of Brushy Bayou. The development, known as the Greystone Subdivision, is based on a total of 111 lots at 70'×120' (minimum) lots. As shown in Exhibit A and C, there is existing water and wastewater infrastructure near the proposed development. There is an existing 8" water main and 15" wastewater main at Valderas Street. The wastewater main continues south to Lift Station No. 8. Which pumps into an existing 24-inch gravity main that that runs south along Valderas Street and through a 27-inch gravity main that generally runs west along Lorraine Street and through an open field before discharging into Lift Station No. 7 which uses an 18" force main to convey flow to the Oyster Creek Wastewater Treatment Plant (WWTP).

# 2 Review of Improvements

## Water Distribution System

There is sufficient water supply and fire flow for the development. It is recommended that the Developer connect to the 6" water main on N. Remington Drive and S. Remington Drive in addition to the main connection at Valderas Street.

## Wastewater Collection System

With the exemption of the internal improvements within the developments, no additional improvements are required for the wastewater collection system. The estimated capacity for the gravity main was based TCEQ Chapter 217 guidelines of a velocity of 2.0 feet per second (fps) and Manning's coefficient of 0.13. The following is a summary of the additional flows to the impacted system. Please note that existing lift station firm capacities are not available. The estimated firm capacity was based on the assumed force main velocity of 3 fps.

- Flow Projections
  - Average Daily Flow (ADF) = 111 ESUs x 255 gallons/day/connection = 28,305 gpd or 19.66 gpm
  - Peak Flow (PF) = ADF x 4 (per TCEQ) = 19.66 gpm x 4 = 78.63 gpm
- Gravity Pipe Capacity
  - Total Capacity of 8" Sanitary Sewer set at TCEQ minimum slope is 314 gpm
    - Percentage utilization of 8" sanitary sewer is 25.1% (peak flow)
  - Total Capacity of 10" Sanitary Sewer set at TCEQ minimum slope is 492 gpm
    - Percentage utilization of 10" sanitary sewer is 16.0% (peak flow)
  - Total Capacity of 15" Sanitary Sewer set at TCEQ minimum slope is 1,123 gpm
    - Percentage utilization of 15" sanitary sewer is 7.0% (peak flow)
  - Total Capacity of 18" Sanitary Sewer set at TCEQ minimum slope is 1,598 gpm

        - Percentage utilization of 18" sanitary sewer is 4.9% (peak flow)
    - Total Capacity of 24" Sanitary Sewer set at TCEQ minimum slope is 2,871 gpm
        - Percentage utilization of 24" sanitary sewer is 2.7% (peak flow)
    - Total Capacity of 27" Sanitary Sewer set at TCEQ minimum slope is 3,676 gpm
        - Percentage utilization of 27" sanitary sewer is 2.1% (peak flow)
    - Total Capacity of 36" Sanitary Sewer set at TCEQ minimum slope is 6,348 gpm
        - Percentage utilization of 36" sanitary sewer is 1.2% (peak flow)
- Lift Station and Force Main Capacity
    - Lift Station No. 8 and 14" force main
        - Estimated pump Firm Capacity, force main capacity: 1,440 gpm
        - Percent utilization of available capacity is 5.5%
    - Lift Station No. 7 and 18" force main
        - Estimated pump Firm Capacity, force main capacity: 2,380 gpm
        - Percent utilization of available capacity is 3.3%

# 3 Utility Connection Cost Assessment

## Water Utility Connection Cost

Previously, the LS 44 Phase I Study Report provided a breakdown of the City water facilities and assets. Appendix A provides a structured breakdown of how the water utility connection cost was assessed. The costs reflected in the table are broken down by asset at each water facility. The total estimated construction cost was divided by estimated number of ESUs to provide an overall cost per ESU. Since the City of Angleton purchases water from the Brazosport Water Authority, this cost was also included per connection to give a total estimated cost of $536.70 per a connection for water utilities.

## Wastewater Utility Connection Cost

The connection cost was determined by the percent capacity taken for each wastewater facility (gravity pipe, lift station, and force main) by this development. The project costs are based on estimated 2020 unit costs which were regressed to the original estimated construction cost using Engineering News Record (ENR) historical construction cost index figures. Appendix B provides breakdown of how the utility cost for each wastewater utility connection was assessed. Per calculations, the total estimated cost per connection for wastewater utilities is approximately $719.90 for the WWTP and $428.54 for the other infrastructure facilities (total $1,148.44). It is noted that the cost per connection is subject to change based on the final layout of the proposed development (i.e. total number of single family and/or multi-family connection). Refer to Appendix A for the cost breakdown of the wastewater utility connection cost.

# 4 Report Findings

The total cost for 1 ESU connection, which includes both water and sewer, is estimated to be approximately $1,685.14. The total fee for the projected 111 homes in the Greystone subdivision is approximately $187,050.29. It is to be noted that the estimated costs described in this report are subject to change based on final layout and current construction market pricing.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Lindsay Koskiniemi, CGFO, CPM, Assistant Director of Development Services

**AGENDA CONTENT:** Discussion and possible action on the execution of a development agreement between the City of Angleton and Waterstone Development, LLC, waiver of the preliminary acceptance of public improvements, and public improvement acceptance

**AGENDA ITEM SECTION:** Regular Agenda

**BUDGETED AMOUNT:** N/A **FUNDS REQUESTED:** N/A

**FUND:** N/A

**EXECUTIVE SUMMARY:**

This item is for City Council's consideration of the execution of a development agreement between the Waterstone Development Group, LLC and the City of Angleton as well as acceptance of public improvements for phase one and a consideration of a waiver request of the preliminary acceptance of public improvements with a one-year maintenance bond.

**Development Agreement**: Waterstone Development Group has constructed the first of two phases of a residential subdivision known as Kiber Reserve, located to the west of South Downing bordered by Orange Street to the north and Kiber street to the south.

This subdivision has a total of 93 slots with 48 lots included in the first phase and 45 in the second phase. The construction of the first phase of lots and public improvements is complete. The City received payment in the amount of one hundred fifty-eight thousand seven hundred forty-eight dollars ($158,748.00) the payment of phase one development fees for capacity acquisition and parkland dedication fees-in-lieu on May 21, 2021.

The City's legal counsel has reviewed the approved the proposed development agreement.

**Public Improvement Acceptance and Preliminary Acceptance Waiver Request:** The public improvements acceptance process, as described in Section 23-98(I) is a two-step process consisting of:

1. Preliminary acceptance with a minimum one-year maintenance bond as an administrative act by the City Manager after recommendation by the City Engineer; and

2. Final acceptance (with a one-year maintenance bond) by City Council after recommendation from the City Manager and City Engineer at least one year after preliminary acceptance.

Prior to the adoption of the LDC, the public improvement acceptance process consisted of final acceptance with a one-year maintenance bond.

In conjunction with the project contractor, Clear Water Utilities, Inc., and the project engineering/design consult, Baker & Lawson, City staff members from the Public Works and Development Services Department completed preliminary and final inspections for Kiber Reserve, Phase One. A punch list was developed with noted deficiencies, including an order for additional bacterial tests of the water line in the preliminary project walk through inspection. Prior to the final walk-through inspection, the City received passing bacterial test reports, and punch list items were remediated.

The City has received record drawings for Kiber Reserve Phase One that have been reviewed by HDR with no objections to final acceptance of public improvements.

**RECOMMENDATION:**

City staff recommends approval of the development agreement between Waterstone Development Group, LLC and the City of Angleton, waiver of preliminary acceptance of public improvements with a one-ear maintenance bond, and acceptance of public improvements for phase one.

Re: Public Acceptance Process - Kiber Reserve Subdivision Phase 1

Dear Mr. Reeves,

We are requesting a waiver for the following Section of the City of Angleton Land Development Code (LDC):

> **Section 23-98. K. 1. Preliminary Acceptance to make this a final acceptance with a 1 year maintenance bond.**

After completion of the construction of the public improvements in a subdivision a field inspection is conducted and a "punch list" of repairs or corrections of deficiencies is prepared for the construction contractor. In the past, after resolution of the "punch list" items, the City accepted the improvements with a one-year maintenance bond.
With the adoption of the Land Development Code in 2018 the public improvement acceptance process changed from a one-step process to a two-step process. The acceptance process described in the LDC is:

1. Preliminary acceptance with a minimum one-year maintenance bond as an administrative act by the City Manager after recommendation by the City Engineer; and
2. Final acceptance (with a one-year maintenance bond) by City Council after recommendation from the City Manager and City Engineer at least one year after preliminary acceptance.

The developer of {subdivision name} is requesting a waiver of Section 23-98.K.1 Preliminary Acceptance and that City Council accept the public improvements with a one-year maintenance bond.

Prior to the adoption of the 2018 Land Development Code, the Contractor's one year maintenance bond was all that was required before final acceptance of the public improvements by the City.

If you have any questions or require further information please contact Baker & Lawson, Inc.

Sincerely,

Douglas B. Roesler, P.E.

Re: On-Going Services
Public Improvements Acceptance of Kiber Reserve Section 1 Subdivision
Angleton, Texas
HDR Job No. 10283980

Dear Mr. Reeves:

HDR Engineering, Inc. (HDR) is in receipt of the request for Public Acceptance of the Kiber Reserve Section 1 public improvements in accordance to the Angleton Land Development Code (LDC) Sec. 23-98 – Public Improvements Acceptance. The following are exceptions noted in review of the Public Acceptance Process Criteria:

1. A Final Inspection walkthrough was performed on May 3, 2021 to review and verify the public improvements were constructed per the approved plat and plans. A Final Inspection report was generated for items to be completed and or corrected. Completion and correction of the items noted were provided and re-inspected on May 13, 2021. No additional action is required for this item.
2. A pdf set of As-Built (Record Drawing) plans dated May 7, 2021 by the Engineer of Record have been received by the City. As a condition of the Final Acceptance, an electronic set of the As-Built plans shall be submitted in a GIS compatible format.
3. Testing reports as noted by LDC Sec. 23-98 have been received. No additional action is required for these items.
4. As a condition of Final Acceptance, a maintenance bond shall be filed with the City in accordance to the LDC Sec. 23-98.
5. As a condition of Final Acceptance, the Developer shall provide proof that there are no outstanding judgements or liens against the improvements within the public rights-of-way or against property on which easements contain public improvements.
6. As a condition of Final Acceptance, for the portion of public sidewalks constructed, the Developer shall provide the TDLR certification of compliance with Texas Accessibility Standards per LDC Sec. 23-14. A.5 Sidewalks and Accessibility.

HDR takes no objection for the request of Final Acceptance with the following exceptions noted. Please note that HDR has only reviewed the improvements for consistency with the Final Plat and Construction Plans and the general conformance of public improvements to the City requirements. It is noted that this does not release the Developer of any liability resulting from non-conformance of these items.

DEDICATION STATEMENT:

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS; THAT CHARLES VON SCHMIDT, President And Managing Director of the WATERSTONE DEVELOPMENT GROUP, LLC, acting herein by and through its duly authorized officers, does hereby adopt this plat designating the hereinabove described property as KIBER RESERVE PHASE I, a subdivision in the jurisdiction of the City of Angleton, Texas, and does hereby dedicate, in fee simple, to the public use forever, the streets, alleys and public parkland shown thereon. The streets, alleys and parkland are dedicated for street purposes. The easements and public use areas, as shown, are dedicated for the public use forever, for the purposes indicated on this plat. No buildings, fences, trees, shrubs, or other improvements or growths shall be constructed or placed upon, over, or across the easements as shown, except that landscape improvements may be placed in landscape easements, if approved by the City of Angleton. In addition, utility easements may also be used for the mutual use and accommodation of all public utilities desiring to use or using the same unless the easement limits the use to particular utilities, said use by public utilities being subordinate to the public's and City of Angleton's use thereof. The City of Angleton and public utility entities shall have the right to remove and keep removed all or parts of any buildings, fences, trees, shrubs, or other improvements or growths which may in any way endanger or interfere with the construction, maintenance, or efficiency of their respective systems in said easements. The City of Angleton and public utility entities shall at all times have the full right of ingress and egress to or from their respective easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, reading meters, and adding to or removing all or parts of their respective systems without the necessity at any time of procuring permission from anyone.

Drainage Easements Maintained by a Homeowners' Association.

STATE OF TEXAS §
COUNTY OF BRAZORIA §

This plat is hereby adopted by the owners (called "Owners") and approved by the City of Angleton, ("City") subject to the following conditions which shall be binding upon the Owners, their heirs, grantees, successor, and assigns:

The fee simple title to all Drainage Easements shall always remain in the Association.

The Owners shall keep all Drainage Easements clean and free of debris, silt, and any substance which would result in unsanitary conditions or obstruct the flow of water, and the City of Angleton or Angleton Drainage District shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the Owners to alleviate any public health or safety issues. The Association hereby agrees to indemnify and hold harmless the City from any such damages and injuries.

The fee simple title to all Drainage Easements shall always remain in the Association.

The City and Angleton Drainage District reserves the right, but not the obligation, to enter upon any Drainage Easement at any point, or points, with all rights of ingress and egress, to investigate, survey, erect, construct, or maintain any drainage facility deemed necessary by the City for drainage and safety purposes.

The Owners shall keep all Drainage Easements clean and free of debris, silt, and any substance which would result in unsanitary conditions or obstruct the flow of water, and the City of Angleton or Angleton Drainage District shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the Owners to alleviate any public health or safety issues. The Association hereby agrees to indemnify and hold harmless the City from any such damages and injuries.

The City will not be responsible for the maintenance and operation of said Easement or for any damage to private property or person that results from conditions in the Easement, or for the control of erosion. No obstruction to the natural flow of stormwater run-off shall be permitted by construction of any type of building, fence, or any other structure within the Drainage and Detention Easement as hereinabove defined, unless approved by the City Engineer. Provided, however, it is understood that in the event it becomes necessary for the City to erect or consider erecting any type of drainage structure in order to improve the storm drainage that may be occasioned by the City shall have the right to enter upon the Drainage and Detention Easement at any point, or points, to investigate, survey or to erect, construct and maintain any drainage facility deemed necessary for drainage purposes. Each property owner shall keep the Drainage and Detention Easement clean and free of debris, silt, and any substance which would result in unsanitary conditions or obstruct the flow of water, and the City shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the property owner to alleviate any undesirable conditions which may occur. The natural drainage through the Drainage and Detention Easement is subject to storm water overflow and natural bank erosion to an extent which cannot be definitely defined. # 2. CONTROLS

NARRATIVE – SEQUENCE OF CONSTRUCTION ACTIVITIES AND APPROPRIATE CONTROL MEASURES DURING CONSTRUCTION

THE ORDER OF CONSTRUCTION WILL BEGIN WITH STRIPPING OF ALL VEGETATION FROM THE WORK AREA.

1. INSTALL SILT FENCE AROUND THE PERIMETER OF THE AREA TO BE DISTURBED. THE ORDER OF ACTIVITIES WILL BEGIN WITH THE COMPLETE STRIPPING OF ALL AREAS TO RECEIVE FILL MATERIAL. REMOVED VEGETATION TO BE STOCKPILED ADJACENT TO THE WORK TO BE SPREAD AFTER LOT GRADING IS COMPLETE.
2. DEMOLISED THE MERGE LANE FROM ORANGE STREET TO DOWNING STREET. REGRADE THE ROADSIDE DITCH EAST OF DOWLING STREET AND SOUTH OF ORANGE STREET. INSTALL WATER LINES, SANITARY SEWER LINES AND MANHOLES AND STORM SEWER PIPES, INLETS AND MANHOLES. INSTALL INLET PROTECTION BARRIERS AROUND ALL INLETS. FULLY EXCAVATE THE DETENTION POND TO PROVIDE OUTFALL PATH FOR THE STORM SEWER SYSTEM. INSTALL THE RESTRICTIVE OUTLET.
3. ROADWAY EXCAVATION, LIME STABILIZATION AND CONCRETE PAVING WILL FOLLOW UNDERGROUND UTILITY AND STORM SEWER CONSTRUCTION. DURING ROADWAY WORK, THE REMAINDER OF THE DETENTION POND WILL BE EXCAVATED AND MATERIAL SPREAD ON LOTS. INSTALL SILT FENCE IN THE BOTTOM OF THE POND UPSTREAM OF THE RESTRICTIVE OUTFALL CULVERT.
4. AS SOON AS CONCRETE CURBS ARE INSTALLED, PLACE 18" WIDE SOLID SOD OR REINFORCED FILTER FABRIC BEHIND ALL CURBS.
5. THE NORTH SWALE AND THE DETENTION POND SHALL BE SEEDED AND FERTILIZED UPON COMPLETION OF THE EXCAVATION. ALL SEEDED AND FERTILIZED AREA TO BE IRRIGATED TO ENSURE GROWTH.

A. EROSION AND SEDIMENT CONTROLS: EROSION AND SEDIMENT CONTROLS SHALL RETAIN SEDIMENT ON SITE TO THE EXTENT PRACTICABLE. CONTROL MEASURES SHALL BE INSTALLED AND MAINTAINED IN ACCORDANCE WITH MANUFACTURER'S SPECIFICATIONS (WHERE APPLICABLE) AND GOOD ENGINEERING PRACTICES. OFFSITE SEDIMENT ACCUMULATIONS MUST BE REMOVED AT A FREQUENCY SUFFICIENT TO MINIMIZE OFFSITE IMPACTS. SEDIMENT MUST BE REMOVED FROM SEDIMENT TRAPS OR SEDIMENTATION PONDS WHEN CAPACITY HAS BEEN REDUCED BY 50%. LITTER, CONSTRUCTION DEBRIS, AND CONSTRUCTION CHEMICALS EXPOSED TO STORM WALL SHALL BE PREVENTED FROM BECOMING A POLLUTANT SOURCE FOR STORM WATER DISCHARGES.

B. STORM WATER MANAGEMENT MEASURES INSTALLED DURING CONSTRUCTION TO CONTROL POLLUTANTS IN STORM WATER DISCHARGES THAT WILL OCCUR AFTER CONSTRUCTION:
CURBS & GUTTERS STORM SEWERS

C. OTHER CONTROLS

NO SOLID MATERIALS, INCLUDING BUILDING MATERIALS, SHALL BE DISCHARGED TO WATERS OF THE UNITED STATES, EXCEPT AS AUTHORIZED BY A PERMIT ISSUED UNDER SECTION 404 OF THE CLEAN WATER ACT.

WASTE MATERIALS: ALL WASTE MATERIALS WILL BE COLLECTED AND STORED IN A SECURELY LIDDED METAL CONTAINER. THE CONTAINER SHALL MEET ALL STATE AND CITY SOLID WASTE MANAGEMENT REGULATIONS. THE CONTAINER SHALL BE EMPTIED AS NECESSARY AND THE TRASH HAULED TO AN APPROPRIATE DUMP SITE. NO CONSTRUCTION MATERIALS WILL BE BURIED ON SITE.

HAZARDOUS WASTE (INCLUDING SPILL REPORTING): AT A MINIMUM, ANY PRODUCTS IN THE FOLLOWING CATEGORIES ARE CONSIDERED TO BE HAZARDOUS: PAINT, CLEANING SOLVENTS, ASPHALT PRODUCTS, PETROLEUM PRODUCTS, CHEMICAL ADDITIVES FOR SOIL STABILIZATION, AND CONCRETE CURING COMPOUNDS AND ADDITIVES. IN THE EVENT OF A SPILL WHICH MAY BE HAZARDOUS, THE SPILL COORDINATOR SHOULD BE CONTACTED IMMEDIATELY.

SANITARY WASTE: PORTABLE SANITARY FACILITIES WILL BE PROVIDED BY THE CONTRACTOR. ALL SANITARY WASTES WILL BE COLLECTED FROM PORTABLE UNITS AND SERVICED BY A LICENSED SANITARY WASTE MANAGEMENT CONTRACTOR.

OFFSITE VEHICLE TRACKING SHALL BE MINIMIZED BY:
___ HAUL ROADS DAMPENED FOR DUST CONTROL LOADED
_X_ HAUL TRUCKS TO BE COVERED WITH TARPAULIN
_X_ EXCESS DIRT ON ROAD REMOVED DAILY STABILIZED
___ CONSTRUCTION ENTRANCE

OTHER: TRUCKS HAULING VEGETATION AND DEBRIS WILL BE MONITORED AND SHALL BE COVERED WITH TARPAULINS IF REQUIRED TO PREVENT DUST OR OTHER PARTICLES FROM BLOWING OR FALLING FROM TRUCK.

REMARKS: ALL OPERATIONS WILL BE CONDUCTED IN A MANNER THAT WILL MINIMIZE AND CONTROL THE AMOUNTS OF SEDIMENT THAT MAY ENTER THE RECEIVING WATERS. DISPOSAL AREAS SHALL NOT BE LOCATED IN ANY WETLAND, WATERBODY, OR STREAMBED. CONSTRUCTION STAGING AREAS AND VEHICLE MAINTENANCE AREAS SHALL BE CONSTRUCTED BY THE CONTRACTOR IN A MANNER TO MINIMIZE THE RUNOFF OF POLLUTANTS.

# 3. MAINTENANCE

ALL EROSION AND SEDIMENT CONTROLS WILL BE MAINTAINED IN EFFECTIVE OPERATING CONDITION. IF A REPAIR IS NECESSARY IT SHALL BE DONE AT THE EARLIEST TIME POSSIBLE, BUT NO LATER THAN SEVEN CALENDAR DAYS AFTER THE GROUND HAS DRIED SUFFICIENTLY TO PREVENT FURTHER DAMAGE FROM HEAVY EQUIPMENT. THE AREAS ADJACENT TO DRAINAGE WAYS SHALL HAVE PRIORITY, FOLLOWED BY DEVICES PROTECTING STORM SEWER INLETS. MAINTENANCE SHALL BE PERFORMED BEFORE THE NEXT ANTICIPATED STORM EVENT OR AS SOON AS PRACTICABLE.

# 4. INSPECTION

AN INSPECTION WILL BE PERFORMED BY THE PERMITEE EVERY FOURTEEN DAYS AS WELL AS AFTER EVERY ONE-HALF INCH OR GREATER RAINFALL EVENT. AN INSPECTION AND RAINFALL REPORT WILL BE MADE AFTER EACH INSPECTION. ANY DEFICIENCIES WILL BE NOTED AND APPROPRIATE CHANGES SHALL BE MADE TO THE SYSTEM TO COMPLY WITH REQUIREMENTS.

_X_ BUILDING WASHDOWN WITHOUT DETERGENTS
_X_ PAVEMENT WASHDOWN WITHOUT DETERGENTS
_X_ CONDENSATE
___ UNCONTAMINATED GROUNDWATER
___ UNCONTAMINATED FOUNDATION DRAINS

### GENERAL NOTES

1. Flags attached to signs where shown are REQUIRED.
2. All traffic control devices illustrated are REQUIRED, except those denoted with the triangle symbol may be omitted when stated elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
3. The CW3-4 "BE PREPARED TO STOP" sign may be installed after the CW20-4D "ONE LANE ROAD AHEAD" sign, but proper sign spacing shall be maintained.
4. Sign spacing may be increased or an additional CW20-1D "ROAD WORK AHEAD" sign may be used if advance warning ahead of the flagger or R1-2 "YIELD" sign is less than 1500 feet.
5. A Shadow Vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricades or other channelizing devices may be substituted for the Shadow Vehicle and TMA.
6. Additional Shadow Vehicles with TMAs may be positioned off the paved surface, next to those shown in order to protect wider work spaces.

### TCP (1-2a)

7. R1-2 "YIELD" sign traffic control may be used on projects with approaches that have adequate sight distance. For projects in urban areas, work spaces should be no longer than one half city block. In rural areas on roadways with less than 2000 ADT, work spaces should be no longer than 400 feet.
8. R1-2 "YIELD" sign with R1-2aP "TO ONCOMING TRAFFIC" plaque shall be placed on a support at a 7 foot minimum mounting height.

### TCP (1-2b)

9. Flaggers should use two-way radios or other methods of communication to control traffic.
10. Length of work space should be based on the ability of flaggers to communicate.
11. If the work space is located near a horizontal or vertical curve, the buffer distances should be increased in order to maintain adequate stopping sight distance to the flagger and a queue of stopped vehicles (see table above).
12. Channelizing devices on the center-line may be omitted when a pilot car is leading traffic and approved by the Engineer.
13. Flaggers should use 24" STOP/SLOW paddles to control traffic. Flags should be limited to emergency situations.

## PIPING CONNECTIONS DETAIL

SL-SS-05

NOTE:

1. INFLUENT AND EXFLUENT PIPING CONNECTIONS TO MANHOLE SHALL BE ALIGNED TO PREVENT REVERSE FLOW.
2. INFLUENT AND EXFLUENT CONNECTIONS ARE LIMITED TO A MAXIMUM 90° INCLUDED ANGLE OF CONVERGENCE.
3. MINIMUM 35° AND MAXIMUM 90° INCLUDED ANGLES MUST BE PROVIDED BETWEEN MULTIPLE INFLUENT CONNECTIONS.
4. ANGLE OF DEFLECTION AT PIPING JOINTS AS PER MANUFACTURE'S RECOMMENDATIONS.

NOTES:

1. CONTRACTOR SHALL CONTACT CITY OF ANGLETON ENGINEERING DEPARTMENT AT (979) 849-4364 IF WET SAND OR OTHER UNSTABLE SOIL CONDITIONS, HIGH WATER TABLE AND/OR UNDERGROUND OBSTRUCTIONS ARE ENCOUNTERED.
2. SHOULD A CONFLICT ARISE BETWEEN INFORMATION DEPICTED ON APPROVED CONSTRUCTION DRAWINGS AND INFORMATION INCLUDED IN PROJECT SPECIFICATIONS, CITY OF ANGLETON DESIGN STANDARDS SHALL GOVERN.
3. SANITARY SEWER MANHOLES SHALL BE CONSTRUCTED A MINIMUM OF FOUR FOOT FROM BACK OF CURB ON CURB AND GUTTER ROADWAYS AND THREE FEET FROM EDGE OF TRAVELLED ROADWAY ON THOSE THOROUGHFARES HAVING NO CURBING, MEASURED FROM OUTSIDE DIAMETER OF MANHOLE. SANITARY SEWER MANHOLES SHALL NOT BE INSTALLED BENEATH STREET PAVING EXCEPT WHERE SPECIFICALLY AUTHORIZED BY CITY ENGINEER AND SO DESIGNATED ON APPROVED CONSTRUCTION DRAWINGS.
4. ALL SUCH MANHOLE COVERS SHALL HAVE THE CITY OF ANGLETON EMBLEM AND THE WORDS "ANGLETON" AND "SANITARY SEWER" CAST IN RAISED RELIEF AS DEPICTED IN CITY OF ANGLETON STANDARD CONSTRUCTION DETAILS SHEETS. ALL SANITARY SEWER MANHOLES SHALL INCORPORATE INFLOW PROTECTORS.
5. MANHOLE RIM ELEVATIONS SHOWN ON PLANS ARE APPROXIMATE ONLY. CONTRACTORS SHALL ADJUST RIM ELEVATIONS TO 0.4 FEET ABOVE FINISHED GRADE WITHIN RIGHTS-OF-WAY AND EASEMENTS AT EACH MANHOLE LOCATION AFTER FINAL GRADING. ADJUSTMENTS TO MANHOLE RIM ELEVATIONS SHALL BE ACCOMPLISHED BY THE USE OF THROAT RINGS ONLY (MAX. OF 24 INCHES PERMITTED). THE AREA ADJACENT TO SANITARY SEWER MANHOLE LOCATIONS SHALL BE GRADED AWAY FROM SUCH MANHOLES SO AS PREVENT ENTRY OF STORM WATER RUNOFF TO THE SANITARY SEWER SYSTEM.
6. DROP CONNECTIONS ARE REQUIRED WHEN INVERT ELEVATION OF SEWER LINE TO BE CONNECTED EXCEEDS 38 INCHES DISTANCE ABOVE INVERT ELEVATION OF MANHOLE BASE. ALL DROP CONNECTIONS SHALL BE CONSTRUCTED OF SAME MATERIALS AS SEWER AND SHALL BE CONSTRUCTED EXTERIOR TO MANHOLE. PIPE CONNECTIONS TO MANHOLES SHALL BE SO CONSTRUCTED AS TO BE WATERTIGHT AND TO ALIGN UPPER INSIDE PIPE WALL ELEVATIONS OF ALL PIPING CONNECTED TO BASE OF MANHOLE UNIFORMLY, REGARDLESS OF PIPE DIAMETERS. DROP ASSEMBLIES SHALL BE BEDDED IN CEMENT STABILIZED SAND. CEMENT STABILIZED SAND SHALL EXTEND A MINIMUM OF SIX INCHES PAST PIPING LATERALLY FROM BASE OF MANHOLE UPWARD TO A POINT SIX INCHES (MINIMUM) ABOVE THE HORIZONTAL SEWER PIPING WHERE CONNECTED TO THE MANHOLE ABOVE THE VERTICAL DROP.
7. CONNECTIONS TO EXISTING AND/OR NEW SANITARY SEWER MANHOLES CONSTRUCTED OF PRECAST CONCRETE NOT HAVING PRECORED HOLES OF CORRECT DIAMETER, LOCATION AND FIELD CORING ONLY SHALL ACCOMPLISH INVERT ELEVATION. IN NO INSTANCE WILL EITHER MANUAL OR PNEUMATIC CHISELS AND/OR HAMMER DRILLS BE UTILIZED TO BREAK HOLES IN PRECAST CONCRETE MANHOLES, PIPE SEGMENTS OR OTHER PRECAST STRUCTURES SUCH AS LIFT STATIONS.
8. BEDDING AND BACKFILL OF SANITARY SEWER PIPING AND MANHOLES SHALL BE ACCOMPLISHED IN ACCORDANCE WITH CITY OF ANGLETON DESIGN STANDARDS. A 1.5-SACK MIX IS REQUIRED FOR ALL CEMENT STABILIZED SAND BEDDING AND SUCH BEDDING SHALL BE INSTALLED IN LIFTS OF EIGHT INCHES MAXIMUM.
9. SOLVENT WELDED JOINTS ARE NOT AN ACCEPTABLE JOINING METHOD FOR SANITARY SEWERS CONSTRUCTED OF PVC PIPING MATERIALS AND LOCATED WITHIN RIGHTS-OF-WAY OR EASEMENTS. RUBBER GASKETED BELL AND SPIGOT SANITARY SEWER JOINTS ARE MANDATORY. BELL (FEMALE) ENDS OF PIPE SHALL BE INSTALLED ON UPSTREAM SIDE WITH SPIGOT (MALE) ENDS ORIENTED DOWNSTREAM.
10. SANITARY SEWER SERVICE LEADS SHALL BE EXTENDED TO RIGHTS-OF-WAY AND/OR EASEMENT LINES AS APPLICABLE AND CAPPED/PLUGGED FOR FUTURE CONNECTIONS. SERVICE LEADS ARE TO BE INSTALLED SO AS TO PASS UNDER POTABLE WATER PIPING AT CROSSINGS WHERE POSSIBLE.
11. EACH SANITARY SEWER SERVICE LEAD STUB, PLUGGED WYE BRANCH OUTLET AND STACK SHALL BE MARKED WITH A PRESSURE TREATED 4 X 4 TIMBER AT THE TIME OF CONSTRUCTION, BEGINNING AT THE INVERT ELEVATION OF THE STUB OR WYE AND AT AN ELEVATION TWO FEET BELOW THE CAPPED TERMINATION POINT OF THE STACK AND EXTENDING TWO FEET ABOVE FINISHED GRADE. EACH TIMBER MARKER SHALL BE PAINTED RED AND LABELED "SANITARY SEWER STUB", "SANITARY SEWER WYE" OR "SANITARY SEWER STACK" AS APPROPRIATE WITH STUB, WYE BRANCH OUTLET OR STACK SIZE NOTED.
12. CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING LOCATION OF ALL EXISTING UTILITIES PRIOR TO EXCAVATION. DURING THE COURSE OF ANY AND ALL CLEARING, GRUBBING, FILL, GRADING, EXCAVATION OR OTHER CONSTRUCTION, CONTRACTOR SHALL ENSURE THAT STORM DRAINAGE PATHWAYS ARE MAINTAINED AND REMAIN OPEN TO ENSURE POSITIVE DRAINAGE AND THAT SUCH CONVEYANCES ARE NOT IMPEDED OR BLOCKED IN ANY WAY. STORM SEWER INLETS SHALL BE PROTECTED FROM ENTRY OF SILT, TRASH, DEBRIS AND ANY SUBSTANCES DELETERIOUS TO THE STORM SEWER SYSTEM AND/OR WATERWAYS RECEIVING STORM WATER RUNOFF. CONTRACTOR SHALL AT COMPLETION OF WORK, FILL LOW SPOTS AND GRADE ALL RIGHTS-OF-WAY AND UTILITY EASEMENTS AND REGRADE/RESTORE DITCHES AS NECESSARY TO MAINTAIN AND/OR ESTABLISH POSITIVE DRAINAGE.
13. ALL SANITARY SEWER PIPING AND BEDDING SHALL BE INSPECTED BY CITY CONSTRUCTION INSPECTOR FOR CONFORMANCE WITH CITY INFRASTRUCTURE STANDARDS. IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROPERLY NOTIFY THE CITY OF ALL CONSTRUCTION ACTIVITIES AND TO CONFORM TO CITY OF ANGLETON PUBLIC WORKS DEPARTMENT INSPECTION POLICY.
14. C.S.S. 1" ABOVE PIPE AND 6" BELOW PIPE MINIMUM.
15. SEE GENERAL NOTES AND C.S.S. NOTES.

GENERAL NOTES:

1. THE CONTRACTOR SHALL CONTACT CITY OF ANGLETON ENGINEERING DEPARTMENT AT 979 849 4364 IF WET SAND OR OTHER UNSTABLE SOIL CONDITIONS, HIGH WATER TABLE AND OR UNDERGROUND OBSTRUCTIONS ARE ENCOUNTERED.
2. SHOULD A CONFLICT ARISE BETWEEN INFORMATION DEPICTED ON APPROVED CONSTRUCTION DRAWINGS AND INFORMATION INCLUDED IN PROJECT SPECIFICATIONS ; CITY OF ANGLETON STANDARDS SHALL GOVERN.
3. ALL NEW POTABLE WATER LINES AND SANITARY SEWER FORCE MAINS SHALL BE BEDDED IN COMPACTED BANK SAND A MINIMUM OF 6 INCHES BELOW, ABOVE AND TO EITHER SIDE OF SUCH PIPING.
4. ALL NEW SANITARY SEWER GRAVITY DRAIN LINES SHALL BE BEDDED IN CEMENT STABILIZED SAND CONFORMING TO THE REQUIREMENTS FOR EITHER CLASS "A" STANDARD BEDDING OR CLASS "A-A" BEDDING AS APPLICABLE. USE OF MODIFIED "A" OR MODIFIED "A-A" BEDDING FOR SANITARY SEWER INSTALLATIONS WHERE WET SAND CONDITIONS ARE ENCOUNTERED AND SEPARATION DISTANCE TO POTABLE WATER LINES IS LESS THAN 9 FEET REQUIRES APPROVAL BY CITY ENGINEER.
5. CEMENT STABILIZED BEDDING SHALL BE A MINIMUM 1.5 SACK PER CUBIC YARD C.S.S., INSTALLED IN MAXIMUM LIFTS OF 8 INCHES AND MECHANICALLY TAMPED TO 95% PROCTOR.
6. WHERE REQUIRED, SLEEVING (ENCASEMENT) OF POTABLE WATER PIPING AND/OR SANITARY SEWER GRAVITY DRAIN LINES AND FORCE MAINS SHALL BE PROVIDED. SUCH SLEEVING (ENCASEMENT) SHALL BE CONSTRUCTED OF APPROVED PIPING MATERIALS HAVING A MINIMUM PRESSURE RATING OF 150 PSI AND ANNULAR SPACES AT EACH END SHALL BE SEALED WITH A MATERIAL APPROVED FOR SUCH USE.
7. ALL NEW POTABLE WATER LINES SHALL BE SLEEVED (ENCASED) WHERE A MINIMUM OF 9 FEET SEPARATION DISTANCE TO EXISTING OR PROPOSED SANITARY SEWER MANHOLE, LIFT STATION OR WASTEWATER TREATMENT PLANT CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CLOSEST PROXIMITY.
8. ALL NEW POTABLE WATER LINES SHALL BE SLEEVED (ENCASED) WHERE LESS THAN 2 FEET VERTICAL OR 4 FEET HORIZONTAL CLEARANCE TO EXISTING OR PROPOSED SANITARY SEWER GRAVITY LINES OR FORCE MAINS CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING. WHERE PIPING IS LAID PARALLEL AND MINIMUM SEPARATION DISTANCES CANNOT BE MAINTAINED, SLEEVING SHALL EXTEND AT LEAST 9 FEET PAST THE POINT WHERE MINIMUM SEPARATION DISTANCES ARE ACHIEVED.
9. ALL NEW POTABLE WATER LINES SHALL BE CONSTRUCTED ABOVE EXISTING OR PROPOSED SANITARY SEWER GRAVITY LINES OR FORCE MAINS WHERE POSSIBLE. WHERE INSTALLATION BENEATH SANITARY SEWER GRAVITY LINES OR FORCE MAINS IS UNAVOIDABLE AT POINTS OF CROSSING, SLEEVING (ENCASEMENT) IS REQUIRED FOR ALL NEW POTABLE WATER LINES CONSTRUCTED OF PVC PIPING MATERIALS, REGARDLESS OF SEPARATION DISTANCE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
10. ALL NEW SANITARY SEWER GRAVITY LINES AND/OR FORCE MAINS CONSTRUCTED OF PVC PIPING MATERIALS SHALL BE SLEEVED (ENCASED) WHERE LESS THAN 2 FEET VERTICAL OR 4 FEET HORIZONTAL CLEARANCE TO EXISTING POTABLE WATER PIPING CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CLOSEST PROXIMITY.
11. ALL NEW SANITARY SEWER GRAVITY LINES AND/OR FORCE MAINS SHALL BE CONSTRUCTED BELOW EXISTING POTABLE WATER LINES WHERE POSSIBLE. WHERE INSTALLATION ABOVE POTABLE WATER LINES IS UNAVOIDABLE, SLEEVING (ENCASEMENT) IS REQUIRED FOR ALL SUCH SANITARY SEWER LINES CONSTRUCTED OF PVC PIPING MATERIALS, REGARDLESS OF SEPARATION DISTANCE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
12. WHERE NEW SANITARY SEWER SIZING (24 INCH AND GREATER) PRECLUDES THE USE OF PVC PIPING MATERIALS AND SLEEVING (ENCASEMENT) OF THE SANITARY SEWER WOULD OTHERWISE BE REQUIRED BUT IS IMPRACTICAL, THE EXISTING POTABLE WATER PIPING SHALL EITHER BE OFFSET TO PROVIDE THE REQUIRED MINIMUM CLEARANCES OR SLEEVED (ENCASED) IN LIEU OF SLEEVING (ENCASING) THE SANITARY SEWER LINE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
13. IN NO INSTANCE SHALL A FIRE HYDRANT BE INSTALLED WITHIN 9 LINEAR FEET OF A SANITARY SEWER SYSTEM.
14. NOTE: SEPARATION DISTANCES ARE MEASURED FROM THE OUTSIDE DIAMETERS OF EACH PIPE AND FROM THE EXTERIOR SURFACES OF MANHOLES, LIFT STATIONS, WASTEWATER TREATMENT PLANTS AND ASSOCIATED APPURTENANCES.
15. REFER TO GENERAL SANITARY, WATER AND C.S.S. NOTES.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** June 22, 2021

**PREPARED BY:** Lindsay Koskiniemi, CGFO, CPM, Assistant Director of Development Services

**AGENDA CONTENT:** Discussion and possible action on the acceptance of the Riverwood Ranch Section One (1) subdivision public improvements

**AGENDA ITEM SECTION:** Regular Agenda

**BUDGETED AMOUNT:** N/A **FUNDS REQUESTED:** N/A

**FUND:** N/A

**EXECUTIVE SUMMARY:**

**Preliminary Acceptance Waiver Request:** The construction of the required public improvements (civil engineered portion - roadways, drainage, water and wastewater infrastructure, and street signs) of the Riverwood Ranch, Section One, subdivision development is substantially complete. Section 23-98 of the City of Angleton Land Development Code (LDC) requires that all installed public infrastructure improvements serving the subdivision be completed in accordance with approved construction plans prior to final plat recordation.

The public improvements acceptance process, as described in Section 23-98(I) is a two-step process consisting of:

1. Preliminary acceptance with a minimum one-year maintenance bond as an administrative act by the City Manager after recommendation by the City Engineer; and

2. Final acceptance (with a one-year maintenance bond) by City Council after recommendation from the City Manager and City Engineer at least one year after preliminary acceptance.

Prior to the adoption of the LDC, the public improvement acceptance process consisted of final acceptance with a one-year maintenance bond.

**Public Improvements Acceptance:** In conjunction with the project contractor, Matula & Matula and the project engineering/design consult, Baker & Lawson, City staff members from the Public

Works and Development Services Department completed preliminary and final inspections for the sight.

A punch list was developed with noted deficiencies in the preliminary project walk through inspection which were mostly remediated prior to the final inspection walk through. Two remaining items include re-grading of the west sides of the detention pond and re-laying of the City's right-of-way sidewalk with tie-in to the Riverwood Ranch subdivision sidewalks.

The developer and contractor are working on completing final outstanding items. CenterPoint recently installed underground gas utilities under the sidewalks, therefore, sidewalks in that area along N. Downing and to the entrance will need to be repoured and connected to the subdivision. The pond re-grading will be completed the week ending June 18, 2021, and the contractor has been given the directive from City staff to restore vegetation in affected areas.

**RECOMMENDATION:**

Staff supports waiving preliminary acceptance of the Riverwood Ranch Section One public improvements with a one-year maintenance bond.

Staff recommends City Council accept the Riverwood Ranch Section One public improvements subject to the completion of outstanding punch list items that include sidewalk replacement along N. Downing with connection of sidewalk to subdivision and detention pond regrading and vegetation restoration and pending successful completion of the one-year maintenance bond period.

**Motion:** I recommend approval of the preliminary acceptance waiver with a one-year maintenance bond conditionally with the successful completion of restoring City sidewalk at north side of entrance with tie-in, application of seed and restoration of vegetation of detention pond, correction of the pond slopes to 4:1, and receipt of an updated survey cross section of the detention pond.

Mr. Walter Reeves
Director of Development and Planning
City of Angleton

Angleton, Texas 77515

Re: Public Acceptance Process - Riverwood Ranch Subdivision, Section 1

Dear Mr. Reeves,

We are requesting a waiver for the following Section of the City of Angleton Land Development Code (LDC):

**Section 23-98. K. 1. Preliminary Acceptance to make this a final acceptance with a 1 year maintenance bond.**

After completion of the construction of the public improvements in a subdivision, a field inspection is conducted and a "punch list" of repairs or corrections of deficiencies is prepared for the construction contractor. In the past, after resolution of the "punch list" items, the City accepted the improvements with a one-year maintenance bond.

With the adoption of the Land Development Code in 2018 the public improvement acceptance process changed from a one-step process to a two-step process. The acceptance process described in the LDC is:

1. Preliminary acceptance with a minimum one-year maintenance bond as an administrative act by the City Manager after recommendation by the City Engineer; and
2. Final acceptance (with a one-year maintenance bond) by City Council after recommendation from the City Manager and City Engineer at least one year after preliminary acceptance.

The developer of Riverwood Ranch Subdivision, Section 1 is requesting a waiver of Section 23-98.K.1 Preliminary Acceptance and that City Council accept the public improvements with a one-year maintenance bond.

Prior to the adoption of the 2018 Land Development Code, the Contractor's one year maintenance bond was all that was required before final acceptance of the public improvements by the City.

If you have any questions or require further information please contact Baker & Lawson, Inc.

Sincerely,

Douglas B. Roesler, P.E.

President, Principal Engineer

STREET RIGHT OF WAY AND LOT AREAS WILL BE STRIPPED OF ALL VEGETATIVE MATTER. THIS MATERIAL WILL BE STOCKPILED ADJACENT TO THE WORK TO BE SPREAD ON DEVELOPED LOTS AFTER FINAL GRADING. UTILITY AND STORM SEWER CONSTRUCTION WILL REQUIRE TRENCHING. EXCAVATION FOR ROADWAY SUBGRADE AND DETENTION POND WILL INVOLVE SPREADING EXCAVATED MATERIAL ON ADJACENT LOTS. RAINFALL RUNOFF WILL BE DIRECTED TO THE STREET GUTTERS AND TO THE CONSTRUCTED STORM SEWER SYSTEM. TRUCKS WILL BE USED TO DELIVER MATERIAL TO THE PROJECT INCLUDING LIME, CONCRETE, UTILITY AND STORM SEWER MATERIALS AND OTHER CONSTRUCTION MATERIALS. TRUCKS WILL ALSO BE USED TO HAUL CONSTRUCTION DEBRIS AWAY FROM THE SITE. THESE TRUCKS WILL BE ROUTED ALONG DOWNING ROADS FOR INGRESS AND EGRESS. RUTTING DURING WET WEATHER WILL PROVIDE POTENTIAL FOR TRACKING MUD ALONG THE ROUTE.

C. TOTAL PROJECT AREA: 78 ACRES

D. TOTAL AREA TO BE DISTURBED: 25 ACRES

WEIGHTED RUNOFF COEFFICIENT

# 2. CONTROLS

NARRATIVE - SEQUENCE OF CONSTRUCTION ACTIVITIES AND APPROPRIATE CONTROL MEASURES DURING CONSTRUCTION

THE ORDER OF CONSTRUCTION WILL BEGIN WITH STRIPPING OF ALL VEGETATION FROM THE WORK AREA.

1. INSTALL SILT FENCE AROUND THE PERIMETER OF THE AREA TO BE DISTURBED. THE ORDER OF ACTIVITIES WILL BEGIN WITH THE COMPLETE STRIPPING OF ALL AREAS TO RECEIVE FILL MATERIAL. REMOVED VEGETATION TO BE STOCKPILED ADJACENT TO THE WORK TO BE SPREAD AFTER LOT GRADING IS COMPLETE.

2. INSTALL WATER LINES, SANITARY SEWER LINES AND MANHOLES AND STORM SEWER PIPES, INLETS AND MANHOLES. INSTALL INLET PROTECTION BARRIERS AROUND ALL INLETS.

3. ROADWAY EXCAVATION, LIME STABILIZATION AND CONCRETE PAVING WILL FOLLOW UNDERGROUND UTILITY AND STORM SEWER CONSTRUCTION. DURING ROADWAY WORK, THE DETENTION POND WILL BE EXCAVATED AND MATERIAL SPREAD ON LOTS. INSTALL SILT FENCE IN THE BOTTOM OF THE POND UPSTREAM OF THE RESTRICTIVE OUTFALL CULVERT.

4. AS SOON AS CONCRETE CURBS ARE INSTALLED, PLACE 18" WIDE SOLID SOD BEHIND ALL CURBS.

5. THE DETENTION POND SHALL BE SEEDED AND FERTILIZED UPON COMPLETION OF THE EXCAVATION. ALL SEEDED AND FERITLIZED AREA TO BE IRRIGATED TO ENSURE GROWTH.

A. EROSION AND SEDIMENT CONTROLS: EROSION AND SEDIMENT CONTROLS SHALL RETAIN SEDIMENT ON SITE TO THE EXTENT PRACTICABLE. CONTROL MEASURES SHALL BE INSTALLED AND MAINTAINED IN ACCORDANCE WITH MANUFACTURER'S SPECIFICATIONS (WHERE APPLICABLE) AND GOOD ENGINEERING PRACTICES. OFFSITE SEDIMENT ACCUMULATIONS MUST BE REMOVED AT A FREQUENCY SUFFICIENT TO MINIMIZE OFFSITE IMPACTS. SEDIMENT MUST BE REMOVED FROM SEDIMENT TRAPS OR SEDIMENTATION PONDS WHEN CAPACITY HAS BEEN REDUCED BY 50%. LITTER, CONSTRUCTION DEBRIS, AND CONSTRUCTION CHEMICALS EXPOSED TO STORM WALL SHALL BE PREVENTED FROM BECOMING A POLLUTANT SOURCE FOR STORM WATER DISCHARGES.

B. STORM WATER MANAGEMENT MEASURES INSTALLED DURING CONSTRUCTION TO CONTROL POLLUTANTS IN STORM WATER DISCHARGES THAT WILL OCCUR AFTER CONSTRUCTION:
CURBS & GUTTERS STORM SEWERS

C. OTHER CONTROLS

NO SOLID MATERIALS, INCLUDING BUILDING MATERIALS, SHALL BE DISCHARGED TO WATERS OF THE UNITED STATES, EXCEPT AS AUTHORIZED BY A PERMIT ISSUED UNDER SECTION 404 OF THE CLEAN WATER ACT.

WASTE MATERIALS: ALL WASTE MATERIALS WILL BE COLLECTED AND STORED IN A SECURELY LIDDED METAL CONTAINER. THE CONTAINER SHALL MEET ALL STATE AND CITY SOLID WASTE MANAGEMENT REGULATIONS. THE CONTAINER SHALL BE EMPTIED AS NECESSARY AND THE TRASH HAULED TO AN APPROPRIATE DUMP SITE. NO CONSTRUCTION MATERIALS WILL BE BURIED ON SITE.

HAZARDOUS WASTE (INCLUDING SPILL REPORTING): AT A MINIMUM, ANY PRODUCTS IN THE FOLLOWING CATEGORIES ARE CONSIDERED TO BE HAZARDOUS: PAINT, CLEANING SOLVENTS, ASPHALT PRODUCTS, PETROLEUM PRODUCTS, CHEMICAL ADDITIVES FOR SOIL STABILIZATION, AND CONCRETE CURING COMPOUNDS AND ADDITIVES. IN THE EVENT OF A SPILL WHICH MAY BE HAZARDOUS, THE SPILL COORDINATOR SHOULD BE CONTACTED IMMEDIATELY.

SANITARY WASTE: PORTABLE SANITARY FACILITIES WILL BE PROVIDED BY THE CONTRACTOR. ALL SANITARY WASTES WILL BE COLLECTED FROM PORTABLE UNITS AND SERVICED BY A LICENSED SANITARY WASTE MANAGEMENT CONTRACTOR.

OFFSITE VEHICLE TRACKING SHALL BE MINIMIZED BY:

___ HAUL ROADS DAMPENED FOR DUST CONTROL LOADED
X HAUL TRUCKS TO BE COVERED WITH TARPAULIN
X EXCESS DIRT ON ROAD REMOVED DAILY STABILIZED
___ CONSTRUCTION ENTRANCE

OTHER: TRUCKS HAULING VEGETATION AND DEBRIS WILL BE MONITORED AND SHALL BE COVERED WITH TARPAULINS IF REQUIRED TO PREVENT DUST OR OTHER PARTICLES FROM BLOWING OR FALLING FROM TRUCK.

REMARKS: ALL OPERATIONS WILL BE CONDUCTED IN A MANNER THAT WILL MINIMIZE AND CONTROL THE AMOUNTS OF SEDIMENT THAT MAY ENTER THE RECEIVING WATERS. DISPOSAL AREAS SHALL NOT BE LOCATED IN ANY WETLAND, WATERBUDY, OR STREAMBED. CONSTRUCTION STAGING AREAS AND VEHICLE MAINTENANCE AREAS SHALL BE CONSTRUCTED BY THE CONTRACTOR IN A MANNER TO MINIMIZE THE RUNOFF OF POLLUTANTS.

# 3. MAINTENANCE

ALL EROSION AND SEDIMENT CONTROLS WILL BE MAINTAINED IN EFFECTIVE OPERATING CONDITION. IF A REPAIR IS NECESSARY IT SHALL BE DONE AT THE EARLIEST TIME POSSIBLE, BUT NO LATER THAN SEVEN CALENDAR DAYS AFTER THE GROUND HAS DRIED SUFFICIENTLY TO PREVENT FURTHER DAMAGE FROM HEAVY EQUIPMENT. THE AREAS ADJACENT TO DRAINAGE WAYS SHALL HAVE PRIORITY, FOLLOWED BY DEVICES PROTECTING STORM SEWER INLETS. MAINTENANCE SHALL BE PERFORMED BEFORE THE NEXT ANTICIPATED STORM EVENT OR AS SOON AS PRACTICABLE.

# 4. INSPECTION

AN INSPECTION WILL BE PERFORMED BY THE PERMITEE EVERY FOURTEEN DAYS AS WELL AS AFTER EVERY ONE-HALF INCH OR GREATER RAINFALL EVENT. AN INSPECTION AND RAINFALL REPORT WILL BE MADE AFTER EACH INSPECTION. ANY DEFICIENCIES WILL BE NOTED AND APPROPRIATE CHANGES SHALL BE MADE TO THE SYSTEM TO COMPLY WITH REQUIREMENTS.

# 5. NON-STORMWATER DISCHARGES

___ FIRE HYDRANT FLUSHING
X BUILDING WASHDOWN WITHOUT DETERGENTS
X PAVEMENT WASHDOWN WITHOUT DETERGENTS
X CONDENSATE
___ UNCONTAMINATED GROUNDWATER
___ UNCONTAMINATED FOUNDATION DRAINS

## GENERAL NOTES

1. Flags attached to signs where shown, are REQUIRED.
2. All traffic control devices illustrated are REQUIRED, except those denoted with the triangle symbol may be omitted when stated elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
3. A Shadow Vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew eposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricades or other channelizing devices may be substitutued for the Shadow Vehicle and TMA.
4. Additional Shadow Vehicles with TMAs may be positioned in each closed lane, on the shoulder or off the paved surface, next to those shown in order to protect a wider work space.
5. The downstream taper is optional. When used, it should be 100 feet approximately per lane, with channelizing devices spaced at 20 feet.

### TCP (2-5a)

6. If this TCP is used for a left lane closure, CW20-5TL "LEFT LANE CLOSED" signs shall be used and channelizing devices shall be placed on the centerline to protect the work space from opposing traffic, with the arrow board placed in the closed lane near the end of the merging taper.

### TCP (2-5b)

7. Conflicting pavement markings shall be removed for long-term projects.

## PIPING CONNECTIONS DETAIL

SL-SS-05

NOTE:

1. INFLUENT AND EXFLUENT PIPING CONNECTION'S TO MANHOLE SHALL BE ALIGNED TO PREVENT REVERSE FLOW.
2. INFLUENT AND EXFLUENT CONNECTIONS ARE LIMITED TO A MAXIMUM 90° INCLUDED ANGLE OF CONVERGENCE.
3. MINIMUM 35° AND MAXIMUM 90° INCLUDED ANGLES MUST BE PROVIDED BETWEEN MULTIPLE INFLUENT CONNECTIONS.
4. ANGLE OF DEFLECTION AT PIPING JOINTS AS PER MANUFACTURE'S RECOMMENDATIONS.

NOTES:

1. CONTRACTOR SHALL CONTACT CITY OF ANGLETON ENGINEERING DEPARTMENT AT (979) 849-4364 IF WET SAND OR OTHER UNSTABLE SOIL CONDITIONS, HIGH WATER TABLE AND/OR UNDERGROUND OBSTRUCTIONS ARE ENCOUNTERED.
2. SHOULD A CONFLICT ARISE BETWEEN INFORMATION DEPICTED ON APPROVED CONSTRUCTION DRAWINGS AND INFORMATION INCLUDED IN PROJECT SPECIFICATIONS, CITY OF ANGLETON DESIGN STANDARDS SHALL GOVERN.
3. SANITARY SEWER MANHOLES SHALL BE CONSTRUCTED A MINIMUM OF FOUR FOOT FROM BACK OF CURB ON CURB AND GUTTER ROADWAYS AND THREE FEET FROM EDGE OF TRAVELLED ROADWAY ON THOSE THOROUGHFARES HAVING NO CURBING, MEASURED FROM OUTSIDE DIAMETER OF MANHOLE. SANITARY SEWER MANHOLES SHALL NOT BE INSTALLED BENEATH STREET PAVING EXCEPT WHERE SPECIFICALLY AUTHORIZED BY CITY ENGINEER AND SO DESIGNATED ON APPROVED CONSTRUCTION DRAWINGS.
4. ALL SUCH MANHOLE COVERS SHALL HAVE THE CITY OF ANGLETON EMBLEM AND THE WORDS "ANGLETON" AND "SANITARY SEWER" CAST IN RAISED RELIEF AS DEPICTED IN CITY OF ANGLETON STANDARD CONSTRUCTION DETAILS SHEETS. ALL SANITARY SEWER MANHOLES SHALL INCORPORATE INFLOW PROTECTORS.
5. MANHOLE RIM ELEVATIONS SHOWN ON PLANS ARE APPROXIMATE ONLY. CONTRACTORS SHALL ADJUST RIM ELEVATIONS TO 0.4 FEET ABOVE FINISHED GRADE WITHIN RIGHTS-OF-WAY AND EASEMENTS AT EACH MANHOLE LOCATION AFTER FINAL GRADING. ADJUSTMENTS TO MANHOLE RIM ELEVATIONS SHALL BE ACCOMPLISHED BY THE USE OF THROAT RINGS ONLY (MAX. OF 24 INCHES PERMITTED). THE AREA ADJACENT TO SANITARY SEWER MANHOLE LOCATIONS SHALL BE GRADED AWAY FROM SUCH MANHOLES SO AS PREVENT ENTRY OF STORM WATER RUNOFF TO THE SANITARY SEWER SYSTEM.
6. DROP CONNECTIONS ARE REQUIRED WHEN INVERT ELEVATION OF SEWER LINE TO BE CONNECTED EXCEEDS 36 INCHES DISTANCE ABOVE INVERT ELEVATION OF MANHOLE BASE. ALL DROP CONNECTIONS SHALL BE CONSTRUCTED OF SAME MATERIALS AS SEWER AND SHALL BE CONSTRUCTED EXTERIOR TO MANHOLE. PIPE CONNECTIONS TO MANHOLES SHALL BE SO CONSTRUCTED AS TO BE WATERTIGHT AND TO ALIGN UPPER INSIDE PIPE WALL ELEVATIONS OF ALL PIPING CONNECTED TO BASE OF MANHOLE UNIFORMLY, REGARDLESS OF PIPE DIAMETERS. DROP ASSEMBLIES SHALL BE BEDDED IN CEMENT STABILIZED SAND. CEMENT STABILIZED SAND SHALL EXTEND A MINIMUM OF SIX INCHES PAST PIPING LATERALLY FROM BASE OF MANHOLE UPWARD TO A POINT SIX INCHES (MINIMUM) ABOVE THE HORIZONTAL SEWER PIPING WHERE CONNECTED TO THE MANHOLE ABOVE THE VERTICAL DROP.
7. CONNECTIONS TO EXISTING AND/OR NEW SANITARY SEWER MANHOLES CONSTRUCTED OF PRECAST CONCRETE NOT HAVING PRECORED HOLES OF CORRECT DIAMETER, LOCATION AND FIELD CORING ONLY SHALL ACCOMPLISH INVERT ELEVATION. IN NO INSTANCE WILL EITHER MANUAL OR PNEUMATIC CHISELS AND/OR HAMMER DRILLS BE UTILIZED TO BREAK HOLES IN PRECAST CONCRETE MANHOLES, PIPE SEGMENTS OR OTHER PRECAST STRUCTURES SUCH AS LIFT STATIONS.
8. BEDDING AND BACKFILL OF SANITARY SEWER PIPING AND MANHOLES SHALL BE ACCOMPLISHED IN ACCORDANCE WITH CITY OF ANGLETON DESIGN STANDARDS. A 1.5-SACK MIX IS REQUIRED FOR ALL CEMENT STABILIZED SAND BEDDING AND SUCH BEDDING SHALL BE INSTALLED IN LIFTS OF EIGHT INCHES MAXIMUM.
9. SOLVENT WELDED JOINTS ARE NOT AN ACCEPTABLE JOINING METHOD FOR SANITARY SEWERS CONSTRUCTED OF PVC PIPING MATERIALS AND LOCATED WITHIN RIGHTS-OF-WAY OR EASEMENTS. RUBBER GASKETED BELL AND SPIGOT SANITARY SEWER JOINTS ARE MANDATORY. BELL (FEMALE) ENDS OF PIPE SHALL BE INSTALLED ON UPSTREAM SIDE WITH SPIGOT (MALE) ENDS ORIENTED DOWNSTREAM.
10. SANITARY SEWER SERVICE LEADS SHALL BE EXTENDED TO RIGHTS-OF-WAY AND/OR EASEMENT LINES AS APPLICABLE AND CAPPED/PLUGGED FOR FUTURE CONNECTIONS. SERVICE LEADS ARE TO BE INSTALLED SO AS TO PASS UNDER POTABLE WATER PIPING AT CROSSINGS WHERE POSSIBLE.
11. EACH SANITARY SEWER SERVICE LEAD STUB, PLUGGED WYE BRANCH OUTLET AND STACK SHALL BE MARKED WITH A PRESSURE TREATED 4 X 4 TIMBER AT THE TIME OF CONSTRUCTION, BEGINNING AT THE INVERT ELEVATION OF THE STUB OR WYE AND AT AN ELEVATION TWO FEET BELOW THE CAPPED TERMINATION POINT OF THE STACK AND EXTENDING TWO FEET ABOVE FINISHED GRADE. EACH TIMBER MARKER SHALL BE PAINTED RED AND LABELED "SANITARY SEWER STUB", "SANITARY SEWER WYE" OR "SANITARY SEWER STACK" AS APPROPRIATE WITH STUB, WYE BRANCH OUTLET OR STACK SIZE NOTED.
12. CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING LOCATION OF ALL EXISTING UTILITIES PRIOR TO EXCAVATION. DURING THE COURSE OF ANY AND ALL CLEARING, GRUBBING, FILL, GRADING, EXCAVATION OR OTHER CONSTRUCTION, CONTRACTOR SHALL ENSURE THAT STORM DRAINAGE PATHWAYS ARE MAINTAINED AND REMAIN OPEN TO ENSURE POSITIVE DRAINAGE AND THAT SUCH CONVEYANCES ARE NOT IMPEDED OR BLOCKED IN ANY WAY. STORM SEWER INLETS SHALL BE PROTECTED FROM ENTRY OF SILT, TRASH, DEBRIS AND ANY SUBSTANCES DELETERIOUS TO THE STORM SEWER SYSTEM AND/OR WATERWAYS RECEIVING STORM WATER RUNOFF. CONTRACTOR SHALL AT COMPLETION OF WORK, FILL LOW SPOTS AND GRADE ALL RIGHTS-OF-WAY AND UTILITY EASEMENTS AND REGRADE/RESTORE DITCHES AS NECESSARY TO MAINTAIN AND/OR ESTABLISH POSITIVE DRAINAGE.
13. ALL SANITARY SEWER PIPING AND BEDDING SHALL BE INSPECTED BY CITY CONSTRUCTION INSPECTOR FOR CONFORMANCE WITH CITY INFRASTRUCTURE STANDARDS. IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROPERLY NOTIFY THE CITY OF ALL CONSTRUCTION ACTIVITIES AND TO CONFORM TO CITY OF ANGLETON PUBLIC WORKS DEPARTMENT INSPECTION POLICY.
14. C.S.S. 1" ABOVE PIPE AND 6" BELOW PIPE MINIMUM.
15. SEE GENERAL NOTES AND C.S.S. NOTES.

SL-SS-07

## Integral Storz Connection

SECTION A-1 — SPECIAL SERVICE FIRE HYDRANTS AND ACCESSORIES — Mueller Co. — UL / FM — FIRE PROTECTION PRODUCTS

### Mueller® Centurion® Fire Hydrant with Intergral Storz Connection

Now any Mueller Centurion Hydrant (traditional or Modern style), can be ordered with an integral Storz connection on the pumper nozzle. The nozzle can also be ordered separately to retrofit hydrants in the field.

The Storz connection allows the fire department to connect its pumper hose to the hydrant with a quick, quarter-turn action. The action is fast and smooth so firefighters can get to their tasks quickly without the thread alignment, cross threading, or leakage problems sometimes associated with threaded connections.

The Storz option is available for 4" or 5" pumper nozzles on any Centurion (200, 250, or Modern) hydrants. Mueller hydrants retain their UL Approval, FM Listing, AWWA Compliance and published pressure rating when ordered with this Storz option. Hydrants are also compliant with NFPA 1963.

When ordering the integral Storz pumper nozzle, it is no longer necessary to provide an option number on the order. On the order, state the "Storz" size, and locking or non-locking cap.

SL-WA-11

GENERAL NOTES:

1. THE CONTRACTOR SHALL CONTACT CITY OF ANGLETON ENGINEERING DEPARTMENT AT 979 849 4364 IF WET SAND OR OTHER UNSTABLE SOIL CONDITIONS, HIGH WATER TABLE AND OR UNDERGROUND OBSTRUCTIONS ARE ENCOUNTERED.
2. SHOULD A CONFLICT ARISE BETWEEN INFORMATION DEPICTED ON APPROVED CONSTRUCTION DRAWINGS AND INFORMATION INCLUDED IN PROJECT SPECIFICATIONS ; CITY OF ANGLETON STANDARDS SHALL GOVERN.
3. ALL NEW POTABLE WATER LINES AND SANITARY SEWER FORCE MAINS SHALL BE BEDDED IN COMPACTED BANK SAND A MINIMUM OF 6 INCHES BELOW, ABOVE AND TO EITHER SIDE OF SUCH PIPING.
4. ALL NEW SANITARY SEWER GRAVITY DRAIN LINES SHALL BE BEDDED IN CEMENT STABILIZED SAND CONFORMING TO THE REQUIREMENTS FOR EITHER CLASS "A" STANDARD BEDDING OR CLASS "A-A" BEDDING AS APPLICABLE. USE OF MODIFIED "A" OR MODIFIED "A-A" BEDDING FOR SANITARY SEWER INSTALLATIONS WHERE WET SAND CONDITIONS ARE ENCOUNTERED AND SEPARATION DISTANCE TO POTABLE WATER LINES IS LESS THAN 9 FEET REQUIRES APPROVAL BY CITY ENGINEER.
5. CEMENT STABILIZED BEDDING SHALL BE A MINIMUM 1.5 SACK PER CUBIC YARD C.S.S., INSTALLED IN MAXIMUM LIFTS OF 8 INCHES AND MECHANICALLY TAMPED TO 95% PROCTOR.
6. WHERE REQUIRED, SLEEVING (ENCASEMENT) OF POTABLE WATER PIPING AND/OR SANITARY SEWER GRAVITY DRAIN LINES AND FORCE MAINS SHALL BE PROVIDED. SUCH SLEEVING (ENCASEMENT) SHALL BE CONSTRUCTED OF APPROVED PIPING MATERIALS HAVING A MINIMUM PRESSURE RATING OF 150 PSI AND ANNULAR SPACES AT EACH END SHALL BE SEALED WITH A MATERIAL APPROVED FOR SUCH USE.
7. ALL NEW POTABLE WATER LINES SHALL BE SLEEVED (ENCASED) WHERE A MINIMUM OF 9 FEET SEPARATION DISTANCE TO EXISTING OR PROPOSED SANITARY SEWER MANHOLE, LIFT STATION OR WASTEWATER TREATMENT PLANT CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CLOSEST PROXIMITY.
8. ALL NEW POTABLE WATER LINES SHALL BE SLEEVED (ENCASED) WHERE LESS THAN 2 FEET VERTICAL OR 4 FEET HORIZONTAL CLEARANCE TO EXISTING OR PROPOSED SANITARY SEWER GRAVITY LINES OR FORCE MAINS CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING. WHERE PIPING IS LAID PARALLEL AND MINIMUM SEPARATION DISTANCES CANNOT BE MAINTAINED, SLEEVING SHALL EXTEND AT LEAST 9 FEET PAST THE POINT WHERE MINIMUM SEPARATION DISTANCES ARE ACHIEVED.
9. ALL NEW POTABLE WATER LINES SHALL BE CONSTRUCTED ABOVE EXISTING OR PROPOSED SANITARY SEWER GRAVITY LINES OR FORCE MAINS WHERE POSSIBLE. WHERE INSTALLATION BENEATH SANITARY SEWER GRAVITY LINES OR FORCE MAINS IS UNAVOIDABLE AT POINTS OF CROSSING, SLEEVING (ENCASEMENT) IS REQUIRED FOR ALL NEW POTABLE WATER LINES CONSTRUCTED OF PVC PIPING MATERIALS, REGARDLESS OF SEPARATION DISTANCE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
10. ALL NEW SANITARY SEWER GRAVITY LINES AND/OR FORCE MAINS CONSTRUCTED OF PVC PIPING MATERIALS SHALL BE SLEEVED (ENCASED) WHERE LESS THAN 2 FEET VERTICAL OR 4 FEET HORIZONTAL CLEARANCE TO EXISTING POTABLE WATER PIPING CANNOT BE MAINTAINED. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CLOSEST PROXIMITY.
11. ALL NEW SANITARY SEWER GRAVITY LINES AND/OR FORCE MAINS SHALL BE CONSTRUCTED BELOW EXISTING POTABLE WATER LINES WHERE POSSIBLE. WHERE INSTALLATION ABOVE POTABLE WATER LINES IS UNAVOIDABLE, SLEEVING (ENCASEMENT) IS REQUIRED FOR ALL SUCH SANITARY SEWER LINES CONSTRUCTED OF PVC PIPING MATERIALS, REGARDLESS OF SEPARATION DISTANCE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
12. WHERE NEW SANITARY SEWER SIZING (24 INCH AND GREATER) PRECLUDES THE USE OF PVC PIPING MATERIALS AND SLEEVING (ENCASEMENT) OF THE SANITARY SEWER WOULD OTHERWISE BE REQUIRED BUT IS IMPRACTICAL, THE EXISTING POTABLE WATER PIPING SHALL EITHER BE OFFSET TO PROVIDE THE REQUIRED MINIMUM CLEARANCES OR SLEEVED (ENCASED) IN LIEU OF SLEEVING (ENCASING) THE SANITARY SEWER LINE. SLEEVING SHALL BE A MINIMUM OF 18 FEET IN LENGTH AND CENTERED ON THE POINT OF CROSSING.
13. IN NO INSTANCE SHALL A FIRE HYDRANT BE INSTALLED WITHIN 9 LINEAR FEET OF A SANITARY SEWER SYSTEM.
14. NOTE: SEPARATION DISTANCES ARE MEASURED FROM THE OUTSIDE DIAMETERS OF EACH PIPE AND FROM THE EXTERIOR SURFACES OF MANHOLES, LIFT STATIONS, WASTEWATER TREATMENT PLANTS AND ASSOCIATED APPURTENANCES.
15. REFER TO GENERAL SANITARY, WATER AND C.S.S. NOTES.

NOTES:

1. ALL SLOPES ARE MAXIMUM ALLOWABLE. THE LEAST POSSIBLE SLOPE THAT WILL STILL DRAIN PROPERLY SHOULD BE USED. RAMP LENGTH OR GRADE OF APPROACH SIDEWALKS MAY BE ADJUSTED AS DIRECTED
2. THE MINIMUM SIDEWALK WIDTH IS 5' (FEET). THE LANDING SHALL BE 5' x 5' WITH A MAXIMUM SLOPE OF 2% IN ANY DIRECTION. MAXIMUM ALLOWABLE CROSS SLOPE ON SIDEWALK AND RAMP SURFACES IS 2%. USUAL SIDEWALK CROSS SLOPE EQUALS 1.5%. CHANGES IN LEVEL GREATER THAN 1/4" (IN.) ARE NOT PERMITTED.
3. MANEUVERING SPACE AT THE BOTTOM OF CURB RAMPS SHALL BE A MINIMUM OF 5' x 5' WHOLLY CONTAINED WITHIN THE CROSSWALK AND WHOLLY OUTSIDE THE PARALLEL VEHICULAR TRAVEL PATH.
4. ANY PART OF THE ACCESSIBLE ROUTE WITH A SLOPE GREATER THAN 1:20 (5%) SHALL BE CONSIDERED A RAMP. IF A RAMP HAS A RISE GREATER THAN 6" (IN.) OR A HORIZONTAL PROJECTION GREATER THAN 72 INCHES, THEN IT SHALL HAVE HANDRAILS ON BOTH SIDES, WITH THE FOLLOWING EXCEPTIONS:
   A.) HANDRAILS ARE NOT REQUIRED ON CURB RAMPS. CURB RAMPS SHALL BE PROVIDED WHEREVER AN ACCESSIBLE ROUTE CROSSES (PENETRATES) A CURB.
   B.) THE LEAST POSSIBLE GRADE SHOULD BE USED TO MAXIMIZE ACCESSIBILITY. WHERE STRUCTURALLY IMPRACTICAL TO ACHIEVE TEXAS ACCESSIBILITY STANDARDS (TAS) COMPLIANCE, THE RUNNING SLOPE OF SIDEWALKS AND CROSSWALKS, WITHIN THE PUBLIC R.O.W., MAY FOLLOW THE GRADE OF THE PARALLEL ROADWAY WITHOUT INVOKING TEXAS ACCESSIBILITY STANDARDS (TAS) VARIANCES FOR LANDINGS OR HANDRAILS. WHERE A CONTINUOUS GRADE GREATER THAN 5% MUST BE PROVIDED, HANDRAILS MAY BE DESIRABLE ON ONE OR BOTH SIDES OF THE SIDEWALK TO IMPROVE ACCESSIBILITY. HANDRAILS MAY ALSO BE NEEDED TO PROTECT PEDESTRIANS FROM POTENTIALLY HAZARDOUS CONDITIONS.
5. CURB RAMPS WITH RETURNED CURBS MAY BE USED ONLY WHERE PEDESTRIANS WOULD NOT NORMALLY WALK ACROSS THE RAMP. OTHERWISE, FLARED SIDES SHALL BE PROVIDED. ALL CONCRETE SURFACES SHALL RECEIVE A LIGHT BROOM FINISH UNLESS NOTED OTHERWISE IN THE PLANS.
6. RAMP TEXTURES MUST CONSIST OF TRUNCATED DOME SURFACES, IN ACCORDANCE WITH ADA AND TEXAS DEPARTMENT OF LICENSING AND REGULATIONS (TDLR), TEXTURES ARE REQUIRED TO BE DETECTABLE UNDERFOOT. TEXTURES ALSO SHALL CONTRAST VISUALLY WITH ADJOINING SURFACES. SURFACES THAT WOULD ALLOW WATER TO ACCUMULATE ARE PROHIBITED.
7. ADDITIONAL INFORMATION ON CURB RAMP LOCATION, DESIGN, LIGHT REFLECTIVE VALUE AND TEXTURE MAY BE FOUND IN THE CURRENT EDITION OF THE TEXAS ACCESSIBILITY STANDARDS (TAS) PREPARED AND ADMINISTERED BY THE TEXAS DEPARTMENT OF LICENSING AND REGULATION (TDLR).
8. RAISED MEDIANS SEPARATE OPPOSING DIRECTIONS OF TRAFFIC AND PROVIDE A REFUGE AREA FOR PEDESTRIANS UNABLE TO CROSS THE ENTIRE ROADWAY IN THE ALLOTTED SIGNAL PHASE. TO SERVE AS A REFUGE AREA, THE MEDIAN SHALL BE A MINIMUM OF 5' (FT.) WIDE. MEDIANS SHOULD BE DESIGNED TO PROVIDE ACCESSIBLE PASSAGE OVER OR THROUGH THEM.
9. SMALL CHANNELIZATION ISLANDS, WHICH CAN NOT PROVIDE A MINIMUM 5' x 5' LANDING AT THE TOP OF RAMPS, SHALL BE CUT THROUGH LEVEL WITH THE SURFACE OF THE STREET.
10. CROSSWALK DIMENSIONS, CROSSWALK MARKINGS AND STOP BAR LOCATIONS SHALL BE AS SHOWN IN THE PLANS. AT INTERSECTIONS WHERE CROSSWALK MARKINGS ARE NOT REQUIRED, RAMPS SHALL BE ALIGNED WITH THEORETICAL CROSSWALKS, OR AS DIRECTED BY THE ENGINEER.
11. EXISTING FEATURES THAT COMPLY WITH T.A.S. MAY REMAIN IN PLACE UNLESS OTHERWISE SHOWN ON THE PLANS.
12. TRAFFIC SIGNAL OR ILLUMINATION POLES, GROUND BOXES, CONTROLLER BOXES, SIGNS, DRAINAGE FACILITIES AND OTHER ITEMS SHALL BE PLACED SO NOT TO OBSTRUCT THE ACCESSIBLE ROUTE.

## HYPER–CHLORINATED WATER NOTES

1. HYPER–CHLORINATED WATER SHALL NOT BE DISCHARGED TO THE STORM SEWER OR DRAINAGE SYSTEM UNLESS THE CHLORINE CONCENTRATION IS REDUCED TO 4 PPM OR LESS BY CHEMICALLY TREATING THE DECHLORINATE OR BY ONSITE RETENTION UNTIL NATURAL ATTENUATION OCCURS.
2. DISCHARGE OF HIGH FLOW RATE AND VELOCITIES SHALL BE DIRECTED TO VELOCITY DISSIPATION DEVICES.
3. CHLORINE CAN BURN VEGETATION, SO IT SHOULD NOT BE USED TO WATER VEGETATION THAT IS BEING USED FOR STABILIZATION, VEGETATED FILTERS OR BUFFERS, OR OTHER VEGETATION TO BE PRESERVED.
4. HYPER–CHLORINATED WATER MAY BE DISCHARGED TO AN ONSITE RETENTION AREA UNTIL NATURAL ATTENUATION OCCURS. THE AREA MAY BE A DRY STORMWATER RETENTION BASIN, OR A PORTION OF THE SITE MAY BE GRADED TO FORM A TEMPORARY PIT OR BERMED AREA.
5. NATURAL ATTENUATION OF THE CHLORINE MAY BE AIDED BY AERATION. AIR CAN BE ADDED TO THE WATER BY DIRECTING THE DISCHARGE OVER A ROUGH SURFACE BEFORE IT ENTERS THE TEMPORARY RETENTION AREA OR AN AERATION DEVICE CAN BE PLACED IN THE RETENTION AREA.
6. ONSITE DISCHARGE MAY REQUIRE SEVERAL HOURS TO A FEW DAYS BEFORE THE WATER IS SAFE TO DISCHARGE. THE RATE AT WHICH CHLORINE WILL ATTENUATE IS AFFECTED BY SOIL CONDITIONS AND WEATHER CONDITIONS. ATTENUATION WILL OCCUR QUICKEST DURING WARM, SUNNY, AND DRY PERIODS.

## SANITARY WASTE NOTES

1. THE CONTRACTOR SHALL PROVIDE AN APPROPRIATE NUMBER OF PORTABLE TOILETS BASED ON THE NUMBER OF EMPLOYEES USING THE TOILETS AND THE HOURS THEY WILL WORK.
2. SANITARY FACILITIES SHALL BE PLACED ON A MINIMUM OF 50 FEET AWAY FROM STORM DRAIN INLETS, CONVEYANCE, CHANNELS OR SURFACE WATERS. IF UNABLE TO MEET THE 50 FOOT REQUIREMENT DUE TO SITE CONFIGURATION, PORTABLE TOILETS SHALL BE A MINIMUM OF 20 FEET AWAY FROM STORM DRAIN INLETS, CONVEYANCE CHANNELS OR SURFACE WATER AND SECONDARY CONTAINMENT SHALL BE PROVIDE IN CASE OF SPILLS.
3. THE LOCATION OF THE PORTABLE TOILETS SHALL BE ACCESSIBLE TO MAINTENANCE TRUCKS WITHOUT DAMAGING EROSION AND SEDIMENT CONTROLS OR CAUSING EROSION OR TRACKING PROBLEMS.
4. SANITARY FACILITIES SHALL BE FULLY ENCLOSED AND DESIGNED IN A MANNER THAT MINIMIZES THE EXPOSURE OF SANITARY WASTE TO PRECIPITATION AND STORMWATER RUNOFF.
5. WHEN HIGH WINDS ARE EXPECTED, PORTABLE TOILETS SHALL BE ANCHORED OR OTHERWISE SECURED TO PREVENT THEM FROM BEING BLOWN OVER.
6. THE COMPANY THAT SUPPLIES AND MAINTAINS THE PORTABLE TOILETS SHALL BE NOTIFIED IMMEDIATELY IF A TOILET IS TIPPED OVER OR DAMAGED IN A WAY THAT THE RESULTS IN A DISCHARGE. DISCHARGED SOLID MATTER SHALL BE VACUUMED INTO A SEPTIC TRUCK BY THE COMPANY THAT MAINTAINS THE TOILETS.
7. THE OPERATOR OF THE MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) SHALL BE NOTIFIED IF A DISCHARGE FROM THE PORTABLE TOILETS ENTERS THE MS4 OR A NATURAL CHANNEL.
8. SANITARY FACILITIES SHALL NOT BE PERMITTED ON PUBLIC SIDEWALKS, STREETS OR INLETS.

## DEBRIS AND TRASH NOTES

1. ALL WASTE SOURCES AND STORAGE AREAS SHALL BE LOCATED A MINIMUM OF 50 FEET AWAY FROM INLETS, SWALES, DRAINAGE WAYS, CHANNELS AND OTHER WATERS, IF THE SITE CONFIGURATION PROVIDES SUFFICIENT SPACE TO DO SO. IN NO CASE SHALL MATERIAL AND WASTE SOURCES BE CLOSER THAN 20 FROM INLETS, SWALES, DRAINAGE WAYS, CHANNELS, AND OTHER WATERS.
2. CONSTRUCTION WASTE AND TRASH SHALL BE STORED IN A MANNER THAT MINIMIZES ITS EXPOSURE TO PRECIPITATION AND STORMWATER RUNOFF.
3. WHENEVER POSSIBLE, MINIMIZE PRODUCTION OF DEBRIS AND TRASH.
4. INSTRUCT CONSTRUCTION WORKERS IN PROPER DEBRIS AND TRASH STORAGE AND HANDLING PROCEDURES.
5. SEGREGATE POTENTIAL HAZARDOUS WASTE FROM NON–HAZARDOUS CONSTRUCTION SITE DEBRIS.
6. PROHIBIT LITTERING BY WORKERS AND VISITORS.
7. POLICE SITE DAILY FOR LITTER AND DEBRIS.
8. ENFORCE SOLID WASTE HANDLING AND STORAGE PROCEDURES.
9. IF FEASIBLE, RECYCLE CONSTRUCTION AND DEMOLITION DEBRIS SUCH AS WOOD, METAL, AND CONCRETE.
10. TRASH AND DEBRIS SHALL BE REMOVED FROM THE SITE AT REGULAR INTERVALS THAT ARE SCHEDULED TO EMPTY CONTAINERS WHEN THEY ARE 90 PERCENT FULL OR MORE FREQUENTLY.
11. GENERAL CONSTRUCTION DEBRIS MAY BE HAULED TO A LICENSED CONSTRUCTION DEBRIS LANDFILL.
12. USE WASTE AND RECYCLING HAULERS/FACILITIES APPROVED BY THE LOCAL MUNICIPALITY.
13. CHIPPING OF TREES AND BRUSH FOR USE SUCH AS MULCH IS PREFERRED ALTERNATIVE TO OFFSITE DISPOSAL.
14. NO WASTE, TRASH, OR DEBRIS SHALL BE BURIED, BURNED OR OTHER WISE DISPOSED OF ONSITE.
15. CLEARLY MARK ON ALL DEBRIS AND TRASH CONTAINERS WHICH MATERIALS ARE ACCEPTABLE. FOREMAN AND/OR CONSTRUCTION SUPERVISOR SHALL MONITOR ONSITE SOLID WASTE STORAGE AND DISPOSAL PROCEDURES DAILY.

## CONCRETE SAWCUTTING WASTE NOTES

1. DURING SAWCUTTING OPERATIONS, THE SLURRY AND CUTTINGS SHALL BE CONTINUOUSLY VACUUMED OR OTHERWISE RECOVERED AND NOT BE ALLOWED TO DISCHARGE FROM THE SITE.
2. IF THE PAVEMENT TO BE CUT IS NEAR A STORM DRAIN INLET, THE INLET SHALL BE BLOCKED BY SANDBAGS OR EQUIVALENT TEMPORARY MEASURES TO PREVENT THE SLURRY FROM ENTERING THE INLET. REMOVE THE SANDBAGS IMMEDIATELY AFTER COMPLETING SAWCUTTING OPERATIONS, SO THEY DO NOT CAUSE DRAINAGE PROBLEMS DURING STORM EVENTS.
3. SLURRY AND CUTTINGS SHALL NOT BE ALLOWED TO REMAIN ON THE PAVEMENT TO DRY OUT
4. DEVELOP PRE–DETERMINED, SAFE SLURRY DISPOSAL AREAS.
5. COLLECTED SLURRY AND CUTTINGS SHOULD BE IMMEDIATELY HAULED FROM THE SITE FOR DISPOSAL AT A WASTE FACILITY. IF THIS IS NOT POSSIBLE, THE SLURRY AND CUTTINGS SHALL BE DISCHARGED INTO ONSITE CONTAINMENT.
6. THE ONSITE CONTAINMENT MAY BE EXCAVATED OR BERMED PIT LINED WITH PLASTIC MINIMUM OF 10 MILIMETERS THICK. IF THE PROJECT INCLUDES PLACEMENT OF NEW CONCRETE, SLURRY FROM SAWCUTTING MAY BE DISPOSED OF IN FACILITIES DESIGNATED FOR THE WASHOUT OF CONCRETE TRUCKS INSTEAD CONSTRUCTING A SEPARATE CONTAINMENT.
7. THE CONTAINMENT SHALL BE LOCATED A MINIMUM OF 50 FEET AWAY FROM INLETS, SWALES, DRAINAGE WAYS, CHANNELS, AND OTHER WATERS, IF THE SITE CONFIGURATION PROVIDES SUFFICIENT SPACE TO DO SO. IN NO CASE SHALL THE COLLECTION AREA BE CLOSER THAN 20 FEET FROM INLETS, SWALES, DRAINAGE WAYS, CHANNELS AND OTHER WATERS.
8. SEVERAL, PORTABLE, PRE–FABRICATED, CONCRETE WASHOUT, COLLECTION BASINS ARE COMMERCIALLY AVAILABLE AND ARE AN ACCEPTABLE ALTERNATIVE TO AN ONSITE CONTAINMENT PIT.
9. REMOVE WASTER CONCRETE WHEN THE CONTAINMENT IS HALF FULL. ALWAYS MAINTAIN A MINIMUM OF ONE FOOT FREEBOARD.
10. ONSITE EVAPORATION OF SLURRY WATER AND RECYCLING OF THE CONCRETE WASTE IS THE PREFERRED DISPOSAL METHOD. WHEN THIS IS NOT FEASIBLE, DISCHARGE FROM THE COLLECTION AREA SHALL ONLY BE ALLOWED IF A PASSIVE TREATMENT SYSTEM IS USED TO REMOVE THE FINES. MECHANICAL MIXING IS REQUIRED IN THE COLLECTION AREA. THE pH MUST BE TESTED, AND DISCHARGED IS ALLOWED IN IF THE pH DOES NOT EXCEED 8.0. THE pH MAY BE LOWERED BY ADDING SULFURIC ACID TO THE SLURRY WATER.
11. CARE SHALL BE EXERCISED WHEN TREATING THE SLURRY WATER FOR DISCHARGE. MONITORING MUST BE IMPLEMENTED TO VERIFY THAT DISCHARGES FROM THE COLLECTION AREA DO NOT VIOLATE GROUNDWATER OR SURFACE WATER QUALITY STANDARDS.
12. GEOTEXTILE FABRICS SUCH AS THOSE USED FOR SILT FENCE SHOULD NOT BE USED TO CONTROL SAWCUTTING WASTE, SINCE THE GRAIN SIZE IS SIGNIFICANTLY SMALLER THAN THE APPARENT OPENING SIZE OF THE FABRIC.

## SPILL AND LEAK RESPONSE NOTES

1. RECORDS OF RELEASES THAT EXCEED THE REPORTABLE QUANTITY (RQ) FOR OIL AND HAZARDOUS SUBSTANCES SHOULD BE MAINTAINED IN ACCORDANCE WITH THE FEDRAL AND STATE REGULATIONS.
2. EMERGENCY CONTACT INFORMATION AND SPILL RESPONSE PROCEDURES SHALL BE POSTED IN A READILY AVAILABLE REA FOR ACCESS BY ALL EMPLOYEES AND SUBCONTRACTORS.
3. SPILL CONTAINMENT KITS SHOULD BE MAINTAINED FOR PETROLEUM PRODUCTS AND OTHER CHEMICALS THAT ARE REGULARLY ONSITE. MATERIALS IN KITS SHOULD BE BASED ON CONTAINMENT GUIDELINES IN THE MATERIALS SAFETY AND DATA SHEETS (MSDSS) FOR THE SUBSTANCE MOST FREQUENTLY ONSITE.
4. SPILL KITS ARE INTENDED FOR RESPONSE TO SMALL SPILLS, TYPICALLY LESS THAN 5 GALLONS, OF SUBSTANCES THAT ARE NOT EXTREMELY HAZARDOUS.
5. SIGNIFICANT SPILLS OR OTHER RELEASES WARRANT IMMEDIATE RESPONSE BY TRAINED PROFESSIONALS.
6. SUSPECTED JOB–SITE CONTAMINATION SHOULD BE IMMEDIATELY REPORTED TO REGULATORY AUTHORITIES AND PROTECTIVE ACTIONS TAKEN.
7. THE CONTRACTOR SHOULD BE REQUIRED TO DESIGNATE A SITE SUPERINTENDENT, FOREMAN, SAFETY OFFICER, OR OTHER SENIOR PERSON WHO IS ONSITE DAILY TO BE THE SPILL AND LEAK RESPONSE COORDINATOR (SLRC) AND MUST HAVE KNOWLEDGE OF AND BE TRAINED IN CORRECT SPILL AND LEAK RESPONSE PROCEDURES.

## SUBGRADE STABILIZATION NOTES

1. MINIMIZE THE DISCHARGE OF THE CHEMICAL STABILIZERS BY THE CONTRACTOR LIMITING THE AMOUNT OF STABILIZING AGENT ONSITE TO THAT WHICH CAN BE THOROUGHLY MIXED AND COMPACTED BY THE END OF EACH WORKDAY.
2. STABILIZERS SHALL BE APPLIED AT RATES THAT RESULT IN NO RUN OFF.
3. STABILIZATION SHALL NOT OCCUR IMMEDIATELY BEFORE AND DURING RAINFALL EVENTS.
4. NO TRAFFIC OTHER THAN WATER TRUCKS AND MIXING EQUIPMENT SHALL BE ALLOWED TO PASS OVER THE AREA BEING STABILIZED UNTIL AFTER COMPLETION OF MIXING THE CHEMICAL.
5. AREA ADJACENT AND DOWNSTREAM OF STABILIZED AREAS SHALL BE ROUGHENED TO INTERCEPT CHEMICAL RUNOFF AND REDUCE RUNOFF VELOCITY.
6. GEOTEXTILE FABRICS SUCH AS THOSE USED FOR SILT FENCE SHOULD NOT BE USED TO TREAT CHEMICAL RUNOFF, BECAUSE THE CHEMICALS ARE DISSOLVED IN THE WATER AND WON'T BE AFFECTED BY A BARRIER AND THE SUSPENDED SOLIDS ARE SIGNIFICANTLY SMALLER THAN THE APPARENT OPENING SIZE OF THE FABRIC.
7. IF SOIL STABILIZERS ARE STORED ONSITE, THEY SHALL BE CONSIDERED HAZARDOUS MATERIAL AND SHALL BE MANAGED ACCORDING TO THE CRITERIA OF CHEMICAL MANAGEMENT TO CAPTURE ANY ACCIDENTAL LIME OR CHEMICAL OVERFLOW.
8. THE CONTRACRTOR SHALL INSTALL BMP'S TO ALL INLETS AND OPENINGS CONNECTED TO THE STORM SEWER SYSTEMS TO PREVENT LIME FROM ENTERING THE MS4 SYSTEM.

## SANDBLASTING WASTE NOTES

1. THE CONTRACTOR SHOULD BE REQUIRED TO DESIGNATE THE SITE SUPERINTENDENT, FOREMAN, OR OTHER PERSON WHO IS RESPONSIBLE FOR SANDBLASTING TO ALSO BE RESPONSIBLE FOR SANDBLASTING WASTE MANAGEMENT.
2. PROHIBIT THE DISCHARGE OF SANDBLASTING WASTE.
3. USE ONLY INERT, NON–DEGRADABLE SANDBLAST MEDIA.
4. USE APPROPRIATE EQUIPMENT FOR THE JOB; DO NOT OVER–BLAST.
5. WHENEVER POSSIBLE, BLAST IN A DOWNWARD DIRECTION.
6. CEASE BLASTING ACTIVITIES IN HIGH WINDS OR IF WIND DIRECTION COULD TRANSPORT GRIT TO DRAINAGE FACILITIES.
7. INSTALL DUST SHIELDING AROUND SANDBLASTING AREAS.
8. COLLECT AND DISPOSE OF ALL SPENT SANDBLAST GRIT, USE DUST CONTAINMENT FABRICS AND DUST COLLECTION HOPPERS AND BARRELS.
9. NON–HAZARDOUS SANDBLAST GRIT MAY BE DISPOSED IN PERMITTED CONSTRUCTION DEBRIS LANDFILLS OR PERMITTED SANITARY LANDFILLS.
10. IF SANDBLAST MEDIA CANNOT BE FULLY CONTAINED, CONSTRUCT SEDIMENT TRAPS DOWNSTREAM FROM BLASTING AREA WHERE APPROPRIATE.
11. USE SAND FENCING WHERE APPRORIATE IN AREAS WHERE BLAST MEDIA CANNOT BE FULLY CONTAINED.
12. IF NECESSARY, INSTALL MISTING EQUIPMENT TO REMOVE SANDBLAST GRIT FROM THE AIR PREVENT RUNOFF FROM MISTING OPERATIONS FROM ENTERING DRAINAGE SYSTEMS.
13. USE VACUUM GRIT COLLECTION SYSTEMS WHERE POSSIBLE.
14. KEEP RECORDS OF SANDBLASTING MATERIALS, PROCEDURES, AND WEATHER CONDITIONS ON A DAILY BASIS.
15. TAKE ALL REASONABLE PRECAUTIONS TO ENSURE THAT SANDBLASTING GRIT IS CONTAINED AND KEPT AWAY FROM DRAINAGE STRUCTURES.
16. SAND BLASTING MEDIA SHOULD ALWAYS BE STORED UNDER COVER AWAY FROM DRAINAGE STRUCTURES.
17. ENSURE THAT STORED MEDIA OR GRIT IS NOT SUBJECTED TO TRANSPORT BY WIND.
18. ENSURE THAT ALL SANDBLASTING EQUIPMENT AND STORAGE CONTAINERS COMPLY WITH CURRENT LOCAL, STATE, AND FEDERAL REGULATIONS.
19. CAPTURE AND TREAT RUNOFF, WHICH COMES INTO CONTACT WITH SANDBLASTING MATERIALS OR WASTE.

NOTES:

1. A SECTION OF FILTER FABRIC SHALL BE REMOVED AS SHOWN ON THIS DETAIL TO PROVIDE A 4" MINIMUM CLEAR OPENING. FABRIC MUST BE SECURED TO WIRE BACKING WITH CLIPS OR HOG RINGS AT THIS LOCATION
2. INSPECTION SHALL BE MADE BY CONTRACTOR AND SILT ACCUMULATION MUST BE REMOVED WHEN DEPTH REACHES 2".
3. CONTRACTOR SHALL MONITOR THE PERFORMANCE OF INLET PROECTION DURING EACH RAINFALL EVENT AND IMMEDIATELY REMOVE THE INLET PROTECTION IF THE STORMWATER BEGINS TO OVERTOP THE CURB.
4. INLET PROTECTIONS SHALL BE REMOVED AS SOON AS THE SOURCE OF THE SEDIMENT IS STABILIZED.

ROCK BERM GENERAL NOTES

1. USE ONLY OPEN GRADED ROCK 4-8 INCHES IN DIAMETER FOR STREAM FLOW CONDITION. USE OPEN GRADED ROCK 3-5 INCHES IN DIAMETER FOR OTHER CONDITIONS.
2. THE ROCK BERM SHALL BE SECURED WITH A WOVEN WIRE SHEATHING HAVING A MAXIMUM OPENING OF 1 INCH AND A MINIMUM WIRE SIZE OF 20 GAUGE AND SHALL BE BURIED IN A TRENCH APPROXIMATELY 3 TO 4 INCHES DEEP.
3. THE ROCK BERM SHALL BE INSPECTED EVERY TWO WEEKS OR AFTER EACH 1/2" RAIN EVENT AND SHALL BE REPLACED WHEN THE STRUCTURE CEASES TO FUNCTION AS INTEDED DUE TO SILT ACCUMULATION AMONG THE ROCKS, WASHOUT, CONSTRUCTION TRAFFIC DAMAGE, ETC.
4. WHEN SILT REACHES A DEPTH EQUAL TO ONE-THIRD OF THE HEIGHT OF THE BERM OR ONE FOOT, WHICHEVER IS LESS, THE SILT SHALL BE REMOVED AND DISPOSED OF PROPERLY.
5. WHEN THE SITE IS COMPLETELY STABILIZED, THE BERM AND ACCUMULATED SILT SHALL BE REMOVED AND DISPOSED OF IN AN APPROVED MANNER.
6. ROCK BERM SHOULD BE USED AS CHECK DAMS FOR CONCENTRATED FLOW AND ARE NOT INTENDED FOR USE IN PERIMETER PROTECTION.

SILT FENCE GENERAL NOTES

1. STEEL POSTS WHICH SUPPORT THE SILT FENCE SHALL BE INSTALLED ON A SLIGHT ANGLE TOWARD THE ANTICIPATED RUNOFF SOURCE. POST MUST BE EMBEDDED A MINIMUM OF ONE FOOT.
2. THE TOE OF THE SILT FENCE SHALL BE TRENCHED IN WITH A SPADE OR MECHANICAL TRENCHER, SO THAT THE DOWNSLOPE FACE OF THE TRENCH IS FLAT AND PERPENDICULAR TO THE LINE OF FLOW. WHERE FENCE CANNOT BE TRENCHED IN (e.g. PAVEMENT), WEIGHT FABRIC FLAP WITH ROCK ON UPHILL SIDE TO PREVENT FLOW FROM SEEPING UNDER FENCE.
3. THE TRENCH MUST BE A MINIMUM OF 6 INCHES DEEP AND 6 INCHES WIDE TO ALLOW FOR THE SILT FENCE FABRIC TO BE LAID IN THE GROUND AND BACKFILLED WITH COMPACTED MATERIAL.
4. SILT FENCE SHOULD BE SECURELY FASTENED TO EACH STEEL SUPPORT POST OR TO WOVEN WIRE, WHICH IN TURN IS ATTACHED TO THE STEEL FENCE POST. THERE SHALL BE A 3 FOOT OVERLAP, SECURELY FASTENED WHERE ENDS OF FABRIC MEET.
5. INSPECTION SHALL BE MADE EVERY TWO WEEKS AND AFTER EACH 1/2" RAINFALL. REPAIR OR REPLACEMENT SHALL BE MADE PROMPTLY AS NEEDED.
6. SILT FENCE SHALL BE REMOVED WHEN THE SITE IS COMPLETELY STABILIZED SO AS NOT TO BLOCK OR IMPEDE STORM FLOW OR DRAINAGE.
7. ACCUMULATED SILT SHALL BE REMOVED WHEN IT REACHES A DEPTH OF HALF THE HEIGHT OF THE FENCE. THE SILT SHALL BE DISPOSED OF AT AN APPROVED SITE AND IN SUCH A MANNER AS TO NOT CONTRIBUTE TO ADDITIONAL SILTATION.

NOTE: STONE OVERFLOW STRUCTURES OF OTHER OUTLET CONTROL DEVICES SHALL BE INSTALLED AT ALL LOW POINTS ALONG THE FENCE OR EVERY 300 FEET IF THERE IS NO APPARENT LOW POINT

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** 6/22/2021

**PREPARED BY:** Geri Gonzales, Recreation Superintendent

**AGENDA CONTENT:** Discussion on Senior Citizen Commission updates.

**AGENDA ITEM SECTION:** Regular Agenda

**BUDGETED AMOUNT:** NA **FUNDS REQUESTED:** NA

**FUND:** NA

**EXECUTIVE SUMMARY:**

In February 2021, the Senior Citizen Commission voted to adopt an annual strategic plan that was then approved in March 2021 by City Council. Staff has started working on strategies outlined for the given goals and are providing an update on the plan today.

**Housing –** Staff are working with Development Services to have a representative provide the commission an update and is considering the August meeting for update.

**Transportation –** BC Connect provided information about update routes, discounts, eligibility, and services to staff. Staff posted information on City website, Facebook, and published a story in the monthly senior newsletter. Staff plans to update the city website with new route information.

**Healthcare** – Staff have been using the monthly newsletter to disperse information including information for COVID-19 vaccination locations and registration. Since participants were not coming into the Angleton Recreation Center, staff mailed 100 newsletters to recreation senior program participants. With in-person programming growing, staff have started Coffee Chat, which is a program that allows seniors to socialize and hear from a guest speaker. Most recently we have had Medicare 101, which gave basic info on different plans on how register. The representative plans to return for future informationals in coming months to help answer questions regarding new enrollment. Staff plan to use the chats for future topics related to healthcare.

**Legislative –** Staff is working to reach out to state and local representatives to attend either a commission meeting or public gathering, such as Coffee Chat, to provide information related to seniors in the community.

**Recreation –** Requests for more senior-based in-person programs have increased since vaccinations have become more readily available. A silver-based fitness class will return to the aerobics schedule starting in July. The monthly newsletter has been redesigned to include monthly

fitness schedules, in-person, and online programs that are available through the City, Parks & Recreation, and Keep Angleton Beautiful. Also, we will be returning to trips in the next quarter, with two planned to a theatre and a casino.

**Quality of Life -** Staff invited City of Angleton Emergency Management Coordinator to Coffee Chat to provide information on Hurricane Preparedness. The group was interested in 211-list eligibility; so, staff will work towards providing this information in the next monthly newsletter. Staff also includes ActionS information in the monthly newsletter.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** 6/22/2021

**PREPARED BY:** Megan Mainer, Director of Parks & Recreation

**AGENDA CONTENT:** Discussion and possible action on Parks & Recreation Department maintenance needs and potential funding.

**AGENDA ITEM SECTION:** Regular Agenda

**BUDGETED AMOUNT:** NA **FUNDS REQUESTED:** TBD

**FUND:** 01-400-999

**EXECUTIVE SUMMARY:**

Staff was directed to compile a list of Parks & Recreation maintenance and improvement items for park and recreation facilities as well as requests from Angleton Athletic Sports Associations. Potential funding resources for listed items include annual operating budget, general fund reserves, American Recovery and Reinvestment Act (ARRA), ABLC contingency, and fees in lieu of parkland. Projects that are designated to be addressed through ABLC contingency, parkland dedication, or general operation budget are outlined in the drafted CIP plan.

Enclosed is a list of projects that could be considered for potential funding.

# AGENDA ITEM SUMMARY FORM

**MEETING DATE:** 6/22/2021

**PREPARED BY:** Megan Mainer, Director of Parks & Recreation

**AGENDA CONTENT:** Discussion and possible action to approve proposed Lakeside Park construction cuts, proceed with a letter of award to DL Meacham LP with approved modificaitons to the bid, and authorize the City Manager to execute a construction agreement after legal review.

**AGENDA ITEM SECTION:** Regular Agenda

**BUDGETED AMOUNT:** $3,000,000.00 **FUNDS REQUESTED:** TBD

**FUND:** 130-506-502

**EXECUTIVE SUMMARY:**
The City of Angleton closed construction bids for Lakeside Park on May 13; two construction bids from DL Meacham LP and Millis Development and Construction, LLC were received. On May 20, evaluation forms, bid proposal requirements, and an overall bid tabulation comparison were sent to the Angleton Better Living Corporation, the Parks & Recreation Board, and City staff to evaluate each construction company by May 26. Seven evaluations were received from various board members and staff. The highest ranking contractor was DL Meacham LP.

Additionally, Texas Parks and Wildlife Department (TPWD) did not award Angleton the Boater Access and Recreational Trails grants which were associated with Lakeside Park and would have offset costs. However, the City did receive the $150,000 match from the initial TPWD grant and design costs were reduced due to the scope of work changing from a $5 milion project to $3 milion. Staff understands budget limitations for Lakeside Park. Staff is seeking input from City Council regarding proposed cuts. Staff will speak to ABLC and the Parks and Recreation Board before a final decision is made at the June 22 City Council meeting.

Staff identified the following potential funding sources for the remaining balance: $150,000 TPW reimbursement, savings from design costs being reduced from $5M to $3M, reapplying for the TPW Recreational Trails Grant in Fall 2021, general fund reserves, ABLC reserves, parkland dedication fees, Rotary Club of Angleton contribution, and ABLC savings from the reduced general fund transfer to Parks Personnel. A combination of these resources could be used to cover the project deficit.

Staff reviewed proposed Lakeside Park construction cuts with City Council on June 8, the Parks & Recreation Board on June 14, and ABLC on June 21. City Council and the Parks & Recreation Board agreed the pavilion design and playground pour in place material should stay in tact. Upon

further review of the pour in place substrate, staff does not recommend a gravel base in lieu of a concrete base. A concrete base will increase longevity and stability while the gravel base may need to be replaced upon expiration of the pour in place lifecycle increasing maintenance costs long term.

Outside of what was originally budgeted for the project, the proposed cuts reduce construction costs by $271,687.60 leaving the City with a balance of $321,585.90. The TPWD reimbursement of $150,000 would reduce the balance to $171,585.90. Staff anticipates a donation from the Rotary Club of Angleton for half the cost of the fishing pier as well as savings from reduced scope of work for design services.

**RECOMMENDATION:**

Staff recommends City Council approve proposed Lakeside Park construction cuts excluding playground surfacing alternatives and adjustments to the pavilion, proceed with a letter of award to DL Meacham LP with approved modificaitons to the bid, and authorize the City Manager to execute a construction agreement after legal review.

## MURPHY UNDERWOOD:
## EXPERIENCE AND APPROACH TO SAFETY:

The D.L. Meacham (DLM) approach to safety embodies the policies and procedures for prevention of injury, property damage, fire damage and occupational illness. No single feature of our work is of greater importance. It is the DLM intention to commit itself each day to maintaining an accident-free workplace. There is never an acceptable reason for compromising safety. This document, the DLM contractor selection process, and site field activities are all designed to support and reinforce this goal.

It is always DLM policy to provide a safe place to work and to conduct all operations in a manner as to provide protection for all individuals who might meet these operations. The Owner's employees, DLM employees, Subcontractor employees, and all others employed on this site, as well as anyone who comes on the site for any reason during construction, are expected to conduct their work in a safe manner and are required to comply with established safety programs. By contract, every Contractor on this site is obligated to perform all work in a safe manner. By contract, every Contractor on this site is obligated to conform to the requirements of the Federal Occupational Safety and Health Act of 1970 (OSHA) and all additions and revisions thereto, as well as other applicable Federal, State and Local requirements and the Project Safety Plan.

All supervisory employees must accept their responsibility for the prevention of accidents and for conducting all operations under their direction in a safe and efficient manner. The results of our safety efforts will affect our overall success in constructing the Project. Our goal is accident-free work with the traditional defect-free quality. We know this is the most efficient method and that all individuals working on this Project will subscribe to the Project Safety Plan. With the cooperation, dedication, and assistance of everyone, this will be a successful and safe project.

### D.L. MEACHAM MANAGEMENT STATEMENT

All persons who come into the work area, for any reason during construction, will be required to comply with the established safety regulations that govern the project.

Contractors are committed by contract to observe and comply with all applicable safety regulations and procedures. Each Contractor will participate in the Project Safety Program, hereafter referred to as the "Program ". If DLM finds Contractor areas of work or individuals being, or acting in noncompliance with the Occupational Safety and Health Act of 1970 (OSHA), as amended, or any other applicable regulations, DLM shall have the authority to order immediate correction and cessation of the non-compliant occurrence. Non-compliance with Project Safety Regulations may be grounds for Contractor dismissal and/or employee(s) being forbidden entry onto the project. All costs of correction shall be borne by the Contractor deemed responsible. The DLM decision of responsibility shall be final. Nothing contained herein, however, shall serve to relieve the Contractor of his liabilities and/or obligations under the "Occupational Safety and Health Act of 1970" and all additions and revisions thereto, as well as all other applicable Federal, State and Local requirements.

# BLANKET ADDITIONAL INSURED – AUTOMATIC STATUS IF REQUIRED BY WRITTEN CONTRACT (CONTRACTORS)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

**1.** The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that:

**a.** You agree in a "written contract requiring insurance" to include as an additional insured on this Coverage Part; and

**b.** Has not been added as an additional insured for the same project by attachment of an endorsement under this Coverage Part which includes such person or organization in the endorsement's schedule;

is an insured, but:

**a.** Only with respect to liability for "bodily injury", "property damage" or "personal injury"; and

**b.** Only as described in Paragraph **(1)**, **(2)** or **(3)** below, whichever applies:

**(1)** If the "written contract requiring insurance" specifically requires you to provide additional insured coverage to that person or organization by the use of:

**(a)** The Additional Insured – Owners, Lessees or Contractors – (Form B) endorsement CG 20 10 11 85; or

**(b)** Either or both of the following: the Additional Insured – Owners, Lessees or Contractors – Scheduled Person Or Organization endorsement CG 20 10 10 01, or the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37 10 01;

the person or organization is an additional insured only if the injury or damage arises out of "your work" to which the "written contract requiring insurance" applies;

**(2)** If the "written contract requiring insurance" specifically requires you to provide additional insured coverage to that person or organization by the use of:

**(a)** The Additional Insured – Owners, Lessees or Contractors – Scheduled Person or Organization endorsement CG 20 10 07 04 or CG 20 10 04 13, the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37 07 04 or CG 20 37 04 13, or both of such endorsements with either of those edition dates; or

**(b)** Either or both of the following: the Additional Insured – Owners, Lessees or Contractors – Scheduled Person Or Organization endorsement CG 20 10, or the Additional Insured – Owners, Lessees or Contractors – Completed Operations endorsement CG 20 37, without an edition date of such endorsement specified;

the person or organization is an additional insured only if the injury or damage is caused, in whole or in part, by acts or omissions of you or your subcontractor in the performance of "your work" to which the "written contract requiring insurance" applies; or

**(3)** If neither Paragraph **(1)** nor **(2)** above applies:

**(a)** The person or organization is an additional insured only if, and to the extent that, the injury or damage is caused by acts or omissions of you or your subcontractor in the performance of "your work" to which the "written contract requiring insurance" applies; and

**(b)** The person or organization does not qualify as an additional insured with respect to the independent acts or omissions of such person or organization.

© 2013 The Travelers Indemnity Company. All rights reserved.

2. The insurance provided to the additional insured by this endorsement is limited as follows:
   a. If the Limits of Insurance of this Coverage Part shown in the Declarations exceed the minimum limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured will be limited to such minimum required limits of liability. For the purposes of determining whether this limitation applies, the minimum limits of liability required by the "written contract requiring insurance" will be considered to include the minimum limits of liability of any Umbrella or Excess liability coverage required for the additional insured by that "written contract requiring insurance". This endorsement will not increase the limits of insurance described in Section **III** – Limits Of Insurance.
   b. The insurance provided to the additional insured does not apply to "bodily injury", "property damage" or "personal injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services, including:
      (1) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders or change orders, or the preparing, approving, or failing to prepare or approve, drawings and specifications; and
      (2) Supervisory, inspection, architectural or engineering activities.
   c. The insurance provided to the additional insured does not apply to "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured during the policy period.
3. The insurance provided to the additional insured by this endorsement is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured. However, if the "written contract requiring insurance" specifically requires that this insurance apply on a primary basis or a primary and non-contributory basis, this insurance is primary to other insurance available to the additional insured under which that person or organization qualifies as a named insured, and we will not share with that other insurance. But the insurance provided to the additional insured by this endorsement still is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured, or is any other insured that does not qualify as a named insured, under such other insurance.
4. As a condition of coverage provided to the additional insured by this endorsement:
   a. The additional insured must give us written notice as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, such notice should include:
      (1) How, when and where the "occurrence" or offense took place;
      (2) The names and addresses of any injured persons and witnesses; and
      (3) The nature and location of any injury or damage arising out of the "occurrence" or offense.
   b. If a claim is made or "suit" is brought against the additional insured, the additional insured must:
      (1) Immediately record the specifics of the claim or "suit" and the date received; and
      (2) Notify us as soon as practicable.

      The additional insured must see to it that we receive written notice of the claim or "suit" as soon as practicable.
   c. The additional insured must immediately send us copies of all legal papers received in connection with the claim or "suit", cooperate with us in the investigation or settlement of the claim or defense against the "suit", and otherwise comply with all policy conditions.
   d. The additional insured must tender the defense and indemnity of any claim or "suit" to any provider of other insurance which would cover the additional insured for a loss we cover under this endorsement. However, this condition does not affect whether the insurance provided to the additional insured by this endorsement is primary to other insurance available to the additional insured which covers that person or organization as a named insured as described in Paragraph **3.** above.
5. The following is added to the **DEFINITIONS** Section:

   "Written contract requiring insurance" means that part of any written contract or agreement under which you are required to include a person or or-

ganization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs, and the "personal injury" is caused by an offense committed, during the policy period and:

a. After the signing and execution of the contract or agreement by you; and

b. While that part of the contract or agreement is in effect.

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

**SCHEDULE**

| Designated Project(s): | Designated Project General Aggregate(s): |
|---|---|
| EACH "PROJECT" FOR WHICH YOU HAVE AGREED, IN A WRITTEN CONTRACT WHICH IS IN EFFECT DURING THIS POLICY PERIOD, TO PROVIDE A SEPARATE GENERAL AGGREGATE LIMIT, PROVIDED THAT THE CONTRACT IS SIGNED AND EXECUTED BY YOU BEFORE THE "BODILY INJURY" OR "PROPERTY DAMAGE" OCCURS. | GENERAL AGGREGATE LIMIT SHOWN ON DECLARATION |

**A.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under **COVERAGE A. (SECTION I)**, and for all medical expenses caused by accidents under **COVERAGE C (SECTION I)**, which can be attributed only to operations at a single designated "project" shown in the Schedule above:

1. A separate Designated Project General Aggregate Limit applies to each designated "project", and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations, unless separate **Designated Project General Aggregate(s)** are scheduled above.
2. The Designated Project General Aggregate Limit is the most we will pay for the sum of all damages under **COVERAGE A.**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under **COVERAGE C**, regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".
3. Any payments made under **COVERAGE A.** for damages or under **COVERAGE C.** for medical expenses shall reduce the Designated Project General Aggregate Limit for that designated "project". Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Project General Aggregate Limit for any other designated "project" shown in the Schedule above.
4. The limits shown in the Declarations for **Each Occurrence, Damage To Premises Rented To You and Medical Expense** continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Project General Aggregate Limit.

**B.** For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under **COVERAGE A. (SECTION I)**, and for all medical expenses caused by accidents under **COVERAGE C. **C.** Part **2.** of **SECTION III – LIMITS OF INSURANCE** is deleted and replaced by the following:

2. The General Aggregate Limit is the most we will pay for the sum of:
   a. Damages under **Coverage B**; and
   b. Damages from "occurrences" under **COVERAGE A (SECTION I)** and for all medical expenses caused by accidents under **COVERAGE C (SECTION I)** which cannot be attributed only to operations at a single designated "project" shown in the **SCHEDULE** above.

**D.** When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-Completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Project General Aggregate Limit.

**E.** For the purposes of this endorsement the **Definitions Section** is amended by the addition of the following definition:

"Project" means an area away from premises owned by or rented to you at which you are performing operations pursuant to a contract or agreement. For the purposes of determining the applicable aggregate limit of insurance, each "project" that includes premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad shall be considered a single "project".

**F.** The provisions of **SECTION III – LIMITS OF INSURANCE** not otherwise modified by this endorsement shall continue to apply as stipulated.

# CONSTRUCTION PAK – BUILDERS' RISK COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy, the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the Company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section F – DEFINITIONS.

## A. COVERAGE

We will pay for direct physical loss of or damage to Covered Property caused by or resulting from a Covered Cause of Loss.

### 1. Covered Property

Covered Property, as used in this Coverage Form, means the following types of property you own or for which you are legally liable, the value of which is included in the estimated "total project value" shown in the Declarations:

**a. Permanent Works**

Materials, equipment, machinery, supplies and property of a similar nature that will become a permanent part of the project described in the Declarations during completion of such project or that will be used or expended in the completion of such project.

Completion of the project includes site preparation (including demolition of existing buildings or structures), fabrication, assembly, installation, erection, alteration, renovation and similar construction activities.

**b. Temporary Works**

Cofferdams, construction forms, cribbing, falsework, hoarding, scaffolds, fencing, signs, office trailers (and their "contents") and similar temporary buildings or structures incidental to completion of the project described in the Declarations.

We will cover such property:

**(1)** At the job site described in the Declarations; and

**(2)** While:

**(a)** In transit to the job site or to a temporary storage location, including loading and unloading from a transporting conveyance, but only if a Transit Limit of Insurance is shown in the Declarations; or

**(b)** In temporary storage awaiting delivery to the job site but only if a Temporary Storage Limit of Insurance is shown in the Declarations.

### 2. Property and Costs Not Covered

Covered Property does not include:

**a.** Contraband, or property in the course of illegal transit or trade.

**b.** Buildings or structures that existed prior to the inception of this policy.

**c.** Land and land values and the value of cut, fill and backfill materials that existed at the job site prior to the date construction commenced.

But this restriction does not apply to:

**(1)** The value of cut, fill and backfill materials purchased for use in the completion of the project to the extent the value of such property is included in the estimated "total project value" shown in the Declarations.

**(2)** Labor, material and equipment charges incurred to move, remove, place or otherwise handle cut, fill and backfill materials to the extent such costs are included in the estimated "total project value" shown in the Declarations.

**d.** Water, whether in its natural state or otherwise, and whether above or below ground or the cost of reclaiming or restoring water.

**e.** Trees, plants, shrubs and lawns, except to the extent coverage is provided under the Landscaping Coverage Extension.

Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**f.** Construction equipment not destined to become a permanent part of the project described in the Declarations, including tools, machinery, plant and any related accessories and spare parts for such property. But this restriction does not apply to Temporary Works.

**3. Covered Causes of Loss**

Covered Causes of Loss means RISKS OF DIRECT PHYSICAL LOSS unless the loss is excluded in Section B – EXCLUSIONS.

**4. Coverage Extensions**

Each of the following Coverage Extensions applies unless *Not Covered* is indicated in the Declarations.

**a. Expediting Expense and Extra Expense**

**(1)** In the event of direct physical loss of or damage to Covered Property caused by or resulting from a Covered Cause of Loss, we will pay for the reasonable and necessary:

**(a)** Expediting charges, including overtime, night work, work on public holidays, express and air freight, and the extra cost of rental construction equipment, you incur solely to expedite repair or replacement of the Covered Property sustaining such loss or damage.

**(b)** Extra Expenses you incur during the period of restoration or repair of the Covered Property sustaining such loss or damage that are over and above the total costs that would normally have been incurred during the same period of time had no loss or damage occurred. We will only pay for such extra expenses you incur for the purpose of continuing as nearly as practicable the scheduled progress of undamaged work.

Extra expense includes equipment rental, emergency expenses, additional security, demobilization and remobilization of equipment and facilities, and temporary use of property, all when necessarily incurred to reduce time delays in the contract schedule.

**(2)** We will not pay under this Coverage Extension:

**(a)** For any expense until the amount of the adjusted direct physical loss or damage exceeds the deductible applicable to such loss or damage.

**(b)** For any expense incurred to overcome delays in the scheduled progress of the work:

**(i)** Which existed at the time of loss; or

**(ii)** Resulting from causes which are independent of or which would have occurred in the absence of a covered loss to Covered Property.

**(c)** Except as provided in the Green Building Additional Expense Additional Coverage, for any expense required to attain any level of "green" certification even if such certification existed prior to loss.

**(d)** For any loss of income or "soft costs".

The expiration date of this policy will not cut short the period of restoration or repair.

The Expediting Expense and Extra Expense Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Coverage Extension.

Any payment under this Coverage Extension is included within and will not increase the applicable Limit of Insurance.

**b. Fire Protective Systems**

If your fire protective equipment discharges accidentally or to control a Covered Cause of Loss, we will pay for your expense to:

**(1)** Recharge or refill your fire protective systems; and

**(2)** Replace or repair faulty valves or controls that caused the discharge.

The Fire Protective Systems Limit of Insurance shown in the Declarations is the

**c. Landscaping**

**(1)** We will pay for direct physical loss or damage by a Covered Cause of Loss, other than a cause of loss listed in Paragraph (2) below, to trees, plants, shrubs and lawns, the value of which is included in the estimated "total project value" shown in the Declarations.

**(2)** We will not pay for loss of or damage to trees, plants, shrubs and lawns caused by or resulting from lack of moisture, infestation, disease, insects, rodents, animals, freezing, weight of ice or snow or windstorm or hail.

The Landscaping Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Coverage Extension.

Any payment under this Coverage Extension is included within and will not increase the applicable Limit of Insurance.

**d. Soft Costs**

We will pay your "soft costs" during the "period of delay in completion". Such "soft costs" must result from direct physical loss of or damage to Covered Property caused by or resulting from a Covered Cause of Loss which delays the completion of the applicable project described in the Declarations beyond the "planned completion date".

The Soft Costs Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Coverage Extension.

**e. Temporary Works Other Than Covered Property**

If cofferdams, construction forms, cribbing, falsework, hoarding, scaffolds, fencing, signs, office trailers (and their "contents") and similar temporary buildings or structures incidental to completion of the project described in the Declarations are not otherwise Covered Property under this policy, we will pay for direct physical loss or damage by a Covered Cause of Loss to such property when:

**(1)** You own or are legally liable for such property; and

**(2)** Such property is at the job site described in the Declarations at the time of such loss or damage.

The Temporary Works Other Than Covered Property Limit of Insurance shown in the Declarations is the most we will pay in total for all such property in any one occurrence under this Coverage Extension.

Any payment under this Coverage Extension is included within and will not increase the applicable Limit of Insurance.

**f. Valuable Papers and Records**

We will pay your costs to research, replace or restore lost or damaged valuable papers and records, including those which exist on electronic or magnetic media, for which there are no duplicates. Such costs must result from direct physical loss or damage by a Covered Cause of Loss to your valuable papers and records directly related to the applicable project described in the Declarations.

The Valuable Papers and Records Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Coverage Extension.

But we will not pay for loss of or damage to accounts, bills, deeds, evidences of debt, currency, money, notes or securities.

**5. Additional Coverages**

Each of the following Additional Coverages applies unless *Not Covered* is indicated in the Declarations.

**a. Additional Cost of Construction Materials and Labor**

We will pay for the following costs made necessary by a Covered Cause of Loss to Covered Property at the job site described in the Declarations:

**(1)** Your increased cost of construction materials and labor; and

**(2)** Your costs to make changes in construction specifications;

when such loss or damage results in a total loss to Covered Property.

The Additional Cost of Construction Materials and Labor Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

**b. Claim Data Expense**

**(1)** We will pay the reasonable expenses you incur in preparing claim data when we require it to adjust a covered loss. This includes the cost of taking inventories, making appraisals and preparing other documentation to show the extent of loss.

**(2)** We will not pay for:

**(a)** Any expenses incurred, directed, or billed by or payable to attorneys, insurance adjusters or their associates or subsidiaries;

**(b)** Any costs as provided in the Appraisal LOSS CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS; or

**(c)** Any expenses incurred, directed, or billed by or payable to insurance brokers or agents, or their associates or subsidiaries, without our written consent prior to such expenses being incurred.

The Claim Data Expense Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

**c. Construction Contract Penalty**

If you agreed in writing prior to loss to pay penalties as a result of your failure to meet completion times within the terms of a written contract, we will pay such penalties you incur when the failure to meet the completion times is solely due to direct physical loss of or damage to Covered Property caused by or resulting from a Covered Cause of Loss.

The Construction Contract Penalty Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

**d. Debris Removal**

**(1)** We will pay for your expense to remove debris of Covered Property caused by or resulting from a Covered Cause of Loss that occurs during the policy period.

The amount we will pay includes the increased costs you incur to divert debris of Covered Property to recycling facilities rather than landfills. Any income or remuneration derived from this recycling will reduce the amount of debris removal expense we would have otherwise paid.

The expenses will be paid only if they are reported to us in writing within 180 days of the date of the loss or damage.

**(2)** The most we will pay under this Additional Coverage is 25% of:

**(a)** The amount we pay for direct physical loss of or damage to Covered Property; plus

**(b)** The deductible in this Coverage Form applicable to that loss or damage.

Except as provided in Paragraph (3) below, payment under this Additional Coverage is included within and will not increase the applicable Limit of Insurance shown in the Declarations.

**(3)** When the debris removal expense exceeds the 25% limitation in Paragraph (2) above or when the sum of the debris removal expense and the amount we pay for the direct physical loss of or damage to Covered Property exceeds the applicable Limit of Insurance, we will pay up to the Debris Removal Increase Limit of Insurance shown in the Declarations.

**(4)** We will not pay under this Additional Coverage for your expense to extract "pollutants" from land or water, or to remove, restore, or replace polluted land or water.

**e. Fire Or Police Department Service Charge**

We will pay your liability for fire, police or other public emergency service department charges when such public emergency services are called to save or protect Covered Property from a Covered Cause of Loss. Such emergency service department charges must be:

**(2)** Required by local ordinance.

The Fire Or Police Department Service Charges Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

No deductible applies to this Additional Coverage.

**f. "Fungus", Wet Rot And Dry Rot**

**(1)** We will pay for direct physical loss of or damage to Covered Property caused by "fungus", wet rot or dry rot, but only when the "fungus", wet rot or dry rot is the result of any of the "specified causes of loss", other than fire or lightning, that occurs during the policy period and only if all reasonable means were used to save and preserve the Covered Property from further damage at the time of and after the occurrence of any such cause of loss.

**(2)** We will also pay for the following in connection with loss or damage covered in Paragraph (1) above:

**(a)** The cost of removal of the "fungus", wet rot or dry rot;

**(b)** The cost to tear out and replace any part of the building or structure or other property as needed to gain access to the "fungus", wet rot or dry rot; and

**(c)** The cost of testing performed after removal, repair, replacement or restoration of the damaged Covered Property is completed, provided there is a reason to believe that "fungus", wet rot or dry rot is present.

**(3)** The Fungus, Wet Rot And Dry Rot Limit of Insurance shown in the Declarations is the most we will pay under this Additional Coverage in each separate 12 month period of this policy beginning with the effective date shown in the Declarations. This is the most we will pay for the total of all loss or damage covered in Paragraphs (1) and (2) above regardless of the:

**(a)** Number of insureds, claims, job sites or locations;

**(b)** Occurrences during each separate 12-month period of this policy; or

**(c)** Types of coverages provided under this policy.

This limit applies even if the "fungus", wet rot or dry rot connected to any particular occurrence continues to be present or active, or recurs, in a later 12 month period of this policy.

**(4)** Any payment under this Additional Coverage is included within and will not increase the applicable Limit of Insurance.

**g. Green Building Additional Expense**

**(1)** If, as a result of direct physical loss or damage by a Covered Cause of Loss to a building or structure that is Covered Property, the budgeted level of "green" certification by a "Green Authority" on the building or structure is lost, we will pay for the following reasonable additional expenses you incur to attain the budgeted level of "green" certification from that "Green Authority":

**(a)** The reasonable additional expense you incur to hire a qualified engineer or other professional required by the "Green Authority" to be involved in:

**(i)** Designing, overseeing or documenting the repair or replacement of the lost or damaged building or structure; or

**(ii)** Testing and recalibrating the systems and mechanicals of the lost or damaged building or structure to verify that the systems and mechanicals are performing in accordance with the design of such systems and mechanicals or the specifications of the manufacturer; and

**(2)** This Additional Coverage applies to the additional expenses described above that you incur to achieve the budgeted level of "green" certification

in accordance with the standards of the "Green Authority" that exist at the time of repair or replacement, even if the standards have changed since the original certification was achieved.

The Green Building Additional Expense Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

**h. Ordinance or Law**

**(1)** In the event of covered direct physical loss of or damage to a building or structure that is Covered Property, the following coverages apply, but only with respect to that lost or damaged building or structure:

**(a) Coverage A – Coverage For Loss To The Undamaged Portion Of The Building or Structure**

We will pay under Coverage A for the loss in value of the undamaged portion of the building or structure as a consequence of enforcement of an ordinance or law that requires demolition of undamaged parts of the same building or structure.

Any payment under Coverage A is included within and will not increase the Limit of Insurance applicable to the covered loss to the building or structure.

**(b) Coverage B – Demolition Cost Coverage**

We will pay under Coverage B the cost to demolish the building or structure and clear the site of undamaged parts of the same building or structure, as a consequence of enforcement of an ordinance or law that requires demolition of such undamaged property.

**(c) Coverage C – Increased Cost Of Construction Coverage**

We will pay under Coverage C the increased cost to:

**(i)** Repair or reconstruct damaged portions of that building or structure; or

**(ii)** Reconstruct or remodel undamaged portions of that building or structure, whether or not demolition is required;

when the increased cost is a consequence of enforcement of the minimum requirements of the ordinance or law.

This Coverage C applies only if the restored or remodeled property is intended for similar occupancy or use as the current property, unless such occupancy or use is not permitted by zoning or land use ordinance. This Coverage C does not apply if the building or structure is not repaired, reconstructed or remodeled.

**(2)** The coverages described in Paragraph (1) above apply only if the provisions in Paragraphs (a) and (b) below are satisfied and are then subject to the qualifications set forth in Paragraph (c) below:

**(a)** The ordinance or law:

**(i)** Regulates the demolition, construction or repair of buildings or structures, or establishes zoning or land use requirements at the applicable job site described in the Declarations; and

**(ii)** Is in force at the time of the loss.

ment of the ordinance or law; or

**(ii)** Sustains both direct physical loss or damage that is covered under this policy and direct physical loss or damage that is not covered under this policy, and the building or structure damage in its entirety results in enforcement of the ordinance or law.

If the building or structure sustains direct physical loss or damage that is not covered under this policy, and such damage is the subject of the ordinance or law, then there is no coverage under this Additional Coverage even if the building or structure has also sustained covered direct physical loss or damage.

**(c)** In the situation described in Paragraph (2)(b)(ii) above, we will not pay the full amount of loss otherwise payable under the terms of Coverage A, B or C of this Additional Coverage. Instead, we will pay a proportion of such loss. The proportion of such loss that we will pay is the proportion that the covered direct physical loss or damage bears to the total direct physical loss or damage.

However, if covered direct physical loss or damage, alone, would have resulted in enforcement of the ordinance or law, then we will pay the full amount of loss otherwise payable under the terms of Coverage A, B or C of this Additional Coverage.

**(3)** We will not pay under this Additional Coverage for:

**(a)** The enforcement of any ordinance or law which requires demolition, repair, replacement, reconstruction, remodeling or remediation of property due to contamination by "pollutants" or due to the presence, growth, proliferation, spread or any activity of "fungus", wet rot or dry rot;

**(b)** The costs associated with the enforcement of any ordinance or law which requires any insured or others to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of "pollutants" or due to the presence, growth, proliferation, spread or any activity of "fungus", wet rot or dry rot; or

**(c)** Loss due to any ordinance or law that:

**(i)** You were required to comply with before the loss, even if Covered Property was undamaged; and

**(ii)** You failed to comply with.

**(4)** Exclusion B.1.e. Ordinance or Law does not apply to the insurance specifically provided under this Additional Coverage.

**(5)** The applicable Limit of Insurance shown in the Declarations under the Ordinance or Law Additional Coverage is the most we will pay in any one occurrence under this Additional Coverage.

If a combined limit of insurance is shown in the Declarations for Coverage B and Coverage C of this Additional Coverage, such limit is the most we will pay for the sum of both coverages in any one occurrence.

**i. Pollutant Clean Up and Removal**

**(1)** We will pay your expense to extract "pollutants" from land or water at the job site described in the Declarations if the discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused by or results from any of the "specified causes of loss", to Covered Property that occurs during the policy period. The expenses will be paid only if they are reported to us in writing within 180 days of the date of the loss or damage.

**(2)** This Additional Coverage does not apply to costs to test for, monitor or assess the existence, concentration

**(3)** The Pollutant Clean Up and Removal Limit of Insurance shown in the Declarations is the most we will pay under this Additional Coverage for each job site described in the Declarations for the sum of all such expenses arising out of all "specified causes of loss" occurring during each separate 12 month period of this policy beginning with the effective date shown in the Declarations.

**j. Preservation of Property**

If it is necessary to temporarily move Covered Property from the job site described in the Declarations or a temporary storage location to preserve it from the threat of imminent loss or damage by a Covered Cause of Loss, we will pay for:

**(1)** The cost to remove the Covered Property from the job site or location, temporarily store the Covered Property at another location and move the Covered Property back to the original job site or location within a reasonable time after the threat of imminent loss or damage to the property by the Covered Cause of Loss passes; and

**(2)** Any direct physical loss or damage to this property while it is being moved or while temporarily stored at another location if such loss or damage occurs within 180 days after the property is first moved.

Coverage will end when any of the following first occurs:

**(a)** When the policy is endorsed to provide insurance at the new location;

**(b)** The property is returned to the original location; or

**(c)** This policy expires.

The Preservation of Property Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

Any payment under this Additional Coverage is included within and and will not increase the applicable Limit of Insurance.

**k. Protection of Property**

If Covered Property is in imminent danger of sustaining direct physical loss or damage from:

**(1)** Fire;

**(2)** Any storm system that has been declared and named a tropical storm or hurricane by the National Hurricane Center or the Central Pacific Hurricane Center of the National Weather Service, including any tornado or any other wind event that is caused by or results from the named storm; or

**(3)** A flood that has been forecasted by the National Weather Service or the U.S. Army Corps of Engineers;

we will pay the necessary and reasonable expenses actually incurred by you to protect that property at the job site described in the Declarations from such loss or damage, but only if the applicable cause of loss is a Covered Cause of Loss.

You must keep a record of the expenses you incur.

The Protection of Property Limit of Insurance shown in the Declarations is the most we will pay in any one occurrence under this Additional Coverage.

Any payment under this Additional Coverage is included within and will not increase the applicable Limit of Insurance.

**l. Reward Coverage**

**(2)** The arrest and conviction of any person who have damaged or stolen any Covered Property.

We will pay 25% of the covered loss, prior to the application of any Deductible and recovery, up to the Reward Coverage Limit of Insurance shown in the Declarations in any one occurrence for the reward payments you make. These reward payments must be documented.

## C. LIMITS OF INSURANCE

The most we will pay for loss or damage in any one occurrence is the applicable Limit of Insurance shown in the Declarations, Schedule(s), Coverage Form(s) or Endorsement(s). But in the event coverage for loss or damage is provided under the Coverage Extensions or Additional Coverages, the Limits of Insurance for such Coverage Extension or Additional Coverage will apply as additional amounts of insurance, unless otherwise stated within the Coverage Extension or Additional Coverage.

## D. DEDUCTIBLE

We will not pay for loss or damage in any one occurrence until the amount of the adjusted loss or damage exceeds the applicable Deductible shown in the Declarations, Schedule(s), Coverage Form(s) or Endorsement(s). We will then pay the amount of the adjusted loss or damage in excess of the Deductible, up to the applicable Limit of Insurance.

The applicable Deductible shown in the Declarations applies to the Coverage Extensions and Additional Coverages unless otherwise stated in the Coverage Extension or Additional Coverage.

Unless otherwise stated, if more than one Deductible amount applies to loss or damage in any one occurrence, the total of the deductible amounts applied in that occurrence will not exceed the amount of the largest applicable Deductible.

## E. ADDITIONAL CONDITIONS

The following conditions apply in addition to the COMMERCIAL INLAND MARINE CONDITIONS and the COMMON POLICY CONDITIONS.

### 1. Additional Named Insured

The following persons or organizations are included as Additional Named Insureds when you have agreed in a written contract or written agreement, executed prior to loss, to name such persons or organizations as an Additional Named Insured, but only to the extent of their financial interest in the Covered Property:

**a.** Owners of Covered Property;

**b.** Mortgagees or loss payees;

**c.** Contractors, sub contractors and sub-sub contractors; and

**d.** Lessors or lessees.

### 2. Coinsurance

If a Coinsurance Percentage is shown in the Declarations for the applicable project, the following condition applies:

**a.** We will not pay the full amount of any loss if the applicable "total project value" at the time of loss multiplied by the stated Coinsurance Percentage is greater than the applicable Covered Property Limit of Insurance.

Instead, we will determine the most we will pay using the following steps:

**Step (1)** Multiply the "total project value" at the time of loss by the Coinsurance Percentage.

**Step (2)** Divide the Covered Property Limit of Insurance by the figure determined in Step (1).

**Step (3)** Multiply the total amount of the covered loss, before the application of any deductible, by the figure determined in Step (2).

**Step (4)** Subtract the deductible from the figure determined in Step (3).

We will pay the amount determined in Step (4) or the Limit of Insurance, whichever is less.

For the remainder, you will either have to rely on other insurance or absorb the loss yourself.

**b.** Coinsurance does not apply to:

**(1)** Additional Coverages; or

**(2)** Coverage Extensions.

### 3. Duties in the Event of Loss

The following duties are added to the Duties In The Event of Loss LOSS CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS:

(1) Damaged or undamaged property at the job site described in the Declarations or elsewhere; or

(2) Temporary or substitute:

(a) Facilities, services, suppliers or customers; or

(b) Machinery, equipment, supplies or materials.

c. Notify us of any payment you receive from others due to a delay in the completion of construction beyond the "planned completion date".

If you do not resume the operation or use of Covered Property as quickly as possible or make every effort to meet the applicable "planned completion date", we will only pay the amount of loss we would have otherwise paid if you had complied with the above conditions.

**4. Jurisdictional Inspections**

At your option, we will provide certificate-of-operation inspection services for boilers and other pressure vessels where:

a. You have notified us of equipment that is insured under this Coverage Form and that requires a certificate-of-operation;

Certificate-of-operation inspection services shall be provided only in the United States of America, Puerto Rico and Canada as allowed by state, city or provincial law.

**5. Knowledge of Occurrence**

a. You must give written notice of any occurrence of loss to us or any of our authorized agents as soon as practicable after knowledge of the loss or damage is received by you, one of your executive officers who handles insurance matters or a risk manager of any named insured.

b. Knowledge of an incident by your agent, servant or employee, which could give rise to a claim, will not in itself constitute knowledge by you unless you, one of your executive officers who handles insurance matters or a risk manager of any named insured have received such notice from your agent, servant or employee.

c. Your rights under this insurance will not be prejudiced if there is a failure to give notice of an occurrence of loss or damage due solely to your reasonable belief that the loss or damage is not covered under this insurance.

**6. Liberalization**

If we adopt any revision that would broaden the coverage under this Coverage Part without additional premium within 60 days prior to or during the policy period, the broadened coverage will immediately apply to this Coverage Part.

**7. Loss Payment**

The Loss Payment LOSS CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS is replaced by the following:

The following loss payment provisions apply to coverage under the Ordinance Or Law Additional Coverage and are subject to the apportionment procedures set forth in such Additional Coverage:

**(1)** For a loss in value of an undamaged portion of Covered Property to which Coverage A – Coverage For Loss To The Undamaged Portion Of The Building or Structure applies, the loss payment for that building or structure, including damaged and undamaged portions, will be determined as follows:

**(a)** If Replacement Cost Coverage applies and the property is being repaired or replaced, on the same or another job site, we will not pay more than the lesser of:

**(i)** The cost to repair, rebuild or reconstruct the building or structure, but not for more than the amount it would cost to restore that building or structure on the same location and to the same height, floor area, style, capacity and comparable quality of the original property insured; or

**(ii)** The Limit of Insurance shown in the Declarations as applicable to the covered building or structure.

**(b)** If Replacement Cost Coverage applies and the property is not repaired or replaced, or if Replacement Cost Coverage does not apply, we will not pay more than the lesser of:

**(b)** If the Covered Building or Structure is repaired or replaced at the same job site, or if you elect to rebuild at another location, the most we will pay under Coverage C – Increased Cost Of Construction Coverage is the lesser of:

**(i)** The increased cost of construction at the same job site; or

**(ii)** The applicable Increased Cost of Construction Coverage Limit of Insurance shown in the Declarations.

(ii) The applicable Increased Cost of Construction Coverage Limit of Insurance shown in the Declarations.

**d.** Except as specifically provided in the Green Building Additional Expense, the cost to repair, rebuild or replace does not include any expenses you incur to attain any level of "green" certification.

**e.** Soft Costs Loss Determination

The following loss payment provisions apply to "soft costs" coverage:

The actual amount of "soft costs" will be determined based on your budgeted costs for the applicable project described in the Declarations had loss of or damage to Covered Property from any of the Covered Causes of Loss not occurred.

The amount of the "soft costs" loss will also be determined based on other relevant sources of information, including:

**(1)** Your financial records and accounting procedures;

**(2)** Bills, invoices and other vouchers;

**(3)** Deeds, liens or contracts; and

**(4)** Any amounts by which the amount of loss is reduced due to your failure to perform the duties in the event of loss outlined in this policy.

**f.** With respect to our options under Paragraphs a.(1) through a.(4) above, we will give notice of our intentions within 30 days after we receive the sworn proof of loss.

**g.** We will not pay you more than your financial interest in the Covered Property.

**h.** We may adjust losses with the owners of lost or damaged property if other than you. If we pay the owners, such payments will satisfy your claims against us for the owners' property. We will not pay the owners more than their financial interest in the Covered Property.

**i.** We may elect to defend you against suits arising from claims of owners of property. We will do this at our expense.

**j.** We will pay for covered loss within 30 days after we receive the sworn proof of loss, if you have complied with all of the terms of this Coverage Part and:

**(1)** We have reached agreement with you on the amount of loss; or

**(2)** An appraisal award has been made.

**k.** We will not be liable for any part of the loss or damage that has been paid or made good by others.

**l.** At our option, we may make a partial payment toward any claim, subject to the policy provisions and our normal adjustment process. To be considered for a partial claim payment, you must submit a partial sworn proof of loss with supporting documentation. Any applicable policy deductibles must be satisfied before any partial payments are made.

**8. Minimum Earned Premium**

If a Minimum Earned Premium is shown in the Declarations, such premium is the least amount of premium you must pay when the actual earned premium for this coverage is less than the Minimum Earned Premium.

The Minimum Earned Premium does not apply if we cancel coverage other than at your request.

**9. Other Insurance**

The Other Insurance LOSS CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS is replaced by the following:

**a. Other Insurance**

Except as stated in the Contributing Insurance and Excess Insurance in Paragraphs b. and c. below, if there is other insurance covering the same loss or damage as this Coverage Part we will pay only for the amount of covered loss in excess of the amount due from that other insurance, whether you can collect on it or not. But we will not pay more than the applicable Limit of Insurance.

**b. Contributing Insurance**

You may have other insurance subject to the same plan, terms, conditions and provisions as the insurance under this Coverage Part. If you do, we will pay our share of the covered loss. Our share is the proportion that the applicable Limit of Insurance under this Coverage Part bears to the Limits of Insurance of all insurance covering on the same basis.

**c. Excess Insurance**

You may have excess insurance over the Limit(s) of Insurance set forth in this Coverage Part without prejudice to this Coverage Part. The existence of such insurance will not reduce our liability under this Coverage Part.

**a.** This policy expires or is cancelled;

**b.** Final acceptance of the applicable project described in the Declarations by the owner;

**(1)** Within 30 days after final completion of the applicable project described in the Declarations, you must report, to us in writing, the Final Premium Base and other information outlined below.

The Final Premium Base is the "total project value" at the date of final completion.

You must also report the date construction was completed and coverage under this policy ended.

**(2)** Cancellation or Nonrenewal

If coverage under this policy was cancelled or nonrenewed, you must report, to us in writing, the Final Premium Base of each project described in the Declarations.

The Final Premium Base is the "total project value" as of the date of cancellation or nonrenewal.

**c. Final Premium**

Your Final Premium for the applicable project described in the Declarations is computed using the following steps:

**Step 1:** Multiply the applicable Annual Rate shown in the Declarations by the Final Premium Base = Actual Annual Premium.

**Step 2:** Adjust the Actual Annual Premium for the actual length of time coverage was provided under this policy for that project = Actual Term Premium.

**Step 3:** If the Actual Term Premium is greater than the applicable Estimated Premium, subtract the applicable Estimated Premium from the Actual Term Premium. This is the additional premium due. All additional premium is due and payable as of the date of the Premium Adjustment.

**Step 4:** If the Actual Term Premium is greater than the Minimum Earned Premium shown in the Declarations, but less than the applicable Estimated Premium, subtract the Actual Term Premium from the applicable Estimated Premium. We will refund this amount to you.

**Step 5:** If the Actual Term Premium is less than the Minimum Earned Premium shown in the Declarations and less than the applicable Estimated Premium, subtract the Minimum Earned Premium from the applicable Estimated Premium. We will refund this amount to you.

**13. Transfer Of Rights Of Recovery Against Others To Us**

The Transfer Of Rights Of Recovery Against Others To Us LOSS CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS is replaced by the following:

Transfer Of Rights Of Recovery Against Others To Us

If any person or organization to or for whom we make payment under this insurance has rights to recover damages from another, those rights are transferred to us to the extent of our payment. That person or organization must do everything necessary to secure our rights and must do nothing after loss or damage to impair them.

**a.** In accordance with any provision set forth in the applicable signed construction contract, prior to loss or damage any Named Insured may waive their rights to recover damages against any individual, corporation, or entity:

**(1)** With a financial interest in Covered Property; or

**(2)** That is a contractor or subcontractor performing work at the job site described in the Declarations.

But this waiver to recover damages does not apply to:

**(a)** Any architect, engineer or other party or entity responsible for any design, specifications or plans for the fabrication, erection or completion of Covered Property with respect to loss or damage that may be caused by fault, defect, error or omission in such design, specifications or plans; or

**(b)** Any contractor, manufacturer or supplier of machinery, equipment or other insured property that has agreed to make good loss or damage under a guaranty or warranty.

**(1)** A business firm:

**(a)** Owned or controlled by you; or

**(b)** That owns or controls you; or

**(2)** Your tenant.

This will not restrict your insurance.

**14. Unintentional Errors In Description**

Your error in how you describe the address of the job site shown in the Declarations shall not prejudice coverage afforded by this policy, provided such error is not intentional. Any such error shall be reported and corrected when discovered and appropriate premium charged.

**15. Valuation**

The Valuation GENERAL CONDITION in the COMMERCIAL INLAND MARINE CONDITIONS is replaced by the following:

Valuation

In the event of loss or damage, the value of Covered Property at the time of loss or damage will be determined as follows:

**a.** At replacement cost as of the time of loss or damage, except as otherwise provided in this Valuation GENERAL CONDITION. Replacement cost is the cost to replace Covered Property at the time of loss or damage without deduction for depreciation.

**(1)** You may make a claim for loss or damage covered by this insurance on an actual cash value basis instead of on a replacement cost basis. In the event you elect to have loss or damage settled on an actual cash value basis, you may still make a claim on a replacement cost basis if you notify us of your intent to do so within 180 days after the loss or damage.

**(2)** We will not pay on a replacement cost basis for any loss or damage:

**(a)** Until the lost or damaged property is actually repaired or replaced; and

**(b)** Unless the repairs or replacement are made as soon as reasonably possible after the loss or damage.

Instead, we will pay on an actual cash value basis. This restriction does not apply to losses less than $50,000.

**b.** Property of others at the amount for which you are liable, not to exceed the replacement cost.

**(1)** The Limit of Insurance applicable to the lost or damaged property;

**(2)** The cost to replace, at the same job site, the lost or damaged property with other property;

**(a)** Of comparable material and quality; and

**(b)** Used for the same purpose; or

**(3)** The amount you actually spend that is necessary to repair or replace the lost or damaged property.

**(4)** The cost to replace Covered Property includes:

**(a)** Labor and delivery charges; and

**(b)** General and specific overhead and profit:

**(i)** Only as related directly to the repair or replacement of the Covered Property sustaining covered loss or damage; and

**(ii)** At the same percentages as included, immediately prior to the covered loss or damage, in the "total project value" for the applicable project shown in the Declarations.

If a building or structure is rebuilt at a different location, the cost described in Paragraph (2) above is limited to the cost which would have been incurred had the building or structure been built at the original job site described in the Declarations.

**d.** The cost to repair, rebuild, or replace does not include the increased cost attributable to enforcement of any ordinance or law regulating the construction, use or repair of any property, except as provided in the Additional Coverage – Ordinance or Law.

**16. Where Coverage Applies**

We cover property that is in:

**a.** The United States of America (including its territories and possessions);

14. **"Water damage"** means:
    a. Accidental discharge or leakage of water or steam as the direct result of the breaking apart or cracking of a plumbing, heating, air conditioning or other system or appliance (other than a sump system including its related equipment and parts) that is located on the applicable job site described in the Declarations and contains water or steam; and
    b.
