Motion was made by Commission Member Andrew Heston; seconded by Commission Member Jeff Roberson ; The motion carried unanimously 7-0, the minutes were approved.

PUBLIC HEARINGS AND ACTION ITEMS

REGULAR AGENDA

2. Discussion and possible action on a Preliminary Plat for DC White Oak Data Center, on 27.27 acres, located at 898 E. CR 341/E. Henderson Rd. within the Angleton ETJ, Brazoria County, Texas (BCAD PID# 558324).

D.S. Director Otis Spriggs introduced this item, noting that this is a preliminary plat for property as stated here at the location on East Henderson.

This particular preliminary plat was forwarded to staff for processing. This item was forwarded to Brazoria County Engineering as a courtesy for review. The location is within our ETJ, the City of Angleton has jurisdiction over the platting. We do not have jurisdiction or authority over zoning for this property, however, we did review the plat.

We held a pre-development meeting with the developers for the property who are proposing a data center for the site. In terms of the project, they are proposing a 192,000 square foot building having a form of closed loop partial modular system.

Mr. Spriggs noted that provided is an example site that Data Prana developed in Lamarque, Texas. As you saw on the images within the report, that type of facility in Lamarque is more of a modular type system and it doesn't have a large building as proposed on the site here in Angleton.

We forwarded the plat to the city engineer and he forwarded on the comments in which I listed in the report or the summary. We forwarded those to the applicant and they have cleared all of the textural concerns. However, there was some question as the type of plat and we thought we had made it clear from the start that this would be a preliminary plat which would come before the planning commission as well as city council and then it would go before a final plat process as a follow-up in the future.

Mr. Spriggs discussed the Henderson Road frontage of this property, which is not developed; It's more like a gravel road. The improved portion terminates to the west of this tract. He noted the construction traffic and also facility traffic, which is a major concern of staff in terms of, okay, we see the development plan, but the driveways basically terminate at that right of way as a descriptive easement.

Noted in the report, there's a TIA requirement typically on these type of large facilities, where you have to do a traffic impact analysis to address some of the concerns in terms of traffic and access.

Mr. Spriggs noted that staff is hoping that the applicant would reconsider the TIA waiver request, as the city engineer did require that they would have a scoping meeting with our team, the County and TxDot, that way we can figure out in terms of their numbers what they're proposing, and if the waiver is feasible with access off of FM 523.

Mr. Spriggs recognized a letter submitted by Mr. Bieri, who had concerns regarding their farm and water well approval which went before the Conservation District.

Commission Member Andrew Heston asked for clarification on the traffic impact analysis, and the request for waiver; is that something that comes before us, or is that purely a city council question?

Development Services Director Otis Spriggs explained that Council would take official action.

Laura A. Hyder-Mayes, RSG Engineering appeared, representing the owner of the property, and as the platting engineering company. She noted that she would defer the technical facility questions to the developer, and would coordinate a future meeting with the owner and try to get your answers as soon as possible.

Commission Member Andrew Heston expressed concerns of the traffic analysis, especially given that this is not a complete Rd. and Henderson does not go all the way through.

Commission Member Michelle Townsend also questioned improvements to that part of Henderson Road. She noted that she has the additional concern of even if you improve Henderson, you're still dumping traffic onto FM 523 probably. And if I'm reading the letter

correctly, some of that traffic will have ingress and egress at peak traffic times. And anyone I think who's been on FM 523, you're only a mile from the high school in peak traffic times is already a nightmare. So I don't know if this is a comment or a question, but I I'm real uncomfortable with waiving a traffic study. You're coming off right there. There's that overpass there too. So now you've got a visual impediment. She added that she would like to hear from the project engineer/developer on the power and water usage as well.

Commission Member Michelle Townsend expressed good neighborhood-ish behavior and perhaps some kind of good faith effort should be shown, that they have reached out to the neighboring properties and have provided them with information on anticipated decibels for noise at certain times of the day, and what the lighting is going to look like.

Ms. Laura A. Hyder-Mayes, stated that she will get with the team on providing that information.

Commission Action:

Commission Member Michelle Townsend made a motion that this item be tabled until the comments and questions raised here today have been addressed with staff and staff can report back to us; motion was seconded by Commission Member Andrew Heston; the motion carried unanimously 7-0; the item was tabled.

ADJOURNMENT: The meeting was adjourned at 12:26 PM.

AGENDA SUMMARY/STAFF REPORT

MEETING DATE: October 1, 2026

PREPARED BY: Otis T. Spriggs, AICP, Director of Development Services

AGENDA CONTENT: Conduct a public hearing, discussion, and take possible action on a Variance request of the Angleton LDC, Land Development Code Section 23-5, E.3/Sec. 28-46.- SF-6.3 Single Family Residential, Subsection d.1(b)., for insufficient lot frontage (49 ft.), for an infill lot approval on property located within the SF 6.3 Residential District, at 0 E. Peach St., approximately 200 ft. east of E. Peach St. & S. Arcola St., Angleton, Texas (Brazoria C.A.D., Prop. ID #715814)/(ANGLETON) BLK 67 LOT 5-5A.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: N/A

FUNDS REQUESTED: N/A

FUND: N/A

EXECUTIVE SUMMARY: The applicant Jasmine Acero, is requesting a variance on a minimum lot width requirement for a lot of record in one of older established neighborhoods of Angleton in order to build a new infill home on a vacant lot located within the SF 6.3 Residential District, at 0 E. Peach St., approximately 200 ft. east of E. Peach St. & S. Arcola St., Angleton, Texas (Brazoria C.A.D., Prop. ID #715814)/(ANGLETON) BLK 67 LOT 5-5A. A lot reduction to 49 ft. is being requested (see survey attached).

Sec. 28-46.- SF-6.3 Single Family Residential, Subsection d.1(b).

(a) *General purpose and description:* The SF-6.3, Single-Family Residential-6.3, district is intended to provide for development of primarily detached, single-family residences on small, compact lots of not less than 6,300 square feet in size in logical neighborhood units.

(d) **Area regulations:**

(1) *Size of lots:*

- a. *Minimum lot area:* 6,300 square feet.
- b. *Minimum lot width:* 60 feet.
- c. *Minimum lot depth:* 100 feet.

(2) *Size of yards:*

- a. *Minimum front yard:* 35 feet.
- b. *Minimum side yard:* Ten feet, zero inches for interior side yard; 15 feet for a corner lot on a street; 30 feet for a key corner lot.

- c. *Minimum rear yard:* Twenty feet for the main building and any accessory building(s); 25 feet for rear entry garage. (See section 28-103 for accessory building standards.)

PROPOSED SITE PLAN LAYOUT

The applicant is proposing a 58'x26' (1,508 s.f.) new single-family home on the existing tract of land. The infill project will only enhance the overall neighborhood area and property values within the vicinity.

Staff finds that the applicant's request is reasonable and will cause no issues of negative impact on the neighboring properties. All setbacks will be in accordance with Section 28-46.- SF-6.3 area regulation standards as outlined above.

If yes, when: _____

Please provide proof of taxes paid on this property.

Request Information:

Please answer the following questions as completely as possible. Failure to outline fully the situation by answering these questions could cause unnecessary delay in evaluating your appeal. Additional pages may be attached if necessary.

1. Describe the variance you are requesting: I am requesting a variance to allow the development of a single-family residence on a legally platted lot that is 50 feet wide. Zoning requires a minimum of 60 feet.
2. Describe the special or unique condition(s) of your property that exist, such as restricted area, shape, topography or physical features that are peculiar to your property: The property is a legally existing lot approximately 50 feet wide and 186 feet deep. The lot's width is pre-existing.
3. Do similar property conditions exist in your area? Explain: Yes. The surrounding areas include properties that were subdivided prior to the current zoning. These conditions reflect the historical development patterns in the area.
4. Explain how your need for a variance is unique to those special property-related conditions described above: Strict enforcement of the ordinance prevents reasonable residential development. The proposed residence has been designed to comply fully with all applicable setbacks.
5. Are there special conditions affecting your property such that the strict application of the provisions of the Zoning Ordinance would deprive you of the reasonable use of your land? Explain: Strict application of the zoning ordinance would deprive the applicant of reasonable use of the property by preventing development of a single-family residence, which is intended use under the zoning designation.
6. Explain why the granting of the variance will not be detrimental to the public health, safety or welfare, or injurious to other property within the area: Granting the variance will not be detrimental to public health, safety, or welfare. The proposed residence will comply with all building codes and required setbacks and will be compatible with the neighborhood.
7. Describe how strict enforcement of the zoning ordinance creates a hardship that is unique to your property, imposing a hardship above that suffered by the general public: The hardship is unique to the property and results from its pre-existing width of 50 feet which cannot be modified. This condition imposes a limitation that renders it unusable for its intended residential use.

A completed variance application is due 30 days prior to the next Board of Adjustment meeting. Board of Adjustment meetings are held at noon on the third Wednesday of each month. At this meeting, a public hearing will be held. A public hearing notice must be published in the local newspaper (at least 14 days before the meeting) and a notice must be sent to all property owners within 200' of the property where the variance is being requested (the notice must be sent at least 10 days prior to the meeting).

Acknowledgements

I certify that the above information is correct and complete to the best of my knowledge and ability and that I am now or will be fully prepared to present the above proposal at the Board of Adjustments hearing.

I understand that in the event that I am not present or represented at the public hearing, the Board shall have the power to dismiss the proposal either at the call of the case or after the hearing, and that such dismissal shall constitute denial.

I reserve the right to withdraw this proposal at any time upon written request filed with the City Secretary's office, and such withdraw shall immediately stop all proceedings. I understand the filing fee is not refundable upon withdraw of the proposal after public notice.

I understand that if the request is approved, I must obtain a building permit from the City before any work is started on the property and that the Board of Adjustment action does not constitute the approval of the building permit.

AGENDA SUMMARY/STAFF REPORT

MEETING DATE: October 1, 2026

PREPARED BY: Otis T. Spriggs, AICP, Director of Development Services

AGENDA CONTENT: Discussion and possible action on a Preliminary Plat for DC White Oak Data Center, on 27.27 acres, located at 898 E. CR 341/E. Henderson Rd. within the Angleton ETJ, Brazoria County, Texas (BCAD PID# 558324). (This Item was tabled by the P&Z Commission on September 3, 2026)

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: N/A

FUNDS REQUESTED: N/A

FUND: N/A

EXECUTIVE SUMMARY: The applicant RSG Engineering filed the Preliminary Plat on behalf of the property owners Oscar and Norma Rodriguez. Based in Aventura, Florida, Dataprana, who builds data centers, is proposing to construct the DC White Oak, a 47 MW- data center facility, located at the southwest corner of CR 341 (Henderson Road) and FM 523.

The Planning and Zoning Commission is asked to consider the Preliminary Plat, as this request falls within the Angleton Extra-territorial Jurisdiction (ETJ), where platting authority is granted. No Zoning consideration is applicable within the County.

Data Centers- State Update:

Governor Abbott has directed PUCT and ERCOT to halt advancement of affected data-center projects through the electric-grid interconnection process pending comprehensive verification and audit. The directive itself does not establish a statewide municipal land-use moratorium or prohibit municipalities from processing development applications under their existing statutory authority.

Project Details:

During the pre-development meeting, the developers informed Leadership Staff that they are speaking with some of the adjoining landowners to work out potentially having more buffer space between the property site and any other residential parcels there.

The proposed site plan reflects a 192,000 s.f. building, (800 feet by 320 feet), and a fully closed-loop partial modular system, with an exterior modular setup, housing the cooling systems, as part of the power backup systems.

The facility will not be tapping into the city's water or sewer lines. The only utility that's connected is electrical power, which will be delivered to the facility at distribution level.

The containerized systems, 8- feet or 10 -feet by 40- foot containers will house the cooling system, that houses the battery-backups, and they are run in through these setups into the building.

The system will have independent water tanks for those that need direct cooling. Water tanks will help supply the building if it runs low on water. Equally, the containerized section has built-in fire suppression. The building will be equipped with a sprinkler system, which will run off well and tank systems. The developer will be putting in an enlarged well to cover the water use of the ongoing workers in emergencies. A septic system will be used for waste, for the day-to-day workers. The layout reflects a small detention pond to the north and a larger one to the south

At this point, there are no plans to develop the second half of the property.

As a point of reference a recently completed a data center was constructed in LaMarque, Texas. The LaMarque facility although similar is a fully modular project. The White Oak facility is to be considered more of a partial building/partial modular type facility.

City Engineer/Staff Comments:

Staff forwarded the plat application and attachments to the City Engineer for review. Note that the developer is requesting that the City waive the formal TIA requirement and accept this exemption request letter, together with the supporting trip generation and safety analysis, as sufficient to satisfy the City of Angleton's traffic review requirements (see attached).

On behalf of Prana Data Centers, LLC, please find attached a Traffic Impact Analysis (TIA) Exemption Request Letter for the proposed White Oak Data Center. The project is a 192,000 SF data center development located at the southwest corner of CR 341 (Henderson Road) and FM 523.

As summarized in the attached letter, the proposed development is anticipated to generate approximately 140 weekday daily trips, 13 AM peak-hour trips, and 10 PM peak-hour trips. Based on the low projected traffic volumes, the project's low development intensity relative to the overall tract, and the supporting operational and safety review, we respectfully request that the City waive the formal TIA requirement for this development.

*The attached submittal includes the exemption request letter and supporting exhibits, including the location map, site plan, trip generation analysis, and safety **review information.***

The facility is just a little over a half mile outside of the City Limits. No information regarding the sound/noise or lighting to be generated from the proposed development, therefore Staff is not able to draw any conclusions on levels of concern that may affect the neighboring homes to avoid any future nuisance issues within the area that potentially could be caused. Many performance standards issues are typically addressed and conditioned as part of a site plan process or zoning review, which are directly a part of this application, but should be addressed.

The City Engineer has deemed the application incomplete with a number of comments as provided below that need to be resolved:

1. As noted above a TIA waiver is requested. The applicant must participate in a

TIA scoping meeting to determine what level TIA will be required for their project and will need to consider construction traffic discussion as this location could be potentially problematic for tractor trailers egress/ingress.

Sheet 1:

There is a section of ROW along Henderson that they note as prescriptive. Please verify if this plat will dedicate ROW as opposed to road easement.

1. Please provide City of Angleton standard plat notes.
2. Please provide dedication of detention easements for proposed detention ponds.
3. Please provide acreage of adjacent lots (Typical).
4. Survey shows existing ditch/channel. Verify easement dedication for drainage.
5. Show building setbacks for west boundary line.
6. Please provide pipeline owner (see note for 50 ft. pipeline easement).
7. The plat identifies an unrestricted reserve is being used instead of a lot with reserves dedicated within it, please verify.
8. Please provide floodplain statement for the subdivision.
9. Please provide recording information for FM 523.
10. Metes and bounds description has missing degrees.
11. Please verify if the note 50' ft. ROW agreement is still effective for cattle transferring.
12. Please provide utility providers on the plat.
13. Please provide a corner tie to the original survey (abstract). See plat mark-up.

Sheet 2:

1. For the various easements referenced, consider noting them on the proposed subdivision plat.
2. Please use the standard City of Angleton and Angleton Drainage District Certificates and make necessary corrections as noted.

On September 2, 2026, the plat comments/corrections (see attached) were forwarded to the City as well as the City Engineering. The requested road easement/R.O.W. comment was addressed; however, the request for T.I.A. consideration is still being evaluated, pending a T.I.A. scoping meeting with the City, County, and TxDot. Staff will update the Commission during the meeting.

Recommendation:

The Planning and Zoning Commission should consider the Preliminary Plat for White Oak Data Center and the comments by the Staff and City Engineer, and hold the hearing with the applicants to determine if sufficient response is obtained prior to forwarding the item/recommendation to the City Council for final consideration and approval.

Commitment For Title Insurance T-7

Item 3.

ISSUED BY

First American Title Insurance Company

THE FOLLOWING COMMITMENT FOR TITLE INSURANCE IS NOT VALID UNLESS YOUR NAME AND THE POLICY AMOUNT ARE SHOWN IN SCHEDULE A, AND OUR AUTHORIZED REPRESENTATIVE HAS COUNTERSIGNED BELOW.

We FIRST AMERICAN TITLE INSURANCE COMPANY will issue our title insurance policy or policies (the Policy) to You (the proposed insured) upon payment of the premium and other charges due, and compliance with the requirements in Schedule C. Our Policy will be in the form approved by the Texas Department of Insurance at the date of issuance, and will insure your interest in the land described in Schedule A. The estimated premium for our Policy and applicable endorsements is shown on Schedule D. There may be additional charges such as recording fees, and expedited delivery expenses.

This Commitment ends ninety (90) days from the effective date, unless the Policy is issued sooner, or failure to issue the Policy is our fault. Our liability and obligations to you are under the express terms of this Commitment and end when this Commitment expires.

TEXAS TITLE INSURANCE INFORMATION

Title insurance insures you against loss resulting from certain risks to your title. The commitment for Title Insurance is the title insurance company's promise to issue the title insurance policy. The commitment is a legal document. You should review it carefully to completely understand it before your closing date.	El seguro de título le asegura en relación a pérdidas resultantes de ciertos riesgos que pueden afectar el título de su propiedad. El Compromiso para Seguro de Título es la promesa de la compañía aseguradora de títulos de emitir la póliza de seguro de título. El Compromiso es un documento legal. Usted debe leerlo cuidadosamente y enterarlo completamente antes de la fecha para finalizar su transacción. Item 3.
---	--

Your Commitment for Title Insurance is a legal contract between you and us. The Commitment is not an opinion or report of your title. It is a contract to issue you a policy subject to the Commitment's terms and requirements.

Before issuing a Commitment for Title Insurance (the Commitment) or a Title Insurance Policy (the Policy), the Title Insurance Company (the Company) determines whether the title is insurable. This determination has already been made. Part of that determination involves the Company's decision to insure the title except for certain risks that will not be covered by the Policy. Some of these risks are listed in Schedule B of the attached Commitment as Exceptions. Other risks are stated in the Policy as Exclusions. These risks will not be covered by the Policy. The Policy is not an abstract of title nor does a Company have an obligation to determine the ownership of any mineral interest.

- **MINERALS AND MINERAL RIGHTS** may not be covered by the Policy. The Company may be unwilling to insure title unless there is an exclusion or an exception as to Minerals and Mineral Rights in the Policy. Optional endorsements insuring certain risks involving minerals, and the use of improvements (excluding lawns, shrubbery and trees) and permanent buildings may be available for purchase. If the title insurer issues the title policy with an exclusion or exception to the minerals and mineral rights, neither this Policy, nor the optional endorsements, ensure that the purchaser has title to the mineral rights related to the surface estate.

Another part of the determination involves whether the promise to insure is conditioned upon certain requirements being met. Schedule C of the Commitment lists these requirements that must be satisfied or the Company will refuse to cover them. You may want to discuss any matters shown in Schedules B and C of the Commitment with an attorney. These matters will affect your title and your use of the land.

When your Policy is issued, the coverage will be limited by the Policy's Exceptions, Exclusions and Conditions, defined below.

- **EXCEPTIONS** are title risks that a Policy generally covers but does not cover in a particular instance. Exceptions are shown on Schedule B or discussed in Schedule C of the Commitment. They can also be added if you do not comply with the Conditions section of the Commitment. When the Policy is issued, all Exceptions will be on Schedule B of the Policy.
- **EXCLUSIONS** are title risks that a Policy generally does not cover. Exclusions are contained in the Policy but not shown or discussed in the Commitment.
- **CONDITIONS** are additional provisions that qualify or limit your coverage. Conditions include your responsibilities and those of the Company. They are contained in the Policy but not shown or discussed in the Commitment. The Policy Conditions are not the same as the Commitment Conditions.

You can get a copy of the policy form approved by the Texas Department of Insurance by calling the Title Insurance Company at 1-888-632-1642 or by calling the title insurance agent that issued the Commitment. The Texas Department of Insurance may revise the policy form from time to time.

You can also get a brochure that explains the policy from the Texas Department of Insurance by calling 1-800-252-3439.

Before the Policy is issued, you may request changes in the policy. Some of the changes to consider are:

- Request amendment of the "area and boundary" exception (Schedule B, paragraph 2). To get this amendment, you must furnish a survey and comply with other requirements of the Company. On the Owner's Policy, you must pay an additional premium for the amendment. If the survey is acceptable to the Company and if the Company's other requirements are met, your Policy will insure you against loss because of discrepancies or conflicts in boundary lines, encroachments or protrusions, or overlapping of improvements. The Company may then decide not to insure against specific boundary or survey problems by making special exceptions in the Policy. Whether or not you request amendment of the "area and boundary" exception, you should determine whether you want to purchase and review a survey if a survey is not being provided to you.
- Allow the Company to add an exception to "rights of parties in possession." If you refuse this exception, the Company or the title insurance agent may inspect the property. The Company may except to and not insure you against the rights of specific persons, such as renters, adverse owners or easement holders who occupy the land. The Company may charge you for the inspection. If you want to make your own inspection, you must sign a Waiver of Inspection form and allow the Company to add this exception to your Policy.

The entire premium for a Policy must be paid when the Policy is issued. You will not owe any additional premiums unless you want to increase your coverage at a later date and the Company agrees to add an Increased Value Endorsement.

CONDITIONS AND STIPULATIONS

1. If you have actual knowledge of any matter which may affect the title or mortgage covered by this Commitment, that is not shown in Schedule B, you must notify us in writing. If you do not notify us in writing, our liability to you is ended or reduced to the extent that your failure to notify us affects our liability. If you do notify us, or we learn of such matter, we may amend Schedule B, but we will not be relieved of liability already incurred.
2. Our liability is only to you, and others who are included in the definition of Insured in the Policy to be issued. Our liability is only for actual loss incurred in your reliance on this Commitment to comply with its requirements or to acquire the interest in the land. Our liability is limited to the amount shown in Schedule A of this Commitment and will be subject to the following terms of the Policy: Insuring Provisions, Conditions and Stipulations, and Exclusions.

SCHEDULE C

Commitment For Title Insurance T-7

ISSUED BY

Item 3.

First American Title Insurance Company

G.F. No. or File No. **NCS-1310637-HOU1**

Your Policy will not cover loss, costs, attorney's fees, and expenses resulting from the following requirements that will appear as Exceptions in Schedule B of the Policy, unless you dispose of these matters to our satisfaction, before the date the Policy is issued:

1. Documents creating your title or interest must be approved by us and must be signed, notarized and filed for record.
2. Satisfactory evidence must be provided that:
 - no person occupying the land claims any interest in that land against the persons named in paragraph 3 of Schedule A,
 - all standby fees, taxes, assessments and charges against the property have been paid,
 - all improvements or repairs to the property are completed and accepted by the owner, and that all contractors, sub-contractors, laborers, and suppliers have been fully paid, and that no mechanic's, laborer's or materialmen's liens have attached to the property,
 - there is legal right of access to and from the land,
 - (on a Loan Policy only) restrictions have not been and will not be violated that affect the validity and priority of the insured mortgage.
3. You must pay the seller or borrower the agreed amount for your property or interest.
4. Any defect, lien or other matter that may affect title to the land or interest insured, that arises or is filed after the effective date of this Commitment.
5. Record a Release of Vendor's Lien retained in Deed:

Grantor: Texaco Exploration and Production, Inc., a Delaware corporation
Grantee: Charles A. Wilson, Sr. husband of/and Margaret C. Wilson
Dated: November 10, 1995
Recorded: December 05, 1995 in County Clerk's File No. [95-039758](#), of the Official Public records, of Brazoria County, Texas.

Additionally secured by Deed of Trust:

Grantor: Charles A. Wilson, Sr. and wife, Margaret C. Wilson
Trustee: David E. Russell
Amount: \$80,750.00
Beneficiary: VictoriaBank & Trust Company
Recorded: December 05, 1995 in County Clerk's File No. [95-039759](#), of the Official Public records, of Brazoria County, Texas.

6. Seller and purchaser must execute at closing, and record in the deed records of the county in which the Land is located, the notice required by Water Code Section 49.452 with respect to the Angleton Drainage District. This requirement may be removed or modified with underwriter approval if Company is provided written verification by the district, in form and substance acceptable to Company in its discretion, confirming that the notice is not required with respect to the district.
7. The right is reserved to make and insert additional exceptions and/or requirements based upon the review of the survey, up to and including the issuance of the Policy.
8. Furnish a Category 1A survey of the property to be prepared by a Registered Public Surveyor acceptable to this Company. When same is submitted to the Title Department for inspection and approval, additional exceptions and/or requirements may be added.
9. If we are to amend the standard survey exception to read "Shortages in area" and upon payment of the applicable premium (if any), we will require a Category 1A survey from a Registered Public Surveyor acceptable to this Company showing:
 - a) The location of all improvements and the exact location of all building lines in relation to the property lines;
 - b) Easements and/or rights-of-way, dedicated or not, that a physical inspection of the premises would disclose, and
 - c) Indicating and labeling all encroachments, or on the face of the survey stating "NO ENCROACHMENTS."

When same is submitted to the Title Department for inspection and approval, additional exceptions and/or requirements may be added.
10. In connection with any lease and easement agreements ("Agreements") to be insured by the Company, fully executed copies of the underlying Agreements must be provided for review and prior to closing. A memorandum of the Agreement must be recorded in the Public Records. At closing the Company will also require a current, duly authorized estoppel executed by the grantor/landlord stating:
 - (i) that the Agreement is in full force and effect,
 - (ii) that there are no defaults or violations under the terms of the Agreement,
 - (iii) that all lease payments due and owing the landlord have been paid current,
 - (iv) that neither party to the Agreement has any Known claims against the other under the terms of the Agreement and
 - (v) that there are no amendments or modifications to the Agreement other than as set forth in the estoppel, and
 - (vi) a duly authorized consent by the grantor/landlord, which may be included in the estoppel described above, to the transaction creating the estate, interest or Mortgage to be insured by the policy, if such consent is required under the terms of the Agreements.
11. Subchapter H, Chapter 5, Texas Property Code, effective September 1, 2025, prohibits ownership of real property by certain foreign parties. Any loss or damage incurred as a result of a violation of this law is excluded from coverage under the terms of a title insurance policy. Notwithstanding any applicable exclusions from coverage in the policy, and to avoid any misunderstanding, the title policy may also include a specific Schedule B exception regarding the operation of this law.

If a prohibited foreign entity or person is a party to this transaction, the Company must be notified in writing. The Company will not knowingly close or insure a transaction that violates the referenced state law.

**FIRST AMERICAN TITLE INSURANCE COMPANY****Commitment for Title Insurance Form (T-7)****DELETION OF ARBITRATION PROVISION**

(Not applicable to the Texas Residential Owner's Policy)

ARBITRATION is a common form of alternative dispute resolution. It can be a quicker and cheaper means to settle a dispute with your Title Insurance Company. However, if you agree to arbitrate, you give up your right to take the Title Company to court and your rights to discovery of evidence may be limited in the arbitration process. In addition, you cannot usually appeal an arbitrator's award.

Your policy contains an arbitration provision (shown below). It allows you or the Company to require arbitration if the amount of insurance is \$2,000,000 or less. If you want to retain your right to sue the Company in case of a dispute over a claim, you must request deletion of the arbitration provision before the policy is issued. You can do this by signing this form and returning it to the Company at or before the closing of your real estate transaction or by writing to the Company. The arbitration provision in the Policy is as follows:

"Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of the American Land Title Association ("Rules"). Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured, unless the Insured is an individual person (as distinguished from an Entity). All arbitrable matters when the Amount of Insurance is in excess of \$2,000,000 shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction."

BIERI FARMS / BIERI & SON

Angleton, Texas

RE: DC White Oak Data Center - Preliminary Plat

FM 523 and CR 341 (Henderson Road)

Potential Impact on Existing Agricultural Irrigation Well

To: Angleton Planning & Zoning Commission **And:** Brazoria County Groundwater Conservation District

Bieri Farms/Bieri & Son operates an established agricultural farming operation in the CR 210/CR 212 area near the proposed DC White Oak data center.

We are writing to formally express concern regarding the project's proposed use of a groundwater well and the potential impact that groundwater withdrawal could have on our existing agricultural irrigation well.

Our irrigation well is located **less than one mile from the proposed development**. According to our January 30, 2017 well contract, it is a **16-inch irrigation water well drilled to a depth of 330 feet**, with a **24-inch bore hole**. The installed pumping equipment includes a **3,000 GPM line-shaft turbine pump** powered by a **125 HP electric motor**. This well is an important part of our agricultural operation and our ability to irrigate crops.

The information presented regarding DC White Oak states that the facility will not utilize City water or sewer service and instead proposes an enlarged groundwater well, water-storage tanks, and septic facilities. However, we have not seen information establishing the proposed well's depth, screened interval, maximum pumping capacity, anticipated daily or annual groundwater withdrawal, or the potential effect of that pumping on existing nearby wells.

Because of the close proximity of our high-capacity agricultural well, we respectfully request that these issues be fully evaluated before approval and operation of a groundwater well serving this development.

Specifically, we request disclosure and evaluation of:

1. The proposed depth and screened interval of the DC White Oak well.
2. The aquifer and water-bearing formation from which groundwater will be withdrawn.
3. The proposed well's maximum pumping capacity in gallons per minute.
4. The anticipated average and maximum daily groundwater consumption.
5. The anticipated annual groundwater withdrawal.
6. Water requirements for cooling, employees, fire protection, storage tanks, emergencies, and any other uses.
7. A hydrogeologic drawdown and well-interference analysis evaluating the potential effect on existing wells within the surrounding area, specifically including the Bieri Farms agricultural irrigation well.
8. The predicted effect when the DC White Oak well and the Bieri Farms irrigation well are operating simultaneously.
9. Any monitoring or mitigation measures required should the development cause a decline in water level, pressure, pumping capacity, or performance of an existing agricultural well.

We are not opposed to responsible development. However, an existing agricultural operation should not bear the risk or expense associated with groundwater impacts created by a new commercial development.

We respectfully request that this letter and our concerns be included in the official record concerning the DC White Oak project and that the potential impact on our existing agricultural groundwater supply be addressed before groundwater production for the project is authorized.

Respectfully,

Stewart Bieri

**RE: Traffic Impact Analysis Exemption Request
White Oak Data Center Development
698 County Road 341 (Henderson Road), Angleton, Texas 77515**

Dear Mr. Spriggs:

On behalf of Prana Data Centers, LLC, we respectfully request an exemption from the requirement to prepare a Traffic Impact Analysis (TIA) for the White Oak Data Center development. The project consists of a 192,000 square foot data center located on a 27.28-acre tract located at the southwest corner of CR 341 (Henderson Road) and FM 523 in Angleton, Texas.

The site has approximately 520' of frontage along CR 341, which is classified as a Major Collector in Brazoria County's Thoroughfare Plan. Site access is proposed via two commercial driveways on CR 341: one located approximately 515' west of FM 523 and one located approximately 150' west of FM 523. The proposed driveway locations satisfy the City of Angleton's minimum commercial driveway spacing criteria for collector streets, as set forth in Section 23-12 of the City's *Land Development Code and Construction Manual*. A location map and site plan illustrating the proposed access are included in Appendix A.

A data center is a secure, highly serviced technology facility that contains computer servers, data storage systems, network and telecommunications equipment, and associated electrical and mechanical support systems. Typical components include server halls, network operations areas, limited administrative and security offices, loading and service areas, standby generators, electrical substations, cooling equipment, and utility infrastructure. Under the *Institute of Transportation Engineers (ITE) Trip Generation Manual, 12th Edition*, a data center is identified as Land Use Code 160 (Data Center). Gross floor area, typically expressed in 1,000 square-foot units of gross floor area, is the principal trip-generation variable for this land use.

Data centers typically have relatively few employees and visitors. Unlike conventional office, warehouse, or manufacturing uses, most of a data center's floor area is occupied by automated information-technology equipment rather than employees or customer-facing activities. Operations generally occur continuously, with staffing typically limited to security personnel, facilities technicians, information-technology staff, and periodic vendor or maintenance personnel. As a result, vehicle trips are generally associated with employee shift changes and commutes, deliveries, service calls, and maintenance activities rather than customer traffic or regular freight movements.

The proposed development is projected to generate approximately 140 weekday daily trips, including 70 inbound trips and 70 outbound trips; 13 AM peak-hour trips, including 10 inbound trips and 3 outbound trips; and 10 PM peak-hour trips, including 2 inbound trips and 8 outbound trips, as summarized in Table B1. The trip estimate is consistent with the anticipated employment level for the facility, which is expected to include approximately 10 to 15 employees. These trip generation estimates are well below the daily and peak-hour thresholds at which a TIA is typically required under Section 23-25, Traffic Impact Analysis, of the City's *Land Development Code and Construction Manual*.

The City's guidelines also state that a TIA may be required for a development involving more than 25 acres of property. However, the guidelines further state that low intensity development on larger parcels does not require a TIA. Although the overall tract contains 27.28 acres, the proposed project area encompasses only 13.42 acres. The remaining 13.86 acres would remain undeveloped and are not part of the proposed development application. Accordingly, the proposed data center represents a low-intensity development relative to the overall tract area.

We respectfully request that the City of Angleton grant a TIA exemption for the proposed development for the following reasons:

- The proposed development is expected to generate approximately 140 weekday daily trips, 13 AM peak-hour trips, and 10 PM peak-hour trips. These volumes are well below the City's applicable daily and peak-hour trip-generation thresholds for requiring a TIA.
- The development is low intensity relative to the overall tract. While the 27.28-acre tract exceeds the City's 25-acre acreage threshold, the active project area encompasses only 13.42 acres, and the remaining 13.86 acres would remain undeveloped and outside the scope of the current development application. The projected trip generation is therefore consistent with the City's provision for low-intensity development on larger parcels.
- All site traffic is anticipated to travel to and from the development via CR 341, which provides regional connectivity to SH 35 to the west and FM 523 to the east. Given the low projected site-generated traffic volumes, turn lane improvements at the proposed commercial driveways are not anticipated to be warranted.
- The intersection of FM 523 and CR 341 is the nearest major intersection expected to be affected by site-generated traffic. The intersection is currently unsignalized. Based on the relatively low traffic volumes on CR 341 – 205 vehicles per day according to a 2023 count at TxDOT Traffic Count Database System (TCDS) Station 20HP32 – and on FM 523 – 5,538 vehicles per day according to a 2025 count at TxDOT TCDS Station 20H8B – the addition of the projected site traffic is not anticipated to create a need for operational or capacity improvements at the intersection. TxDOT TCDS count data for these two stations is provided in Appendix C.
- TxDOT's Crash Records Information System (CRIS) was reviewed to evaluate recent crash history at the intersection of FM 523 and CR 341. During the three-year period from 2023 through 2025, one crash was reported within 500' of the intersection, as shown in Appendix

D. The reported crash was a non-intersection-related sideswipe crash attributed to a driver attempting to pass another road user without sufficient clearance. The limited crash history does not indicate an existing intersection-related safety concern.

Given the low projected trip generation, the absence of an apparent need for turn-lane improvements, and the lack of an identified development-related operational or safety issue, a formal TIA would be unlikely to identify mitigation measures beyond those already reflected in the proposed site design. Requiring a full TIA under these circumstances would not be expected to provide a meaningful benefit to the City's review. Accordingly, we respectfully request that the City waive the formal TIA requirement and accept this exemption request letter, together with the supporting trip generation and safety analysis, as sufficient to satisfy the City of Angleton's traffic review requirements.

Thank you for your consideration of this request. If you have any questions, please feel free to contact me at 281-770-9085.

Sincerely,

Dena Snyder, P.E., PTOE
Managing Principal

Appendix D. Crash History

All crash data available using this tool represents reportable data collected from Texas Peace Officer's Crash Reports (CR-3) received and processed by the Texas Department of Transportation (Department) as of 08/20/2026. The Department makes no warranty, representation or guaranty as to the content, accuracy, timeliness or completeness of any of the information provided as a result of your query. Any opinions and conclusions resulting from analysis performed on the crash data must be represented as your own and not those of the State of Texas or the Department.

Query Result Counts:
Your query returned a total of 1 Crashes containing 2 Units and 2 Persons
