AGENDA ITEM SUMMARY FORM

MEETING DATE: June 28, 2022

PREPARED BY: Colleen Martin

AGENDA CONTENT: Discussion and possible action on a Sister City with Belize.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: **FUNDS REQUESTED:**

EXECUTIVE SUMMARY:

The City of Angleton in collaboration with the Hispanic Chamber of Commerce (HCC) would like to enter a partnership with Belize City as a Sister City. A Sister City relationship is intended to expand, strengthen, and benefit both parties. This voluntary forging of ties helps to encourage business, trade, educational and cultural exchanges, and projects between the cities. The Sister Cities can expect an increase of business, tourism, trade, and investment in the local economy. In addition, raising the international profile of the two cities is a fantastic opportunity to showcase their local government achievements.

In the fall of 2021, the City Manager and Director of Human Resources met with the HCC to discuss the feasibility of a Sister City partnership. Gina Aguirre with the HCC and Colleen Martin, Director of Human Resources worked together to find a city with the same interests and goals as that of Angleton, sustainability, and from this came the selection of Belize City. The HCC then set out to work with Belize on Angleton's behalf to determine the level of interest in a Sister City partnership.

On April 29, 2022, the HCC, the City of Angleton, and the Mayor of the Belizean Mayors Association met on a Zoom call to discuss a future partnership. Since the April 29 Zoom call, the Belizean Mayor has taken the item to his council and received formal approval.

The City would seek sponsorship for visits and encourage industry and partner participation. Funding can occur through sponsorship and some use of non-taxpayer funding. Some of the partnership linkages include zoom meetings, virtual attendance at reciprocal meetings and routine electronic or phone engagements.

RECOMMENDATION:

Staff recommends partnering with Belize as a Sister City.

MEETING DATE: June 26, 2022

PREPARED BY: Patty Swords and Hector Renteria

AGENDA CONTENT: Discussion and possible action to remove the four inoperable electric streetlights on Colony Drive and replace them with new, LED streetlights.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: N/A **FUNDS REQUESTED:** \$62,550.00

FUND: General

EXECUTIVE SUMMARY:

There are four original, antique-style electric streetlights on Colony Drive that have been inoperable for several years. To provide adequate lighting on this street, the old lights must be removed and replaced with up to six new, LED streetlights.

This project will require a contractor to disconnect and pull out the old damaged underground electric cables to each streetlight location. Some of these cables are not visible, therefore their exact route and destinations will have to be determined. The underground junction boxes must be replaced and lowered to allow for mowing. New wire will have to be pulled to each light location. The original breaker panel will have to be disconnected and removed. A new breaker panel and timer control will be installed.

The City will install the streetlights and then the contractor will hook up each light.

The estimate is based on reusing the existing underground conduit, and allowances have been made for unforeseen issues.

RECOMMENDATION:

Staff recommends approval of removing old streetlights, performing all necessary electrical work, and installing new electrical streetlights on Colony Drive.

AGENDA ITEM SUMMARY FORM

MEETING DATE: June 28, 2022

PREPARED BY: Patty Swords

AGENDA CONTENT: Request approval to re-submit the TxDOT Transportation Alternatives grant, which will include improving downtown sidewalks, ramps, crosswalks, and parking adjustments. These improvements will create a downtown that will be accessible to everyone. The city also requests funds for an engineering review of the original plan and budget as a pre-application activity due to the increasing costs of materials and supplies.

AGENDA ITEM SECTION: Regular Session

BUDGETED AMOUNT: N/A

FUNDS REQUESTED: \$5,000.00 for engineering review

FUND: Grant Funded, + pre-application costs

EXECUTIVE SUMMARY:

Last year the City of Angleton submitted a grant application titled, Downtown Angleton Streetscape Revitalization under the TxDOT Transportation Alternatives category. The proposed project included constructing approximately 3,100 LF (0.58 mi.) of 6 to 10-foot (6'-10') wide reinforced concrete sidewalk along both sides of BS288 (N. Velasco St.) from E. Locust St. to E. Orange St. in Angleton, TX. Furthermore, the proposed project recommended four crosswalks with eight ADA curb ramps and signage at the intersection of SH35 (E. Mulberry St.), and an additional 16 crosswalks and 38 ADA curb ramps added to cross local streets and alleyways. The replacement of existing dated, decorative lighting is also included in the Scope of Work. Bulbouts may be constructed to provide additional safety measures. The project goal was, and is, to provide safe movement of pedestrians and bicycles between government buildings, downtown businesses, restaurants, and events.

The 2021 application was not selected for funding; however, the City has been invited to submit the proposal again this fall. The original proposal, including the budget, needs to be reviewed before submitting it in the next round. The reasons are (1) the rising costs of materials and supplies, and (2) ensuring that the updated plan ties into the TxDOT Bicycle and Pedestrian Connector application.

Once the updated information is available, staff will again present the project to City Council in a formal Resolution to submit the grant.

RECOMMENDATION:

Staff recommends approval to move forward with preparing the application, including the necessary engineering and budget review. Due to the collaborative nature of this project with the Bicycle and Pedestrian Connector proposal, the staff recommends using the same engineering firm for both initiatives.

AGENDA CONTENT: Discussion and possible action on combining ABLC and Parks Board including roles and responsibilities.

AGENDA ITEM SECTION: Regular Agenda

BUDGETED AMOUNT: N/A

EXECUTIVE SUMMARY:

I recommend combining ABLC and Parks board for staff and community efficiency. The Parks Board, established in 1965, overlaps in many areas with the ABLC Board formed in 2000. Since it is now 2022. It is a good time to review and eliminate many redundancies in staff and board member time and work. Really, the only function that ABLC does not do is the policy piece that Parks board does.

My recommendation is to combine ABLC and Parks board by the following method: Have the City Council pick 2-3 members from the Parks board to be additional members of ABLC Board of Directors. Parks board would be dissolved to a standby board should ABLC go away or change roles in the future. City Council should review bylaws to add these board members and add Parks policy to their tasks. City Council should review any other bylaws that are not clear to make sure that all lines and roles are clear. Such review should be overseen by the City Attorney to confirm conformity with the Texas Local Government Code, Chapters 501, 502, and 505. City Council oversight is required to assure compliance with procedures and roles in line with the City Attorney recommendations. I recommend this happen in a phased approach that doesn't overwhelm all of the normal scheduled items. I recommend staff communicate this to the public.

RECOMMENDATION:

Staff recommends Council approve as presented.

On May 24, 2022, The City of Angleton conducted public hearings to determine condition and possible condemnation of the following properties located at 316 W. Rogers St., 320 W. Peach St., and 504 Farrer St.

316 W. Rogers: At the public hearing on May 24, 2022, City Council took action to allow the property owner to submit a scope of work and timeline for repairs to be made to bring the property into compliance with the City's Code no later than the end of business on June 01, 2022. A scope of work was received by Development Services staff on June 07, 2022 and proposes a project timeline to commence June 10, 2022 with an ending date for all repair work by December 12, 2022. The project scope specifies "August 01, 2022: Property dwelling assessment for structural integrity will begin before possible demolition by new property owner." The property dwelling assessment is proposed to be complete by August 08, 2022. The scope of work and timeline is provided for City Council's consideration.

Staff believes it is in the city's best interest to require the property owner to submit a property status update to City Council on August 09, 2022 and provide the results of the property dwelling assessment.

320 W. Peach: At the public hearing on May 24, 2022, City Council took action to allow the property owner to submit a scope of work and timeline for repairs to be made to bring the property into compliance with the City's Code no later than the end of business on June 01, 2022. A scope of work was received by Development Services staff on June 01, 2022 and is provided for City Council's consideration.

Images taken of the property at 320 W. Peach show advanced degradation of structural beams, missing floors throughout the structure, plywood in place of a roof, and staff members observed structural support beams with advanced termite damage. Staff members maintain that the structure in its current state would exceed more than fifty percent of the property value to bring into compliance with the City's Code. Additionally, the property remains noncompliant with Section 10-16 of the City's Code of Ordinances which prohibits the accumulation of garbage, trash, etc., as staff observed a large mattress, tire, toilet, and other debris in back on the property.

The property is in noticeably worse condition than it was when the public hearing for possible condemnation was heard by City Council on May 24, 2022, as the inside of the structure is visible from the outside and with the rotted wooden siding removed, it is evident there are not floors inside the structure. The tarp that was covering the roof has blown off, and there is no protection against outside elements from entering the structure.

While a scope and timeline was received by City staff members meeting City Council's direction, staff recommends Council require the property owner to submit status updates to staff with items completed. The advanced deterioration of this structure presents a threat to public health and safety in its current state.

504 Farrer: The property located at 504 Farrer was determined by the City Council to be substandard in response to the public hearing held on May 24, 2022. Council's direction was to pursue demolition in a motion that carried unanimously. No action can be taken to demolish the Property until the City of Angleton has received a Court order from Brazoria County District Court. The suit can be filed on July 05, 2022. City staff has obtained quotes for demolition of the structure at 504 Farrer and haul away of debris and is ready to issue a notice to proceed with demolition as soon as the order is granted

RECOMMENDATION:

Staff recommendation to City Council is to require property owners of 316 W. Rogers Street and 320 W. Peach Street to provide status updates to City Council at the second Council meeting in the months of July and August 2022 concerning repair progress. Project timelines for both properties were proposed to be completed by the end of the 2022 calendar year, however, City Council requested a 90-day project plan from each of the property owners. A timeline of ninety days from the project timeline and scope due date of June 01, 2022 would terminate on August 30, 2022. Concerning both project timelines received are proposed to terminate in December 2022, neither project timeline meets City Council's 90-day project plan requirement.

Staff contends the structure located at 320 W. Peach Street continues to pose a threat to public safety and is beyond probable repair to bring the structure into compliance with the City's Code of Ordinances. Staff will continue Code Enforcement efforts when Code enforcement violations are observed on the property to help bring the property into Code compliance.

Re: Work session to review proposed development code amendments and Administrative Development Procedures Manual (ADPM)

Gunda Corporation (GUNDA) was directed by the City to review the development related codes - Chapter 21.5: Signs; Chapter 23: Land Development Code; and Chapter 28: Zoning Code. The purpose of this review was to identify measures to consolidate requirements; simplify and streamline the development process; encourage economic development and investment; and make it less cumbersome in general. Public comments that were gathered from the responses to the questionnaire, interviews with staff and developers, and the review of codes, guided the framing of the recommendations. A previous work session was held on November 15, 2021 to review the progress and draft recommendations.

A Diagnostic Report was prepared summarizing the findings and general recommendations. Of the recommendations, the following were prioritized for short term amendments.

- Consolidation of type of plats, clarify sequencing, public improvements construction, and expiration
- Performance bond and surety amount
- Public improvement standards - color of street signs; provision of fiber in new subdivisions, etc.
- Acceptance of public improvements and maintenance bond
- Revision to the Heritage Tree protection requirements

The purpose of this work session is to discuss the findings and receive input on the draft recommendations.

Additionally, a draft Administrative Development Procedures Manual (ADPM) is being prepared. The ADPM is a manual that contains policies and procedures related to the land development and construction. This ADPM will provide vital information for applicants regarding the City's permit processes and will serve as an easy-to-follow reference guide for anyone who is interested in the development process in the City of Angleton.

 - Appendix A: Compiled list of Recommendations (Chapter 23 Land Development Code and Part II - Code of Ordinance)

EXECUTIVE SUMMARY

The City of Angleton recognized the need for orderly growth and adopted zoning regulations for the City as early as 1981. The current Comprehensive Plan was adopted in 2005 and subsequently a comprehensive revision of the zoning ordinance was adopted in 2009 (Chapter 28 of the Code of Ordinances). Sections of the zoning ordinance have been amended since then. In addition to the zoning ordinance, the City adopted a Land Development Code (Chapter 23 of the Code of Ordinances) in 2018 that contains additional requirements and guidelines for land development, subdivision design, public improvements, infrastructure development, permits and procedures, and construction standards. Other land regulations and development related requirements such as signs, manufactured homes, junk yards, refuse containers, are interspersed in other sections of the Code of Ordinances.

The City has recognized the need to review the zoning ordinance, the Land Development Code (LDC) and other standards contained in various sections of the Code of Ordinances to identify measures to consolidate requirements; simplify and streamline the development process; encourage economic development and investment; and ensure compliance with the recent changes in the Texas Local Government Codes (TXLGC). The purpose of this Diagnostic Report is to review the applicable documents to identify areas of conflict and propose recommendations that are contextual to the City of Angleton.

As an initial step to formulate the diagnostic report, the project team gathered feedback from the City staff, developers, and the elected and appointed officials on the most pressing issues in the current code of ordinances and how to resolve those issues. Public input was gathered by using questionnaires that were sent to key stakeholders and made available on the City's website. Finally, the project team synthesized comments within a comprehensive framework of state statute analysis and industry best practices to identify areas of improvements.

Following the review of the report, City Staff, the Planning and Zoning Commission, and City Council will need to provide input on the recommendations contained herein. Once the recommendations have been incorporated, the changes will be reviewed by legal staff to ensure compliance with all applicable regulations and ordinances. Following the legal review and incorporation of the recommendations, the appropriate procedures will be followed for formal adoption.

DIAGNOSTIC REPORT

In an effort to update, reorganize and simplify the findings of the review of the City's LDC and zoning ordinance, observations and recommendations have been consolidated under four main categories listed below. Italicized text indicates the existing sections in the codes. Text proposed to be removed is shown as strike-out and text to be added is shown as underlined italicized text.

Conformance to Texas Local Government Code

Title 7, Chapter 211 of the Texas Local Government Code (TXLGC) grant powers to municipalities such as the City of Angleton to adopt zoning regulatory power to regulate development for the purpose of "...promoting the public health, safety, morals, or general welfare, and protecting and preserving places and areas of historical, cultural, or architectural importance or significance." Subdivision regulations are governed by Chapter 212 of the TXLGC. Other state statutes that guide growth and development include TXLGC Chapter 43: Municipal Annexation, Chapter 213: Municipal Comprehensive Plans, and Chapter 245 Issuance of Local Permits. The TXLGC requires that the cities follow statutory procedures when adopting these regulations.

The purpose of this section is to identify instances of non-compliance with the requirements of the TXLGC and process improvements permitted by the TXLGC that can be adopted in Angleton. The development codes must be cross-checked, improved, clarified, or rewritten to adhere to the statutory requirements, legal thresholds, and standards for planning, zoning, platting, annexation, and the administration of other land use regulations.

This section highlights recommendations to ensure that regulations are fair, defensible, and directly grounded in a legal framework. Modifications to the Code necessitated by recent changes in the Texas Local Government Codes will also be identified. This section also identifies areas where processes can be streamlined as permitted by the TXLGC.

Application Process Improvement

Application processing has these major components that assist in identifying areas of improvement.

Easy to understand
Efficient processes
Electronic review

The purpose of recommendations in this area is to:

- Incorporate simpler and more efficient processes where permitted by the state statutes, e.g., subdivision approval process.
- Assist the users to locate and comply with the application processing requirements and steps with ease.

Improvements to Code Content

The code's written language and material content has been reviewed to identify areas of improvement. Zoning ordinances, development management, and other planning functions that seek to protect the health, safety and general welfare of the public can be refined and improved by undertaking the following actions:

Written Language Clarification: To improve the Code's material content, including its written style, as well as eliminating confusing and conflicting language, and ensure that various updates consider the overall intent of regulating development.

A User-Friendly Format: To identify areas that are not clear and easily comprehensible. Recommendations are included to assist applicants to find all relevant requirements and submit complete applications with ease; for City Staff to administer

the regulations in a fair, efficient, and effective manner; and for public officials to understand the process better.

These include:

- Consolidation of land development codes and zoning codes. Identification and correction conflicts between the LDC and zoning code and combining them
- Reorganization and rewrite of sign regulations to make it comprehensive
- Clarifications to zoning categories, the official zoning map, and amendments to the code
- Incorporation of additional requirements
- Revisions to conflicting sections, grammatical errors and inaccuracies
- Corrections to missing and omitted items
- Addition of definitions and clarify existing definitions
- Improvements to style and user-friendliness
- Inclusion of visual examples and graphic representations
- Miscellaneous opportunities for improvement

Incorporate Comprehensive Plan Objectives into Development Codes

The City's Comprehensive Plan is the policy guide for developing the codes and regulations. The community's priorities can more holistically be reflected in the development codes and regulations to achieve the vision of the Comprehensive Plan.

While it is a good practice to identify items and tasks that could be addressed; given the age of the Comprehensive Plan, the lack of actual implementation since adoption, and the need for a Plan update due to a high growth rate, the City should evaluate the feasibility of a concentrated effort in this area. It may be beneficial to update the Comprehensive Plan to identify the current issues and action steps and reevaluate the development codes to ensure that those priorities are addressed.

The Strategic Plan, included in the Comprehensive Plan includes the following action steps that pertain to the LDC and development codes. Recommendations to implement the action steps need to be identified, if there is a consensus to move forward with any or all of these recommendations. This is not an exhaustive list and can be expanded to include other areas mentioned in the Comprehensive Plan.

#	Tasks
1	Update development related regulations such as zoning and subdivision requirements to reflect the patterns, character, mix and intensity of uses identified in the Future Land Use Plan.
2	Adopt infill/redevelopment incentives (flexibility in development regulations, waiver of development fees, direct grants, tax incentives).
3	Establish minimum design standards for the Downtown District that ensure complementary design and that implement the recommendations of the recently adopted Livable Centers Study
4	Promote the concentration of retail development at existing commercial nodes such as Downtown, the Midtown District and the SH 35 Commercial Corridor through incentives and restrictions

#	Tasks
5	Anticipate future commercial growth along SH 288 through annexation and appropriate zoning.
6	Allow for introduction of compatible uses into residential areas, including limited neighborhood commercial development as well as major focal points such as schools, places of worship, parks, open spaces, day care, and post office as a means of strengthening neighborhood dynamics and pedestrian activity.
7	Utilize planned development provisions to encourage innovative and imaginative site design that minimizes adverse impacts on adjacent properties.
8	Protect the integrity of existing neighborhoods from intrusion by undesirable land uses through enforcement of development-related ordinances.
9	Anticipate future commercial growth along SH 288 through annexation and appropriate zoning.
10	Allow for introduction of compatible uses into residential areas, including limited neighborhood commercial development as well as major focal points such as schools, places of worship, parks, open spaces, day care, and post office as a means of strengthening neighborhood dynamics and pedestrian activity.
11	Utilize planned development provisions to encourage innovative and imaginative site design that minimizes adverse impacts on adjacent properties.
12	Protect the integrity of existing neighborhoods from intrusion by undesirable land uses through enforcement of development-related ordinances.
13	Promote remodeling and ongoing maintenance of existing structures and amenities
14	Revise development ordinances to include or enhance provisions for signage, landscaping, tree preservation, lighting, building façade design and materials.
15	Actively support visual enhancements and beautification efforts along the SH 35 corridor through public and private efforts.
16	Establish reasonable minimum standards for the screening of unattractive sites and views and the provision of buffering (dense vegetation, walls/fencing, increased setbacks, etc.) between incompatible land uses.
17	Utilize tax incentives, sales tax revenues, bonds, and public improvement districts to fund specific visual improvements and enhancements.
18	Enhance existing neighborhoods through improvements to the public right of way (such as street trees), protection of open spaces and scenic areas utilizing quality signage, landscaping, sidewalks, subsurface drainage and lighting.
19	Require connections between adjacent commercial developments and street stubs to areas available for future development.
20	Require all subdivision development to provide a minimum of two entrances. Consideration should be given for added entrances for large developments and single, divided entrances for small developments.
21	Encourage street stubs and connection to surrounding major roadways by permitting stubs and connectors to count as entrances.
22	Mandate connection to stub streets by adjacent new development
23	Develop driveway or curb cut separation standards that increase the length of separation according to street type, such as: - Arterial – 400 feet; - Major Collector – 300 feet; - Minor Collector – 200 feet; and, - Local Collector – 100 feet. 8 Examine the concept of requiring low maintenance medians for management of future major collector and arterial left-turn access.

#	Tasks
24	Complete proposed trails along Brushy Bayou and Rancho Ditch and consider development of additional trails along other drainage ditches that include sufficient right-of-way.
25	Place protected crosswalks along local or collector roadways with an uninterrupted street length greater than 1,000 feet and at points of intersection with pedestrian paths.
26	Incorporate bicycle lanes along existing collector roadways that offer sufficient pavement width for safe bicycle travel (minimum six feet per side).
27	Coordinate bicycle lanes and trails to establish a connected bicycle network.
28	Establish buffer yard requirements within specific zoning districts (or in new overlay zones) to increase the visual appeal along specific corridors such as SH 288 or Loop 523.
29	Enhance signage requirements, such as shared signage, use of quality materials, and appropriate height, particularly within specified corridors. Revise parking standards to require increased vegetation within the parking area to reduce visual clutter. Improve signage in the downtown area to clearly direct traffic to public parking facilities in the area.
30	Adopt on-site detention regulations that require development to use street “ponding” techniques and underground detention to the full extent possible. Allow for dry detention ponds as a last resort while encouraging landscaping and enforcing maintenance codes. Provide opportunities for innovative site design techniques such as decreased setbacks, cluster housing, zero lot line development and reduced lot size that can improve quality of life.
31	Establish limited design guidelines that address issues such as materials, roof pitch, façade treatment, porches (if applicable), proportional dimensions, garage, and other elements necessary to ensure that affordable new development and rehabilitation are consistent with the character of the area.
32	Revise ordinances as needed to permit development of alternative housing types such as granny flats, row houses and multiple family homes in select new development and existing neighborhoods.
33	Provide density incentives to developers that are willing to incorporate alternative housing types into a new development.
34	Promote incorporation of deed restrictions or covenants into established neighborhoods along with development of a homeowners association with the capacity of enforcement.
35	Develop a voluntary “neighborhood conservation” overlay district designed to place additional maintenance, character, use, and appearance restrictions upon properties within the district.
36	Discuss the concept of annual rental registration requirement for all housing structures that will at least partially be available for lease. Registration may require an inspection of facilities prior to issuance of a permit.

D. Chapter 23 - LAND DEVELOPMENT CODE

The proposed changes are summarized below:

1. Clarify the applicability of the LDC in the ETJ areas, in conformance to TXLGC (e.g. Inconsistency of Section 23-5.G with TXLGC as it extends land use controls regarding Manufactured Home Subdivisions and Parks. (Sec. 23-5)
2. Remove duplication with sections in the zoning code (e.g., non-conforming uses.) (All)
3. Clarify of the impact of LDC restriction on those restrictions imposed by private agreements. (Sec. 23-8)
4. Clarify other current applicable standards and requirements adopted by the City and county such as drainage criteria, construction manuals, comprehensive plan, downtown plans, highway manual, flood protection, transportation plans, and others. etc. (Sec. 23-6)
5. Create and adopt standards specific for Angleton. (Sec. 23-10.C)
6. Discourage variance from access requirements (30 lots)
7. Clarify drainage easement location and alignment. (Sec. 23-12)
8. Amend the section that currently allows minor deviations from the lot design and Future Thoroughfare Plan (FTP) requirements during the platting process to be approved staff. Deviations are considered variances and need to follow the variance approval processes. (Sec. 23-12)
9. Add sidewalk widths in Table 23-12.1. (Sec. 23-12)

10. Add requirements for street signs. (Sec. 23-12)
11. Consider consolidation and reduction in the types of Plats. Allow for administrative approval process where permitted by TXLGC. (Sec. 23-94 to Sec. 23-97)
 - a. Current
 - i. Administrative Approval:
 1. Minor Consolidation Plat or Replat
 2. Administrative Plats
 3. Amending Plat
 4. Minor Plat
 5. Development Plat
 - ii. Planning & Zoning Commission and City Council Approval;
 1. Preliminary Plat
 2. Final Plat
 3. Major Amending Plat
 4. Major Consolidation Plat or Replat
 - b. Proposed
 - i. Administrative Approval:
 1. Minor Plat
 2. Amending Plat
 3. Development Plat
 - ii. Planning & Zoning Commission and City Council Approval;
 1. Preliminary Plat
 2. Final Plat
 3. Replat
12. Standardize the time lines, expiration dates, and validity. (Sec. 23-94 to Sec. 23-97)

Recommendations:

 - a. All plats except Final Plat - 1 yr. with an additional 1 yr. of extension.
 - b. Final Plat – 1 yr. with an additional 6 months of extension
 - c. Construction Drawings – 1 yr. with an additional 6 months of extension.
 - d. Completion of public improvements and acceptance – 1 yr. with an additional 1 yr. of extension. If construction is not complete, a performance bond needs to be submitted.

 - b. Step 1 – Preliminary Plat approval
 - c. Step 2 – Approval of Construction Plans for public improvements

 - g. Step 7 – Plat recordation
 - h. Step 8 – Building permit issuance
14. Clarify the responsibilities of BOA and P & Z in granting variances. (Sec. 24-11)

- a. Variance to subdivision regulations are granted by P & Z. BOA does not have the authority to grant LDC variances. Staff does not have authority to grant any variances.
- 15. Confirm and modify the time for processing appeals or variance requests by the board of adjustment. The 45-calendar day time frame may not be a statutory requirement. (Sec. 24-11)
- 16. Clarify that site plans need to meet all requirements. The details listed are incomplete. (Sec. 23-211)
- 17. Clarify when a concept plan is required and the approval process and authority. (Sec. 23-17)
Differentiate the concept plan from site plan process.
- 18. Consider eliminating the need for P & Z approval for site plans and allow site plans to be reviewed as part of the building permit application. (Sec. 23-211)
Currently, site plan approval is required for all non-single family residential projects prior to issuance of a building permit by the P & Z. This process is not required and adds additional time, resources, and effort. If the site plan(s) submitted as part of obtaining a building permit do not meet minimum City standards then the applicant would be required to seek a variance from the BOA.
- 19. Subdivision standards: (Sec. 24-11)
 - a. Modify lot sizes for Through Lots – require twice the minimum lot area.
 - b. Require two means of access for all subdivisions with more than 30 lots, for any phase.
 - c. Add sidewalk width requirements for each type of street in the Street Dimension Standards table.
 - d. Require 125% (city policy) of the cost of pending public improvements as a performance bond instead of 100% noted in the LDC and 125% as maintenance bond instead of 25%.

- 23. Clarify TIA requirement and scope or add reference to the relevant manual and standards. (Sec. 23-22)
- 24. Confirm the policy on utility extension, distance for extension of utilities to the development. (Sec. 23-29)
- 25. Agreements: (Sec. 23-36)
 - a. Consider removing Division 3. Special Agreement (reimbursement) from the LDC and make it policy document.
 - b. Develop a standard agreement for reimbursements and clarify the process and commitments.

- 27. Review Revise the tree mitigation requirements. (Sec. 23-60)
Add definitions of Heritage and Significant trees based on diameter (Total Caliper Inches), and species. Add mitigation requirements.
Protected Species List

- Live Oak, Pecan, Shumard Red Oak, Burr Oak, Chinquapin Oak, Post Oak, Water Oak, Willow Oak, Bald Cypress, Tulip Tree (Yellow Poplar), American Elm, Redbud, Dogwood.

28. Modify Table 23.76 to list all types of applications.

29. Amend the timelines in the Standard Development Procedures to meet the TXLGC requirements (shot clock provisions).

30. Recommend removing submittal requirements and forms from LDC and adding it to the Administrative Procedures Manual.

E. Chapter 28 ZONING

The proposed changes are summarized below:

1. Clarification on a Specific Use Permit - Sec. 28-41.
SUP is not an overlay district and needs to be removed from the list.

Overlay Districts	
PD	Planned Development
SUP	Specific Use Permit

2. Add restrictions on open storage to ensure that it is not located in visible yards or too close to adjoining properties. (Consider.)
3. Rewrite the Planned Development overlay district to clearly articulate the requirements. Clarify submittal requirements in terms of concept plans, site plans etc. (Sec. 28-61)
4. Add parking requirements to each land use for ease of use.

Retail Sales or Service <u>with no drive through facility</u>	P*	P	NP	NP	NP	NP	NP	NP	NP	1 space per 300 square feet of usable building area
---	----	---	----	----	----	----	----	----	----	---

5. Add clarifications for fencing, walls, landscaping, and screening requirements. (Sec. 28-104)

Add landscaping requirements along fences.

Clarify landscaping requirements for parking lots, screening of parking lots, detention facilities.

Require decorative fencing in the front yard for non-residential uses.

6. Retain exterior construction and design requirements, as recommend by some legal experts. (Sec. 28-105)
In case the legislature changes, the cities need to be prepared without having to amend the codes. Recommend changing the word “shall” to “recommended.”
7. Modify illustrations to be in conformance with the written text, especially with regards to lot width measurements. Remove the requirement for showing setback lines on the plat. These will prevent issues with vesting smallest setbacks or mandating larger setbacks that that required by the applicable zoning requirements. (General)
8. Allow communications antennas and support structures/towers by right in nonresidential zoning districts but require SUP in residential ones. (Sec. 28.106 (e))
Currently, towers or antennas are allowed in all districts with an administrative approval. Add screening for ground equipment also. Recommend that all variances be granted by the BOA.
9. Consider an amendment to move TABLE A.1 - Sec. 28-107. Performance standards other pertinent sections of the code. Review the location in the zoning code.
10. Restrict the height of lighting in parking lots from 35’ to 25’ for commercial and 20’ for all residential lighting, including street lights. (Sec. 28.108)
Higher lighting can be processed as a variance to determine the impact on surroundings.
11. Restrict the home occupation uses permitted in single-family residential. (Sec. 28.109)
12. Remove Section 28-110 as this section is redundant. Building setback requirements and buffering requirements in other sections would apply.
13. Definitions: (multiple sections)
 - Delete redundant language in the introduction, after confirming with legal staff.
 - Clarify that the accessory use needs to be smaller than the principal use of the property.
 - For definitions related to signs, refer to the chapter on Signs.
 - Prohibit pole signs.
 - Update other definitions as needed.
14. Subdivisions - remove inconsistencies with the LDC. (Sec. 28-23, Sec. 28-24)
 - Add sidewalk widths for clarification and ensure compliance.
 - Modify the amount of bond required to be consistent with City policy. The City requirement for a performance bond is 125% of construction cost estimate
 - Minimum points of vehicular access for subdivisions conflicts with other sections - Section 23-11.I and 24-111. Should be incorporated into a clarifying rewrite of Section 23-11.I.
 - Clarify and correct references to other documents.
15. Replace parkland dedication requirements as a function of dwelling units and not persons. Require parkland at a ratio of one-half acre of parkland for every 30 residential dwelling units in a development (replace 1/2 acre per 100 persons in the City). (Sec. 23-20)
16. Post submittal schedules as referenced in the code. (ADPM)
17. Review and rewrite Sec. 23-81 - Inactive applications. All subdivision applications are covered by the completeness process, Section 245 and the 30 day “shot clock”. Needs clarification on the purpose of this section. Discuss the relevance of Constructive notice section with legal staff. It may not be needed.
18. Identify Corridor Overlay Districts and consider enhanced requirements.

19. Provide guidelines for reimbursement agreements. Develop a standardize agreement for the developer to fill-in. This will help limit attorney fees and stream line the process for City Council. (Sec. 23-34)
20. Review the requirements for development agreements (annexation, etc.) (Sec. 23-34)
21. Review the tree mitigation requirements.

AGENDA ITEM SUMMARY FORM

MEETING DATE: June 28, 2022

PREPARED BY: Walter E. Reeves, Jr., AICP, Development Services Director

AGENDA CONTENT: Conduct a public hearing, discussion, and possible action on an ordinance amending Section 23-98 Public Improvement Acceptance of Chapter 23 Land Development Code, of the Code of Ordinances of the City of Angleton, Texas.

AGENDA ITEM SECTION: Public Hearing

BUDGETED AMOUNT: N/A

FUNDS REQUESTED: N/A

FUND: N/A

EXECUTIVE SUMMARY:

The public improvement acceptance process, as described in Section 23-98 is a two-step process. The first step is preliminary acceptance which is an administrative process where the City Manager preliminarily accepts public improvements after the City Engineer determines that the public improvements are installed in compliance with the approved construction plans and requirements of the Angleton Code of Ordinances (Code) and submission of "as-built" construction plans and a one (1) year maintenance bond.

After one year, the next step is final acceptance, which requires City Council accept the public improvements upon recommendation by the City Manager and City Engineer. Final acceptance also requires submission of a one (1) year maintenance bond.

Until adoption of the LDC (Chapter 23 of the Code) the process used by the City appears to have been City Council acceptance of the public improvements with submission of "as-built" plans and a one (1) year maintenance bond. The process as detailed in the LDC is inefficient and results in two different acceptances and a two-year maintenance bond period. Recognizing this inefficiency, staff has been processing a waiver of the preliminary acceptance and final acceptance to City Council for action. City Council instructed on May 24, 2022, that the process be amended to eliminate the need for the waiver of the preliminary acceptance, and the ordinance included with this agenda summary amends the process accordingly. Council also instructed that the maintenance bond period be one (1) year, that the acceptance of public improvements be done administratively (by the City Manager and not City Council), and that the maintenance bond requirement be 100% of the construction costs. The current maintenance bond amount is \$25,000 or 20% of the construction costs, whichever is greater.

The ordinance accompanying this agenda summary reflects this direction.

The Planning and Zoning Commission held a public hearing on June 2, 2022, and voted 6 in-favor/0 opposed/0 abstained to recommend approval of the ordinance amending Section 23-98 Public Improvement Acceptance subject to the condition that the maintenance bond be for two (2) years as a two (2) year maintenance bond would better protect the public interest.

RECOMMENDATION:

Staff recommends approval of the ordinance amending Section 23-98 Public Improvement Acceptance.

SUGGESTED MOTION:

I move we approve the ordinance amending Section 23-98 Public Improvement Acceptance.
