LOCAL AGENCY PROJECT AGREEMENT

**BETWEEN THE STATE OF TENNESSEE
DEPARTMENT OF TRANSPORTATION
AND
TOWN OF ASHLAND CITY**

This Contract, by and between the State of Tennessee, Department of Transportation ("State") and Town of Ashland City ("Agency"), is for the purpose of providing an understating between the parties and their respective obligations related to the participation, management, undertaking, and completion of the project ("Project") described as:

Cumberland River Bicentennial Trail - Phase 2: This project will extend the Bicentennial trail (parallel to Vine Street, From Mulberry Street to Tennessee Waltz Parkway) and allow for safe pedestrian crossing. The trail extension will convert 2800-feet of rail bed to a hard surfaced 10-foot ADA compliant pedestrian use only path that will provide linear connectivity to the existing trail crossing TN-455/TN Waltz Parkway.

A. SCOPE OF PROJECT:

A.1. The Agency and the Department each shall be responsible for their respective obligations regarding the Project as required, described and detailed in this Agreement.

A.2. Incorporation of Additional Documents. Each of the following documents is included as a part of this Agreement by reference or attachment. In the event of a discrepancy or ambiguity regarding the Agency's duties, responsibilities and performance hereunder, these items shall govern in order of precedence below.

- a. This Agreement document;
- b. Exhibit A, attached hereto and incorporated herein;
- c. The most current version of the Department's Local Government Guidelines for the Management of Federal and State Funded Transportation Projects ("Local Government Guidelines") (copy available from the Local Programs Development Office or the on the Department's website) to elaborate the processes, documents and approvals necessary to obtain funds under this Agreement, including all latest applicable Department procedures, guidelines, manuals, standards and directives as described herein;
- d. The Agency's Project application.

A.3. Responsibility for Performance of Phases of Work and Funding Thereof.

The phases of work for the Project are Environmental Clearance (NEPA), Final Design, Right-of-Way (including utility coordination), and Construction. On any phases for which the Agency is responsible for performance of the work as listed below, and only after receiving a Notice to Proceed for any such phase, the Agency shall commence and complete such phase with all

practical dispatch, in a sound, economical and efficient manner and in accordance with the provisions of this Agreement and all applicable laws.

For any phase of the Project assigned to the Agency, a full-time employee of the Agency shall be assigned to supervise the work performed and to be the responsible charge thereof. Said full-time employee of the Agency shall be qualified to and shall ensure that the Project work will be performed in accordance with the terms of this Agreement and the latest applicable Department procedures, guidelines, manuals, standards and directives as described in the Department's Local Government Guidelines. The Agency hereby certifies that it is adequately staffed and suitably equipped to undertake and satisfactorily complete the work. If the Agency elects to use consultants for any phase of the work, the Agency must follow the TDOT Local Programs consultant procurement policy (copy available from the Local Programs Development Office or on the Department's website) and also must provide a full-time employee of the Agency to be in responsible charge.

Commencement of work by the Agency on any phase of the Project without first having received a Notice to Proceed from the Department for that phase shall be sufficient cause to render the Agency ineligible for reimbursement for any or all work performed on the Project.

<u>Phases:</u>	<u>Responsible for Work:</u>	<u>Funding Provided By:</u>
Environmental Clearance (NEPA):	AGENCY	AGENCY
Final Design:	AGENCY	AGENCY
Right-of-Way (including Utility Coordination):	AGENCY	AGENCY
Construction:	AGENCY	PROJECT

- A.4. Environmental Clearance. The Department will review Agency's environmental documents and require the Agency to make any appropriate changes for approval as necessary, as described in the Local Government Guidelines.

The Agency shall be solely responsible for compliance with all applicable environmental regulations and for any liability arising from non-compliance with these regulations, and the Agency will reimburse the Department for any loss incurred in connection therewith, including but not limited to any loss of federal funding for the Project. The Agency is responsible for applying for and securing any applicable environmental permits as described in the Local Government Guidelines. In addition, the Agency acknowledges that it must complete the Environmental Clearance phase before it begins work toward Final Design and understands that a separate Notice to Proceed will be submitted for each phase. Any work on Final Design performed ahead of this Notice to Proceed will not be reimbursable.

- A.5. Final Design. The Agency shall submit to the Department for review and comment all appropriate plans and specifications covering the Project. The Department will review all plans and specifications and will issue to the Agency written comments or recommendations as deemed appropriate by the Department, which the Agency then shall address in the plans. After resolution of these comments and recommendations to the Department's satisfaction, the Department will issue to the Agency a Notice to Proceed with the next assigned phase of the Project.

In the event that the Project involves the use of existing State highway right-of-way, the Department Regional Traffic Engineer for the region where the Project is located will review and comment on

the plans. These plans shall be sufficient for the Department to assess the proposed Project and its impact on the State highway right-of-way.

- A.6. Right-of-Way. The Agency shall, without cost to the Department, provide by deed or other appropriate conveyance document all land owned by the Agency or by any of its instrumentalities as may be required for Project right-of-way or easement purposes.

If federal and/or state funds are providing reimbursement for the Right-of-Way phase, any activities initiated for the appraisal or the acquisition of land prior receiving a Notice to Proceed from the Department will not be reimbursed. **Failure to follow applicable Federal and State law in this regard may be sufficient cause to render the Agency ineligible for reimbursement of any and all work performed on the Project.**

The Department will review the processes the Agency used for the acquisition of land and relocation assistance. If those processes are found to be in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Public Law 91-646, 84 Stat. 1984) and the regulations promulgated thereunder, the Department will certify that the acquisition phase was completed appropriately. The Agency understands and acknowledges that the Project cannot proceed to the Construction phase until this certification of the Right-of-Way phase has been provided. **The Agency further understands that if the processes used for acquisition are such that certification cannot be given, federal and/or state funds will be withdrawn from the Project. If such withdrawal does occur, the Agency hereby agrees to reimburse the Department for all federal and/or state funds expended prior to the time of such withdrawal.**

It is the intent of the parties that the State of Tennessee will be the record owner of all State highway right-of-way. If the Project, or some portion of it, will require improvements to a State highway and the construction of such improvements will require the acquisition of right-of-way, then the Agency shall acquire such right-of-way in the name of State of Tennessee. If the Project, or some portion of it, includes acquisition of right-of-way along a local road or otherwise not requiring improvements to a State highway, then the Agency shall acquire such right-of-way in the name of Agency. If the Project requires improvements to a State highway and includes Agency acquisition of right-of-way at or near the intersection of a State highway and a local road, then the Agency shall acquire those tracts adjacent to the State highway in the name of State of Tennessee and shall acquire those tracts adjacent to the local road in the name of Agency. The Agency shall consult with the Department to confirm these areas.

The Department hereby authorizes the Agency to obtain by negotiated settlement such necessary right-of-way in the name of State of Tennessee to the extent provided in this Agreement, in the manner provided in the Department's Local Government Guidelines, and as shown on the Project plans. However, this Agreement shall not grant the Agency, through its attorneys, the right to represent the State in any legal matter, including but not limited to eminent domain proceedings, as the right to represent the State is governed by Tenn. Code Ann. § 8-6-106. Furthermore, the Agency shall be responsible for conducting at its own expense any and all necessary eminent domain proceedings for all tracts acquired in the name of Agency.

- A.7. Utility Coordination. The Agency shall ensure that all utility relocation plans are submitted by the utilities and received by the Department Region Utilities Office for the region where the Project is located in accordance with the timeframes set forth in the most current version of the Department's Guidebook for Utility Relocation (copy available from Local Programs Development Office or on the Department's website). The Agency further agrees to complete all utility connections within the Project right-of-way and easements prior to the paving stage of the Construction phase.

The Agency shall be eligible for reimbursement of Project utility relocation costs only as provided in 23 CFR § 645.107. In the event that the Department has determined that the Project includes participating utility relocation costs, such costs shall be shown in Exhibit A.

The Agency shall coordinate all utility relocations in accordance with the most current version of the Department's Guidebook for Utility Relocation (copy available from Local Programs Development Office or on the Department's website).

If the Agency also owns any utility to be relocated as part of the Project, then the following additional conditions shall apply with regard to the Agency's coordination efforts for said locally owned utility:

- a. The Agency shall submit to the Department a Local Agency Owned Utility Relocation Form ("Utility Relocation Form"), which shall include the estimate of cost for the utility relocation and shall indicate the Agency's selected method of performing the relocation work in accordance with 23 CFR § 645.115. The Agency and the Department agree that said Utility Relocation Form, once signed by an authorized signatory of the Agency and by an authorized signatory of the Agency-owned utility and approved by the Department, shall be incorporated into this Agreement as the next Exhibit. The Agency shall perform its utility relocation in accordance with said Utility Relocation Form.
 - (1) Whenever the Agency elects to perform the relocation work by award of a contract, it shall submit the same to the Department for prior approval. The Department may not be required to reimburse the Agency for its obligation under any contract that has not received the advance written approval of the Department. Federal Highway Administration ("FHWA") Form FHWA-1273 shall be physically incorporated into the Agency's contract with its contractor.
 - (2) The Agency agrees that any memoranda or other information concerning the estimated cost of the proposed relocation of its utility facilities will not directly or indirectly be released or disclosed to potential bidders except to the extent that may otherwise be required by law.
 - (3) Neither the Agency nor any affiliate or subsidiary thereof shall participate directly or indirectly as a bidder for any part of the utility relocation work to be performed under a contract to be awarded by the Agency. The Agency further agrees that no employee, officer, or agent of the Agency, nor of any affiliate or subsidiary thereof, shall participate in the selection or in the award or administration of a contract for the performance of any part of the utility relocation work if a real or apparent conflict of interest would be involved. Such a conflict of interest would arise when the employee, officer, or agent, or any member of his or her immediate family, or his or her partner, or an organization which employs or is about to employ any of the above, has a substantial financial interest, such as five-percent (5%) or greater ownership interest, or other interest in the firm selected for award of a contract to perform the Utility's relocation work for this Project. Neither the Agency nor any affiliate, subsidiary, employee, officer, or agent thereof shall solicit or accept gratuities, favors, or anything of monetary value, except an unsolicited gift having nominal monetary value, from contractors or bidders.
 - (4) The Agency agrees to provide engineering, erosion control, traffic control, clearing and grubbing of the proposed construction site, and all survey staking for the purpose of the utility relocation, and the estimated cost thereof shall be included in the estimate to be provided with the Utility Relocation Form.
 - (5) After submission and approval of the Utility Relocation Form, the Agency must request in writing and receive the Department's written approval prior to any

revision in the estimate of cost, schedule of work or plan, or method of performing the work. Failure to do so may result in the loss of any Department participation in the cost of relocation. The Department agrees to cooperate with the Agency to resolve, if possible, any objections that Department may have to such requested changes.

- b. The Agency shall be responsible for ensuring that all applicable conditions of the Department's Guidebook for Utility Relocation are met with regard to its utility relocation. This includes, but is not limited to, the Agency's responsibility to inspect the utility relocation work and perform in accordance with the procedures and forms required by Department Circular Letter 105-07.04, as may be amended from time to time.
- c. To the extent that facilities are being located within State highway right-of-way, the Agency agrees to comply with the State's Rules and Regulations for Accommodating Utilities Within Highway Rights-of-Way and 23 CFR Subpart 645B. The Agency acknowledges possession of each.
- d. The Agency agrees to comply with all current, applicable provisions of 23 CFR Subpart 645A, which are incorporated herein by reference. The Agency acknowledges possession of 23 CFR Subpart 645A.
- e. The Agency agrees to comply with all current, applicable provisions of the Guidelines for Governmentwide Debarment and Suspension of 2 CFR §180.35 through §180.365 which are incorporated herein by reference. The Agency acknowledges possession of 2 CFR Part 180 and the requirements of Form FHWA-1273, Section X – Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion.
- f. The Agency shall acquire all utility rights-of-way outside of the available public highway right-of-way as may be needed to relocate its utility facilities, including any betterment, and the Agency further agrees that it has acquired or will acquire these rights-of-way at no cost to the Department. The Department may be liable to reimburse the Agency for the replacement of its previously owned private utility rights-of-way as may be provided in the Utility Relocation Form. The Agency shall cause to be transferred to the Department that portion of its previously owned private utility rights-of-way being vacated by the Utility and within the Project proposed right-of-way as needed for State highway purposes.
- g. The Agency agrees to comply with all current, applicable provisions of the Buy America requirements established under 23 USC § 313 and 23 CFR § 635.410. In accordance with guidance provided by the Federal Highway Administration, the Agency agrees that all products used in its utility relocation work that are manufactured of steel or iron shall be manufactured in the United States. For the purposes of applying this Buy America requirement and determining whether a product is a steel or iron manufactured product, the job site includes any sites where precast concrete products that are incorporated into the utility relocation work are manufactured.
- h. The Agency shall coordinate as needed with the Department Region Utilities Office for the region where the Project is located to ensure timely relocation of the Agency's utility facilities.
- i. In the event that the Project also includes participating utility relocation costs for relocation of the Agency's locally owned utility, the following additional conditions shall apply:
 - (1) The Agency will perform the utility engineering work provided for in this Contract by its own forces and/or consultant engineering services approved by the Department, and the Agency will develop the utility engineering costs in accordance with the current provisions of 23 CFR § 645.117. The Utility may

perform preliminary engineering to generate the schedule of calendar days, color coded relocation plans and estimate of cost as needed for submission of the Form. Costs incurred for preliminary engineering are eligible for reimbursement as long as they were incurred after the Agency receives Notice to Proceed with the Right-of-Way phase. Any costs for consultant engineering shall also be eligible for reimbursement as long as they are incurred after the Agency receives Notice to Proceed with the Right-of-Way phase.

- (2) The Department agrees that it will reimburse the Agency the pro-rata share for the inspection of utility facilities on private utility right-of-way when the utility relocation is completed in accordance with the approved relocation plans. The inspection of utility facilities on public highway right-of-way shall be performed at no cost to the Department.
- (3) Invoices for utility relocation shall be submitted to the Department as provided in the Department's Guidebook for Utility Relocation.
- (4) The Department shall reimburse the Agency for such direct and indirect costs as are eligible and allowable under the current provisions of 23 CFR Subpart 645A. The Department shall reimburse the Agency for the participating costs of relocating its utility facilities in accordance with the approved plan subject to the provisions of this Subsection A.7.i. and as otherwise provided in this Agreement.
- (5) The Agency shall develop and record relocation costs in a manner consistent with the current provisions of 23 CFR §645.117 as of the effective date of this Contract and as approved by TDOT.
- (6) The Utility's invoice(s) shall be subject to reduction for amounts included in any invoice or payment theretofore made which are determined by TDOT, on the basis of audits or monitoring conducted in accordance with the terms of this Contract, not to constitute allowable costs. The payment of an invoice shall not prejudice TDOT's right to object to or question any invoice or matter in relation thereto. Such payment by TDOT shall neither be construed as acceptance of the work nor as final approval of any of the costs invoiced therein.
- (7) The invoice(s) shall include a Buy America certification attesting that all products used in the utility relocation work that are manufactured of steel or iron comply with the Buy America requirements set forth in 23 USC § 313 and 23 CFR § 635.410 and as further described in Subsection A.7.g. of this Agreement.
- (8) Any costs billed by the Utility that cannot be verified by the Department will not be reimbursed.

A.8. Railroad. In the event that a railroad is involved, Project costs may be increased by federally required improvements. The Agency agrees to provide such services as necessary to realize these improvements. The Agency understands it may have to enter into additional agreements to accomplish these improvements.

A.9. Construction. Any activities initiated for the Construction phase prior receiving a Notice to Proceed from the Department will not be reimbursed.

If during Construction, the Agency deems a detour to be necessary to maintain traffic during a road closure, then the Agency shall select, sign and maintain the detour route in strict accordance with the Department's Final Construction Plan Notes and the Manual on Uniform Traffic Control Devices (MUTCD).

The following conditions shall apply regarding the Construction phase:

- a. Except as otherwise authorized in writing by the Department, the Agency shall not execute a contract with a contractor for the Construction Phase of the Project without the prior written approval of the Department. Failure to obtain such approval shall be sufficient cause to render the Agency ineligible for reimbursement for all work performed on the Project.

- b. Form FHWA-1273 shall be physically incorporated into the Agency's contract with its contractor.
- c. The Agency agrees to correct any damage or disturbance caused by its work within the State highway right-of-way, including but not limited to the replacement of any access control fence removed or damaged by the Agency, or its contractor or agent, during the Construction phase of the Project.
- d. If the Project includes the use of or modification to State highway right-of-way, the Agency shall follow all requirements imposed by the TDOT Traffic Engineer.
- e. Davis-Bacon prevailing wage guidelines shall apply to the Agency's contract with its contractor as detailed in Form FHWA-1273, and the provisions of the Copeland Anti-Kickback Act, 18 U.S.C. § 874 also shall apply to the Agency's contract with its contractor.
- f. The Agency shall ensure that its contractor and any subcontractor(s) comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608.
- g. The Agency agrees that the applicable provisions of 41 CFR 60-1.4 regarding equal opportunity shall apply to the Agency's contract with its contractor.
- h. All contractors allowed to bid hereunder must be included on the Department's pre-qualified contractor list. Federal law provides that no contractor shall be required by law, regulation, or practice to obtain a license before submitting a bid or before a bid may be considered for an award of a contract; provided, however, that this is not intended to preclude requirements for the licensing of a contractor upon or subsequent to the award of the contract if such requirements are consistent with competitive bidding. Therefore, in accordance with TDOT policy, as expressed in TDOT Standard Specifications §102.11 and as approved by the Federal Highway Administration, all prime contractors shall be licensed with the State of Tennessee, Department of Commerce and Insurance, Board for Licensing Contractors (BLC), upon award of the contract. A proposal submitted by a contractor that is otherwise prequalified and in good standing shall not be rejected as non-responsive solely because the contractor is not licensed by the BLC at the time of submitting the proposal. If otherwise responsive, the proposal will be considered for award for twenty-one (21) days after the proposals are opened. If the contractor does not have a license with the BLC on or before the end of the twenty-one (21) days after the proposals are opened, the contractor's proposal will be rejected as non-responsive, and the proposal of the next lowest responsible bidder may then be considered for award. If the next lowest responsible bidder does not have a license on or before the twenty-one (21) days after the proposals are opened, this contractor will also be considered non-responsive, and the subsequent bidder may then be considered. The Department reserves the right to reject all bids at any time.

A.10. Where the Agency is managing any phase of the project, the Department shall provide various activities necessary for Project development. The estimated costs for these activities are the funds shown as "TDES" in Exhibit A. TDES costs are not funds available to the Agency for expenditure or reimbursement.

B. TERM OF CONTRACT:

B.1. Term:

- a. The initial term of this Agreement shall begin on October 1, 2022 and shall terminate on September 30, 2025 (3 years from start) ["Initial Term"]. The Agency must provide the Department with all the documents, certifications and clearances necessary to obtain the Notice to Proceed with the Construction phase prior to the expiration of the Initial Term.

Failure to provide provide the Department with all the documents, certifications and clearances necessary to obtain the Notice to Proceed with the Construction phase prior to the expiration of the Initial Term shall result in termination of this Agreement and the Project.

- b. If the Agency provides the Department with all the documents, certifications and clearances necessary to obtain the Notice to Proceed with the Construction phase prior to the expiration of the Initial Term listed in Subsection B.1.a., then this agreement shall not terminate on the date listed in Subsection B.1.a., but instead shall automatically renew, continuing in full force and effect until September 30, 2027 (5 years from start). Such renewal will be confirmed in writing by the Department.
- c. Any other extension of the term of this Agreement beyond the renewal described in Subsection b. above must be effected through a fully executed contract amendment prior to expiration of the Agreement.

B.2. Expiration of this Agreement may be considered termination of the Project. The cost of any work performed after the expiration of the Agreement will not be reimbursed by the Department. The Department shall have no obligation to the Agency for fulfillment of the Scope outside the term.

C. PAYMENT TERMS AND CONDITIONS:

- C.1. Maximum Liability. In no event shall the maximum liability of the Department under this Agreement exceed the total Department share specified in Exhibit A ("Maximum Liability").
- C.2. Compensation Firm. The Maximum Liability is not subject to escalation for any reason unless amended. The amounts allotted for each phase of the Project in Exhibit A are estimates only and may fluctuate without amendment to this Agreement so long as it does not result in an increase in the Maximum Liability.
- C.3. Payment Methodology. The Agency shall be reimbursed for actual, reasonable, and necessary costs for eligible and appropriate Project expenditures, as detailed in the Department's Local Government Guidelines, with Federal and/or State funds made available and anticipated to become available to the Agency based upon Exhibit A, not to exceed the Maximum Liability established in Exhibit A. Upon progress toward the completion of the Project as described in Section A, the Agency shall submit invoices prior to any reimbursement of allowable costs, as detailed in Section C.5. below.
- C.4. Travel Compensation. The Agency shall not be compensated or reimbursed for travel, meals, or lodging expenses for Agency employees. Reimbursement for travel, meals, or lodging for Agency consultants or contractors shall be subject to amounts and limitations specified in the "State Comprehensive Travel Regulations," as they are amended from time to time, and shall be contingent upon and limited by the funding for said reimbursement as shown in Exhibit A.
- C.5. Invoice Requirements. The Agency shall invoice the Department at least quarterly, but no more often than monthly, with all necessary supporting documentation, and submit such invoice by email to:

LPD.Invoices@tn.gov

- a. Each invoice shall be submitted on the Local Programs Development Office standard invoice form (copy available from the Local Programs Development Office or on the Department's website).
- b. The Agency understands and agrees to all of the following.

- (1) An invoice under this Agreement shall include only reimbursement requests for actual, reasonable, and necessary expenditures required in the delivery of service described by this Agreement and shall be subject to all provisions of this Agreement relating to allowable reimbursements.
- (2) An invoice under this Agreement shall not include any reimbursement request for future expenditures.
- (3) An invoice under this Agreement shall initiate the timeframe for reimbursement only when the Department is in receipt of the invoice, and the invoice meets the minimum requirements of this section C.5.

C.6. Disbursement Reconciliation and Close Out. The Agency shall submit any final invoice within one hundred twenty (120) days of the Agreement end date, in form and substance acceptable to the Department. The Project should then be closed out no later than one year after Department's receipt and acceptance of the final invoice.

- a. If total disbursements by the Department pursuant to this Agreement exceed the amounts permitted by Section C, payment terms and conditions of this Agreement, the Agency shall refund the difference to the Department. The Agency shall submit the refund with the final invoice.
- b. The Department shall not be responsible for the payment of any invoice submitted to the Department after the final invoice. The Department will not deem any Agency costs submitted for reimbursement after the final invoice to be allowable and reimbursable by the Department, and such invoices will NOT be paid.
- c. The Agency must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

- The Agency understands and agrees that if FHWA determines that some or all of the cost of this project is ineligible for federal funds participation because of failure by the Agency to adhere to federal laws and regulations, the Agency shall be obligated to repay to the Department any federal funds received by the Agency under this agreement for any costs determined by the FHWA to be ineligible.

Ricky,

Working on the cost deduct but see below from the painting subcontractor:

"I did have this discussion with Mark Goulet, Tnemec Rep, this morning. I do believe Series 104 HS is what this area needs in the place of the Perma-Shield H2S system. Smooth face block would be much more manageable and would be less expensive for labor and material."

Once I get these credits I will send them over. Thank you,

Ty,

↙ Revised Specification

I would like you to check with your painting sub to see if a Series 104 HS Epoxy System would be adequate in the screening room. Also, I would like you to show the savings changing the screening room interior walls to smooth masonry block not split face. Series 104 HS Epoxy on Smooth Masonry may be significantly less expensive.

Thanks,
Ricky

This is **EXHIBIT K**, consisting of 2 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated March 31, 2022.

AMENDMENT TO OWNER-ENGINEER AGREEMENT
Amendment No. 1

The Effective Date of this Amendment is:

Background Data

Effective Date of Owner-Engineer Agreement: March 31, 2022

Owner: Town of Ashland City, Tennessee

Engineer: Civil & Environmental Consultants, Inc.

Project: Contract 321 – Wastewater Treatment Plant

Nature of Amendment:

 X Modifications of payment to Engineer

Description of Modifications:

Additional engineering costs were incurred during Bidding and Negotiating phase of the project. A Value Engineering (VE) Component was added in effort to consider possible cost reduction solutions that would not jeopardize the integrity of the project. VE included considerations as extensive as rejecting bids and formulating a new design template; deleting the influent pumping station and replacing it with a new configuration, and ideas presented by the Contractor for consideration. The VE cost along with added communication to assist with the additional project funding created a significant shortfall. This effort ultimately resulted in a \$740,000 reduction to the Construction Contract.

Construction Administration (CA) Services and Resident Project Representative (RPR) Services were based on a 32 month construction period. The actual construction contracts will occur over a 36 month period which began in June 2022 with Sewer System Rehabilitation and will be complete in May 2025 with completion of the WWTP. Over a period of approximately 2.5 months (May – July 2023), the projects will overlap. For the WWTP, CA Services are budgeted at \$7,000/month and RPR Services are budgeted at \$15,500/month.

The Rural Development Letter of Conditions contains a Condition from the State Historic Preservation Office requiring an Archaeologist be on-site at the WWTP and the Outfall line when excavation activities are taking place. This Amendment budgets for a six (6) month excavation period for the Archaeologist's services. The Contractor has confirmed this agrees with his

planned project schedule. This service is an additional fee and was not part of the original agreement.

1. Additional Bidding and Negotiating	\$22,000
2. Additional Construction Administration	\$28,000 (4 mos x \$7,000)
3. Additional WWTP Inspection	\$62,000 (4 mos x \$15,500)
4. Additional for On-Site Archaeologist	<u>\$86,000 (1,040 hours x \$82.50//hr)</u>
Total	\$198,000

Agreement Summary:

Original agreement amount:	\$1,776,540.00
Net change for prior amendments:	\$0.00
This amendment amount:	<u>\$ 198,000.00</u>
Adjusted Agreement amount:	\$1,974,540.00

Change in time for services (days or date, as applicable):
 Change in Construction Time from 32 months to 36 months.

The foregoing Agreement Summary is for reference only and does not alter the terms of the Agreement, including those set forth in Exhibit C.

Owner and Engineer hereby agree to modify the above-referenced Agreement as set forth in this Amendment. All provisions of the Agreement not modified by this or previous Amendments remain in effect.

Dear Stacey

The purpose of this letter is to formally request a second extension on the 2021 Ashland City Contract 121 Sewer Rehabilitation Project. The justification for this request is due in part to the time required to finalize the service renewal scope but the main driver is the condition of the existing rehab. The production rate on the initial schedule was predicated on an install rate of 12 installs per week. However, the production rate to date has been 7 to 8 installs per week which is due to the following delays our crews have encountered since construction began.

1. Every line 8-inch line has needed a complete bypass to complete BLD's scope of work. Bypassing line sections is occasionally part of the process however crews typically don't require a full pump around to complete our work. Flows have been excessive throughout the duration of the contract in which pumps arounds have been done daily to manage flows during the curing process.
2. Crews have had to contend with excessive manhole rehab product around the mouth of the pipe. The pipe ends have need to be cleared/cleaned of excess rehab to allow the lateral train to enter pipe. All pre-existing CIPP mainlines have manholes that were rehabbed and all have had to be altered to allow the entrance of the equipment.
3. Crews have encountered undercut taps that were brushed out to facilitate CIPP Lateral installation. While the initial directive was to covert those affected services to digs, our intent was to keep them trenchless to maintain BLD's scope of work.
4. Root removal and defective taps: Install Crews have found defects in services following the root removal process. Those services were converted back to full replacement after CIPPL crews exhausted time and effort to clean piping. This has created a situation where the open cut contractor must return to site to complete dig thus extending the time for the service renewal and restoration.
5. Existing under ground utilities and service locates: Survey crews have had to make multiple trips to job-site to relaunch and locate services where existing utilities have caused false readings. The consequence has been attempting excavations in areas that have been misidentified during cleanout installations.
6. Service Excavations: The service excavations quantity has increased from 50 to 72 which equates to added time needed to complete and restore affected areas. This is current. There are still 41 launches to perform, which will increase the digs and or the CIPP.
7. Weather delays. Although the weather has been bad throughout the winter months, all crews, given the nature of the project, have worked through most bad weather incidents. Thus also causing production to be hindered.

It is for the above-mentioned issues that additional time is warranted to complete the remaining scope. As it stands today there are around 80 CIPP laterals to complete, 24 cleanouts and 28 complete lateral replacements. This does not consider the 41 launches that remain that will increase the lining or digging component that may occur from the outcome of the TV work. The launches that remain will directly increase the amount of cleanouts to 65 total. Based upon our current production rates BLS is requesting 16 additional weeks to complete the project. 12 weeks to complete the remaining CIPP laterals with an additional 4 weeks to account for the laterals that still need to be reviewed. The dig scope will be complete before the CIPP scope is finished. This request is predicated primarily on the completion of the lateral lining as it is the largest component of the remaining scope of work.

Thank you again for the opportunity and we look forward to hearing back regarding this request. If you have any questions or require any further information, please do not hesitate to contact me.

Stacey,

Anticipated schedule for the remaining work is as follows.

Underground Eyes beginning March 27th ending April 10th.

Craft Co. beginning March 29th – All remaining dig work should take no longer than 8 weeks weather permitting.

BLD beginning March 30th 10-15 weeks weather permitting.

Asphalt paving will begin in the next couple of weeks and will take no longer than 2-3 weeks. As to the concrete paving that needs to be complete. I am estimating there to be 25 CY of concrete paving that will need to be performed to date. With that, after remaining launches that need to be performed this number may increase. The price for concrete replacement is based on \$200.00/CY for concrete and \$150.00/CY for labor and misc. materials, forms, etc... If you have any questions, please do not hesitate to give me a call.
