# March 30, 2023 Agenda - Planning and Zoning Commission at 6:00 PM

Bastrop Planning and Zoning Commission meetings are available to all persons regardless of disability. If you require special assistance, please contact the City Secretary at (512) 332-8800 or write 1311 Chestnut Street, 78602, or by calling through a T.D.D. (Telecommunication Device for the Deaf) to Relay Texas at 1-800-735-2989 at least 48 hours in advance of the meeting.

#### 1. CALL TO ORDER

#### 2. CITIZEN COMMENTS

At this time, three (3) minute comments will be taken from the audience on any topic. Anyone in attendance wishing to address the Board/Commission must complete a citizen comment form and give the completed form to the Board/Commission Secretary prior to the start of the Board/Commission meeting. In accordance with the Texas Open Meetings Act, if a citizen discusses any item not on the agenda, the Board/Commission cannot discuss issues raised or make any decision at this time. Instead, the Board/Commission is limited to making a statement of specific factual information or a recitation of existing policy in response to the inquiry. Issues may be referred to City Manager for research and possible future action.

It is not the intention of the City of Bastrop to provide a public forum for the embarrassment or demeaning of any individual or group. Neither is it the intention of the Board/Commission to allow a member of the public to slur the performance, honesty and/or integrity of the Board/Commission, as a body, or any member or members of the Board/Commission individually or collectively, or members of the City's staff. Accordingly, profane, insulting or threatening language directed toward the Board/Commission and/or any person in the Board/Commission's presence will not be tolerated.

#### 3. WORKSHOP

3A. Presentation and discussion on the Transportation Impact Fee Study process and land use assumptions.

Jake Gutekunst, with Kimley-Horn on behalf of the City of Bastrop, presented to the Commission a presentation on the Transportation Impact Fee Study process and land use assumptions.

The Committee asked about funding growth and how impact fees cannot be used for maintenance? Maintenance is funded through the General Fund, taxes, and debt issuance.

The Committee asked is roadway the same a transportation? Do we currently have any impact fees in Bastrop? It is. Roadway is what the State Law calls it, but for the sake of understanding here, we are calling it transportation. Yes, we have Water/Wastewater Impact Fees.

The Committee asked if maps were available so they could get an idea of the 6-mile trip length for Bastrop. The consultant stated maps will be shown later in the presentation.

The Committee asked if the consultant had data showing how the fees or rates affect the development in some of the surrounding communities? The consultant stated that he would have

Item 3A.

a chart at some point when we get to the policy discussion that will show what some communities decided to do.

The Committee asked from the other studies that have occurred within surrounding communities, have they seen any pitfalls to this? No

The Committee asked if the growth rate assumptions for us, compared to other areas, aggressive, inline, balanced? A little above average, but not the highest.

#### 3. ITEMS FOR INDIVIDUAL CONSIDERATION

3A. Consider action to approve meeting minutes from the January 26, 2023, Planning and Zoning Commission Regular Meeting

Patrice Parsons made a motion to approve the meeting minutes from January 26, 2023. Cynthia Meyer seconded the motion and the motion passed unanimously.

3B. Public hearing and consider action to recommend a Zoning Concept Scheme to change the base zoning district from Place Type 2 Rural to Place Type 5 Core, for 1.998 acres of the Nancy Blakey Survey, located at the northwest corner of FM 969 and SH 71 and forward to the March 28, 2023, City Council meeting.

Director of Planning and Development, Jennifer C. Bills, presented the request for a Zoning Concept Scheme to change the zoning district from Place Type 2 Rural to Place Type 5 Core, for 1.998 acres of the Nancy Blakey Survey, located at the northwest corner of FM 969 and SH 71.

Discussion commenced between the Planning Staff and Commissioners over the following topic:

- 1. Why do they want to remove the driveway on the Hwy 71 side and only have access on FM 969?
  - They would not be removing the driveway on 71. There will be access on HWY
    71 as well as 969 that meet TxDOT code requirements. Access points will be
    permitted through TxDOT and will require a study through TxDOT regarding
    the changes to traffic flow.

Debbie Moore opened the Public Hearing at 6:45 p.m.

Adam Gates, applicant, had no questions. He was complimentary to Planning and Development staff regarding the level of assistance he received during the course of this project.

Debbie Moore closed the Public Hearing at 6:46 p.m.

Cynthia Meyer made the motion to recommend a Zoning Concept Scheme to change the base zoning district from Place Type 2 Rural to Place Type 5 Core, for 1.998 acres of the Nancy Blakey Survey, located at the northwest corner of FM 969 and SH 71 and forward to the March 28, 2023, City Council meeting. Carrie Caylor seconded the motion and the motion passed unanimously.

3C. Public hearing and consider action to recommend approval of an ordinance for amendments to the Bastrop Building Block (B³) Code, Chapter 6, Section 6.5.003 Building Standards Per Place Type, Authentic Bastrop Pattern Book, and Bastrop Code of Ordinance Section 3.01.001 International Code Council (ICC); International Code Family (c) Amendments to IBC 2018, Fences not over 7 feet (2134mm) high and forward to the March 28, 2023, City Council meeting for first reading.

Assistant City Attorney, Rezzin Pullum reminded the Commissioners in order to reflect for the record and per the City Council directions, Commissioner Koch should refrain and recuse herself from the deliberation and voting on items 3C and 3D.

Director of Planning and Development, Jennifer C. Bills presented to Commissioners a request for a public hearing and to consider action to recommend approval of an ordinance for amendments to the Bastrop Building Block (B³) Code, Chapter 6, Section 6.5.003 Building Standards Per Place Type, Authentic Bastrop Pattern Book, and Bastrop Code of Ordinance Section 3.01.001 International Code Council (ICC); International Code Family (c) Amendments to IBC 2018, Fences not over 7 feet (2134mm) high.

Discussion commenced between the Planning Staff and Commissioners over the following topics:

- 1. Could you remind us of what the first layer means?
  - The first layer is from the front of the house forward.
- 2. Where could you have a chain link fence?

- On an interior lot a chain link fence can be placed from the front layer to the third layer on both sides of the property. On a corner lot, the chain link fence can start at the first layer of the primary frontage and the third layer of the secondary frontage starting at the façade of the house.
- 3. What is the setback for the 4' or less?
  - The setback is on the property line unless it's located in a site triangle.
- 4. Previously this was just for the Historic District and the Iredell District. Is this now all of Bastrop that is part of this proposed amendment?
  - Yes, this would include all of Bastrop. The previous Code did not address fences outside of the Iredell District, but it had what was allowed to encroach into the first layer and it did not list fences as something that could encroach. This will provide guidance on what type of fences may encroach.
- 5. Is this something that HOA regulations would override for a particular neighborhood.
  - We do not enforce deed restrictions or HOA restrictions. Some of our neighborhoods in the area have their own specific zoning districts and they have their own fence standards that are written into their zoning districts. In those instances, their fence standards would apply, not these.
- 6. If a privacy fence is over 6', it must have the engineering stamp?
  - If the fence is over 7' it must have the engineering stamp. This would also mean there are no height restrictions on fences.

#### Questions for Planning and Zoning Commission:

1. Are you okay with the locations for the 4' fences? Is the first layer appropriate? Do you want to make some changes if it's the secondary frontage?

Carrie Caylor, Vice Chair, spoke in favor of the 4' fence height stating it is a logical height as it is consistent with the International Code which requires a minimum of 4' around a pool.

Cynthia Moore, Commissioner, stated she understood the safety issues surrounding barbed wire, however, why would we not allow chain link? There are certain applications where it could be appropriate. What is the reason why we would not want it all? It's typically an aesthetic reason. If there are contextual reasons that we could code in, we could do that. We would have to identify what situations and where those would be appropriate, or you could just allow it by right.

2. Are these material/fence types appropriate? Do you feel chain link is appropriate in the first layer in the front yard? Are there any issues with not allowing barbed wire, razor wire or electric fences?

Debbie Moore, Chair, asked if someone had a chain link and wanted to replace it with another chain link that would be allowed? Yes, because you will not be required to get a permit to replace what is currently there.

Patrice Parsons, Commissioner, asked why would we allow an electrified fence, or a barbed wire fence, or a razor wire fence in an area where people will be? We are not allowing those type fences.

Judah Ross, Commissioner, asked proposed chain link is prohibited, correct? Yes, in the first layer. You could have it in the area marked in orange.

Judah Ross, Commissioner, asked if the City Manager could describe what cattle guard fencing is. Wide, square, heavy gauged wire. About 4"x4" square, 6'-8' length and 4' wide.

Judah Ross, Commissioner, stated he had that same concern about chain link and asked if chain link would be the most affordable option? Yes, chain link is the more affordable option.

Judah Ross, Commissioner asked if we did not want to make any distinctions in districts anymore? Like with the Historical District? No.

Judah Ross, Commissioner, questioned if other cities who have implemented policies like this have shown that it does create more of a neighborhood feel and people are coming out? Is that something that has been studied? Yes, there is a tendency to want to participate in the outdoors.

Debbie Moore, Chair, and David Barrow, Commissioner, both agreed that chain link fences should be allowed where other fences are allowed.

David Barrow, Commissioner, is this a blanket for all residential and commercial throughout Bastrop? It is for both Commercial and Residential.

Patrice Parsons, Commissioner, is concerned about back lash from everyone we have made do a 4' (3') fence, or does it matter? What is the history on that? I don't know that we have had a lot of 3' fences installed in the last 3 years since the Code was adopted. There were requirements prior to that on fence height in the old code as well. The Code continues to change.

Debbie Moore opened the Public Hearing at 7:06 p.m.

There were no citizen comments.

Debbie Moore closed the Public Hearing at 7:06 p.m.

Cynthia Meyer made a motion to approve the ordinance for amendments to the Bastrop Building Block (B³) Code, Chapter 6, Section 6.5.003 Building Standards Per Place Type, Authentic Bastrop Pattern Book, and Bastrop Code of Ordinance Section 3.01.001 International Code Council (ICC); International Code Family (c) Amendments to IBC 2018, Fences not over 7 feet (2134mm) high. with the recommendation to allow chain link fences in the first layer. David Barrow seconded the motion and the motion passed 7-1 with Kristi Koch abstaining.

3D. Public hearing and consider action to recommend approval of an ordinance for amendments to the Bastrop Building Block (B³) Code, Chapter 9, Historic Landmark Preservation & The Iredell District regarding when Certificate of Appropriateness are required and forward to the March 28, 2023, City Council meeting for first reading.

Item 3D was postponed.

## STAFF REPORT

MEETING DATE: March 30, 2023

#### TITLE:

Consider action to approve the Pecan Park, Commercial Lot 5, Final Plat, being 16.811 acres out of the Nancy Blakey Survey, Abstract No. 98, located at the south of State Highway 71 & west of Hasler Boulevard, within the territorial limits of the City of Bastrop, Texas, as shown in Exhibit A.

#### STAFF REPRESENTATIVE:

Keehren Baah, Assistant Director of Development Services

**ITEM DETAILS:** 

Site Address: South of SH 71 & west of Hasler Boulevard (Attachment 1)

Total Acreage: 16.811 acres

Legal Description: 16.811 acres out of the Nancy Blakey Survey, Abstract No. 98

Property Owner: HSD Pecan Park, LP/Bill Hayes

Agent Contact: Carlson, Brigance, & Doering/Matt Synatchk

Existing Use: Vacant/Undeveloped Existing Zoning: Pecan Park PDD

Adopted Plan: Ordinance No. 2015-14 Pecan Park Commercial Planned

Development on August 25, 2015, Amended Ordinance No. 2021-18

December 14, 2021

Future Land Use: None.

#### **BACKGROUND/HISTORY:**

The applicant has submitted the Final Plat for Pecan Park Commercial Lot 5. The proposed commercial lot follow the lot standards adopted in the Ordinance No. 2015-14 on Ordinance No. 2021-18 Pecan Park Commercial Planned Development Approved December 14, 2021.

#### Traffic Impact and Streets

There will four main streets within this development, Orchard Parkway, Sterling Drive, Agnes Street, and Greenleaf Fisk Drive. A traffic impact analysis (TIA) for the overall development of Pecan Park (commercial and residential sections) has been previously approved by the City in 2014, and the plat is consistent with the recommendations of that analysis.

#### Utilities

Water service (domestic and fire) will be provided by the City of Bastrop via water line extensions from existing infrastructure located at Orchard Parkway, Sterling Drive, and State Highway 71. These lines will be designed according to the City's construction standards, as well as the Texas

Commission on Environmental Quality's (TCEQ) requirements. A Preliminary Infrastructure Plan has been reviewed and approved by the City Engineer.

Wastewater service will be provided by the City of Bastrop via water line extensions from existing infrastructure located at Orchard Parkway, Sterling Drive, and State Highway 71. A Preliminary Infrastructure Plan has been reviewed and approved by the City Engineer.

#### Drainage

Stormwater runoff generated within the property will be routed through onsite drainage infrastructure that will convey the water through off-site easements to directly discharge to the Colorado River. A Preliminary Drainage Plan has been reviewed and approved by the City Engineer.

#### **POLICY EXPLANATION:**

Final Plats are reviewed and approved by the Planning & Zoning Commission.

#### Compliance with 2036 Comprehensive Plan:

Future Land Use Plan – General Commercial: The General Commercial character area supports local and regional businesses that rely on heavy traffic volumes and the visibility that is associated with being located near major roadways. General Commercial developments typically involve varying development intensities, from smaller locally owned shops to big box retailers. These areas are predominantly auto-oriented, with large accessory parking areas. While General Commercial development will continue to be auto-oriented, improved street-side and parking lot landscaping, buffers, appropriately designed and scaled signage, bicycle and pedestrian accommodations, higher quality building materials, and access management techniques (e.g., limited access points and inter-parcel connectivity) will help to improve overall development quality and appearance.

The Future Land Use Plan shows General Commercial in this area. The plat proposes commercial lots, consistent with the surrounding property and the Future Land Use Plan.

#### Local Government Code

• Sec. 212.002. Rules.

After a public hearing on the matter, the governing body of a municipality may adopt rules governing plats and subdivisions of land within the municipality's jurisdiction to promote the health, safety, morals, or general welfare of the municipality and the safe, orderly, and healthful development of the municipality.

Bastrop adopted subdivision regulations in 1981. The Code of Ordinances, Chapter 10 – Subdivisions outlines the requirements for plats within the Bastrop city limits and Extra Territorial Jurisdiction (ETJ).

Sec. 212.010. Standards for Approval

- (a) The municipal authority responsible for approving plats shall approve a plat if:
  - (1) it conforms to the general plan of the municipality and its current and future streets, alleys, parks, playgrounds, and public utility facilities;

This plat is located inside of the city limits of Bastrop, Texas. The Future Land Use shows General Commercial in this area. The plat proposes commercial lots, consistent with the surrounding property.

- (2) it conforms to the general plan for the extension of the municipality and its roads, streets, and public highways within the municipality and in its extraterritorial jurisdiction, taking into account access to and extension of sewer and water mains and the instrumentalities of public utilities;
  - A traffic impact analysis (TIA) for the overall development of Pecan Park (commercial and residential sections) has been previously approved by the City in 2014, and the plat is consistent with the recommendations of that analysis.
- (3) a bond required under Section 212.0106, if applicable, is filed with the municipality; and
  - A fiscal guarantee was provided for the construction and maintenance of the street improvements before any final plats is recorded.
- (4) it conforms to any rules adopted under Section 212.002.

The final plat complies with the requirements of the adopted B<sup>3</sup> Code and Consent Agreement.

#### B<sup>3</sup> Code – Chapter 1: Subdivisions

- Section 1.3.001 Standard Procedure Platting
  - Any subdivision requiring the extension of public infrastructure or of more than four lots require the approval of a Preliminary Plat, Public Improvement Plan, and a Final Plat.
- Section 1.3.002 Preliminary Plat

The Preliminary Drainage Plan to determine drainage requirements was reviewed the City Engineer and several revisions were addressed on the Final Drainage Plan.

The Preliminary Infrastructure Plan for the feasibility of the construction of the subdivision improvements was reviewed by the City Engineer and is pending approval with a several revisions that must be addressed on the Public Improvement Plans before any work on the improvements can begin.

Section 1.3.004 Plat Requirements

The Development Review Committee reviewed the Pecan Park Commercial Lot 5 Final Plat for compliance with subdivision, utility standards, and the Planned Development District zoning and deemed the plat administratively complete. The Assistant Director recommends approval.

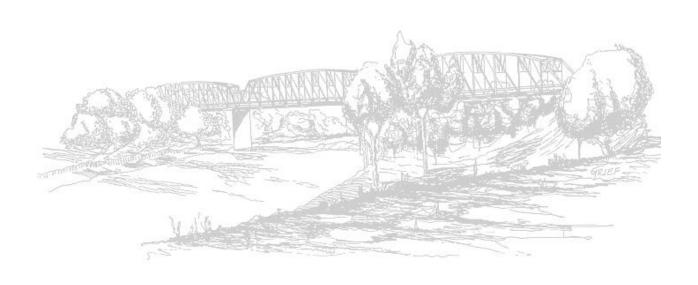

#### **RECOMMENDATION:**

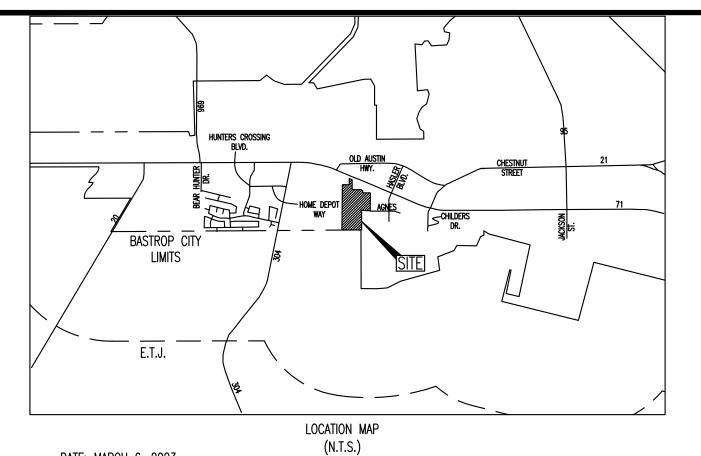

Consider action to approve the Pecan Park, Commercial Lot 5, Final Plat, being 16.811 acres out of the Nancy Blakey Survey, Abstract No. 98, located at the south of State Highway 71 & west of Hasler Boulevard, within the territorial limits of the City of Bastrop, Texas, as shown in Exhibit A.

MEETING DATE: March 28, 2023

#### TITLE:

Consider and Act on amending ARTICLE 2.4 ADMINISTRATION SEC. 2.4.001 NONCONFORMING USES AND STRUCTURES by adding that the intent of the provisions will not create a disparate impact to residents.

#### **BACKGROUND/HISTORY**

The B3 code, as adopted, requires all existing uses and structures who do not meet the B3 standard to be considered nonconforming, also known as "grandfathered". Nonconforming uses are intended to move the community into current planning, building code, and design standards.

An unexpected consequence of the B3 code, was the disparate impact it would have on residents in predominantly low-income areas, or the large extent of the town that would be considered nonconforming and what that actually would mean to residents.

This agenda item seeks to clarify the intent of the code is a fair and equal access to its application and relief, which today is not clear. An example of this is the punitive cost of a variance request.

#### **AGENDA ITEM SUBMITTED BY:**

Submitted by: Sylvia Carrillo, City Manager

#### **RECOMMENDATION:**

Staff recommends amendment to ARTICLE 2.4 ADMINISTRATION SEC. 2.4.001 NONCONFORMING USES AND STRUCTURES by adding that the intent of the provisions will not create a disparate impact to residents.

#### **ATTACHMENTS:**

Proposed code amendment documents.

(2) An Application for a building permit for any proposed use other than those specified in the "P2" District must be made to the Director of Planning & Development. If the Applicant shows that plans and other preparation for developing the property commenced prior to annexation by the City, as established by the Texas Local Government Code Chapter 43, City Council shall authorize the Construction of the Project by a majority vote.

### SEC. 2.3.004 ANNUAL ADOPTION OF SCHEDULE OF UNIFORM SUBMITTAL DATES FOR SITE PLANS AND PLACE TYPE ZONING CHANGES

City Council will annually meet in September to adopt a Schedule of Uniform Submittal Dates in order to comply with Texas Local Government Code Chapter 211 for Zoning Changes, and Site Plan applications. The Schedule of Uniform Submittal Dates will include dates when applications will be accepted, when review for completeness checks will occur, when the Planning & Zoning Commission will meet, and/or when Administrative decisions by the Director of Planning & Development will occur.

#### **ARTICLE 2.4 ADMINISTRATION**

#### SEC. 2.4.001 NONCONFORMING USES AND STRUCTURES

- (a) Intent of Provisions <u>It is the intent of this code to keep authentic Bastrop and not create any exceptional hardships or have a disparate impact on any segment of the community or area</u>
  - (1) Within the districts established by this Code or amendments thereto, exist lots, Structures, uses of land, and characteristics of use that were lawful before this Code was enacted, amended or otherwise made applicable to such lots, Structures or uses, but that do not now conform to the Standards of the Code where they are located. It is the intent of this Code to permit such nonconforming lots, Structures or uses to continue, as long as the conditions within this Section and other applicable sections are met.
  - (2) It is further the intent of this ordinance that nonconforming uses shall not be enlarged upon, expanded or extended, intensified and not be used as a basis for adding other Structures or uses prohibited elsewhere in the same district.
  - (3) Nonconforming uses are hereby declared to be incompatible with the permitted uses in the districts involved.

#### TITLE:

Consider and act on amending Continuing Lawful Use of Property & Existence of Structures item (4) No nonconforming use or Structure may be expanded, reoccupied with another nonconforming use, or increased as of the effective date of this Code, unless authorized by the ZBA by adding an administrative relief component for residents.

#### **BACKGROUND/HISTORY**

The B3 code, as adopted, requires all existing uses and structures who do not meet the B3 standard to be considered nonconforming, also known as "grandfathered". Nonconforming uses are intended to move the community into current planning, building code, and design standards.

An unexpected consequence of the B3 code, was the disparate impact it would have on residents in predominantly low-income areas, or the large extent of the town that would be considered nonconforming and what that actually would mean to residents.

This agenda item seeks to provide administrative relief to residents and businesses in that section of the code.

An example of this impact is an applicant who wishes to add a concrete driveway in the first layer of the lot on Fayette Street. There is an existing gravel driveway that is narrow and has been used for parking for over 50 years. The existing code, as written, would not allow the driveway because it does not allow expansion of an existing nonconforming structure to occur. The applicant would need to request a variance to the Zoning Board of Adjustment at a significant cost in order to install the driveway.

If the intent of the code is to keep "authentic Bastrop", a common nonconforming planning practice should be applied; that is a radius of 200 ft or less, is taken from the property in question. If more than 50% of the properties surrounding it have similar circumstances, then it would be allowed. The reasoning is that it allows the neighborhood to retain its character without major legislative approvals, instead an internal administrative approval can be obtained.

Staff recommends amendment to amending Continuing Lawful Use of Property & Existence of Structures by adding an administrative relief component for residents.

#### (b) Nonconforming Status

- (1) Any use, platted Lot, or Structure that does not conform with the Standards of the Place Type Zoning District description where it is located shall be deemed a nonconforming use or Structure when:
  - A. The use, platted Lot, or Structure was in existence and lawfully operating on the time of the passage of the previous Code passed September 14, 1999, and has since been in regular and continuous use; or
  - B. The use, platted Lot, or Structure is a lawful use at the time of the adoption of any amendment to this Code but by such amendment is placed in a district wherein such use, platted Lot, or Structure is not otherwise permitted and has since been in regular and continuous use; or
  - C. The use, platted Lot, or Structure was in existence at the time of annexation to the City and has since been in regular and continuous use.

- (c) Continuing Lawful Use of Property & Existence of Structures
  - (1) The lawful use of land or lawful existence of Structures at the time of the passage of this Code, although such do not conform to the provisions hereof, may be continued; but if said nonconforming use or Structure is discontinued for a period of 6 months or longer, a rebuttable presumption is created that the nonconforming use was intended to be abandoned, any future use of said Premises shall be in conformity with the provisions of this Code.
  - (2) Discontinuance of a nonconforming use or Structure shall commence on the actual act or date of discontinuance. Abandonment of a nonconforming Structure shall commence on the act or date of abandonment.
  - (3) When a nonconforming use or Structure that does not meet the Development Standards in this Code ceases to be used for a period of 6 months or longer, such use shall not be resumed and proof of such event shall constitute prima facie evidence of an act of abandonment. Any nonconforming use that does not involve a permanent type of Structure or operation and that is moved from the Premises shall be

- considered to have been abandoned. Manufactured homes and mobile homes may be replaced once per the Texas Occupations Code.
- (4) No nonconforming use or Structure may be expanded, reoccupied with another nonconforming use, or increased as of the effective date of this Code, unless authorized by the ZBA OR can be administratively resolved if the following condition exists, properties within 200 feet the adjacent structures have a similar encroachments, building standards, or lot standards, or setbacks or build to lines. The following determination can be made by the Director of Development Services when the applicant meets the surround built environment.
- (5) Conforming Residential uses on platted lots approved prior to this Code, that may now be nonconforming due to stricter Standards, shall be deemed in conformance with this Code as long as the use of the Lot is allowed in the respective district.
- (6) Any existing vacant Lot platted prior to the adoption this Code, that was legally conforming, shall be deemed a conforming Lot subject to the provisions applicable to Lots of Records as defined in Sec. 1.3.013.

## Staff Report

MEETING DATE: March 28, 2023

#### TITLE:

Consider and Act on amending Chapter 1, Subdivision, Lots of Record, SEC. 1.3.006 LOTS OF RECORD of the City of Bastrop B3 Development Code by adding a section for existing lots of record who can receive administrative approval outside of the normal platting procedure,

#### **AGENDA ITEM SUBMITTED BY:**

Submitted by: Sylvia Carrillo, City Manager

#### **BACKGROUND/HISTORY:**

Approval of the Bastrop Building Code (B3) created hundreds of non-conforming lots of record throughout the City of Bastrop addressed in (B3) Chapter 1, Subdivisions, Section 1.3.006, Lots of Record. An unintended consequence of the non-conforming use is its disparate impact on property owners who are unable to meet the new requirements in the B3 code. Specifically, lots who were never officially platted but rather subdivided by deed or metes and bounds descriptions.

Many of those lots exist in Bastrop and are already serviced by water, wastewater and other utilities. After the passage of the code, the property owners who own those lots are unable to expand existing homes or even build a home where a vacant lot that has access to streets and all other utilities have existed for years prior.

The Local Government Code, Chapter 212, provides for the City to (1) allow administrative approval and (2) create a classification that allows these lots to be exempt from a costly platting requirement. It is important to remember, the intent of platting is for orderly subdivision and land development. If these lots are already adjacent to infrastructure, it is the City Manager's professional opinion that the intent of Chapter 212 is being met.

The proposed code amendment would allow the existing property owners who have non-conforming lots of record to be allowed to develop their property through an administrative review.

#### **RECOMMENDATION:**

Staff recommends amendment to Chapter 1, Nonconforming Lots of Record.

1. Proposed code amendment documents.

#### Attachment

- (c) A Lot of Record will be recognized if the property:
- (1) Was created by a Subdivision procedure; or
- (2) Is currently in the same size, shape, and configuration as it was prior to April 20, 1981, as established by a comparison of property descriptions found in deeds or property transfer documents.
- (3) Is greater than 5 acres with access to a public road and municipal utilities.
- (d) Lot of Record Verification:
- (1) A Lot of Record Determination is a document provided by the City acknowledging whether a particular tract of land was created lawfully. A parcel boundary used for property taxation or conveyed by deed to transfer ownership or title is not necessarily indicative of a lawfully created division of land. A Lot of Record Verification does not make claims as to ownership, title, or boundary locations.
- (2) A request for Lot of Record Verification may be submitted to the Director of the Planning and Development.
- (3) The Lot of Record Verification Request Form can be found in the Development Manual.
- (e) Existing Lot of Record
- (1) Existing lots of record may continue in the same configuration without the requirement to Plat until:

- A. Any infrastructure extensions or upgrades are required to serve the Lot. A. Any infrastructure extensions or upgrades are required to serve the Lot. A request for a meter of any utility does not constitute an infrastructure upgrade or extension. An upgrade to a infrastructure is better defined by increasing the size of a water or wastewater main line or an extension of water and wastewater main lines to the entire property line
- B. A change of use to a more intense use or a use from Residential to any other use.

Subject: Development Services Organizational Changes

\_\_\_\_\_

Commissioners,

Recent personnel changes and various customer service issues have prompted a thorough review of the Development Services Department which currently houses both planning and building services.

A review of department activity yielded an apparent inability to manage department workload and any ability to leverage technology or fully train the staff as demonstrated by the following:

- Over 600 building permits in various stages of incompleteness, yet the structures and homes have long been occupied.
- Over 7 plan submittals labeled "incomplete" since as far back as March of 2021 with no follow up to the customer or consultant.
- Over 5 platting exemption requests, some of which have been in the system since May of 2022 with no follow up to the customer.
- Many other neglected items related to customer requests.

I am proposing the following organizational changes:

1) A renewed focus on Customer Service through a dedicated customer service division in the department utilizing a combination of existing positions that are reclassified.

The repurposed positions are as follows:

#### Demotion:

• A vacant Sr. Planner position to a Planner Position.

#### Promotion:

A promotion of the existing Coordinator to Customer Service Manager

#### Reclassification:

• The reclassification of a Permitting Technician to a Project Coordinator.

While difficult, these positions are less managerial and more operational to assist in carrying out the day-to-day workload.

#### Additions:

- Two (2) Sr. Inspectors,
- One (1) Plan Reviewer,
- One (1) Development Engineer,
- One (1) Construction Inspector

These positions will serve to carry out the work that was previously outsourced to third parties. (See Attachment 1 -Organizational Chart)

The net results of such changes are minimal, at less than \$30,000. If viewed in the max budget possible, the savings are over \$900,000.

2) Transition of outside contracts totaling, a minimum, approximately \$600,000, and contract amounts not to exceed \$2,300,000.

The inability to control inspection timeframes and plan review expediting when needed, leave an uncertainty about completion timeframes, that ultimately affect customer service and leave the city in a negative light.

The existing contract for 3<sup>rd</sup> party plan review is a Not To Exceed contract (NTE) in the amount of \$650,000. The existing contract for 3<sup>rd</sup> party inspections is a NTE in the amount of \$800,000.

The existing contract for 3<sup>rd</sup> party engineering review for development is a NTE \$119,600.

An additional contract exists with Halff and Associates for other engineering work and is billed on an hourly basis or project basis. Additionally, there are 3<sup>rd</sup> party engineering costs for Dial Engineering for site/subdivision inspection. Often, these contracts are signed by the City Manager in amounts less than \$50,000 for which the council has little or no knowledge of their engagement or billed to other divisions such as water/wastewater or other utilities. While not out of the ordinary, and necessary for daily operations, I raise the issue simply to show the true cost of service for the department.

These amounts total \$599,592 in this fiscal based on the current pace but can be as high as \$2,325,268 as per the NTE contract.

The next expense result of the proposed changes is less than \$30,000 to the overall budget; a manageable amount with the appropriate management of resources including staff and technology.

Systematic changes to the department are challenging; as we move toward a customer service approach and process amendments, it is abundantly clear that the staff needs a wide range of training to be able to use critical thinking methods and make decisions in the most customer friendly manner possible.

Many code amendments will require a vote at the Planning Commission and to hold a public hearing. The public hearing process will not be circumvented; the public will have an opportunity to review any code amendments at both the Planning Commission, and at the Council level, and if so directed, we will hold more public hearings so that the residents are thoroughly engaged and educated on any amendments.

Lastly, the City brought on a consultant, George Arimes, who has over 45 years of experience in land development and process improvement, to assist in the review of the codes, process, and overall success of the department.

The residents and economic viability of our city remain my focus; it is my hope that the changes above, will reformulate our approach to customer service and our residents.

I am available for any questions either individually or collectively as an agenda item.

Respectfully submitted,

Sylvia Carrillo, ICMA-CM, CPM City Manager

Item 4A.
