Dear Mayor/ Councilmembers,

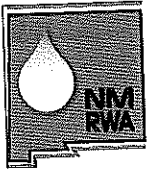

I am writing this letter to inform you of my recommendation that Mr. Mike Paez an employee with the City of Bayard Maintenance Department attend the New Mexico Rural Water Association 44th Annual Conference June 14th-16th in Albuquerque NM for twenty seven water credits. This is in addition to the NMWWA class also in June 22nd-23rd for thirteen water credits. We as NM certified water operators are required to obtain 30 water credits to retain our current certifications within in a three year period.

By Mr. Paez attending both schools he will not need any additional credits required from the state for the next three years. By doing this it will free up time later in the year to send other employees to classes to obtain the necessary credits required by the state prior to taking their water certification exams. Thank you for your consideration.

If you have any questions please feel free to contact me at 575-590-8071 or at 575-537.5384

Anthony Aveles

Good Morning,

We have programmed both these crossings for FHWA funding (FFY 2022) and working on getting estimates for the railroad work, and developing the Section 130 Agreements for each location.

We have also determined the active lights and gates will be removed, and passive crossing signage will be placed at both crossings (Vadadium and Poplar) by SWRR before the reconstruction of the crossings.

Please let me know if you have any questions or would like to set up an MS Teams meeting to explain the process. If you would like to provide the City of Bayard with a monthly update please let me know.

Thank you,
