Please make sure all cell phones and other electronics are turned off and put away.

City of Bel Aire, Kansas

STAFF REPORT

DATE: 9/8/22

TO: City Manager

FROM: Ted Henry, Assistant City Manager/ Director of Finance

RE: Fee Schedule

BACKGROUND:

It is best practice to periodically review the fee schedule to ensure the City is recouping the cost of providing services in areas for which fees apply. The services for which a city imposes a user or regulatory fee typically derive from an individual person or entity's action, request, or behavior. Therefore, except in cases where there is an overwhelming public benefit generated by a city's involvement in the individual action, a fee for service ensures that the individual bears most, if not all, of the cost incurred by the City to provide that service.

Ongoing review and adjustment of fees provides multiple benefits, including:

- Increasing the availability of General Fund revenues to be used for services and activities available to all Bel Aire residents and businesses, such as public safety services.
- Keeping pace with the general cost inflation.
- Providing fee payers, city staff, and city policymakers with a pattern of consistency that provides information for forecasting and decision-making purposes.

DISCUSSION:

Staff has recommended several changes to the current fee schedule. The following document shows "current fee", "proposed change" and "reason for change" to direct the workshop discussion. Most major changes have data and comparative statistics embedded in each section.

Alcohol/Liquor**Section 1**

1.1	Enhanced Cereal Malt Beverage Retail	Current	Proposed Change	Reason for Change
1.1.1	General Retailer (On-Premise Consumption), per each tavern or place selling CMB at retail (Includes \$25 State stamp fee, and \$50 non-refundable fee).	\$300/yr	\$225/yr	State limits license fee, aligns state and city terminology
1.1.2	Limited Retailer (Off-Premise Consumption), per each place selling only CMB in original unopened containers, and not for consumption on premises. (Includes \$25 State stamp fee, and \$50 non-refundable fee)	\$250/yr	\$75/yr	State limits license fee, aligns state and city terminology
1.2	Alcohol Liquor			
1.2.1	City Temporary Permit for selling or Serving Alcoholic Liquor (State permit also required)	\$50/day	\$100/ day	aligns with City Code terminology
1.2.2	Caterer's Occupational Tax for Selling or Serving Alcoholic Liquor	\$250/yr	\$500/2 years	aligns with State and City Code terminology and fees

Business General Licenses & Permits**Section 2**

2.1	Business Licenses	Current	Proposed Change	Reason for Change
2.1.1	General Business License	\$50/yr		
2.1.2	Home Occupation License Tier 1 (not required to register)	\$0		
2.1.3	Home Occupation Licenses Tier 2 and 3	\$35/yr		
2.1.5	Solicitor License	\$50/30 days	\$30/30 days + \$15 per person	To align with code \$15 for background check
2.1.6	Peddlers License	\$15/day or \$150/yr	\$30/30 days + \$15 per person	To align with code \$15 for background check
2.1.7	Transient Merchant License		\$30/90 days + \$15 per person	To align with code \$15 for background check
<p>↑ 2.1.5, 2.1.6 and 2.1.7: By City Code, a Solicitor License and a Peddlers License are to be issued for a 30-day period and Transient Merchant License for 90 days. The proposed change aligns city code with our fee structure. The charge of \$15 per person is for the required background check.</p> <p>A Vendor and Peddler are similar in the fact they go door to door for sales. A Peddler has the product with them, and a Solicitor takes orders. A Transient Merchant sets up space somewhere and customers come to them. Due to zoning, transient merchants are very rare. A flat fee plus per person fee is charged as you might have a business with multiple salespeople. For example, a Solar Sales Company may have a dozen salespeople. A flat fee is charged for the company and the per person fee covers the background check process. Each individual person receives a permit to keep on their person while soliciting sales. Background checks are valid for one year which is helpful for business such as a door-to-door meat salesperson who may apply for a 30 day permit a few times each year.</p>				
2.1.8	Business Signage-Temp or Permanent (plus any building permit fees)	\$50		
2.1.10	Mobile Home Licenses	\$50 + \$5 per home		
2.1.11	Amusement Ride Co. License Application Fee	\$25		
2.1.12	Amusement Ride Co. Annual License	\$600/ yr		
2.1.13	Temporary Amusement Ride Company Annual License, under 20 rides	\$30/ride		

2.2	General Permits	Current	Proposed Change	Reason for Change
2.2.1	Garage, Rummage, Yard Sale Permit	\$2 per day		
2.2.2	Auction Permit	\$100 per auction		
2.2.3	Vehicle Permit (Solid Waste)	\$50 per vehicle per yr	Remove Fee	Solid Waste Contract
2.2.4	Well Producing Gas or Petroleum	\$1,000 per yr		

City Utilities and Infrastructure

Section 3

3.1	Utility Billing and Administration	Current	Proposed Change	Reason for Change
3.1.1	Move In Connection Fee	\$50		
3.1.2	Account Transfer Fee	0	\$25	Code references a fee but was not included in past fee schedule
<p>↑ 3.1.2: City Code lists a transfer fee. This has not been included on fee schedule. Due to large increase in residents moving from one home/rental to another and the staff time involved, it is requested to add a \$25 transfer fee to the schedule. This is half the price of the move in connection fee.</p>				
3.1.3	Disconnect Fee	\$25	Remove Fee	3.1.5
3.1.4	Reconnect Fee	\$25	Remove Fee	3.1.5
3.1.5	Non-payment fee		\$50	Connect and Reconnect are always bundled as \$50. Rename as Non-Payment fee

↑ **3.1.3 thru 3.1.5:** When residents are disconnected for non-payment, they are charged both the disconnect and reconnect fee. Request is to combine the fee into one non-payment fee.

3.1.6	Utility Late Payment Fee	5%		
3.1.7	Meter Lock Out	0	\$50	Code references fees but no fee has been set
3.1.8	Lock Damage	0	\$50	Code references fees but no fee has been set
3.1.9	Meter re-read or leak inspection beyond one per yr	0	\$50	Code references fees but no fee has been set

↑ **3.1.7:** Code references this fee, but fee has not been set. Staff requests this fee to cover costs of staff time when customers turn on meters that are off due to non-payment.

↑ **3.1.8:** Code references this fee, but fee has not been set. Staff requests this fee to cover cost of staff time and cost of meter lock when a meter lock is cut. Lock is installed when a disconnected customer turns on their water before paying their delinquent account.

↑ **3.1.9:** City Code references a cost for meter rereads and leak inspections. Staff requests that the fee be established.

3.2	Water and Wastewater Connections	Current	Proposed Change	Reason for Change
3.2.1	Fire Line Standby	\$30/month		
3.2.2	Fire Line Tap Fee	\$950

Salary Comparison

The Public Policy and Management Center (PPMC) completed an analysis of salaries for 30 positions on behalf of the Local Government Network (LGN). This study included matching position titles, classifications, and requirements and then comparing the designated salaries across each identified position.

Sixteen cities and counties shared their salary information for comparison. Those participating were: Abilene, Andover, Bel Aire, Butler County, Derby, Goddard, Halstead, Haysville, Herrington, Reno County, Sedgwick, Sedgwick County, Sterling, South Hutchinson, Valley Center, and Wichita. The average salaries at the minimum, midpoint, and maximum pay for each position were calculated.

In addition, the positions were matched in CompAnalyst. CompAnalyst market data is a “state-of-the-art process for benchmarking and analyzing jobs that builds on the professional industry standards employed by compensation analysts” (Salary.com). The CompAnalyst data is comprised of surveys that are paid for, versus self-reported data, which is subjective. Information in CompAnalyst is updated in real time to ensure that the most up-to-date data is available to users. The system not only matches jobs, but also creates hybrid positions to align closely with the duties outlined in position descriptions. CompAnalyst system also allows users to apply scopes to the data being extracted. Through this system, the PPMC was able to pull data from the geographic locations and place a governmental industry filter to the data. This narrows information in order to provide the most accurate wage data on each position description.

Finally, given the differences across the participating cities and counties in population size, each position was reviewed for salary range at each the minimum, midpoint, and maximum. This information will allow communities to compare where their salaries fall within the specified range.

MANAGERS REPORT

DATE: September 9, 2022
TO: Mayor Benage and City Council
FROM: Ty Lasher, City Manager
RE: September 13, 2022 Workshop

Special Assessments (Item I):

All new developments install public infrastructure. As part of that process, special assessments are assessed to the benefiting property owners. Kevin Cowan with Gilmore & Bell will be at the meeting to explain the process in detail.

Revised Fee Schedule (Item II):

The city has numerous fees that are charged for various services. To streamline the process of identifying fees, a fee schedule was created to address all charges in one document. Each department director was asked to review the fees they charge and determine if any changes need to occur. They also compared our charges to those of neighboring cities. Ted gathered those proposed changes and compiled them into the revised fee schedule before you.
