### Re: Application for Sewer Connection; Hill Mobile Home Park; 14226 Elwood Drive, Bowling Green, Virginia 22427

Dear Sirs:

On behalf of our client, Hill MHP LLC, we submit the enclosed Application for a Sewer Connection for the Hill Mobile Home Park at the referenced address. The request involves a single, two inch (2") meter to serve the property. Hill MHP LLC will agree to reimburse the Town for the expense of the connection to the meter. Hill MHP LLC will be solely responsible for the installation, and future maintenance of individual connections from the meter to the mobile home units.

Our client understands that because this location is located outside the limits of the Town, the Town Council, as well as the Caroline County Board of Supervisors must both approve this request. Accordingly we hereby request an opportunity to meet with the Town Council at its earliest convenience to discuss this request.

Please do not hesitate to call me if you have any questions.

# TOWN OF BOWLING GREEN APPLICATION FOR WATER AND/OR SEWER CONNECTION

All connections will be subject to the Public Works Department approval. Additional charges will be billed when the Town goes beyond the existing water and/or sewer infrastructure.

FOR COMMERCIAL ACCOUNTS: Your consumption may be reviewed every six months. Your availability fee payment is subject to adjustment based on actual use. Rebates for fees paid will be on a case by case basis. It is hereby agreed that the charges for water/sewer service at the below address shall be paid at a rate established by the Town and that the service is to be rendered in accordance with its rules and regulations. The charges for water/sewer service shall start with the installation of the meter and shall continue until notice is given in advance and received by the Town to discontinue service. It is further agreed that by this contract, authority is given to the Town and its representatives to have access to its meter at all times without any other permit and further, that the water and sewer service furnished through these facilities shall not extend to other property nor the water therefrom resold in any manner and it is understood and agreed also that the Town does not guarantee continuous service or any specified water pressure. Ownership of service pipe and/or meter herein applied for when installed is hereby vested in the Town, subject to jurisdiction of and control by the Town. Applicant shall furnish location and grades for top of meter box. It is agreed that if raising or lowering of meter is necessary after initial installation, a charge will be assessed. For sewer connections, the applicant shall be responsible for all costs to bring the lateral service line to the sewer main. I agree that no downspouts or gutters from roofs, catch basins or farm tile and lawns footing drains or any other drain used to carry storm water will be allowed to discharge into the Sanitary Sewer, and if such conditions exist at anytime, I hereby agree to have the same remedied at my own expense upon notice thereof. I agree that such charges shall be a lien on such real estate owned by me served by such sewer or water. Nothing in this application supersedes applicable provisions of the Code of the Town of Bowling Green. The Town of Bowling Green is held harmless in the event of a sewer backup.

#### LIMITED ACCESS CONTROL CHANGE (LACC) PROCESS

Requests for limited access control changes (LACC) shall be initiated at the District level and made to the District Administrator in writing by the party or entity requesting the LACC. Following review at the District level, the District Administrator shall discuss the requested change with their respective CTB member(s), and subsequently submit a written recommendation to approve or deny the request, which summarizes the details of the LACC and includes each disciplines recommendations, conditions, requirements for the LACC; specific stations for and widths of the break(s) or shifts; whether lands shall be donated for increased right of way citing if the area to be acquired was included in the original NEPA document for the project, (If not included in the original NEPA document for the project then determine if one is needed and so state and provide a copy when complete and a title report); any impacts of the change on future transportation planning and construction; whether the location of the proposed LACC is within an air quality non-attainment area and if so whether the proposed LACC has been through the air quality conformity review, and cite the findings; and ownership of the control rights will also be addressed., along with the review package with all supporting reports and data to the Chief Engineer no later than the 10<sup>th</sup> of the month prior to the anticipated month of the CTB meeting at which the LACC will be considered. The complete request package should be copied to the Director of Right of Way and Utilities and the Assistant L&D Engineer as assigned to that Region in Central Office.

#### Activities prior to submission and documentation needed are as follows:

• Posting of a deposit by requestor sufficient to cover the estimated costs of the Department's expenses in accomplishing the required reviews, postings, approvals, etc. (include invoices in package). The amount of the deposit will be determined by the estimated amount of research,

engineering and cost of the appraisal prior to consideration by the CTB. The requestor shall pay the actual Department expenses if greater than the deposit. These costs are in addition to the monetary compensation required. Requests by a locality for consideration of change of access control for public transportation purposes are exempted from posting of a deposit at the Chief Engineer's discretion.

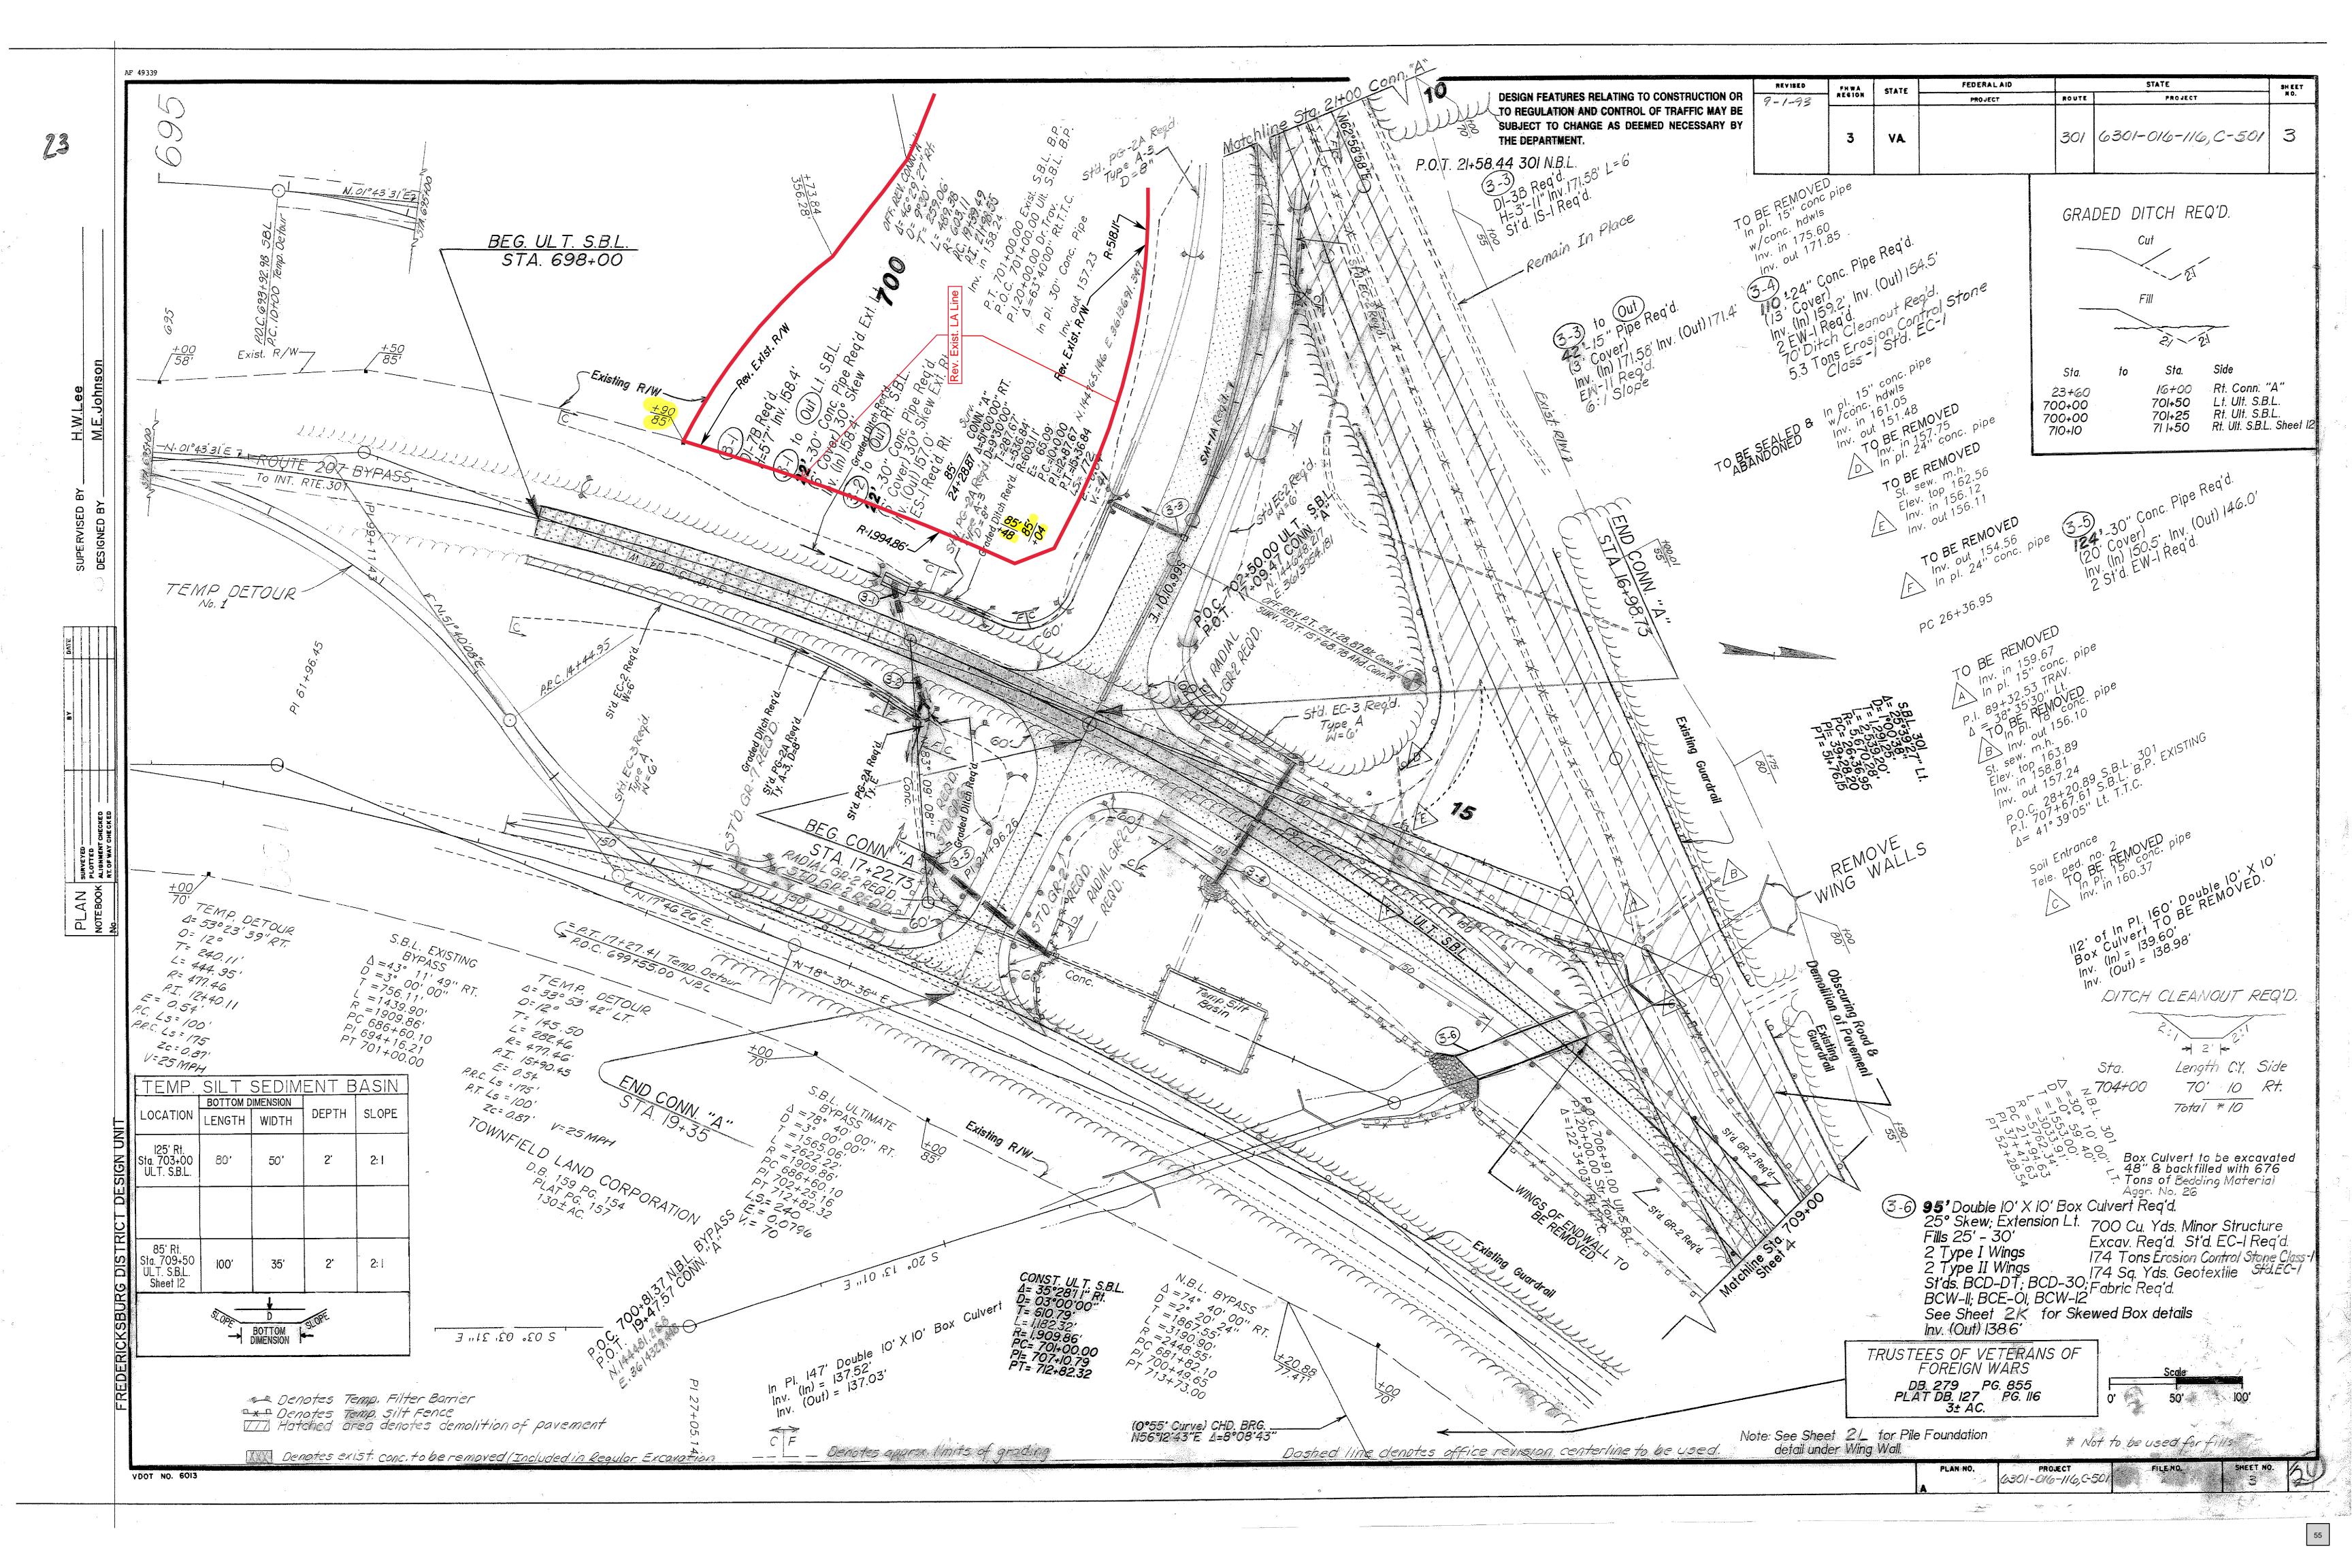

- Preparation of a global traffic analysis by requestor.
- A resolution, letter of support and/or a formal request from the locality and copy of same.
- A Posting of Willingness by the Department for public comment on the proposed LACC, (at requestor's expense) with copies of the advertisements and any resulting written comments received.
- The Resident Administrator, District Traffic Engineering, Location and Design (L&D), Right of Way and Utilities, Planning, Environmental Sections and/or other disciplines, as needed and/or identified by circumstance of the LACC, will review the request and provide a discipline specific written summary of recommendations/requirements/conditions to the District Administrator including but not limited to signalization, whether break is at grade or aerial, turning movements, lane/ramp additions, median breaks or adjustments, whether the location of the proposed LACC is within an air quality non-attainment area and if so whether the proposed LACC has been through the air quality conformity review, provide a copy of that report and cite the findings in the summary. Also if there is to be additional right of way acquired as a result of the proposed LACC, cite whether the area to be acquired was included in the original NEPA document for the project and provide that determination in the summary. If not included in the original NEPA document for the project then determine if one is needed and so state and provide a copy when complete, development plats showing the proposed LACC.
- The review package shall include any reports; marked title and plan sheets for both the project on which the control rights were acquired and the most recent plans showing the LACC area; letter to the State director of Right of Way and Utilities from the Regional Right of Way and Utility

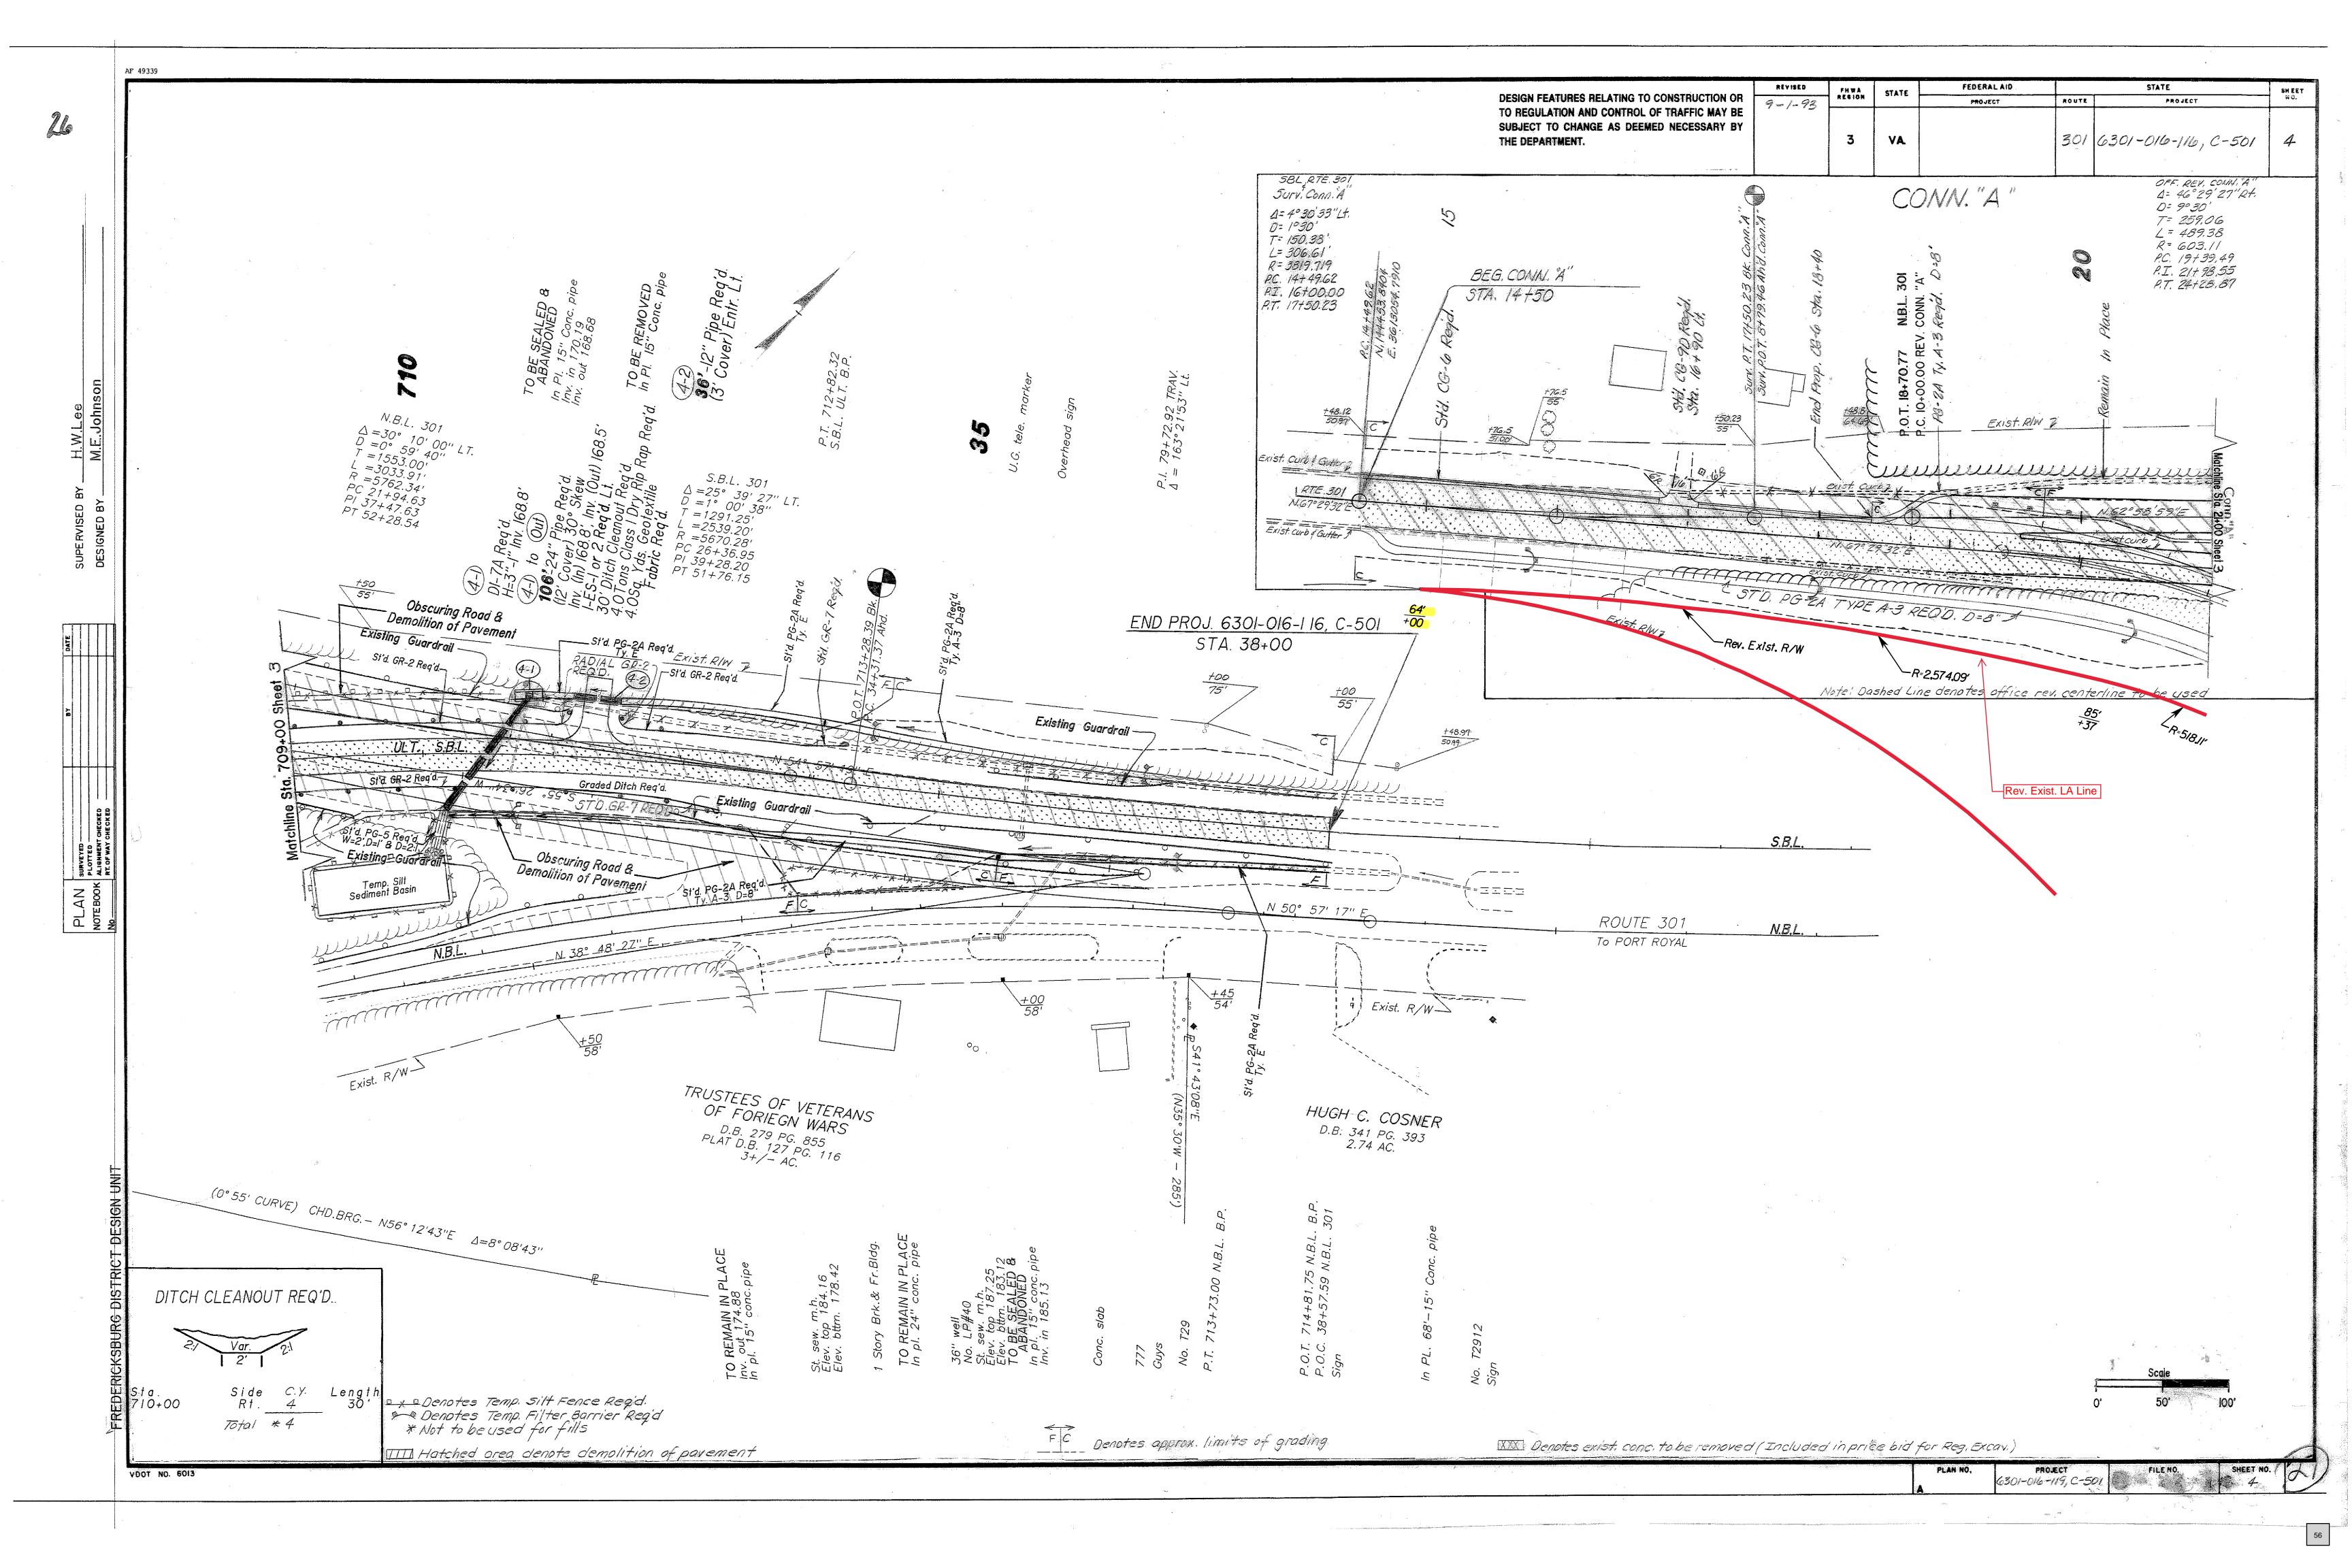

Manager citing whether as a result of the proposed LACC there will be enhancement to the value of the property adjoining the proposed LACC. Copies of the instrument(s) of acquisition are required if a deed is to be prepared following CTB approval.

- The Chief Engineer will initiate a Central Office review through necessary Central Office divisions. Incomplete packages shall not be considered for inclusion on the agenda and will be postponed from consideration until all information/documentation is received.
- The Assistant State L&D Engineer shall contact the Federal Highway Administration for all necessary review subject to existing law and policy requirements, and in all instances involving the Interstate Highway System when federal funds were involved in the acquisition of the limited access control. This review and approval is required **prior** to any CTB consideration.
- Once the CTB has approved the request, the requestor shall have 180 days from the date of CTB approval to submit the monetary or other consideration and to secure all necessary permits from the Department. Failure to do so shall void the CTB approval. The Department will convey any necessary land rights as necessary to comply with the request.
- Upon approval by the CTB, the Chief Engineer or his delegate will advise the District Administrator and all parties of the approval with a notice to proceed to effect the action.
- Upon approval of the Chief Engineer, the Right of Way and Utilities Division will establish the compensation enhancement. Non-public use LACC requires monetary or other good and valuable consideration and is determined through the Department's appraisal process for the establishment of fair market value using the before and after valuation process as set forth in the Right of Way and Utilities Division's Manual of Instructions' Chapter 4. Approval of value for any LACC shall be by the Director of the Right and Utilities Division at his discretion. Once the compensation enhancement is approved, the Director of the Right of Way and Utilities Division will advise the District Administrator and the Regional Right of Way and Utilities Manager of this determination.

The District Administrator shall ensure that the collection of any consideration, conveyance of control rights, and construction of safety and operational improvements are completed. Typically, the Central Office Right of Way and Utilities Division will collect the consideration and handle any conveyance issues regarding the LACC and/or land. The Right of Way and Utilities Division will prepare any necessary deed conveying or exchanging LACC and/or land as required by circumstance. Many changes in control do not require the conveyance of any rights, etc. Except for the completion of safety and/or operational improvements, no conveyance, right of entry or permit is to be issued until all specifics of the CTB resolution are met and fulfilled (including, the collection of all funds or other compensation owed the Commonwealth for granting the change). The District Location and Design Engineer will, as a minimum, revise the most recent project plans accurately reflecting the area of the change to show all changes effective with the date of the CTB resolution.

Depending upon the conduct and the circumstances in which it occurred, termination may be an appropriate consequence for the first incident. In lieu of termination, less severe action such as a suspension without pay or a demotion may be an alternative.

D. Types of Disciplinary Actions

1. Verbal Warning. An informal verbal communication from a Director or the Town Manager to an employee explaining exactly what conduct is unacceptable and how similar conduct shall be avoided in the future.

3. Suspension. A separation from employment without pay for the purpose of reprimanding an employee for unacceptable conduct. An employee who is suspended without pay shall not accumulate sick or annual leave during the pay periods in which the suspension occurred.

4. Disciplinary Demotion. A disciplinary demotion is the assignment of an employee to a lower-classified position for inappropriate conduct. Demotion may not be used as a disciplinary measure if the employee does not qualify for the position in the lower pay grade, or if the demotion would displace another employee. A disciplinary demotion shall be accompanied by a reduction in pay grade and pay.

5.4. Dismissal. A termination of employment for unacceptable conduct. An employee who is dismissed forfeits all payment for any accumulated annual and sick leave.

E. Notification of Suspension, Demotion, or Dismissal. The written notification concerning an employee's suspension, demotion, or dismissal, shall be delivered in person to the employee while the employee is at work or sent by certified mail to the employee's last known address.
