- b. NAV Board Request for Water Quality Project

Mayor Fouraker said Tara Urbanik from the Orange County NAV Board reached out to the City and asked if the City would be in favor of Curb Inlet Baskets (CIB) being installed in the area near Montmart Dr & Alsace Ct subbasin and the Conway MSTU would fund the installation and future maintenance of the baskets.

Comm Smith said this project is requested to improve lake quality and that the MSTU tax would fund the installation and future maintenance. Comm Gold briefly spoke of other baffle boxes installed in the city.

Comm Carugno said he would have preferred to hear from a NAV Board member on the project. He is unsure if other alternatives exist or if the City will have additional fiscal impacts. In addition, the red lines on the map show areas outside of the City limits that are paid out of the MSTU taxes. He agrees with keeping the lakes clean but is unclear about the process presented.

Attorney Langley said the Council could have the Attorney's office contact Orange County to research whether an ordinance was established regarding the red lines outside the city limits because it may raise a jurisdictional issue.

**Comm Shuck moved forward to approve the Curb Inlet Basket project on Montmart Dr and Alsace Ct and have the MSTU tax fund the installation and future maintenance.**

**Comm Partin seconded the motion, which passed unanimously.**

**The Council consensus was to have the staff, City Manager, and City Attorney ask how the NAV Board spends the MSTU tax dollars and clarify the map boundaries for street sweeping. Comm Lowell asked if the staff could request an invitation to the NAV Board at a future meeting to address some of the council's concerns.**
