CDBG Public Hearing 1

April 29th, 2026 4:30pm

Hunter Potts opened the meeting at 4:30pm.

He explained the rec center application. Money will be used to renovate the fields, landscaping, bathrooms, concessions, lighting, dugouts, add a football field etc. Design phase is underway. This could add \$1.3 million.

Jason Evans added that his children grew up at that field and it's important to make it usable for the community.

John Feeney explained the St. John's sewer improvement application. That lift station is one of the oldest in the city and it needs to be upgraded. With new potential development in the area, upgrades are needed. These improvements will impact the fire protection and house development needed for the area as well.

Jason Evans asked who is doing the construction. John F. told him the developer and the process for that project.

Jason Evans said he's proud to see the growth.

With no further questions, the meeting adjourned at 4:45pm
