Staff Project Summary for Small Scale Future Land Use Map Amendment (2025-04)

City of Bonifay Planning Board

Applicant: David Corbin, Holmes County Administrator, Property Owner

Public Hearing Date: 6PM on Thursday March 13, 2025, and 9AM on Monday March 24, 2025

Parcel Description: THAT PORTION OF THE NW 1/4 BOUNDED ON THE EAST BY HIGHWAY #173 AND BOUNDED ON THE SOUTH AND WEST BY AN EXISTING COUNTY GRADED ROAD, KNOWN AS DEACON ROAD, INTERSECTING WITH HIGHWAY #173 ALL BEING IN SECTION 12, TOWNSHIP 4 NORTH, RANGE 15 WEST, LYING AND BEING IN HOLMES COUNTY, FLORIDA.

PARCEL IDENTIFICATION NUMBER: 1012.00-000-000-001.000

Parcel Size: 57.3 (+/-) acres

Current Future Land Use Designation: Rural Residential (County)

Proposed Future Land Use Designation: 51.6 (+/-) acres of Low Density Residential and 5.7 (+/-) acres of Commercial

Data and Analysis

The small-scale amendment to the Comprehensive Plan changes the future land use category imposed on 57.3 acres, comprised of one parcel of land in the western portion of the City at the intersection of Decon Road and Jenkins Road from “Rural Residential (County)” to “Low Density Residential” and “Commercial.” The purpose of the amendment is to convert the existing vacant land into districts that will allow for more intense development.

Future Land Use Designation: Accompanying this document is a copy of a map showing the proposed changes to the subject parcel as Proposed Future Land Use Map. The map sheet shows the subject parcel with the City’s Low Density Residential and Commercial FLU categories imposed thereon.

The lands abutting the subject project vary in their classifications, and include Estate Residential, Low Density Residential, and Rural Residential (County).

Existing Land Use/Pre-Amendment Conditions: The existing property is vacant.

Proposed Development: The proposed development is to convert the existing vacant parcel into FLU districts that allow for more intense development.

Impacts on infrastructure: These analyses are presented for information only and are not to be used to approve or deny any aspect of the proposed development. The analyses have been provided to confirm the amendment request to the rules and regulations governing Plan amendments. The Analyses are based on the continuation of an auto sales use that was previously in operation.

Note: The comprehensive plan requires that all impacted infrastructure systems have available capacity at established levels of service standards prior to approving any development orders. This will be applied to the development of this property, just as it is for all other development in the City.

Potable Water: This parcel does not have water service, but water is available along both right of ways adjacent to the site. Water service will be provided for the proposed use by the City of Bonifay.

Sanitary Sewer: This parcel is vacant and does not currently have public sewer, but sewer is available from the City of Bonifay within ¼ mile of the property and it will be extended to service the proposed use.

Solid Waste: This parcel is currently vacant and does not produce solid waste. Solid Waste service will be provided by the City of Bonifay for the proposed use.

Compatibility and Suitability

Topography: The site is gently sloping with an average elevation of 150 feet.

Soils: According to the Web Soil Survey of Holmes County, Florida by the USDA, Soil Conservation Service, the property is mostly comprised of soil in the Fuquay Loamy Sand, Dothan Loamy sand, and Orangeburg Loamy Sands. These sands have slopes from 1-8 percent, and are generally well-drained with deep water tables.

Wetlands/Natural Resources: There are inland, freshwater forested/shrub wetlands on or near the subject site area as shown on the Nation Wetlands Inventory map from the USFWS. These wetlands are located on the northwestern corner of the parcel. No endangered, threatened or species of special concern have been identified on the site.

Historical and Archeological Resources: There are no known historic or archeological resources or Master Site File listings anywhere in the vicinity of the parcel.

Areas of Critical State Concern: The proposed site is not within an area of critical state concern.

Recommendation: Based on the review conducted by the City's Consultant Planner John Feeney, PE (Alday-Howell Engineering, Inc.), the Small-Scale Amendment complies with the provisions of the City of Bonifay Comprehensive Plan. Planning staff respectfully requests approval of the Small-Scale Future Land Use Amendment.

The soil surveys that comprise your AOI were mapped at 1:12,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.
