## BRECKENRIDGE CITY COMMISSION AGENDA SUMMARY FORM

**Subject:** Consider approval of Resolution 2026-06 continuing membership in the Steering Committee of Cities Served by Oncor and the 2026 assessment.

**Department:** Administration

**Staff Contact:** Cynthia Northrop

**Title:** City Manager

---

### **BACKGROUND INFORMATION:**

The City of Breckenridge is a member of a 174-member city coalition known as the Steering Committee of Cities Served by Oncor (Steering Committee). The resolution approves the assessment of a ten cent (\$0.10) per capita fee to fund the activities of the Steering Committee.

The Steering Committee undertakes activities on behalf of municipalities for which it needs funding support from its members. Municipalities have original jurisdiction over the electric distribution rates and services within the city. The Steering Committee has been in existence since the late 1980s. It took on a formal structure in the early 1990s. Empowered by city resolutions and funded by per capita assessments, the Steering Committee has been the primary public interest advocate before the Public Utility Commission, ERCOT, the courts, and the Legislature on electric utility regulation matters for over three decades.

The Steering Committee is actively involved in rate cases, appeals, rulemakings, and legislative efforts impacting the rates charged by Oncor Electric Delivery Company, LLC within the City. Steering Committee representation is also strong at ERCOT. It is possible that additional efforts will be necessary on new issues that arise during the year, and it is important that the Steering Committee be able to fund its participation on behalf of its member cities. A per capita assessment has historically been used and is a fair method for the members to bear the burdens associated with the benefits received from that membership.

### **FINANCIAL IMPACT:**

The annual assessment is \$586.80.

### **STAFF RECOMMENDATION:**

Consider approval of Resolution 2026-06 as presented.

## RESOLUTION NO. 2026-06

A RESOLUTION AUTHORIZING CONTINUED PARTICIPATION WITH THE STEERING COMMITTEE OF CITIES SERVED BY ONCOR; AND AUTHORIZING THE PAYMENT OF TEN CENTS PER CAPITA TO THE STEERING COMMITTEE TO FUND REGULATORY AND LEGAL PROCEEDINGS AND ACTIVITIES RELATED TO ONCOR ELECTRIC DELIVERY COMPANY, LLC.

WHEREAS, the City of Breckenridge is a regulatory authority under the Public Utility Regulatory Act (PURA) and has exclusive original jurisdiction over the rates and services of Oncor Electric Delivery Company, LLC (Oncor) within the municipal boundaries of the city; and

WHEREAS, the Steering Committee of Cities Served By Oncor (Steering Committee) has historically intervened in Oncor rate proceedings and electric utility related rulemakings to protect the interests of municipalities and electric customers residing within municipal boundaries; and

WHEREAS, the Steering Committee is participating in Public Utility Commission dockets and projects, as well as court proceedings, and legislative activity, affecting transmission and distribution utility rates; and

WHEREAS, the City is a member of the Steering Committee; and

WHEREAS, the Steering Committee functions under the direction of an Executive Committee which sets an annual budget and directs interventions before state and federal agencies, courts and legislatures, subject to the right of any member to request and cause its party status to be withdrawn from such activities; and

WHEREAS, the Steering Committee at its December 2025 meeting set a budget for 2026 that compels an assessment of ten cents (\$0.10) per capita; and

WHEREAS, in order for the Steering Committee to continue its participation in these activities which affects the provision of electric utility service and the rates to be charged, it must assess its members for such costs.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF BRECKENRIDGE, TEXAS:

## I.

That the City is authorized to continue its membership with the Steering Committee of Cities Served by Oncor to protect the interests of the City of Breckenridge and protect the interests of the customers of Oncor Electric Delivery Company, LLC residing and conducting business within the City limits.

## II.

The City is further authorized to pay its assessment to the Steering Committee of ten cents (\$0.10) per capita based on the population figures for the City shown in the latest TML Directory of City Officials.

## III.

A copy of this Resolution and the assessment payment check made payable to “*Steering Committee of Cities Served by Oncor*” shall be sent to Brandi Stigler, Steering Committee of Cities Served by Oncor, c/o City Attorney’s Office, Mail Stop 63-0300, 101 S. Mesquite St., Suite 300, Arlington, Texas 76010.

PRESENTED AND PASSED on this the 3<sup>rd</sup> day of February 2026, by a vote of \_\_\_\_\_

This past year was an active one for the Steering Committee of Cities Served by Oncor. This Year in Review edition of the OCSC newsletter highlights significant 2025 events and looks ahead to 2026.

## ONCOR 2025 YEAR IN REVIEW

### Oncor Files 2025 Rate Case Ahead of Schedule; Reaches Settlement with OCSC, Other Parties

The OCSC and other interested parties have reached a settlement with Oncor Electric in a rate case under which the Dallas utility seeks to collect an additional \$834 million annually, or approximately 13 over the company's present revenues of \$6.4 billion.

Although the details have yet to be revealed, a letter was filed with the Public Utility Commission on Nov. 13, 2025, stating a settlement with parties has been reached in principle.

If approved without changes, the utility's initial rate request will add approximately \$7 to monthly bills of 1,000 kilowatt hours of use. According to Oncor, that would represent a 4.7 percent bill increase.

Oncor filed for the base rate change on June 26, which was more than a year ahead of schedule. The company indicated it filed early because of "hyper-growth" in its service territory and because it wants to profit from its investments more quickly.

Oncor's rate filing is based on system-wide financial results for the 12-month test year ending on Dec. 31, 2024. If approved without changes, the added \$834 million would represent a 13 percent increase over current annualized revenues of \$6.4 billion, according to the company.

In mid-November, parties to the pending rate case, including municipal and industry intervenors, notified the Administrative Law Judge of the settlement in principle. However, the formal settlement agreement has not yet been filed with the PUC.

Find more information under Docket No. 58306.

### Decatur

With a population of about 6,500, this charming town, about 40 miles northwest of Fort Worth, is named for the naval hero Stephen Decatur. In 1857, a post office was opened, and the first school was established in 1857. Decatur's crown jewel, the Wise County Courthouse, was built in 1896. Decatur also is home to one of the largest auto-swap meets in the nation, held every February at the Wise County Fairgrounds on the southern edge of the city. Area attractions also include the 13,000-acre Lake Bridgeport, offering a host of boating activities and prime fishing as well as an 18-hole golf course in Runaway Bay.

### McGregor

Located in McLennan and Coryell counties, near Waco, McGregor has a population of about 5,800. The town is the site of the former Bluebonnet Ordnance Plant that made munitions during World War II. After the war, the site was used by several rocket-making companies. SpaceX now has a rocket engine development and test facility in McGregor.

### Thorndale

With a population of about 1,400, Thorndale is an incorporated community located in Milam and Williamson counties about 40 miles northeast of Austin. Established in 1878, shortly after the construction of an International-Great Northern Railroad line through the area, Thorndale was named by a railroad employee after the area's abundant thorny vegetation—mesquite thorn, prickly pear, and sagebrush.

## PUC, RRC Implement in 2025 New Utility Laws from the 89th Texas Legislature

During the Texas Legislature's 89th regular session, lawmakers filed more than 250 bills relating to electric and gas utility matters. Of the smaller subset of these bills that made it past the finish line, several must now be expanded upon in rulemaking proceedings at state agencies. Meanwhile, other new laws from the 88th session are still undergoing agency implementation. Below, we highlight ongoing and recently completed rulemakings at the PUC.

**HB 145 by Rep. Ken King** relates to wildfire mitigation plans for electric utilities. On November 14, 2025, the PUC adopted new **16 Tex. Admin. Code § 25.60** and amended existing **16 Tex. Admin. Code § 25.231** to implement this new legislation. The new rules will require each electric utility, municipally owned utility, and electric cooperative that owns a transmission or distribution facility in a wildfire risk area to seek PUC approval of a wildfire mitigation plan and subsequently implement the plan. The PUC additionally modified criteria and conditions related to electric utilities' use of self-insurance reserve funds for damages from a wildfire event. The new rule took effect on December 4, 2025. More information is available on the PUC Interchange under Project No. 56789.

**Senate Bill ("SB") 6 by Sen. Phil King and Sen. Charles Schwertner** was a significant multi-faceted piece of utility legislation from the 89th session. The PUC divided the

necessary rulemakings into different projects based on sections of the bill. Under Section 4 of SB 6, large loads (75 megawatts ("MW") or greater) co-locating behind the meter with new generation resources are required to file a net-metering plan with ERCOT. The PUC approved a Proposal for Publication relating to net metering arrangements on September 18, 2025, and stakeholders filed comments throughout October. Proposed **16 Tex. Admin. Code § 25.205** will apply to net metering arrangements involving a large load and an existing generation resource. The rule will also establish criteria for ERCOT's study of a proposed net metering arrangement and prescribe certain procedural steps. More information is available on the PUC Interchange under Project No. 58479.

Section 2 of SB 6 calls for the establishment of criteria for ERCOT to forecast peak demand for large loads. The ERCOT forecast would then be used for transmission planning and evaluation of resource adequacy. The PUC approved a Proposal for Publication relating to large load forecasting criteria on September 18, 2025, and stakeholders filed comments throughout October. Proposed **16 Tex. Admin. Code § 25.370** will identify the criteria a large load customer must satisfy to be included in the load data submitted to ERCOT for developing the load forecasts contemplated under the new law. More information is available on the PUC Interchange under Project No. 58480.

A third SB 6 rulemaking focuses on reevaluation of the Four Coincident Peak (“4CP”) methodology of transmission cost allocation. The 4CP methodology was intended to equitably allocate transmission costs to those who impact system-wide peak demand the most. Any changes to the 4CP methodology could shift transmission cost responsibility among classes of market participants. Since August 2025, PUC Staff has issued multiple sets of questions for stakeholder input under Project No. 58484. While many respondents recognize a need to modify the 4CP methodology, there appears to be little consensus on the most appropriate method for the PUC to adopt.

Another SB 6 rulemaking focuses on establishing standards for interconnecting large load customers in the ERCOT power region in a manner designed to support business development in this state while minimizing the potential for stranded infrastructure costs and maintaining system reliability. The rule will also ensure that a large load customer who is subject to the standards adopted under PURA § 37.0561 contributes to the recovery of the interconnecting electric utility’s costs to interconnect the large load to the utility’s system. This rule is anticipated to be in place by July 2026. More information is available on the PUC Interchange under Project No. 58481.

A final SB 6 rulemaking relates to the PUC requiring ERCOT to develop a reliability service to competitively procure demand reductions from large load customers with a demand of at least 75 MWs to be deployed in the event of an anticipated emergency condition. No filings have been made yet related to this rulemaking, but more information will be available on the PUC Interchange under Project No. 58482.

**SB 231 by Sen. Phil King** reforms a pre-existing statute related to Temporary Emergency Electric Energy Facilities, known as “TEEEF” or colloquially referred to as “mobile generation.” Throughout September 2025, PUC Staff elicited initial and reply comments on proposed amendments to **16 Tex. Admin. Code § 25.56** under Project No. 58392. The draft rule focused on incorporating new guardrails from the amended law, including the process for PUC approval and parameters around mobility, boot-up time, and maximum generating capacity. As of the end of 2025, no final Proposal for Adoption had been published, but we can expect PUC consideration of a final draft rule in the coming months.

In addition to the above rulemakings arising out of the 89th session, the PUC used the latter half of 2025 to continue implementing new and modified laws from the 88th session. Of note is the implementation of **HB 1500 filed by several authors and known as the 2023 Sunset bill**. One

key feature of HB 1500 was the requirement for renewable resources interconnected after January 1, 2027, to be available during certain high risk and emergency intervals. On December 18, 2025, the PUC adopted Firming Program Requirements for Electric Generation Facilities in the ERCOT Region under new **16 Tex. Admin. Code § 25.65**. In addition to establishing electric generation performance requirements, the rule establishes a framework for ERCOT to impose financial penalties and incentives depending on a generation facility’s failure to comply or success in exceeding requirements. There continues to be discussion on how these requirements may interact with other legislative directions on electric market changes. The rule took effect on January 8, 2026. More information is available on the PUC Interchange under Project No. 58198.

HB 1500 additionally teed up a rulemaking on PUC verbal directives requiring ERCOT to take official action. Proposed new **16 Tex. Admin. Code § 25.368** is meant to codify a statute that prohibits the PUC from verbally directing ERCOT to take an official action – except under limited circumstances. By law, the PUC may direct ERCOT to take an official action only through (1) a contested case; (2) a rulemaking; or (3) a memorandum or written order adopted by a majority vote. The PUC approved a Proposal for Publication relating to Commission directives to ERCOT on November 14, 2025, and stakeholders filed comments in December. More information can be found on the PUC Interchange under Project No. 57883.

The PUC also continues implementing provisions from SB 3, a broad-based law adopted in 2021 in response to that year’s winter emergency that led to statewide power outages. A proposed rule from that 2021 law that remains under consideration relates to the implementation of ERCOT’s Firm Fuel Supply Service, an ERCOT reliability service intended to address reliability during extreme heat and cold weather conditions. The FFSS provides market rewards to generators with on-site fuel. Resources eligible for the service under the authorizing statute, PURA § 39.159, include “on-site fuel storage, dual fuel capability, or fuel supply arrangements to ensure winter performance for several days.” PUC Staff have reviewed rulemaking recommendations filed in the spring by OCSC and other stakeholders, and then on October 23, 2025, proposed new **16 Tex. Admin. Code §25.520**. Under the proposed rule, FFSS eligibility would be expanded to include generators with off-site natural gas storage arrangements. More information can be found on the PUC Interchange under Docket No. 58434.

## Oncor to Develop Scores of Planned Transmission Projects

With the emergence of new energy-hungry cryptocurrency mining operations, AI data centers, and hydrogen-related manufacturing plants, ERCOT finds itself experiencing a surge in energy demand like never before. In 2030, for instance, ERCOT foresees peak demand reaching 150 gigawatts. That's about 80 percent more than this year's peak.

This surge will bring new transmission challenges for ERCOT, and to plan for them, the grid operator employs both its traditional Regional Transmission Planning process and a separate Permian Basin Reliability Plan. The PUC has also called for the deployment of massive new 765-kV transmission lines for the first time ever. These ultra-high-capacity systems will complement the smaller 138 kV and 345 kV lines traditionally used to serve the state's transmission network.

ERCOT, in 2025, released a summary of authorized transmission projects from the latest iteration of its Permian Basin Reliability Plan. This summary, which can be found on the PUC website under Project No. 55718, shows that the Oncor electric utility will be the developer for scores of these facilities. Separately, ERCOT has also released maps showing the general locations of anticipated lines both within the Permian Basin and statewide. We have reproduced clarified versions of those maps that you can find on the [OCSC website, here](#). The original maps can be found in a January 2025 ERCOT document found on the PUC website, also under Project No. 55718.

For the most part the exact routes for all these new lines have not been finalized. That process will be handled by the PUC over the next several years through complex "Certificate of Convenience and Necessity" proceedings that pit the state's power needs against the needs of property owners. Transmission providers and stakeholders — such as municipalities and private citizens — can participate in this process.

## Texas Supreme Court in 2025 Dismisses Bulk of Winter Storm Uri Claims

Oncor, CenterPoint and AEP — the state's three largest electric utilities — have prevailed in a Texas Supreme Court case under which the companies were alleged to have acted negligently during widespread blackouts four years ago.

In a June 27, 2025 order, the Texas high court ruled unanimously that the plaintiffs had not provided enough evidence to show purposeful negligence by the utilities when they cut power during Winter Storm Uri. At the time — the storm occurred in February 2021 — the utilities were acting under ERCOT orders.

"The alleged 'nuisance' here is prolonged freezing temperatures during Winter Storm Uri," Justice Debra Lehrmann wrote. "The allegations do not suggest that the utilities created or exacerbated the cold temperatures or affirmatively maintained them. Rather, the plaintiffs complain that the utilities failed to adequately respond to and mitigate the harm caused by those temperatures. That is not a basis for an intentional-nuisance claim."

Similarly, the court ruled against gross negligence claims by the plaintiffs, although the door was left open for plaintiffs to replead those claims at the Harris County multi-district litigation (MDL) court.

The utilities faced hundreds of lawsuits filed by thousands of customers after mass outages during the Uri. Those lawsuits were consolidated into an MDL proceeding. The February 2021 storm outage killed hundreds of Texans, resulted in billions of dollars in damages, and bankrupted several electric companies.

Oncor spokesperson Roxana Rubio expressed satisfaction that the ruling barred plaintiffs from pursuing six of the seven original causes of action they initially alleged, according to media reports. Ms. Rubio also expressed confidence that the case will "be fully dismissed should the plaintiffs attempt to pursue an allegation of gross negligence" under limitations of set by the high court. However, "we recognize this does not lessen the anguish experienced by our customers and by Texans across the state during that time," she said, according to media reports.

CenterPoint said the company "acted quickly to save the electric grid when demand exceeded supply" as it implemented ERCOT's load-shed orders. "If plaintiffs replead, CenterPoint will continue to vigorously defend against plaintiffs' remaining claim in the trial and appellate courts," the company said, according to media reports.

## 2025 Rate-Case Roundup

### Oncor Receives Another DCRF Rate Increase, Fifth Since 2023

Oncor received another interim rate increase under the Distribution Cost Recovery Factor program — its fifth request since June 2023. With this latest filing, under the PUC Doc. No. 57707, the total of approved or proposed DCRF increases for Oncor since the summer of 2023 comes to about \$484 million.

Under this latest request, filed with the PUC on Feb. 15, the company initially proposed to increase revenues by \$107,637,154. Under the final order, approved on April 24, 2025, the increase instead will be \$106,335,049 — or \$1,302,105 less than initially sought by Oncor. Even still, however, the increase remains the second-largest DCRF adjustment since the company received \$152,508,937 under its June 2023 request in PUC Doc. No. 55190.

In the latest filing, the per-customer DCRF charge will increase from \$.004443 per kilowatt hour approved in its most recent DCRF to \$.005772.

The repeated rate hikes are a result of state laws adopted in 2011 and 2023 that created and then modified the DCRF ratemaking process. Under it, transmission and distribution utilities can file for rate increases at the Public Utility Commission to recover capital expenditures on their distribution systems in an expedited fashion.

Under DCRF rules, the PUC reviews the rate requests in an accelerated fashion, and interested parties, such as the Steering Committee of Cities Served by Oncor, can intervene in those reviews.

Details of Oncor's four recent rate filings include:

## 2025 Transmission-Only Rate Cases

OCSC defended consumer interests during 2025 in several rate cases filed by major transmission-only electric utilities. Under ERCOT rules, transmission charges are borne by residential, commercial, and industrial customers.

- **Cross Texas Transmission (“CTT”):** CTT filed a statement of intent to change rates and tariffs on Jan. 14, 2025, where it sought a revenue requirement of \$76,506,194, representing an approximately 7.05% increase over its currently approved revenue requirement. Cross Texas also asked for a return on equity (“ROE”) of 10.6 percent. OCSC and other stakeholders conducted discovery and filed testimony. After discussions with Cross Texas and the other parties, all parties reached a settlement agreement resulting in a revenue requirement of \$72,631,149 and ROE of 9.60 percent. The PUC approved the rates, terms, and conditions set forth in the settlement agreement on September 11, 2025. More information can be found under PUC Docket No. 57467.
- **Wind Energy Transmission Texas (“WETT”):** WETT filed a statement of intent to change rates and tariffs on Dec. 3, 2024, seeking a revenue requirement for the provision of electric transmission service in Texas of \$136,602,978, an increase of \$15,949,204 over the utility’s adjusted test year revenues. WETT also requested a return on equity of 10.5 percent. OCSC and other stakeholders conducted discovery and filed direct testimony. After discussions with WETT and the other parties, all parties reached a settlement agreement resulting in a revenue requirement of \$130,631,220 and ROE of 9.6 percent. The PUC approved the rates, terms, and conditions set forth in the settlement agreement on June 20, 2025. More information can be found under PUC Docket No. 57299.
- **Electric Transmission Texas:** On Jan. 31, 2025 Electric Transmission Texas filed an application to change its rates and tariffs. ETT is a transmission-only utility that owns over 2,000 miles of transmission throughout the ERCOT region, including the Lower Rio Grande Valley and the Texas Panhandle. In its application, ETT sought a revenue requirement of approximately \$426.3 million — an increase of \$56.6 million over its test year revenue. In addition, ETT requested a 10.6 percent return on equity. Parties, including the OCSC, entered settlement negotiations over this proposed rate increase and agreed instead on a \$36.3 million decrease. Parties also agreed to a return on equity of 9.6 percent. The PUC adopted the order on Oct. 2. More information can be found under PUC Docket No. 57518.

**Staff Contact:** Cynthia Northrop

**Title:** City Manager

---

**BACKGROUND INFORMATION:**

Our Auditors have completed the annual audit for FY 2024/2025 and will make a presentation.

**FINANCIAL IMPACT:**

\$29,000 (budgeted expense)

**STAFF RECOMMENDATION:**

Consider acceptance of the annual audit 2024/2025.

January 27, 2026

Honorable Mayor and City Commission Members  
City of Breckenridge

Ladies and Gentlemen:

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Breckenridge, Texas for the year ended September 30, 2025. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated April 30, 2025. Professional standards also require that we communicate to you the following information related to our audit.

**Significant Audit Findings**

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City of Breckenridge, Texas are described in Note 1 to the financial statements. The City changed accounting policies related to compensated absences by adopting Statement of Governmental Standards (GASB Statement) No. 101 Compensated Absences, in 2025 as described in Note 16 to the financial statements. We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We evaluated key factors and assumptions used to develop estimates in determining it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent and clear.

*Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management.

Management has corrected all such misstatements. The attached list of misstatements detected as a result of audit procedures were corrected by management.

### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting or auditing matter, whether or not resolved to our satisfaction that could be significant to the City's financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated January 27, 2026.

### *Management Consultation with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We applied certain limited procedures to the Management's Discussion and Analysis, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, Schedule of Changes in Net Pension Liability and Related ratios – Texas Municipal Retirement System, Schedule of Contributions – Texas Municipal Retirement System, and Schedule of Changes in Total OPEB Liability and Related Ratios, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining fund statements, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the other supplementary information, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the City Commission and management of the City of Breckenridge, Texas, and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

GEORGE, MORGAN & SNEED, P.C.

## INDEPENDENT AUDITOR'S REPORT

Members of the City Commission  
City of Breckenridge, Texas

### Report on the Financial Statements

#### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Breckenridge, Texas (the "City"), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material aspects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2025, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Breckenridge, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considering the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-15, budgetary comparison – general fund, schedule of changes in net pension liability and related ratios, schedule of contributions, and schedule of changes in total OPEB liability and related ratios on pages 52 - 58 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or

provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

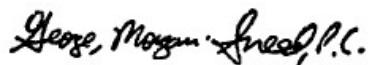

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprised the other supplementary information listed in the table of contents but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2026 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of The City of Breckenridge, Texas, we offer readers of The City of Breckenridge's financial statements this narrative overview and analysis of the financial activities of The City of Breckenridge for the fiscal year ended September 30, 2025.

### **FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of resources of the City of Breckenridge exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$29,639,357 (*net position*) compared to net position of \$28,286,568 for the prior year. Unrestricted net position which may be used to meet the City's ongoing obligations to citizens and creditors was \$6,447,219 at year end.
- The City's total net position increased by \$1,711,067. The City's operations increased the governmental activities net position by \$1,332,124 and increased the business-type activities net position by \$378,943.
- As of the close of the current fiscal year, the City of Breckenridge's governmental funds reported combined ending fund balances of \$8,739,143. This compares to an ending fund balance of \$11,125,569 in the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$2,222,019, or 45% of total general fund expenditures. This compares to an unassigned fund balance of \$1,938,658 in the prior year.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The City's annual financial report consists of three components 1) management's discussion and analysis, 2) the basic financial statements (government-wide financial statements, fund financial statements and notes to the financial statements) and 3) supplementary information.

#### **Government-wide financial statements.**

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how they have changed. Net position – the difference between the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the City's financial health or position.

- Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). All of the City's services are included here, such as general government, public works and safety, and community services in the governmental activities and water, wastewater, and sanitation in the business-type or proprietary activities.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate component unit: Breckenridge Economic Development Corporation ("BEDC") for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on Exhibits A-1 and B-1 of this report.

### **Fund financial statements.**

The fund financial statements provide more detailed information about the City's most significant funds—not the City as a whole. Funds are used by the City to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Commission establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds.** Most of the City's basic services are included in governmental funds, which focus on (1) short-term inflows and outflows of spendable resources and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide a reconciliation that explains the relationship (or differences) between them.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and general capital projects fund, which are considered major funds. Data from the other governmental funds are combined into a single, aggregated

presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for all funds. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on Exhibits C-1 through C-4 of this report.

**Proprietary funds.** Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. The City maintains one type of proprietary funds. The City uses enterprise funds to account for its water, wastewater, sanitation services, and trade day events. The basic proprietary fund financial statements can be found on Exhibits D-1 through D-3 of this report.

**Notes to the financial statements** provide additional information that is necessary for a complete understanding of the data provided in the government-wide and fund financial statements.

**Supplementary information** further explains and supports the information in the financial statements.

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$29,630,357 as of September 30, 2025.

The largest portion of the City's net position (73%) reflects its investment in capital assets (e.g. land, buildings and improvements, vehicles and equipment, infrastructure and water and wastewater systems); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (6%) represents resources that are subject to external restrictions on how they may be used. Unrestricted net position that may be used to meet the government's ongoing obligations to citizens and creditors was \$6,447,219 at the end of the year.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for its governmental and business-type activities and its component unit.

Below is a summary of the City's Statement of Net Position.

**Governmental Activities.** Governmental activities increased the City's net position by \$1,332,124 in the current year. Total governmental activities revenues increased by \$108,645. Property taxes increased \$134,136 due to a \$16 million increase in property values and decrease of \$0.01 of tax rate. Total governmental activities expenses increased \$479,873 (9%). The largest increase was salaries and benefits in public safety due to being closer to full staff. Below are two graphs summarizing governmental revenue and expense:

**Business-type activities.** Business-type activities increased the City's net position by \$378,943. The business-type activities total revenues decreased \$18,323 and total expenses increased \$129,161. Charges for service decreased \$67,692 primarily because less gallons of water were sold. Capital grants and contributions increased \$136,356. The largest increase in expenses was depreciation expense.

Below are two graphs summarizing business-type activities revenue and expense:

## Financial Analysis of the Government's Funds

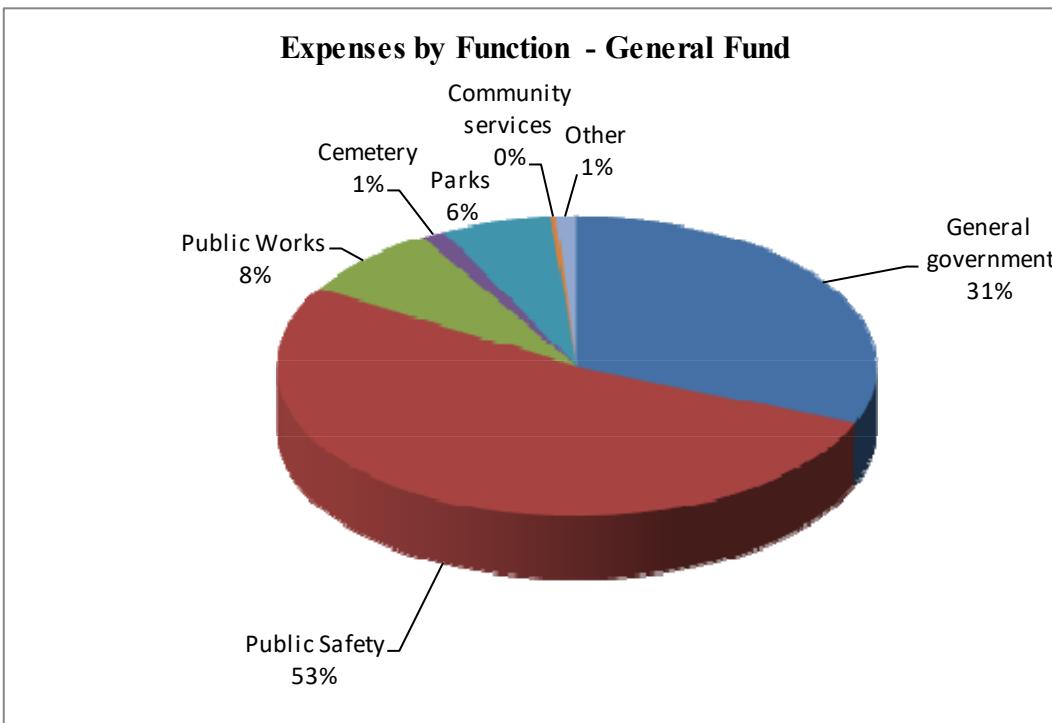

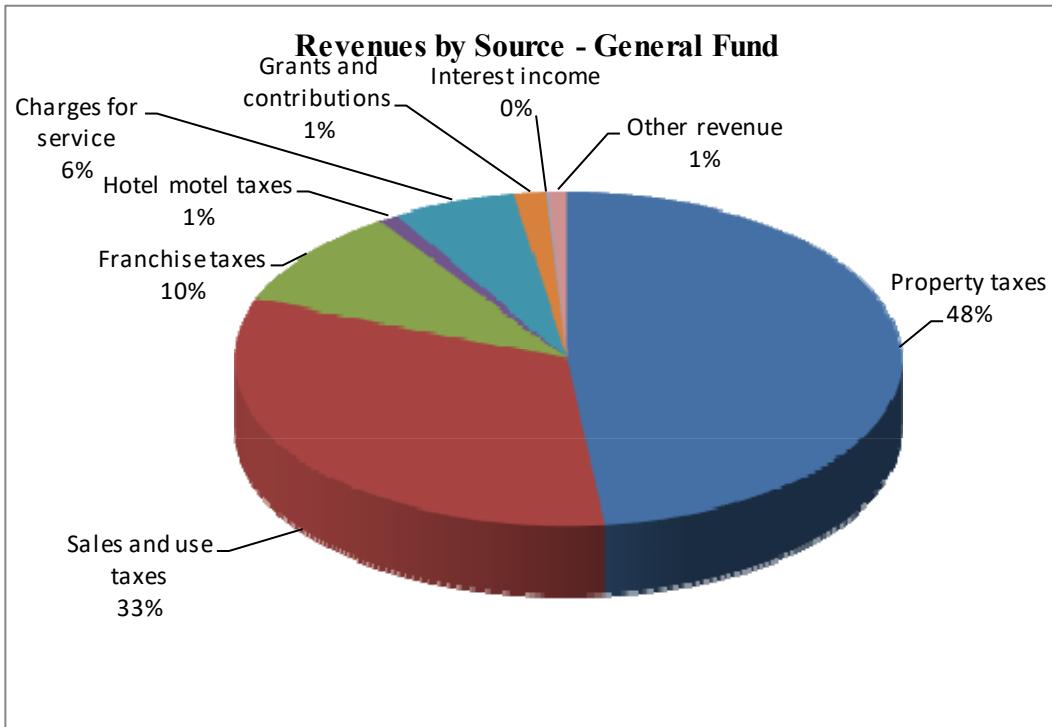

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At year end, the City's governmental funds reported combined ending fund balances of \$8,739,143. \$2,222,019 (25%) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is either restricted, committed or assigned. The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2,222,019. Below is a comparison of the general fund's net change in fund balance for 2025 and 2024.

**Proprietary funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water Fund, Wastewater Fund, Sanitation Fund, and Trade Days Fund at the end of the year amounted to \$4,174,820. The total change in net position was \$378,943. Other factors concerning the finances of this fund have already been addressed in the discussion of the City's business-type activities.

## General Fund Budgetary Highlights

During the year, the City amended its budget. General fund budgeted revenues increased \$146,933. Actual revenues were \$28,137 more than budgeted. Budget amendments increased expenditures \$94,913. Actual expenditures of the general fund were \$250,916 less than budgeted.

## Capital Assets

The City's investment in capital assets for its governmental and business type activities as of September 30, 2025, amounts to \$32,290,063 (net of accumulated depreciation). Major capital asset events during the current fiscal year included the following:

No direct funded debt limitation is imposed on the City under current state law or the City's Home Rule Charter. More detailed information about the City's debt is presented in the notes to the Financial Statements.

### Economic factors and the Next Year's Budgets and Rates

The City's elected and appointed officials considered many factors when setting the fiscal year 2026 budget, tax rate, and fees that will be charged for the governmental and business-type activities. The major factor affecting all decisions is the changing economy within the framework of the national economic recovery. Along with the rest of the nation, Breckenridge only saw a minimal increase in sales and hotel occupancy taxes. In addition, the local oil and gas industry continues to struggle and remains very volatile. Based on these two factors, sales tax projections remained flat for the fiscal year 2026 budget.

The City prides itself on a quality school district and "hometown" atmosphere. The Breckenridge Economic Development Corporation (BEDC) works to attract businesses with relocation incentives as well as business retention incentives such as workforce training opportunities in coordination with the school district and Texas State Technical College. The BEDC receives one-fourth of the sales tax collected and remitted to the City to support these growth and development initiatives. The City of Breckenridge considered these factors when adopting the General Fund budget for fiscal year 2026. The budgeted revenues for fiscal year 2026 total \$5,606,124 for the General Fund, which is a \$274,385 or 5.14% increase from the previous fiscal year budget. Ad valorem tax revenue is determined by two factors – the total assessed value established by the Stephens County Appraisal District and the tax rate established by the Breckenridge City Commission. The property tax rate for the budgeted year decreased by 0.01 cents to \$1.02893 per hundred dollars of assessed value for 2025. Certified taxable property value is \$312,124,764. This is a 4.26% increase over the last year's values, or \$12 million.

**CITY OF BRECKENRIDGE, TEXAS**  
**Notes to Financial Statements**  
**September 30, 2025**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City operates under a Home Rule/Commission/Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highway and streets, sanitation, social services, public improvements, planning and zoning, parks and recreation, and general administration services. Other services include water production and distribution and sewer disposal.

The reporting entity consists of the City of Breckenridge, Texas ("City") and its component unit. Component unit are legally separate entities for which the City is financially accountable or other organizations whose nature and significant relationship with the City are such that the exclusion would cause the City's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either the City's ability to impose its will on the organization or there is potential for the organization to provide a financial benefit to or impose a financial burden on the City.

The financial statements include one discretely presented component unit which has a September 30 year-end. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

*Discretely Presented Component Unit*

The Breckenridge Economic Development Corporation (the "BEDC") was incorporated under the Development Corporation Act of 1979 (the "Act"), with the approval of the City. The purpose of the BEDC is to promote the economic development of the City of Breckenridge through the use of a  $\frac{1}{2}\%$  4B sales tax approved by the voters of the City. The BEDC receives its authority from the City of Breckenridge. While legally separate from the City, it is reported as part of the reporting entity under the discretely presented method because the City's elected officials are financially accountable for the BEDC. The City has the authority to appoint board members and approve budgets and contracts. The City is the sole beneficiary of the BEDC and will receive the remaining assets and assume the remaining liabilities upon termination. Readers can find separately issued financial statements for the Breckenridge Economic Development Corporation at the Chamber of Commerce, 100 East Elm Street, Breckenridge, Texas 76424.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**Notes to Financial Statements**  
**September 30, 2025**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Separate financial statements are provided for governmental funds and proprietary funds. Major individual funds and individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting and Basis of Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers all revenues available if they are collected within 60 days after year-end. Expenditures generally are recorded when the related fund liability is incurred, however, debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, charges for service, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the government receives payment.

The accounts of the City are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *general debt service fund* was established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated.

The *general capital projects fund* is used to account for bonds proceeds issued for capital projects.

The City reports the following major proprietary funds:

The *water fund* is used to account for the operation of the water utility.

The *wastewater fund* is used to account for the operation of the wastewater utility.

The *sanitation fund* is used to account for the operation of residential trash.

**Notes to Financial Statements**  
**September 30, 2025**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges and transfers between the governmental activities and the business-type activities, which cannot be eliminated.

Amounts reported as program revenues include 1) charges for customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds, distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund and wastewater fund are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**D. Financial Statement Amounts**

**1. Deposits and Investments**

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments that are highly liquid with maturity within three months or less when purchased.

**2. Receivables and Payables**

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance for the general fund of \$143,793 and the general debt service fund of \$52,122 is equal to 50% of outstanding delinquent property taxes at September 30, 2025. The court fines and fees receivable is reported net of an allowance of \$50,121 which is 50% of the outstanding receivable. Trade accounts receivable in the enterprise funds are reported net of an allowance of \$157,460 which is the accounts aged over 60 days. The Breckenridge Economic Development Corporation notes receivable are reported net of an allowance of \$32,854 which is based on historical experience and collectability.

**3. Property Tax**

Ad valorem property taxes are levied each October 1 from valuations assessed as of the prior January 1 for all real and business personal property. Taxes are due on receipt of the tax bill and are delinquent if not paid before the following February 1. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**4. Inventory**

The City's water fund inventory is recorded under the purchase method. Under the purchase method the inventory is first recorded as an expense when purchased and then adjusted at the end of the year to reflect the value of inventory at that date. Inventories held by the water fund are priced at the lower of cost or market on the first-in, first-out method.

**5. Capital Assets**

Capital assets, which include property, plant and equipment, and infrastructure assets, are reported in the applicable governmental activities or business-type activities columns in the government-wide financial statements and in the proprietary funds financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant and equipment of the primary government and proprietary funds are depreciated using the straight-line method over the following estimated useful lives.

Infrastructure	30 - 50 years
Building	50 years
Building improvements	20 years
Vehicles	2 - 15 years
Office equipment	3 - 15 years
Computer equipment	3 - 5 years

The City has reported infrastructure capital assets acquired prior to the implementation of GASB Statement No. 34 at estimated historical cost.

**6. Compensated Absences**

Regular full-time employees earn vacation, sick leave and compensatory time in accordance with City guidelines. Vacation, sick pay and compensatory time benefits are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

In accordance with GASB Statement No. 101, *Compensated Absences*, the City recognizes a liability for compensated absences when the leave is earned, rather than when it is taken or paid. Vacation leave that is payable upon separation are measured at 100% of the amount earned using the employee's pay rate in effect at year-end. Sick leave is recognized to the extent it is expected to result in a payout, based on the City's eligibility rules and historical payout experience. Employees are permitted to use compensatory time within a reasonable period after making a request.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**7. Long-term Obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are expensed when they are incurred and are no longer amortized over the term of the related debt. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**8. Use of Estimates**

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and report amounts of revenues and expenses during the period. Actual amounts could differ from those estimates.

**9. Fund Balances – Governmental Funds**

In accordance with GASB No. 54, the City classified fund balances in the governmental funds as follows:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to formal action by City Commission, the City's highest level of decision making authority. Commitments may be modified or rescinded only through formal action of City Commission.

Assigned – includes amounts that the City intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the City's adopted policy, amounts may be assigned by the City Manager and the City Secretary.

Unassigned – All amounts not included in other spendable classifications.

When expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been first spent out of committed funds, then assigned, and finally unassigned as needed.

**10. Use of Restricted/Unrestricted Net Position**

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the City's policy is to apply restricted net position first.

**11. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**NOTE 2: DEPOSITS AND INVESTMENTS**

The City of Breckenridge investment policies and types of investments are governed by the State Public Funds Investment Act (the "Act"). The Act authorizes the City to invest, with certain restrictions, in obligations of the U.S. Treasury or the State of Texas, certain U.S. agencies, certificates of deposit, money market savings accounts, certain municipal securities, repurchase agreements, banker's acceptances, mutual funds and investment pools. The City's management believes that it complied with the requirements of the Act and the City's investment policies.

**CITY OF BRECKENRIDGE, TEXAS**  
**Notes to Financial Statements**  
**September 30, 2025**

**NOTE 2: DEPOSITS AND INVESTMENTS (continued)**

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City's funds are required to be deposited and invested under the terms of a depository contract. The City's deposits are required to be collateralized with securities held by the pledging institution's trust department or agent in the City's name. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") Insurance. The BEDC's deposits are secured by a pledge of securities and FDIC Insurance in BEDC's name. At September 30, 2025, the City's and BEDC's deposits were fully collateralized and insured.

Credit Risk– Investments

The City controls credit risk by limiting its investments to those instruments allowed by the State Public Funds Investment Act described above.

Interest Rate Risk – Investments

As a means of limiting its exposure to interest rate risk, the City diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer. The City coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years from the purchase date.

The City's fiduciary funds (Cemetery Perpetual Care Trust Fund) are invested in accordance with the provision of a trust agreement. These funds are invested by the trustee according to Section 113.056 of the Texas Trust Code. The City has the following types of investments:

Investment	Credit Rating	Cost	Fair Value	Percentage of Total Investments	Investment Maturities (in Years)			
					Less than 1 year	1-5 Years	6-10 Years	Over 10 Years
Cash	N/A	8,340	8,340	0.16%	8,340	-	-	-

Investment Valuation

All securities are stated at fair value as reported by the City's portfolio manager. For securities traded on a major exchange, market values are priced as of the statement date, September 30, 2025, as provided by various pricing services (Level 1 inputs). The method and frequency of pricing assets not traded on major exchanges varies depending on the type of assets (Level 2 inputs); therefore, the market value may not be a current value as of the statement date.

**CITY OF BRECKENRIDGE, TEXAS**  
**Notes to Financial Statements**  
**September 30, 2025**

**NOTE 3: RESTRICTED ASSETS**

The following cash and investments in the government-wide statement of net position are restricted for the following purposes:

	<u>Cash</u>
Business-type Activities	
Customer water deposits	\$ 294,531
Construction - water fund	3,601,407
Construction - wastewater fund	<u>4,308,371</u>
	<u>\$ 8,204,309</u>

\$8,020,429 of the City's restricted cash balances are held in escrow accounts that investment in government securities money market funds. These funds were deposited in these escrow accounts pursuant to an agreement with the Texas Water Development Board. The escrowed funds are kept in separate accounts and can only be disbursed or withdrawn to pay the costs of approved projects and solely upon written authorization from the Texas Water Development Board.

**NOTE 4: DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify in this category. They are deferred outflow related to TMRS pension and deferred outflows related to TMRS OPEB reported in the government-wide statement of net position and proprietary funds statement of net position.

In addition to liabilities, the statement of financial position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resource (revenue) until that time. The City has three types of items in this category. Unavailable revenues for governmental funds and deferred inflows related to pensions and deferred inflows related to OPEB in the government-wide statement of net position and propriety funds statements are reported as deferred inflows of resources. The BEDC has deferred inflows related to leases. At the end of the fiscal year the components of deferred inflows in the governmental funds were as follows:

**Contributions**

The contribution rates for members in TMRS are either 5%, 6%, or 7% of the member's total compensation, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City were 8.62% and 8.54% in calendar years 2025 and 2024, respectively. The city's contributions to TMRS for the year ended September 30, 2025, were \$277,107, and were more than the required contributions.

**Net Pension Liability**

The City's Net Pension Liability (NPL) was measured as of December 31, 2024, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

*Actuarial Assumptions:*

The Total Pension Liability in the December 31, 2024, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

**NOTE 12: DEFINED BENEFIT PENSION PLANS – (Continued)**

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with 110% of the Public Safety table used for males and 100% of the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by the most recent Scale MP-2021 to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and a 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by the most recent Scale MP-2021 to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2018 to December 31, 2022. The assumptions were adopted in 2023 and first used in the December 31, 2023, actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined by best estimate ranges of expected returns for each major asset class. The long-term expected rate of return is determined by weighting the expected return for each major asset class by the respective target asset allocation percentage. The target allocation and best estimates of the expected rate of return for each major asset class in fiscal year 2025 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return (Arithmetic)
Global Equity	35.00%	7.10%

*Discount Rate*

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

**NOTE 13: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

**A. Plan Description**

Texas Municipal Retirement System (TMRS) administers an optional death benefit plan, the Supplemental Death Benefits Fund (SDBF), which operates like a group-term life insurance plan. This is a voluntary program in which participating member cities may elect, by ordinance, to provide supplemental death benefits for their active members with optional coverage for their retirees. The death benefit for active members provides a lump-sum payment approximately equal to the member's annual salary (calculated based on the member's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an other postemployment benefit (OPEB) and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e., no assets are accumulated).

The participating city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is based on the mortality and service experience of all employees covered by the SDBF and the demographics specific to the workforce of the city. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. As such, contributions fund the covered active Member and retiree deaths on a pay-as-you-go basis.

**B. Benefits Provided**

At the December 31, 2024 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	33
Inactive employees entitled to but not yet receiving benefits	11
Active employees	63
	<hr/> 107

**C. Total OPEB Liability**

The City's total OPEB liability was measured as of December 31, 2024, and was determined by an actuarial valuation as of that date.

*Actuarial Assumptions:*

The Total OPEB Liability in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.60% to 11.85% including inflation
Retirees' share of benefit related costs	\$0

All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.

**NOTE 13: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) – (Continued)**

Mortality rates for service retirees were based the 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).

Mortality rates for disabled retirees were based the 2019 Municipal Retirees of Texas Mortality Tables with a 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence) to account for future mortality improvements subject to the floor.

The actuarial assumptions used in the December 31, 2024 valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

*Discount Rate:*

The discount rate used to measure the Total OPEB Liability was 4.08%. The discount rate was based on Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2024.

**NOTE 14: CONTINGENT LIABILITIES**

**A. Federal and State Programs**

Federal and state funding received related to various grant programs are based upon periodic reports detailing reimbursable expenditures made, in compliance with program guidelines, to the grantor agency. These programs are governed by various statutory rules and regulations of the grantors. Amounts received and receivable under these various funding programs are subject to periodic audit and adjustment by the funding agencies. To the extent, if any, the City has not complied with all the rules and regulations with respect to performance, financial or otherwise, adjustment to or return of fund monies may be required.

As it pertains to other matters of compliance, in the opinion of the City's administration, there are no significant contingent liabilities relating to matters of compliance and accordingly, no provision has been made in the accompanying financial statements for such contingencies.

**B. USDA Loan Program**

The Breckenridge Economic Development Corporation (BEDC) has in the past received funds from the USDA for a loan program to allow BEDC to assist new businesses with low interest loans. There are no reporting requirements on the use of the funds; however, the funds are required to be maintained intact with interest earned for the loan program. To the extent, if any, the BEDC has not complied with all the rules and regulations return of fund money may be required.

**NOTE 15: SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS**

GASB Statement No. 96, Subscription-Based Information Technology Arrangements was effective beginning the fiscal year ended September 30, 2025. The City has entered into subscription-based information technology arrangements involving:

- A SCADA (Supervisory Control and Data Acquisition) watch service suite regarding the Agency's water system.
- Various desktop and server software subscriptions
- Accounting and payroll services software
- Work order and code enforcement software
- Police and dispatch
- Emergency notification system

The City has outflows of resources during the fiscal year totaling \$95,063 that are not included in the measurement of a subscription liability. The City's software subscriptions are not commitments longer than twelve months therefore a subscription liability is not calculated.

**NOTE 16: NEW ACCOUNTING PRONOUNCEMENTS**

The City implemented GASB Statement No. 101, *Compensated Absences* for the fiscal year ended September 30, 2025. This Statement requires governments to recognize a liability for compensated absences when leave benefits are earned, rather than when the leave is taken or paid. The Statement also requires governments to incorporate expected payout estimates for leave that is payable only under certain conditions.

During implementation, the City evaluated its policies for vacation and sick leave. Under City policy, employees' vacation and sick time are payable upon separation from service. The City reviewed historical separation patterns and past sick leave payouts to estimate the portion of sick leave expected to result in payment.

Implementation of the Statement resulted in the compensated absences liability being measured using employee pay rates in effect at year-end, expected payout percentages for sick leave, and applicable salary related costs such as the City's share of payroll taxes. As a result of adopting this Statement, the City's compensated absences liability increased \$358,277.

Notes to the Required Supplementary Information  
For the Year Ended September 30, 2025

Budget

Annual operating budget is adopted on a basis consistent with generally accepted accounting principles for all general fund, special revenue, capital projects and proprietary funds. All annual appropriations lapse at fiscal year end.

The City Commission follows these procedures in establishing budgetary data reflected in the financial statements.

- a. The City Commission prior to October 1 formally adopts the City's budget at a duly advertised public meeting and before expenditure of funds for the budget year. The budget is legally enacted by the adoption of an ordinance.
- b. The budget may be amended with the approval of a voting majority of the members of the City Commission. The budget was amended once during the year.
- c. Budgetary control is maintained at the fund level, subject to adjustments permitted as described above.

Excess of Expenditures over Appropriations

Debt Service expenditures exceeded the budget in the general fund, however total expenditures were \$250,916 less than budgeted.

Members of the City Commission  
City of Breckenridge, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Breckenridge, Texas (the "City") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated January 27, 2026.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for determining audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## BRECKENRIDGE CITY COMMISSION AGENDA SUMMARY FORM

<b>Subject:</b>	Discussion and any necessary action regarding adoption of Ordinance No. 2026-03 Repealing Existing Zoning Regulations in Chapter 22 of the Breckenridge Code of Ordinances and Enacting a new Chapter 22, Zoning, to Establish New Zoning Districts, New Zoning Regulations for Uses of Property in all Zoning Districts, and Adopt a New Zoning Map.

### BACKGROUND INFORMATION:

The City of Breckenridge received a grant in 2022 to update its Comprehensive Development Plan, which had not been updated since the 1960s. After months of meetings, including public meetings, P&Z, and City Commission meetings, the P&Z recommended approval, and the City Commission adopted the updated Comprehensive Development Plan (July 2024). The next step in that process is the updating of our Comprehensive Zoning Ordinance. The City has hosted two public meetings, P&Z has discussed the Zoning Update several times, and as held two Public Hearings (January 5, 2026 and February 2, 2026).

After reviewing several options, the P&Z is recommending City Commissioner approval of XXX.

Much of their deliberations have centered on the sum acreage allowed for Manufactured Housing.

Currently, MHs are allowed in Residential 4 (R4) and all commercial zoning. Based on best practices for zoning and in alignment with our updated Comprehensive Development Plan and our Strategic Plan to beautify Breckenridge as well as to provide housing diversity, like uses and paying attention to graduating uses (i.e., commercial or industrial not right next to residential areas, generally) we are separating out residential uses; Single Family, Duplex, Townhomes, Manufactured homes.

Sum Acreage by zoning class (MH):

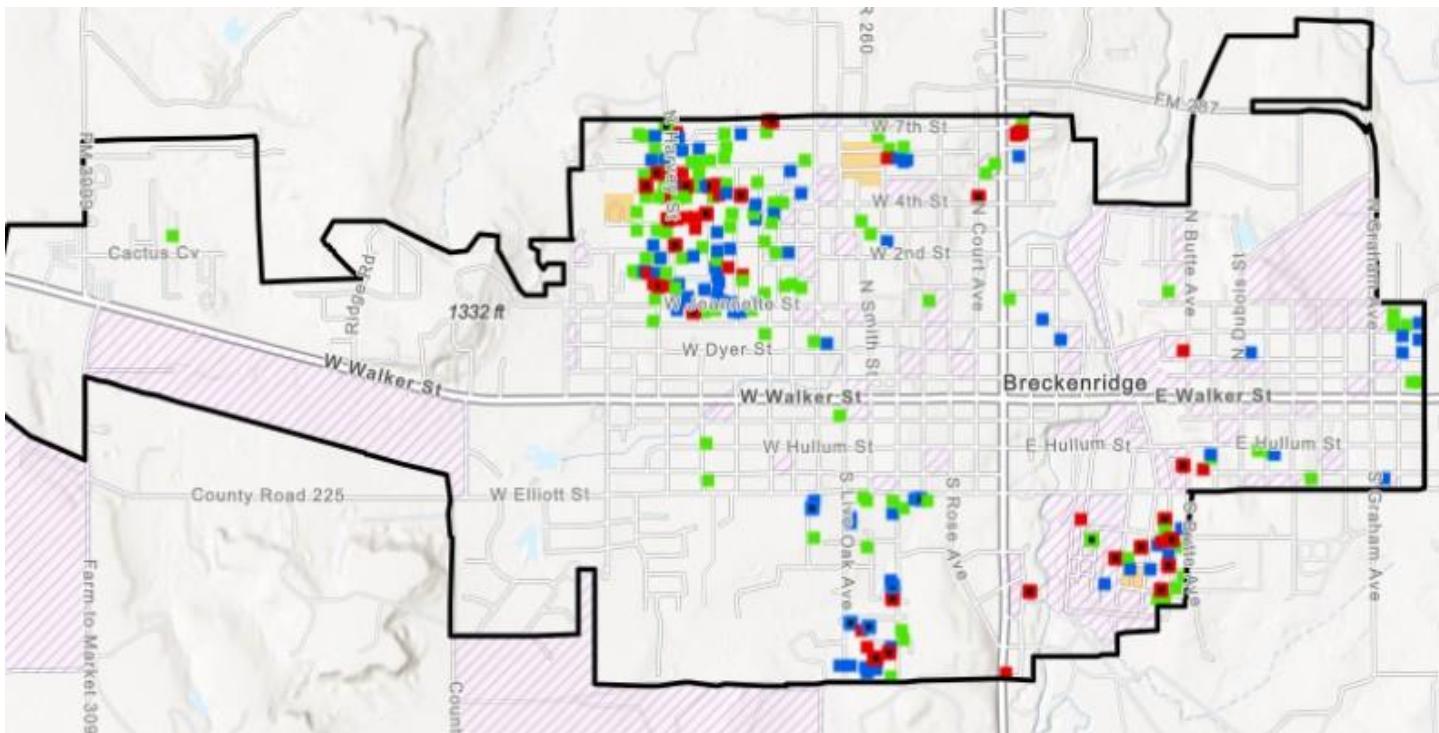

Current – 1.8% (Comprehensive Development Plan pg. 33)  
 Option 1 (current draft option) - 2.45%  
 Option 2 – 5.88%  
 Option 3 – 9.73%

The following map is a heat map (included in our Comprehensive Development Plan) of existing MH. The color code legend is as follows:

Green = Standard  
 Blue = Deteriorated  
 Red = Dilapidated

(those colors with solid black square in the color denote vacant)

At the time of the onsite inventory conducted by Public Management, there were a total of 236 MH; of those 103 were in standard condition, 74 were in deteriorated condition and 24 were dilapidated condition.

### **BACKGROUND INFORMATION:**

The City received a Downtown Revitalization grant for \$500,000 for sidewalk improvements at Rose Avenue and Elm Street. The construction contract came in lower than expected which has allowed us to use left over funds to pave Elm Street from Rose Avenue to McAmis. That is also the location of water line improvements currently underway through the TWDB DWSRF project. That project is also underway and they are starting the water line replacement for W. Elm with the section between Rose and McAmis first, so we can immediately follow up with the pavement project using left over funds from the Downtown Revitalization project.

A Request for Proposals was issued and the engineers are recommending awarding the project to the lowest and best bid; XXXXX.

## PRESENTATION SUMMARY

The City of Breckenridge received Grant Contract CDV25-0207 the amount of \$750,000, funded through the Community Development Block Grant, via the U.S. Department of Housing and Urban Development and Texas Department of Agriculture, for the purpose of street improvements.

The overall purpose of Section 3 is to facilitate contract and employment opportunities for low and very low-income workers, specifically those that live close to the project location. To report on these efforts, the presentation details new reporting requirements and other efforts to increase Section 3 participation in the CDBG program.

HUD instituted new Section 3 policy requirements (24 CFR 75), effective November 30, 2020.

In July 1, 2021, TDA implemented the final rule for all existing and future construction CDBG grants. As part of these requirements, each grant recipient is required to review and discuss a Section 3 Presentation during a meeting of its governing body.

The additional pages dive deeper into Section 3 concepts, definitions for Section 3 businesses and workers, contractor outreach recommendations for new hires, and recordkeeping requirements pertaining to the grant.

Going forward, the grant administrator (Public Management, Inc) will coordinate with all parties to:

- Monitor public postings and contractor requirements pertaining to Section 3 provisions
- Track the number of hours of anyone who works on the grant project, including
  - Local government employees (i.e., City secretary, City Administrator, Public Works, WSC Operators, etc)
  - Construction contractor's laborers and staff
  - Grant administration employees.
  - \*Engineers, surveyors, and other professionals are exempt for hourly reporting requirements

There is no action required tonight. This presentation is simply required in order to meet the documentation required for the TDA grant. Please reach out to your grant administrator with any questions on these changes.

This project is expected to include the following contracting opportunities:

- Grant Administration services (previously selected)
- Engineering Services (previously selected)

For this project, that **service area** is defined by the circled area in the map below:

## RECORDKEEPING

The city is required to track ALL hours worked on the project based on the three categories of workers (All, Section, 3 and Targeted Section 3). This requirement applies to all city staff that works on this grant, including the contracted grant administrator, and all employees of the prime and subcontractors.
