C. 2023-2031 Housing Element Update: Preview of goals, policies, and programs of the draft 2023-2031 Housing Element.

MEMORANDUM

DATE: July 28, 2022
 TO: Planning Commission
 FROM: Planning Staff *KA KJ*
 SUBJECT: **Workshop - 2023-2031 Housing Element Update: Goals, Policies and Programs Session 2**

OBJECTIVE

The purpose of tonight's workshop is to preview the preliminary draft goals, policies, and programs of the 2023-2031 Housing Element and receive feedback from the Planning Commission and public prior to finalizing the draft Housing Element in its entirety.

BACKGROUND

The goals, policies, and programs of the Housing Element distill the analyses of our housing needs, demographics, fair housing considerations, constraints to housing development, and zoning capacity to meet the RHNA into goals, specific policies, and implementing action programs. These goals, policies, and programs are the City's action plan to ensure that existing housing in Brisbane is properly maintained, preserved, and improved, and that new housing serving households of all incomes and backgrounds can be developed at the level required by the RHNA within the eight-year Housing Element cycle (2023-2031).¹

Consistent with other elements of the General Plan, the goals, policies, and programs of the Housing Element have the following roles:

- **Goals:** Guiding principles and aspirations; outcomes the City wants to achieve.
- **Policies:** Specific statements that guide decision-making; a commitment to a particular course of action.
- **Programs:** Specific actions (projects or services) that implement policies and help achieve the overarching goals.

An overarching objective of the 2023-2031 Housing Element update is to make the goals, policies, and programs more streamlined and straightforward, resulting in a more effective plan that is easier to understand and implement. At the Planning Commission's last Housing Element workshop on March 10, 2022, staff presented recommended draft goals and policies for the Commission's review and feedback. Staff had not yet prepared the associated implementing programs for the Commission's review. Since that workshop, staff has proposed additional changes to the draft goals and policies, and will also present recommended action programs as shown in Attachment A. The 2015-2022 Housing Element goals, policies, and programs are shown in Attachment B for comparison purposes.

The discussion section below addresses:

¹ Government Code Sections 65583(b) and 65583(c)

- Goals, policies and programs that staff recommends carrying over from the 2015-2022 Housing Element with modifications
- New policies and programs

DISCUSSION

Modified Goals

Staff proposes revising the 2015-2022 Housing Element goals to address the same policy subjects in a more streamlined and straightforward manner, as follows and as shown in Attachment A:

1. Affirmatively further fair housing opportunities for all persons.
 - Explicitly states the City's continuing commitment to affirmatively further fair housing as a longstanding community goal and legal obligation under State law.
2. Facilitate and support the production of housing at all income levels, but especially affordable housing.
3. Preserve existing affordable housing.
4. Protect residents from displacement.
 - Goals 2-4 represent the cornerstone of the Housing Element, the three "P's" of Producing new housing, Preserving existing affordable housing and Protecting residents from displacement and, where applicable, these policies are tied to the quantifiable objectives at the end of the chapter.
5. Increase public awareness of housing programs and resources.
 - This goal formalizes the City's existing commitment and practice of cultivating and enhancing public awareness and accessibility of information to all households.
6. Conserve natural resources and reduce greenhouse gas emissions in existing and new residential development.
 - Conservation of natural resources and reduction of greenhouse gas emissions is a bedrock principle in Brisbane and is woven through other elements of the General Plan and these principles were repeated in three separate goals in the 2015-2022 Housing Element. For clarity, these are consolidated to one goal and several new programs were added with actionable items under it.
7. Avoid unreasonable government constraints to the provision of housing
 - The City continues to seek ways to reduce or and where possible eliminate government constraints on the production and preservation of housing and a few new programs have been added under that goal. Key among these are programs implementing the City's Technology Master Plan recommendations for upgrading land management and permitting systems.

Modified and New Policies and Programs

Recent changes to State law require cities to commit to actionable and trackable programs that meaningfully implement its housing policies. As a result, many new programs are presented for the Commission and public's consideration that commit the City to a specific course of action, such as holding a study session or developing an ordinance by defined timelines. This contrasts with past cycles where the Housing Element programs had more open-ended language; e.g., suggesting to "Consider..."

or “Study...” an issue without a defined timeframe within the Housing Element cycle. Modified policies and programs are marked with a reference to the previous policy or program number in parentheses.

Notable modified and new programs that staff will highlight in the discussion tonight are highlighted in yellow in Attachment A.

SCHEDULE AND NEXT STEPS

Staff anticipates publishing the draft 2023-2031 Housing Element by early August and holding public hearings at the Planning Commission in August. After the Planning Commission public hearings have concluded, the Planning Commission will make a recommendation to the City Council. The City Council will then hold public hearings to consider the Commission’s recommendations, community feedback, and any additional modifications to the draft Housing Element they may deem necessary, before authorizing staff to submit the draft Element to the State Department of Housing and Community Development (HCD).

HCD has 90 days to review the Element and will issue comments at the end of the 90-day period for the City to address in a revised Element. Based on other cities’ experiences throughout the State, staff anticipates a minimum of two rounds of review by HCD before the Housing Element will be “certified” by HCD and thereafter adopted by the City Council. The statutory deadline for the City to adopt a certified Element is January 31, 2023.

State law mandates a minimum 30-day public review period prior to City Council action on the draft Element. Given the anticipated publication of the draft Element in August and City Council hearings following in October, the City’s public review period will far exceed the State’s minimum requirement.

1. **Goal: Affirmatively further fair housing opportunities for all persons.** The City's goal to affirmatively further fair housing (AFFH) is interwoven throughout all of the City's housing goals, policies and programs and is closely tied with the goal to engage and educate the community on housing policies and resources for both renters and property owners. The actions contained under this goal specifically address the fair housing issues identified in the City's AFFH Assessment and Fair Housing Action Plan (Appendix C).

2. **Goal: Facilitate and support the production of housing at all income levels, but especially affordable housing.** This goal addresses the significant need for additional housing across all household income categories. To meet the targets set by the RHNA, the City must facilitate the production of housing through the existing residential and mixed-use zoning districts, as well as complete its planned rezoning of the Baylands subarea through the adoption of a specific plan. The Baylands is designated as a Priority Development Area (PDA) in Plan Bay Area and is ideally located for new residential development both from a City and regional perspective, due to its proximity to and planned enhancements to public transit corridors (Caltrain and San Francisco's Muni light rail) and easy access to Highway 101.

Preliminary 2023-2031 Goals, Policies, & Programs

ATTACHMENT A

After years of careful planning and community engagement, in 2018 the City Council approved General Plan amendments (affirmed by the voters via Measure JJ) to allow a range of 1,800 to 2,200 housing units in the northwest quadrant of the subarea, centered on the Bayshore CalTrain station.

In 2022, the property owner submitted a draft specific plan for the Baylands proposing development of 2,200 housing units and up to seven million square feet of commercial development. The City is actively processing the applicant's specific plan submittal to meet the statutory deadline for rezoning to accommodate its 2023-2031 RHNA, and has a motivated applicant in the Baylands property owner. An area of emphasis in the specific plan will be to ensure that a substantial component of lower income and special needs housing units are accommodated within the plan area. A number of other policies and programs provided below address the City's intent to partner with housing developers to facilitate development of affordable housing throughout Brisbane.

In 2022, the City initiated an Affordable Housing Strategic Plan (AHSP) to identify funding priorities for current affordable housing funds, identify new revenue streams for affordable housing, calibrate the City's inclusionary housing and density bonus ordinance, and evaluate management options for the City's current and future affordable housing inventory. The AHSP will be adopted in 2023.

The City’s primary preservation target will be to renew the groundlease with Bridge Housing for the senior housing complex at 2 Visitacion Avenue (Visitacion Gardens). The City will identify and utilize other funding sources in the preservation of existing naturally affordable housing through supporting organizations that provide homeowner financial literacy training, foreclosure counseling, homesharing assistance, and rehabilitation programs.
