## **TOWN COUNCIL SPECIAL MEETING- TUESDAY, MARCH 18, 2025**

Director Rensehausen noted that several line items had been consolidated to make the budget clearer. He also shared plans to expand coverage to the Wally School within the next six months.

In terms of programming, he reported that the Team Zone program at the school has resumed and is very successful, especially during the winter months. Daytime senior card programs are also performing well. The department continues to maintain two supervisors at the front desk at all times.

Town Administrator Contente and Council discussed the importance of assigning a job title for Mrs. Martins that accurately reflects her diverse responsibilities. Titles such as "Program Coordinator" or "Administrative Assistant" were suggested.

Further discussions included telephone and internet costs, with a note that the Recreation Department operates at two separate sites—one at the Town Beach and one at the Recreation Center—unlike some departments that only have one location, or the Fire Department, which has five. These differences contribute to variations in costs across departments. The discussion also touched on how the number of iPads and cell phones assigned to each department further impacts overall communication expenses.

position due to internal changes. Current staffing includes approximately 30-31 employees, with around 20 part-time staff and flexible scheduling.

Strategic goals include implementing a new five-year plan, increasing funding and grant opportunities, and preparing for the Community Learning Center project. Program commitments focus on education, health, and workforce development.

Due to the number of staff and various adjustments, it was difficult to determine how many full-time positions currently exist, how many are being added or removed, and the actual number of part-time positions and hours. Clarification is also needed to indicate whether individuals are being added or removed from the staffing structure.
