# CRIME CONTROL & PREVENTION DISTRICT COMMUNICATION

**DATE:** June 17, 2026

**FROM:** Jeff Ashabranner, Chief of Police

**AGENDA ITEM:** Public Hearing to consider approval of the Bartonville Crime Control and Prevention District Fiscal Year 2026-2027 proposed budget.

## **SUMMARY:**

The proposed budget includes funding for new software platforms, Blue Voice and Flock Nova Intelligence, as well as equipment upgrades to transition to a 40mm less-lethal launcher system.

### ***Blue Voice (Public Safety & Law Enforcement Platform)***

Blue Voice is an AI-powered public safety platform designed for law enforcement, first responders, and dispatchers. The application provides officers with a hands-free, real-time reference tool using department-approved policies, procedures, and legal documents rather than open internet sources, improving accuracy and reducing liability. Blue Voice assists officers with legal questions, community resources, and infrequent call types while maintaining CJIS compliance to ensure secure handling of Criminal Justice Information (CJI).

### ***Flock Nova Intelligence Platform***

The budget includes funding for the Flock Nova Investigative Intelligence platform to enhance the Police Department's investigative capabilities. Currently, Bartonville PD relies on the Denton County Sheriff's Office analyst for research and case support, which can result in delays due to county workload priorities. Flock Nova provides officers with real-time investigative tools by integrating with the Town's existing Flock LPR camera system and consolidating records, CAD, RMS, public records, and open-source intelligence into a single searchable platform.

Benefits include increased investigative independence, seamless integration with existing infrastructure, unlimited user access without per-user licensing fees, improved efficiency in developing leads, and support for modern, data-driven policing practices. The platform requires no additional hardware or IT upgrades and offers a lower overall cost compared to similar systems such as Accurint or TLO.

### ***Replacement of Existing Less-Lethal Shotgun System with 40mm Impact Launchers***

The proposed budget includes funding to replace the department's current shared less-lethal shotgun system with 40mm less-lethal impact launchers and to equip each patrol vehicle with a dedicated device. The department currently operates with one shared less-lethal shotgun, creating delays in access, inconsistent availability, and reduced readiness during multi-officer responses.

The 40mm launchers provide improved officer and public safety through greater accuracy, more reliable performance at longer distances, and enhanced target discrimination in dynamic situations. Equipping each patrol vehicle with a launcher ensures immediate access to less-lethal options, eliminates the need to transfer equipment between units, and supports de-escalation, crisis intervention, and safer incident resolution. The upgrade also replaces an aging bean bag shotgun platform that has limitations in accuracy, consistency, and deployment. Budgeted costs include the launchers and associated less-lethal munitions as part of the department's ongoing equipment modernization efforts.

### ***Motorola Solutions Radios***

The proposed budget includes entering into a five-year lease agreement with Motorola Solutions for seven new APX N70 portable radios. The lease-to-own program provides the department with affordable access to next-generation communications technology while preserving P25 interoperability and maintaining high-quality voice and data communications. The APX N70 radios feature a durable design and intuitive "pick-up-and-go" functionality, allowing officers to communicate effectively in a wide range of operational environments. Upon completion of the five-year lease term, ownership of the radios will transfer to the Police Department.

### ***RTS Tactical Shields***

The proposed budget includes funding for three Level III rifle-rated tactical shields to enhance officer safety and active threat response capabilities. Following lessons learned from the Robb Elementary School shooting and subsequent changes in law enforcement training and best practices, agencies are required to have readily available ballistic protection for active shooter and high-risk incidents. These shields provide protection against rifle threats, allowing officers to safely move toward and engage threats while protecting victims, officers, and first responders. The addition of three shields will equip each police unit with a shield, ensuring multiple responding officers have access to critical protective equipment during emergency situations.

### **RECOMMENDED MOTION OR ACTION:**

No action to take, this is a Public Hearing to receive input.

### **ATTACHMENTS:**

SEARCH

# All Your Systems in One Tab

## Integrate Your Data

Search RMS, CAD, LPR, jail records, public records, and approved open sources without switching tabs.

## Amplify Every Role

Officers, analysts, and leadership each see what's relevant to their role, without chasing updates or duplicating work

## Coordinate Across Agencies

Share case context with approved partners to act together for better outcomes.

# Proven Value in Real-World Investigations

Give roles access to the information they already use, with agency-controlled permissions and audit logs.

Item D3.

24/7  
Multi-state operation

70  
Trafficking victims recovered

26  
Suspects arrested nationwide

# Built for How Public Safety Really Works

Give roles access to the information they already use, with agency-controlled permissions and audit logs.

## Context Before Contact

Give officers case context before engagement, supporting safe preparation, coordination, and response.

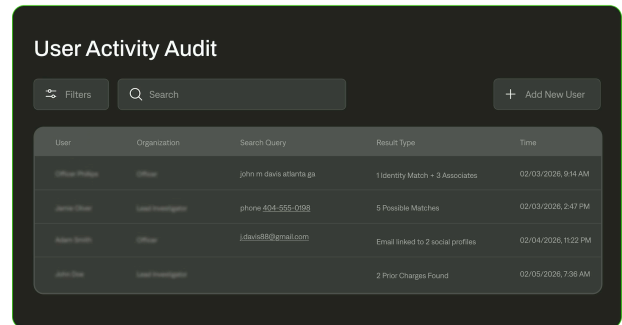

## Faster Case Workups

Bring together LPR, video, public records, and approved open sources to move cases forward in minutes

## Built for Accountability

Every search is logged, and agencies control what data is connected and who can access it.

# What Nova Includes

Unified system search

Role-based access controls

User audit logs

Item D3.

Case mapping views

Cross-agency coordination

Fast, white-glove deployment

**Date:** June 4, 2026

**To:** Town of Bartonville  
Attn: Lt. Colby Scudder  
1941 E. Jeter Rd.  
Bartonville, TX 76226

**Re:** Communications System Financing Proposal

**Motorola Solutions, Inc. is pleased to submit the following proposal for the financing of your Motorola communications equipment in accordance with the terms and conditions outlined below:**

**Transaction Type:** Municipal Lease Purchase Agreement (Tax-exempt)

**Lessor:** Motorola Solutions, Inc. (or its Assignee)

**Lessee:** Town of Bartonville

**Total Transaction Value:** \$ 55,670.58

**Down Payment:** \$ 0.00

**Balance to Finance:** \$ 55,670.58

**Equipment:** APX N70 & WM800 with Smart Features. Hardware Finance Only. Annual Smart Feature costs are Paid Annually as Outlined in Pricing Summary on Quote. (As per the Motorola Solutions equipment proposal.)

**Title:** Title to the equipment will vest with the Lessee.

**Insurance:** Lessee will be responsible to insure the equipment as outlined in the lease contract.

**Taxes:** Personal property, sales, leasing, use, stamp, or other taxes are for the account of the Lessee.

	Option 1	Option 2	Option 3	Option 4
<b>Lease Term</b>	2 Years	3 Years	4 Years	5 Years
<b>Payment Type</b>	Annually Arrears	Annually Arrears	Annually Arrears	Annually Arrears
<b>Lease Rate</b>	6.45%	6.31%	6.16%	5.97%
<b>Lease Factor</b>	0.550365	0.377546	0.290821	0.238276
<b>Payment</b>	\$30,639.14	\$21,018.20	\$16,190.17	\$13,264.96
<b>Payment Commencement</b>	First payment due one year after contract execution	First payment due one year after contract execution	First payment due one year after contract execution	First payment due one year after contract execution

**Expiration:** The above lease rates and factors are valid for all leases commenced by 7/4/2026. After this date the rate will be reset to reflect current market conditions.

**Program Highlights:** Terms up to seven years can be structured for Municipal Lease Purchase Agreement (Tax-exempt).

One hundred percent (100%) of a project's acquisition cost can be financed.

Payment frequency can be matched to meet your cash flow and budget requirements.

No pre-payment penalties.

Future equipment upgrades can easily be accommodated via add-on lease schedules, restructuring already existing deals, etc.

**Qualifications:**

Receipt of a properly executed documentation package.  
Lessee qualifies as a political subdivision or agency of the State as defined in the Internal Revenue Code of 1986. The interest portion of the Lease Payments shall be excludable from the Lessor's gross income pursuant to Section 103 of the Internal Revenue Code.

Receipt of a copy of the last 2 year's audited financial statements and current year's budget from the Lessee.

This proposal should not be construed as a commitment to finance. It is subject to final credit approval.

**Documentation:**

Municipal Equipment Lease Purchase Agreement  
Opinion of Counsel  
Schedule A/Equipment List  
Schedule B/Amortization Schedule  
8038G  
UCC-1  
Certificate of Incumbency  
Statement of Essential Use/Source of Funds  
Evidence of Insurance or Statement of Self Insurance  
Resolution from governing body authorizing the execution of the Lease  
Delivery & Acceptance Certificate

Please feel free to contact me if there are any questions, or if an alternate structuring is required.

RE: Motorola Quote for APX N70 - Standard Issue Kit - WM800

Dear Colby Scudder,

Motorola Solutions is pleased to present BARTONVILLE, TOWN OF with this quote for quality communications equipment and services. The development of this quote provided us the opportunity to evaluate your requirements and propose a solution to best fulfill your communications needs.

This information is provided to assist you in your evaluation process. Our goal is to provide BARTONVILLE, TOWN OF with the best products and services available in the communications industry. Please direct any questions to Jonathan Castilaw at [jonathancastilaw@callmc.com](mailto:jonathancastilaw@callmc.com).

We thank you for the opportunity to provide you with premier communications and look forward to your review and feedback regarding this quote.

Sincerely,

Jonathan Castilaw  
Motorola MR Account Executive

## APX N70 PORTABLE RADIO SOLUTION DESCRIPTION

### OVERVIEW

The APX N70 offers affordable, next generation communications for without compromising P25 interoperability or voice and data quality. It offers a durable design with “pick-up-and-go” functionality, optimizing ease-of-use and focused communications in almost all environments.

#### DURABLE AND EASY TO USE

The APX N70 enhances operations with a full color transfective glass display with touch technology for easy operation with gloves on. The touchscreen includes a high velocity user interface with large touch targets, shallow menu hierarchy, home screen information at a glance, and access to integrated apps. Additionally, the N70 offers extended battery life, a shorter antenna, and Bluetooth compatibility with audio accessories, promoting efficient communications between first responders.

#### ESSENTIAL AND SECURE P25 COMMUNICATIONS

The APX N70 is certified compliant with P25 standards and supports digital and analog trunking, FDMA and TDMA, and Integrated Voice and Data. P25 communications over the N70 are safe and secure—it offers software and hardware encryption, single- and multi key encryption, and P25 Authentication, protecting communications during daily operations.

#### Reliable Connectivity

Using the APX N70 lets first responders stay connected across disparate networks. It can be equipped with LTE, Wi-Fi®, Bluetooth®, and GPS features, bringing future-ready applications, services, and best-in-class connectivity to everyday users. APX N70 radios support 7/800 MHz frequency bands across radio systems with minimal intervention by the radio user.

## Managing and Provisioning Devices

APN N70 provides users greater awareness and faster radio management through Customer Programming Software (“CPS”), Radio Management (“RM”), or the Radio Central programming. These tools transform accurate data into smarter action by enabling dispatchers and network managers to keep radios in the field, make informed operational decisions, and, above all, protect first responders' focus and safety.

#### Customer Programming Service

CPS is a proprietary, Windows-based application used to configure APX subscriber radios in offline situations. The CPS application offers drag-and-drop, clone-wizard, and basic import/export functions that allow for the addition of new software and feature enhancements. APX N radios can be programmed one-at-a-time on a local PC, *via* secure USB port

connection, with TLS-PSK based encryption. Once loaded, subscriber radios are read, and edited, and copdeplugs and templates can be saved and duplicated to program other fleet radios.

### Radio Management

Batch Programming is available through the RM software for simultaneous programming and upgrading throughout the radio fleet. With Batch Programming, up to 16 radios can be programmed at once over a Wi-Fi connection. This reduces programming time and ensures that the radio fleet is always up-to-date and ready-to-use in the field.

### Device Management Services

Device Management Services (“DMS”) packages provide programming, management, and maintenance services to maximize the effectiveness of this APX N70 solution, while reducing maintenance risk, workload, and total cost of ownership. DMS tackles a range of customer needs, whether the solution is self-maintained or managed by Motorola Solutions.

Using Motorola Solutions’ cloud-based Radio Central Programming, APX N70 supports faster provisioning and deployment to get devices in the hands of first responders and out into the field. Parameters such as talk groups, interface options, and security keys can be programmed remotely within minutes. The DMS package provides access to batch programming with Radio Central Programming or one-at-a-time basic programming with Customer Programming Service, described below.

### Radio Central

Radio Central Programming streamlines the APX N70 out-of-the-box experience with a few simple steps. Users will power on the device and view a boot-up animation. Status bar icons on the front display indicate when a connection is made and an update download is initiated. If the APN N70 device is being started for the first time, a “peek-in” device management notification will indicate that the default configuration is detected. When the update download is complete, the device reboots and installs the update. When the install is complete, the device goes back to the full home screen and notifies the user that the update is complete. From power on to provisioning, the process takes less than a minute. For Encryption and Authentication users, a KVL needs to be connected to the radio to use those services.

APX N70 also features Touchless Key Provisioning (“TKP”), leveraging Radio Central and Key Management Facility to add encryption keys remotely. This streamlined, one-time process reduces the time and effort spent enabling encryption. TKP delivers the initial encryption keys to APN N70 radios. Users can provision encryption on one radio or on batches of radios, further speeding up the encryption process for radio fleets.

The figure below illustrates APX N70’s faster provisioning process.

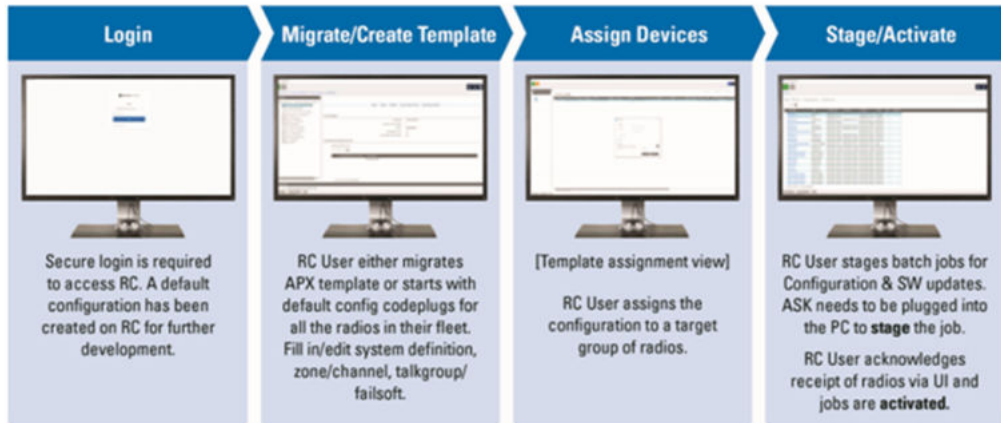

Figure 1: APX N70 Provisioning via Radio Central

## APX N-SERIES DEVICE MANAGEMENT SERVICES - ESSENTIAL STATEMENT OF WORK

### OVERVIEW

Device Management Services (“DMS”) efficiently maintains the Customer’s device fleet while helping to keep devices up-to-date and fully operational in the field.

DMS Essential services provide basic hardware and software support.

This Statement of Work (“SOW”), including all of its subsections and attachments is an integral part of the applicable agreement (“Agreement”) between Motorola Solutions, Inc. (“Motorola Solutions”) and Customer (“Customer”).

In the event of a conflict between the terms and conditions of the Agreement and the terms and conditions of this SOW, this SOW will control as to the inconsistency only. The SOW applies to the device specifically named in the Agreement.

### HARDWARE REPAIR

Hardware Repair provides repair coverage for internal and external device components that do not work in accordance with published specifications. Repair services are performed at a Motorola Solutions-operated or supervised facility. The device will be repaired to bring it to compliance with its specifications, as published by Motorola Solutions at the time of delivery of the original device.

For malfunctioning devices that must be replaced, Motorola Solutions will attempt to read the codeplugs from those devices. If successful, Motorola Solutions will load the codeplug to any replacement devices. If not, Motorola Solutions will load a factory codeplug, and the Customer will need to load the previous codeplug.

Motorola Solutions will load factory available firmware to any replacement devices, which may not match the Customer’s firmware version.

### MOTOROLA SOLUTIONS RESPONSIBILITIES

- Repair or replace malfunctioning device, as determined by Motorola Solutions.
- Complete repair or replacement with a turnaround time of five business days in-house, provided the device is delivered to the repair center by 9:00 a.m. (local repair center time). Turnaround time represents the time a product spends in the repair process, and does not include time in transit to and from the Customer’s site. Business days do not include US holidays or weekends.
- If applicable, apply periodically-released device updates, in accordance with an Engineering Change Notice.
- Provide two-way air shipping when a supported Motorola Solutions electronic system, such as MyView Portal, is used to initiate a repair. A shipping label will be generated via the electronic system.

### CUSTOMER RESPONSIBILITIES

- For non-contiguous renewals, Customer must provide a complete list, preferably in electronic format, of all hardware serial numbers to be covered under the Agreement to Motorola Solutions.
- Initiate device repairs, as needed.
  - When initiating a repair via a supported Motorola Solutions electronic system, label each package correctly with the shipping label and Return Material Authorization (“RMA”) number generated by the electronic system.
  - When initiating a repair via paper Return Material Form (“RMF”), the RMF must be completed for each device, included in the package with the device, and shipped to the Motorola Solutions depot specified on the RMF.
- Remove any data or other information from the device that the Customer wishes to destroy or retain prior to sending the device for repair.

- If a malfunctioning device must be replaced and the Customer has loaded information for that device to Motorola Solutions' cloud environment, the Customer will need to remove the information for the malfunctioning device and add information for the replacement device to the applicable cloud environment.

## LIMITATIONS AND EXCLUSIONS

The Customer will incur additional charges at the prevailing rates for any activities that are not included or are specifically excluded from this service scope, as described below. Motorola Solutions will notify the Customer and provide a quotation of any incremental charges related to such exclusions prior to completing the repair and said repair will be subject to Customer's acceptance of the quotation.

- Replacement of consumable parts or accessories, as defined by product, including but not limited to batteries, cables, and carrying cases.
- Repair of problems caused by:
  - Natural or manmade disasters, including but not limited to internal or external damage resulting from fire, theft, and floods.
  - Third-party software, accessories, or peripherals not approved in writing by Motorola Solutions for use with the device.
  - Using the device outside of the product's operational and environmental specifications, including improper handling, carelessness, or reckless use.
  - Unauthorized alterations or attempted repair, or repair by a third party.
- Non-remedial work, including but not limited to administration and operator procedures, reprogramming, and operator or user training.
- Problem determination and/or work performed to repair or resolve issues with non-covered products. For example, any hardware or software products not specifically listed on the service order form are excluded from service.
- File backup or restoration.
- Completion and test of incomplete application programming or system integration if not performed by Motorola Solutions and specifically listed as covered.
- Accidental damage, chemical or liquid damage, or other damage caused outside of normal device operating specifications, except if optional Accidental Damage Coverage was purchased.
- Cosmetic imperfections that do not affect the functionality of the device.
- Software support for unauthorized modifications or other misuse of the device software is not covered.

Motorola Solutions is not obligated to provide support for any device that has been subject to the following:

- Repaired, tampered with, altered or modified (including the unauthorized installation of any software) — except by Motorola Solutions authorized service personnel.
- Subjected to unusual physical or electrical stress, abuse, or forces or exposure beyond normal use within the specified operational and environmental parameters set forth in the applicable product specification.
- If the Customer fails to comply with the obligations contained in the Agreement, the applicable software license agreement, and Motorola Solutions terms and conditions of service.

## DEVICE TECHNICAL SUPPORT

Motorola Solutions' Device Technical Support service provides telephone consultation for device and accessory issues. Support is delivered through the Motorola Solutions Centralized Managed Support Operations ("CMSO") organization by a staff of technical support specialists.

For Device Technical Support, Motorola Solutions will respond to calls within two (2) hours during the support days. Support hours are 7 a.m. to 7 p.m. CST Monday through Friday, excluding US holidays. In addition, Customers may contact the Call Management Center (800-MSI-HELP) at any time (24 hours a day, seven days a week) and a Motorola Solutions representative will log a technical request in Motorola Solutions Case Management System on the Customer's behalf.

### MOTOROLA SOLUTIONS RESPONSIBILITIES

- Provide technical support for devices, assessing and troubleshooting reported issues.
- Receive and log Customer support requests, and assign a technical representative to respond to a Customer incident per the defined timeframes.

### CUSTOMER RESPONSIBILITIES

- Use the provided methods to contact Motorola Solutions technical support.
- Provide sufficient information to allow Motorola Solutions technical support agents to diagnose and resolve Customer issues.
- Provide contact information for field service technicians in the event that Motorola Solutions has to follow up.

### LIMITATIONS AND EXCLUSIONS

- Device support does not include Land Mobile Radio ("LMR") network, Wi-Fi, and LTE network troubleshooting.

## Software Maintenance

Motorola Solutions is continually developing new features and functionality for our portfolio of public-safety-grade radios. By purchasing software maintenance, the Customer can take advantage of these firmware releases and future-proof their communications investment.

### MOTOROLA SOLUTIONS RESPONSIBILITIES

- Test all firmware releases to minimize software defects.
- Announce new firmware releases and post release notes in a timely manner via MyView Portal.
- Provide firmware updates. Motorola Solutions makes no guarantees as to the frequency or timing of firmware updates.
- Provide upgrade capability through supported Programming Tools.
- Provide programming and service tools and technical support through the firmware support window.
- Provide documentation via MyView Portal with each release detailing new features, bug fixes, and any known issues.

### CUSTOMER RESPONSIBILITIES

- Periodically check MyView Portal for firmware update announcements.
- Keep the radio fleet updated with firmware versions within the support window.

## MyView Portal Access

MyView Portal is the single location to track the status of subscriptions and service contracts, including start and end dates. This portal includes order, RMA, and technical support ticket status, as well as a consolidated download site for software and documentation.

Outside of pre-announced maintenance periods, MyView Portal will be available on a best effort 24/7 basis. Motorola Solutions cannot guarantee the availability of Internet networks outside of our control.

### MOTOROLA SOLUTIONS RESPONSIBILITIES

- Provide a web accessible, secure portal to view the Customer's data.
- Provide the Customer with login credentials for the site.
- Provide end-user training for the site.
- Provide technical support to answer end user questions between the hours of 8 a.m. to 5 p.m. CST Monday through Friday, excluding US holidays.

- Keep the site updated with the latest Customer information.

#### CUSTOMER RESPONSIBILITIES

- Provide Motorola Solutions with contact information for administrative users.
- Administer user access.
- Provide Internet access for users to access the site.
- Attend available MyView Portal training.
- Protect login information against unauthorized use.
- Provide Motorola Solutions with updated equipment information, as needed.

# Defense Technology 40 mm. Direct Impact Reloadable Training Kit

**Restricted Item.** This item is restricted to Law Enforcement, Military or Government personnel. Appropriate credentials are required. Learn more about [Restricted Items](#).

**Defense Technology 40 mm. Direct Impact Reloadable Training Kit has a shipping surcharge of \$40 per unit.**

The Direct Impact and eXact iImpact Reloadable Training Kit allows realistic training to be conducted at a fraction of the cost of using operational rounds. These reusable projectiles can be reloaded by hand in the field in less than 10 seconds without the need for presses or other reloading equipment.

- The Direct Impact and eXact iImpact Reloadable Training Kit allows realistic training to be conducted at a fraction of the cost of using operational rounds
- The unique reloadable projectile design closely simulates the flight trajectory of the eXact and Direct Impact munitions with propulsion inserts to ensure consistent velocities for accurate training
