8. REPORTS AND PRESENTATIONS

A. Receive a report, hold a discussion, and provide staff direction on an overview of the 2025 Mosquito Season. (Staff Contact: Errick Thompson, Director of Public Works)

Errick Thompson, Director of Public Works, presented an overview of the 2025 Mosquito Season to City Council. The presentation outlined the City's comprehensive mosquito management program, including public education, source reduction, larval treatment, arboviral disease monitoring, and strategic fogging. Staff also reviewed 2025 season data and discussed potential options for the 2026 mosquito season.

The following options were presented for Council consideration:

1. Continue the current mosquito management procedures
2. Implement a phased response plan with action thresholds based on risk levels
3. Adopt mosquito control guidance from Tarrant County Public Health
4. Additional consideration: installation of bat boxes at potential locations along the Chisenhall Hike and Bike Trail and Coyote Loop Trail

Council expressed support for the installation of bat boxes and discussed the potential for a Scout group or community organization to assist with constructing them. Council emphasized the importance of using standardized, durable designs such as mounting on metal posts to ensure long-term maintenance. Signage advising the public not to handle bats and noting potential wasp activity in the boxes was also recommended.

Council indicated support for continuing the current mosquito management procedures for the upcoming season.

B. Receive a report, hold a discussion, and provide staff direction on a proposed Neighborhood Empowerment Zone incentive policy. (Staff Contact: *Tony D. McIlwain, Development Services Director*)

Tony McIlwain, Director of Development Services, provided an overview of the proposed Neighborhood Empowerment Zone (NEZ) policy, pursuant to Chapter 378 of the Local Government Code, which allows municipalities to establish zones to encourage neighborhood revitalization and economic development. The policy, intended to be enacted citywide, would allow specific zones to be designated at a later date. Proposed incentives include development fee waivers and lien releases for eligible new construction or rehabilitation projects meeting a minimum 20% investment based on the property's appraised value.

Council discussion focused on the type of improvements eligible for the program, with emphasis that projects should include exterior aesthetic enhancements to benefit the neighborhood. Staff clarified that the program is a fee waiver and lien release initiative, not a matching or rebate program, and does not cover insurance claims or fully offset major renovation costs.

The NEZ term was proposed at ten years, with potential extensions, though Council discussed the possibility of a shorter initial term. Staff noted that robust outreach, including direct mailers and a community meeting, would precede any public hearing for NEZ establishment. The Hillary Montclair community was identified as a potential first target area. Staff confirmed that applications are owner and address-specific, and appeals of denied applications would come before Council. Council also discussed extending the zone to include the other side of the street (Renfro).

Council requested the item be brought back for further discussion incorporating the changes discussed, including fee waivers, a ten-year NEZ length, and the extended zone.

C. Receive a report, hold a discussion and provide staff direction regarding plaza maintenance. (Staff Contact: *Jen Basham, Director of Parks and Recreation*)

Jen Basham, Director of Parks and Recreation, presented a comprehensive overview of Plaza and Old Town maintenance, emphasizing that the work is a collaborative effort among Parks and Recreation, Public Works, and Purchasing. She provided historical context on the Plaza's opening in 2020 and the gradual expansion of maintenance responsibilities, noting that two part-time employees now maintain a significantly larger and higher-use area than originally planned. Current staffing was described as insufficient to meet all daily, weekly, and deep-clean maintenance goals, resulting in deferred tasks, inconsistent cleanliness, limited restroom servicing, and reduced responsiveness to issues such as spills, graffiti, and heavy use impacts.

Council discussed staffing options, including adding part-time versus full-time positions, and ultimately provided direction to proceed with adding additional part-time staffing, with administrative authorization to move forward and return later with a budget amendment.

The presentation also covered contracted landscaping services in Old Town, totaling \$89,250 annually, and identified areas requiring enhanced or fine-detail maintenance, including power washing, expansion joints, benches, bird droppings, and other site features. Future capital and maintenance considerations were outlined, such as replacement of benches, removal of problematic trees, turf lifecycle planning, lighting upgrades, replacement of gravel with pavers, potential new play features, and shade structures. Street sweeping service levels were reviewed, including current limitations, equipment downtime, early-morning operational constraints, and the potential for contracted services.

Council directed staff to pursue formal procurement to obtain accurate pricing and return with recommendations and any necessary budget adjustments.

Waste management concerns were discussed extensively, including odor, leaking dumpsters, and aesthetics.

Council expressed preference for enhanced enforcement and coordination with Code Compliance and businesses rather than pursuing a consolidated compactor system at this time, and supported increased engagement with Old Town business owners to establish shared responsibility for cleanliness. Additional direction included replacing deteriorated benches, removing select trees contributing to sanitation issues, and continuing coordination with Public Works on maintenance and sweeping needs. Council discussed potential future improvements, including replacing gravel with pavers and adding stationary play features between the two trains for children.

9. CITY COUNCIL REQUEST FOR FUTURE AGENDA ITEMS AND REPORTS

- None.

City Council Regular Meeting

DEPARTMENT: Development Services

FROM: Michelle McCullough, P.E., CFM – Deputy Director/City Engineer

MEETING: January 20, 2026

SUBJECT:

Consider and take possible action on a minute order ratifying the Burleson 4A Economic Development Corporation's action to amend 4A05202024BlackRockCoffee, a Performance Agreement with C&C Burleson, LLC. for the design and construction of the modification of an existing hooded left turn lane, along SW Wilshire Blvd. (Staff Contact: *Michelle McCullough, Deputy Director/City Engineer*)

STRATEGIC PRIORITY AND GOAL(S):

Strategic Priority	Strategic Goal
 Dynamic & Preferred City Through Managed Growth	2.2 Promote sustainable residential and commercial development through strategic and long-term planning 2.3 Enhance connectivity and improve mobility Develop and maintain facilities and utility services

SUMMARY:

Foremark Development, also known as C&C Burleson, LLC., constructed a new retail building at 425 SW Wilshire Blvd., the former China King Buffet site. The new building is home to four new businesses: Einstein Bros Bagels, Black Rock Coffee, Mo'Bettah's Hawaiian Style Food, and Handels Ice Cream. The construction of the new building significantly increased the aesthetics of the property.

The property included two existing driveways connected to SW Wilshire Blvd. The north driveway was a shared access point for both the developer's property and the commercial property to the north. The south driveway only served the developer's site. There was an existing left turn lane to access the south driveway, but city staff collaborated with the developer to modify this lane to serve the north shared access driveway, which allowed the south driveway to be removed. Additionally, the developer built a right turn lane at the north driveway, enhancing safety and traffic flow, by letting vehicles move to the right without slowing down other northbound traffic.

The developer incurred additional costs due to TxDOT requiring a traffic study once the construction plans were submitted for review which also created delays in construction. Additionally, TxDOT required additional traffic control, which was not anticipated at the time of approval of the initial performance agreement. There was existing landscaping within the hooded left median, which was replaced as part of the project, however, additional water line improvements were needed as part of the relocation of the landscaping and irrigation. This was not anticipated and resulted in additional design costs. The additional expenses and time delays caused the developer to incur additional expenses in the amount of \$9,507.50 for design and \$43,151.70 for construction for a total project cost of \$462,255.00.

	Design/Legal	Construction
Original	\$60,700.00	\$348,895.80
Additional	\$9,507.50	\$43,151.70
Total	\$70,207.50	\$392,047.50

RECOMMENDATION:

ARTICLE 9. **RIGHT OF OFFSET**

Developer agrees that, subject to the provision of notice by BEDC and 90-day period following receipt of notice in which Developer may respond or act, BEDC may offset the amount of any compensation due to Developer for any calendar year under this Agreement against any amount which is: (i) lawfully due to City from Developer, and (ii) not subject to challenge by Developer in a court of competent jurisdiction.

REGULATIONS REGARDING BUILDING PRODUCTS, MATERIALS, OR METHODS

The parties hereto find that the area described herein constitutes an area of architectural importance and significance and the City Council of the City of Burleson, Texas, hereby designates it as an area of architectural importance and significance for purposes of Chapter 3000 of the Texas Government Code (the "Code"). In consideration for the mutual covenants and conditions contained herein and pursuant to Section 3000.002(d) of the Code, Developer voluntarily consents to the application of all City rules, charter provisions, ordinances, orders, building codes, and other regulations existing as of the Effective Date hereof (the "Regulations") that govern the use or installation of a building product or material in the construction, renovation, maintenance, or other alteration of a residential or commercial building on the Property regardless of whether a different building product or material is approved for use by a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building. In addition, Developer voluntarily consents to the application of the Regulations that establish a standard for a building product, material, or aesthetic method in construction, renovation, maintenance, or other alteration of a residential or commercial building, regardless of whether the standard is more stringent than a standard for the product, material, or aesthetic method under a national model code published within the last three code cycles that applies to the construction, renovation, maintenance, or other alteration of the building. The parties agree that: 1) the City will not issue any permits for the Property in violation of this Article; 2) the covenants contained within this Article constitute a material term of this Agreement; 3) Developer's voluntary consent to the application of the Regulations to the Property, as described in this Article, constitutes a material inducement for the BEDC to authorize the

Incentives described herein; 4) the covenants contained herein shall run with the land and shall bind Developer and all successors and assigns; and 5) this Article shall survive termination or expiration of this Agreement.

ARTICLE 8.
AUTHORITY; COMPLIANCE WITH LAW

8.01 Developer hereby represents and warrants to the BEDC that it has full lawful right, power and authority to execute and deliver and perform the terms and obligations of this Agreement and that the execution and delivery of this Agreement has been duly authorized by all necessary action by Developer and this Agreement constitutes the legal, valid and binding obligation of Developer, and is enforceable in accordance with its terms and provisions.

8.02 Notwithstanding any other provision of this Agreement, Developer shall comply with all federal, state, and local laws.

8.03 During the term of this Agreement, Developer agrees not to knowingly employ any undocumented workers at the Development, and if convicted of a violation under 8 U.S.C. Section 1324a(f), Developer shall repay the amount of the Incentives received by Developer as of the date of such violation within 120 business days after the date Developer is notified by the City or the BEDC of such violation, plus interest at the rate the City of Burleson is paying on the most recent issuance of bonded indebtedness prior to Developer's violation of this Section. This Section shall supersede any other conflicting term in this Agreement and shall survive termination of the Agreement.

8.04 Developer agrees, verifies, and certifies that it does not and during the duration of this Agreement will not:

- A. boycott Israel as that term is defined in Texas Government Code Section 808.001 and Chapter 2271, as amended;

8.05 By executing this Agreement, Developer warrants, agrees, verifies, and certifies that to the best of its knowledge and belief, no member of City Council, City Manager, deputy city manager, city secretary, department heads, or deputy department heads of the City has direct or indirect financial interest in the award of this Agreement, or in the

services to which this Agreement relates, or in any of the profits, real or potential, thereof, in violation of Section 132 of the Home Rule Charter of the City.

ARTICLE 9. **TERMINATION.**

9.01 Termination. This Agreement shall terminate at the expiration of the Term specified in Article 3 unless terminated earlier as follows:

- (a) By written agreement of the Parties;
- (b) On the date of termination set forth in a written notice provided by a Party to the other Party in the event the other Party is in default and breaches any of the terms and conditions, or fails to meet any performance conditions, of this Agreement and such default is not cured within ninety (90) days after the non-breaching Party sends notice to the breaching Party of such breach;
- (c) On the date of termination set forth in a written notice by BEDC to Developer if Developer experiences an Event of Bankruptcy;
- (d) On the date of termination set forth in a written notice by BEDC to Developer if Developer has delinquent ad valorem or sales taxes owed to the City (provided that Developer retains the right to timely and properly protest and/or contest any such taxes), and such delinquent ad valorem or sales taxes owed to the City are not paid within ninety (90) days after the BEDC sends notice to Developer;
- (e) On the date of termination set forth in a written notice by a Party to the other Party if either Party receives notice that any subsequent federal or state legislation or any decision of a court of competent jurisdiction declares or renders this Agreement invalid, illegal, or unenforceable; or

9.02 No Additional Incentives Following Termination. In the event this Agreement is terminated by the BEDC pursuant to Section 9.01, then Developer shall not be entitled to any additional Incentive payments or other funds paid pursuant to this Agreement from BEDC and the BEDC shall have no further obligation to Developer.

9.03 False Representation or Falsification of Documentation. In the event this Agreement is terminated by the BEDC pursuant to Section 9.01(b) because Developer made any false representation or provided any false documentation of investments, costs, or achievement of any milestone or requirement under this Agreement, then Developer shall within thirty (30) days of the date of termination return to the BEDC any funds received by Developer related to such false representation or report from the date of termination. The terms set forth in this Section shall survive termination.

9.04 Limitation of Liability. Notwithstanding any provision of this Agreement to the contrary, in no event shall BEDC be liable to Developer for consequential, incidental, punitive, special, or exemplary damages, including lost revenues, profits, delays, or other economic loss arising from any cause including breach of warranty, breach of contract, tort, strict liability or any other cause whatsoever. To the extent permitted by law, any statutory remedies that are inconsistent with this provision of the Agreement are waived. The terms set forth in this Section shall survive termination.

9.05 No Waiver. No waiver or any breach of any term or condition of this Agreement shall be construed to waive any subsequent breach of the same or any other term or condition of this Agreement. Any waiver of any term or condition of this Agreement must be in writing and approved by the authorized representatives of the parties and approved by the City Council.

ARTICLE 10. **RIGHT OF OFFSET**

Developer agrees that, subject to the provision of notice by BEDC and 90-day period following receipt of notice in which Developer may respond or act, BEDC may offset the amount of any compensation due to Developer for any calendar year under this Agreement against any amount which is: (i) lawfully due to City from Developer, and (ii) not subject to challenge by Developer in a court of competent jurisdiction.

ARTICLE 11. **VENUE AND GOVERNING LAW**

This Agreement is performable in Johnson County, Texas and venue of any action arising out of this Agreement shall be exclusively in Johnson County, Texas. This Agreement shall be governed and construed in accordance with the Charter, ordinances, and resolutions of the City of Burleson, applicable federal and state laws, violation of which shall constitute a default of this Agreement. Force majeure shall include, without limitation, damage or destruction by fire or other casualty, condemnation, strike, lockout, civil disorder, war, issuance of any permit and/or legal authorization (including engineering approvals by any governmental entity), governmental approvals and permits, shortage or delay in shipment of materials or fuel occasioned by any event referenced

13.02 Right of Reimbursement. Notwithstanding any other legal remedies, BEDC may obtain reimbursement for any expenditure made to Developer as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official or a BEDC employee or official.

ARTICLE 14. **ASSIGNMENT**

Developer may not assign any part of this Agreement without consent or approval by the BEDC Board of Directors and ratification by the City Council.

ARTICLE 15. **INDEMNIFICATION**

15.01 DEVELOPER EXPRESSLY AGREES TO FULLY AND COMPLETELY DEFEND, INDEMNIFY, AND HOLD HARMLESS THE BEDC, AND ITS OFFICERS, AND EMPLOYEES, AND THE CITY, AND ITS OFFICERS, AND EMPLOYEES, AGAINST ANY AND ALL CLAIMS, LAWSUITS, LIABILITIES, JUDGMENTS, OUT-OF-POCKET COSTS (INCLUDING REASONABLE ATTORNEYS' FEES) AND OUT-OF-POCKET EXPENSES FOR PERSONAL INJURY (INCLUDING DEATH), PROPERTY DAMAGE OR OTHER HARM, DAMAGES OR LIABILITY FOR WHICH RECOVERY OF DAMAGES IS SOUGHT (COLLECTIVELY, "LOSSES"), SUFFERED BY ANY PERSON OR PERSONS, THAT MAY ARISE OUT OF OR BE OCCASIONED BY ANY NEGLIGENT, GROSSLY NEGLIGENT, WRONGFUL, OR STRICTLY LIABLE ACT OR OMISSION OF DEVELOPER OR ITS AGENTS, EMPLOYEES, OR CONTRACTORS, ARISING OUT OF OR IN THE PERFORMANCE OF THIS CONTRACT; NOTWITHSTANDING THE FOREGOING, IN NO EVENT SHALL DEVELOPER BE RESPONSIBLE FOR, NOR SHALL ITS INDEMNIFICATION OBLIGATIONS SET FORTH IN THIS SECTION 15.01 EXTEND TO, ANY LOSSES ARISING OUT OF OR OCCASIONED BY THE ACTS OR OMISSIONS OF THE BEDC, AND ITS OFFICERS, AND EMPLOYEES, OR THE CITY, ITS OFFICERS AND EMPLOYEES, THAT

**ADDENDUM #1
2025-28**

EMS Medical Supplies

The following clarifications were requested regarding the captioned RFP. The replies are in red.

- Bid asks for a total of each section however does not give a quantity to multiply the bid price against- how are we to provide totals?

On the quantity columns, please indicate how many are in your box/case. The totals at the bottom will be for 1 each/box/case.

- Is DocuSign an acceptable form of signature?

Yes

- Just to be clear, you will accept price increases anytime during the 5 years with a 30-day notice if we receive an increase on an item?

Timeframes for price changes are a part of your bid. Page 3 #20 Page 9 #7

- During this time of uncertainty, we are experiencing unexpected increases across all product categories from all manufacturers they will not all provide documentation or notification of these increases, are we allowed to present the changes increase/decrease as we receive them with the 30-day notice without the documentation if we do not have it?

Proof of increase is required.

- For products listed as NO Substitution- and the listed Manufacturer is Curaplex, can we provide our equivalent product? Curaplex is a private label for BoundTree Medical, if we cannot provide our equivalent product this would be a sole source bid item and they should be removed from the bid or allow for other bidders to bid the equal item for the bid to be considered fair and impartial. Will you remove the NO Substitution from these line items?

In regard to the Curaplex question. Several items are sole source from Curaplex that we presently use. It would be detrimental and cost prohibitive to change up some of these and start using another brand. I will highlight the ones that are an absolute that as a department, we cannot start over on. These are all in Red. The ones in yellow, they can bid as equivalent. I would want samples of their items in Yellow to see if they are equivalent to what we are using now. Per KC

- Upon review, if there are bid terms and conditions the Vendor may not be able to agree to, will the City allow the Vendor to include clarifications or exceptions as part of its bid submission?

Yes, but this will be considered when "Best Value" for City is determined.

- Are these lines duplicates? If not, what are the manufacturer item numbers for each line?

133 **Extrication Collar, Ambu Perfit ACE, Adult, Adjustable 16 Settings**

134 **Extrication Collar, Ambu Perfit ACE, Child, Adjustable**

These duplicates have been removed.

- We need clarification on the lines below. The BTM item numbers listed are no longer valid and Medical Devices Intl no longer makes the Econo-Vac. Are you looking for Fasplints made by Hartwell? If so, these lines will need to be updated with the correct item numbers.

FastSplint Vacuum Large (EMS Econo-Vac) Wrist/Ankle Only

FastSplint Vacuum Medium (EMS Econo-Vac) Arm only

FastSplint Vacuum Small (EMS Econo-Vac) Leg Only

135-137 can be Hartwell.

- This is available in multiple sizes. Which size are you requesting?

161 **SAM Pelvic Sling II**

Medium has been added to Description.

- It appears these lines cutoff the complete description. We need the manufacturer item# for these.

173 **Curaplex Infection Control Kit, Latex Free, Incl Gloves, Gown, Mask w/Shield, Alcohol Wipe, BioBag or**

194 **Isolation kit, Incl impermeable gown, gloves, biohazard bag, mask w/shield, shoe covers, cap, disp**

These should be the branded version of their kit that has the items listed in the description.

- This line is marked NO SUB, but I am unable to locate this size. Please provide the Becton Dickison item#

239 **Syringe and Safety Needle, BD 5cc LL w/Eclipse 22 ga x 1 in Detachable Needle**

239 is a typo. Should be 23 ga needle. BD SKU: 303307. Correction made on bid sheet.

- We need to know the manufacturer item# for these lines.

275 **NIBP Cuff-Reusable, Adult**

276 **NIBP Cuff-Reusable, Child**

277 **NIBP Cuff-Reusable, Infant**

278 **NIBP Cuff-Reusable, Large Adult**

279 **NIBP Cuff-Reusable, Small Adult**

Added Bayonet Connector to Description

- These lines are marked NO SUB but the Part Numbers provided are no longer available. Will you remove the NO SUB so we can bid a comparable product?

291	SMART CAPNOLINE PLUS NON INTUBATED, ORAL NASAL W/O2 TUBING, ADULT/INTERMEDIATE 100/BX
292	SMART CAPNOLINE, PEDIATRIC, NON INTUBATED, ORAL NASAL W/OXYGEN TUBING 25/BX

These are the standard capnoline parts from Stryker. We are working off the parts number list provided. These need to be the Stryker/Microstream. These are not to be generic but the Stryker/Microstream part. If generics are quoted, they should be listed on the bottom or the bid or under vendor comments.

- Is it possible to have usage for the line items listed in the bid?
We do not have this information.
- I see that the questions are not due until 11/6 and the bid is due 11/11 at 11am. In order to meet the deadline, we would need to send the bid out on 11/7. Will there be an addendum answering the questions submitted prior to 11/7 or will the due date be extended to allow for time for us to complete the bid?

Addendum 1 posting 11/03/25. It is unable to tell if an additional addendum will be required. At this time, an extension being added to the due date of the bid is not expected.

Additional change, on line 453, the Laerdal and non-substitution has been removed on the lubricating jelly.

REVISED BID SHEET INCLUDED WITH THIS ADDENDUM. BE SURE TO USE THE AMENDED BID SHEET WITH YOUR RESPONSE.

RE: Price Adjustments Due to Tariffs

To Whom It May Concern:

As has been widely publicized, new tariffs have been implemented on certain imported goods, including medical supplies. While these tariffs are expected to impact pricing on products your agency purchases from Bound Tree, we remain committed to securing inventory at the most competitive prices and providing great value to our customers.

In an effort to mitigate cost increases, Bound Tree has been actively collaborating with key manufacturers and suppliers ("Suppliers") to identify alternative sourcing options, manage costs, and inventory levels. However, if Bound Tree receives a price increase from a Supplier for a product that was awarded pursuant to a bid and such price increase is related to a tariff, Bound Tree will notify you of the price increase, as well as the effective date in which your agency should expect a corresponding change (if any) in its pricing. Bound Tree will also strive to provide any relevant pricing documentation received from the Supplier. If your agency elects not to accept a proposed price increase, Bound Tree reserves the right to remove the affected product(s) from the contract or offer an alternative product, which may be subject to different pricing.

Please be assured, Bound Tree will continue to monitor the status of existing tariffs, in addition to any proposed new tariffs. If and when there is a change in tariffs (e.g. reduction or elimination), Bound Tree will attempt to adjust your pricing accordingly.

We appreciate your understanding and continued partnership as we navigate these evolving market conditions.

Sincerely,

RE: Price Increase Policy

To Whom It May Concern:

In recent years, we have witnessed substantial shifts within the global supply chain, affecting the availability and cost of essential emergency medical products. Rising manufacturing costs, extended lead times, and significant increases in shipping and logistics expenses have placed considerable pressure on pricing within the EMS market.

Bound Tree remains dedicated to providing our customers with a reliable supply of high-quality products at competitive prices. We work closely with our supplier partners to secure adequate inventory and mitigate pricing impacts wherever possible. However, in some instances, our key suppliers have implemented price adjustments, with additional changes potentially forthcoming.

In the event of a price increase after a bid award, Bound Tree will promptly notify you and, when possible, provide supporting documentation from our suppliers to substantiate these adjustments. We will make every attempt to have the new contract pricing take effect according to the notification period outlined in the contract. If the price increase is not accepted, Bound Tree reserves the right to remove the affected product(s) from the contract or to provide an alternative product, which may be offered at a different price.

We appreciate your understanding and value your partnership as we navigate these challenges together.

Sincerely,

A handwritten signature in black ink that reads "Rob Meriweather".

**Part I Taxpayer Identification Number (TIN)**

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

**Note:** If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

**Part II Certification**

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/FormW9](http://www.irs.gov/FormW9).

**What's New**

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

**Purpose of Form**

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

**YOUR PARTNER  
IN EMS.**

## Current situation.

- **Financial challenges plague EMS** across all delivery models; rural EMS is in a crisis. Low reimbursements from CMS & commercial insurers, frequently below the cost of the care provided, and lack of funding to support EMS have been the primary contributing factors.
- **High levels of stress, fatigue and burnout** among the EMS workforce. Workforce shortages as reported in national news are exacerbating an already very challenging environment.
- **EMS is a small percentage** of the consumption of PPE within the healthcare market and was left under-allocated for PPE during the pandemic.
- **EMS impacted by shortages and short expiration dates** on critical cardiac arrest and respiratory therapy drugs. Pharmaceutical companies prioritize large hospital GPOs & IDNs over EMS
- **Inefficiencies in using the Strategic National Stockpile** to provide critical PPE to EMS agencies who were the "Tip of the Sword" during the pandemic
- **Community paramedicine** remains an underutilized asset in local healthcare systems due to the lack of reimbursement for this highly cost effective, patient-centered type of care

## Advocating for EMS.

- **Increased sourcing efforts** during the pandemic, making financial investments in PPE inventory.
- **Partnered with US government** to address challenges in getting FDA-approved products, given significant counterfeit in N95 masks and gloves.
- **Volunteered to assist** FEMA, HHS, DHS, DoD, FDA and CDC officials as "Voice of EMS" for Committee for the Distribution of Medical Resources Necessary to Respond to a Pandemic, advocating for effective distribution of PPE to first responders.
- **Advocated for increased allocation and funding** for EMS and hardest-hit communities through outreach to over 35 congressional offices.
- **Providing critical data monthly** to HHS Preparedness and Response teams, providing them greater visibility of PPE needs for EMS during the COVID-19 pandemic, as well as future pandemics and natural disasters.
- **Working with the Federal Maritime Commission** and west coast terminal operators to prioritize essential medical supplies at US ports.

## How Congress can help.

- **Adjust the ambulance fee schedule** to cover the cost of the emergent, urgent and preventive care provided by EMS, and include reimbursement for treatment in place, transport to alternate designations, telemedicine facilitation, and community paramedicine.
- **Support Bound Tree's efforts** with pharmaceutical companies and the FDA to prioritize production of key lifesaving drugs for EMS at reasonable costs, as well as to reduce the amount of "short expiration dates."
- **Fully fund the SIREN Act** (Support and Improving Rural EMS Needs) in FY2022.
- **Support efforts to strengthen** America's Strategic National Stockpile by directing SNS to partner with healthcare distributors to manage PPE during pandemics and natural disasters.

**SUMMARY:**

The City of Burleson entered into a development agreement with AP-Groundwork Venture, LLC for North Johnson County Municipal Management District No. 1, also known as TallGrass. The project is being proposed at the intersection of Chisholm Trail Parkway and FM 1902. The District is bringing forward this strategic partnership agreement (SPA) to provide, among other things, conditions for annexation of the MMD and limited purpose annexation of land.

The SPA states the City will not fully annex the property until the following conditions have been met:

- All of the District's water, sanitary sewer, drainage, park and recreational, and road facilities have been constructed.
- The Developer has, and the Developer's successors and assigns have, been reimbursed to the maximum extent permitted by the rules of the Commission or other applicable law.

Prior to annexation, the MMD is authorized to exercise all powers and functions as provided by law. Following annexation, the MMD will continue to exist as a limited purpose district for an initial ten-year period to allow for the continued maintenance and operation of the Drainage Improvements, Park, Trail, and Open Space Improvements, and the street alleys.

The SPA allows the City to “annex the land within the District for the limited purposes of imposing and collecting the City’s Sale and Use Tax at any time after the effective date of this Agreement, as determined by the City and the District.” It shall be noted that limited purpose annexation of any property does not remove it from the MMD, nor is the City able to impose ad valorem taxes on any property. The limited purpose annexation is solely for the imposition and collection of the City’s Sales and Use Tax.

**RECOMMENDATION:**

Staff recommends the Council hold the first of two public hearings on the SPA. Council will conduct the second public hearing on February 2, 2026.

As a result, the City and the District agree that, without regard to the City's right and power under existing or subsequently enacted law and subject to Section 2.02, the City will not fully annex the District until the following conditions have been met, and shall thereafter be authorized, but not required, to fully annex the District for any purpose:

**2.02. Operations Prior to Full-Purpose Annexation.** Prior to annexation of the entire District for full purposes, except as may be specifically provided in this Agreement, the District is authorized to exercise all powers and functions of a municipal management district provided by law, including, without limiting the foregoing, the power to incur additional debts, liabilities, or obligations, to construct additional utility facilities, or to contract with others for the provision and operation thereof, or sell or otherwise transfer property without prior approval of the City. The District agrees to generally comply with the City's special purpose district policy.

2.03. Continuation of the District Following Full-Purpose Annexation. Upon annexation of the entire District under the provisions of Section 2.01 above, the District will continue to exist as a limited district pursuant to Section 43.0751(f)(6) of the Texas Local Government Code (the “*Limited District*”) for an initial period of ten (10) years to allow for the continued maintenance and operation of the Drainage Improvements, Park, Trail, and Open Space Improvements (as such terms are defined in the Development Agreement), and the street alleys and to levy ad valorem taxes or assessments in support of such facilities, as well as the completion of District operations, and the integration of the District’s system into the City’s system, which term may be renewed successively by the City Council, provided that no such renewed term shall exceed ten (10) years. Prior to the full annexation by the City and the continuation of the District as a Limited District and before each term renewal of the Limited District, the District shall present to the City for approval a financing plan for the continued maintenance and operation of the aforementioned facilities. The District agrees that such Limited District shall not incur additional debts, liabilities, or obligations, construct additional utility facilities, or contract with others for the provision and operation thereof, or sell or otherwise transfer property without prior approval from the City. After the initial ten (10) year term of the Limited District, the City, at its discretion, may act to abolish the District in accordance with applicable law, and the City will then assume all rights, assets, liabilities and obligations of the Limited District and the Limited District will not be continued for limited purposes. Upon full purpose annexation, fees and charges imposed on residents of the former District for services provided by the City shall be equal to those fees and charges imposed on all other residents of the City.

2.04. Emergency Services District. Upon full-purpose annexation, the City agrees to promptly begin the process of becoming the sole provider of emergency services to land within the District. Accordingly, it shall use commercially reasonable efforts to remove the Property (as such term is defined in the Development Agreement) from the Johnson County ESD #1 (“ESD”), or any other applicable emergency services district, pursuant to Section 775.022, Texas Health and Safety Code, no later than one hundred and eighty (180) days following full-purpose annexation of the Property into the City’s corporate limits. ## **ARTICLE 3** **LIMITED PURPOSE ANNEXATION OF LAND**

3.01. **Limited Purpose Annexation of Land.** Notwithstanding Section 2.01, the City may annex the land within the District for the limited purposes of imposing and collecting the City's Sale and Use Tax at any time after the effective date of this Agreement, as determined by the City and the District. In the event the land within the District is annexed for limited purposes, the District shall remain in existence, with full powers, and any land annexed for such limited purposes shall also remain in the boundaries of the District, subject to the full power and authority of the District with respect to water, wastewater, drainage, roads, and parks and recreational facilities and services. The limited purpose annexation of land within the District is solely for the imposition and collection of the City's Sales and Use Tax within such annexed land, to the extent available. The City shall not impose its ad valorem taxes upon any portion of the land within the District during the period of limited purpose annexation. This annexation provision is in lieu of any full purpose annexation of any land within the District prior to the annexation of the entire District as provided in Article 2.

3.02. **Allocation of Sales and Use Tax for Supplemental Services.** In the event the ESD removes any portion of the property within the District that has been annexed into the City for limited purposes pursuant to Section 3.01, the City and the District shall use reasonable and good faith efforts to negotiate an agreement that would allow for a portion of the Sales and Use Tax collected by the City to be allocated toward supplemental services for the District.

**SUMMARY:**

The City of Burleson has contracted with Perdue Brandon Fielder Collins & Mott, LLP for delinquent property tax collection services since 1989. At the direction of the City Manager's Office, the Legal Department, alongside the Purchasing Division initiated a competitive process to assess the market and confirm the City continues to receive best value for these services.

Two highly qualified firms—Linebarger Goggan Blair & Sampson, LLP and Perdue Brandon Fielder Collins & Mott, LLP—submitted proposals. Both firms have extensive experience providing delinquent tax collection services to cities across Texas, with strong references and proven collection performance. Because the evaluation results were exceptionally close and both firms are capable of providing effective services, staff is seeking Council direction on next steps regarding vendor selection.

**PROCUREMENT METHOD:**

The contract potentially resulting from this recommendation was procured through a Request for Qualifications in accordance with Texas Local Government Code Chapter 252. Solicitation No. RFQ 2025-002 was advertised on August 17 and August 24, 2025, and posted on the City's electronic bidding platform, Bonfire, from August 17 to September 11, 2025. The opportunity was distributed to 131 vendors across 7 applicable commodity codes, and the City received 2 responses. Proposals were evaluated in accordance with the published criteria, and because the overall scoring was exceptionally close, staff is seeking Council direction on next steps for vendor selection. On December 17, 2025, the Finance Committee considered this item at their committee meeting, and requested staff to bring the item to the full City Council without a recommendation from the committee.

**RECOMMENDATION:**

Staff requests this committee provide a recommendation for Council consideration regarding the selection of a firm to provide delinquent property tax collection services.

**PRIOR ACTION/INPUT (Council, Boards, Citizens):**

On December 17, 2025, the Finance Committee discussed this item and requested staff to bring the item to the full City Council without a recommendation from the committee.

**SUMMARY:**

The attached presentation is intended to give the City Council a clear understanding of the City's current procurement framework by outlining the division's activities, the procurement methods used, and the key considerations involved in leveraging cooperative contracts and selecting the most appropriate procurement method.

The Purchasing Division manages the City's procurement of goods and services in compliance with applicable laws and policies, with a continual focus on ensuring best value for the community, while operating in a decentralized environment that supports departments throughout the organization.

Recent updates to procurement operations include legislative changes increasing the competitive bidding threshold to \$100,000, as well as the integration of the Purchasing Division into the Finance Department to support more coordinated budgeting, procurement, and long-term financial planning efforts.

# Citywide Procurement

---

CITY COUNCIL MEETING

JANUARY 20, 2026

# Overview

- Updates
- What is Procurement?
  - Centralized Vs. Decentralized
  - Best Value Procurements
- Procurement Methods
  - Choosing Procurement Methods
  - Alternative Methods for Construction
  - Competitive Solicitations
  - Competitive Bidding Exemptions
  - Cooperative Contracts
- Procurement Outlook

# Purpose of Today's Presentation

---

- Provide Council with insight into how Procurement incorporates Council priorities into city-wide purchasing decisions.
- Reinforce our commitment to stewarding taxpayer dollars in ways that maximize citizen benefit.
- Highlight how intentional procurement methods and thoughtful solicitation development ensure best-value outcomes.
- Share updates on our current practices including administration, oversight, and staff training and highlight the value they bring to the organization.

# Updates

---

- Since our last meeting, state legislature increased the competitive bidding threshold to \$100,000. This impacts the number of formal solicitations going forward but not the focus on best value procurement.
- The Purchasing Division is in the process of adding a Purchasing Agent to the team, bringing the total FTEs dedicated exclusively to procurement functions to 3.
- Administrative Services is now a division of the Finance Department, allowing for more holistic approaches to procurement, improved collaboration, and better alignment of budgeting and procurement strategies to support organizational goals.
- Additional purchasing information is now included with each agenda item to allow insight into the procurement process and method selection.

# What is Procurement?

---

The process through which a public agency secures goods or services subject to strict adherence to laws and regulations.

Procurement professionals are responsible for:

- Ensuring compliance with state law & city policies
- Mitigating risks associated with procurements
- Obtaining best value for purchases
- Administering contracts
- Managing solicitations
- Supporting departments
- Providing vendor support

# Centralized vs Decentralized Purchasing

# What is Best Value?

---

The Texas Local Government Code provides best value criteria to be used in conjunction with the lowest price to determine the best value of bid including reputation of the vendor, quality of the goods or service to be provided and past relationship with the municipality.

A procurement professionals' role in assessing best value:

- Ensure compliance with state law, City policy, and ethical procurement standards
- Conduct competitive bidding and formal evaluations when required or deemed advantageous
- Reviews pricing information and rates to assist departments in making informed purchasing decisions
- Work with departments to develop clear scopes, evaluation criteria, and vendor requirements
- Use cooperative contracts strategically to leverage discounts, accelerate timelines, and mitigate contractual risk
- Administer contracts and support departments in monitoring vendor performance to safeguard quality and accountability

# Choosing a Procurement Method

Staff consider many factors when choosing the most advantageous procurement method including:

**1. Legal & Statutory requirements**

- Determine if the procurement is subject to specific regulations

**2. Estimated cost of the procurement**

- What is the current market rate?
- Are there other cities who have recently procured this good/service? What did they pay?
- Is this good/service available on a cooperative? Is the rate comparable? Are there discounts or rebates offered?

**3. Nature and complexity of the purchase**

- Assess whether the good or service is standard/off-the-shelf (ITB) or specialized/customized (RFP)
- Consider technical complexity and project delivery needs
- Will the award be based solely on price (sealed bid) or is it necessary to evaluate qualifications, experience or other factors (RFP, RFQ)?

**4. Timeline & urgency**

- Is this considered an emergency purchase?
- Will the procurement be impacted by long lead times, seasons, etc?

**5. Quality & performance considerations**

- Are factors beyond price a top priority?
- Vendor qualifications, experience, product quality, etc.

**6. Internal capacity & resource availability**

- What other projects are currently being managed by procurement staff?
- Is this a high priority procurement for our organization?
- Does the City have the internal capacity or need for outside consultants to manage the chosen method effectively?

# Alternative Methods for Construction

| Procurement Method                  | Definition                                                                                                                                                                                                                                                                                                 | Example Project Use Cases                                                                                                                                           | City Example Project Use Cases                                                                                                                                        | City of Burleson Past Projects                                                                                                                                                               |

| Best-Value Competitive Bidding      | Evaluates price along with additional factors such as contractor experience, project approach, past performance, and timeline to determine the best overall value rather than just the lowest bid. Safety record may also be considered but requires adoption of written definition by the governing body. | Infrastructure improvements, road reconstruction, complex municipal facility renovations, technology system installations where both cost and quality are critical. | City of Southlake solicited for bids based on best value for their Water Distribution System Improvements (2023)                                                      | All Invitation to Bid (ITB) documents have 'best value' language built in. We are evaluating how to make this language more robust & when to include evaluation criteria in these documents. |

## Executive Summary

This report quantifies the tax contribution that data centers make to the State of Texas and to the metropolitan statistical areas of Greater Austin, the Dallas-Fort Worth Metroplex, Greater Houston, and Greater San Antonio. The report also estimates the annual state and local tax revenue that will be generated by planned data center development in Texas, once it all becomes operational.

As of the end of 2024, Texas had almost 41 million gross square feet of data center capacity—the majority in the Dallas-Fort Worth Metroplex.

In 2024, data centers provided the State of Texas with over \$1.6 billion in tax revenue, and statewide, data centers generated almost \$1.6 billion for local taxing authorities in Texas.

The state's robust economic environment, reliable energy infrastructure, skilled labor pool, and data center-friendly economic development programs have paved the way for numerous planned data center projects across the state in the coming years. Statewide, there are plans to add almost 117 million gross square feet of data center capacity. In addition to the major data center additions and expansions planned for the four major metropolitan areas, in the next several years, there are major data center developments planned for the Abilene, Killeen-Temple, and Wichita Falls metropolitan statistical areas (MSAs).

Over the next several years, planned data center development across the state will provide almost \$3.8 billion in additional revenue for the State of Texas and over \$4.9 billion in additional revenue for schools and local governments in Texas.

### Planned Growth in Texas Data Center Concentrations

## Economic Profile of Data Centers in Texas

Each of the four largest metropolitan areas in Texas (Greater Austin,<sup>1</sup> the Dallas-Fort Worth Metroplex,<sup>2</sup> Greater Houston,<sup>3</sup> and Greater San Antonio<sup>4</sup>) is home to a major concentration of commercial data centers.<sup>5</sup> According to the data center real estate services firm, datacenterHawk,<sup>6</sup> as of the end of 2024, Texas had almost 41 million gross square feet of data center capacity – 64 percent of the total is in the Dallas-Fort Worth Metroplex, 20 percent is in the Greater Houston area, 10 percent is in the Greater San Antonio area, and 4 percent is in the Greater Austin area.

Figure 1. Relative Sizes of the Four Texas Major Data Center Concentrations (gross square footage)

<sup>1</sup> Throughout the report we use Greater Austin to refer to the five-county region of the Austin-Round Rock-San Marcos metropolitan statistical area.

<sup>2</sup> Throughout the report we use Dallas-Fort Worth Metroplex to refer to the eleven-county region of the Dallas-Fort Worth-Arlington metropolitan statistical area.

<sup>3</sup> Throughout the report we use Greater Houston to refer to the ten-county region of the Houston-The Woodlands-Sugar Land metropolitan statistical area.

<sup>4</sup> Throughout the report we use Greater San Antonio to refer to the eight-county region of the San Antonio-New Braunfels metropolitan statistical area.

<sup>5</sup> This report does not cover data centers that are owned and operated exclusively for the use of a company that primarily operates in another line of business, for example, the Texas data centers of Tesla, ERCOT, and many other telecommunications, energy, banking, and healthcare companies. Cryptocurrency mining facilities are not data centers.

It is estimated that there is about \$49 billion in real property (the data center facility buildings) and about \$98 billion in tangible personal property (e.g., computer equipment housed inside of data center buildings) on local tax rolls statewide.<sup>8</sup>

## Fiscal Impact from Data Centers in Texas

Data centers in Texas generate revenues for the State government and local taxing authorities primarily through property taxes, sales taxes, and the State franchise tax.

### DIRECT PROPERTY TAXES

Data centers pay property taxes on data center facilities to local taxing authorities, such as counties, school districts, towns, and cities. Data centers also pay property taxes to local taxing authorities on the data center computing equipment that is housed inside of the buildings. A significant percentage of this expensive data center equipment is replaced with new equipment every few years. Taxation of this equipment is the reason the annual tax revenue from data centers is so high and does not decline significantly over time. Local governments are taxing a large amount of expensive new data center equipment every year. In other types of businesses where the equipment is replaced much less frequently, the annual tax revenue declines faster.

Some property tax revenue collected by some school districts goes to the State of Texas under the State's recapture policy. As explained by the Texas Education Agency, if local school districts collect more than an amount determined by the Texas Education Agency, "the Texas Education Code makes provisions for certain school districts to share their local tax revenue with other school districts.... [R]ecaptured funds are redistributed by the [Texas State] school finance system to assist with the financing of public education for all school districts."<sup>9</sup>

### DIRECT SALES TAXES

All multitenant data centers pay local sales and use taxes on the new data center equipment when it is installed and on the electricity used by the data centers.

Some single-occupant data centers qualify for the State's temporary exemption from the 6.25 percent sales and use tax on certain items including the data center equipment and electricity.<sup>10</sup>

### DIRECT FRANCHISE TAX

Data centers (and most other companies with more than \$2.47 million of annualized total revenue) pay Texas' franchise tax – a variation of a 0.0075 percent gross receipts tax.<sup>11</sup>

## INPUTS AND ASSUMPTIONS

Our tax revenue estimates are based on the following inputs and assumptions.

- Tangible personal property in data centers is replaced on a five-year cycle.
- Local taxes apply to real and tangible personal property and to electricity purchases.
- Tangible personal property is taxed at its depreciated value using depreciation schedules for computer or data center equipment from each county.
- The effective average depreciation rate on installed tangible personal property in each of the four areas<sup>12</sup> is
  - Greater Austin – 37 percent
  - Dallas-Fort Worth Metroplex – 39 percent
  - Greater Houston – 55 percent
  - San Antonio – 27 percent.
- The weighted average tax rate levied on real and tangible personal property by local taxing authorities other than schools in the four areas<sup>13</sup> is
  - Greater Austin – 0.75 percent
  - Dallas-Fort Worth Metroplex – 0.85 percent
  - Greater Houston – 0.83 percent
  - San Antonio – 0.82 percent.
- The weighted average tax rate levied on real and tangible personal property by local schools for interest and sinking costs (which stays with the local schools) in the four areas<sup>14</sup> is
  - Greater Austin – 0.29 percent
  - Dallas-Fort Worth Metroplex – 0.30 percent
  - Greater Houston – 0.28 percent
  - San Antonio – 0.34 percent.
- The weighted average tax rate levied on real and tangible personal property by local schools for maintenance and operations costs (which is subject to recapture by the State government) in the four areas<sup>15</sup> is
  - Greater Austin – 0.70 percent
  - Dallas-Fort Worth Metroplex – 0.75 percent
  - Greater Houston – 0.70 percent
  - San Antonio – 0.68 percent.
- Assume all hyperscale data centers have been certified to qualify for exemption from the State's 6.25-percent sales and use tax.
- Twenty-five percent of multitenant data centers have been certified to qualify for exemption from the State's 6.25-percent sales and use tax.
- All multitenant data centers are subject to a local 2-percent sales and use tax.

## STATE AND LOCAL TAX REVENUES FROM DATA CENTERS IN TEXAS

Data centers are an important revenue source for both the State and local governments of Texas. As shown in Table 2, in 2024, data centers provided the State of Texas with over \$1.6 billion in tax revenue, and statewide in 2024 data centers generated almost \$1.6 billion for local taxing authorities in Texas.

## The Expected Growth in Texas Data Centers

The increasing need for data centers and their services is being driven by more than just the often-discussed impact of artificial intelligence and machine learning. Data centers house the computing power needed for the latest technological advancements in areas like autonomous driving, space exploration, and the Internet of Things. Digital technologies are being developed for many industries such as construction, hospitality, and agriculture that have previously not been changed by technical advancements. The rapid growth in software companies and products has led to an exponential increase in demand for data center cloud services, as software's scalability and frequent updates drive the need for robust hosting solutions. Increasingly, government services and regulations require the electronic networking and data storage services provided by data centers. Also, businesses and individuals in our 21st-century economy are becoming more reliant on the digital infrastructure provided by data centers to accomplish daily tasks like email, video calls, banking, and more.

Because Texas has a strong business climate, available power supplies, a strong workforce, and state sales and use tax economic development programs that take into account the special circumstances of the data center industry, there are many additional data center developments planned for the state over the next several years.

For this report we used information collected and reported by datacenterHawk on the plans of commercial hyperscale and multitenant data center companies for new data center projects and for expansions of existing developments. The information reported by datacenterHawk is collected from extensive contacts with data center companies, as well as from public announcements, and from public filings with government agencies that regulate development activities.

According to datacenterHawk, statewide, there are plans to add almost 117 million gross square feet of data center capacity to what is already operating in Texas. It is notable that while there are major data center additions and expansions planned for the four major metropolitan areas, in the next several years there are major data center developments planned for three additional metropolitan areas – the Abilene MSA, Killeen-Temple MSA, and Wichita Falls MSA. Some examples of the planned major developments include:

- Abilene MSA: Crusoe's AI data center campus<sup>18</sup>
- Greater Austin: Skybox Datacenters' campus,<sup>19</sup> Prime Data Centers' campus,<sup>20</sup> EdgeConneX's data center,<sup>21</sup> AWS' data center,<sup>22</sup> and Switch's data center expansion<sup>23</sup>

- Dallas-Fort Worth Metroplex: Google's data center campus,<sup>24</sup> NTT Global's data center,<sup>25</sup> CyrusOne's data center,<sup>26</sup> PowerHouse Data Center's campus,<sup>27</sup> Digital Realty's data centers,<sup>28</sup> Aligned Data Centers' data centers,<sup>29</sup> and QTS Data Center's data center<sup>30</sup>
- Greater Houston: Serverfarm's data center expansion<sup>31</sup>
- Killeen-Temple MSA: Meta's data center campus<sup>32</sup> and Rowan Digital Infrastructure's campus<sup>33</sup>
- Greater San Antonio: Microsoft's data centers,<sup>34</sup> Rowan Digital Infrastructure's campus,<sup>35</sup> Stream Data Centers new campus,<sup>36</sup> CloudHQ's data centers,<sup>37</sup> and CyrusOne's data center<sup>38</sup>
- Wichita Falls MSA: DataNovaX's data center campus<sup>39</sup>

This planned development will take an undetermined number of years for full build-out and occupancy to occur. However, all across the country, data center construction and occupancy are taking place as fast as possible.<sup>40</sup> The amount of multitenant data center space that is under construction in Austin and San Antonio in 2024 was four times as much as was under construction in 2023. Additionally, multitenant vacancy rates in primary markets in the U.S. have fallen to below three percent. So, most of the planned development is likely to be operating within the next five years.

It is important to note that the 117 million gross square feet of planned development for Texas does not include data center developments by commercial real estate development companies. Commercial developers contract for and prepare tracts of land to secure government approvals and the provision of necessary utilities to meet the needs of data center operators. Once developers have sufficiently prepared sites, they sell them to agents of data center owners and operators. Only at that time would these projects be captured by datacenterHawk. So, the 117 million gross square foot estimate of planned data center development is not a “castles in the air” number. It represents very concrete plans for construction and operation and likely underestimates the actual potential for data center development in Texas over the next several years.

Figure 2 shows how data center development is already planned to expand across the state from what existed in 2024. The sizes of the circular areas are scaled proportionally across both maps. So, the development planned for the Abilene, Killeen-Temple, and Wichita Falls MSAs is greater than all of the data center development currently operating in Greater San Antonio. The planned development in the Dallas-Fort Worth Metroplex exceeds the current data center capacity in the entire state of Texas.

Figure 2. Planned Growth in Texas Data Center Concentrations

Additional data center development means more construction jobs, more construction spending that affects the local and state economies, and more economic activity that generates additional local and state tax revenue. Once the data centers are operational, they create additional operational jobs, spending in the local and state economies, and additional local and state tax revenue.

Table 3 shows the additional tax revenue going to the State of Texas from the planned new data center development. **We estimate that, statewide, the planned data center development will provide almost \$3.8 billion in additional revenue for the State of Texas.**

Table 4 shows the additional tax revenue going to school districts and local governments from the new planned data center development. **We estimate that, statewide, the planned data center development will provide over \$4.9 billion in additional revenue for schools and local governments in Texas.**

\* The development planned for these areas is in ISDs that have not had recapture in fiscal year 2023-2024, so we do not estimate recaptured revenue for the planned development. However, it is very possible that some of the new school revenue provided by data centers in these areas will be recaptured.

\*\* If the State of Texas recaptures some of the revenue provided by the new data center development, then this is an underestimate of the likely state revenue from the new data center development.

## Conclusion

---

This report quantifies the contribution that data centers make to the State of Texas and to the four largest metropolitan statistical areas. The report also estimates the annual state and local tax revenue that will be generated by planned data center development in Texas, once it all becomes operational.

As of the end of 2024, Texas had almost 41 million gross square feet of data center capacity – 64 percent of the total is in the Dallas-Fort Worth Metroplex, 20 percent is in the Greater Houston area, 10 percent is in the Greater San Antonio area, and 4 percent is in the Greater Austin area.

In 2024, data centers provided the State of Texas with over \$1.6 billion in tax revenue, and statewide, data centers generated almost \$1.6 billion for local taxing authorities in Texas.

With its thriving business ecosystem, ample power resources, talented workforce, and tailored economic development programs for data centers, Texas is poised to see a significant increase in data center developments throughout the state over the next several years. Statewide, there are plans to add almost 117 million gross square feet of data center capacity. In addition to the major data center additions and expansions planned for the four major metropolitan areas, in the next several years, there are major data center developments planned for the Abilene, Killeen-Temple, and Wichita Falls MSAs.

So, the development planned for the Abilene, Killeen-Temple, and Wichita Falls MSAs is greater than all of the data center development currently operating in Greater San Antonio. The planned development in the Dallas-Fort Worth Metroplex exceeds the current data center capacity in the entire state of Texas.

Statewide, over the next several years, the planned data center development will provide over \$3.8 billion in additional revenue for the government of the State of Texas and over \$4.9 billion in additional revenue for schools and local governments in Texas.

## Data and Methods

---

For information on the volume of current and planned data center capacity, this report relies on information from datacenterHawk – the premier source for reliable metrics on data centers globally.<sup>43</sup> The platform provided by datacenterHawk is used by data center operators, data center tenants, private equity investors, and business analysts. This data center real estate services company provides subscribers with detailed information on the exact location of every commercial hyperscale and multitenant data center in the United States along with information on the acreage, square footage, and megawatts of critical capacity that are owned, commissioned, under construction, and planned for development. No other source provides this level of granularity and accuracy. Its team of market experts updates information for each data center facility on a quarterly basis. This is especially important in such a fast-changing business.

In order to turn these metrics on the physical characteristics of data centers into estimates of state and local tax revenue, we estimate the value of the real and tangible personal property that is currently invested in each data center in Texas. Our estimates are based on our proprietary modeling developed through extensive experience with the data center business and research into data centers in Texas. Our model is updated annually to reflect the latest data center developments and business cost structures.

Mangum Economics has estimated the economic and fiscal impacts of data center projects and the data center business for a decade in many places from Texas to Michigan, Nebraska to Georgia, and California to Maryland. Because of our extensive experience with data centers, our services have been engaged by trade associations, data center owners and operators, commercial developers, and local governments to quantify the economic impact of this important business.

We work to provide only realistic estimates of likely outcomes, and we choose to err on the side of making lower estimates where there is uncertainty. Our model has been validated with feedback from local government officials and data center experts. Our reports provide reliable and unbiased estimates.

As a result, we have a well-earned reputation for tailoring our analyses to meet the specific needs of specific clients, with a specific audience.

Most of our research falls into four general categories:

- **Information Technology:** Working with some of the largest names in the industry, to date the Mangum Team has produced analyses of the economic and fiscal impact of the data center industry in multiple states. Among those, were studies conducted in Arizona, Illinois, and Maryland that were instrumental in the passage of industry-specific legislation.
- **Economic Development and Special Projects:** The Mangum Team has performed hundreds of analyses of proposed economic development projects. One recent example was an analysis of the proposed \$2.3 billion Green City “net-zero eco district.” The Mangum Team has also authored multiple economic development plans, including identifying industry recruitment opportunities created by the high-speed MAREA and BRUSA sub-sea cable landings in Virginia Beach.
- **Energy:** The Mangum Team has produced analyses of the economic and fiscal impact of over 35 GW of proposed solar, wind, battery, and hydro projects spanning at least twenty-nine states. Among those projects was Dominion Energy’s 2.6 GW Coastal Virginia Offshore Wind project off of Hampton Roads. In addition, the Mangum Team has also performed economic and fiscal impact analyses for the natural gas, nuclear, oil, and pipeline industries.
- **Policy Analysis:** The Mangum Team also has extensive experience in identifying and quantifying the intended and unintended economic consequences of proposed legislative and regulatory initiatives.
