AMENDED SCOPE OF SERVICES

SCOPE OF WORK CITY OF CAMAS

LOWER PRUNE HILL BOOSTER PUMP STATION AND 0.5 MG RESERVOIR IMPROVEMENTS PHASE 3: CONSTRUCTION SUPPORT SERVICES

Background

Conzor (Consultant) has developed the following scope of services and accompanying engineering fee estimate for Phase 3: Construction Support services for the City of Camas (City) Lower Prune Hill Booster Pump Station and 0.5 MG Reservoir Improvements project. The scope and fee have been developed based on the previously completed design developed in Phase 2, discussions with City staff, and our understanding of the project.

Project Understanding and Assumptions

This project involves the replacement of the existing Lower Prune Hill Pump Station that pumps from two (2) existing 455 pressure zone reservoirs on the shared site with a new pump station delivering water to the Upper Prune Hill reservoirs in the 852 pressure zone. The project will also include replacement of the existing Lower Prune Hill No. 1 Reservoir with a new 0.5 MG welded steel reservoir in the southwest corner of the site. The existing pump station and reservoir are located on City-owned property near the intersection of NW 18th Loop and NW Ostensen Canyon Road.

Conzor will take the lead role for all construction administration, management, and inspection services during construction of the project, with support from the City. The construction phase services to be provided by Consor and the associated level of effort shown in the fee estimate reflects a lead role by Consor. The amount of time and effort that may be required to fulfill the obligations of this Scope of Services is subject to factors beyond the control of Consor and the City. The projected level of effort proposed herein and included in the fee estimate therefore represents an “estimate” based upon the collective past experience of Consor and the City for an experienced and reasonable contractor being awarded the construction contract and completing all construction work within the construction schedule. It is recommended that the City include a contingency in the project budget for additional effort that may be required by Consor due to the contractor awarded the project or other conditions beyond the control of the City and Consor.

Construction is anticipated to commence in the field in May – June 2024. Total project duration of 2 years (104 weeks) has been assumed.

Project Approach

The engineering services to be provided by Consor will be phased into separate activities as follows.

- Phase 1 Design: Data Collection and Siting Evaluation – Previously completed under a separate scope of services.
- Phase 2 Design: Preliminary Design, Final Design, Permitting, and Bidding Support – Currently being completed under a separate scope of services.
- Phase 3 Construction: Construction Support Services – Includes the scope of services contained herein.

BACKGROUND: 2024 Strategic Plan

Our Strategic plan sets forth our Mission, Vision and Values, aligning our programming and process to our desired goal. The goals are established through outreach, surveys and shared communication that serves to inform the process of refinement. The Plan remains a constant in our work. It may be updated to reflect emerging conditions and needs, but overall, should reflect our deepest motivations for the work we do. It looks at our past and imagines our preferred future.

SUMMARY: The City of Camas has not updated its Strategic Plan since 2018. This effort will utilize the services of PointNorth Inc. to facilitate an update, through structured conversations and surveys involving all areas of the City. See the attached Contract for Services, that lays out the work plan. The City will create a project lead team to assist the project to completion and provide contract oversight.

Figure 1: 2018 Strategic Plan Summary Sheet

BENEFITS TO THE COMMUNITY: Begin text here.

The benefit of having an updated plan is to provide the City with a clear forward-focused vision. One that will guide our investments and planning across all departments of the City. It aligns our efforts directly to outcomes and helps with resource allocation. The Strategic Plan will incorporate GMA Planning, Budget workup, and other departmental planning documents.

BUDGET IMPACT:

The Professional Services Contract with PointNorth is attached for your review and approval. This work is anticipated within the 2024 budget update and is not-to-exceed \$174,440.

RECOMMENDATION: Staff recommends approval of the contract with PointNorth Consulting Inc. in the amount of \$174,440. This item will be placed on the May 20, 2024 Regular Meeting Consent Agenda for Council's review and approval.

Staff Report – Consent Agenda

May 20, 2024 Council Regular Meeting

\$4,803,352.50 Advanced Excavating Specialists LLC, Crown Park Improvement Bid Award with up to 10% change order authorization (Trang K. Lam, Parks & Recreation Director)

Phone	Email
360.817.7037	tlam@cityofcamas.us

BACKGROUND: On October 16, 2023, staff provided City Council with an update to the Crown Park Improvement Project. At that meeting, staff shared the final design, updates on cost estimates and the next steps to bid the project for construction. On December 4, 2023, Council approved staff’s recommendation to bid the full project scope.

SUMMARY: The City of Camas (City) completed a bidding process earlier this year. Due to a unit cost discrepancy on the bid schedule, staff found that it would be more transparent to recommend that the bid packages be rejected, and the City rebids the project. On April 1, 2024, Council approved staff’s recommendation to reject the bids and rebid the project. Call for bids for the rebidding process opened on April 17, 2024. Sealed bids were opened on May 13, 2024 at 1:30 p.m. The low bidder is Advanced Excavating Specialists LLC at a price of \$4,803,352.50.

BUDGET IMPACT: This project is fully funded in the adopted budget. Sources of funding include the State of Washington’s Recreation and Conservation Office grant and local funds.

RECOMMENDATION: Staff recommends Council award to the low bidder, Advanced Excavating Specialists LLC, for the Schedule A and Schedule B bid price of \$4,803,352.50 with up to 10% change order authorization.

I, James E. Carothers, Engineering Manager, hereby certify that these bid tabulations are correct.
