Staff Report – Consent Agenda

January 5th, 2026 Council Regular Meeting

\$710,257.76 to SLE, Inc., for Well 6/14 Transmission Main Bid Award with up to 10% change order authorization (Submitted by Rob Charles, Utilities Manager)

Phone	Email
360.817.7003	rcharles@cityofcamas.us

BACKGROUND: The Water System Plan identifies the lower wellfield, including Wells 6 and 14, as a priority area for near-term supply improvements to support projected demand through 2030. Existing conveyance limitations restrict how much water these wells can deliver to the distribution system. This project installs a new transmission main between Wells 6 and 14 to expand hydraulic capacity, increase usable production from both wells, and support the City's strategy of maximizing existing supply before developing new source infrastructure.

SUMMARY: The City opened bids on the project on December 22nd, 2025 and received nine (9) bids on the project and all were responsive. SLE, Inc. was determined to be the lowest responsive bid in an amount of \$710,257.76. The engineer's estimate was \$783,062.84 and the bid tabulation is attached for further breakdown

Figure 1: Waterline connection between Wells 6 and 14 at the City's Lower Wellfield located north of SW 6th Avenue and south of the Washougal River.

BENEFITS TO THE COMMUNITY: Moving additional water into the distribution system from the lower wellfield will help the City better meet the water consumption needs of customer and support additional growth in the community. It will also be one of the projects which will help the City meet short term needs of additional water supply identified in the Water System Plan needed by 2030.

STRATEGIC PLAN: This work aligns with the Strategic Plan Goal of Stewardship of City Assets.

POTENTIAL CHALLENGES: None known.

BUDGET IMPACT: The estimated total project cost is \$828,284 and will be funded through the Water/Sewer Fund

Budget:

Well 6/14 Waterline Transmission (2026 Capital Budget)	\$1,050,000
-----------------------------------------------------------	-------------

Estimated Construction Expenses:

Construction	\$ 710,258
Construction Contingency (10%)	\$ 71,026
Construction Engineering Support (Consultant)	\$ 33,000
<u>Construction Management (Staff Time)</u>	<u>\$ 14,000</u>
Total Estimated Construction Cost	\$ 828,284

RECOMMENDATION: Staff would recommend that the council authorize the mayor to execute a construction contract for this project.

I, Rob Charles, Utilities Manager, hereby certify
that these bid tabulations are correct.

Staff Report

January 5, 2026 Council Regular Meeting

2026 Collective Bargaining Agreement between the City of Camas and International Association of Fire Fighters (IAFF) Local #2444.

Presenter: Jennifer Gorsuch, Administrative Services Director

Time Estimate: 5 minutes

Phone	Email
360.817.7013	jgorsuch@cityofcamas.us

BACKGROUND: The City and IAFF Local #2444 have agreed to a one-year rollover successor agreement to the prior collective bargaining agreement which expired on December 31, 2025.

SUMMARY: The successor agreement between the City and IAFF Local #2444 will be a one-year contract, through December 31, 2026. The contract includes a cost-of-living adjustment of 3% effective January 1, 2026. This was based on the current formula in the agreement to use the BLS West CPI-W July-July as the basis for the adjustment. This will continue to keep the positions aligned with the market.

The contract is only for one year due to the creation of the Regional Fire Authority (RFA). This will allow the soon to be created RFA Board to negotiate successor agreements into 2027 and beyond, ensuring their interests are represented as the RFA moves forward as its own entity.

This agreement has been ratified by IAFF.

STRATEGIC PLAN: This item aligns with the Engaged Workforce priority. Ensuring proper compensation helps with recruiting and retaining staff.

BUDGET IMPACT: The budget impact for this COLA is estimated to be about \$200k. This amount plus all other affected payroll items were included in the 2026 budget recently adopted by Council. No additional funding is needed for the budget.

RECOMMENDATION: Staff recommends Council authorize the Mayor and City Administrator to sign the one-year agreement with IAFF.

AGREEMENT BETWEEN

the

CITY OF CAMAS

and the

INTERNATIONAL ASSOCIATION OF FIRE FIGHTERS, LOCAL NO. 2444

THIS AGREEMENT is made and entered into by and between the City of Camas, Camas, Washington, hereinafter referred to as the "City," and the International Association Of Fire Fighters, Local No. 2444, chartered by the International Association of Fire Fighters, AFL-CIO, hereinafter referred to as the "Union".

PREAMBLE

WHEREAS it is the purpose of this agreement to achieve and maintain a high level of performance in the operation of the Camas City government, together with promoting efficiency, productive initiative, and harmonious relations between the City and the Union, and to provide for the rights, well-being, and security of the parties involved, and

WHEREAS the parties have agreed to certain terms and conditions of wages, hours, and conditions of employment for employees of the City as listed herein and wish to reduce the agreement to writing.

NOW, THEREFORE, BE IT MUTUALLY AGREED TO AS FOLLOWS:

ARTICLE 1 –RECOGNITION

The City agrees to recognize the Union as the sole collective bargaining agent for all regular full-time employees of the Fire Department of the City of Camas excluding Fire Chief, Deputy Fire Chief, Division Chief of Operations, Division Chief of Emergency Medical Services and Division Chief/Fire Marshal.

ARTICLE 2 - UNION MEMBERSHIP

- 2.1 The City agrees to remain an independent neutral third party regarding the relationship between the Union and the represented employees.
- 2.2 Within the first 30 calendar days of employment or employee's departure to fire academy, whichever is less, all new employees will be afforded the opportunity to attend at least a 30 minute, not to exceed 1 hour, briefing from the Union during the new employee's regular work hours. Attending the meeting will not be mandatory for the employee.
- 2.3 Nothing in the above sections will interfere with the employee's rights under RCW 41.56.122 of the Public Employee's Collective Bargaining Act.

ARTICLE 3 - DUES DEDUCTION

- 3.1 The City shall deduct a “union deduction” in an amount determined by the union from all union members’ pay. Employees who are non-members and choose to join the union will join in a manner consistent with the Local’s Constitution and Bylaws which includes signing a Union provided “Opt-In” form. Signed “Opt-In” forms will be delivered to the City and indicate the employee’s desire for union deduction to start and continue until the member revokes their membership in the Union as described in Article 2.4 or the member’s employment with the City is terminated.
- 3.2 The City shall not deduct a “union deduction” from non-members of the Union. Union members who choose to revoke their union membership and become non-members will do so consistent with the Local’s Constitution and Bylaws, and in doing so, will provide the City notification by use of a union provided “Opt-Out” form.
- 3.3 The Local will indemnify the City against any and all liability, which may arise by reason of the deduction by the City of money for membership dues from employee’s wages, in accordance with employee authorizations furnished to it by the Union.

ARTICLE 4 - WORK SCHEDULES – OVERTIME – LEAVE SLOTS - TRADES

- 4.1 It is in the best interest of the fire service to allow for flexibility in scheduling by the City. This is necessary to provide trained personnel for fire/medical response and to provide fire service coverage.
- 4.2 The Fire Chief will follow the work schedule provisions set forth below. If the Fire Chief determines a work shift and/or workweek change needs to be made, the City shall provide at least fourteen (14) days of personal notice of the change, except in the event of an emergency.
- 4.3 The work shift of 24-hour shift emergency personnel, as assigned by the Fire Chief, shall begin at 7:00 a.m. The workweek shall be routinely scheduled as one (1) workday (duty shift) consisting of twenty-four (24) hours, followed by forty- eight (48) hours off, followed by (1) workday (duty shift) consisting of twenty-four (24) hours, followed by ninety-six (96) hours off duty. The schedule identified above results in a forty-two (42) hour workweek with approximately ninety-one (91) scheduled Static Workdays. This is commonly referred to as a 4-platoon system, consisting of 4 shifts, A, B, C, and D.

Debit Time (Shifts or hours worked in addition to the assigned schedule listed above), also referred to as debit days or dynamic days/time, shall be used to increase the average work week beyond those hours outlined in section A. The number of Debit shifts worked by each member shall equal 12 shifts (288 hours) per year. A maximum of 1 debit day shall be selected in an FLSA cycle and further, the FLSA period shall be 24 days long.

Upon completion of the probationary academy and assignment to FTEP on a platoon scheduled shift the probationary employee shall be assigned 0.8 debit days per FLSA cycle remaining that begins within the same calendar year. The employee will be

required to fulfill the debit hours within that calendar year and subject to the selection provisions outlined below. Upon the beginning of the following calendar year that employee will be required to fulfill 12 debit days (288 hours) as depicted above.

Debit time shall be selected through the process outlined in Exhibit D.

With the implementation of four platoon deployment, the parties agree that the minimum member leave opportunity (leave slots) shall be three (3) personnel per shift at the current minimum staffing level.

Workweek calculation is determined as follows:

- Hours Scheduled (Static Workdays) + Debit Time (Dynamic Time) = hours worked/year
- Hours Scheduled (Static Workdays) = 365 days / 4 shifts = 91.25 shifts x 24 hours = 2190 hrs./year
- Debit Time (Dynamic Time) = 12 Shifts x 24 hours = 288 hours
- Hours worked/year = 2190 + 288 = 2478

4.4 The work schedule of 40-hour daytime personnel shall be Monday through Friday. Eight (8) consecutive hours, excluding the lunch period, shall constitute a day's work. Alternatively, 40-hour daytime personnel shall work 4 consecutive days: Monday-Thursday or Tuesday-Friday. Ten (10) consecutive hours, excluding the lunch period, shall constitute a day's work. The workday shall normally begin at 7:30 a.m.; the normal workweek shall consist of forty (40) hours in a seven (7) day work period. The City and the employee may elect to mutually agree on an alternative work schedule.

4.5 Off-duty employees are expected to respond to alarms when called if they are able. Members off duty due to disciplinary leave, illness or injury shall not respond to call back alarms unless approved by duty Battalion Chief or Fire Chief.

4.6 Employees who attend required training while off-duty shall be compensated at their overtime rate of pay as depicted in Article 4.9 or 4.10.

4.7 Volunteers shall continue to be utilized according to past practice or as agreed by the parties.

4.8 Overtime - Twenty-four (24) hour Shift Personnel. All hours worked beyond the employee's regular twenty-four (24) hour shift, or in excess of forty-eight (48) hours in a work week shall be compensated at one and one-half (1.5) times their regular rate of pay. The regular rate is defined as the hourly equivalent of all straight time compensation received by an employee for work. The FLSA formula is that an employee's regular rate is the total "straight time" compensation received by the employee "for work," divided by the number of hours that money is intended to compensate. Overtime shall be accrued in fifteen (15) minute increments rounded up.

4.9 Overtime - Forty (40) Hour Daytime Personnel. All hours worked in excess of eight (8) hours per day (10 hours per day on a four (4) day, ten (10) hour work schedule), or forty

(40) hours per week shall be compensated at the rate of one and one-half (1.5) times regular rate of pay. The regular rate is defined as the hourly equivalent of all straight time compensation received by an employee for work. The FLSA formula is that an employee's regular rate is the total "straight time" compensation received by the employee "for work," divided by the number of hours that money is intended to compensate. Overtime shall be accrued in fifteen (15) minute increments rounded up.

Once every eligible employee has declined a voluntary opportunity to work overtime, that overtime shall be deemed 'mandatory'. Mandatory overtime shall be compensated at double time if the person next on the mandatory list is compelled to work. Mandatory overtime is not to be taken as compensatory time and must be paid out at the double time rate in the pay period it is earned.

- 4.10 Forty (40) hour daytime employees on emergency callback (two (2) hour minimum) shall be calculated at a forty (40) hour overtime rate based on two thousand eighty (2080) hours per year.
- 4.11 Qualified forty (40) hour daytime employees may continue to be considered for twenty-four (24) hour shift overtime created by shift employee absences or vacancies, provided said employees are current with all applicable training competencies. Such shift overtime shall be scheduled in advance and not overlap or interfere in any way with the employee's regularly scheduled forty (40) hour workweek. Scheduled shift fill-in overtime shall be calculated and compensated at the forty (40) hour employees shift overtime equivalent based on two thousand four hundred seventy-eight (2478) hours per year.
- 4.12 The maximum consecutive hours an employee may work is 48. This is inclusive of any hours worked, including trades or overtime. If an employee works 48 consecutive hours, they are required to have a minimum of 12 consecutive hours off duty before they can return to work. Any schedule adjustment request or offering of overtime by the employee that would exceed 48 consecutive hours worked shall be denied. Exceptions may be made for major incidents, wildland mobilization, calls that extend through shift change, and natural disasters that require the call back of personnel.
- 4.13 All training to maintain medical certifications that are a requirement of employment in a job classification is work and shall be compensated consistent with this collective bargaining agreement. The EMS Division shall provide employees with the classes and training opportunities to maintain the required medical certifications consistent with the employee's job classification. It is the responsibility of the employee to maintain medical certifications that are a requirement of employment. The required certifications shall be those mandated by the Washington State Department of Health and the Clark County Medical Protocol Director to perform in the capacity of the employee's job classification. Failure to maintain any required certification for the employee's job classification may result in discipline.
- 4.14 An employee may elect to accrue compensatory time in lieu of overtime at the same rate. An employee may have no more than ninety-six (96) hours of compensatory time within their compensatory time leave bank at any time. In addition, no more than ninety-

six (96) hours of compensatory time may be accrued or expended during a calendar year. Accrued compensatory time off shall be scheduled in the same manner as accrued vacation. If requested use of compensatory time off will result in the City incurring an overtime compensation expense to cover more than one (1) employee's absence, the request may be denied. Use of compensatory time will be authorized consistent with Article 4.21 of this CBA and additional requests for use may be denied unless specifically allowed in the FLSA.

4.15 Forty (40) hour daytime employees may elect to accrue compensatory time in lieu of overtime at the same rate up to a maximum of one hundred twenty (120) hours.

4.16 Employees will be called back at the discretion of the on-duty Battalion Chief or designee due to larger scale emergencies that deplete resources and the ability of on duty crews to cover subsequent emergencies or unscheduled upstaffing to meet emergent needs for weather events or hazardous conditions. Employees called back shall be compensated with a minimum of two (2) hours plus time worked.

4.17 All overtime distinct from continuing beyond the completion of normal shift time shall be compensated at a minimum of two (2) hours at the overtime rate of pay.

4.18 Administrative Battalion Chief position

The Administrative Battalion Chief is a special duty assignment to which one of the Battalion Chiefs (BC) from the bargaining unit may be assigned.

The Shift Battalion Chief (SBC) shall be the regular duty assignment for the Battalion Chiefs (BC) within the bargaining unit.

The BC assigned to Administrative Battalion Chief work a 48 hour/week schedule consisting of 24-hour shifts from the beginning of the FLSA period containing July 1 through the end of the FLSA period containing September 30 and a 40 hour/week schedule consisting of 5 consecutive 8-hour days or 4 consecutive 10-hour days for the remainder of the year.

1. The hours of the BC assigned to Administrative Battalion Chief, while working the 48 hour/week schedule, will be flexible for the purpose of allowing that BC to cover SBC work resulting in reducing the BC overtime liability. While assigned a 48-hour work week the BC assigned to Administrative Battalion Chief shall only be assigned to consecutive 24-hour shifts if agreed to by the employee.
2. The BC's wages, overtime rate and benefit accruals and overtime rate will be consistent with the schedule to which the employee is assigned.
3. The BC assigned to Administrative Battalion Chief may provide, while on duty, emergency response in conjunction with the Shift Battalion Chief to fulfill auxiliary command functions on the emergency scene.

Leave scheduled by the BC assigned to Administrative Battalion Chief shall be granted consistent with the IAFF/City of Camas Collective Bargaining Agreement except it

will be irrespective of the other employees' ability to use accrued benefits while assigned to the 40-hour workweek.

Duties of the Administrative Battalion Chief will not be limited to but shall be consistent with and include the responsibility of vehicle maintenance coordination/recordkeeping, career staff and volunteer training coordination/evaluation/recordkeeping, volunteer program coordination/record keeping, equipment/radio maintenance coordination/record keeping, and station maintenance, coordination/record keeping.

1. The BC assigned to Administrative Battalion Chief shall be provided the opportunity to fill SBC overtime opportunities, and when doing so act in the capacity of an SBC.
2. The City understands that when the BC assigned to Administrative Battalion Chief is assigned to work the SBC duties, the SBC duties become their primary responsibility resulting in a diminished ability to accomplish the Administrative Battalion Chief duties. There should be no negative impacts to the employee for not accomplishing the Administrative Battalion Chief duties.

The BC assigned to Administrative Battalion Chief will not engage in work that has historically been performed by the Training Captain special duty assignment, including primary instruction. This article shall not exclude the BC assigned to Administrative Battalion Chief from performing any duties established in above.

4.19 The assignment of Training Captain shall be appointed by the Fire Chief and filled from the current pool of Captains with consideration given for desire, ability, and time in grade. Additional consideration will be given to the experience and expertise of the employees. Two (2) months' notice shall be given prior to transition to the assignment. The assignment of Training Captain shall normally be a two (2) year appointment but may be extended or shortened with mutual agreement. The work week shall follow that outlined in 4.4 but shall also be flexible with consideration for any evening and weekend drills and classes. The Training Captain shall not regularly work shift but shall be eligible for overtime coverage. The Training Captain shall facilitate daily fire training for all shifts, keep and maintain training records for the organization and function as an administrative liaison to the EMS Division Chief. The Training Captain may also act as an incident safety officer or in a support capacity to the IC on fire scenes. The employee in this position shall receive benefits and accruals for forty (40) hour personnel as outlined in the bargaining agreement.

The parties agree to modify the position of Training Captain and add the title Training Officer. This modification would allow qualified candidates interested in serving in an administrative training capacity to fill the role regardless of grade. Current captains would be eligible for the position as previously outlined but non-promoted members, meeting minimum qualifications, could also fill and serve as Training Officer in either the Fire or EMS capacity. Members are only eligible to serve in one of these capacities at any given time. The parties shall determine the qualifications of these positions prior to beginning the process of filling either one.

EMT/Paramedic Captains assigned to the role of Training Officer (Fire or EMS) shall maintain their current Fire Captain/Paramedic Captain step wages. Firefighters or Firefighter/Paramedics serving as either EMS Training Officer or Fire Training Officer shall move to the Fire Captain/Paramedic Captain (depending on certification held) pay scale to the step that is a minimum of one full step (not less than 3%) above their current pay.

The assignments of EMS Training Officer and Fire Training Officer shall be appointed by the Fire Chief and filled from the current pool of qualified personnel with consideration given for desire, ability, and time in grade. Additional consideration will be given to the experience and expertise of the employees. Two (2) months' notice shall be given prior to transition to the assignment. The assignment of Training Captain shall normally be a two (2) year appointment but may be extended or shortened with mutual agreement. The work week shall follow that outlined in Article 4.4 but shall also be flexible with consideration for any evening and weekend drills and classes. The Training Officer shall not regularly work shift but shall be eligible for overtime coverage. The Training Officer shall facilitate daily fire training for all shifts, keep and maintain training records for the organization. The EMS training Officer also functions as an administrative liaison to the EMS Division Chief. The Fire Training Officer also functions as a liaison to the Fire Operations Chief or Fire Chief and may also act as an incident safety officer or in a support capacity to the IC on fire scenes.

The employee in this position shall receive benefits and accruals for forty (40) hour personnel as outlined in the bargaining agreement.

4.20 Minimum staffing and leave opportunity for the Camas-Washougal Fire Department shall be as follows:

13 Line positions

- A minimum of three (3) Captains or Acting Captains
- A minimum of six (6) county certified lead paramedics
- A minimum of one (1) Battalion Chief or Acting Battalion Chief
- All engine companies shall have a minimum of one (1) Captain or one (1) qualified Acting Captain and one (1) Paramedic.
- All medic companies shall be staffed with a minimum of one (1) Paramedic and one (1) EMT.

4.21 The parties agree that a three-person engine company is a mutually desired minimum standard and that the parties shall normally meet monthly, or as needed, through the term of this agreement to continue to formulate a plan for the deployment of three-person engine companies for all engines deployed with a goal of providing the 3-person deployment as soon as practicable. The parties agree that the mutual goal will be to provide a three-person engine company as minimum staffing at station 41 followed by station 43 and then station 42 and subsequently any future stations. The parties agree to meet and bargain if they are not able to meet the provisions of this article.

4.22 Employees must request elective leave a minimum of 48 hours in advance of the desired date of leave. Leave may be taken within that time frame as long as it doesn't create an overtime obligation on the requested date.

Once time off is scheduled and approved, it will not be retracted by the City.

4.23 Members will be moved from their assigned station to another station to accommodate for:

- Proper staffing as outlined in 4.21.
- Providing for 3-person engine companies in the following order: St. 41, St. 43, St. 42. Professional personnel shall fill 3-person engine companies in order first with volunteers continuing the progression after.

4.24 Vacancies are any position in the schedule that needs to be filled to maintain the minimum staffing requirement of Article 4.21 of this CBA.

Battalion Chiefs (BC) will have the right of first refusal for vacancies in the BC position that necessitates overtime. If unable to fill the vacancy with a BC, the most senior Acting Battalion Chief on duty will be moved up and the OT will be filled from the OT box. If no Acting Battalion Chief is available on duty, OT will be offered to Acting Battalion Chief's per order of the OT box. If unable to fill the vacancy with an Acting Battalion Chief, then mandatory OT will hold the lowest seniority. The Chief will work with the Union to determine how to best ensure Captains have time in service as Acting BC to allow for training for advancement opportunities and succession planning.

Captain vacancies will be filled by moving up the highest seniority Acting Captain (AC) qualified line personnel in a manner consistent with Article 22.7. If this creates OT, the vacancy will be hired from the OT Box. If there are no AC qualified line personnel on the schedule, rated Captains will have the right of first refusal per order in the OT Box. If no rated Captain is available, then OT will be offered to AC qualified per order in the OT Box.

Non-officer vacancies will be filled by qualified employees in order as depicted by the OT Box.

ARTICLE 5 - HOLIDAY COMPENSATION - TIME OFF

5.1 Upon hire, probationary shift employees shall be advanced pro-rated holiday hours equivalent to 9.42 hours per month (4.71 per pay period) for the remainder of the calendar year within which they were hired. With the subsequent calendar year, Article 5.2 will apply.

5.2. Twenty-four (24) hour shift employees will be advanced one hundred thirteen (113) hours of holiday time off at the beginning of each year in lieu of holidays.

5.3 Employees may cash out any amount of banked holiday time at the straight time rate anytime during the calendar year. Cashed out holiday time off will be remitted on the

payday of the same pay period in which it was requested so long as it is requested prior to payroll cutoff.

- 5.4 Any accrued holiday time off not used by the final calendar year pay period cutoff each year, shall be cashed out at the employee's straight time rate.
- 5.5 Forty (40) hour daytime employees shall observe fourteen (14) holidays, the normal eleven (11) that City Hall will observe by being closed plus three (3) floating holidays. If the three (3) floating holidays are not used by the December pay period cutoff, they shall be cashed out at the employee's straight time rate.
- 5.6 When an employee gives notice of separation from employment for any reason, or an employee transfers between being a 40/48-hour employee, the amount of holiday time off shall be prorated (9.42 hours per month/4.71 hours per pay period) until the final date of separation or transfer. Any adjustment necessary to previously accrued hours will be made immediately. For employees who have cashed out their holiday time off prior to separation or transfer, the accrual shall be determined on a prorated basis until the last day of the pay period of separation and any unearned accrual that has been paid shall be deducted from the employee's final paycheck or repaid to the City.
- 5.7 The Administrative Battalion Chief shall receive one-hundred thirteen (113) hours of holiday accruals each January as outlined in this article. Up to eighty-eight (88) of those hours may be used to offset the eleven (11) holidays observed by City Hall during that same year. Any hours not used by the final calendar year pay period cutoff shall be cashed out at the employee's straight time rate.
- 5.8 The Administrative Battalion Chief shall be considered a platoon duty employee for the purposes of Article 5.

ARTICLE 6 - VACATIONS

- 6.1 Employees shall choose vacation time by seniority and will take within the FLSA periods which begin in the following calendar year, for vacation earned the previous calendar year. (including that earned in accordance with Article 5 above). Subject to other conditions and terms of this Article, an employee may schedule their vacation any time after January 1 of each calendar year. Vacation shall be selected following the process outlined in Exhibit D.
- 6.2 An employee taking their vacation shall not be entitled to any extra compensation for having worked during the period for which they were granted vacation unless requested by the Fire Chief or designee and approved by the City to do so.

Military leave may not be taken in increments of less than a full regularly scheduled shift.

During a period of military conflict declared by the President or Congress, an employee who is the spouse or registered domestic partner of a member of the Armed Forces, National Guard or Reserves is entitled to up to 15 days of unpaid leave while the employee's spouse or domestic partner is on leave from deployment, or before and up to deployment. (Spousal military leave may also be covered under FMLA leave for a qualifying exigency, although an employee need not meet the more stringent FMLA eligibility requirements in order to take this spousal military leave.) The purpose of this leave is to support the families of military personnel serving in military conflicts by permitting them to spend time together before a family member is deployed or while the family member is on leave from a deployment. An employee must work an average of 20 hours per week to be eligible for this family military leave.

An employee who seeks to take family military leave must provide the City with notice of the employee's intent to take leave within five business days of receiving official notice that the employee's spouse will be on leave or of an impending call to active duty. The employee may substitute any available accrued leave for any part of this family military leave.

Failure on the part of the employee on leave without pay to report promptly at the expiration of the leave shall constitute cause for forfeiture of right to reinstatement.

10.3 Upon request the union president or their designated representative may be granted up to twenty-four (24) hours of time off with pay per year to conduct bona fide union business. All requested time over twenty-four (24) hours in a calendar year may be approved at no cost to the city.

An “immediate family member” for purposes of Family Medical Leave is defined as an employee’s spouse, child, parents, or any member of the immediate household. The City may expand the definition of immediate family under special circumstances. A “serious health condition” is an injury, illness, impairment or physical or mental condition that involves in-patient care or continuing treatment by a health care provider. The City may require certification from a health care provider for leave based on a serious health condition. The disability portion of pregnancy leave is considered a serious health condition for purposes of the Family and Medical Leave Act. The leave would normally end six (6) weeks after a normal birth or eight (8) weeks after a cesarean section.

Employees must provide the City with at least thirty (30) days’ notice if possible before taking such leave or notify the City as soon as practicable. Before going on unpaid leave status for the birth, adoption, or foster care of a child or the serious health condition of the employee’s spouse, parents or children requiring in-patient care or continuing treatment, an employee is required to use all accrued unused compensatory, holiday or vacation leave. Before going on unpaid leave status for the serious health condition of the employee or the employee’s minor child requiring in-patient or continuing treatment, an employee is required to use all unused sick leave, holiday, compensatory time and vacation accruals.

As required by law, the City shall maintain the employee’s health benefits during the FMLA leave to a maximum of twelve (12) weeks. In the event an employee does not return to City employment after taking leave under this section, the City may recapture the cost of any health insurance premiums paid by the City during the unpaid portion of the leave. Upon return from such leave, the employee will be reinstated to the employee’s former or equivalent position.

10.11 Washington State Paid Family Medical Leave (PFML)

Premiums for benefits are established by law and the parties agree that employees will pay the full portion of the employee premiums even if such premiums change over time due to legislative action.

The arbitrator shall have no power to alter, amend or change the terms of this agreement. The arbitrator shall not have the authority to award punitive damages.

- 16.5 Time limits within a grievance procedure may be waived or extended by mutual agreement of both parties. Failure to pursue a grievance to the next step renders final and conclusive the last determination and response.
- 16.6 Each party shall pay the expenses of their own representatives, witnesses, and other costs associated with the presentation of their case and one-half (1/2) the expenses of the arbitrator.

Thereafter, the employee will be considered for a further step increase subject to a satisfactory performance review by the Fire Chief or designee.

Newly hired employees (entry level and lateral) shall serve a probationary period of the equivalent of two thousand four hundred seventy-eight (2478) hours but not less than one calendar year (12 calendar months) on the job and in the workplace. If multiple members qualify as above, then the position will be filled using the rotational system.

- Qualified AC member assigned to the shift and station where the vacancy occurred.

If multiple members qualify as above, then the position will be filled using the rotational system:

*'Shift and Station' is defined by a member who is normally assigned to that shift and station through the shift bid process.

Making out of class assignments for Acting Battalion Chief (ABC):

- Assignments for ABC will be made in a similar way as AC assignments, with the exception that the rotation to fill the vacancy will apply to the entire shift as opposed to just those at the station where the vacancy occurs.
- Members ranked on a certified promotional exam list for Battalion Chief and on duty shall receive priority. If multiple members on the same shift are on a promotional list and on duty the aforementioned rotational process shall be utilized
- If no Captains on duty are on a promotional list, All captains working shall be considered so long as they have completed a tactical simulation as above from the most recent BC testing process successfully.
- The member will complete the tactical simulation annually.

* If at any point a member moves stations to fill the AC or ABC position, seniority shall be observed for any moves needed to fill the vacancy created by the qualified member who is filling the acting captain or acting BC position.

Making out of class assignments for Acting Battalion Chief (ABC):

Assignments for ABC will be made in a similar way as AC assignments, with the exception that the rotation to fill the vacancy will apply to the entire shift as opposed to just those at the station where the vacancy occurs.

Members ranked on a certified promotional exam list for Battalion Chief and on duty shall receive priority. If multiple members on the same shift are on a promotional list and on duty the aforementioned rotational process shall be utilized. If no Captains on duty are on a promotional list, all captains working shall be considered so long as they have completed a tactical simulation as above from the most recent BC testing process successfully.

The member will complete the tactical simulation annually.

If at any point a member moves stations to fill the AC or ABC position, seniority shall be observed for any moves needed to fill the vacancy created by the qualified member who is filling the acting captain or acting BC position.

The Fire Chief or designee will be consulted before assignments to acting positions are made.

EXHIBIT D

Selection Rounds

Shift employees may begin selecting vacation time for the upcoming year on a hire date seniority basis beginning about November 1. There shall be two rounds of vacation selection during which personnel may select one vacation period in the “prime” period, and one vacation period in the non-prime period. The “prime” period shall include the first FLSA Period that includes any days in the month of June and conclude at the end of the last FLSA period containing a day in September. If a vacation selection date includes Thanksgiving Day or Christmas day that day shall be considered “prime”. Individual vacation picks selected in each round shall be limited to four (4) consecutive shifts.

After two rounds of vacation selection each member shall select debit days by department seniority. There shall be three (3) rounds of debit selection consisting of each employee selecting four (4) debit days in each round. No more than one debit day per member is to be placed in any one FLSA period. Debit selection shall first be placed on a previously selected leave vacancy in any FLSA period. If no vacancies remain in the selected FLSA period, debit days shall be placed anywhere within that chosen FLSA period. No more than two (2) debit days shall be allowed to be scheduled on any given calendar day without any vacancies in excess of two (2). More than two (2) debit days may be placed on a day if vacancies remain.

Debit Selection for Battalion Chiefs

Battalion Chiefs will conduct their debit day selection following vacation selection as outlined above. Debit days are first to be placed on a previously selected elected leave vacancy created at the Battalion Chief position. Remaining Debit days shall be pooled and utilized throughout the year to fill vacancies created at the Battalion Chief position. Battalion Chief debit days shall be selected by the member with the flexibility to prioritize the avoidance of two (2) Battalion Chiefs on duty at the same time. If two (2) Battalion Chiefs do end up scheduled to work the same day, one of the two shall not count toward minimum staffing. Battalion Chiefs may utilize a limited number of debit hours to attend trainings or other assignments but only as approved by the Fire Chief.

Following debit day selection, Battalion Chiefs may reduce their remaining pooled debit day obligation in 12 or 24hr increments in exchange for 12 or 24 hours increments of BC overtime coverage worked. Once a BC has exhausted their pooled debit day responsibility, they are subject exclusively to the terms as outlined in Exhibit D: Debit Day Trades.

Debit Day Trades

Debit days shall be considered shifts where referenced in this document. All provisions included in Exhibit E shall apply to debit days and trades between members and self-trades shall be allowed as provided in these articles.

If an employee agrees to report back for unscheduled duty for a full 24-hour shift that would normally be compensated at the overtime rate, the employee may elect to eliminate a future debit day in lieu of receiving overtime pay. Individuals may further trade their debit day to another day within the same FLSA period, or to one of the remaining FLSA periods where that member does not already have a debit day selected so long as the trade does not create any additional overtime obligation or place a burden on the employer.

EXHIBIT E

Shift Trades

Shift trades shall only be approved if they do not create an overtime obligation and do not reduce department staffing below that defined in Article 4.20.

Upon agreement of a trade, elective leave (vacation, holiday or compensatory time) may be used for either end of the trade provided there are leave slots available for the leave date requested and the elective leave would not cause overtime as of the date of the leave request.

Personnel on the schedule in the position Battalion Chief (BC or ABC) may request a shift exchange with personnel on the schedule in the position of Battalion Chief (BC or ABC) on a different day.

Personnel on the schedule in the position of Captain (Captain or AC) may request a shift exchange with personnel on the schedule in the position of Captain (Captain or AC) on a different day.

Personnel on the schedule in the position of Firefighter or Firefighter/Paramedic may request a shift exchange with personnel on the schedule in the position of Firefighter or Firefighter/Paramedic.

A Shift Battalion Chief may request a self-trade for specified dates within an FLSA cycle providing the vacated day does not leave that shift below the minimum staffing as outlined in Article 4.20 and there is a BC vacancy on the day to be worked.

A self-trade (other than Shift Battalion Chiefs) may be requested for specified dates within an FLSA cycle providing the vacated day does not leave that shift below minimum staffing or the minimum number of Paramedics as outlined in Article 4.20.

A Paramedic and an EMT may only request a shift exchange if on the day that the Paramedic is vacating, the minimum number of paramedics left on that shift meets the minimum number of paramedics outlined in Article 4.20 (A paramedic that is filling the role of BC on a shift, shall not be considered a component of minimum paramedic staffing).

BACKGROUND: The Water System Plan Update (WSPU) is a required chapter of the Comprehensive Plan Update showing that there is sufficient water capacity for growth demands in the City's 20 year planning period from 2026-2046. The plan looks at supply capacity, the distribution system for supplying water, storage capacity, and deficiencies in supply and fire flow in the system. Recommendations for Capital Improvements are created for the WSPU within the planning period. A contract with Carollo was approved in November of 2024 to complete the WSPU in the amount of \$382,888.

SUMMARY: As Carollo has advanced the Water System Plan Update, additional scope has become necessary because the Comprehensive Plan update experienced delays and required additional time to finalize growth percentages, land-use designations, and densities that directly influence the City's water demand projections, hydraulic modeling, and system deficiency analysis. Because the WSPU must reflect where and how growth will occur, certain tasks could not be finalized until this information was available. This has required additional consultant time to refine demand forecasts, adjust modeling inputs, and coordinate assumptions with the Comprehensive Plan team. In addition to the major technical components outlined below, the amendment also includes supporting project management, planning considerations, and plan development tasks necessary to integrate these updated growth assumptions and ensure the WSPU remains accurate, compliant, and complete.

- Operations and Maintenance Manual - The existing O&M Manual is in draft form, but new water system components have been added since the draft was completed and need to be incorporated into the final manual.
- Water Use Efficiency and Water Loss Control Action Plan – A Water Loss Control Action Plan is required as part of the WSPU if the most recent 3 years of water loss average is greater than 10% per Department of Health (DOH) requirements. The amendment adds in the chapter needed to address the Water Loss Action Control Plan and updating the Water Use Efficiency chapter in the WSPU.
- Wellhead Protection Program (WHPP) - Initial findings of the WSPU indicate a loss of water supply capacity. The amendment will include development of short and long term options for the City to address loss of supply. Components of the WHPP

have been developed, however a completed Wellhead Protection Plan has never been developed by the City. Included with the work will be the development of Spill Response Plan and combining this all into one chapter within the WSPU.

- There are also additional efforts by the consultant to develop water demand projections based on the available data and coordination with the Comprehensive Plan Update.

BENEFITS TO THE COMMUNITY: The plan provides a roadmap for the City to build infrastructure necessary to meet growth demands over the next 20 years as well as address system deficiencies.

STRATEGIC PLAN: This project aligns with the Stewardship of City Assets from the City's Strategic Plan.

POTENTIAL CHALLENGES: None known.

BUDGET IMPACT: The cost of the amendment will be \$162,667 and will be covered out of the revenue from the water fund. There is sufficient revenue to cover this expense. The amendment will bring the total cost of the project to \$545,555.

RECOMMENDATION: Staff would recommend that Council authorize the mayor to execute the amendment.

ADD to Subtask 805 – Wellhead Protection Program

- Wellhead Contingency Planning: Strata staff will support Carollo in reviewing City options to address loss of supply. The review will focus on short-term plans such as well upgrades or changes in operations and longer-term options such as well replacement or new well construction at recommended sites. Additional options that will be reviewed include potential exchange or

purchase of sources from Georgia Pacific and the City of Washougal. Water right requirements for the various options will be discussed.

- Management Strategies and Implementation Tasks: A standard inclusion in a full WHP plan includes outlining the City's policies for implementing the plan. This is often provided as a list of preferred strategies the city will adopt, and a second list of the tasks needed for implementation. As each WHP plan is unique to the water system, the strategies and tasks will need to be tailored to the City's setting/logistical constraints, level of available management & staff, and funding limits. This will be a cooperative effort between the team and the City. To complete these lists, Strata will provide example ideas and tasks used by other similar sized water systems for review by the City and Carollo and then participate in up to three team meetings to discuss and select a final set of strategies and tasks.
- Spill Response Plan: Prepare draft language for use as a formal spill response plan for the City in case of a contamination event that affects or could impact one or more City water sources. The purpose of the plan is to outline City staff responses in relation to local and state emergency response activities regarding hazardous spills. The draft text will be provided along with pertinent contact information for local, state and federal emergency response agencies for review by the City and Carollo. Additional outreach and coordination with City, County and State level first responders and emergency management agencies may be recommended, but this could be completed by the City at a later stage.

ADD Subtask 807 – Prepare Wellhead Protection Plan Report

Prepare draft and final standalone Wellhead Protection Plan report to be included as an appendix of the WSP Update.

ADD to Task 1200: Plan Development

This amendment includes additional effort for incorporating the additional tasks into the City Draft, Agency Draft and Final WSP Update document.
