

# **CITY COUNCIL REGULAR MEETING**

Clearlake City Hall Council Chambers 14050 Olympic Dr, Clearlake, CA Thursday, February 20, 2025 Regular Meeting 6:00 PM

The City Council meetings are viewable in person in the Council Chambers, via livestreaming on the City's YouTube Channel (<u>https://www.youtube.com/channel/UCTyifT\_nKS-3woxEu1ilBXA</u>) or "Lake County PEG TV Live Stream" at <u>https://www.youtube.com/user/LakeCountyPegTV/featured</u> and the public may participate through Zoom at the link listed below. The public will not be allowed to provide verbal comment during the meeting if attending via Zoom. The public can submit comments in writing for City Council consideration by commenting via the Q&A function in the Zoom platform or by sending comments to the Administrative Services Director/City Clerk at <u>mswanson@clearlake.ca.us</u>. To give the City Council adequate time to review your comments, you must submit your written emailed comments prior to 4:00 p.m. on the day of the meeting.

# AGENDA

**MEETING PROCEDURES:** All items on agenda will be open for public comments before final action is taken. Citizens wishing to introduce written material into the record at the public meeting on any item are requested to provide a copy of the written material to the Administrative Services Director/City Clerk prior to the meeting date so that the material may be distributed to the City Council prior to the meeting. Speakers must restrict comments to the item as it appears on the agenda and stay within a three minutes time limit. The Mayor has the discretion of limiting the total discussion time for an item.

Pursuant to Senate Bill 1100 and the City Council Norms and Procedures, any member of the public making personal, impertinent, and/or slanderous or profane remarks, or who becomes boisterous or belligerent while addressing the City Council, staff or general public, or while attending the City Council meeting and refuses to come to order at the direction of the Mayor/Presiding Officer, shall be removed from the Council Chambers or the Zoom by the sergeant-at-arms or the City Clerk and may be barred from further attendance before the Council during that meeting. Unauthorized remarks from the audience, stamping of feet, whistles, yells, and similar demonstrations shall not be permitted by the Mayor/Presiding Officer. The Mayor/Presiding Officer may direct the sergeant-at-arms to remove such offenders from the room.

#### AMERICANS WITH DISABILITY ACT (ADA) REQUESTS

If you need disability related modification, including auxiliary aids or services, to participate in this meeting, please contact Melissa Swanson, Administrative Services Director/City Clerk at the Clearlake City Hall, 14050 Olympic Drive, Clearlake, California 95422, phone (707) 994-8201, ext 106, or via email at <u>mswanson@clearlake.ca.us</u> at least 72 hours prior to the meeting, to allow time to provide for special accommodations.

#### AGENDA REPORTS

Staff reports for each agenda item are available for review at <u>www.clearlake.ca.us</u>. Any writings or documents pertaining to an open session item provided to a majority of the City Council less than 72 hours prior to the meeting, shall be made available for public inspection on the City's website at <u>www.clearlake.ca.us</u>.

A. ROLL CALL

#### B. PLEDGE OF ALLEGIANCE

C. INVOCATION/MOMENT OF SILENCE: The City Council invites members of the clergy, as well as interested members of the public in the City of Clearlake, to voluntarily offer an invocation before the beginning of its meetings for the benefit and blessing of the City Council. This opportunity is voluntary and invocations are to be less than three minutes, offered in a solemn and respectful tone, and directed at the City Council. Invocational speakers who do not abide by these simple rules of respect and brevity shall be given a warning and/or not invited back to provide a subsequent invocation for a reasonable period of time, as determined appropriate by the City. This policy is not intended, and shall not be implemented or construed in any way, to affiliate the City Council with, nor express the City Council's preference for, any faith or religious denomination. Rather, this policy is intended to acknowledge and express the City Council's respect for the diversity of religious denominations and faith represented and practiced among the citizens of Clearlake. If a scheduled invocational speaker does not appear at the scheduled meeting, the Mayor will ask that the City's invocation policy is available upon request by contacting the Administrative Services Director/City Clerk at (707) 994-8201x106 or via email at mswanson@clearlake.ca.us.

#### **D.** ADOPTION OF THE AGENDA (This is the time for agenda modifications.)

#### E. PRESENTATIONS

- 1. Presentation of February's Adoptable Dogs
- 2. Swearing in of New and Promoted Police Department Employees
- 3. Presentation of the Police Department Annual Report
- 4. Presentation to Tina Viramontes, Departing Recreation and Events Coordinator II

- F. PUBLIC COMMENT: This is the time for any member of the public to address the City Council on any matter not on the agenda that is within the subject matter jurisdiction of the City. The Brown Act, with limited exceptions, does not allow the Council or staff to discuss issues brought forth under Public Comment. The Council cannot take action on non-agenda items. Concerns may be referred to staff or placed on the next available agenda. Please note that comments from the public will also be taken on each agenda item. Comments shall be limited to three (3) minutes per person.
- **G. CONSENT AGENDA:** All items listed under the Consent Agenda are considered to be routine in nature and will be approved by one motion. There will be no separate discussion of these items unless a member of the Council requests otherwise, or if staff has requested a change under Adoption of the Agenda, in which case the item will be removed for separate consideration. Any item so removed will be taken up following the motion to approve the Consent Agenda.
  - 5. Minutes Recommended Action: Receive and file
  - <u>6.</u> Warrants Recommended Action: Receive and file
  - 7. Minutes of the January 8, 2025 Lake County Vector Control District Board Meeting Recommended Action: Receive and file
  - 8. Authorization of an Amendment of Contract with California Engineering for Additional Engineering Support for the Airport Environmental Impact Report Recommended Action: Move to amend the on-call contract with California Engineering Company in the amount of \$ 70,776.60.

#### H. BUSINESS

- 9. Authorization of an Amendment of Contract with California Engineering for the CDBG Stormwater Master Plan Project Recommended Action: Move to amend the on-call contract with California Engineering Company in the amount of \$ 60,574.47.
- <u>10.</u> Receive Update on Fire Hazard Mapping from the Office of the State Fire Marshal Recommended Action: Receive Update.
- 11. Hearing to Consider Resolution No. 2025-07, A Resolution of the City Council of the City of Clearlake Resolution of Necessity to Acquire Certain Real Property by Eminent Domain and Finding the Acquisition Exempt from California Environmental Quality Act (12105 San Joaquin Avenue, Clearlake, CA, APN 037-171-100) Recommended Action: Conduct a Hearing on the Resolution and Adopt Resolution 2025-07

## MINUTES OF PREVIOUS MEETING

## January 8, 2025

The regular monthly meeting of the Board of Trustees of the Lake County Vector Control District was called to order at 1:30 P.M. by President Giambruno.

Board Present: Rob Bostock, Curt Giambruno, Ron Nagy, Frank Lincoln, and George Spurr.

Absent: None.

District Personnel: Jamesina J. Scott, Ph.D., Manager and Research Director and Ms. Jacinda Franusich, Office Manager.

Guests: Mr. Zach Pehling, CPA (attending remotely via Zoom).

Citizens Input: None.

Agenda Additions and/or Deletions: None.

# <u>Approve Minutes of December 11, 2024 Regular Meeting with a</u> <u>Correction to the Check Numbers to Include Checks 23022-23037.</u> Making the Total Expenditures for December 2024 \$108,445.61.

Mr. Spurr moved to approve the Board Minutes of December 11, 2024 regular meeting with a correction to the check numbers to include checks 23022-23037 making the total expenditures for December 2024 \$108,445.61. Mr. Nagy seconded the motion. Motion carried unanimously.

# Presentation of Fiscal Year 2023/2024 Audit Report by Zach Pehling, CPA

After the presentation of the 2023/2024 Audit Report by Mr. Pehling and a brief discussion with the Board of Trustees, Mr. Lincoln moved to approve the 2023/2024 Audit Report as presented. Mr. Nagy seconded the motion. Motion carried unanimously.

Mr. Pehling left the meeting at 2:00 P.M.

# <u>Election of Lake County Vector Control District Board of Trustees</u> <u>Officers</u>

After some discussion, the Board nominated Mr. Curt Giambruno to continue serving as Board President. The nomination was approved unanimously.

The Board nominated Mr. Ron Nagy to continue serving as the Board Secretary. The nomination was approved unanimously.

# Research Report

Dr. Scott reported on arbovirus activity. During 2024, thirteen mosquito samples, seven sentinel chickens and three dead birds tested positive for West Nile virus (WNV) in Lake County.

For the rest of California, 124 cases of WNV human illness were reported from 23 counties. Five hundred thirty-six WNV-positive dead birds were reported from 22 counties, 2,007 WNV-positive mosquito samples were reported from 25 counties, 159 WNV-positive sentinel chickens were reported, and 7 horses were confirmed with WNV infections from 7 counties.

St. Louis encephalitis virus (SLEV) activity has been detected in 34 mosquito samples from five California counties in 2024.

Sixteen cases of locally acquired dengue virus (DENV) have been reported in residents from three California counties in 2024.

In the rest of the nation, 1,410 human cases of WNV illness have been reported from forty-seven states and the District of Columbia.

Nineteen human cases of Eastern equine encephalitis virus (EEEV) infections have been reported from nine states. Five of the cases were fatal.

Twenty-two human cases of Jamestown Canyon virus (JCV) have been reported in residents of five states. One of the cases was fatal.

Thirty human cases of La Crosse encephalitis virus (LACV) disease have been reported in residents of seven states.

Fifty human cases of Powassan virus (POWV) disease have been reported in residents of ten states. Seven of the cases were fatal. Powassan virus is a tick-borne virus.

There have been one hundred eighty-three cases of travel-related chikungunya (CHIK) virus reported in 2024. No locally acquired cases have been reported in the United States.

There have been twenty-six symptomatic Zika (Zik) virus disease cases reported to the US Centers for Disease Control and Prevention (CDC) in

2024. Seventeen cases were in travelers returning from affected areas and nine were locally acquired in residents of Puerto Rico.

There have been 101 Oropouche (ORO) Fever cases reported in 2024 in the United States from travelers returning from Cuba and other affected areas.

There have been 8,980 dengue cases reported in the United States and its territories so far in 2024. Of these cases, 5,899 were locally acquired in California, Florida, Texas, and the US Territories of Puerto Rico and the US Virgin Isles. The remaining cases were reported in travelers returning from affected areas.

Dr. Scott reported on adult biting fly activity. New Jersey light traps collected low numbers of *Culiseta inornata* (large winter mosquito) from the trap in Upper Lake. The trap near Borax Lake in Clearlake collected low numbers of *Culex tarsalis, Culiseta inornata,* and *Culicoides occidentalis* (biting black gnat).

Dr. Scott reported on tick testing. Two ticks have been submitted for identification and testing since the new surveillance year began on 10/1/2024. Results are pending on both samples.

Dr. Scott reported on Clear Lake gnat, Chironominae, and Tanypodinae surveillance in Clear Lake. In December, the Clear Lake gnat larval count decreased from 0.68 larva per dredge to 0.46 larvae per dredge. Chironominae numbers increased from 13.00 larvae per dredge in October to 71.21 larvae per dredge in December. Tanypodinae numbers increased from no larvae per dredge in October to 0.04 larvae per dredge in December.

# **Operation Report**

The rain gauge at the LCVCD office in Lakeport received 7.65 inches of precipitation during December. The level of Clear Lake was at 3.31 feet on the Rumsey Gauge on December 1 and increased to 5.84 feet by December 31.

No service requests were received in December, which is typical for this month.

The Vector Control Technicians did aquatic weed control in the mosquitofish ponds at the Todd Road Facility. The reduction of a stand of tules growing in the rocks was done manually as herbicides are toxic to fish.

Dr. Scott and Office Manager Jacinda Franusich participated in the  $\sqrt{C3}$  Kickoff Call on December 10. Upcoming events were discussed as well as the District's existing computer and network situation.

The Technicians are also working on improving the District's workspaces by building workbenches and storage solutions.

The certified employees attended the Pest Control Technology's Virtual Rodent Control Conference on December 4.

Three employees from the Marin-Sonoma Mosquito and Vector Control District visited the District on December 10, to learn insect preservation and compare 3D-printing applications.

Vector Control Technicians Brad Hayes and Julian Chavez visited Placer County MVCD on December 10, to learn about their drone program.

On December 11 and 12 several District employees attended the Virtual CalPERS Benefits Education Event.

Entomologist Jessi Edmiston visited the San Mateo County MVCD on December 13. Ms. Edmiston learned about salt marsh mosquitoes and their control, the tick program, and the outreach and education program.

All certified staff will be attending the Mosquito and Vector Control Association of California Annual Conference on January 26-29.

# Board Consideration of Cashing the Vector Control Joint Powers Agency (VCJPA) Retrospective Adjustment Refund and Adding it to the District's FY 2024/2025 Budget

After some discussion, Mr. Bostock moved to approve cashing the VCJPA Retrospective Adjustment Refund and adding it to the District's FY 24/25 Budget. Mr. Lincoln seconded the motion. Motion carried unanimously.

# Approve Checks for the Month of January 2025

Mr. Nagy moved to approve Check Nos. 23038-23074 for the month of January 2025 in the amount of \$69,421.47. Mr. Bostock seconded the motion. Motion carried unanimously.

# Other Business

Dr. Scott mentioned that AB 1234 Ethics Training needs to be completed in 2025. Training options were discussed and it was decided that the Board,

District Manager, and District Office Manager would watch a training webinar as a group immediately before the April 9, 2025 board meeting.

# Announcement of the Next Board Meeting

The next regular meeting of the Board of Trustees of the Lake County Vector Control District will be at 1:30 P.M. on Wednesday, February 12, 2025, in the LCVCD Board Room, 410 Esplanade, Lakeport, CA 95453.

Mr. Spurr moved to adjourn the meeting. Mr. Nagy seconded the motion. There being no other business the meeting was adjourned by President Giambruno at 2:41 P.M.

Respectfully submitted,

Ronald Nagy Secretary

# CITY OF CLEAR LAKE

City Council

SUBJECT:	Authorization of an Amendment of Contract with California Engineering for Additional Engineering Support for the Airport Environmental Impact Report	MEETING DATE:	February 20, 2025	
SUBMITTED BY: Adeline Leyba, Public Works Director				
PURPOSE	<b>DF REPORT</b> : Information only Discussion	Action Item		
WHAT IS BEI	NG ASKED OF THE CITY COUNCIL/BOARD:			

STAFF REPORT

The City Council is being asked to approve an amendment to the current on-call contract with California Engineering Company in the amount of \$70,776.60.

#### BACKGROUND/DISCUSSION:

The city currently has an on-call list of engineers for various engineering needs. Each individual contract has a clause containing a not-to-exceed \$200,000 amount. The city currently has a contract for Engineering Support as part of the Environmental Impact Report process. The current contract provides for wastewater master plan work, water master plan work, grading and drainage plan and a master drainage report. The amended scope of work will add extra grading design work to include storm drainage layout and sewer system layout and geotechnical work in the project area. Any amount exceeding \$200,000 is required to be authorized by a written amendment. To move forward with this contract, staff is requesting approval to authorize the contract amount of \$70,776.60.

#### **OPTIONS:**

- 1. Move to amend the contract with California Engineering Company in the amount of \$70,776.60.
- 2. Other direction

#### FISCAL IMPACT:

None None	\$70,776.60 Budgeted Item?	Yes 🗌 No	
Budget Adjustn	nent Needed? 🗌 Yes 🛛 No	If yes, amount of appropriatio	n increase: \$
•	s):  General Fund  Measur Block Grant Funding	e P Fund 🗌 Measure V Fund	Other: Community
Comments:			

-----

#### STRATEGIC PLAN IMPACT:

Goal #1: Make Clearlake a Visibly Cleaner City

Goal #2: Make Clearlake a Statistically Safer City

Goal #3: Improve the Quality of Life in Clearlake with Improved Public Facilities

Goal #4: Improve the Image of Clearlake

Goal #5: Ensure Fiscal Sustainability of City

Goal #6: Update Policies and Procedures to Current Government Standards

Goal #7: Support Economic Development

#### SUGGESTED MOTIONS:

Move to amend the on-call contract with California Engineering Company in the amount of \$ 70,776.60.

	STAFF REPORT				
SUBJECT:	Authorization of an Amendment of Contract with California Engineering for the CDBG Stormwater Master Plan Project	MEETING DATE:	February 20, 2025		
SUBMITTED BY: Adeline Leyba, Public Works Director					
PURPOSE (	<b>DF REPORT</b> : Information only Discussion	Action Item			

#### WHAT IS BEING ASKED OF THE CITY COUNCIL/BOARD:

The City Council is being asked to approve an amendment to the current on-call contract with California Engineering Company in the amount of \$60,574.47.

#### BACKGROUND/DISCUSSION:

The city solicited proposals for on-call engineering services to provide various engineering services. Each individual contract has a clause containing a not-to-exceed \$200,000 amount. The city currently has an on-call list of engineers for various engineering needs. The city previously had a separate on-call contract with a different consultant for the creation of a Stormwater Master Plan, which has since been terminated, requiring a new consultant with experience in stormwater management. The scope of work required to complete this project will result in an inventory of the city's existing stormwater system, a determination of current capacity and Capital Improvement Plan for improvement of the systems, a summary report and documentation to provide for incorporation into the Lake County GIS program. Any amount exceeding \$200,000 is required to be authorized by a written amendment. To move forward with this contract, staff is requesting approval to authorize the contract amount of \$60,574.47.

#### **OPTIONS:**

- 1. Move to amend the contract with California Engineering Company in the amount of \$60,574.47.
- 2. Other direction

STAFF REPORT					
SUBJECT:	Receive Update on Fire Hazard Mapping from the Office <b>MEETING DATE:</b> Feb. 20, 2025 of the State Fire Marshal				
SUBMITTED BY: Alan D. Flora, City Manager					
PURPOSE OF REPORT: Information only Discussion Action Item					

#### WHAT IS BEING ASKED OF THE CITY COUNCIL:

City Council to receive an update on recent mapping released from the Office of the State Fire Marshal regarding fire hazard zones.

#### **BACKGROUND/ DISCUSSION:**

For several years the state has mapped fire hazard severity zones. They have been primarily focused on areas of state responsibility, although the last round of mapping (around 2015) identified "recommended" very high fire hazard areas in some local responsibility areas. A portion of the City of Clearlake was one of approximately 12 in the state with around 1,000 acres.

Changes in state law now requires the State Fire Marshal's Office to prepare statewide maps showing fire hazard severity. The state responsibility area (SRA) maps were completed last year. Local Responsibility Area (LRA) maps are underway now. While initially expected statewide on January 15<sup>th</sup> the state has reverted to a phased release. The northeast area of the state, including Lake County and Clearlake, was released earlier this week.

The mapping can be reviewed here. <u>https://fire-hazard-severity-zones-rollout-calfire-</u> forestry.hub.arcgis.com/pages/access-map A pdf of the Clearlake zones is attached.

According to state law, the State Fire Marshal shall identify areas in the state as moderate, high, and very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Moderate, high, and very high fire hazard severity zones shall be based on fuel loading, slope, fire weather, and other relevant factors including areas where winds have been identified by the Office of the State Fire Marshal as a major cause of wildfire spread.

Affected cities must do the following:

 Within 30 days of receiving the recommended maps, make the information, including the maps, available for public review and comment.

- Within 120 days of receiving the recommended maps, adopt the recommended map ordinance.
- Within 30 days of local ordinance adoption, submit the ordinance and other required documents to the Board of Forestry and Fire Protection.

A local agency may only increase the level of fire hazard severity as identified by the state fire marshal for any area within their jurisdiction. Fire hazard severity cannot be decreased.

The City has been working with CalFire, local fire agencies, the City of Lakeport, and County of Lake to coordinate the required response. A shared webpage of information is hosted by the Lake County Sheriff's Office of Emergency Services. This can be accessed here. <u>https://lakesheriff.com/1800/Local-Responsibility-Area-LRA-Fire-Hazar</u>

It is important for the public to understand that these maps are created by the California Department of Forestry and Fire Protection (CAL FIRE) under the direction of the State Fire Marshal. Local agencies, including the County of Lake and the Cities of Clearlake and Lakeport, do not control the creation of the maps but are required to ensure the community has the opportunity to review and provide feedback.

#### **OPTIONS:**

- 1. Receive update.
- 2. Direction to Staff.

#### FISCAL IMPACT:

🔀 None	\$	Budgeted Item?	Yes [	No
Budget Adjust	ment N	leeded? 🗌 Yes 🔀	No	If yes, amount of appropriation increase: \$

- 2. League of Cities Informational Document

# **CAL**IFORNIA Local Responsibility Areas Fire Hazara Severity Zone Map Approval Process

# TOP TAKEAWAYS

The Office of the State Fire Marshal (OSFM) is releasing local responsibility area (LRA) maps, designated as moderate, high, or very high in a fire hazard severity zone. Cities will need to:

Make the map available for public review and comment within **30 days**.

LEAGUE OF

CITIES

1

Adopt the designation via local ordinance within 120 days.

# What Do the Maps Measure?

The maps show the physical conditions of landscapes, including fuel loading, slope, fire weather, and other factors (such as wind) that are major causes of wildfire spread. The maps identify fire hazard not risk and are designated in three categories: moderate, high, and very high. Catastrophic risk is used as part of the modeling efforts for fire insurance.

Fire "hazard" is based on physical conditions that create a likelihood and expected fire behavior over a 30 to 50-year period without considering mitigation measures such as home hardening, recent wildfires, or fuel reduction.

VS.

Fire "risk" is the potential damage a fire can do to the area under existing conditions, accounting for any modifications such as fuel reduction projects, defensible space, and ignition resistant building construction.

3

# Understanding the LRA Fire Hazard Severity Zone Map Requirements:

Under existing state law (Government Code Section 51177 to 51179), OSFM is required to designate fire hazard severity zones in the LRA through the release of recommended maps.

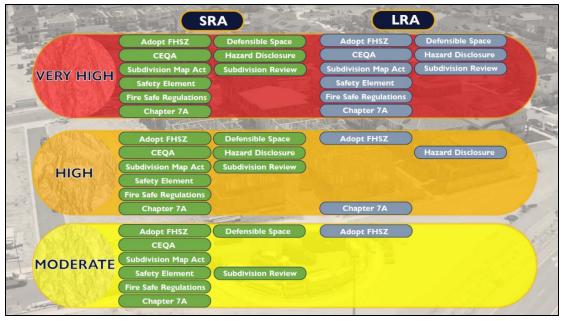

Local agencies with designations in their jurisdiction are then required to:

- Within 30 days of receiving the recommended maps, make the information, including the maps, available for public review and comment.
- Within 120 days of receiving the recommended maps, adopt the recommended map by local ordinance.
- Within 30 days of local ordinance adoption, submit the ordinance and other required documents to the Board of Forestry and Fire Protection.

A local agency may only increase the level of fire hazard severity as identified by OSFM for any area within their jurisdiction. Fire hazard severity cannot be decreased.

# Why Does This Process Matter?

The categories designate fire hazard, which then requires specific actions and mitigation measures, including meeting California Building Code Chapter 7A, defensible space, and fire safe regulations, per each category below. These measure are preventative and intended to help disclose fire hazards.

Graphic provided by California's Office of the State Fire Marshal.

# **Resources Available to Cities:**

On Nov. 1, 2024, the League of California Cities notified city managers and fire chiefs that OSFM anticipated releasing these maps in early 2025. On Dec. 19, 2024, Cal Cities, in coordination with other local government groups, held a webinar with OSFM to go over the map approval process and statutory requirements with cities and counties. **The webinar** <u>recording</u> and <u>presentation</u> are available on the Cal Cities website.

OSFM shared the following resources:

State Fire Marshal's Office LRA Fire Hazard Severity Zone Informational Hub

(This website is intended for local governments only - not the general public.)

- The hub includes:
  - o Overview video on the LRA process
  - o Pertinent reference materials and LRA Frequently Asked Questions
  - OSFM regional contact information
  - o A bookings application to schedule a meeting with OSFM staff
  - o Public model information, data, and videos
  - Model ordinance

Additionally, the California Department of Insurance issued <u>Frequently Asked Questions</u> on the fire hazard severity zone maps and the nexust to fire insurance. For further questions about the release process for the LRA fire hazard severity zone maps, contact your <u>regional CAL FIRE staff</u> or via email: <u>FHSZinformation@fire.ca.gov</u>.

**City Council** 

		STAFF REPORT		
SUBJECT:	Acquire a	o Consider a Resolution of Necessity to Portion of the Hulett Property 12105 San Avenue, Clearlake, CA	MEETING DATE:	Feb. 20, 2025
SUBMITTED BY:		Alan D. Flora, City Manager Dean Pucci, City Attorney		
PURPOSE (	OF REPOR	Γ: 🗌 Information only 🔀 Discussion [	🛛 Action Item	

#### WHAT IS BEING ASKED OF THE CITY COUNCIL:

Conduct Hearing on the Resolution of Necessity and Determine if there is public use and necessity to acquire the property

#### **BACKGROUND/ DISCUSSION:**

The purpose of this hearing, and consideration of a Resolution of Necessity to acquire property by eminent domain, is to provide an opportunity for the property owner to comment or raise objections to the City's use of eminent domain to acquire their property. The action by the City Council is to consider all relevant information provided by staff and any information or testimony from the property owner or their representative, and then determine whether or not:

- 1) The public interest, convenience and necessity require the acquisition of the property:
- 2) If the project is located in the manner that will be most compatible with the greatest public good and the least private injury;
- 3) If the property sought to be acquired is necessary for the City's landslide repair and ongoing landslide protection Project; and
- 4) That the offer required by section 7267.2 of the Government Code has been made to the owners of record of the property to be acquired.

This hearing concerns the public necessity for acquiring the property and the amount of compensation is not the subject of this hearing or the action on the Resolution of Necessity. The City Council previously approved the appraisal and established the amount of just compensation based on that appraisal.

The City's Gooseneck Landslide Emergency Repair Project ("Project") is necessary because a storm event in February of 2024 caused a land slide that threatened the integrity of Lakeshore Drive. Lakeshore Drive is one of the main routes for thousands of residents, who if this area of roadway failed would have to take an approximately one-hour detour to get to their homes.

The required work consisted of removing landslide debris, installing two soil nail walls to per stabilize the landslide areas, new guardrail installation on Lakeshore Drive, hydro seeding disturbed soil, and restoring the areas to as close to their original condition as possible.

A large portion of the land slide was in the City Right of Way, but it was impossible to repair only the area of the land slide in the City Right of Way and not encroach onto private property. If only the City Right of Way portion of the land slide was repaired, it would have failed because an area of the landslide the on the Subject Property would have still been unstable. As a necessary part of the stabilization of the slope encroaching onto the Subject Property a permanent retaining structure was constructed. It is necessary to acquire the Subject Property so that the City may maintain this area and the permanent retaining structure to prevent further landslide events to the extent feasible.

The Project will require the acquisition of an approximately 790 square foot portion ("Subject Property") of the parcel located at 12105 San Joaquin Avenue, Clearlake, CA 95422 and identified as Lake County Tax Assessor's Parcel Number 037-171-100 ("Larger Parcel"). This small portion of property is on the edge of a larger 17,860 square foot parcel. The Subject Property is described more particularly in the exhibits to the draft Resolution of Necessity included in the agenda materials.

Should the Council act to proceed, after acquisition, the land area of the parent property will be enhanced with additional landslide protection from the City Project. The parent property home site will function in a similar fashion as in the "before" condition with no substantial impairment to the subject parent property. Property features such as drainage, present use, vehicular accessibility, configuration, highest and best use, along with overall building condition remain unchanged. The appraisal of the property found there are no severance damages that will accrue to the remainder.

The offer required by section 7267.2 of the Government Code has been made to the owners of record of the property to be acquired. The statutory written offer letter was sent to the Property Owner on January 23, 2025. This offer was made to the owners of record of the Subject Property, based on the appraisal for the fair market value of the Subject Property Interests prepared by Richard Thomas, a California Certified Real Estate Appraiser ("Appraisal Report") that used a date of value of August 1, 2024 ("Date of Value"). Full appraisal reports and summaries thereof were prepared by the appraiser. A summary of the August 1, 2024 inspection and resulting appraisal report is attached hereto as Exhibit C is an exhibit to the draft Resolution of Necessity.

Environmental Determination: The project qualifies for both statutory and categorical exemptions from the California Environmental Quality Act (CEQA) Guidelines. Those exemptions are listed in more detail in the draft resolution.

It is necessary to acquire the Subject Property so that the City may maintain this area and the permanent retaining structure to prevent further landslide events to the extent feasible. Funding for the City Project is reimbursable through the State of California. Under the requirements of CalTrans, because the City installed a permanent structure on the Subject Property the City must acquire the Subject Property as City Right of Way.

1. Resolution of Necessity

#### **RESOLUTION NO. 2025-07**

#### RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CLEARLAKE RESOLUTION OF NECESSITY TO ACQUIRE CERTAIN REAL PROPERTY BY EMINENT DOMAIN AND FINDING THE ACQUISITION EXEMPT FROM CALIFORNIA ENVIRONMENTAL QUALITY ACT (12105 San Joaquin Avenue, Clearlake, CA APN 037-171-100)

THE CITY COUNCIL OF THE CITY OF CLEARLAKE DOES RESOLVE AND ORDER AS FOLLOWS:

<u>Section 1</u>. The property to be acquired by eminent domain is located in the City of Clearlake, County of Lake, is commonly known as a portion of 112105 San Joaquin Avenue, Clearlake, CA 95422, and identified by Assessor Parcel Number 037-171-100 ("Subject Property") to make way for the City's Gooseneck Landslide Emergency Repair Project ("Project"). The Subject Property to be acquired is further described and depicted in Exhibit A, attached hereto and incorporated herein by this reference.

<u>Section 2.</u> Legal authority for the acquisition described herein is set out in Government Code sections 37350.5 and 40404, inclusive, Article I, Section 19 of the California Constitution, and Code of Civil Procedure Sections 1230.010 *et seq.* 

<u>Section 3</u>. The City has advised the property owners affected by the Project of the need for the Project and has offered the property owner an opportunity for a hearing before the City Council on February 20, 2025, pursuant to section 1245.235 of the Code of Civil Procedure, State of California.

<u>Section 4</u>. The Project and the need for acquisition of the Subject Property was the repair of a landslide which impacted Lakeshore Drive and the subject parent property of the property owners. The required work consisted of removing landslide debris, installing two soil nail walls to permanently stabilize the landslide areas, new guardrail installation on Lakeshore Drive, hydro seeding disturbed soil, and restoring the areas to as close to their original condition as possible.

<u>Section 5.</u> After consideration of the staff report, the staff presentation, oral testimony given, and all other evidence in the record, all of which is incorporated herein by this reference, the City Council of the City of Clearlake has found and determined each of the following to be true:

- a. That the public interest, convenience and necessity require the acquisition of the proposed Subject Property for the benefit of the City's landslide repair Project and the ongoing maintenance of the public right of way.
  - 1. The Project is necessary because a storm event in February of 2024 caused a land slide that threatened the integrity of Lakeshore Drive. Lakeshore Drive is one of the main routes for thousands of residents, who if this area of roadway failed would have to take an approximately one-hour detour to get to their homes.

- 2. A large portion of the land slide was in the City Right of Way, but it was impossible to repair only the area of the land slide in the City Right of Way and not encroach onto private property. If only the City Right of Way portion of the land slide was repaired, it would have failed because an area of the landslide the on the Subject Property would have still been unstable.
- 3. As a necessary part of the emergency stabilization of the slope encroaching onto the Subject Property a permanent retaining structure was constructed.
- 4. It is necessary to acquire the Subject Property so that the City may maintain this area and the permanent retaining structure to prevent further landslide events to the extent feasible.
- 5. Funding for the City Project is reimbursable through the State of California.
- 6. Under the requirements of CalTrans, because the City installed a permanent structure on the Subject Property the City must acquire the Subject Property as City Right of Way. If the City does not acquire the Subject Property for additional City Right of Way, the City will not get reimbursed for the construction costs which will be a substantial burden on the City's General Fund.
- 7. The Project will benefit the public by reducing the risk of further landslides potentially causing grave risks to motorists and impacting the safety and security of the public using Lakeshore Drive.

b. The Project is located in the manner that will be most compatible with the greatest public good and the least private injury.

Public Good:

- 1. The Subject Property presently abuts the existing right of way which can only be protected by ongoing maintenance of the permanent retaining structure located on the Subject Property if the Subject Property is acquired.
- 2. The City Project repairing the landslide area also served to protect the remainder of the Hulett property and their home. The Hulett's gave the City and its Contractor written permission to be on their property to fix the land slide and ultimately save their home.

Least Private Injury:

- 3. The Subject Property is a 790 square foot portion of land on the edge of a larger 17,860 square foot parcel.
- 4. After acquisition, the land area of the subject parent property will be enhanced with additional landslide protection from the City Project. The subject parent property home site will function in a similar fashion as in the "before" condition with no substantial impairment to the subject parent property. P roperty features such as drainage, present use, vehicular accessibility, configuration, highest and best use, along with overall building condition remain unchanged. There are no severance damages that will accrue to the remainder.
- 5. The Property Owner will be justly compensated for the partial fee take.
- c. That the Subject Property sought to be acquired is necessary for the City's landslide

repair and ongoing landslide protection Project. Without the acquisition of the Subject Property, the City will not be able to proceed with the Project.

The Project cannot be permanently maintained without acquisition of the Subject Property. No reasonable design alternatives exist that would enable the City to accomplish the Project without acquiring the Subject Property.

- d. That the offer required by section 7267.2 of the Government Code has been made to the owners of record of the property to be acquired.
  - 1. A statutory written offer letter was sent to the Property Owner on January 23, 2025.
  - 2. The offer required by Government Code Section 7267.2 has been made to the owners of record of the Subject Property, based on the appraisal for the fair market value of the Subject Property Interests prepared by Richard Thomas, a California Certified Real Estate Appraiser ("Appraisal Report") that used a date of value of August 1, 2024 ("Date of Value"). Full appraisal reports and summaries thereof were prepared by the appraiser. A summary of the August 1, 2024 inspection and resulting appraisal report is attached hereto as Exhibit B and incorporated herein by this reference.
- e. The acquisition of the Subject Property is exempt from environmental review pursuant to the California Environmental Quality Act (CEQA). The City of Clearlake has fully complied with all requirements of the California Environmental Quality Act. The proposed acquisition of the Subject Property is in compliance with the City's General Plan.
  - 1. The Project is statutorily exempt under CEQA Guidelines section 15269, Emergency, subsection (f), as this Project was undertaken, carried out, and approved by the City to maintain, repair, or restore an existing highway damaged by fire, flood, storm, earthquake, land subsidence, gradual earth movement, or landslide, provided that the project is within the existing right of way of that highway and is initiated within one year of the damage occurring.
  - 2. The Project is Categorically Exempt under CEQA Guidelines section 15301 Class 1, Existing Facilities, which consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. Subsections (c) and (d) which state: (c) Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety), and other alterations such as the addition of bicycle facilities, including but not limited to bicycle parking, bicycle-share facilities and bicycle lanes, transit improvements such as bus lanes, pedestrian crossings, street trees, and other similar alterations that do not create additional automobile lanes); (d) Restoration or rehabilitation of deteriorated or damaged structures, facilities, or mechanical equipment to meet current standards of public health and safety, unless it is

determined that the damage was substantial and resulted from an environmental hazard such as earthquake, landslide, or flood.

- 3. The Project is Categorically Exempt under CEQA Guidelines section 15301 Class 1, Existing Facilities, Class 1, subsection (f) which states: Addition of safety or health protection devices for use during construction of or in conjunction with existing structures, facilities, or mechanical equipment, or topographical features including navigational devices.
- 4. The Project is Categorically Exempt under CEQA Guidelines section 15325, Class 25, Transfers of Ownership Of Interest In Land To Preserve Existing Natural Conditions And Historical Resources which consists of the transfers of ownership of interests in land in order to preserve open space, habitat, or historical resources, specifically subsection (c) Acquisition, sale, or other transfer to allow restoration of natural conditions, including plant or animal habitats.

<u>Section 6</u>. The Jones & Mayer law firm, City Attorneys for the City of Clearlake, are hereby authorized to commence and prosecute condemnation proceedings in a court of competent jurisdiction on behalf of the City of Clearlake to acquire the property. The City Attorney, or his designee, the City Manager, and all other officers and employees of the City of Clearlake are each hereby authorized to sign and verify all papers necessary to commence and prosecute said condemnation proceedings, to make application to said court for an order fixing the amount of security by money deposits as the court may direct, and to obtain an order permitting the City of Clearlake to take immediate possession and use of said real property prior to judgment, and to make deposit of such security of property funds in such amounts so fixed and determined in such manner as the court in which said condemnation proceedings are pending may direct.

ADOPTED AND APPROVED by the City Council of the City of Clearlake this 20<sup>th</sup> day of February, 2025 by the following vote:

All that real property situate in the City of Clearlake, County of Lake, State of California, and described as follows:

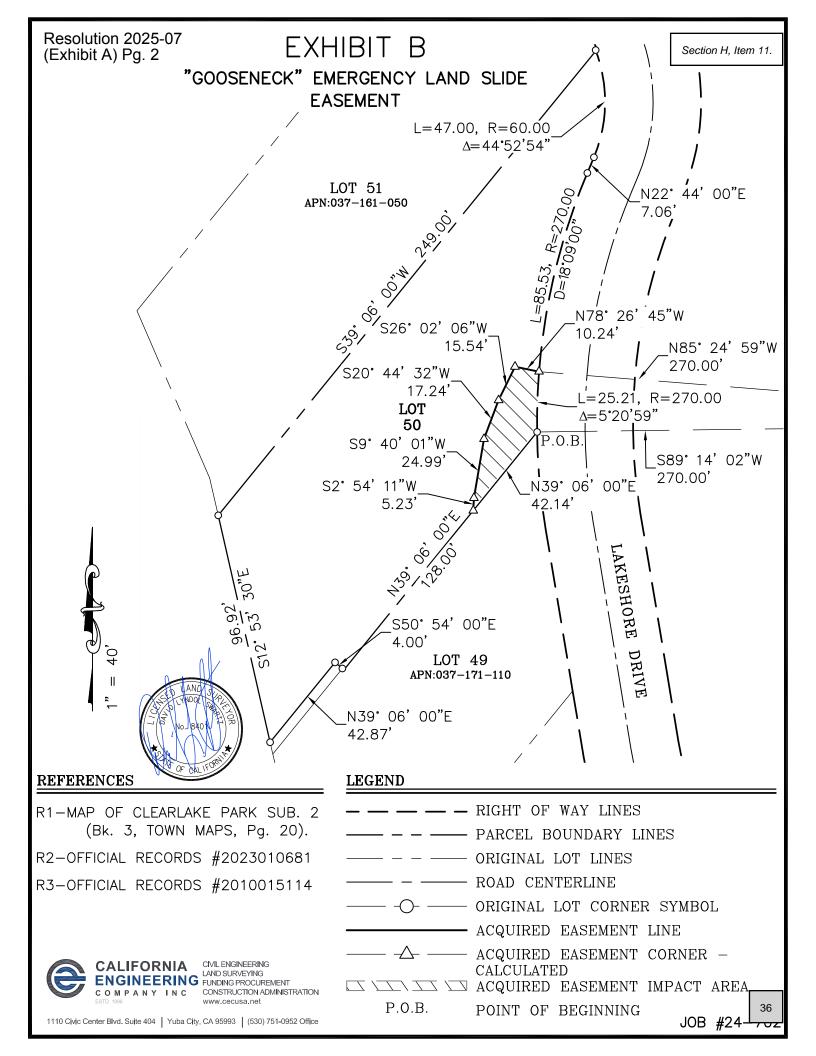

A portion of Lot 50, as shown upon that certain map entitled "Map of Clearlake Park, Subdivision No. 2" on file with the Lake County Recorder's Office in Book 3, of Town Maps, at Pages 17 to 20, inclusive, and more particular described as follows:

Beginning at the northerly most corner of Lot 49, said point also being on the westerly right of way line of Lakeshore Drive and 41.00 feet distant from the beginning of a curve to the right, as shown upon said "Map of Clearlake Park"; thence, continuing along said curve to the right, having a Radius of 270.00 feet, a Tangent bearing of North 01° 54' 31" East a distance of 25.20 feet, a Central Angle of 5° 20' 59", and an arc length of 25.21 feet; thence, departing the westerly right of way line of Lakeshore Drive, North 78° 26' 45" West a distance of 10.24 feet; thence South 26° 02' 06" West a distance of 15.54 feet; thence South 20° 44' 32" West a distance of 17.24 feet; thence South 9° 40' 01" West a distance of 24.99 feet; thence South 2° 54' 11" West a distance of 5.23 feet , more of less, to a point on line common to Lot 49 and Lot 50, thence North 39° 06' 00" East a distance of 42.14 feet, to the Point of Beginning.

The above-described parcel contains 780.29 square feet, more or less.

APN: 037-171-100

Resolution 2025-07 (Exhibit B)

#### Section H, Item 11.

707 987-2227

#### **RICHARD S. THOMAS**

17568 Spruce Grove Road Extension Suite F Hidden Valley Lake, California 95467

City of Clearlake 14050 Olympic Drive Clearlake, California 95422 Public Works Construction Project Manager Trystan Hayes

August 9, 2024

Dear Ms. Hayes:

Per your request, I have inspected the real property located at 12105 and 12115 San Joaquin Avenue, Clearlake, California, County of Lake, commonly referenced as Lake County Assessor Parcel Numbers 037-171-10 & 11.

An appraisal of the above referenced property has been made. The effective date of this valuation is August 1, 2024

This is a real appraisal report in summary format that includes pertinent information regarding valuation.

The report has limiting conditions and certification, which are located within the body of this report.

Only the real property rights were appraised, and no personal property is included in the final opinion of value.

#### **Special Conisderations:**

This report has the following considerations and assumptions:

1. There are no legal issues that would affect the marketability of the subject.

2. There are no surface or sub-soil conditions that would have a negative impact.

- 3. There are no issues that would physically or legally impact the use of the site for improvements that are allowed by zoning regulations.
- 4. The purpose of this appraisal is consideration for easement compensation.
- 5. The definition of Fair Market Value substitutes the words "Highest Price Possible" given all other functions of the definition of Fair Market Value.

In the valuation process, Mr. Scott Hermanson, a certified licensed appraiser performed the valuation of the Cooper and Hulett properties as we first determine the value of the whole property to measure any potential loss in value as a result Of any damage to the remainder, if applicable. Mr. Hermanson's is a current certified licensed appraiser and as a result of his investigations he estimates the values of the whole as follows:

#### 12105 San Joaquin Avenue (Hulett) \$610,000.00

12115 San Joaquin Avenue (Cooper) \$160,000.00

Market Comparisons of vacant land sales were also selected and are attached, which show the range of Price per Sq. Ft. of properties. Research parameters were closed vacant land sales in the immediate Clearlake areas of closed transfers from the start of 2023 through current date of value. The overall range was \$.77 per sq. ft. to \$7.80 per sq. ft. I have further reviewed the data and found that the \$7.80 sale included fencing, utilities, and a mobile home. The other sales that were above \$3.00 also had additional items that increased the value. The most typical range is the \$1.00 to \$2.50 per sq. ft. range. Since the Definition of Fair Market Value utilized in this report is "Highest Price Possible" – The take areas are calculated at \$2.5 per sq. ft. Additionally, only 50 percent of the value is assigned as the take areas are in a portion of the site that has less value due to steep utility and not usable for development.

#### FAIR COMPENSITATION ESTIMATED:

12105 San Joaquin Avenue

The final valuation is based on the following:

Total site size:17,860 Sq. Ft.

Total Take Area: 789.29 sq. ft.

#### Estimated Fair Market Value before Take:

Estimated Fair Market Value after Take: 789.29 sq. ft. @ \$2.50 per sq. ft. = \$1,973.23 at 50% total = \$986.61 rounded to: \$990.00.

Special Benefit and or Diminishment of Value, if applicable: N/A

#### FAIR COMPENSTATION ESTIMATED:

12115 San Joaquin Avenue

The final valuation is based on the following:

Total site size:24,394 Sq. Ft.

Total Take Area: 2,694.79 sq. ft.

## Estimated Fair Market Value before Take:

Estimated Fair Market Value after Take: 2,694.70 sq. ft. @ \$2.50 per sq. ft. = \$6,736.98 at 50% total = \$3,368.49 rounded to: \$3,370.00.

Special Benefit and or Diminishment of Value, if applicable: N/A

As of August 1, 2024, my opinion of Fair Compensation of the subject take area, subject to those conditions as stated within this report and as defined within the report as follows:

## 12105 San Joaquin Avenue, Clearlake, California 95422 to be: \$990.00. (NINE HUNDRED NINETY DOLLARS)

12115 San Joaquin Avenue, Clearlake, California 95422 to be: \$3.370.00. (THREE THOUSAND THREE HUNDRED SEVENTY DOLLARS)

Respectfully submitted

Richard S. Thomas Appraiser Rst/rt

## **Description of the Appraisal Process:**

This appraisal report is intended to be an "appraisal assignment" as defined in the Standards of Professional Appraisal Practice of the Appraisal Institute; that is, it is the intent that the appraisal service be performed in such a manner that the results of the analysis, opinion, or conclusion be that of a disinterested third party.

In the preparation of this appraisal, I have inspected the subject property, consulted with the various agencies within the County of Lake which are located at 255 Forbes Street, Lakeport, California and city officials in the City of Lakeport and the City of Clearlake and have reviewed information obtained in public files as well as information provided by the client and the property owner.

To obtain the necessary data to arrive at the stated conclusions, I conducted an inspection of the property and neighborhood. I have relied on the County of Lake Assessor's plat map for the size of the subject parcel.

I have analyzed the County of Lake real estate market considered reflective of the subject property. Verified comparables were included in this report; several other comparables were also analyzed, but not specifically shown since they did not provide any additional support to the final value conclusion. The data regarding these transactions is presented here in the way it was provided to the appraiser. No information has been included which is not believed to be accurate. In addition, economic conditions in the subject's market area have been observed and reported in this appraisal.

Unless otherwise stated in this report, the existence of hazardous materials, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials on or on the property. The appraiser is not qualified, however, to detect such substances. The presence of caustic or toxic substances or other potentially hazardous materials may affect the value of the subject property. The value estimate is predicated on the assumption that there are not such materials on or in the property that would cause a loss in value.

#### Purpose of the appraisal

The purpose of this appraisal is to estimate the Fair Market Compensation based on the Fair Market Value of the subject property in "as is" condition of the subject properties located at 12105 and 12115 San Joaquin Ave., Clearlake, California 95422

#### **Definition of Fair Market Value**

The <u>Highest Price Possible</u>, which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1. Buyer and seller are typically motivated;
- Both parties are well informed or well advised, and acting in what they consider their own best interest;
- A reasonable time is allowed for exposure in the open market;
- Payment is made in terms of cash in U.S. Dollars or in terms of financial arrangement comparable thereto; and
- 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

#### **Definitions of values requested**

Market value as is means an estimate of the market value of a specified interest in the property in the condition observed upon inspection and as it physically and legally exists without hypothetical conditions, assumptions, or qualifications.

This is a limited summary report, which is intended to comply with the reporting requirements as set forth under standards rule 2-2 of USPAP.

### Scope of appraisal:

In this report, the scope of the appraisal includes the physical inspection of the subject site and any improvements and calculations of the various areas as well as reviewing any documentation that may exist that pertains to the subject provided by county government agencies and/or provided by others.

The compilation and analysis of all relevant local and regional economic data is reviewed and an investigation as to the highest and best use of the subject property is applied. Additionally, the investigation, review, and verification of comparable data is required which provides the basis of considering the three approaches to value and if they are applicable. In conclusion, a reconciliation of all the facts and data is completed and the appraiser arrives at a single opinion of value sought in this assignment.

#### **Property rights:**

In this report, the property rights appraised were in fee simple. No personal property was included in the conclusion of value.

#### **Date of valuation:**

August 1, 2024

#### Vesting:

According to the County of Lake Recorders Office, as of the date of this report, the ownership of the subject property is as follows:

Hulett and Cooper Sales history:

The subject records and other data were reviewed and neither property has sold or been listed during the past thirty six months.

#### Marketing time:

In review of MLS data, CMDC, local realtors, and experience, it is estimated that the normal marketing time for this type of property in this area is three to six months during normal market conditions with typical marketing strategies.

#### Intended user / intended use:

The intended user of this report is: City of Clearlake.

The purpose of this report is consideration of Fair Compensation of Easement take area.

#### Photos disclaimer:

While the photos in this report are considered to be reasonable depictions of the subject these photos are not guaranteed to provide accurate site views due to the lack of survey of the subject property.

#### Competency of appraiser:

This appraiser hereby certifies that I possess the knowledge and required ability to appraise the subject property and has appraised similar types of property.

#### **DEFINITION OF MARKET VALUE**

The <u>*HIghest*</u> price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- Buyer and seller are typically motivated.
- Both parties are well informed or well advised, and each acting in what he considers his own best interest.
- A reasonable time is allowed for exposure in the open market.
- Payment is made in terms of cash in U.S. Dollars or in terms of financial arrangements comparable thereto.
- The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs that are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concession based on the appraiser's judgment.

#### **HIGHEST AND BEST USE**

Highest and Best Use is defined as the legal use which, at the time of appraisal, is most likely to produce the greatest net return to the land.

Generally, land must be utilized to conform to standards governing the area in which it is located. A primary reason for zoning regulation is to protect an area from infiltration of or conversation to, in harmonious uses.

in determining the highest and best use of this property, the following factors are considered:

- · --design, age, and condition of the improvements
- --extent, utility, and zoning of the land
- --demand for this type of property.

#### DEPRECIATION

A loss of utility and, hence, value from any cause. An effect caused by deterioration and/or obsolescence. deterioration or physical depreciation is evidenced by wear and tear, decay, dry rot, cracks, encrustations, or structural defects. Obsolescence is divisible into two parts, functional and external. Functional obsolescence may be due to poor floor plan, mechanical inadequacy due to supradequacy, functional inadequacy or overadequacy due to size, style, age, etc.

It is evidenced by the conditions within the property. Economic obsolescence is caused by changes of inharmonious groups or property uses, legislation, etc. (Boyce, Byrl N., "Real Estate Appraisal Terminology," University of Connecticut, sponsored jointly by the American Institute of Real Estate Appraisers, the Society of Real Estate Appraisers, 1975.)

### CONTINGENT AND LIMITING CONDITIONS

The certification of the appraiser appearing in the appraisal report is subject to the following conditions and to such other specific and limiting conditions as are set forth by the appraiser in the report:

- 1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or the title thereto, nor does the appraiser render any opinion marketable. The property is appraised as though under responsible ownership.
- Any sketch in the report may show approximate dimensions and is included to assist the reader in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made therefor.
- 4. Any distribution of the valuation in the report between land and improvements applies only under the existing program of utilization. The separate valuations for land and building must not be used in conjunction with any other appraisal and are invalid if so used.
- The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering which might be required to discover such factors.
- Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished the appraiser can be assumed by the appraiser.

## CONTINGENT AND LIMITING CONDITIONS, CONTINUED:

- 7. Disclosure of the contents of the appraisal report is governed by the bylaws and regulations of the professional appraisal organizations with which the appraiser is affiliated.
- 8. On all appraisals subject to satisfactory completion, repairs, or alterations, the appraisal report and value conclusions are contingent upon completion of the improvements in a workmanship like manner.
- 9. Unless otherwise noted, assumption is made that there are are no encroachments, zoning, or restrictive violations existing on the subject property.
- 10. No opinion is intended to be expressed on matters which require legal expertise or specialized investigation or knowledge beyond that customarily employed by real estate appraisers.
- 11. The date shown in this report shall apply to statements of value and all conclusions as date of record.
- 12. No responsibility for economic or physical factors is assumed which may affect the opinions provided that may be present or occur at some date after the date of value.
- 13. The right to make adjustments to the valuation within this report is reserved, as may be require by the consideration of additional data or more reliable data that may become available.
- 14. The liability of Richard S. Thomas and Associates is limited to the Client only and to the amount of fee actually paid for services rendered, as liquidated damages, if any related dispute arises. further, there is no liability, obligations, or accountability to any third party. The same is not responsible for any costs incurred to discover or correct any deficiencies of any type of present in the property.

## CONTINGENT AND LIMITING CONDITIONS, CONTINUED;

- 15. No studies have been completed to determine the property's probable maximum loss during a seismic event. This report assumes no responsibility from seismic event.
- 16. Information regarding any earthquake and flood hazard zones for the Subject property was provided by outside sources. Accurately reading flood hazard and earthquake maps, as well as, tracking constant changes in the zone designations, is a specialized skill and outside the scope of the services provided by this appraisal assignment. No responsibility is assumed by the appraiser in the misinterpretation of these maps. This appraiser strongly urges the reader user of this report to reverify earthquake and flood hazard data.

;

#### CERTIFICATE OF APPRAISAL

The appraiser certifies and agrees that:

- 1. The appraiser has no present or contemplated future interest in the property appraised; and neither the employment to make the appraisal, nor the compensation for it, is contingent upon the appraised value of the property.
- 2. The appraiser has no personal interest in or bias with respect to the subject matter of the appraisal report or the participants to the sale. The "estimate of market value" in the appraisal report is not based in whole or in part upon occupants of the properties in the vicinity of the property appraised.
- 3. The appraiser has personally inspected the property, both inside and out, if applicable, and has made an exterior inspection of all comparable sales listed in the report. To the best of the appraiser's knowledge and belief, all statements and information is true and correct, and the appraiser has not knowingly withheld any significant information.
- All contingent and limiting conditions are contained herein (imposed by the terms of the assignment of by the undersigned affecting the analysis, opinions, and conclusions contained in this report).
- 5. This appraisal report has been made in conformity with and is subject to the requirements of the code of professional ethics and standards of professional conduct of the appraisal organizations with which the appraiser is affiliated.
- 6. All conclusions and opinions concerning the real estate that are set forth in the appraisal report were prepared by the appraiser whose signature appears on the appraisal report, unless indicated as "review appraiser." No change of any item in the appraisal report shall be made by anyone other than the appraisers, and the appraiser shall have no responsibility for any such unauthorized change.

Dated: Signed:

## DISCLOSURE RESTRICTIONS

Neither all, nor any part of the content of the report, or copy thereof (including conclusions as to the property value, the identify of the appraiser, professional designations, reference to any professional appraisal organizations, or the firm with which the appraiser is connected), shall be used for any purposes, by anyone but the client specified in the report.

The borrower, if appraisal fee paid by the same, the mortgage or it's successors and assigns, mortgage insurers, consultants, professional appraisal organizations, any state or federally approved financial institution, any department, agency or instrumentality of the United States or any State or the District of Columbia, without the previous written consent of the appraiser; nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent and approval of the appraiser.

(1) ResIAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal.

(2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 50 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.

(3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fail within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.

Section H, Item 11.

To: Hulett, Andrew D 12105 San Joaquin Avenue Clearlake, California 95422

From: Richard S. Thomas

**Re: Valuation Request** 

July 30, 2024

Dear Hulett, Andrew D:

I have been requested by the City of Clearlake to provide and independent appraisal on the property located at 12105 San Joaquin Avenue, Clearlake, California.

According to the City of Clearlake, they have authorized me to enter the property to view the site as part of the appraisal process.

By way of this letter I am:

- Conforming that I may enter the property for inspection. (I will not need to view the interior of any buildings at this time).
- Providing you notice of such request and if you or your representative wish to meet me at the site.
- You wish to provide me with any information and data you would like me to consider.

Please feel free to contact me should you have any questions and or wish to discuss any of the above points.

With Kind Regards,

**Richard S Thomas** 

Real Property Appraiser (707) 987-2227

To: Cooper, Mark E and Renee PO BOX 41360 Sacramento, California 95481

# ssumptions, Limiting Conditions & Scope of Work

Property Address: City: Clearlake 12105 San Joaquin Ave

State: CA Zip Code: 95422 14050 OLYMPIC DR, CLEARLAKE, CA 95422

Client: CITY OF CLEARLAKE Address: Appraiser: Scott W. Hermanso Address: 17568 Spruce Road Ext., Suite F, Hidden Valley Lake, CA 95467 STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS - The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership. - The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed. - If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination. - The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand. - If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and hest use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such. - The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property. - The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws. - If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner. - An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment. - The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database. - An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate. The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions. Additional Comments (Scope of Work, Extraordinary Assumptions, Hypothetical Conditions, etc.):

	APPRAISER'S CERTIFICATION				

I certify that, to the best of my knowledge and belief:

The statements of fact contained in this report are true and correct.

- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only bv

the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.

- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

- My engagement in this assignment was not contingent upon developing or reporting predetermined results.

- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction

in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.

- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.

- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.

- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

Additional Certifications:

For easement and take purposes the highest price possible of the market value range is used.

#### **DEFINITION OF MARKET VALUE \*:**

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;

2. Both parties are well informed or well advised and acting in what they consider their own best interests;

3. A reasonable time is allowed for exposure in the open market;

4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

File No

			1.10		
Borrower	N/A				
Property Address	12105 San Joaquin Ave				
City	Clearlake	County Lake	State CA	Zip Code	95422
Lender/Client	N/A			· · · ·	

The subject is located in the Clear Lake Park area. This area is a continuation of the city of Clearlake but is not within the city boundaries. The area is bordered by Clear Lake, the largest natural lake in the State of California, as it is a narrow strip of land that extends westerly to the tip of Windflower Point subdivision. The area consists primarily of average to good quality single family dwellings. Most homes have lake view and or lake front sites. The area is ten to fifteen minute drive to the downtown area of the city of Clearlake. There are a variety of retail facilities as well as standard small community office services. It is common for residents in Lake County to commute to employment which come from mostly the city of Clearlake and the city of Lakeport with some traveling as far as Santa Rosa and Ukiah. There is a wide variety of recreational facilities in Lake County. The city of Lakeport which is the county seat is approximately thirty minute drive to the west and the larger city of Ukiah which is the county seat for Mendocino county is one hour drive to the west. The nearest metro area is Santa Rosa and is 1.5 hour drive to the south west. Sacramento, the capitol of the State of California is located 2 hours to the south east and the greater San Francisco Bay Area is located 2.5 hours to the south west. At the time of the inspection there were no noted neighborhood influences noted.

The subject site is zoned LDR, which is a residential zoning that allows one single family dwelling unit per lot with a minimum lot size of 5,000 sq. ft. required for construction. Typical set back lines exist as well as standard height limitations. The subject is legal under current zoning.

The subject is an existing single family residential unit located on a lot with single family residential zoning, given that the current use is the only legally permissible use for development and single family use is physically possible, financially feasible and the maximally productive use of the land, the Highest and Best Use is the current use as developed as a single family residential property.

The percentage of land use indicated in this report as other is vacant parcels and undeveloped land.

Subject address: it should be noted that there are some areas within Lake county that are not recognized by the United States Postal Service and it is customary for the county of lake to assign a situs address, the subject is such a property and a USPS address does not exist for the property. Therefore the situs address assigned by the county is used in the USPS format.

After an extensive and exhaustive search through MLS, realtors, and data files and the comparisons selected were deemed to be the most recent and similar that could be found. In Lake County, the market in general consists primarily of a vast mixture of homes with the significant number of properties in the county being custom built with only a half dozen tract subdivisions that have similar floor plans. In addition the subject is a lake front home which further limits the number of similar properties. Lake front homes typically have long term ownership with very few turn overs each year. Because of these factors, and due to the fact that the county is diverse in styles, site sizes, and quality inter-mixed within neighborhoods and due to typical limited turn overs in the county it is not uncommon to utilize comparisons that are distant from the subject property and/or the use of older dated and/or the utilization of comparisons that require substantial adjustments which often exceed what is considered to be "ideal" comparisons and exceed typical underwriting guidelines.

This report was performed as a drive by with no interior inspection of the home, and assumes that the interior condition of the subject is similar to the exterior, additionally this exterior report relies on third party information which the appraiser assumes is accurate and correct, if this is not the case the indicated value of the subject could be significantly different than what is reflected in this report.

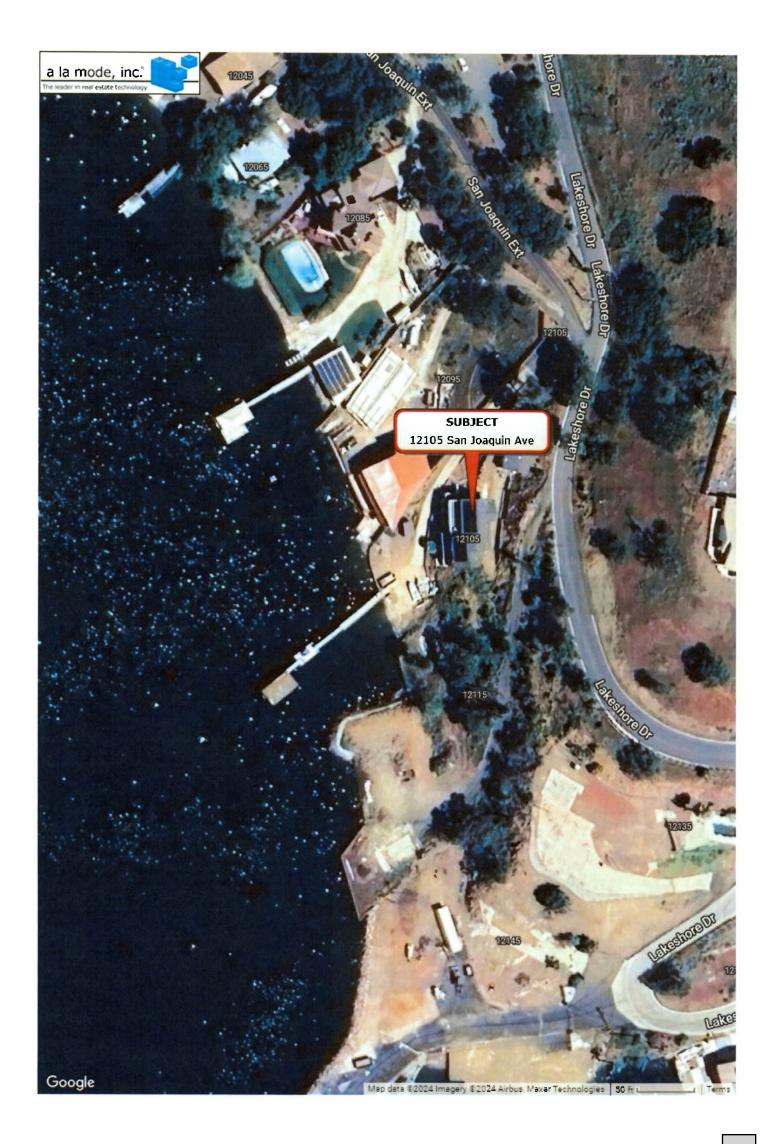

The subject is a lake front home when many of the homes in the neighborhood are not and the indicated value is above the predominate value of the neighborhood, however lake front homes such as the subject historically have had good marketability and the subject is not considered an over improvement.

The appraiser has not identified any purchaser, borrower or seller as an intended user of this appraisal, and no such party should use this appraisal for any purpose. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. Any reference to or use of this appraisal report by a purchaser, borrower or seller for their own purposes, including without limitation for the purposes of a property purchase decision or an appraisal contingency in a purchase agreement, is at such party's own risk and is not intended or authorized by the appraiser.

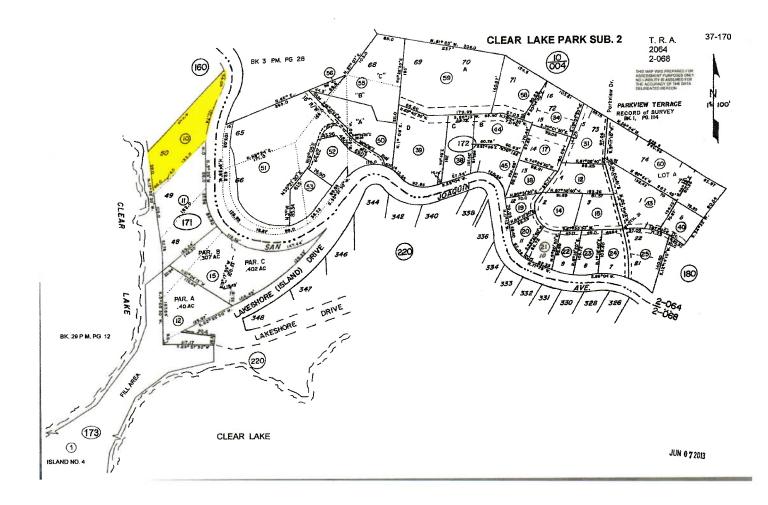

The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

# Re: Notice of Objection and Request for Opportunity to be Heard at Hearing on Resolution of Necessity; Site Address: 12105 San Joaquin Extension, Clearlake, CA 95422; APN 037-171-100

To The Honorable City Council Members:

We have been retained as counsel by Andrew and Bailey Hulett ("the Huletts") with respect to the proposed acquisition by the City of Clearlake ("City") by eminent domain of portions of the above-referenced property ("Subject Property") for the Gooseneck Landslide Emergency Repair Project ("Project")

The Huletts do not question the necessity of the Project itself. However, as discussed below, they question the need for taking the Huletts' property for that Project, and they also question the extent of the taking.

The Huletts hereby object to the City Council Members' consideration of adopting the abovereferenced Resolution of Necessity, as they request postponement pending receipt of further information. If the hearing proceeds, they request the opportunity to be heard at the public hearing on February 20<sup>th</sup>, 2025. Letter to City Council February 20, 2025 p. 2

### A. The Resolution of Necessity Should Be Postponed.

The Huletts respectfully request that this matter be removed from any final determination at the February 20<sup>th</sup>, 2025 meeting because it is premature. The City has failed to adequately identify the boundaries of the proposed taking, and it has failed to identify the need for the extent of the taking that has been indicated. The City has not yet provided the Huletts with a plat map showing the relationship between the area proposed to be taken and the current and previously approved improvements on the Subject Property (including the Huletts' home itself, surrounding decks, and their garage). While they appreciate that stakes were recently placed by the City, these stakes do not clearly identify the boundary lines of the taking and there has not been any opportunity for the Huletts to obtain clarification. The information that the Hulett have received, including the drawings and stakes placed, raises questions that need to be answered before a proper hearing can take place. The Huletts would like additional time to get a full evaluation by walking the property with a representative from the City to help identify what is being taken and what boundaries, structures and improvements on the Subject Property would be affected.

# B. The Huletts Object to Any Determination that the Taking Associated With the Project as Presently Configured is Necessary

However, in the event the Council decides to proceed with the public hearing for consideration of a Resolution of Necessity to acquire portions of the Subject Property, the Huletts object to such a finding on several grounds as discussed below:

# 1. The Proposed Taking is Planned and Located in a Manner That Is Not Compatible with The Greatest Public Good and the Least Private Injury

The Huletts respectfully disagree that the project currently proposed is being planned and located in a manner that is most compatible with the greatest public good and the least private injury as required under California Code of Civil Procedure Section 1240.030 (b). While they do not disagree that the Project itself is pursuant to the public interest, they do object to the amount of their Property proposed to be taken for the Project, although the boundaries remain somewhat uncertain. Additionally, the Huletts do not agree that any of the Subject Property needs to be taken to accomplish the Project.

The boundaries of the taking as indicated to date (though still not well understood) appear to indicate that the taking currently proposed would cause the Huletts to lose portions of the Subject Property that are the site of standing structures. One stake placed in connection with the proposed taking appears to indicate that a boundary line will be immediately adjacent to their home. If these stakes are accurate, the Huletts will be precluded from proceeding with previously-approved

Letter to City Council February 20, 2025 p. 3

structures and improvements, and will be impaired in their ability to add and improve on the entire property and hinder their quiet enjoyment of the Subject Property, where they live with their family. They see no reason why the "public good" requires taking of these portions of the Subject Property.

#### 2. The Property Sought to be Acquired is Unnecessary for the Project

The Huletts respectfully contest that the area sought to be taken is necessary for the Project within the meaning of Code of Civil Procedure § 1240.030(c). As stated above, they believe that the Project can be completed without taking any or all of the portion of the Subject Property proposed to be taken.

#### Conclusion

For the foregoing reasons, among others, the Huletts respectfully submit that the City should not consider adoption of the proposed Resolution of Necessity on February 20<sup>th</sup>, 2025.

In the event that the public hearing proceeds on February 20<sup>th</sup>, 2025, the Huletts respectfully request that the City Council should deny the Resolution of Necessity. They do not agree with the proposition that the taking as currently configured is necessary for the Project.

Thank you for your time and consideration.

Sincerely

Robert R. Riggs Attorney for Andrew and Bailey Hulett
