

City Council Work Session

Crest Hill, IL

June 22, 2026

7:00 PM

Council Chambers

20600 City Center Boulevard, Crest Hill, IL 60403

Agenda

MAYOR

CLERK

TREASURER

CITY ADMINISTRATOR

1. IML Conference Discussion

ECONOMIC DEVELOPMENT DEPARTMENT

1. Discuss Commercial Grant Program Revisions (Formerly Facade Program)
2. Plumbing and Windows Discussion

ENGINEERING DEPARTMENT

POLICE DEPARTMENT

PUBLIC WORKS DEPARTMENT

1. Presentation of Backflow Solutions, Inc. (BSI) Agreement to Assist in the Administration, Tracking, and Notification Requirements Associated with the City's Backflow Prevention Program
2. Approval of the purchase of a new 2027 Ford Police Interceptor Utility Including a Comprehensive K9 Equipment Package in the Amount of \$63,7070.87
3. Approval of the Purchase of a New 2027 Ford Police Interceptor Utility Including a Comprehensive Patrol Equipment Package in the Amount of \$59,457.13
4. Approval of the Purchase of a New 2027 Airtow T14-12 Trailer in the Amount of \$21,530.00
5. Presentation of the 2026 50/50 Tree Planting Program

FINANCE DEPARTMENT

PUBLIC COMMENT(Limit 3 minutes per person)

EXECUTIVE SESSION:

ADJOURNMENT

The Agenda for each regular meeting and special meeting (except a meeting held in the event of a bona fide emergency, rescheduled regular meeting, or any reconvened meeting) shall be posted at the City Hall and at the location where the meeting is to be held at least forty-eight (48) hours in advance of the holding of the meeting. The City Council shall also post on its website the agenda for any regular or special meetings. The City Council may modify its agenda for any regular or special meetings. The City Council may modify its agenda before or at the meeting for which public notice is given, provided that, in no event may the City Council act upon any matters which are not posted on the agenda at least forty-eight (48) hours in advance of the time for the holding of the meeting.

Agenda Memo

Crest Hill, IL

Meeting Date:	June 22, 2026
Submitter:	Blaine Wing, City Administrator
Department:	Administration
Agenda Item:	IML Conference Discussion

Summary: At the October 6, 2025, City Council meeting it was requested that the recent IML Conference expenses be discussed. We then had the discussion on October 13th. That meeting concluded with Council requesting that before the next IML Conference, that agreement is obtained before registering for the 2026 IML Conference.

I recommend for discussion the following policy points for elected officials (Mayor, Council, Clerk, and Treasurer) and Commissioners (Planning, Civil Services, etc.) regarding registering, attendance, reimbursement, stipends, expenditures, etc.

- As of July 6, 2026, the policy would have ALL registrations for trainings and conferences run through the Administrative Assistant position (currently Marybel). Marybel will register all of the above persons for conferences and trainings, hotels, and parking, per their emailed request to register or cancel.
- All transportation (train, bus, uber, taxi, uber, and mileage; up to \$100 per day) would be by reimbursement.
- Instead of collecting food, snack, and incidental expenses receipts, staff recommend using the IRS and GSA for Chicago rates. Specifically, per day \$18.40 for breakfast, \$27.60 for lunch, and \$46.00 for dinner (\$92.00 total possible per day; not to exceed \$276 for the IML Conference). If someone only wants to get reimbursed, receipts will be accepted instead of the per-diem.
- If someone needs to cancel, for a non-emergency reason, they will reimburse the City for all expenses. (The City will attempt to cancel without incurring expenses.)
- If someone chooses not to attend a training or conference for at least one (1) day, that person would need to reimburse the City.
- If someone left the conference or training early (not meeting the minimum one (1) day, except for an emergency), they would reimburse the City for the conference or training, hotel, and parking costs, on a pro rata basis.
- A final report of all expenses will be created by the Finance Department and presented to City Council within 45 days of the training or conference.
- Any requests for exceptions would be discussed and voted on (approved or not) by City Council.

Recommended Council Action: Discussion only.

Financial Impact: Not yet finalized.

Funding Source: General Fund

Budgeted Amount: \$10,000.00

Cost: Not yet finalized.

Attachments: No attachments

 City Council Work Session Memo

Crest Hill, IL

Meeting Date:	June 22, 2026
Submitter:	Daniel Ritter, Community Director
Department:	Community Development
Agenda Item:	Discuss Commercial Grant Program Revisions

Summary:

The Façade Improvement Grant Program has been funded and available for several years, dating back to at least 2018. However, the program was not utilized until 2025. The first grant approval, for a wall sign at The Feathered Fork (approved in October 2025), is not expected to be completed or reimbursed due to the business's closure. The second approval, for a wall sign at Soprano's (approved in February 2026), has since been completed. As awareness of the program has increased, staff has received additional inquiries and anticipates continued interest. Staff also intends to proactively promote the program to highly visible commercial properties that will benefit from exterior improvements.

The primary purpose of the Façade Improvement Grant Program is to encourage high-quality exterior improvements to existing commercial properties that enhance the community's appearance and support reinvestment in commercial corridors. The program provides reimbursement of up to 50 percent of eligible project costs, not to exceed \$10,000 per property, to property owners or tenants (with owner authorization).

The program was originally funded at \$25,000 annually. Due to limited utilization over several years, funding was reduced to \$12,750 for the last two Fiscal Years. Should interest in the program continue to grow, additional funding may be warranted and would be requested at that time. At the same time, staff believes grant programs should maintain a competitive component to ensure funding is directed toward projects that demonstrate the greatest need, provide lasting improvements, and have the most significant impact on the community.

Following the initial use of the program, several questions and concerns were raised by both staff and the City Council regarding the existing program guidelines and administration. Key issues identified included:

- The use of grant funds for wall signs and other tenant-specific improvements that do not necessarily align with the program's long-term property improvement objectives.
- Challenges associated with recapturing grant funds when improvements are not maintained or when tenant occupancy changes.
- Grant limitations that did not adequately account for differences in property size, tenant count, building type, or site characteristics.
- Existing application, documentation, and reimbursement requirements.

- Competitive bidding requirements for various project types.
- Requests for reimbursement of improvements completed prior to grant approval.

During those discussions, staff indicated its intent to review and update the program guidelines and return to the City Council with recommended revisions.

Although the current program permits a wide range of eligible improvements, including signage, the original intent was to support substantial façade and public-facing site improvements rather than tenant-specific enhancements. The program was envisioned as a tool to encourage reinvestment along older commercial corridors, particularly Plainfield Road and Broadway Street, where many properties have experienced limited exterior investment over time.

The proposed amendments are intended to clarify program requirements, address concerns identified through recent applications and better align the program with its original objectives. The revisions more clearly define eligible applicants and eligible projects while emphasizing permanent improvements that provide lasting benefits to the property.

Under the proposed changes, signage remains eligible for funding, but is limited to permanent ground signs serving an entire site. Eligible signs are required to be monument-style signs featuring a solid masonry base and associated landscaping in compliance with the City’s sign regulations. In addition, the proposed amendments expand eligibility to include a broader range of permanent site improvements, such as landscaping, hardscape features, trees and shrubs, entryway enhancements, site access improvements, lighting, curbing, parking lot end islands, cross-access improvements, new or expanded outdoor dining areas, public art installations, fountains, and similar projects that improve the long-term appearance, functionality, and economic viability of commercial properties.

Due to the significance of the changes by taking a fresh look at the entire grant, a redline version is not attached. However, the current Façade Improvement Grant program document can be found on the City’s website here, if you wish to see the current program form: <https://www.cityofcresthill.com/183/Economic-Goals-Incentives>.

Attached is a clean version of the program’s updated guidelines, reflecting staff’s recommended revisions to the grant. The document includes several policy changes for City Council review and feedback. Staff recommends formal adoption of the updated program through a City Council resolution to establish clear policy direction and program standards moving forward.

Recommended Council Action:

Discuss the proposed staff changes to the city’s Grant Program to be named the “Commercial Exterior Improvement Grant Program” and direct the attorney to draft a resolution formally adopting the program.

- B. Revised Commercial Property Improvement Grant Application (2026)

CITY OF CREST HILL –
COMMERCIAL PROPERTY
IMPROVEMENT GRANT

Draft for Council Work Session – 6/22/2026

EXECUTIVE SUMMARY

The City of Crest Hill Commercial Exterior Improvement Grant Program (“Grant”) was established to encourage high-quality, exterior building and site improvements to existing commercial properties. These improvements are sufficient in scope to produce visible changes to the building façades, commercial frontages, property access, and safety, thereby improving the overall appearance, functionality, and economic vitality of the community. Other program goals include:

- Encouraging private investment and reinvestment in existing commercial properties.
- Supporting business retention, expansion, and new business attraction.
- Enhancing the appearance and character of the City’s main commercial corridors.
- Promoting high standards of property maintenance and long-term sustainability
- Strengthening commercial vitality and increasing economic activity.
- Maintaining and enhancing property values within the project area and surrounding properties.
- Improving the overall customer, visitor, and business experience through upgraded building exteriors and site amenities.

The Grant is primarily intended to support improvements along the City’s major commercial corridors, which are highly visible, heavily traveled, and important to the community’s economic development efforts. Eligible target areas include, but are not limited to:

- Broadway Street (Illinois Route 53)
- Plainfield Road (US Route 30)
- Larkin Avenue/Weber Road
- Theodore Road
- Caton Farm Road
- Division Street

Additional commercial properties may be considered on a case-by-case basis if the proposed improvements further the goals and objectives of the Grant.

ELIGIBILITY

To be eligible for a Commercial Property Grant Program, a building must be used in whole or in part for commercial purposes, and preference will be given to those located within the target area and on aging commercial corridors. Properties with existing or proposed retail or restaurant uses are preferred. Tenants must have written permission from the property owner in order to engage in the program, and the City of Crest Hill must grant all appropriate permits and approvals before work can be done. A façade is defined as any building or structural elevation fronting a public roadway or viewable from a right-of-way (including alley and courtyard façades).

In general, work related to property maintenance violations or requiring regular repair is not eligible with the goal of improving properties, not just maintaining them to required standards.

Eligible activities include, but are not limited to:

- Architectural Facade Features - Repair and/or replacement of the original building's materials and decorative details that are deteriorated or missing.
- Large Structural Building Repairs - Repair on non-original materials that cannot be removed due to deterioration of the underlying original building material.
- Masonry Work - Tuck pointing, staining, paint removal, and large-scale masonry repair (painting of masonry is not permitted, nor is work on Stucco/EIFS work)
- Windows, Doors and Entrances - Replacement, improved, or additional entrances, doors, display windows, transoms, or second-story windows
- Awnings - Removal, repair, and/or replacement of existing awnings
- Ground Signs - New or replaced ground signs with a solid base (monument-style)
- Landscaping - Permanent landscaping (trees, bushes, and perennial shrubs) and hardscape improvements that are visible to the public and where landscaping is not otherwise existing or required
- Parking Lot End Islands - New landscaped parking lot end islands or property entrance improvements
- Parking Areas – surfacing of parking areas that are currently not paved or where gravel is present. Improvement must include the installation of curb and gutter. (Routine maintenance such as sealcoating and re-striping is not eligible)
- Outdoor Patios - Expanded or new permanent outdoor seating and patio improvements that include paving, fencing, collision protection, and landscaping. Eligible patios shall be elevated from any parking or drive aisle and comply with all other code requirements.
- Lighting - Permanent exterior building and site lighting improvements for exterior enhancement or improved public security
- Design Costs – Professional design costs for eligible projects
- Permit Fees - Permit fee waivers for eligible projects

Non-eligible activities include:

- General repair or maintenance activities required and any work that is subject to property maintenance citations and fines
- Work on a building façade not visible from a public street (unless the improvement is part of contiguous work on a façade facing a public street)
- Work on a roof
- Purchase of property
- Construction of a new building
- Interior fixtures and equipment
- Business inventory
- Any and all work done before approval by the City Council for a grant
- Project cost **must exceed \$1,000** to be considered for a grant
- **Grant funds cannot be used to correct outstanding code violations, for property damaged by collision, acts of nature, or occurrences covered by insurance**

If the number of grant applications received exceeds the City's program budget, the following factors shall be taken into consideration to rank businesses for grant awards:

- Property vacancy history
- Building conditions that pose a threat to public safety or occupant health;
- Building conditions that create a negative impact on property values in the surrounding area
- Applicants must be able to address and explain circumstances that prevented investment in the property to mitigate deterioration of the building condition
- Presence of extraordinary redevelopment costs such as: environmental remediation, infrastructure expansion costs, required remodeling/demolition
- Improvement will result in an increase in employment or the opportunity for increased employment
- Quality of development and overall aesthetics that exceed current code requirements

Additionally, the following types of properties are not eligible for grant consideration:

- TIF-assisted or city-incentivized property or properties purchased from the City
- Currently tax delinquent or not paid on time property
- Property whose owner has any other tax delinquent property in the State of Illinois
- Property in litigation (public or private), condemnation, or receivership
- Tax-exempt property, including that owned by religious groups
- Properties on which taxes are paid but have nonprofit use, such as schools, charities, clubs, organizations, etc., utilizing more than 25% of the total commercial floor area
- Exclusively residential buildings

APPLICATION REVIEW PROCESS

Interested parties must schedule a pre-application meeting with City staff prior to preparing any materials for submittal. Following this meeting, the applicant may complete and submit a grant application form, available on the City's website or in the Building Department at City Hall. Submittal requirements are set forth on the application form. Two bids should be submitted for each item in the scope of work. The City may enlist the services of an architect or construction manager to provide an independent review of the bids and also to give an opinion as to whether the proposed costs are fair and reasonable. These expenses would be incurred by the City. In addition, City staff may request material samples to gain a better understanding of the proposed colors. Information provided by the applicant will be used as the basis for the preparation of the staff report to the City Council.

The City of Crest Hill retains the right to approve an entire request, to approve portions of a request, suggest and/or ask for changes/additions to a request before approving, or to deny any request or portion thereof. Staff will prepare a report offering a brief introduction to the project, a review of the various aspects of the proposal, and a suggested recommendation based on an evaluation of the proposed work against the City's signage ordinance.

City staff will determine if the application package that is submitted is sufficiently complete to review and will draft a recommendation to the City Council. The application package is expected two weeks before a Council meeting. The application package will be reviewed by the City Council to determine whether the project should receive a grant and determine the amount of the award. In making the determination, the City Council will consider the following factors and may give priority to projects that meet the following criteria:

- Is the project historic (local, national, or state) or otherwise significant?
- Will the project positively contribute to the City's redevelopment effort?
- Will the project substantially leverage more investments than the required matching amount of the grant?
- Will the grant result in an improvement that would not be made otherwise?
- Does the project comply with the City's ordinances?
- Is the property or business benefiting from the grant one that has not received prior City assistance?

Application packages must include enough documentation to illustrate the visual impact of the project and its costs. **Failure to provide required information will delay the review process.** The items submitted should include:

- A completed application form
- Written consent from the property owner permitting the proposed work
- Color photographs of existing conditions

- Samples of materials and colors to be used
- Any other documentation necessary to illustrate the visual impact of the proposed project and the completion schedule
- A minimum of three competitive proposals from licensed and bonded contractors. These proposals should give detailed information about the work to be done, the costs, and the project completion schedule. Contractors who submit a competitive, detailed estimate may be used. **Contractors cannot be changed unless new proposals have been submitted and approved by City staff. The total amount approved by City Council cannot be increased without re-approval.**
- Sign proposals do not require submission of multiple bids due to the design work and contractor often being done by the same contractor and proprietary to the company.
- Owners or merchants who are licensed city contractors and intend to perform work on their own properties or businesses must furnish at least one proposal other than their own for the same work to be done.
- Owners and merchants may also perform work on their own buildings; however, they will not be reimbursed for time while acting as a contractor and/or installing material, only for the project materials themselves.

Initial Processing:

1. Upon receipt of a complete application, with all the required attachments, staff will review the project as it relates to the code requirements and grant program requirements. Revisions or clarifications may be requested at that time.
2. A petition will be scheduled for the next available City Council work session meeting (at least 2 weeks in advance to allow a memo and processing). Work Sessions are the 2nd and 4th Mondays of each month, and will forward the grant recommendation of approval to the next council meeting.
3. The City Council meets the first and third Mondays of the month and will approve a formal resolution.
4. Upon City approval, the applicant and City enter into a formal agreement, called a Commercial Exterior Grant Agreement, establishing the scope of work and approved reimbursement amount. The Agreement is signed by the City and the applicant after the City Council has approved the project. Grant project work may commence after the Agreement is signed and necessary permits are obtained.

FUNDING GUIDELINES

Grants are available to make certain improvements to commercial properties and structures. The grant reimburses up to 50% of the total project's construction cost, not to exceed \$10,000 per project. However, the reimbursement amount is subject to City Council discretion, as well as budget availability. Rebates and other forms of economic incentives may be utilized as part of the grant reimbursement at the City's discretion. The funding amount can be influenced by the scope of the project, façade orientation, building use, and other factors.

While professional services by a licensed architect or landscape architect are encouraged, they are not required to participate in the program. The City reserves the right to require the services of an architect for projects with a significant scope of work (as required by the IBC), historic significance, or otherwise. If the City approves the project, the architect may provide bidding and construction plans and documents, as well as construction supervision. Only architectural services directly related to the approved grant improvements will be reimbursed (proof from the applicant of the relation to the work is required to be provided). The grant will provide reimbursement of 50% of City-approved architectural services not to exceed 10 percent of the eligible construction costs, with the amount included toward the \$10,000 funding cap for reimbursement of construction costs.

While properties can obtain multiple grants for different eligible projects, priority will be given to properties that have not participated in the program previously.

For larger construction projects or requests, those should be made in accordance with the city's process and policies. The City has an adopted Incentive Policy that guides the Council on how and when other incentives are provided, including property tax rebates, tap-on waivers, fee waivers, sales-tax reimbursement agreements, or TIF-eligible incentives.

GRANT REIMBURSEMENT

Reimbursement shall be limited to no more than 50% of the total cost of eligible improvements, **not to exceed \$10,000 per project**. However, the reimbursement amount is subject to the City Council's discretion. If the costs exceed the original estimates, the property owner or tenant will be responsible for the full amount of the excess. The City cannot reimburse more than the total amount specified in the Agreement.

Any work commenced prior to City Council approval and signing of the Grant Agreement will not be eligible for reimbursement funding, as it will not have met need-based or bidding requirements. The applicant has one year to complete the work from the date of the approval. Owners or lessees may request a six-month extension, issued administratively, provided there is a demonstrated hardship and progress is ongoing at the time of the request.

In the event the improvements are not maintained, the City requires repayment of the grant or an amount necessary to restore the improvements by the applicant and/or property owner. Alternatively, the City may choose to place a lien on the property for said amount if reimbursement is not made.

The City of Crest Hill reserves the right to refuse reimbursements in whole or in part for work that:

- Does not conform to the program design guidelines
- Does not conform to the proposals submitted with the application and authorized by the City Council
- Are not commensurate with the workmanship and cost customary to industry
- Are not completed within one year from the date of approval (unless a six-month extension is granted)

Staff will inspect work to ensure that it complies with the approved plans. **Any changes to the approved plan will require a written request from the applicant and approval by the City Council in order to retain the grant approval.**

Grant reimbursement will occur upon completion of the improvements and after proof of payment to the contractor has been received. The contractor shall provide a letter stating all work has been completed and that there is no outstanding balance or liens. If the applicant is doing his/her own labor, funding will be reimbursed only for materials used. The City may enlist the services of an architect, construction manager, or other qualified consultant to provide an independent review of the construction costs to provide an opinion as to whether the costs are commensurate with prevailing construction costs and consistent with the contractor bids. These expenses would be incurred by the City.

Once completed, the applicant must maintain and may not alter or change the improvements for a period of five years unless a request for modification is presented to the City Council and approved before commencing such work or that the grant amount is reimbursed to the city. The City will not reimburse for additional repair, replacement, or other alteration work completed through the Grant Program for a period of five (5) years.

Reimbursement can be expected approximately four (4) to six (6) weeks after all the following documentation has been submitted:

- Copies of all paid invoices, canceled checks (bank statements), and lien waivers for all of the work covered by the grant from all contractors that worked on the project. These must equal at least the required matching amount. All project expenditures must be paid by check, money order, or credit card. The invoices must be marked paid, signed, and dated by the contractors. Cash payments are not accepted.
- Lien waivers cannot be substituted for canceled checks or bank statements.
- Color photographs of the completed project.
- Properties that receive grants in excess of \$10,000 may have a lien placed on the property. This lien will remain in effect for seven years to ensure property improvements remain or are paid back if the property owner changes.

Reimbursement grants may be subject to Federal and State taxes and are reported to the Internal Revenue Service on Form 1099. Property owners and tenants should consult their tax advisors for tax liability information.

Narrative: Describe Business, Property, and Proposed Project

Please provide a separate narrative describing the request and project in detail. Please address how it complies with the various Grant Program goals and considerations, as well as details about the business and property ownership. Please address the need for the grant and how it will support the overall project.

Required Submittals

- Grant Application
- Grant and Project Detailed Narrative
- Project Budget and Detailed Scope of Work
- Three Competitive Bids by Licensed/Professional Contractors (except Signs)
- Elevations and/or Plans
- Samples of Proposed Materials
- Written Consent from the Property Owner (or Designated Legal Representative)
- Verification of Good Financial Standing with the City, State, and other Governments, including the Most Recent Property Tax Bill

Acknowledgement and Signature

Execution of this application constitutes a grant agreement and creates specific obligations on the part of the applicant(s) and property owner(s), and I hereby affirm that I have reviewed and understand the Administrative Rules governing the grant program and have reviewed all related documents outlining the program's expectations, requirements, and processes. I hereby affirm that I have the legal capacity to authorize the filing of this application and that, to the best of my knowledge and belief, the information stated in this application and in all supporting documentation is true and accurate. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties. I hereby agree that I personally guarantee any refund required pursuant to failure to strictly adhere to the Administrative Rules and the Grant Program parameters. I permit City Representatives to make all reasonable inspections and investigations of the property during the process period of the application. As the business and/or property owner, I hereby certify that this application and the use of any provided Grant proceeds shall be in accordance with all applicable ordinances, codes, and the Grant Program's Administrative Rules. I understand an application for a grant does not constitute any rights to a Grant or specific timing, and that the City Council maintains full discretion to approve, deny, amend, or defer specific Grant requests.

Agenda Memo

Crest Hill, IL

Meeting Date:	June 22, 2026
Submitters:	Blaine Wing and Don Seeman
Departments:	Administration and Building
Agenda Item:	Plumbing & Window Discussion

Summary: As City Council has heard over the past few years, there are several outstanding issues in City Hall/Police Station building. Some of these have been known since 2023, and it appears that minor corrective action(s) were taken. This discussion is to address two (2) specific issues (plumbing in the Police Department and interior windows in the City Hall Foyer).

It should be noted that for both of these issues, contributing to addressing the causes of the issues has been the lack of staff or permanent staff. However, going forward, the City will soon have part-time janitorial employees, as well as recently hired Building & Grounds Crew Leader, Operational Superintendent (who oversee Building & Grounds), as well as our Public Works Director, who has been with us for 6 months.

Police Plumbing Issues:

Operations in this department are 24/7 and thus are used all day and year-round, resulting in more issues. In the past, the temporary fix had been to call in a plumber to clear the pipes. As of late last year, staff brought in a consultant and engineers to help identify issues and recommend solutions. It was determined that there was not sufficient water/pressure from the low-flow non-commercial toilets, which contributed to backups. Those toilets have since been replaced, which reduced the number of backups, but unfortunately didn't solve the problem.

The next possible solutions in recommended order are:

1. Add a macerator pump (like a garbage disposal). A macerator pump is a specialized device that grinds solid waste and toilet paper into a fine slurry and forces the material and water through the City's pipes to the exterior sewer line. Estimated cost is between \$65,000 to \$80,000.
2. Separate the Police and City Hall piping and add a pipe from the Police side directly to the exterior sewer line. Thus, reduce the distance the material and water need to go. Estimated cost \$100,000.
3. Jackhammer the concrete floor to get to the pipes, remove them, and replace them with pipes with improved downward pitch. This would displace most of the police employees for 3-4 months during construction. Estimated cost is between \$700,000 and \$1 Million.

Internal Foyer Windows:

The bullet resistant windows were damaged (most likely by using a chemical cleaner) several years ago and have not been replaced. The City request proposal from several firms, with only one (1) vendor providing a proposal with pricing to do the work. Besides replacing the glass, the replacement solution also included microphones and speakers, to allow the public/staff to speak and hear each other.

Staff are recommending moving forward with the attached proposal to resolve this issue.

Note, to ensure that the windows are not mistakenly cleaned with chemicals, several things will be done:

- Warning stickers will be placed on the windows.
- City staff, not rotating staff members will be cleaning the windows.
- The newly installed blinds will be closed at the end of each day, with a “closed sign” placed. Thus, the side of windows that cannot be cleaned with anything but water, will have a barrier, and then warning sticker, to reinforce that the windows cannot be cleaned with anything other than water.
- The Crew Leader and Superintendent will make sure that the window cleaning are done monthly under their supervision.

Other Known Issues:

- Non-commercial heating and cooling equipment
- Non-commercial toilets (most in City Hall are low-flow and residential)
- Leaking ceiling and roof issues
- Cracked and broken concrete
- Non-sealed bricks (around memorial)
- Possible security improvements (walls, doors, fences, etc.) to segment and protect areas

Recommended Council Action: Discussion only.

Financial Impact: Not yet finalized.

Description

Furnish labor and material to complete the following plumbing work to men's and women's restrooms, located in the police station locker rooms, to prevent sewer backups due to back pitched sewer line.

Project to consist of installing (1) new ejector pit in corner of men's locker room and reroute men's & women's bathroom plumbing into ejector pit to prevent sewer from backing up by pumping it through existing piping.

PHASE 1 OF THIS SCOPE OF WORK TO INCLUDE:

1. Install floor and wall protection from sally port, down hallway and into men's restroom.
2. Remove (2) urinals from wall to perform the above scope of work.
3. Remove drywall from urinals and lavatory area to perform the above scope of work.
4. Layout job.
5. Machine rental to perform the above scope of work.
6. Saw cut and remove concrete in bathroom area.
7. Dispose of concrete and debris from site into dumpster.
8. Excavate to locate existing plumbing and for new plumbing and lift station.
9. Install new lift station and pumps.
10. Install new PVC waste and vent lines tying into existing plumbing.
11. Backfill trenches to grade and remove excess debris from site.
12. Install rebar and plastic to prevent trenches from settling.
13. Re-pour concrete floor removed to perform the above scope of work and to vibrate concrete under existing slab to prevent settling; 4 yards of concrete included in bid.
14. Remove floor and wall protection.
15. Install new vent lines above restroom ceiling for lift station tying into existing plumbing stack.
16. Patch and paint drywall that was removed to perform the above scope of work.

WORK NOT INCLUDED IN THIS SCOPE OF WORK:

- Permit fees, if required, to be paid by the City of Crest Hill.
- Electric for lift station to be completed by the City of Crest Hill.
- Epoxy floor coating to be completed by the City of Crest Hill.
- Final clean up of restroom and hallway to be completed by the City of Crest Hill.

* Highland Plumbing assumes no liability for underground electric or private utilities cut or damaged during the above scope of work that are not marked prior to the above scope of work is started.

"Committed to the pursuit of excellence since 2003!"

Agenda Memo
Crest Hill, IL

Meeting Date:	6/22/2026
Submitter:	Gary Richardson, Director of Public Works
Department:	Public Works
Agenda Item:	Presentation of Backflow Solutions, Inc agreement to assist in the administration, tracking, and notification requirements associated with the City's backflow prevention program.

Summary:

The City of Crest Hill's Code of Ordinances requires the protection of the public water supply through the installation, testing, and maintenance of backflow prevention assemblies. These assemblies are critical in preventing contamination or pollution of the potable water system due to backflow conditions. Under the City's ordinance, all required backflow prevention devices must be tested regularly by certified personnel, and records of those tests must be maintained to ensure compliance with state and local regulations.

The purpose of this memorandum is to inform Council of the City's agreement with Backflow Solutions, Inc. (BSI) to assist in the administration, tracking, and notification requirements associated with the City's backflow prevention program.

Under the agreement, BSI will provide a comprehensive, backflow management program to support the City's compliance efforts. Key services will include:

- Backflow Test Tracking System where BSI will maintain a secure, online database to track all backflow prevention assemblies and testing records within the City.
- BSI will issue required notices to water customers when backflow testing is due, overdue, or has failed, ensuring timely compliance with ordinance requirements.
- City staff will have 24/7 access to program data, including reports and compliance tracking tools.
- BSI will provide customer service support to residents, businesses, and certified testers.
- The system verifies tester credentials and automatically validates test results in accordance with applicable standards.
- BSI handles the printing and mailing of notifications and maintains records of all communications for compliance tracking.

The implementation of BSI services will:

- Improve compliance with the City's backflow prevention ordinance
- Streamline recordkeeping and reporting processes
- Enhance communication with residents and businesses
- Provide accurate, real-time data for enforcement and decision-making

Partnering with BSI Online will modernize the City's backflow prevention program and ensure continued protection of the public water supply while improving efficiency and regulatory compliance.

Financial Impact:

Funding Source: Water Contractual Service 07-06-5300

Budgeted Amount: \$22,000

Cost: Approximately \$21,000

Backflow Solutions Inc Proposal

SUBSCRIPTION AGREEMENT

This SUBSCRIPTION AGREEMENT (the "Agreement") is made and entered into as of _____ (the "Effective Date") by and between **Backflow Solutions, Inc. (BSI Online)**, an Illinois corporation ("BSI") and the City of Crest Hill, IL (the "Water Purveyor"). BSI and the Water Purveyor hereby enter into an online agreement whereby BSI will perform certain notification and data management functions on behalf of the Water Purveyor. The Water Purveyor will provide BSI with the information described hereafter and require all companies performing backflow assembly tests within the Water Purveyor's jurisdiction to submit test results online to BSI Online.

1. **BSI RESPONSIBILITIES.**

- a. Maintain the secure online database to ensure a functional backflow assembly tracking system that is easy to understand and use by licensed testers. BSI shall also maintain an internet website where testers shall input all data related to the backflow tests performed in the Water Purveyor's jurisdiction.
- b. BSI to send notifications annually to the Water Purveyor's identified customers who have a backflow assembly due for testing. The number of notifications sent will align with the Program Package chosen by the Water Purveyor.
- c. BSI to assist with backflow-related customer support to the Water Purveyor, their customers, and the local backflow testing community. All support is provided virtually via phone or email.
- d. BSI to provide the Water Purveyor with reports, access to data, and an unlimited number of users.

2. **WATER PURVEYOR RESPONSIBILITIES.**

- a. Provide BSI with the most current backflow assembly test records in CSV, XLS, or XLXS format.
- b. Provide BSI with a point of contact for program questions, comments, and/or concerns while contracted with BSI.
- c. Should enforcement efforts be necessary, this is the sole responsibility of the Water Purveyor.
- d. To facilitate the payment process, please provide BSI with a point of contact for future invoices.

Contact Name: _____ Email: _____

Billing Address: _____

3. **PACKAGE OPTIONS FOR ANNUAL BACKFLOW TRACKING.**

- a. **The Water Purveyor shall choose the preferred Program Package from the below three (3) options.** This choice relates directly to BSI Responsibilities in 1b above. Any future alterations to BSI's Program Package or the Water Purveyor's choice of Program Package shall be subject to an Amendment to this Agreement.
- b. The cost of mailing materials, postage, and labor are built into the pricing below, unless otherwise noted in the Cost clause of this Agreement.
- c. **TIER 1: STANDARD PACKAGE**
 - i. BSI to send up to two (2) notifications, Test Due Notice and Overdue Notice, to water customers that have testable assemblies, advising them their assembly is due for testing. The Test Due Notice shall be sent approximately thirty-two (32) days prior to the scheduled due date. The Overdue Notice shall be sent one (1) day after the scheduled due date has passed if backflow test results have not been entered to the online database.
 - ii. BSI charges the Water Purveyor **\$495 annually**. Testers shall pay BSI a data entry charge of **\$15.95 per test report submission**.
- d. **TIER 2: PREMIUM PACKAGE**
 - i. BSI to send up to three (3) notifications, Test Due Notice, Overdue Notice, and Failed Notice, to water customers that have testable assemblies, advising them their assembly is due for testing. The Test Due Notice shall be sent approximately thirty-two (32) days prior to the scheduled due date. The Overdue Notice shall be sent one (1) day after the scheduled due date has passed if backflow test results have not been entered to the online database. The Failed Notice will be sent one (1) day after a failed test report has been entered into the online database.

- ii. BSI charges the Water Purveyor **\$995 annually**. Testers shall pay BSI a data entry charge of **\$16.95 per test report submission**.

e. **TIER 3: ELITE PACKAGE**

- i. BSI to send up to four (4) notifications, Test Due Notice, Overdue Notice, Final Notice, and Failed Notice, to water customers that have testable assemblies, advising them their assembly is due for testing. The Test Due Notice shall be sent approximately thirty-two (32) days prior to the scheduled due date. The Overdue Notice shall be sent one (1) day after the scheduled due date has passed if backflow test results have not been entered to the online database. The Final Notice will be sent at a time frame determined by the Water Purveyor and will typically have language congruent with the Water Purveyor's ordinance, bylaw, or local code. The Failed Notice will be sent one (1) day after a failed test report has been entered into the online database.
- ii. BSI charges the Water Purveyor **\$1,995 annually**. Testers shall pay BSI a data entry charge of **\$18.95 per test report submission**.

4. **COST AND ADDITIONAL SERVICES (IF APPLICABLE).**

- a. **ANNUAL BACKFLOW TRACKING.** Water Purveyor opts for Program Package: Premium Package. BSI to charge Water Purveyor \$995 annually. BSI to waive the Annual Tracking Fee for Year 1.
 - i. **INDUCEMENT.** Water Purveyor acknowledges and agrees that to induce BSI to provide the service contemplated by this Agreement, for each Test Report submitted to the online database the **data entry charge of \$16.95 per report** (the "Filing Fee") shall be **paid by the tester** prior to uploading the test data to the online database.
 - ii. **IMPLEMENTATION.** BSI to charge Water Purveyor a one-time implementation fee of \$0.
 - iii. **OPTIONAL REBATE PROGRAM.** If the Water Purveyor should add additional funds to BSI's Filing Fee, BSI will charge a 5% processing fee to the rebate amount.
 - iv. **PRICE ESCALATION.** BSI reserves the right to escalate prices under this agreement. \$2 or annual average CPI, whichever is greater.
 - v. **CUSTOM REQUESTS.** Any changes or requests that differ from BSI's established scope of work on the following page(s) or the request for additional services will be subject to additional fees.
- b. **MAIL SURVEY.** Water Purveyor opts for the Gold Survey – Turnkey. BSI to charge the Water Purveyor \$3 per address. BSI to charge Water Purveyor a one-time implementation fee of \$0.
 - i. BSI will establish a custom URL and web form on our website for electronic survey submission.
 - ii. BSI is responsible for printing, mailing, and cataloging all results.
 - iii. Customers receive one (1) postcard with instructions for electronic survey submission.
 - iv. Electronic responses will be submitted via custom URL to BSI.
 - v. Comprehensive report sent to Water Purveyor upon completion.

5. **PRIVACY.**

- a. BSI gathers data from the Water Purveyor to assist in the management of the backflow program. BSI will make no use of any personal information provided for any purpose other than the carrying out of its duties. This restriction shall include the sale, assignment, transfer, or release of such information to any third party.

6. **PERIOD OF SERVICE.**

- a. **TERM.** The Initial Term of this Agreement shall be 3 years commencing on _____ of _____, 2026 ("Effective Date") and ending _____ of _____, 2029.
- b. **TERMINATION.** If the Water Purveyor wishes to discontinue the services provided in this Agreement, BSI requires at least thirty (30) days written notice. No refund of amounts will be given for early termination.

7. **DATA ACCESS.**

- a. The Water Purveyor will have access to the data until the Termination Date, which is 30-days from when we receive notice of Termination.

- b. Any access requested after the Termination Date is subject to applicable data access, storage, and/or user management fees.
- c. If the Water Purveyor does not remit required payments, BSI may suspend or deny access until payment is received.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first set forth above.

TRACKING SCOPE OF WORK

Data Transition* - BSI will prep your electronic file for import into the BSI Online system. CSV, XLS, and XLXS are preferred. We can assist with paper records for a fee.

**BSI establishes the database to consolidate assemblies into a smaller number of accounts per unique address. This established and trusted process helps reduce the amount of mail and notifications sent to a unique property. If you request separate accounts per assembly (unique address receiving multiple letters), a data storage/processing fee will be charged.*

Cloud-Based Test Submittal - Test entry is cloud-based, enabling the testers to access the program from anywhere, whether they are in the field or at their office. This allows for real-time submittal of test reports.

Key Performance Indicators & Reporting - BSI Online provides real-time data, including pre-built and customizable reports. All information is accessible 24/7 and downloadable in CSV format.

Users - Water Purveyor can have an unlimited number of simultaneous users. Our solution allows each user to have different roles and permissions tailored to the Water Purveyor's needs.

User Logs - BSI Online is built on the foundation of accountability and transparency. All transactions are time-stamped with usernames, allowing the Water Purveyor to monitor issues, comments, or concerns in real time.

Notifications* & Archived Copies - Water Purveyor chooses the preferred program package. BSI automates two (2) to four (4) notifications to customers with identified testable backflow assemblies. All mailings are handled in-house, leveraging decades of experience to ensure timely and efficient delivery. Notifications are sent via USPS First-Class Mail and furnished with the Water Purveyor logo. All notifications are time-stamped per property for full transparency.

**With our tracking scope of work, BSI is only sending letters to properties that have backflow assembly information. Should the Water Purveyor desire BSI to generate and mail other/additional letters such as notices to properties that do not have assembly information (remediation and installation notices), this is considered an extra service and must be purchased separately.*

Additional Notifications - To help increase testing compliance for known assemblies, clients can utilize our Letter Template feature to create, generate, print, and mail compliance or enforcement letters.

Returned Mail* - BSI can assist with returned mail. Our return address would be listed on notification letters. We would research why it got returned, find a new mailing address, and re-send the notification letter.

**Should the Water Purveyor be unwilling or unable to provide BSI with the requested customer billing information, returned mail will be sent back to the Water Purveyor for research and action.*

Validation of Test Results - Each test form is coded to automatically determine pass/fail based on the State standards per assembly type. Results are instantly updated in BSI Online, with copies of each test report accessible to the tester, Water Purveyor, and water customer.

Validation of Credentials - BSI verifies tester and testing company credentials, including test gauge calibrations. Expired credentials trigger the tester to be locked out until updated documentation is submitted to BSI and properly vetted. This proactive approach is integral to the integrity of your program.

Expert Support - We offer unlimited virtual customer service at no additional cost. Dedicated teams for testers and water customers ensure inquiries are handled by our expert personnel, reducing the burden on your staff. The Water Purveyor is also assigned a dedicated account manager focused on ensuring program success.

Water Customer Portal - All properties have a unique identifier, a Customer Confirmation Number (CCN). Water customers can use the CCN to access their records, including notifications, the most recent backflow test reports, and a list of licensed backflow testing companies that meet the criteria set by the Water Purveyor.

Product Support - Our in-house development team quickly identifies and resolves user issues to ensure continued system reliability and operational efficiency.

AWS Security - BSI partners with Amazon Web Services (AWS) for industry-leading security, cloud-based data storage, and flexibility as your program grows.

Agenda Memo

Crest Hill, IL

Meeting Date: 6/22/2026

Submitter: Gary Richardson, Director of Public Works

Department: Public Works

Agenda Item: Approval of the purchase of a new 2027 Ford Police Interceptor Utility including a comprehensive K9 equipment package in the amount of \$63,7070.87.

Summary:

The Police Department requires a fully equipped patrol vehicle to support the K-9 unit’s operations. K-9 vehicles must be specially outfitted to ensure the safety of both the officer and the K-9, as well as to comply with operational standards.

The 2027 Ford Police Interceptor Utility includes standard police-package features such as AWD drivetrain, police-calibrated braking system, heavy-duty cooling, and factory-installed upfitter provisions for emergency equipment.

The comprehensive equipment package includes all necessary components to outfit the vehicle for K-9 service, including:

- Emergency lighting, siren, and control systems
- Push bumper with integrated lighting
- K-9 containment unit (E/Z Rider platform)
- K-9 safety system (Hot-N-Pop Pro temperature monitoring, alarm system, remote door popper)
- Ventilation fan and safety accessories

These components ensure compliance with K-9 safety standards and allow for safe and effective deployment in the field.

Recommended Council Action:

Approve the purchase of a new 2027 Ford Police Interceptor Utility including a comprehensive K9 equipment package in the amount of \$63,7070.87.

Financial Impact:

The total cost for the vehicle and equipment is \$63,7070.87 budgeted within 11-00-7301.

Attachments:

Police Up-fit Friendly ●Consistent 11-inch space between driver and passenger seats for aftermarket consoles (9-inch center console mounting plate)●Console mounting plate ●Dash pass-thru opening for aftermarket wiring ●Headliner- easy to service ●Two (2) 50 amp battery ground circuits – power distribution junction block (repositioned behind 2nd row seat floorboard). ● Grill Wiring ●100 Watt siren/Speaker Prep Kit

Functional ●Audio— AM/FM / MP3 Capable / Clock / 4-speakers— SYNC® interface — Includes hands-free voice command support — USB Port — (1) — 8" Color LCD Screen Center- Stack "Smart Display"● Easy Fuel® Capless Fuel-Filler ●Fleet Telematics Modem to support Ford Pro™ Telematics ●Front door tether straps (driver/passenger)●Power pigtail harness ●Simple Fleet Key; 4-keys●Two-way radio pre-wire ●Two (2) 50 amp battery power circuits – power distribution junction block (behind 2nd row passenger seat floorboard)●Wipers – Front Speed- Sensitive Intermittent; Rear Dual Speed Wiper ●Up fitter Interface System ●PAITRO output tied to lift gate release switch ●3 Year 36,000 Mile Warranty-5 Year 100,000 mile Powertrain Warranty ●Delivery under 75 miles

Agenda Memo

Crest Hill, IL

Meeting Date:	6/22/2026
Submitter:	Gary Richardson, Director of Public Works
Department:	Public Works
Agenda Item:	Approval of the purchase of a new 2027 Ford Police Interceptor Utility including a comprehensive patrol equipment package in the amount of \$59,457.13.

Summary:

The Police Department requires a fully equipped patrol vehicle to support the department’s operational needs. The 2027 Ford Police Interceptor Utility includes standard police-package features such as AWD drivetrain, police-calibrated braking system, heavy-duty cooling, and factory-installed upfitter provisions for emergency equipment.

The comprehensive patrol equipment package includes all necessary components to outfit the vehicle for service, including:

- Emergency lighting, siren, and control systems
- Push bumper with integrated lighting
- Rear prisoner transport seating and partition
- Weapon mounting/storage system
- Communication console, mounts, and electronics

This purchase of this vehicle will ensure the Police Department maintains a properly equipped and reliable fleet for patrol operations.

Recommended Council Action:

Approve the purchase of a new 2027 Ford Police Interceptor Utility including a comprehensive patrol equipment package in the amount of \$59,457.13.

Financial Impact:

The total cost for the vehicle and equipment is \$59,457.13 budgeted within 11-00-7301.

Attachments:

A 2027 Ford Police Interceptor Utility through Currie Motors Fleet quote and a comprehensive patrol equipment package outfitting quote from Fleet Safety Supply.

Agenda Memo

Crest Hill, IL

Meeting Date:	6/22/2026
Submitter:	Gary Richardson, Director of Public Works
Department:	Public Works
Agenda Item:	Approval of the purchase of a new purchase a new 2027 Airtow T14-12 trailer in the amount of \$21,530.00

Summary:

The Public Works Department is requesting approval for the purchase of a new 2027 Airtow T14-12 trailer with a 12,000 lb. capacity from Bauman Trailer Sales & Service, Inc. The Public Works Department regularly transports heavy equipment, including a scissor lift, forklifts, a floor scrubber, and other machinery, throughout the City for maintenance, repairs, and project work. Currently, the available equipment and methods for transporting these items are limited and present safety and efficiency concerns.

Key features of the proposed unit include:

- Ground-level loading capability for safer equipment transport
- Heavy-duty capacity suitable for City-owned equipment
- Included spare tire and trickle charger for reliability

The purchase of this piece of equipment will improve safety when transporting heavy equipment, increase efficiency in completing tasks, reduce reliance on rented or borrowed equipment, and protect City assets by ensuring proper transportation methods.

Recommended Council Action:

Approve the purchase of a new 2027 Airtow T14-12 trailer in the amount of \$21,530.00

Financial Impact:

The total cost for the vehicle and equipment is \$21,530 budgeted within 11-00-7304.

Attachments:

Agenda Memo
Crest Hill, IL

Meeting Date: 6/22/2026

Submitter: Gary Richardson, Director of Public Works

Department: Public Works

Agenda Item: Presentation of the 2026 50/50 Tree Planting Program

Summary:

The Public Works Department, in conjunction with The Fields on Caton Farm, Inc, plan to conduct the City of Crest Hill's Tree Planting Program in the fall of 2026. Through this program residents are able plant trees on their property and have The City help share the cost.

Residents will submit completed applications along with payment for their cost of the tree to the Public Works Department for review. Staff will then review the application making sure the tree location selected follows the guidelines for the program. Following review of the applications The City will work with The Fields on Caton Farm, Inc to coordinate planting of the trees.

This program allows residents to add to the beautification of their property, while sharing the cost with The City.

Recommended Council Action:

Approve the 50/50 Tree Planting Program for 2026.

Financial Impact:

Funds for this program are budgeted within 01-03-5300.

Attachments:

Program guidelines.

City of Crest Hill 50/50 Tree Planting Program Guidelines

The City of Crest Hill is proud to continue its Forestry Program, designed to promote community reforestation and enhance neighborhood beautification. Through this program, residents are invited to participate in a cost-sharing opportunity, where the City will contribute 50% toward the purchase of a new tree for eligible properties. The following guidelines outline the details and requirements of the program.

1. Applications will be accepted on a first come, first served basis, regardless of applicant's ward, until allocated funds are exhausted for the 2026-2027 fiscal year.
2. The City of Crest Hill will pay up to 50% of the cost as provided by The Fields toward the purchase of a tree in cooperation with the homeowner.
3. One tree will be allowed per household/address.
4. Homeowners and nonprofit groups will have the opportunity to participate in this program. If demand exceeds available funding and applications are received simultaneously, a lottery system will be used to determine priority.
5. To maximize community participation, individuals who received a tree in the previous year are not eligible for the current year.
6. Trees will be planted on property by the landscaper (The Fields). The one-year guarantee will be in effect directly between the homeowner and the landscaper.
7. The homeowner must pay their portion of the cost in advance before delivery/planting is made.
8. The City of Crest Hill is not responsible for any damage or restoration to private property resulting from the delivery or planting of the tree.
9. A variety of trees species will be offered. The list and pricing will be updated annually and included with the application materials.
10. A sketch showing the approximate placement of the tree must be submitted with the application.
11. Once the tree has been paid for, and a planting date is set, The Fields will contact JULIE and have underground utilities located. **TREES CANNOT BE PLACED OVER ANY UTILITY LINES, INCLUDING WATER AND SEWER LINES.**
12. Trees shall **NOT** be planted within a 20' radius of utility structures such as manholes, hydrants, valve boxes, and light poles, subject to approval by the Director of Public Works.
13. Residents can choose to plant trees in the parkway when appropriate.

If you have any questions regarding the tree program, please contact Administrative Assistant Kim Linden at (815) 741-5108 or klinden@cityofcresthill.com.
