Fausett Farms Sunflowers is an agritourism event consisting of 30 acres of sunflowers. They are planted and grown for the public's viewing pleasure and enjoyment. It is a family oriented place where those attending will hopefully develop an appreciation for nature and the outdoors. Attention will be drawn to the bees and butterflies drawn to the sunflowers and the role they play in pollination and how this relates to our food supply. It is felt that this event will have a positive effect on the community and county because those attending will take with them lasting memories and incredible pictures.

PROJECT MANAGEMENT:
- Public Works/Fleet Maintenance Buildings:
  Project is currently moving forward, and is on schedule to be completed by the end of the year. Location areas of fencing was discussed again, and Tolbert is going to move forward with receiving quotes for installation of the newly proposed fence as referenced on the plans, if needed a GIS will be drawn. The existing single fence that closes the fuel center will be relocated to the bus center. Newly constructed this week includes new siding on the scale house as well as CMU block and steel being erected on the public works and fleet center.
- Rock Creek Berm Project:
  The warm water variance to encroach the buffer that was submitted last month was denied due to EPD’s request to change a couple of items on the plans which Corey Guthrie will take care of as soon as possible. Changes to the application will also be included in the resubmitted package as well as a map from GIS.
- Veterans Memorial Park Maintenance Building:
  Specs for a new 50’x30’ were received by Melissa by Dwayne from CT Darnell this week, which brought up the idea of shifting gears to a wood frame construction. We all agreed including Matt Payne, that a wood frame construction would be fine, as well as a possibly for more cost-effective option. Public works will get a quote from Dwayne Roof for the pricing of a drawing that will include specs and details for the project to be released.
- Fire Station 8:
  County Staff met with CT Darnell on July 31st for a project update showing the newest rendering of the station, these new drawings include; changes to the bed sleeping quarter area as well as changes to extractor room and janitor closets. Ground breaking for the station will be on September 17. A civil package will be available to the county for permitting as soon as all the specs including; turn radii and stormwater runoff is reviewed and approved.
- Senior Center:
  Value engineered options from Diversified will be submitted to the county on August 6th, this package will include a final total cost for the project. After our review and approval, County Staff will request from the BOC the additional cost overages from the initial budget.
