*Executive Session may follow the Work Session meeting.

Those with disabilities who require certain accommodations in order to allow them to observe and/or participate in this meeting, or who have questions regarding the accessibility of the meeting, should contact the ADA Coordinator at 706-344-3666, extension 44514. The county will make reasonable accommodations for those persons.
Our current revision of the Dawson County Handbook was from 2015 and it was past due to revise this handbook.

With the assistance of department heads, elected officials and employees, we have developed a handbook that flows and is easily understood. We have revamped and updated each chapter, which includes some soft benefits for our employees. The request is to present the handbook at the work session on 10/03/19 and for BOC consideration on 10/17/19, with an effective date of January 1, 2020. This will allow enough time for Human Resources to work with our database team, Smart Fusion CSI (Computer, Software, Innovations), to make the necessary changes in our current system.
RFP to complete a salary study was voted on and awarded to Management Advisory Group (MAG) in July 2019.

Dr. Long from MAG to present the 2019 final salary study to BOC for board's review and questions.

In January of 2010, the State of Georgia Super Speeder Law went into effect. Fines collected under this law support the Georgia Trauma Commission statewide. 20% of these funds go to various EMS programs across the state and one of these programs is the Trauma Grant. Each licensed EMS service receives $726.15 per licensed med unit.

Dawson County has been awarded $3,630.75 for this year’s Trauma Grant. There is no match for the county, we ask that you approve us to accept these funds. We would like to have this ratified tonight, as we have to make the purchase up front and then be reimbursed the monies.

Introduction

The Federal Transit Administration (FTA) provides federal funding to support the capital and operating assistance activities for rural transit systems. Georgia Department of Transportation (GDOT) is the designated recipient of these federal funds and is responsible for the program oversight and administration of the program in compliance with all applicable federal regulations.

Each year, GDOT announces the opportunity for eligible applicants to apply for Section 5311 funds for rural transit. Each application is reviewed and evaluated by GDOT using the established criteria described below.

In the distribution of funds for the Section 5311 Program, GDOT takes into account the non-urbanized population of each county. The Section 5311 formula for allocation proportion project funds based on non-urbanized population and land area relative to the total for the state. All projects that meet the service guidelines, complete the application requirements, and have the local match are funded to the level justified by their actual capital and operating expenses.

Operating Assistance
Each subrecipient is reviewed based on the following metrics:

- Cost per hour
- Cost per trip
- Cost per vehicle
- Farebox revenue per trip

Capital Assistance
Capital requests are evaluated according to GDOT’s approved Transit Asset Management (TAM) Plan, incorporating the Useful Life Benchmark (ULB) for each specific type of equipment requested. All approved funding amounts under this program are dependent on the availability of FTA funds.

Proposed new systems will be evaluated based on their:

- Proposed system start-up plan
- Level of city/county/regional commission support
- Transit asset management/vehicle maintenance program
- Track record of operating similar services

All grant applicants should complete the Section 5311 application as outlined in the enclosed instructions. Ensure all required items on the Grant Application Checklist (Page 5) are completed and submitted with the application. Please note, the placement and publication of a public notice (page 25) must have a 15-day comment period that concludes PRIOR to December 9, 2019. The Applicant Organization Board must also adopt and certify the Authorizing Resolution (page 12) prior to the deadline.

Please contact your local GDOT District Project Managers (see Appendix A on Page 58) with any questions or requests for assistance.

***Incomplete and incorrect applications will be returned to the transit agency for corrections. Late submissions will be documented as such; such information will be used as part of the application evaluation upon which final budgets are based and awarded by GDOT.***
Reporting Requirements

Data that GDOT subrecipients collect, monitor, and report is used to assess the performance of their transit services and document compliance with federal and state requirements. This information must be tabulated for monthly, semi-annual, and annual reports. Transit managers are primarily responsible for monitoring and reporting system performance on an ongoing basis.

Additionally, GDOT’s FTA subrecipients are contractually required to provide the following reports:

**Monthly Reports**
- Monthly Vehicle Usage and Ridership Reports – due the 15th of each month
- Monthly Reimbursement Requests – due 30 days after the end of each month

**Semi-Annual Reports**
- DBE Semi Annual Reports – due May 1st and November 1st
- Semi Annual Preventative Maintenance Interval Checklists - due January 25th and July 25th

**Annual Report**
- Drug and Alcohol Management Information System (DAMIS) reports – due March 1st

Part E: Section 5311 Project Budget and Contracting Opportunities

Part E-1: Project Budget

A digital copy of the completed budget Form for the GDOT Section 5311 Grant Application should be submitted as an attachment to the full application. The Project Budget Form should include the number and type of vehicles requested, small capital items to be purchased, and amount for operating and/or mobility management assistance. Please attach the COMPLETED Project Budget that has already been initially reviewed by the respective GDOT District Project Managers.
Part F: Sources of Local Matching Funds and Three-Year Budget Trends

Please list ALL sources of local matching funds, including the amounts for each. The use of purchase of service (POS) contracts with the Georgia Department of Human Services (DHS) and other similar entities should also be shown, along with the source of the POS revenues.

For budgeting purposes, all POS revenues must be deducted from the total transit operating expenses (as defined by FTA) as “program revenue” to arrive at the net Section 5311 transit operating expenses each month. The funding share of the net operating expenses is then calculated at 50% federal funds and 50% local funds.

Please note that other FTA funds, including Section 5310, 5316, and 5317 funds, are not eligible sources of local match funds. Local match funds must be traceable back to the source of origination (from a specific local governmental entity) and can be used only once as a local match source for a federal grant.

Part F-1: Purchase of Service Contracts

List all POS contracts in Table 6 below. Include contracting agency/office, the contract start/end dates, amounts, and cost per unit of service.

Certification of Financial Management System:

I, the undersigned, certify that ___________________________ has a financial management system that accumulates and segregates direct costs (costs that can be specifically identified to a final cost objective, e.g., a project, program, or other direct activity of an organization) from indirect costs (costs incurred for a common or joint purpose benefitting more than one final cost objective, e.g. administrative costs such as clerical support, human resources, accounting, payroll, financial audits, rent, utilities, supplies, vehicle expense, executive management that are not readily assignable to the final cost objectives specifically benefitted, without effort disproportionate to the results achieved) and by project/activity, that are allowable in accordance with Title 2 Code of Federal Regulations Part 200 (2 CFR § 200).

I certify the agency’s financial management system has the following attributes:

- Account numbers identifying allowable direct, indirect, and unallowable cost accounts.
- Ability to accumulate and segregate allowable direct, indirect, and unallowable costs into different cost accounts.
- Ability to accumulate and segregate allowable direct costs by project, funding source, and type of cost (e.g., labor, consulting, pass-thru, or other).

- Accounting policy and procedure manuals specific to the agency.

Certification of Eligibility:

I, the undersigned, certify that Commissioner of Roads & Revenue of Dawson County is eligible to use the 10% de minimis indirect cost rate as the organization has:
1. Never received a negotiated indirect cost rate with the Federal government; and
2. Received less than $35 million in direct federal funding for the fiscal year requested and each fiscal year thereafter.

Finally, I understand:

The *de minimis rate* of 10% is to be applied to Modified Total Direct Costs which means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first $25,000 of each subaward (regardless of the period of performance of the subawards under the award). Modified Total Direct Cost excludes equipment, capital expenditures, rental costs, and the portion of each subaward in excess of $25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

Costs must be consistently charged as either indirect or direct but may not be double charged or inconsistently charged as both.

The proper use and application of the *de minimis rate* is the responsibility of [Name] and GDOT reserves the right to perform an audit to ensure compliance with 2 CFR § 200 and agreements with GDOT. If it is determined that [Name] inconsistently charged costs, or is otherwise not in compliance with 2 CFR § 200, [Name] may be required to reimburse GDOT for any identified overbillings.

[Name]'s schedule of expenditures of federal awards must include a note on whether it elected to use the 10% *de minimis* cost rate in accordance with 2 CFR 200 § 200.510(b)(6).
