## Standard Operating Guideline

**S.O.G.: GP-3**

**Effective:**

**Revised:**

**Reviewed:**

**Fire Chief Signature**

\_\_\_\_\_  
**DATE**

**Division:** All

**Subject:** Professional Grooming

**Purpose:** To establish a guideline detailing professional grooming and uniform standards that contribute to uniformity of appearance, professionalism, esprit de corps and firefighter safety.

**Scope:** All personnel

### PROCEDURE:

Personnel present an image of competence, efficiency and pride. It is critical to the operations that members are groomed in such a manner to instill confidence in the public. Personnel shall maintain their appearance in a manner consistent with professionalism in the fire service and in keeping with applicable safety and accident prevention standards in the workplace. All individuals shall be clean, neat and well-groomed in consideration of the extremely close personal contact required between personnel and our citizens. All employees of the department are subject to the provisions of this Standard Operating Guideline, and must adhere to the content within this document.

Unless it is specifically addressed, the Fire Chief will be the final authority of items not covered under this guideline.

#### Hair Standards for Suppression Personnel

1. The department recognizes that traditionally acceptable standards for female firefighter hairstyles, and length, may differ considerably from those of male firefighters. Female hairstyles that would normally not conform to the standards outlined in this policy may be pinned up or secured in order to comply while on duty, and shall not interfere with proper wearing of uniform hats or protective equipment, or in any way create a safety hazard.
2. Hair accessories such as clips, rubber bands, pins, combs, or barrettes, must be transparent or similar in color to the individual's hair color and shall be concealed as much as possible. Authorized accessories shall only be worn when needed to restrain or manage hair and at no time allowed for decorative purposes. The devices used must not interfere with safe and proper use of prescribed headgear (fire resistant hoods, SCBA face-piece, etc.).

3. Hair on the top and sides of the head must be neatly groomed. The back of the hair may be either tapered or block cut and may extend to the bottom of the department issued dress/polo shirt collar. Hair may cover to the mid-ear level. Hair must never be of such bulk or length that it will affect the safety of personnel in the performance of firefighting or other emergency operations. For safety reasons, particular emphasis must be placed on a secure and snug fit of personal protective equipment so that maximum protection may be afforded by their use. Personnel may wear their hair, compacted, not to exceed two inches in depth on both sides and top. The length of the hair is not to hinder the proper fit of issued headgear.
4. If bangs are worn, they are to be maintained at mid-forehead level. At no time can bangs interfere with the seal of the mask face-piece or protective helmet.

#### **Hair Standards for Administrative Staff & Non-Suppression Personnel**

1. Female's hair may be worn down to a length that does not extend below the pant/belt/skirt line. Personnel may wear their hair, compacted, not to exceed two inches in depth on both sides and top. Styles of hair and accessories will meet standards the fire department deems professionally acceptable, and will be enforced by the appropriate supervisor.
2. Males will follow the same guidelines as those for males covered under Suppression Personnel.

#### **General Hair Standards for All Personnel**
