1. Axon Contract

Police Chief Joe Cianni presents an Axon contract that is for 10 years. He states this is a bundle of all the existing smaller contracts. This is the technology that the Police Department is using along with upgrades of technology. This initially ties into the Axon body cameras, interview room and digitalized evidence system. He states the City got the body cameras on 2021 which was nearly \$300,000. Now the contract is up for renewal in mid-summer of 2026. If it is a stand alone contract it would cost \$700,000. He feels this would be more fiscal responsible to extent contract for a 10-year period because of inflation. The 2026 contract is for \$2.2 million as of 1/1/2026. The Police Department has been encumbering money for this contract.

Deputy Police Chief Matt Hanson states this is the best technology and best equipment. There are no drones but it is on the list. This package works best for the 49 officers. The Chief and Mr. Hanson do not have body cameras. He states the schools have not bought in to the SRO body cameras. For example, if a vehicle has been vandalized and an officer can receive a message and a picture from the resident's ring camera. The support staff uses this program as much as the sworn staff.
