He feels this kind of distance for support staff carrying items could be an issue.

8. PUBLIC HEARING AND PUBLIC COMMENTS NOT ON AGENDA – 5:00 P.M.

A. Preliminary Museum Expansion

Jared Twogood and Derek Twogood update the Commissioners on the preliminary museum expansion. They visit about adding onto the existing structures or starting from scratch. They state the estimate budget for the addition to the museum would be \$12.8 million but this does not include design fees or site work. The reason for the new site cost is the proximity of the old landfill. He states to restart from scratch it would cost \$21,900,000. Both options would have some phasing done to maintain operations at those locations.

President Scott Decker feels starting from scratch would be the best option to be more of a cohesive type of building. He states the city does have in their minds what kind of budget they are learning towards.

Commissioner John Odermann would also like to start from scratch to build this so the aesthetics match and the best plan of action to go forward at this site.

B. Public Comments not on Agenda

Mark Hinrichs addresses the Commissioners in regards to sidewalks. Mr. Hinrichs states year ago he was told he had to put in sidewalks in the front of his house. Now he is wondering why the city is not telling others to put sidewalks in. He states that patches without sidewalks should be addressed by the Commission. He states the cost of installing sidewalks can be billed back to the property owner. He states this is an item of fairness. He has spoken to the Commissioners in the past and has not seen any progress. There is inequality of winter weather. He doesn't feel he should have to shovel his sidewalk in the winter and the people whom have no sidewalk don't have to shovel snow. Continuity access for elder and impaired. He feels letters should be sent to those without sidewalks to take steps to put them in place. He states there are three more months of concrete pursuing season left and encourage the Commission to come forward and pursue this as for the quality of the City. He will leave telling his neighbors they need sidewalks up to the City Engineer.

President Scott Decker states the City will address this matter.

9. COMMISSION
