- b. Recommend hiring Erica Merchant to restore interior ghost mural at 51, 53, 55 Sherman Street for a cost not to exceed \$15,868.38.

Mr. Kuchenbecker stated the Historic Preservation Commission entered 51, 53, 55 Sherman Street into the Ghost Mural Program at the February 8, 2023 meeting. A quote has been submitted from Erica Merchant to restore the ghost mural. Staff is recommending hiring Erica Merchant to restore the ghost mural for a cost not to exceed \$15,868.38. The exterior ghost murals will be quoted and completed when weather permits. ***It was moved by Commissioner Diede and seconded by Commissioner Dar to recommend to the City Commission to hire Erica Merchant to restore the ghost mural of the Adams Block building located at 51, 53, 55 Sherman Street for a cost not to exceed \$15,868.38. Yea: Posey, Diede, Santochi, Dar.***

7. New Matters Before the Deadwood Historic District Commission

- a. COA 230015 - KR Deadwood Sherman Street 2020 LLC - 51, 53, 55 Sherman Street
 - Install Exterior Lighting

Mr. Kuchenbecker stated the applicant is requesting permission to install light fixtures on the exterior of the building per the attached scope of work. There is a very detailed application with location, size of fixtures and spec sheets for the fixtures. Staff has reviewed this, of course recently we had a request from Midnight Star. As we look at these and reaching out to the State Historic Preservation Office it is going to be very important for the Commission to interpret this type of request consistently while considering potential communal impacts of important views and relationship within the district. Staff as looked at this and The size, location and variety of electrical lighting fixtures raises concerns to the overall façade and the impact to the historic character. Historically, these historic buildings were not washed with artificial lighting. Staff is still concerned with impact to residents and

the eventual impact on the night skies. The proposed lighting system has both up lighting and downlighting along with being RGB led allowing the changing of colors. Downlighting and a soft white would be preferred. Staff is concerned with the overall effect of lighting that has been allowed to be installed on the historic buildings and cumulative effect on the site and setting of the district along with the light pollution to other parts of our residential areas above the commercial district. With this, it is staff's opinion, as submitted, the size and variety of colored lighting options does encroach upon the historic resource and will have an adverse effect on the character of the building at night; additionally, it continues to add to the cumulative adverse effect on the historic character of the local historic district, the State and National Register Historic Districts or the Deadwood National Historic Landmark District as well as the continued effect on light pollution. An option for the applicant to consider is resubmitting downlighting only in front of the building with a soft white light that limits illumination to the building only. The rear of the building could have lights near the doors and the side of the building should only be lit in the area of the proposed and approved outdoor patio rather than the entire side of the building.

We do have the applicant and representatives on zoom meeting, Brad Burns and James Stampe. Any action today would have to a unanimous vote as there are only four Commissioners present.

Brad Burns stated the intent is to not necessarily blow the building up with light. It is only accent. I did read the minutes of the Midnight Star approval and those conditions and concerns. Even though the lights are capable of changing color, that's not to say that would be the deal if they do need to be white. There are some other buildings around town that do have lighting. The Iron Horse and Martin Mason as lighting also. Our hope is that we would still be able to follow suit.

James Stampe stated he was also emphasize that the color changing lights can be changed to an all white pretty easily. The lights that have been selected are controlled by DMX and the intensity can be turned way down. The example could be a little more on the robust side because we wanted to represent the reasons for the lighting to allow the building's character to come out at night. I think the owner is willing to take those levels to what is acceptable to the HP Commission. I would also note that lighting levels that are being proposed are not going to blow this building up. It's going to be fairly subdued. Not much different from the visitor center. There will be control of the uplighting. We would like to light the exterior signage on the building. Uplighting would do that well. The lights that are being selected are lights that can be aimable. We can make the light end at the top of the building. That would eliminate light escaping into the atmosphere which is a concern that we had. Just keep that into consideration.

Commissioner Santochi stated he concurs with staff completely and would make a motion which is B. Mr. Kuchenbecker stated the Commission will need to state the reasoning for approving or denying the application. The Commission concurs with the staff and believes the lighting on the side and the rear of the building is an overkill and not necessary keeping in mind the other buildings that have been

mentioned or approved are historic in nature is just the front facade. The side and the back is a concern and insuring that the lighting is a soft white. Commissioner Dar stated this is on the current proposal and based on what we see here I would have to deny. Commissioner Diede stated one of his concerns is that the lights could be toned down and you can make it what ever color you want. That in its self is questionable because you can make it color you want, any time you want. We would have to police that somehow. I don't know if this is appropriate for this commission to address that. Brad Burns said if we wanted to get rid of the option of the colors. We can do two different things, sift away from RGB, red, green , blue lights, and go to a similar smaller soft white fixture and limit the light from being turned up too much.

Mr. Kuchenbecker state what would be appropriate for the Commission is either deny this or continue it with an alteration to the submittle that comes to a consensus between the owner and the Commission. This would show just the facade and just the white. They would more than likely approve an application that fits more of what the staff report , SHPO and previous applicants have been approved by with the specifics. ***It was moved by Commissioner Santochi and seconded by Commissioner Dar based upon the guidance found in DCO 17.68.050, I find that the exterior alteration proposed is incongruous with the historical, architectural, archaeological or cultural aspects of the district and move to deny Certification of Appropriateness based on staff's and HP Commission's recommendation to resubmit an application for downlighting only in front of the building with a soft white light that limits illumination to the building only. The rear of the building could have lights near the doors and the side of the building should only be lit in the area of the proposed and approved outdoor patio rather than the entire side of the building. Yea: Posey, Diede, Santochi, Dar.***

8. New Matters Before the Deadwood Historic Preservation Commission

9. Items from Citizens not on Agenda

(Items considered but no action will be taken at this time.)

10. Staff Report

(Items considered but no action will be taken at this time.)

- a. Update - Midnight Star Accent Lighting
- b. Update on Short-Term Rental Task Force

The Short-Term Rental Task Force has met three times and there will be forth one. They have been working on policy goals, putting together action items and mapping what we have now.

We were authorized at last nights City Commission meeting to purchase the collection.

We will be closing on the Fuller property purchase on March 16, 2023.

11. Committee Reports

(Items considered but no action will be taken at this time.)

Commissioner Dar stated the Wine and Chocolate Stroll sold out. They are working on a plant swap and farmers market. Sports betting bill did not pass.

Commissioner Santochi stated he is working with Mike Runge. They are getting into the core of the neighborhood and there are more toys, procelin and bottles.

12. Adjournment

Adjournment

The Historic Preservation Commission Meeting adjourned at 4:42 p.m.

ATTEST:

Chairman, Historic Preservation Commission

Minutes by Bonny Anfinson, Program Coordinator
