	<p><b>Staffing Updates:</b></p> <p>Janice is working on hiring Barret’s Flesh’s replacement.</p> <p>Staffing levels remain in transition, but better than they have been recently. We are hoping to obtain more leadership in Behavioral Health.</p> <p>Please send any additional questions to Dana Murray</p> <p><b>Holly Harris Crises Staffing Update:</b></p> <p>Her staffing is not quite where it needs to be, but much better than it was. Night shifts are fully staffed for the first time since opening, so she is feeling optimistic.</p> <p><b>MCAT is her biggest challenge.</b></p> <p>She recently had some travel QMHP’s who were very helpful but only stayed for 1 month. She was unable to recruit them long-term as they were too expensive. She is working with the same staffing company to try and obtain more temps.</p>	
<p>12:10PM – 12:55PM</p>	<ul style="list-style-type: none"> <li>• IDD Presentation</li> </ul> <p><b>Paul and Amanda gave a presentation on IDD</b></p> <p>Paul also introduced Amanda Blatnik and her recent promotion to a Supervisor position.</p> <p>Paul began the presentation with a historical perspective of IDD as it’s important to understand how we got to where we are now. We started as institutionalized care and moved to community based care. In Oregon we no longer have Institutionalized care for individuals with IDD.</p>	<p>Paul Partridge and Amanda Blatnik</p>

	<p>IDD Services tries to stay with an individual for Case Management for their full lifespan. They do try to encourage independence as much as possible, but they will stay with them as long as needed.</p> <p><b>Amanda Covered IDD Eligibility</b></p> <p>There is an application and eligibility standards to receive services. There are two categories: Intellectual (IQ score of 75 or less) and Developmental Disability (DX that poses significant impairment in the functioning from a provider)</p> <p>Amanda reviewed the 4 Stage Cycle: Assess, Plan, Do, Check.</p> <p>IDD does not provide direct care, but makes referrals to services that will help the individual. Though due to staffing crises the wait lists might be long. Additionally there is a lack of housing so they may not have housing for in-home supports.</p> <p>Paul emphasized that there are many supports that IDD can authorize, but there are limitations that interfere with an individual achieving goals. He also wanted to stress that IDD is only one part of Collaborative Partnerships that must work together to help an individual.</p> <p>Current Objectives:</p> <ul style="list-style-type: none"><li>• Q&amp;A</li></ul> <p>Q: What is the coordination with schools for kids who will be aging out of services?</p> <p>A: At age 15 discussions begin to take place regarding transitioning to adult programs. Try to make referrals early on rather than last minutes. They work on employment and living possibilities.</p>
