BOARD OF COUNTY COMMISSIONERS MEETING
1:00 PM, MONDAY, DECEMBER 4, 2023
Allen Room - Deschutes Services Building - 1300 NW Wall Street – Bend
(541) 388-6570 | www.deschutes.org

AGENDA

MEETING FORMAT: In accordance with Oregon state law, this meeting is open to the public and can be accessed and attended in person or remotely, with the exception of any executive session.

Members of the public may view the meeting in real time via YouTube using this link: http://bit.ly/3mmlnzy. To view the meeting via Zoom, see below.

Citizen Input: The public may comment on any topic that is not on the current agenda. Alternatively, comments may be submitted on any topic at any time by emailing citizeninput@deschutes.org or leaving a voice message at 541-385-1734.

When in-person comment from the public is allowed at the meeting, public comment will also be allowed via computer, phone or other virtual means.

Zoom Meeting Information: This meeting may be accessed via Zoom using a phone or computer.

- To join the meeting via Zoom from a computer, use this link: http://bit.ly/3h3oqdD.
- To join by phone, call 253-215-8782 and enter webinar ID # 899 4635 9970 followed by the passcode 013510.
- If joining by a browser, use the raise hand icon to indicate you would like to provide public comment, if and when allowed. If using a phone, press *9 to indicate you would like to speak and *6 to unmute yourself when you are called on.
- When it is your turn to provide testimony, you will be promoted from an attendee to a panelist. You may experience a brief pause as your meeting status changes. Once you have joined as a panelist, you will be able to turn on your camera, if you would like to.

Deschutes County encourages persons with disabilities to participate in all programs and activities. This event/location is accessible to people with disabilities. If you need accommodations to make participation possible, call (541) 388-6572 or email brenda.fritsvold@deschutes.org.
**Time estimates**: The times listed on agenda items are estimates only. Generally, items will be heard in sequential order and items, including public hearings, may be heard before or after their listed times.

---

**CALL TO ORDER**

**CITIZEN INPUT**: Citizen Input may be provided as comment on any topic that is not on the agenda.

**Note**: In addition to the option of providing in-person comments at the meeting, citizen input comments may be emailed to citizeninput@deschutes.org or you may leave a brief voicemail at 541.385.1734.

**AGENDA ITEMS**

1. 1:00 PM Rural, Bend, Sunriver Chambers Funding Requests
2. 1:30 PM Work Session: Draft 2020-2040 Tumalo Community Plan Update

**OTHER ITEMS**

These can be any items not included on the agenda that the Commissioners wish to discuss as part of the meeting, pursuant to ORS 192.640.

**EXECUTIVE SESSION**

At any time during the meeting, an executive session could be called to address issues relating to ORS 192.660(2)(e), real property negotiations; ORS 192.660(2)(h), litigation; ORS 192.660(2)(d), labor negotiations; ORS 192.660(2)(b), personnel issues; or other executive session categories.

Executive sessions are closed to the public; however, with few exceptions and under specific guidelines, are open to the media.

**ADJOURN**
MEETING DATE: December 4, 2023

SUBJECT: Rural, Bend, Sunriver Chambers Funding Requests

BACKGROUND AND POLICY IMPLICATIONS:
The Chambers of Commerce of La Pine, Redmond and Sisters together submitted a request for an allocation of $60,000 each from the Video Lottery Fund to support small businesses in their respective areas of operation, thereby promoting economic development.

The Sunriver Chamber of Commerce has requested $65,000: $45,000 for continued baseline support and $20,000 to hire a part-time employee to assist the executive director. The Bend Chamber of Commerce requests $75,000 to support its workforce housing program.

Finance Department staff will provide a supplemental memorandum with the current Video Lottery Fund balance, and an analysis of revenues and expenditures over the past five years. The analysis will include a summary of Video Lottery and ARPA funds to local chambers.

As the Board considers these requests, it is important to note that the County has a practice of granting one-year funding allocations. There are not any multi-year commitments for Video Lottery funding support.

In addition, the County has a longstanding process of completing Video Lottery allocations for the upcoming fiscal year each spring during the budget development process. That process has already been completed for Fiscal Year 2024. Any allocations the Board makes will require budget adjustments. The Board could consider these requests during the Fiscal Year 2025 budget development process, which will occur in March 2024.

ORS §461.512 provides that video lottery money received by counties must be targeted to “further economic development.” ORS §461.547 confirms that monies received by counties must be directed to “economic development activities.” ORS §461.540 provides a list of permissible expenditures for economic development:

- Creating jobs;
• Preventing loss of jobs;
• Training and retraining of workers;
• Services or financial assistance to businesses located or to be located in Oregon;
• Services or financial assistance to business or industry associations to promote, expand or prevent decline of business; or
• Services or financial assistance for “development projects” benefitting Oregon’s economy and as authorized by ORS §285B.410 (ORS §285B.410 identifies “development projects” as the acquisition, improvement, construction, demolition or redevelopment of municipal utilities, buildings, land, facilities).

Options:
1. Decline one or more funding requests.
2. Defer decisions to the Fiscal Year 2025 budget process.
3. Supplement existing Fiscal Year 2024 allocations for Sisters and Sunriver and consider new Fiscal Year 2024 funding allocations for Bend, Redmond and/or La Pine Chambers.

BUDGET IMPACTS:
To be determined by the Board.

ATTENDANCE:
Nick Lelack, County Administrator
Laura Skundrick, Management Analyst
November 20, 2023

To the Board of County Commissioners
1300 NW Wall Street
Bend, OR 97703

Dear Commissioner, Patti Adair, Commissioner, Phil Chang and Chair, Tony DeBone:

The Chambers of Commerce of La Pine, Redmond and Sisters are requesting an annual allocation of $60,000 each from the Video Lottery Fund.

Based on the information we have received this fund is to be used for Economic Development and Education purposes.

We are aware that the Sunriver Chamber has been receiving approximately $60,000 (some years more, some years less) annual allocation for years, and we stand in strong support for continuing that allocation.

As you know, most of Deschutes County’s businesses are made up of small businesses. The Chambers’ role in providing much needed services to this sector is vital to the health of our economy.

As an example, During COVID the Chambers’ were one of the only organizations willing to take in funds and distribute those funds to small businesses in Deschutes County. The distribution of funds to our small businesses resulted in our Chambers’ being ineligible for relief funds, as those funds were run through our books (by our accountants), making us ineligible for COVID assistance.

We also assist with many different aspects, helping small businesses succeed throughout the county, a list of our economic development activities is attached to this packet.

Based on our conversation today, we respectfully request the allocation be approved.

Sincerely,

Ann Gawith, Eric Sande and Judy Trego
Deschutes County Rural Chambers of Commerce Activities

Redmond Chamber of Commerce
- We help to support, represent and strengthen businesses in North Deschutes County, Terrebonne and parts of Crooked River Ranch.
- We help and support the resorts of Eagle Crest and Juniper Preserve (continually work with group business holding events at the resorts).
- We help and support the team and events held at Deschutes County Fair and Expo Center.
- We help growing our community and destination of north Deschutes County.

Sisters Area Chamber of Commerce
- We promote, market, support, represent and strengthen the small business community in Western Deschutes County.
- We help and support the resorts of Black Butte Ranch, Aspen Lakes and the surrounding areas.
- We help and support many events held within Western Deschutes County, as an example, the Sisters Area Chamber of Commerce is one of the many sponsors for the Sisters Rodeo, we have also provided sponsorship to the Rodeo held at the Deschutes County Fair and Expo Center.
- We grow community by assisting businesses/community efforts in Western Deschutes County.
- We assist struggling businesses with loan referrals, employment, and business marketing consulting.
- We provide many networking opportunities for small businesses in Western Deschutes County.

La Pine Chamber of Commerce
- We help to market, support, represent and strengthen businesses in Southern Deschutes County.
- We help and support the resorts of Paulina Lake Lodge, East Lake Resort and the entire Newberry Crater recreational area, including working with the Deschutes National Forest.
- We help and support other resorts in the immediate area ... Twin Lakes Resort, Crane Prairie Resort, Cultus Lake Resort, Crescent Lake and Willamette Pass areas, as well as the Gilchrist/Crescent area.
- We help and support the many events held in La Pine, including the La Pine Frontier Days and the La Pine Rodeo, the Rhubarb Festival
- We help and support the community radio station KNCP FM
- We are a sponsor of the Deschutes County Fair and Rodeo
- We offer resources to our business community for information & education on workforce development, business plans and marketing, etc.
- We continually market the desirability of doing business and living in Southern Deschutes County

Sincerely,

Eric Sande,  Judy Trego,  Ann Gawith
CEO RDM,  CEO SACC,  CEO, LP Chamber
ORS 461.547
Distribution of certain video lottery revenues to counties for economic development.

The Oregon State Lottery Commission shall transfer an amount equal to 2.5 percent of the net receipts from video lottery games allocated to the Administrative Services Economic Development Fund to counties for economic development activities for the following purposes:

- Furthering economic development in Oregon;
- “Furthering economic development” includes, but is not limited to, providing:
  - Services or financial assistance to for-profit and nonprofit businesses located or to be located in Oregon;
  - Services or financial assistance to business or industry associations to promote, expand or prevent the decline of their businesses;

- Creating jobs;
- “Creating jobs” includes, but is not limited to:
  - Supporting the creation of new jobs in Oregon;
  - Helping prevent the loss of existing jobs in Oregon;
  - Assisting with work transition to new jobs in Oregon; or
  - Training or retraining workers.
Bend Chamber Operational Funding
Proposal to Deschutes County Commission
November 15, 2023

The Work of the Bend Chamber
Supporting a thriving business community by:

- **Convening** and connecting businesses and thought leaders to solve business, employer and economic challenges
- **Advocating** for businesses at the local, state and federal level
- **Resourcing** businesses with health insurance, information and other assistance
- **Developing** tomorrow’s Leaders through Leadership Bend and other programming
- **Initiatives** that benefit businesses throughout Central Oregon and their employees, including housing, childcare, and workforce development

In addition to its work to support businesses, the Chamber supports multi-year, key initiatives that have deep impact to businesses, employers and their employees. These initiatives, including midmarket housing, childcare, workforce development and others, are complex and require sustained and collaborative effort to achieve results. The Chamber’s Workforce Housing Initiative is one of these efforts, and has been the Chamber’s prime focus since 2022.

**Workforce Housing Initiative 2024-2025**
While there is a shortage of all levels of housing, the Bend Chamber’s focus is middle-market housing, where there is a quickly vanishing supply for an important part of Central Oregon’s labor pool and the greater community.
Goal:
Increase rental or ownership housing for the Bend workforce in 80-120% income band

- Track middle market housing additions against City of Bend Housing Needs Analysis
- Successfully advocate for policies and legislation that supports AMI 80-120 housing
- Identify and enable collaboration and investment in building more AMI 80-120 housing
- Continue to be a champion (social and other) communicator of ideas, projects and need for AMI 80-120 housing in the community

Initiative Elements:
Projects:
- Increase rural and urban ADU units by updating the Chamber’s toolkit, and collaborating with Deschutes County and City of Bend ADU programs
- Invest in projects that incentivize AMI 80-120% housing and targeting local employees

Project Policy & Funding
- Track progress of the State Housing Policy Advisory Committee (HPAC) to identify and advocate for policy changes to increase housing.
- Advocate for modest, well-planned expansion of Urban Reserves (HB 3414)
- Advocate for additional investments for pre-development and infrastructure

Partnerships & Collaboration
- Work with major employers and employer clusters to develop strategies to add housing
- Identify developers who are interested in connecting with employers as potential housing lessors or investors
- Partner with public, private and nonprofit organizations with shared advocacy goals

Project Assistance & Consulting
- Assist with permitting and project advancement at City and County level
- Identify community asset opportunities in housing projects (response to employer need for more childcare, connectivity, etc.)

Potential Project Investment
As part of the Chamber’s ongoing investment opportunities that add to financial viability of delivering AMI 80 – 120 housing for Bend’s workforce, create a sustainable, revolving loan fund using public and private money to invest in workforce housing development projects within the Bend, Oregon UGB.

To create a viable public/private partnership, the Bend Chamber proposes building upon past work and formalizing the Central Oregon Workforce Housing Collaborative. The Collaborative will include employers, local government, and strategic partners. The Collaborative will be led by the Bend Chamber, and membership is by invitation. Collaborative members are responsible for bringing capital, land, or other assets to the table as a condition of membership. An environmental scan of Collaborative
members and their assets will be conducted, and recommendations made on how to best leverage individual assets.

Outreach
Build collaborative partnerships to support deployment of investments for employer-driven or supported workforce housing projects.

- **Develop collaborations** with local employers, developers and land owners.
- **Fund Mechanics**: Mix of public, private and philanthropic dollars to fund low interest, short term loans (under 36 months) to spur workforce housing projects.
- **Metrics of Success**: Short-terms goals include securing public and private capital investments to create and sustain the fund; developing a coalition of willing developers and employers to drive the work; marketing the fund to developers and promoting partnerships among coalition employers.

DESCHUTES COUNTY LOTTERY FUNDING REQUEST

- To support economic and business support efforts, and key initiatives, the Bend Chamber requests an investment of $75,000 from Deschutes County Video Lottery Investment Funds to specifically support our 2024 workforce housing program support.

- The Chamber’s work continues year over year, and sustained, annual financial support from Deschutes County enables our organization to plan and execute our programs and initiatives moving forward. We request an annual contribution to support this work.

- These funds will build capacity within Chamber operations and project investments that will support Deschutes County businesses and the economy.
MEMORANDUM

Date: Nov. 29, 2023

TO: Deschutes County Board of Commissioners

FROM: Sunriver Area Chamber of Commerce Finance Committee

RE: Fiscal Year July 1, 2024 to June 30, 2025 Budget Request

The Sunriver Area Chamber of Commerce kindly requests the continued financial support of the Deschutes County Board of Commissioners for the 2024-25 fiscal year. The chamber appreciates the grant it received for the current fiscal year and has taken great care to use the funds to benefit the Sunriver community.

In 2023, the chamber created new programs and events, and built and reestablished partnerships to benefit the businesses, nonprofit organizations and community members in South Deschutes County.

Highlights of the chamber’s work in 2023 include:

- Hosts two networking events a month except in the summer
- Publishes two weekly newsletters
- Promotes businesses and nonprofit organizations via its social media
- Meets individually with businesses to discuss their concerns or provide assistance
- Partnered with several businesses to host Sunriver Solar Soiree in October
- Started the Sunriver Saturday Market, held once a month from June to October
- Created the content and published the Sunriver Magazine
- Worked with businesses to have a canned food drive to benefit Care & Share
- Held a pumpkin carving contest with The Village at Sunriver with the winner receiving a check to its favorite charity
- Hosted a career exploration and inspirational lunch for the middle school girls at Three Rivers School
- Partnered with the La Pine Chamber of Commerce to host the annual State of the County Breakfast
- Supported many nonprofits as a volunteer including the Sunriver Music Festival, La Pine Chamber of Commerce, Sunriver Women’s Club, Care & Share and SLED
- Serve as a committee member for the Newberry Regional Partnership
Currently hosting the second annual Ornament Quest – a Shop Sunriver event

None of this work would be possible without the support of Deschutes County. While great strides have been made to increase membership and many businesses are returning as members after a hiatus, the chamber requests continued support to meet its goals to serve the businesses and nonprofits in South Deschutes County.

The chamber’s plans for 2024-25 include hosting the annual breakfast, a career exploration lunch for middle school students and networking events; serving on the Newberry Regional Partnership committee; having a fundraiser; and continuing with the events established in 2023 including the canned food drive and Sunriver Saturday Market.

The chamber’s finance committee has carefully reviewed its financial needs and developed a budget request of $65,000 for the fiscal year 2024-2025, an increase of $15,000 from the previous fiscal year of $50,000. This would allow us to maintain our basic operations while having funds to hire a part-time employee. Currently, the chamber only has one employee – the executive director.

The chamber has worked diligently to show businesses there is a value in being a chamber member. In order for the chamber to continue to make strides, an additional employee needs to be hired.

For our baseline operations, we are requesting $45,000. This will allow us to continue to offer the services mentioned earlier, including business development, education and training, and advocacy. We also could continue to offer traditional services that our local businesses, visitors, and our community have come to expect from our chamber, such as business referrals, and providing promotional information about Sunriver’s special amenities, recreational opportunities, and events and activities.

We are requesting an $20,000 to hire a part-time employee to assist the executive director.

In summary, the Sunriver Area Chamber of Commerce total budget request is as follows:

<p>| | |</p>
<table>

</tr>
</tbody>
</table>

We are available anytime to discuss this proposal in additional detail and to answer any questions you might have. Our chamber office number is 541-593-8149 or you can email Executive Director Kristine Thomas at exec@sunriverchamber.com. Thank you for considering this request.

**Sunriver Area Chamber of Commerce Board of Directors Finance Committee:**

Ryan Duley, Sunriver Brewing, Chamber Board President
Aaron Schofield, Branch Manager, First Interstate Bank, Chamber Board Treasurer
Keith Kessaris, Assistant General Manager, Sunriver Owners Association
Thomas Samwel, Area Director of Finance, Sunriver Resort Limited Partnership, Chamber Board Member
SUBJECT: Rural, Bend, Sunriver Chambers Funding Requests Financial Analysis

BACKGROUND AND POLICY IMPLICATIONS:
The Finance Department has completed an analysis of funding requests that the Board is considering and is providing this supplemental memorandum to assist the Board in evaluating these requests.

Projected Video Lottery Fund (VLF) Fund 165 Balance

If Video Lottery payments from the State are received as anticipated, the Board is projected to have about $1 million available in unallocated Video Lottery funds.

Any allocations made by the Board before the end of the fiscal year would reduce that projected ending fund balance accordingly. They would also require a budget adjustment.

Analysis of Revenue and Expenditures

*The FY 25 estimates assume that grant investments would match FY 24 levels and
that the allocation for EDCO would increase at a rate that matches the historical average increase.

**Beginning Working Capital Projection**

**ARPA Awards**

Local chambers did not receive ARPA allocations.

**Prior Video Lottery Support for Chambers**

Previous years of video lottery funding to chambers is shown below:

MEETING DATE: December 4, 2023

SUBJECT: Work Session: Draft 2020-2040 Tumalo Community Plan Update

BUDGET IMPACTS: None.

ATTENDANCE: Tarik Rawlings, Senior Transportation Planner
MEMORANDUM

TO: Deschutes County Board of County Commissioners

FROM: Tarik Rawlings, Senior Transportation Planner

DATE: December 4, 2023

RE: December 4, 2023, work session in preparation for public hearing: Draft 2020-2040 Tumalo Community Plan (TCP) update

The Planning Division is updating the 2010-2030 Tumalo Community Plan (TCP) to 2020-2040 due to changes in the community and passage of time. Additionally, the County received a $75,000 Transportation Grant Management (TGM) from the State, of which $50,000 was dedicated to update the bike/ped/transit, aka Active Transportation, element of the TCP. The County hired Kittelson and Associates (KAI) to do the work for the TGM grant.

The purpose of this memo is to summarize the public process and comments received regarding the TCP either in person or online, in preparation for a public hearing before the Board of County Commissioners (Board) on December 6, 2023.

I. BACKGROUND

Tumalo is an Unincorporated Community under Oregon Administrative Rule (OAR) 660-022, meaning the land use pattern is quasi-urban in terms of density and land uses and predated the Oregon’s land use system, which began in 1973. The state classifies Tumalo as a Rural Unincorporated Community1 and the County administers it under Deschutes County Code (DCC) 18.67. The Tumalo Community Plan is Section 4.7 of the Comprehensive Plan and appears as Appendix B of the Comprehensive Plan.

Staff prepared a website, www.deschutes.org/tumaloplan, which featured a StoryMap that provided a narrative of the project, the community's history, the purpose of the TCP, surveys, and an opportunity to leave a contact email. Additionally, the full record including public and agency

---

1 OAR 660-020-010(7) “Rural Community” is an unincorporated community which consists primarily of permanent residential dwellings but also has at least two other land uses that provide commercial, industrial, or public uses (including but not limited to schools, churches, grange halls, post offices) to the community, the surrounding area, or to persons traveling through the area.”
Staff provided numerous methods for the public to provide input on what they wanted in the TCP, comments on the community vision as well as specific draft goals and policies. The public outreach methods ranged from traditional meetings in the Tumalo School Gym to face-to-face meetings at a local coffeehouse to Zoom meetings. Public outreach included mailers to Tumalo residents initially then emails via Constant Contact based on information from attendance sheets, contact info left at the website, or phone calls and/or emails to Planning staff. Outreach for specific events included:

- Tumalo StoryMap #1, April 27-May 25, 2022
- Tumalo Community Plan Open House #1, May 11, 2022 (Kick Off meeting)
- Meet A Planner, Tumalo Coffeehouse, Zoom, or phone, June 13-24, 2022
- Tumalo StoryMap #2, June 29-July 27, 2022
- Tumalo Community Plan Open House, #2, August 22, 2022 (Draft TCP, 1st version)
- Meet A Planner, Tumalo Coffeehouse, Zoom, or phone, May 2-9, 2023
- Tumalo StoryMap #3, April 23, 2023, to present
- Tumalo Open House #3, May 17, 2023, (Draft TCP, 2nd version)

II. KEY ASPECTS OF THE 2020-2040 TCP

The prevailing sentiment of the public who attended or commented was they wanted to preserve Tumalo's feel of being a small town. There were also concerns about the possibility of private sewer which serves the higher density residential neighborhood on the south side of U.S. 20 extending across the highway into Tumalo. A number of public comments focused on limiting the number of dwelling units that could be approved in association with a multi-family complex. Other concerns included balancing economic development with Tumalo's historically rural nature, the side effects of tourism, protecting the Deschutes River, and concerns about rising traffic volumes and the speed of traffic.

Below is a summary of the differences between the current TCP and the draft update.

<table>
<thead>
<tr>

</tbody>
</table>
An attached color-coded version of the TCP is included to show how various goals and policies address these and other issues. Additionally, the attached spreadsheet compares and contrasts the 2020-2040 TCP goals and policies to the 2010-2030 TCP and provides a summary of why the text remained the same, was changed, or new language was added.

III. KEY ASPECTS OF THE TGM GRANT FOR BIKE/PED/TRANSIT IN TUMALO

The Tumalo portion of the TGM grant had an overlap with the Tumalo Community Plan, including having consultant staff at the May 11, 2022, Kick Off meeting. Other public outreach occurred via:

- Walking downtown tour of Tumalo, focusing on bike/ped/transit, June 8, 2022
- Interactive StoryMap, June 8-July 13, 2022
- Virtual Open House, October 5-24, 2022

The dominant themes were safety and improvements to lower speeds; pedestrian connectivity; location of future transit stop; and potential amendments to bike standards in Deschutes County Code (DCC) at 17.48, Table A (Road Standards) and Table B (Bikeway Standards). The specific recommendations are found in two memos, Final Concept Plan (December 7, 2022) and TCP Active Transportation Update and SCVAP Trails Expansion Outreach – Implementation Measures Deschutes County Code (January 31, 2023).

IV. RELATIONSHIP TO TUMALO SEWER FEASIBILITY STUDY

While the TCP and sewer feasibility unfolded at roughly the same time, they have no regulatory relationship. The sewer feasibility study was an economic analysis of various alternatives to bring sewer to Tumalo via either extension of Tumalo Property Owners Association (TPOA) existing private system; a new local and collector system; or having a pipeline connect to the City of Bend system. The study's assumption and conclusions can be found at this link:

full_report_and_appendices.pdf (deschutes.org)

While the sewer feasibility study was a separate process, staff repeatedly heard from the community about its concerns regarding cost, effect of development, fees, and potential implications for denser development. Staff crafted policies in response to these concerns that appear in the TCP Public Facilities section.

V. PLANNING COMMISSION REVIEW AND RECOMMENDATION

Staff held a July 27, 2023, work session with the Planning Commission (PC) to provide an overview of the updated TCP and the process to create it. The PC held a public hearing on August 10, 2023,

---

2 https://www.deschutes.org/bc-pc/page/planning-commission-37
3 https://www.deschutes.org/bc-pc/page/planning-commission-38
on the draft 2020-2040 TCP. The PC voted to continue the public hearing to August 24, 2023\(^4\) and collected additional public comments. At the conclusion of oral testimony on August 24, 2023, the PC voted to close the oral and record and leave the written record open until 4 p.m. on September 7, 2023. Deliberations before the PC were initially held on October 12, 2023\(^5\) with the PC voting to continue deliberations until October 26, 2023. The PC held continued deliberations on October 26, 2023\(^6\), ultimately making a recommendation to the Board to adopt the TCP document including the following amendments:

- **Remove Policies #10 and #11** from the Natural Resources, Open Space, and Recreation Policies section of the TCP's goals and policies. *(5 Commissioners in favor, 1 Commissioner in opposition, 1 Commissioner abstained)*
- **Add a policy to explore legislative changes to limit multi-family housing to 4 units** in Tumalo. *(7 Commissioners unanimously in favor)*
- **Support for public art** in Tumalo. *(7 Commissioners unanimously in favor)*
- **Encourage residents and community groups to reach out to Deschutes County for updates and information.** *(5 Commissioners in favor, 2 Commissioners in opposition)*

In anticipation of the Board’s public hearing on December 6, 2023, notice was provided to the Department of Land Conservation and Development (DLCD) on July 6, 2023 with a Notice of Application sent to agency partners on July 21, 2023. Additionally, a Notice of Public Hearing was published in the Bulletin newspaper on November 19, 2023 and courtesy email notice was sent to participating parties on November 17, 2023.

**VI. NEXT STEPS**

The Board will hold a public hearing on December 6, 2023. The Board has several options at the conclusion of the staff presentation and public comments. The Board may:

- Hold the oral and written record open and continue the hearing to a date certain
- Close the oral record and hold the written record open to a date certain
- Close both the oral and written record and set a date certain for deliberations
- Close both the oral and written record and begin deliberations

**VII. CONCLUSION**

Staff is prepared to answer any questions.

Tumalo Community Plan, 2020-2040

File 247-23-000509-PA, 510-TA
Purpose of Work Session

- Provide context and background on the Tumalo Community Plan (TCP)
- Recap development of the draft TCP
  - Suggest focusing any discussion only on new goals or policies
- Prepare Board for December 6, 2023 public hearing
- Identify next steps
What Is A Community Plan?

❖ Appendix to Comprehensive Plan
❖ Like Comprehensive Plan, has a 20-year horizon
❖ Deals with a specific geographic area
❖ Sets an overall vision for that defined area
❖ Contains goals and policies
❖ Guidance document for land use, but does not contain approval criteria
What Is Tumalo?

❖ Unincorporated Community per OAR 660-022
❖ Specifically, a Rural Unincorporated Community per OAR 660-022-0010(7)
❖ Administered under Deschutes County Code (DCC) 18.67 (Tumalo Rural Community)
❖ TCP does not propose any changes to DCC 18.67
County Plans That Affect Tumalo

- County has multiple planning efforts
- These overlap in terms of time
- Staff has worked to ensure coordination

Deschutes County Plans

- Comprehensive Plan
- Transportation System Plan
- Tumalo Community Plan
- Bike/Ped/Transit Section
Other Activities in Tumalo

- County funded a request for sewer feasibility study
- ODOT constructing two-lane roundabout at U.S. 20/O.B. Riley-Cook
- County approved multiuse path going underneath U.S. 20 at 4th St. down to Strickler to provide easy route for pedestrians and bicyclists to cross the highway
Why Update 2010-2030 TCP?

❖ Typically plans are updated at the halfway mark
❖ Population growth
❖ Rise of local businesses such as food carts, artisan goods, cideries, and others
❖ Small sewer system and new neighborhood south of US 20
❖ US 20/Cook-OB Riley roundabout (2022-23)
❖ Increase in traffic on US 20, Cook Ave/Cline Falls Hwy
Public Outreach to Tumalo for TCP

- Flyers prior to first Open House
- Website for TCP
- Story Map
- Three Open Houses
- Developed contact list for email
- Meet A Planner sessions
- Stakeholder interviews
- Planning Commission Public Hearing
- Notice for December 4 Board hearing
Topics raised by the public

❖ Fear of losing rural or small-town feel amid rapid growth
❖ Code amendments for multi-family dwellings
❖ Signage and vehicle safety in Tumalo
❖ Need to protect the Deschutes River
❖ Various views on recent economic development
❖ Drawbacks of tourism
❖ Concerns about sewer costs and effects
❖ Roundabout art and other public art
TCP 2020-2040 response to public

❖ Kept Vision Statement
❖ Added 3 new goals; 17 new policies
❖ Changes to 3 existing goals; 26 existing policies
❖ No changes to 9 existing policies
❖ Deleted 10 outdated policies or irrelevant text
❖ See color-coded version of TCP Goals and Policies
❖ See spreadsheet of 2010 vs. 2020 TCP for specifics
Planning Commission Recommendation

❖ Remove Policies #10 and #11 from the Natural Resources, Open Space, and Recreation Policies section of the TCP’s goals and policies. *(5 Commissioners in favor, 1 Commissioner in opposition, 1 Commission abstained)*

❖ Add a policy to explore legislative changes to limit multi-family housing to 4 units in Tumalo. *(7 Commissioners unanimously in favor)*
Planning Commission Recommendation

- Support for public art in Tumalo. *(7 Commissioners unanimously in favor)*

- Encourage residents and community groups to reach out to Deschutes County for updates and information. *(5 Commissioners in favor, 2 Commissioners in opposition)*
Why colors for goals, policies

- Using **underline** and **strikethrough** made draft unreadable
- Green = No change between 2010 and 2020 TCP
- Blue = 2010 TCP text modified in 2020 TCP
- Yellow = New text for 2020 TCP
- Red = 2010 TCP text deleted
- Spreadsheet has verbatim 2010, 2020 TCP text
- Spreadsheet has notes explaining changes
Next steps for TCP Update

❖ Board holds public hearing on December 6, 2023
❖ Potential open record period following public hearing
❖ Board holds deliberations on date yet to be set
❖ Staff sends post-adoption notice to DLCD, assuming Board approval of TCP
Questions?

Thank you

Deschutes County

Tumalo Community Plan

2020-2040

Deschutes County Community Development
Updated 2023
Introduction

The Tumalo Community Plan (Community Plan) is an integral part of the Deschutes County Comprehensive Plan and, upon adoption by the Board of County Commissioners, constitutes an official chapter (Section 4.7). The Community Plan may only be changed if it is reviewed through an official legislative plan amendment process. The Community Plan’s goals and policies provide a decision-making guide for land use planning, capital improvements, and physical development during the next 20 years (2020 – 2040). It is anticipated that Deschutes County, Oregon Department of Transportation (ODOT), special districts, residents, and community leaders will consult the Community Plan when preparing land use or transportation projects in Tumalo.

Tumalo is a small rural community located approximately three miles northwest of Bend in the center of Deschutes County. Oregon Administrative Rules recognize areas in Deschutes County like Tumalo as a “Unincorporated Community” under OAR 660-022. Of the four types of unincorporated communities identified in OAR 660-022, Tumalo is a Rural Community. OAR 660-022 states a Rural Community is a place “which consists primarily of permanent residential dwellings but also has at least two other land uses that provide commercial, industrial, or public uses (including but not limited to schools, churches, grange halls, post offices) to the community, the surrounding rural area, or to persons traveling through the area.”

Image: Metal Statute, Photo Credit: Deschutes County Staff
Deschutes County plans and regulates land uses in Tumalo under this legal definition. The Deschutes River and U.S. 20 bisect Tumalo. Single-family home neighborhoods, a small commercial node, as well as Tumalo Community School all lie north of the highway and west of the river. Additional commercial and industrial properties are located on the south side of the highway. This includes a more recent residential neighborhood with higher densities than previously found in Tumalo. Although this Community Plan only addresses lands within the Tumalo boundary, access to U.S. 20, local businesses, district offices, Tumalo Community School, and Tumalo State Park create a hub that attracts nearby residents and visitors.

The Tumalo Community School, within the Redmond School District, had originally served children between kindergarten and 8th grade, with an approximate attendance of 407 students in 2010. Beginning in 2020, due to decreasing student attendance numbers, the school transitioned away from a middle school model and began serving around 250 students between kindergarten and 5th grade. The school’s geographic service area extends to the outlying areas of Bend, in addition to Tumalo.

Just one mile away, Tumalo State Park encompasses approximately 156 acres with an addition 52 acres of contiguous surrounding land also owned and operated by the Oregon State Parks system. The park offers camping, picnicking, fishing, hiking, and wildlife viewing and hosted approximately 517,000 visitors in 2021. Its location provides an excellent place to camp while enjoying Central Oregon’s surrounding amenities and year-round recreation. A 2.4-mile segment of the 12-mile Deschutes River Trail is accessible from a day-use area parking lot within Tumalo. The trail follows the Deschutes River south 1.4 miles to Riley Ranch Nature Reserve, which offers additional trails.

Between 2010 and 2020, Tumalo has undergone significant changes in terms of land use activities and transportation improvements. Several artisan shops have opened along Cook Avenue, there is a thriving food cart pod, the Twin Bridges State Scenic Bikeway rolls through Tumalo, and a two-lane roundabout is due to open in 2023/24 at US 20/Cook-OB Riley intersection. The County anticipates an additional roundabout at Cline Falls Highway/Tumalo Road intersection. A small-scale sewer system has developed that serves the higher-density neighborhood in an area bounded by the south side of US 20, Bailey Road, and OB Riley Road. Based on residents’ requests, the County hired a consultant to conduct a sewer feasibility study, which was conducted in 2022. The sewer feasibility study provides a high-level assessment of the costs and potential for sewer expansion throughout Tumalo as many properties are on older septic systems. The feasibility study provided information to residents on potential next steps if the community chooses to form a sewer district.

Based on the changes noted above and the population growth in the community, the County determined it was time to update the 2010-2030 TCP. The County also received a Transportation Growth Management (TGM) grant to focus on bicycling, walking, and transit, aka active transportation, in Tumalo. Both efforts involved extensive coordinated public outreach.
The TCP Open Houses occurred in the Tumalo Community School gym on May 11, 2022 (kickoff meeting); August 8, 2022 (draft goals and policies); and May 17, 2023 (revised draft goals and policies). Additionally, staff held Meet A Planner one-on-one sessions in Tumalo from June 13-24, 2022 and again from May 2-9, 2023. Finally, staff created public web pages and online story maps to summarize the project, conduct surveys, and provide updates.

The TGM grant took a similar approach to public outreach, including a June 8, 2022, walking tour of downtown Tumalo where the public provided comments and suggestions. The TGM bike/ped/transit grant also included a story map, a website, and stakeholder advisory committee meetings. The TGM grant's recommendations for bike/ped/transit are incorporated into the TCP.
Community Vision Statement

Retain the livability of Tumalo as a rural small town, by ensuring safe and efficient public services and collaborating with the surrounding rural area.

Tumalo residents’ input crafted this community vision for 2020 to 2040. It is their intent that the Community Plan, developed in cooperation with Deschutes County, will serve as a framework to realize this vision. The community input came from several public venues. These included public open houses, one-on-one meetings with County planners, public surveys, online comments, and e-mails to County staff. Input came from people who lived within the boundaries of Tumalo as well as those who live near Tumalo and either shop or work there or send their children to school there.

Notice of the first open house was mailed to every property (261 total) in Tumalo as well flyers hung through the community. In-person open houses were held at the Tumalo Community School on May 11 and August 22, 2022, and averaged between 50 and 70 attendees at each meeting. A virtual open house and survey was held between June 29, 2022 - July 22, 2022, and gathered 55 responses related to the community vision and key issues facing Tumalo.

Staff held a one-on-one engagement series called “Meet A Planner”, in which community members could have a 30-minute conversation with a planner to express the key issues, challenges, and concerns facing Tumalo. Seven meetings occurred between June 20-24, 2022, either in person at Tumalo Coffeehouse or virtually.

The County developed an e-mail listserv for the project updates by collecting emails through sign-in sheets at the open houses or directly via the project website. As of June 1, 2023, 181 community members subscribed for project updates. Nine total project updates were sent throughout the process to advertise in person and online engagement events.

The 2010-2030 and 2020-2040 Community Vision statements are practically identical. The only changes were directed at deletion of the hyphen in “small-town” and changing “rural community” to “rural area.” The latter relates to Oregon Administrative Rule (OAR) 660-022 and how that provision clarifies that the word “community” refers to a more geographically limited area. Overall, respondents expressed a strong desire to keep the vision statement unchanged and for Tumalo to remain rural in nature. The intent to keep the community rural is consistent with OAR 660-022.

Draft Plan Released for Community Input
Situated at an elevation of approximately 3,200 feet, Tumalo lies in the middle of the Upper Deschutes River Basin (river miles 157 and 158). The commercial core of Tumalo lies on an alluvial bowl bounded by the Laidlaw Butte and the bluff of the Deschutes River canyon. The Deschutes River bisects the community. Originally named Laidlaw, Tumalo was platted by the Laidlaw Townsite Company in 1904. However, development originally began in 1899 when the Three Sisters Irrigation Company incorporated. Under the Carey Act, they made plans for diverting water from Tumalo Creek and the Deschutes River to irrigate approximately 60,000 acres of arid land. As the town grew, it became a voting precinct in 1906, with 65 registered voters compared to Bend’s 66. Out of nearly 900 platted lots, a third were sold by 1907.

Town founder A.W. Laidlaw of Portland and his investors believed that Tumalo would become the heart of Central Oregon. By 1909, the Laidlaw community aspired to establish the junction of two railroads, and thereby creating a new “metropolis” in Central Oregon. There were reasons for optimism as railroad magnates James Hill and E. H. Harriman were competing to finish a rail line from the mouth of the Deschutes River to Central Oregon. Mr. Laidlaw assumed the rail line would come south, up the Deschutes River canyon, into the newly platted town. Assertions were also made that the Laidlaw community would benefit from connection to another rail line, one that followed the North Santiam River and crossed over the Cascades.

Ultimately, neither of these two projects came to fruition. At the end of 1909, the Columbia Southern Railroad still ended in Shaniko, and the Corvallis and Eastern rail lines remained stalled at the foothills west of the Cascades. Both rail line projects ultimately languished for approximately 15 years. Following the announcement in 1910 that the Columbia Southern Railroad was connecting to Bend instead of Laidlaw, Bend began outpacing Laidlaw in population. As a result, Laidlaw’s population decreased to 250 people, with many businesses relocating to Bend. The small town remained as Laidlaw until the Laidlaw Post Office closed in 1913. The post office eventually reopened in 1923 as the Tumalo Post Office, and the name of the town was changed to Tumalo.

In those early days, Laidlaw had a weekly newspaper, a barbershop, two-story hotel, lawyers’ offices, wallpaper company, bakery, feed stores and bank. Today, legacy buildings include the Laidlaw Bank and Trust Property and Tumalo Community Church.
Land Use

The 1979 Deschutes County Comprehensive Plan designated Tumalo as a Rural Service Center because it contained a concentration of residential and commercial properties. A 1979 inventory showed Tumalo consisting of 491 acres and 288 tax lots. In 1994, the Oregon Land Conservation and Development Commission adopted a new Oregon Administrative Rule for unincorporated communities, instituting new land use requirements for Tumalo (OAR 660, Division 22). As part of periodic review, in 1997 Deschutes County updated its Comprehensive Plan and implemented zoning regulations to comply with these state requirements. Based on public input, Tumalo’s boundary was amended to accommodate 504.11 acres and 321 tax lots. A 1999 amendment removed three tax lots that were accidentally included, leaving Tumalo with 318 tax lots as inventoried during the County’s 2010 update to the Tumalo Community Plan. Deschutes County Code (DCC) 18.67 implements land use zoning in Tumalo while DCC 18.67 Table A sets road standards.

Since the 2010 Deschutes County Comprehensive Plan update, including updates to the Tumalo Community Plan, the total number of tax lots has increased to 361. The increase in tax lots can be attributed to land use patterns in the area including land divisions, property line adjustments, and property-specific tax lot review related to the original Laidlaw Town Plat.

Population and Demographic Data

Single-family residences are the predominant land use in Tumalo. Tables 1, 2 and 3 cite Deschutes County Assessor data and an adopted 20-year population forecast to estimate Tumalo’s 2021, future build out, and 2040 population.

County Population Forecast (Portland State University, 2022)

Tumalo's projected population for 2040 is 631. This projection is extremely conservative due to limited wastewater infrastructure discussed below in Public Facilities and Services. As Table 2 illustrates (and further detailed in Table 6), a vacant lands inventory performed in 2021 identified 105 undeveloped residential lots capable of supporting up to 101 potential dwelling units. If all 105 undeveloped lots become developed and household unit size remains at 2.47, Tumalo's population would increase by 250 people, bringing its total to 824. Under this scenario, Table 3 shows that full build out would not occur until after 2072. Since the 2020 Tumalo Community Plan adoption, Tumalo and the surrounding County jurisdiction are projected to experience the compounding factors of an aging population and a notably lower fertility rate. The age and fertility data combined with an overall expectation for increased population within cities and other sub-areas of Deschutes County results in a lower average annual growth rate than previous years. Other factors potentially affecting the relatively low forecasted population growth rate include housing availability and affordability challenges, the heightened cost of living, and the detrimental impacts of regional wildfires.

**Race and Ethnicity**

Tumalo is a predominantly white community, though the population growth over the past 10 years has seen an increase in racial and ethnic diversity, primarily among Hispanic or Latino community members. The percentage of Hispanic or Latino community members has increased from 3.3% (2010) to 6.6% (2020) of the total population. For the purposes of providing race and ethnicity data for Tumalo, population counts for the Tumalo Census Designated Place (CDP) are utilized below in Table 4, rather than the County's population estimate provided in referenced Tables 1 and 2. The most significant difference between
2010 and 2020 is seen in the “White alone” single-race individuals, with the percentage of individuals decreasing from 93.2% of the total population (2010) to 88.5% (2020).

2010 and 2020 US Decennial Census, Tumalo CDP-specific data
Land Use Designations and Inventory

Deschutes County Comprehensive Plan designations identify general land uses for the community of Tumalo and provide the legal framework for establishing zoning districts. Zoning regulates land uses that are allowed in each respective district. Table 5 lists Tumalo comprehensive plan designations and corresponding zoning districts. Table 6 summarizes existing property inventories within those zoning districts, including those properties that may be encumbered by multiple zones. Detailed descriptions of the Tumalo Comprehensive Plan designations are provided below.

Assessor’s Data 2021/2022

**Commercial (TUC).** A “Commercial” designation allows a range of limited commercial and industrial uses to serve Tumalo and the surrounding area. In general, the designation extends north from the approximate intersection of Riverview Ave and Cedar Lane (bound by U.S. 20 to the west) to 3rd Street between Wood and Wharton Avenues. Commercial lands
also comprise an area west of U.S. 20 between 5th and 8th Streets, bound on the west by Strickler Ave and Bailey Road.

This designation was originally intended to accommodate a mixture of small-scale commercial and limited industrial uses that historically existed within the community. The core commercial area initially encompassed lands adjacent to Cook Avenue, north of U.S. 20. The designation was ultimately expanded between Cook and Wharton Avenues, extending south to U.S. 20. This area includes the “Tumalo Mall,” an existing commercial and retail complex. The use of this building received authorization as a nonconforming use in 1986 and site plan alterations in 1987 and 1988. These land use actions brought the existing uses and structures into compliance with the commercial zone.

Currently, the core commercial area supports a variety of uses and development including cideries, a food cart pod, a greengrocer, the Tumalo Country Store gas station and general store, Tumalo Irrigation District office, a veterinary clinic, a second commercial complex at the intersection of 4th Street and Cook Ave, the Historic Tumalo Church buildings, vacant property owned and maintained by the Tumalo Community School, and a boutique leather goods manufacturer. The majority of these uses and structures have received land use approval within the past four years. The Tumalo commercial zoning district also allows for limited residential development and uses.
**Floodplain (FP)**. A “Floodplain” designation protects the public and private property from hazards associated with floodplains; conserves important riparian areas along rivers and streams for fish and wildlife resources; and preserves significant scenic and natural resources. This designation follows the channel of the Deschutes River that bisects Tumalo. The areas of special flood hazard are identified by the Federal Insurance Administration in a report titled *Flood Insurance Study for Deschutes County, Oregon and Incorporated Areas*. This report was revised in September 2007, and includes accompanying Flood Insurance Rate Maps. The Flood Insurance Study is on file at the Deschutes County Community Development Department.

In 2020, the Deschutes Basin Habitat Conservation Plan (HCP) was finalized and approved by the U.S. Fish and Wildlife Service. The HCP, which is a 30-year plan, was part of an application for an Endangered Species Act incidental take permit (ITP) that authorizes incidental take, aka death, of listed species (Oregon spotted frog, bull trout, steelhead trout, and sockeye salmon) caused by covered activities. Based on the HCP, Wickiup Reservoir will alter its operation to improve conditions in the Deschutes River between the reservoir and Bend. The minimum flow will be 100 cubic-feet per second (cfs) in Years 1 through 7, 300 cfs in Years 8 through 12, and 400 cfs (with provisions for up to 500 cfs) in Years 13 through 30. These increases in winter flows will likely change floodplain patterns within range of the Tumalo community. Additionally, enhanced lidar terrain data derived from the Oregon Department of Geological and Mineral Industries (DOGAMI) may indicate a changing floodplain component of the Deschutes River within Tumalo. The existing FP zoning district is subject to goals and policies within this community plan and the Comprehensive Plan, are directed at producing the most accurate floodplain data possible for the Tumalo community.

**Industrial (TUI)**. An “Industrial” designation allows a limited range of industrial uses to serve Tumalo and the surrounding area. The designation recognizes nonconforming industrial uses and properties suitable for limited amounts of additional industrial development. This designation is concentrated around the Knife River operation, which is technically outside of Tumalo, that fronts O.B. Riley Road and U.S. 20 and includes warehouse uses, mini-storage facilities, and other industrial-related development and uses.

**Research and Development (TURE)**. A “Research and Development” designation allows research and development facilities requiring a more rural, non-industrial location to be sited in Tumalo. This designation contains two parcels in one ownership located on the southeast slope of Laidlaw Butte. It was originally created to accommodate a research and development site and associated uses predating Deschutes County's 1979 zoning ordinance.

**Residential (TUR)**. A “Residential” designation allows a mixture of housing types and densities suited to the level of available water and wastewater facilities. The purpose of this zoning district is to allow new residential development that is compatible with the rural character of the area. Originally, the residential district boundary coincided with the boundary of the old Laidlaw Plat including the Deschutes River Homesites platted between Riverview Avenue and
the Deschutes River. Today, it also includes the area surrounding the Knife River aggregate site south of U.S. 20.

**Residential 5-Acre (TUR-5).** A “Residential 5 Acre Minimum” designation retains large rural residential lots. The lands designated Residential-5 acre minimum include the larger parcels east of the Deschutes River and the southeast from Laidlaw Butte.

Relevant Studies and Planning Processes

The Tumalo Community Plan, as a subset of the Deschutes County Comprehensive Plan, relates directly to other relevant county plans and policies. These plans and policies include, but are not limited to, the County Transportation System Plan (TSP), Tumalo Active Transportation Planning efforts, and a Tumalo sewer feasibility study. The TSP is a long-range plan that identifies improvements to the County's transportation facilities and services to accommodate projected population and employment growth within the County over a 20-year period. The Tumalo Active Transportation update is an effort to update the transportation element of the Tumalo Community Plan, specifically regarding active transportation such as biking, pedestrian access, and public transit. The Tumalo Sewer Feasibility Study is a consultant-led study to evaluate three potential sewer options for Tumalo. The graphic below illustrates how these various plans interact with one another and fit within the larger regional planning efforts.

Public Facilities and Services

Tumalo is served by six special districts: Laidlaw Water District; Deschutes County Rural Fire Protection District #2; Redmond School District; the Tumalo Town District Improvement Company, Tumalo Irrigation District (via the Rimrock Water Improvement District), and Swalley Irrigation District. Tumalo’s public facilities and services are described below in greater detail.

**Domestic Water**

The Laidlaw Water District serves the area identified as the old Laidlaw Plat, and the area described as T16S R12E section 29 (W1/2 SW1/4), section 30 (E1/2 SW 1/4), (SW 1/4 SE 1/4),
and section 31(NE1/4, N1/2 SE1/4), near Beaver Lane to the north of the core Tumalo community area. The power and authority given to Laidlaw Water Supply District as a government entity is vested and exercised by a board of commissioners, each of whom is an elector of the district. These commissioners have the authority under ORS Chapter 264 to determine rates and the type and extent of water supply facilities. Deschutes County coordinates with the Laidlaw Water Supply District when a property owner initiates a land use application within their district through noticing and the solicitation of agency comments. During the land use process, Laidlaw Water Supply District identifies conditions they will impose on the development proposal. The Laidlaw Domestic Water District currently depends on three groundwater wells.

The District’s groundwater source does not exceed current EPA maximum contaminant limits. No treatment is performed and none has been required by the Oregon Health Division. Properties in Tumalo, but located outside Laidlaw District boundaries, rely on private domestic wells for drinking water. State law, Oregon Revised Statute 537.545, exempts private wells if domestic consumption is less than 15,000 gallons per day and irrigation of a lawn or noncommercial garden is less than one-half acre.

**Wastewater**

Tumalo does not have a community-wide wastewater facility. Instead, land uses in Tumalo currently rely on on-site wastewater systems, ranging from newer alternative treatment technologies (ATT) and filter systems, to older drainfields. Onsite systems in some cases, are insufficient and improper for a development site. According to the Deschutes County Onsite Wastewater Division, most of Tumalo’s soils are rapidly draining, with rapid or very rapid permeability. Given these soil characteristics, standard septic systems can only be sited on lots greater than an acre. Smaller lots, between a half-acre and an acre are obligated to site more expensive onsite systems such as sand filters and ATTs. Additionally, there are circumstances in Tumalo where certain lots cannot be developed or redeveloped because they are too small or lack sufficient area to meet setback requirements for septic system drainfields.

Deschutes County zoning regulations restrict the type and intensity of allowed land uses to those which can be served by an Oregon Department of Environmental Quality (DEQ) approved onsite wastewater disposal system. The County does not allow uses or densities that are unable to obtain a permit for a DEQ approved onsite system. In addition, County zoning regulations set minimum lot sizes to ensure the onsite systems do not exceed soil capacity of treating wastewater effluent. These circumstances have prompted residents and business owners to express support for exploring funding opportunities to establish a community wastewater facility to maintain surface and groundwater quality.

The exception to the above is a small, privately owned wastewater system (Tumalo Property Owners Association or TPOA) that was approved in 2018 to service a compact residential development on the south side of U.S. 20 between essentially Bailey Road and O.B. Riley.
Road. This private system also serves a strip mall and several other small businesses on that same south side of U.S. 20. TPOA is a Septic Tank Effluent Pumping (STEP) system, meaning biosolids are pretreated, placed in a septic tank, then the effluent is pumped into a pressurized pipe and sent up to a holding tank located on property owned by the Laidlaw Water District.

In 2022, at the request of property and business owners in Tumalo, Deschutes County, used American Rescue Plan Act monies to fund a feasibility study to evaluate possible ways to provide sewer service to Tumalo. The County selected the engineering firm Murraysmith (later absorbed by CONSOR) to perform the wastewater feasibility study with the results presented to the Board on December 21, 2022.¹ The feasibility study reviewed the following scenarios, all of which would require crossing U.S. 20:

1. Expand the TPOA system; establish a separate collection and treatment system within Tumalo;
2. Install a collection and disposal system in Tumalo with a connection to the City of Bend's North Interceptor line at Cooley Road/U.S. 20.

The feasibility study included additional concepts related to scale and/or phasing such as:

1. Providing service to only the commercial core along Cook Avenue;
2. Providing a larger system that would serve the Tumalo commercial core and residential areas west of the Deschutes River and north of U.S. 20.

The feasibility study provided cost estimates for construction and hook-up fees and monthly bills. The amounts vary widely depending on number of lots served, amount of grant funds acquired, connection fees, and monthly bills.

Community members have expressed concerns about being required to hook up to the system when a) their septic system begins to fail and b) the private system is within 300 feet or less to their property line and legally available. Staff received a massive stream of public comments expressing opposition toward a private system expanding into Tumalo and concerns about the private system being able to charge onerous fees to connect to the system. A smaller group, primarily those with commercial properties along Cook Avenue, supported the development of a sewer system.

The sewer feasibility study documented the estimated costs and timelines for a sewer system. Ultimately, whether a sewer authority is created, and a sewer system is provided in Tumalo will be a decision for the community, not the County.

¹ https://online-voice.net/tumaloseweroptions/
The formation of a sewer district is not a land use action and thus is outside the scope of the TCP. However, based on massive public input during the various TCP open houses, the TCP has added policy language specific to sewers.

**Emergency Services**

The Deschutes County Rural Fire Protection District #2, governed by an elected five-member volunteer Board of Directors, was established in 1952 to provide fire prevention, protection, and suppression services to residents living outside municipalities and areas not already served by established fire protection districts. In 1991, the district added emergency medical services. Today, District #2 covers approximately 140 square miles of suburban and forested land surrounding Bend and serves approximately 25,000 constituents. The average population of the district greatly increases seasonally due to tourism.

The actual delivery of fire and emergency medical services to district constituents is provided through a contract with the City of Bend Fire Department. Station 302 is located on 4th Street in Tumalo. The station was originally built in the early 1970s and a new building was constructed in 2019 to the immediate east. The station is staffed with an advance life support equipped fire engine, brush/interface pumper, and an ambulance.
Irrigation Water

Tumalo Town District Improvement Company (also known as the Tumalo Town Ditch Company) draws irrigation water based on three water right certificates with priority dates of 1904, 1905, 1938, 1950 and 1952. The system consists of a three-mile ditch that begins near the bridge at Tumalo State Park, parallels the river, crossing Bailey Road at the Tumalo Feed Company Restaurant, then continuing under U.S. 20 to the commercial district. The ditch serves approximately 43 customers and is used for irrigating lawns and gardens2.

North of the Tumalo commercial core, within the unincorporated community boundary, is a small residential enclave centered around Beaver Lane located within the Rimrock Water Improvement District. This District is owned and managed by a private water patron who distributes purchased water deliveries from Tumalo Irrigation District (TID) to the residential properties within this residential area. TID, first established through the construction of canal infrastructure in 1883 and organization as a district by 1922, diverts water from Tumalo Creek below Shevlin Park and the Deschutes River near Pioneer Park, with additional water storage through the Crescent Lake impoundment system. TID serves approximately 7,400 acres of irrigated lands to support livestock, hay, alfalfa, garlic, lavender and other crops and farm uses3. There are approximately 685 customers served by TID.

East of the Deschutes River, within the Tumalo unincorporated community boundary, are properties located within the Swalley Irrigation District. Swalley draws water based on a priority water right certificate dated September 1, 1899, and was incorporated as a municipal irrigation district in 1994 after 95 years of private ownership and operation. Swalley Irrigation District currently serves approximately 4,333 acres of irrigated lands around the vicinity of Tumalo, east of the Deschutes River and west of Highway 97. There are approximately 668 customers served by the Swalley Irrigation District.

Recreational Trail

The Bend Metro Park and Recreation District (Park District) provides parks, trails and recreation programming for residents encompassing the Bend Urban Area. Tumalo is located outside the district boundary by approximately two miles. However, the Park District does have recreational interests that extend outside its current boundary. In 2002, the Park District and the City of Bend collaborated on the development of the Deschutes River Trail (DRT) Action Plan. This plan identified the desire to complete the Deschutes River Trail through Bend and connect it on both ends to destinations outside the urban area. The development of the Riley Ranch Nature Reserve between O.B. Riley Road and the Deschutes River at the north end of Bend has helped extend the DRT. The ultimate northern extent of the planned DRT follows the Deschutes River from the Bend Urban Growth Boundary to Tumalo State Park and on to Tumalo. The Park District continues to work with private property owners and the Oregon State Parks and Recreation Department in an ongoing

---

3 https://www.tumalo.org/about-us
effort to assemble a continuous publicly owned corridor for the trail. Fortunately, the portions of the trail corridor closest to Tumalo are already in public ownership. The Park District and the County support the development of this trail corridor between Tumalo and Tumalo State Park as a hard-surfaced shared-use path that utilizes the current grade-separated crossing underneath the U.S. 20 bridge on the west bank of the Deschutes River. The State Historic Preservation Office (SHPO) has identified archeological resources that will need to be protected during the trail's construction and usage.

ODOT in 2022-23 is building a bicyclist/pedestrian-only underpass at U.S. 20/4th Street to make crossing the highway much easier. This multiuse path will connect to Bailey Road. The existing Twin Bridges State Scenic Bikeway would also utilize this shared-use path instead of the U.S. 20/Bailey-7th intersection as it does currently.

**Transportation**

Tumalo requires a transportation network that provides safe and efficient through movements for traffic traveling on U.S. 20. Equally important is maintaining local access to residential and commercial areas, as well as the Tumalo Community School. U.S. 20 runs diagonally east-west through Tumalo and contains two travel lanes and a center turn lane. Its volumes and speed make north-south street connections challenging. ODOT has a two-lane roundabout at U.S. 20/Cook-O.B. Riley programmed for construction in 2023. The roundabout will add sidewalks along U.S. 20 for several hundred feet as well as along O.B. Riley and Cook. The roundabout will help lower speeds on U.S. 20, which is now posted at 45 mph down from the earlier posting of 55 mph.

There are three access points to U.S. 20: 5th Street; 7th Street/Bailey Road; and Cook Avenue/O.B. Riley Road. The first two have turn restrictions and only Cook/O.B. Riley will allow all movements. Within Tumalo, there are several paved and unpaved streets, totaling approximately 4.7 miles.

Average daily traffic (ADT) counts measured the following vehicles:

- 5th Street recorded 3,118 ADT (2022)
- Bailey Road, 1,234 ADT3 (2022)
- Cline Falls Hwy, 4,039 ADT (2022)
- Cook Avenue, 6,697 ADT (2022)
- Tumalo Road, 3,753 ADT (2022)
- O.B. Riley, 2,061 ADT (2022)
- U.S. 20, 0.10 miles east of Cline Falls Hwy, 10,276 ADT (2021)
- U.S. 20, 0.10 miles west of Cline Falls Hwy, 6,837 ADT (2021)

To protect the function of a highway, it is often necessary to limit access and control turning movements. ODOT limited the movements at U.S. 20/Bailey-7th to right-in, right-out only (RIRO) for 7th and RIRO and left-in at Bailey. There is also a raised refuge for bicyclists and pedestrians at U.S. 20/Bailey-7th. The two-lane roundabout will make U.S. 20/Bailey-7th into
a RIRO intersection and Cook/8\textsuperscript{th} will become a RIRO intersection as well. This will reduce the number of conflict points at these intersections. A conflict point is a location where vehicles turning or passing through can collide. By restricting turn movements or redirecting property access to side streets or alleys, the number of crashes on the highway and the local road system can be lowered. Implementing additional measures such as traffic calming, improved pedestrian crossings, or reducing the travel speed on the highway can benefit an entire community.

The County continues to provide sidewalk infill through both transportation improvements and requirements tied to land use approvals. Cascade East Transit (CET) master plan calls for examining a transit stop in Tumalo. Due to ADA requirements, the transit stop must be accessed via sidewalks. The current intent is to have the stop on Bruce Avenue between 5\textsuperscript{th} and 7\textsuperscript{th} once there is sidewalk.

The only change to the functional classification system was changing Cook Avenue from a collector to an arterial in the 2010-2030 Transportation System Plan (TSP).
Surrounding Land Uses

Residents outside Tumalo identify with the area because it is where many buy certain goods and services, send their children to Tumalo Community School, attend church, or otherwise convene with other community members. The following Comprehensive Plan designations and related zoning districts are within a mile of the formal Tumalo unincorporated community boundary.

Agriculture

An “Agricultural” designation and Exclusive Farm Use (EFU) zone protect farmlands in Deschutes County pursuant to Statewide Planning Goal 3 (Agricultural Lands). As discussed in the Agricultural Lands Section of the Comprehensive Plan, protecting farmlands is one of the primary goals of Oregon's land use system. When the Comprehensive Plan was first adopted in 1979, there was general consensus for an agricultural goal:

“To preserve agricultural land in Deschutes County for the production of farm and forestry products, as well as the public need for open space.”

In 1992, Deschutes County completed a farm study report. The purpose of the study was to ensure that EFU zoning and standards for farm divisions and dwellings were consistent with Goal 3 and relevant administrative rules. The study found that farms in Deschutes County usually contained irrigated and non-irrigated land, as well as soils of different classes. The study identified seven agricultural subzones. For each subzone, standards determined minimum parcel sizes for farm divisions to protect the commercial agricultural land base. The subzone immediately adjacent to Tumalo is the Tumalo/Redmond/Bend subzone (EFUTRB). The minimum acreage for this subzone is 23 acres of irrigated land. Approximately 2.5 miles farther east, there are approximately fourteen (14) Alfalfa area subzone parcels (EFUAL) that allow a minimum of 36 acres of irrigated land. The EFUAL subzone parcels are intermixed with EFUTRB subzone parcels.

Since the latest Tumalo Community Plan update in 2010, there have been increased numbers of land divisions approved in the vicinity of Tumalo, some of which are designed to support both nonfarm and farm-related dwellings and accessory structures. Home Occupations, or home-based business uses have become increasingly common within the surrounding EFU lands. In addition to the increasing number of approved land divisions, EFU dwellings, and Home Occupations, the EFU lands surrounding Tumalo have also seen an increase in marijuana and hemp-related farm uses and structures since the statewide legalization of recreational marijuana and the passage of the 2018 farm bill allowing hemp production. Please refer to the Agricultural Lands section of the Comprehensive Plan for more details about agricultural land in Deschutes County.
Rural Residential

A “Rural Residential Exception Area” designation and corresponding Multiple Use Agriculture (MUA-10) zone apply to lands for which Deschutes County justified an “exception” to Statewide Planning Goal 3. Multiple Use Agriculture applies to agricultural lands that have been demonstrated to be unsuitable for commercial farming, but retain enough agricultural practices that are compatible with rural development. The minimum lot size for new subdivisions in this zoning district is ten acres. There are several MUA-10 subdivisions within a mile of Tumalo. Approximately one-half mile south of Tumalo lies the Cascades Academy, located on MUA-10 zoned property. Cascades Academy is a pre-kindergarten through 12th grade independent private school⁴.

Surface Mining

Located just outside Tumalo, a “Surface Mining” designation and corresponding Surface Mining (SM) zone authorize surface mining activities. This district allows development and use of mineral and aggregate resources consistent with Statewide Planning Goal 5 (Natural Resources, Scenic and Historic Areas, and Open Spaces). It applies to two properties in the immediate vicinity, one at the north end of Tumalo, west of the Deschutes River and the other, adjacent to U.S. 20 and bisected by O.B. Riley Road, known as the Knife River operation. The Knife River properties are allowed through a limited combining zone to store, crush, process, sell and distribute aggregate minerals. One additional surface mine designated property of approximately 75 acres is located 1 mile south of the Tumalo community boundaries.

Flood Plain

Several properties within the Tumalo unincorporated community and multiple parcels to the south and north are located within the Flood Plain Zoning District. These parcels are exclusively associated with the Deschutes River corridor and surrounding low-lying areas. The purpose of this zoning district is to protect the public from the hazards associated with flood plains; to conserve important riparian areas along rivers and streams for the maintenance of the fish and wildlife resources; and to preserve significant scenic and natural resources while balancing the public interests with those of individual property owners in the designated areas. Given the purpose of the zoning district, a majority of the flood plain designated areas outside of Tumalo are maintained as open spaces or otherwise undeveloped land, including portions of Tumalo State Park.

⁴ https://www.cascadesacademy.org/about
Open Space & Conservation

Approximately one-half mile south of the Tumalo commercial core are properties within an “Open Space & Conservation” Zoning District, largely associated with the boundaries of Tumalo State Park and the contiguous Riley Ranch Nature Reserve, further south along the Deschutes River corridor. The purpose of this zoning district is to protect designated areas of scenic and natural resources; to restrict development in areas with fragile, unusual or unique qualities; to protect and improve the quality of the air, water and land resources and to plan development that will conserve open space\(^5\).

\(^5\) DCC 18.48.010

Photo: Tumalo State Park, Photo Credit: Hike Oregon
Conclusion

The TCP is the result of extensive outreach and interaction between staff and residents, business owners, property owners in Tumalo, and those who live near Tumalo and shop, recreate, or send their children to school there.

Nearly unanimously, respondents spoke of their deep affection for Tumalo and a sense of place. They valued the rural feel of Tumalo and appreciated the small-scale commercial core. Often they expressed a fear of not wanting Tumalo to become like Sisters or to be engulfed by Bend.

In updating the TCP, staff worked to balance the oft-expressed desire by the public for Tumalo to experience little to no change with a State land use system and County code that anticipates and legally must accommodate development. The Comprehensive Plan designations and the zoning designations for Tumalo in DCC 18.67 remain unchanged. Any application to amend the Comprehensive Plan or zoning designation would require public hearing before both the Deschutes County Planning Commission and the Board of County Commissioners. Those potential plan amendments and/or zone changes would have to demonstrate consistency with both the Comprehensive Plan and the TCP.

The TCP polices respond to public input regarding protecting the Deschutes River, concerns about the costs and timing of a future wastewater treatment system, the worries about traffic volumes, and the desire to protect the community and maintain its livability.
Goals and Policies

The following policies are designed to address issues specific to the Tumalo Rural Unincorporated Community. The policies supplement existing Comprehensive Plan policies and were developed from input received by community members, stakeholders, and input from relevant agency partners.

The following policies and policies are designed to address issues specific to the Tumalo Rural Unincorporated Community. The policies supplement existing Deschutes County Comprehensive Plan policies and were developed from input received by community members, stakeholders, and input from relevant agency partners.

Community Vision Statement
Retain the livability of Tumalo as a rural small town, through safe and efficient public services and collaborating with the surrounding rural area.

Land Use Goal
Continue to implement a clear and transparent planning process and policy framework reflective of the community's small-town rural character.

Land Use Policies
1. Conform land use regulations to the requirements of Unincorporated Communities as defined in OAR 660 Division 22 or any successor.
2. Ensure County plans and land use regulations comply with state requirements for agricultural uses in the Exclusive Farm Use (EFU) zones.
3. Encourage the preservation of historical structures such as the Tumalo Community Church (1905) and the Laidlaw Bank and Trust (1910).
4. Review the Tumalo Community Plan periodically to determine if it meets the current and future needs of the area.
Natural Resources, Open Space, and Recreation Goal

Support the preservation and conservation of natural resources, cultural resources, and open space while providing ample and diverse opportunities for recreation.

Natural Resources, Open Space, and Recreation Policies

1. Continue to support Tumalo as a regional bicycle destination.
2. Support community and agency partners in planning and development of a multiuse trail system from Tumalo State Park to Tumalo.
3. Encourage consolidation of designated access points to the Deschutes River and education of trail users to preserve riparian areas.
4. Encourage voluntary designation of open space and public access to Deschutes River on adjacent private properties.
5. Provide County perspective and support for community-based restoration projects to protect the health and vitality of the Deschutes River and its tributaries.
6. Preserve publicly owned lands along the Deschutes River as designated open space.
7. Collaborate with public, private, and nonprofit organizations on infrastructure improvements near recreation areas including formal river access points, wayfinding signage, lighting, or sanitary facilities.
8. Support community efforts to designate the segment of the Deschutes River through Tumalo as an Oregon Scenic Waterway for its recreational values.
9. Coordinate with community partners on the development of a trails and recreation master plan.
10. Assist in outreach to Oregon State Parks Department or municipal parks and recreation districts to explore the annexation of Tumalo into an existing district. Assess opportunities for access and parking improvements at heavily used river access points.
11. Explore whether the County should form a Parks and Recreation District as part of the County's Comprehensive Plan Update.
12. Coordinate with community partners on efforts to designate new parks and maintain local parks.
13. Encourage preservation or improvement of groundwater quality and the conservation of groundwater supplies.

15. Encourage Tumalo to become a fire-adapted community through the Firewise Program.

**Residential Area Goal**

Maintain the small-town character and feel of Tumalo, while accommodating the community’s residential growth.

**Residential Area Policies**

1. Encourage density and design features that are compatible with existing development.

2. Permit livestock in the residential districts subject to use limitations.

3. Plan and zone for a diversity of housing types and densities suited to the capacity of the land to accommodate water and sewage requirements.

**Economic Development Goal**

Retain the economic vibrancy of Tumalo’s historic core and industrial areas while providing economic development opportunities that are compatible with the small town rural character of the community.

**Economic Development Policies**

1. Encourage design standards in the commercial district so new development is compatible with the rural character of the community and reduces negative impacts on adjacent residential districts.

2. Explore alternatives to the solar setback standards for development within the commercial zoning districts of Tumalo.

3. Allow residential uses and mixed residential/commercial uses, without inhibiting future commercial development opportunities in the Commercial Zoning Districts.

4. Support economic development initiatives and tourism in the Tumalo area.

5. Allow for existing and future uses without producing adverse effects upon water resources or wastewater disposal. Coordinate with relevant agencies to ensure industrial uses meet requirements for water availability and wastewater disposal.

6. Limit industrial activities to low-impact uses that rely on rural resources as defined in OAR 660-004-0022(3)(a).
7. Limit industrial activities to low-impact uses that rely on rural resources as defined in OAR 660-004-0022(3)(a).

Public Facilities Goal

Ensure irrigation, domestic water, wastewater, and other utility systems are safe, efficient, and economical.

Public Facility Policies

1. Consider water and wastewater capacity when assessing development capabilities on individual lots in Tumalo.

2. Promote efficient water and wastewater systems in new development to manage water resources carefully.

3. Encourage early planning and acquisition of sites needed for public facilities.

4. Support replatting of lots in the area comprising the Laidlaw Plat and other lands designated commercial to create lots large enough to accommodate a DEQ approved on-site sewage disposal system, or connection to a public sewer system if available, consistent with the findings of the Tumalo Sewer Feasibility Study (2022).

5. Coordinate with local Irrigation Districts and the Tumalo Town Ditch to avoid adverse effects on their infrastructure and distribution systems.

6. Maintain efforts to ensure the Tumalo domestic water system complies with public health regulations and state and federal water quality regulations.

7. If Tumalo residents initiate district formation, coordinate with the residents and business owners on the creation of a public sewer district.

8. Explore legislative approaches to preclude non-voluntary connections to private sewer systems.

9. Explore with Department of Environmental Quality (DEQ) to determine whether a property owner can record a land use provision stating a private sewer is not lawfully available under Oregon Administrative Rule (OAR) 340-040-0160 unless the land owner voluntarily consents to the connection.

10. Prohibit private sewers in Tumalo, unless the property owners of the lots in the Laidlaw Plat, Deschutes River Tract, and Deschutes River Homesite Rimrock Addition form a district and vote on the issue.
Transportation Goal

Provide a safe and efficient system for all modes of transportation, including bicycle, pedestrian, and transit, to support local economic development, recreational uses, and community health.

Road Network Policies

1. Periodically review the Transportation System Plan policies and standards for Tumalo to reflect best practices.
2. Periodically review existing roadway design requirements to ensure complete streets which accommodate all modes of travel.
3. Collaborate with the Oregon State Police and Deschutes County Sheriff’s Office to address speeding within Tumalo.
4. Encourage ODOT to use its “Blueprint for Urban Design” for U.S. 20 projects to enhance the roadside environment by signage, accommodating alternate modes, roadside amenities, and landscaping.

Road and Sidewalk Policies

1. Implement road development standards for Tumalo that are consistent with the small-scale character of the community.
2. Utilize land development and grant funding opportunities to improve street segments identified for improvement in the Transportation System Plan.
3. Provide functional, cost-effective sidewalks within the commercial core while preserving the rural character of the residential areas.
4. Provide sidewalks or multiuse paths where they are needed for safety, as set forth in the Transportation System Plan.
5. Construct sidewalks specified on community roads without curbs and gutters and allow adequate room for utilities.
6. Provide wayfinding signage and maintenance best practices on County arterials and collectors to ensure safe and accessible routes for all users.
7. Review Deschutes County Code (DCC) 17.48, Table B, Minimum Bikeway Design Standards, and consider revising widths of multiuse paths from 8 feet to 10 feet and up to 12 feet in areas with high mixed use.

I. APPLICABLE CRITERIA

Deschutes County Code (DCC)
Title 22, Deschutes County Development Procedures Ordinance
Chapter 22.012, Legislative Procedures

Oregon Administrative Rule (OAR)
OAR 660-015, Statewide Planning Goals and Guidelines
OAR 660-022, Unincorporated Communities

Deschutes County Comprehensive Plan – Title 23
Chapter 1, Comprehensive Planning
II. BASIC FINDINGS

PROPOSAL

This is a legislative plan and text amendment to the Deschutes County Comprehensive Plan to remove the 2010-2030 Tumalo Community Plan (TCP) and replace it with the 2020-2040 TCP. Tumalo is a Rural Unincorporated Community under OAR 660-022-0010(7). The TCP is Section 4.7 within the Deschutes County Comprehensive Plan. The TCP provides a Community Vision Statement, goals, and policies unique to Tumalo. The 2020-2040 TCP update includes several new goals and policies; updates information for population, traffic volumes, land use consumption; recaps general changes within the community; and identified issues of public concern.

BACKGROUND

In 2010, County staff prepared a Community Plan for Tumalo. As that plan is now halfway through its lifespan and Tumalo has undergone several changes in population, different types of land uses, and increased tourism, the County began the process in 2022 to update the TCP. This update was done concurrently with an update of the bike, pedestrian, and transit components of the TCP.

REVIEW CRITERIA

Deschutes County lacks specific criteria in DCC Titles 18, 22, or 23 for reviewing a legislative plan and text amendment. Nonetheless, since Deschutes County is initiating one, the County bears the responsibility for justifying that the amendments are consistent with Statewide Planning Goals and the County's Comprehensive Plan.

III. FINDINGS & CONCLUSIONS

CHAPTER 22.12, LEGISLATIVE PROCEDURES

Section 22.12.010.

Hearing Required

FINDING: This criterion will be met because a public hearing will be held before the Deschutes County Planning Commission on August 10, 2023, and a future public hearing will be held before the Board of County Commissioners.

Section 22.12.020. Notice
Notice

A. Published Notice
   1. Notice of a legislative change shall be published in a newspaper of general circulation in the county at least 10 days prior to each public hearing.
   2. The notice shall state the time and place of the hearing and contain a statement describing the general subject matter of the ordinance under consideration.

FINDING: This criterion is met as notice was published in the Bend Bulletin newspaper on July 20th, 2023 for the Planning Commission public hearing and additional published notice will be sent for the Board of County Commissioners' public hearing.

B. Posted Notice. Notice shall be posted at the discretion of the Planning Director and where necessary to comply with ORS 203.045.

FINDING: Posted notice was determined by the Planning Director not to be necessary.

C. Individual notice. Individual notice to property owners, as defined in DCC 22.08.010(A), shall be provided at the discretion of the Planning Director, except as required by ORS 215.503.

FINDING: Given the proposed legislative amendments do not apply to any specific property, no individual notices were sent.

D. Media notice. Copies of the notice of hearing shall be transmitted to other newspapers published in Deschutes County.

FINDING: Notice was provided to the County public information official for wider media distribution. This criterion is met.

Section 22.12.030 Initiation of Legislative Changes.

A legislative change may be initiated by application of individuals upon payment of required fees as well as by the Board of County Commissioners.

FINDING: The application was initiated by the Deschutes County Planning Division at the direction of the Board of County Commissioners and has received a fee waiver. This criterion is met.

Section 22.12.040. Hearings Body

A. The following shall serve as hearings or review body for legislative changes in this order:
   1. The Planning Commission.
   2. The Board of County Commissioners.
B. **Any legislative change initiated by the Board of County Commissioners shall be reviewed by the Planning Commission prior to action being taken by the Board of Commissioners.**

**FINDING:** The Deschutes County Planning Commission held the initial public hearing on August 10, 2023. The Board will hold a public hearing on a future date to be determined. These criteria are or will be met.

Section 22.12.050 Final Decision

**All legislative changes shall be adopted by ordinance**

**FINDING:** The proposed legislative changes will be implemented by ordinance, number to be determined, upon approval and adoption by the Board of County Commissioners. This criterion will be met.

**OAR 660-015, Statewide Planning Goals and Guidelines**

**Goal 1: Citizen Involvement:**

**FINDING:** Deschutes County mailed notice to every property in Tumalo prior to Open House #1 (May 11, 2022) and posted flyers at various gathering centers. The latter locations included the bulletin boards for Tumalo’s only gas station/convenience store, veterinary clinic, irrigation district offices, pizza parlor, Tumalo Community School, and post office. Open House #1 was the TCP kickoff meeting and an opportunity for attendees to voice their opinions about vision statement, goals, policies, and issues of importance. Other opportunities for public comment and dialogue occurred via Meet A Planner meetings (June 20-24, 2022) which were scheduled face-to-face, one-on-one 30-minute sessions on the TCP update; County-held virtual open houses; and surveys (June 29-July 22, 2022). Open Houses #2 (August 22, 2022) and #3 (May 17, 2023) presented draft and final versions of the TCP with revisions based on public feedback. A second round of Meet A Planner meetings was offered (May 2-9, 2023). The County also created a website and an explanatory Story Map to garner public input throughout the process (https://www.deschutes.org/cd/page/tumalo-community-plan-update). The 2020-2040 TCP is therefore consistent with Goal 1.

**Goal 2: Land Use Planning:**

**FINDING:** The TCP 2020-2040 does not change any Comprehensive Plan designations or zoning designations in DCC 18.67, Tumalo Rural Community Zoning. The update is the subject of land use file 247-23-000509-PA/510-TA and will be processed under the County’s procedures for a legislative amendment. On July 6, 2023, the County provided the required 35-day prior notice to the Department of Land Conservation and Development (DLCD) before the first evidentiary hearing. The 2020-2040 TCP is therefore consistent with Goal 2.

**Goal 3: Agricultural Lands:**

**FINDING:** Tumalo does not contain any lands with the Comprehensive Plan designation of Agriculture nor the zoning designation of Exclusive Farm Use (EFU). However, EFU properties abut 247-23-000509-PA/510-TA (Tumalo Community Plan 2020-2040)
Tumalo and the following TCP 2020-2040 Land Use Policy #2 states that County plans and regulations must comply with state requirements for EFU lands. The TCP does not propose any changes to existing EFU zoning. The 2020-2040 TCP is therefore consistent with Goal 3.

**Goal 4: Forest Lands:**
**FINDING:** There are no lands designated Forest, either by Comprehensive Plan or DCC 18.67, within or abutting Tumalo. The TCP does not change any Forest zoning. Additionally, the majority of trees within the vicinity of Tumalo are juniper trees, which are not considered a commercially viable tree or a species that is commonly suitable for the production of merchantable trees. Therefore, either Goal 4 does not apply to the 2020-2040 or the application is consistent with Goal 4.

**Goal 5: Open Spaces, Scenic and Historic Areas, and Natural Resources:**
**FINDING:** The TCP 2020-2040 does not propose any changes to any Goal 5 resources. Two historic buildings in Tumalo are listed in the County's Goal 5 resources. The 2020-2040 TCP has a Natural Resources, Open Space, and Recreation Goal supporting the protection and conservation of natural resources, cultural resources, and open space. Various TCP policies address the elements and intent of Goal 5. Land Use Policy #3 encourages the preservation of historical structures in Tumalo such as the Tumalo Community Church (1905) and the Laidlaw Bank and Trust (1910). Natural Resources, Open Space, and Recreation Policies #4 and #6 address open space; Policies #3, #6-10 address the Deschutes River. The TCP proposes no changes to the County's Landscape Management (LM) overlay zone nor the Surface Mining Impact Area (SMIA) zones, which protect scenic view and aggregate mining, respectively. Therefore, the 2020-2040 TCP is consistent with Goal 5.

**Goal 6: Air, Water and Land Resources Quality:**
**FINDING:** The TCP has several goals and policies that address this goal. Specifically, Natural Resources, Open Space, and Recreation Policies #5, #13, and #14; Residential Policy #3; Economic Development Policies #1, #3, and #5-7; the Public Facility Goal and Public Facility Policies #1-10. In total, the policies will protect the quality of the air, water, and resources within Tumalo. Therefore, the 2020-2040 TCP is consistent with Goal 6.

**Goal 7: Areas Subject to Natural Disasters and Hazards:**
**FINDING:** The Comprehensive Plan in Section 3.5 lists the following natural hazards endemic to Deschutes County: wildfire, snowstorms, flooding, and volcanic eruptions and earthquakes. Tumalo has a fire station and the Natural Resources, Open Space, and Recreation Policy #15 encourages Tumalo to become a fire-adapted community through the Firewise Program. The Road Department plows County-maintained roads in Tumalo while ODOT plows U.S. 20. The TCP does not change any existing building codes regarding snow loads or structural resistance to earthquakes. Therefore, the 2020-2040 TCP is consistent with Goal 7.

**Goal 8: Recreational Needs:**
**FINDING:** The major recreational draws to Tumalo are the Deschutes River and the State-designated Twin Bridges Scenic Bikeway, which uses Bailey Road, Cook Avenue, and Cline Falls Road. The Natural Resources, Open Space, and Recreation Goal and its Policies #1-4; and #7-12 address these needs specifically. The Transportation Goal references supporting recreational uses of the road and sidewalk system. Therefore, the 2020-2040 TCP is consistent with Goal 8.
Goal 9: Economic Development:
FINDING: The TCP will not change any of the uses allowed outright or conditionally in the residential, commercial, industrial, or research and development zones in DCC 18.67 (Tumalo Rural Community). The following goal and policies support economic development in Tumalo: Land Use Policy #4; Economic Development Goal and Economic Development Policies #1-#7. Economic Development Policies #3 and #4 particularly support development in the commercial core and supporting economic development initiatives and tourism as the latter brings revenues into the community. Therefore, the 2020-2040 TCP is consistent with Goal 9.

Goal 10: Housing:
FINDING: This goal is not applicable because unlike municipalities, unincorporated areas are not obligated to fulfill certain housing requirements. Tumalo is classified as a Rural Unincorporated Community under OAR 660-022-0010(7). The TCP does contain a Residential Goal and Residential Policies #1 and #3 to encourage a mix of housing types. Therefore, if it were applicable, the 2020-2040 TCP would be consistent with Goal 10.

Goal 11: Public Facilities and Services:
FINDING: The majority of Tumalo is on septic; there is a private wastewater system, Tumalo Property Owners Association (TPOA), which serves a small area on the south side of U.S. 20. Water, either for drinking or irrigation, is provided by private companies or private wells. The TCP contains a Public Facilities Goal as well as Public Facilities Policies #1-#10. The community was quite concerned about private sewers in Tumalo. Public Facilities Policies #3, #4, and #7 address public sewer systems while Policies #8, #9, and #10 address private sewer systems. Policies #1, #2, and #6 pertain to wastewater facilities regardless of public or private. Taken together, the Public Facilities goal and policies will protect Tumalo's current and future water and wastewater issues. The updated TCP does not propose any changes to the County's regulations regarding public facilities and services. Therefore the 2020-2040 TCP complies with Goal 11.

Goal 12: Transportation:
FINDING: The County's Transportation System Plan (TSP) is also being updated to 2040 to continue to provide a safe, convenient, and efficient economical transportation system. The TCP proposed Transportation Goal is to provide and encourage a safe, convenient, and economical transportation system. The Transportation Goal calls for such a transportation system for all modes and to support economic development, recreation, and community health. Of the specific transportation issues raised by the community, Road Network Policy #3 addresses speeding while Policy #4 calls for ODOT to use designs consistent with Tumalo's enduring vision of maintaining its small-town feel. Road and Sidewalk Policy #3 calls for sidewalks in the commercial core, but not in the residential neighborhoods to preserve their rural character. Road and Sidewalk Policies #6 and #7 will lead to a better experience for cyclists and pedestrians. The 2020-2040 TCP does not propose changes in the functional classification of any existing or planned transportation facility nor does it propose changes to any performance standards or access standards. Therefore, the 2020-2040 TCP is consistent with Goal 12.

Goal 13: Energy Conservation:

247-23-00509-PA/510-TA
(Tumalo Community Plan 2020-2040)
**FINDING:** As a Rural Unincorporated Community with a 30-foot height limit, Tumalo has minimal opportunities for infill or increased density, which can be used as a strategy for energy conservation. However, the various Transportation policies encourage energy-saving alternate modes, especially bicycling and walking. The small lots can make solar energy utilization impractical due to shadows from nearby structures. Economic Development Policy #2 addresses the issue. The 2020-2040 TCP does not propose to change the County’s Plan or implementing regulations regarding energy conservation. Therefore, the 2020-2040 TCP is consistent with Goal 13.

**Goal 14: Urbanization:**

**FINDING:** Tumalo is a Rural Unincorporated Community under OAR 660-022-0010(7) and has no Urban Growth Boundary (UGB). As Tumalo by definition is rural, Goal 14 does not apply.

**Goals 15 through 19**

**FINDING:** These goals are not applicable to the proposed plan and text amendments because the County does not contain these types of lands.

**OAR 660-022, Unincorporated Communities**

**FINDING:** OAR 660-022-0030(1) requires counties to provide zoning designations for all properties within an unincorporated community. Deschutes County has done so via DCC 18.67. The 2020-2040 TCP is not adding any new zones nor changing any uses allowed either outright or conditionally. The 2020-2040 TCP is therefore consistent with OAR 660-022.

**Deschutes County Comprehensive Plan**

**FINDING:** The relevant portions of the Comprehensive Plan are Chapter 1 (Comprehensive Planning), which sets the goals and policies of how the County will involve the community and conduct land use planning. These are specified in Section 1.2 (Community Involvement) and Section 1.3 (Land Use Planning). Chapter 4 (Urban Growth Management) and Sections 4.3 (Unincorporated Communities) and 4.7 (Tumalo Community Plan) are also applicable.

Section 1.2 sets a goal for an open and active community involvement program that engages the public during development of land use policies and codes. Policy 1.2.2 designates the Planning Commission as the Committee for Community Involvement. Policies 1.2.3 and 1.2.4 detail procedures for public outreach and avenues of outreach. As described above, the County complied with DCC 22.12 for a legislative amendment, including notice to the public, DLCD, and relevant agencies. Both the Planning Commission and Board will conduct separate public hearings and objectively evaluate the facts. Additionally, staff conducted extensive public outreach via flyers, email, open houses, website, and work sessions with the PC and the Board, which were open to the public and broadcast online.

Section 1.3 sets a goal of an open and public land use process to reach fact-based decisions. Policies 1.3.1 calls for protection of private-property rights and Policies through 1.3.2 through 1.3.9 concern public involvement, record keeping, use of websites, and review periods for the Comprehensive Plan. The 2020-2040 TCP does not identify any properties to be transferred from private to public...
ownership; policies state clearly what is voluntary if private property is involved; policies regarding private sewers also would protect rights of private property owners that could be served by a private sewer. For the development of the TCP, the County has done extensive public outreach using traditional methods (flyers, face-to-face meetings) and newer methods (website, online public meetings, electronic records, video meetings, etc.)

Section 4.3 defines, lists, and categorizes Unincorporated Communities. Tumalo is a Rural Community and was approved in 1997. Section 4.3 does not have any goals or policies.

Section 4.7 is the Tumalo Community Plan itself and is incorporated into the Comprehensive Plan as Appendix B.

Based on the above, the 2020-2040 TCP is consistent with the Deschutes County Comprehensive Plan.

IV. CONCLUSION

The proposed 2020-2040 TCP complies with all relevant Deschutes County and OAR requirements.
Goals and Policies

Green = Unchanged language in 2010-2030 TCP or unchanged but in a new section
Blue = Language in 2010-2030 TCP, but slightly modified for tense, terms, clarity (See spreadsheet for actual changes and further details in “Notes” section)
Yellow = Brand new language for 2020-2040 TCP in response to public comments

The following policies and policies are designed to address issues specific to the Tumalo Rural Unincorporated Community. The policies supplement existing Deschutes County Comprehensive Plan policies and were developed from input received by community members, stakeholders, and input from relevant agency partners.

Community Vision Statement

Retain the livability of Tumalo as a rural small town, through safe and efficient public services and collaborating with the surrounding rural area.

Land Use Goal

Continue to implement a clear and transparent planning process and policy framework reflective of the community's small-town rural character.

Land Use Policies

1. Conform land use regulations to the requirements of Unincorporated Communities as defined in OAR 660 Division 22 or any successor.
2. Ensure County plans and land use regulations comply with state requirements for agricultural uses in the Exclusive Farm Use (EFU) zones.
3. Encourage the preservation of historical structures such as the Tumalo Community Church (1905) and the Laidlaw Bank and Trust (1910).
4. Review the Tumalo Community Plan periodically to determine if it meets the current and future needs of the area.

Natural Resources, Open Space, and Recreation Goal

Support the preservation and conservation of natural resources, cultural resources, and open space while providing ample and diverse opportunities for recreation.
# Natural Resources, Open Space, and Recreation Policies

1. Continue to support Tumalo as a regional bicycle destination.

2. Support community and agency partners in planning and development of a multiuse trail system from Tumalo State Park to Tumalo.

3. Encourage consolidation of designated access points to the Deschutes River and education of trail users to preserve riparian areas.

4. Encourage voluntary designation of open space and public access to Deschutes River on adjacent private properties.

5. Provide County perspective and support for community-based restoration projects to protect the health and vitality of the Deschutes River and its tributaries.

6. Preserve publicly owned lands along the Deschutes River as designated open space.

7. Collaborate with public, private, and nonprofit organizations on infrastructure improvements near recreation areas including formal river access points, wayfinding signage, lighting, or sanitary facilities.

8. Support community efforts to designate the segment of the Deschutes River through Tumalo as an Oregon Scenic Waterway for its recreational values.

9. Coordinate with community partners on the development of a trails and recreation master plan.

10. Assist in outreach to Oregon State Parks Department or municipal parks and recreation districts to explore the annexation of Tumalo into an existing district. Assess opportunities for access and parking improvements at heavily used river access points.

11. Explore whether the County should form a Parks and Recreation District as part of the County’s Comprehensive Plan Update.

12. Coordinate with community partners on efforts to designate new parks and maintain local parks.

13. Encourage preservation or improvement of groundwater quality and the conservation of groundwater supplies.

15. Encourage Tumalo to become a fire-adapted community through the Firewise Program.
Residential Area Goal

Maintain the small town character and feel of Tumalo, while accommodating the community’s residential growth.

Residential Area Policies

1. Encourage density and design features that are compatible with existing development.
2. Permit livestock in the residential districts subject to use limitations.
3. Plan and zone for a diversity of housing types and densities suited to the capacity of the land to accommodate water and sewage requirements.

Economic Development Goal

Retain the economic vibrancy of Tumalo’s historic core and industrial areas while providing economic development opportunities that are compatible with the small town rural character of the community.

Economic Development Policies

1. Encourage design standards in the commercial district so new development is compatible with the rural character of the community and reduces negative impacts on adjacent residential districts.
2. Explore alternatives to the solar setback standards for development within the commercial zoning districts of Tumalo.
3. Allow residential uses and mixed residential/commercial uses, without inhibiting future commercial development opportunities in the Commercial Zoning Districts.
4. Support economic development initiatives and tourism in the Tumalo area.
5. Allow for existing and future uses without producing adverse effects upon water resources or wastewater disposal. Coordinate with relevant agencies to ensure industrial uses meet requirements for water availability and wastewater disposal.
6. Limit industrial activities to low-impact uses that rely on rural resources as defined in OAR 660-004-0022(3)(a).
7. Limit industrial activities to low-impact uses that rely on rural resources as defined in OAR 660-004-0022(3)(a).
Public Facilities Goal

Ensure irrigation, domestic water, wastewater, and other utility systems are safe, efficient, and economical.

Public Facility Policies

1. Consider water and wastewater capacity when assessing development capabilities on individual lots in Tumalo.
2. Promote efficient water and wastewater systems in new development to manage water resources carefully.
3. Encourage early planning and acquisition of sites needed for public facilities.
4. Support replatting of lots in the area comprising the Laidlaw Plat and other lands designated commercial to create lots large enough to accommodate a DEQ approved on-site sewage disposal system, or connection to a public sewer system if available, consistent with the findings of the Tumalo Sewer Feasibility Study (2022).
5. Coordinate with local Irrigation Districts and the Tumalo Town Ditch to avoid adverse effects on their infrastructure and distribution systems.
6. Maintain efforts to ensure the Tumalo domestic water system complies with public health regulations and state and federal water quality regulations.
7. If Tumalo residents initiate district formation, coordinate with the residents and business owners on the creation of a public sewer district.
8. Explore legislative approaches to preclude non-voluntary connections to private sewer systems.
9. Explore with Department of Environmental Quality (DEQ) to determine whether a property owner can record a land use provision stating a private sewer is not lawfully available under Oregon Administrative Rule (OAR) 340-040-0160 unless the land owner voluntarily consents to the connection.
10. Prohibit private sewers in Tumalo, unless the property owners of the lots in the Laidlaw Plat, Deschutes River Tract, and Deschutes River Homesite Rimrock Addition form a district and vote on the issue.

Transportation Goal

Provide a safe and efficient system for all modes of transportation, including bicycle, pedestrian, and transit, to support local economic development, recreational uses, and community health.
## Road Network Policies

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Periodically review the Transportation System Plan policies and standards for Tumalo to reflect best practices.</td>
</tr>
<tr>
<td>2</td>
<td>Periodically review existing roadway design requirements to ensure complete streets which accommodate all modes of travel.</td>
</tr>
<tr>
<td>3</td>
<td>Collaborate with the Oregon State Police and Deschutes County Sheriff’s Office to address speeding within Tumalo.</td>
</tr>
<tr>
<td>4</td>
<td>Encourage ODOT to use its “Blueprint for Urban Design” for U.S. 20 projects to enhance the roadside environment by signage, accommodating alternate modes, roadside amenities, and landscaping.</td>
</tr>
</tbody>
</table>

## Road and Sidewalk Policies

</table>
**NATURAL RESOURCES, OPEN SPACE, AND RECREATIONAL GOAL**

| Deletion | Coordinate with Tumalo Community Association, Tumalo Business Association, and similar local organizations on land use issues, where appropriate. | TCA and TBA apparently no longer exist nor have any analogous entities appeared. DCC 22 requires notice of land use applications both by sign and mailed notice to properties within 250 feet of subject property and notices of public hearings. DCC 22.20 and 22.24 contain public notice requirements for quasi-judicial land use applications; DCC 22.12 sets notice requirements for legislative land use applications. |

| Addition | Support the preservation and conservation of natural resources, cultural resources, and open space while providing ample and diverse opportunities for recreation. | None |

**NATURAL RESOURCES, OPEN SPACE, AND RECREATION POLICIES**

| Revision | Support community and agency partners in planning and development of a multi-use trail system from Tumalo State Park to Tumalo. | Establish a multi-use trail system from Tumalo State Park to Tumalo. |

| Revision | Encourage consolidation of designated access points to the Deschutes River and education of trail users to preserve riparian areas. | Preserve public access to the river. |

| Revision | Continued to support Tumalo as a regional bicycle destination. | Establish Tumalo as a regional bicycle destination through land use, transportation, and recreation policies and programs. |

| Revision | Encourage voluntary designation of open space and public access to the Deschutes River on adjacent private properties. | None |

| Revision | Provide County perspective and support for community-based restoration projects to protect the health and vitality of the Deschutes River and its tributaries. | None |

| Revision | Preserve publicly-owned lands along the Deschutes River as designated open space. | Preserve publicly owned lands along the Deschutes River by designating them as open space. |

<p>| Revision | Collaborate with public, private, and nonprofit organizations on infrastructure improvements near recreation areas including formal river access points, wayfinding signage, lighting, or sanitary facilities. | Support infrastructure improvements including formal access river points, public signage, sanitary facilities and improved parking conditions. |</p>

<tr>
<td><strong>Revision</strong></td>
<td>Coordinate with community partners on the development of a trails and recreation master plan.</td>
<td>Support the development of a trails and recreation master plan.</td>
<td>2020 text recognizes entities other than County would develop a plan given the County’s lack of a Parks and Rec District, but is consistent with intent of 2010 text.</td>
</tr>
<tr>
<td><strong>Revision</strong></td>
<td>Assist in outreach to Oregon State Parks Department or municipal parks and recreation districts to explore annexation of Tumalo into an existing district. Support assessment opportunities for access and parking improvements at heavily used river access points.</td>
<td>Consider adding Tumalo State Park to the Tumalo Rural Community boundary.</td>
<td>2010 language was Community Policy 1. However, its is difficult under OAR 660-022-020 and 660-004-0022(4) to expand Tumalo UUC boundaries to include Tumalo State Park. Easier process for OSPRD to extend into Tumalo or have a local parks district annex Tumalo. New text captures intent of 2010 plan and adds parking. Topic moved from 2010 Community Policies to 2020 Natural Resources, Open Space, and Recreation Policies.</td>
</tr>
<tr>
<td><strong>Revision</strong></td>
<td>Assist in outreach to Oregon State Parks Department or municipal parks and recreation districts to explore annexation of Tumalo into an existing district. Support assessment opportunities for access and parking improvements at heavily used river access points.</td>
<td>Explore the future expansion of Bend Metro Park and Recreation District to include the Tumalo area.</td>
<td>2010 language was Open Space and Recreation Policy 16. 2020 text captures intent of 2010 plan but adds the potential of other districts annexing Tumalo as Tumalo Community School is in the Redmond School District.</td>
</tr>
<tr>
<td><strong>Addition</strong></td>
<td>Explore whether the County should form a Parks and Recreation District as part of the County's Comprehensive Plan Update.</td>
<td>N/A</td>
<td>Added text based on numerous public comments input pertaining to parks and open space and desire for the County to have a Parks and Rec district or department.</td>
</tr>
<tr>
<td><strong>Revision</strong></td>
<td>Coordinate with community partners on efforts to create and maintain new local parks.</td>
<td>Support community efforts to create and maintain local parks.</td>
<td>Word choice as “coordinate” implies earlier joint efforts while being consistent with 2010 text.</td>
</tr>
<tr>

</tbody>
</table>

**ECONOMIC DEVELOPMENT GOAL**

| **Addition** | Retain the economic vibrancy of Tumalo’s historic core and industrial area while providing economic development opportunities that are compatible with the small town rural character of the community. | N/A | 2010 plan did not have an Economic Development goal, only Commercial Area Policies. |

**ECONOMIC DEVELOPMENT POLICIES**

<p>| <strong>Unchanged</strong> | Explore design standards in the commercial district so new development is compatible with the rural character of the community and reduces negative impacts on adjacent residential districts. | Encourage design standards in the commercial district so new development is compatible with the rural character of the community and reduces negative impacts on adjacent residential districts. | Changed “Encourage” to “Explore”; moved text from 2010 Commercial Area Policies to 2020 Economic Development Policies. |
| <strong>Addition</strong> | Explore alternatives to the solar setback standards for development within the commercial zoning district of Tumalo. | N/A | Added based on public input on challenge of applying solar setbacks to the small lots of the Laidlaw plat. |
| <strong>Revision</strong> | Allow residential uses and mixed residential/commercial uses, without inhibiting future commercial development opportunities in the Commercial Zoning Districts. | Allow residential and mixed residential/commercial uses, while preventing residential uses from dominating or setting development standards in the commercial district. | Doubtful 2010 text is enforceable; 2020 revision captures intent of 2010 text of having the residential and commercial zoning districts’ uses remain compatible. |</p>
<table>
<thead>
<tr>
<th>Action</th>
<th>New Text</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deletion</td>
<td>Prohibit additional lands from being designated commercial until an economic analysis review is completed. 2010 policy's vagueness would make it difficult to implement. A plan amendment/zone change to commercial in the burden of proof must provide findings for Goal 9 (Economic Development) and Goal 12 (Transportation). Essentially, address the economic reason why the use should occur on this subject property and whether there are any adverse effects on transportation. If there are, explain how they will be mitigated. In other words, PAPA/ZC process would address 2010 intent.</td>
</tr>
<tr>
<td>Revision</td>
<td>Allow for existing and future uses without producing adverse effects upon water resources or wastewater disposal. Coordinate with relevant agencies to ensure proposed uses meet requirements for water availability and wastewater disposal. New uses that will not exceed the capacity of water and sewer service available to the site on the effective date of this rule (OAR 660-004-0022(3)(a)); or, if such services are not available to the site, the capacity of the site itself to provide water and absorb sewage. 2010 text only applied to industrial zoned lands; 2020 text applies to all lands within Tumalo. 2010 language appeared in Industrial Policies Section, which has been replaced in 2020 by Economic Development Policies Section.</td>
</tr>
<tr>
<td>Revision</td>
<td>Limit industrial activities to low-impact uses that rely on rural resources. Allow only the following new or expanded uses in the Tumalo rural community boundary: Uses authorized under Goals 3 and 4 (farm and forest uses); expansion of use existing on the date of this rule; small-scale, low impact uses; uses that require proximity to rural resources as defined in OAR 660-004-0022(3)(a). New uses that will not exceed the capacity of water and sewer service available to the site on the effective date of OAR 660-0004-0022, or if such services are not available to the site, the capacity of the site itself to provide water and absorb sewage. Newer uses more intensive than this section, provided an analysis set forth in the Comprehensive Plan demonstrates, and land use regulations, ensure that such uses are necessary to provide employment that does not exceed the total projected work force within the community and the surrounding rural area; that such uses would not rely upon a work force employed by uses within urban growth boundaries; and that the determination of the work force of the community and surrounding rural area considers the total industrial and commercial employment in the community and is coordinated with employment projections for nearby urban growth boundaries. 2010 text edited for brevity while 2020 text remains consistent with intent of 2010 language. 2010 verbiage more akin to development code than a policy document and has requirements that are of dubious legality and/or difficult to demonstrably prove.</td>
</tr>
<tr>
<td>Revision</td>
<td>Ensure irrigation, domestic water, wastewater, and other utility systems are safe, efficient, and economical.</td>
</tr>
<tr>
<td>----------</td>
<td>--------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Addition</td>
<td>Consider water and wastewater capacity when assessing development capabilities on individual lots in Tumalo.</td>
</tr>
<tr>
<td>Addition</td>
<td>Promote efficient water and wastewater systems in new development to manage water resources carefully.</td>
</tr>
<tr>
<td>Revision</td>
<td>Encourage early planning and acquisition of sites needed for public facilities.</td>
</tr>
<tr>
<td>Revision</td>
<td>Support replatting of lots in the area comprising the Laidlaw Plat and other lands designated commercial to create lots large enough to accommodate a DEQ approved on-site disposal system, or connection to a public sewer system if available, consistent with the findings of the Tumalo Sewer Feasibility Study (2022).</td>
</tr>
<tr>
<td>Modification</td>
<td>Coordinate with local irrigation districts and the Tumalo Town Ditch to avoid adverse effects on their infrastructure and distribution systems.</td>
</tr>
<tr>
<td>Revision</td>
<td>Maintain efforts to ensure the Tumalo domestic water system complies with public health regulations and state and federal water quality regulations.</td>
</tr>
<tr>
<td>Revision</td>
<td>If Tumalo residents initiate district formation, coordinate with residents and business owners on the creation of a public sewer district.</td>
</tr>
<tr>
<td>Addition</td>
<td>Explore legislative approaches to preclude non-voluntary connections to private sewer systems.</td>
</tr>
<tr>
<td><strong>Addition</strong></td>
<td><strong>Prohibit private sewers in Tumalo, unless the property owners of the lots in the Laidlaw plat, Deschutes River Tract, and Deschutes River Homesite Rimrock Addition form a district and vote on the issue.</strong></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td><strong>Addition</strong></td>
<td><strong>Explore with Department of Environmental Quality (DEQ) to determine whether a property owner can record a land use provision stating a private sewer is not lawfully available under Oregon Administrative Rule (OAR) 340-040-0160 unless the land owner voluntarily consents to the connection.</strong></td>
</tr>
<tr>
<td><strong>Deletion</strong></td>
<td><strong>Determine residential minimum lot sizes by the capacity of the land to accommodate available water and wastewater facilities.</strong></td>
</tr>
<tr>

<tr>
<td><strong>Modification</strong></td>
<td><strong>Periodically review the Transportation System Plan policies and standards for Tumalo to reflect best practices.</strong></td>
</tr>
<tr>
<td><strong>Modification</strong></td>
<td><strong>Periodically review existing roadway design requirements to ensure complete streets which accommodate all modes of travel.</strong></td>
</tr>
<tr>
<td></td>
<td>ROAD AND SIDEWALK POLICIES</td>
</tr>
<tr>
<td>---</td>
<td>------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Addition</td>
<td>Collaborate with the Oregon State Police and Deschutes County Sheriff’s Office to address speeding within Tumalo.</td>
</tr>
<tr>
<td></td>
<td>Coordinate with the Tumalo community and Oregon Department of Transportation to implement both short- and long-term improvements to solve transportation problems, including at the Cook Avenue and US 20 intersection.</td>
</tr>
<tr>
<td>Deletion</td>
<td>N/A</td>
</tr>
<tr>
<td></td>
<td>Coordinate with the Tumalo community and Oregon Department of Transportation to implement both short-and long-term improvements to solve transportation problems, including at the Cook Avenue and US 20 intersection.</td>
</tr>
<tr>
<td>Revision</td>
<td>Encourage ODOT to use its “Blueprint for Urban Design” for US 20 projects to enhance the roadside environment by signage, accommodating alternate modes, and roadside amenities and landscaping.</td>
</tr>
<tr>
<td></td>
<td>County does not have authority to require roadside amenities within US 20 right of way; reference to “Blueprint for Urban Design,” which also includes amenities and all modes, and thus 2020 text is consistent with intent of 2010 text.</td>
</tr>
<tr>
<td>Modification</td>
<td>Implement road development standards for Tumalo that are consistent with the small-scale character of the community</td>
</tr>
<tr>
<td></td>
<td>2020 text deleted 2010 phrase “minimize pavement width” but remains consistent with intent of 2010 text.</td>
</tr>
<tr>
<td>Unchanged</td>
<td>Utilize land development and grant funding opportunities to improve street segments identified for improvements in the Transportation System Plan.</td>
</tr>
<tr>
<td></td>
<td>None</td>
</tr>
<tr>
<td>Revision</td>
<td>Provide functional, cost-effective sidewalks within the commercial core while preserving the rural character of the residential areas.</td>
</tr>
<tr>
<td></td>
<td>2020 text addresses need for sidewalk in the commercial core while respecting public input on not wanting sidewalks in residential areas from Wharton to the river. 2020 language is consistent with the intent of 2010 text.</td>
</tr>
<tr>
<td>Unchanged</td>
<td>Provide sidewalks or multiuse paths where they are needed for safety, as set forth in the Transportation System Plan.</td>
</tr>
<tr>
<td></td>
<td>None</td>
</tr>
<tr>
<td>Modification</td>
<td>Construct sidewalks specified on community roads without curbs and gutters and allow adequate room for utilities.</td>
</tr>
<tr>
<td></td>
<td>2020 text deletes “distant from property lines” reference, but remains consistent with intent of 2010 text.</td>
</tr>
<tr>
<td>Addition</td>
<td>Provide wayfinding signage and maintenance best practices on County arterials and collectors to ensure safe and accessible routes for all users.</td>
</tr>
<tr>
<td></td>
<td>2020 text resulted from TGM Bike/Ped/Transit update, public input, especially for bicyclists, pedestrians, rafters, and tourists.</td>
</tr>
<tr>
<td>Addition</td>
<td>Review Deschutes County Code (DCC) 17.48, Table B, Minimum Bikeway Design Standards and consider revising widths of multiuse path from 8 feet to 10 feet and up to 12 feet in areas with high mixed use.</td>
</tr>
<tr>
<td></td>
<td>2020 text resulted from TGM Bike/Ped/Transit update.</td>

MEMORANDUM

Date: Tuesday, May 3rd, 2022

To: Project Management Team

From: Karen Swirsky, Carrie Theus, and Katie Popp, Kittelson & Assoc.

Subject: TCP Advisory Committee Meeting #1 Minutes

Attendees:

- Brandon Crawford, MIG bcrawford@migcom.com
- Carrie Theus, Kittelson & Associates ctheus@kittelson.com
- Chris Cheng, Oregon Department of Transportation (ODOT) Chris.CHENG@odot.state.or.us
- Devin Hearing, Oregon Department of Transportation (ODOT) devin.hearing@odot.oregon.gov
- Jim Crouch, Heritage Brand, jim@heritagebrand.com
- Karen Swirsky, Kittelson & Associates kswirsky@kittelson.com
- Katie Popp, Kittelson & Associates kpopp@kittelson.com
- Peter Russell, Deschutes County, peter.russell@deschutescounty.gov
- Rachel Zakem, Cascades East Transit (CET) rzakem@coic.org
- Susan Altman, Deschutes County Planning Commission dpcpsusan@gmail.com
- Tarik Rawlings, Deschutes County Planning tarik.rawlings@deschutes.org
- Theresa Conley, Oregon Department of Transportation (ODOT) Theresa.L.CONLEY@odot.state.or.us
- Tony DeBone, Deschutes County Board of County Commissioners Tony.DeBone@deschutescounty.gov
- Tony Vicknair, Tumalo School Tony.Vicknair@redmondschools.org (Note: Sam Platt will be taking over for Tony Vicknair after he retires this month)

Absent Committee Members:

- Andrea Breault, CET abreault@coic.org
- Steve Davidson, The Bite steven.davidson@fib.com
- Serena Gordon, Twin Bridges Scenic Highway serena@visitbend.com
- Dave Thomson, County Bicycle & Pedestrian Advisory Committee (BPAC) d.a.thomson@icloud.com
Notes:

Project Background, Objectives, and Desired Outcomes

- Karen Swirsky discussed project boundaries, background, and objectives (See website for slides)
  - The Active Transportation component is just one sub-component of the planning updates to come in the Tumalo Community Plan (TCP) and Deschutes County Transportation Systems Plan (TSP)
- Objective of this project is to identify gaps in active transportation networks in Tumalo, develop a list of needed projects in Tumalo, and provide recommendations to the TCP and TSP for implementation

Background of Existing Plans

- Tumalo Community Plan (TCP) update
  - Tumalo’s long-term planning project, part of the county’s comprehensive plan
  - Peter Russell - This project is one sub-set of the TCP and will inform the TCP for that Active Transportation segment.
    ▪ There will be a TCP Open House on Wednesday, May 11th for the project team to collect input from community members and other stakeholders
    ▪ Most accurate estimate of Tumalo population is 574, but future build-out population is estimated to be ~772
- Deschutes County Transportation System Plan Update
  - Anticipating that will be done late summer/ early Fall 2022
- Twin Bridges Scenic Bikeway
  - Chris Cheng - Currently the plan is to reroute the scenic bikeway through the proposed 4th Street underpass

Planned Projects

- US 20/ Cook Ave/ OB Riley Rd roundabout
- Tumalo Multi-Use Path & Underpass at 4th Street
  - Chris Cheng: Most of the funding for this project is coming from the county
- Cline Falls Rd/ Tumalo Rd/ Cook Ave Intersection Improvement
  - Potential roundabout or realignment of intersection
  - There’s a takeout spot for people on the river located here, so this area could be more pedestrian-friendly
- Other sidewalk improvements (from the draft TSP)
  - Some of them will be accomplished as part of the roundabout project in 2023
- Cascades East Transit 2040 Master Plan
  - Rachel Zakem: CET is waiting for 2 roundabouts on US-20 to determine where the Tumalo stop will go
  - Rachel Zakem will touch base with Andrea Breault this week on any additional materials to provide to the project team
Other Needs?

- Karen Swirsky – Potential connection from the fitness track to 4th Street
  - Tony Vicknair – It’s a walking track with several fitness stations. It’s more popular with community members than with students at the school.
- Chris Cheng – A connection from the “downtown” Tumalo area to Tumalo State Park
  - There is a trail along the east side of the river that almost goes to the undercrossing. Connection could be used for people to get from campground to town, vice versa, without having to drive.
  - State parks used to own it the existing trail, then there was a jurisdictional transfer – Chris will send a state park contact to Karen.
- Devin Hearing - With the roundabout and undercrossing, wayfinding will be very important for bikes to continue to go to the undercrossing, not through the roundabout.
  - Peter Russell – The Tumalo trail idea [from Chris Cheng] was part of a discussion in 2009. The County got a grant from the state, but it was shut down by the State Historic Preservation Office (SHPO) because of the presence of artifacts (lithic scatter). The trail is probably feasible but may need environmental remediation which would add to the costs. Peter will look through his files and see if he can locate any documentation. Potential contact: Tumalo State Park Manager (Susan Bether)
- Peter Russell – How can the school drop-off/ pick-up be improved? Is a school traffic speed zone along Cook Avenue possible?
  - Cook Avenue is generally slow because of urban development, but Cline Falls Road has its challenges.
- Peter Russell – There are some pedestrian accommodations along the Tumalo Road bridge, but it’s not comfortable at all due to fast drivers.
- Tony Vicknair – The school recently changed their school drop-off/ pick-up process, and it is working well. Parents drop-off along 2nd Street and loop around through the bus lane. Students cross the adjacent field to get to the buses.
  - There are only 4 buses, but ~170 parents in drop-off/ pick-up.
  - Bus drop-off is at 8:25am, pick-up at 3:25pm
  - The school would be enthusiastic about additional improvements to the drop-off/ pick-up process.
- Theresa Conley – Proposed a partnership between CET and school to propose a bus pull-out for student pickup and CET stop.
  - Karen Swirsky: Mini mobility hub that’s multi-use if it’s not too far away from the school.
  - Rachel Zakem: Not much more info on where to place the stop, just waiting to see the roundabouts.
  - Chris Cheng: Need to make sure there are walking/ biking facilities wherever the new stop is located.
- Tony Vicknair:
  - Since there will be bike and pedestrian facilities along 4th (Re: ODOT project), 4th/ Bruce/ SE side of the field would be a good location for a bus pull-out.
  - The field is very large and only used during the school day – so the school would be open to improvements along 4th Street.
• Jim Crouch - It would make a lot of sense to have a circular path that people could walk around – under the highway to 4th Street, walk under the bridge, back into the Bite, Cook Avenue, and loop around
  ○ There are many elderly people in Tumalo that would enjoy a walking loop – including Jim’s parents.
  ○ Lots of things long-term to think about as Tumalo continues to grow (commercial → industrial growth in southern part of Tumalo).
  ○ Karen asked Jim to provide a sketch of his proposed walking route.
• Peter Russell: SHPO and ODOT have certain requirements that could be challenging to the trail under the bridge.

Action Items

Need to follow up with:

• Tony Vicknair – share contact information for Sam Platt, incoming Tumalo Community School principal
• Peter Russell – send SHPO and other related documents (Re: Tumalo trail) to Karen Swirsky
• Rachel Zakem/ Andrea Breault (CET) – send any information on CET stop in Tumalo to Karen Swirsky
• Jim Crouch - sketch a potential walking loop in Tumalo on a map

Chat/Comment Log

[None]
MEMORANDUM

Date:  Wednesday, June 22, 2022

To:  Project Management Team

From:  Karen Swirsky and Katie Popp, Kittelson & Assoc.

Subject:  TCP Advisory Committee Meeting #2 Minutes

Attendees:

- Chris Cheng, Oregon Department of Transportation (ODOT) Chris.CHENG@odot.state.or.us
- Devin Hearing, Oregon Department of Transportation (ODOT) devin.hearing@odot.oregon.gov
- Jim Crouch, Heritage Brand, jim@heritagebrand.com
- Karen Swirsky, Kittelson & Associates kswirsky@kittelson.com
- Katie Popp, Kittelson & Associates kpopp@kittelson.com
- Peter Russell, Deschutes County, peter.russell@deschutescounty.gov
- Rachel Zakem, Cascades East Transit (CET) rzakem@coic.org
- Tarik Rawlings, Deschutes County Planning tarik.rawlings@deschutes.org
- Theresa Conley, Oregon Department of Transportation (ODOT) Theresa.L.CONLEY@odot.state.or.us
- Jeannie Fraley
- Gabriel Coler

Absent Committee Members:

- Nicole Mardell, Deschutes County Nicole.Mardell@deschutescounty.gov
- William Groves, Deschutes County William.Groves@deschutescounty.gov
- Andrea Breault, CET abreault@coic.org
- Steve Davidson, The Bite steven.davidson@ib.com
- Serena Gordon, Twin Bridges Scenic Highway serena@visitbend.com
- Dave Thomson, County Bicycle & Pedestrian Advisory Committee (BPAC) d.a.thomson@icloud.com
- Tony DeBone, Deschutes County Board of County Commissioners Tony.DeBone@deschutescounty.gov
- Sam Platt, Tumalo School samuel.platt@redmondschools.org
Notes:

StoryMap Overview

- **Tumalo Active Transportation StoryMap** is accepting input from the public until July 12th
- Advisory committee to spread the word about the StoryMap
- Theresa Conley – It would be helpful to have a visual/story about what the transit stop would look like in Tumalo
  - Would look similar to Sisters and Redmond stops
  - Rachel – share some pictures of the raised stop in Sisters

Tumalo Open House Debrief

- Peter Russell and Tarik Rawlings – Great turnout for the Tumalo Open House. Attendees very very involved and provided a lot of input. There are clearly two differing viewpoints in Tumalo: (1) Keep Tumalo the way it is and (2) Wish for a bit more growth in Tumalo.
- Karen Swirsky and Katie Popp – Three emerging themes from Tumalo Open House and Tumalo Walking Tour

Three Emerging Themes from Public Events

- Speed Control & Safety
- Pedestrian Connectivity
- Transit

Speed Control & Safety

- Karen and Katie went through several potential concepts to address speed control and safety, including (1) traffic signal at Cook Ave and Cline Falls Hwy, (2) Roundabout at Cook Ave and Cline Falls Hwy, (3) Raised intersection at Cook Ave and 4th St, (4) Entryway art, (5) Safety improvements such as shoulder widening on Bailey Road and Tumalo Road.
- Raised intersection
  - Peter Russell: County would be okay with a raised intersection. Another option is rumble strips.
  - Gabriel: Dan of raised intersection but wouldn’t be necessary with the roundabout.
  - Jim: Agreed with Gabriel – Raised intersection would not be necessary with the roundabout.
- Roundabout
  - Jim: Supportive of a roundabout at Cline Falls Hwy/ Cook Avenue. Roundabout would improve safety for pedestrians, especially those at the river takeout heading to Tumalo downtown.

Pedestrian Connectivity

- Karen discussed opportunities for additional sidewalk connectivity on Bruce Avenue, Cline Falls Hwy, and Tumalo Road. Possible 1-2 mile walking loop routes were presented.

Transit

- Karen discussed opportunities for additional sidewalk connectivity on Bruce Avenue, Cline Falls Hwy, and Tumalo Road. Possible 1-2 mile walking loop routes were presented.
- Rachel Zakem – Deschutes River Woods currently has a country store stop. Rachel connected with the country store owner who didn’t seem opposed, but a follow-up conversation needs to follow.
• Gabriel – Tumalo country store has a large parking lot but it can get chaotic with people coming in and out during busy times.
  o Alternative: Right before the Tumalo country store entrance on 5th Street
• Rachel – Transit stop must have sidewalks that are ADA compliant and connect to the Tumalo sidewalk network
  o Jim – Is there a need for a transit stop?
  o Rachel – A stop in Tumalo has been on CET’s radar for a few years based on input from the public that specifically request a stop in Tumalo.
  o Peter – Out of the 55 people who took the TCP survey, 29% said they wanted a transit stop in Tumalo.
  o Karen – The transit vehicle is a Ford Transit van which is very small (transporting max. 7-8 people).
  o Rachel – The route would be 3 stops a day in both directions.

Discussion

• Jeanine would like to see a community survey on transit & roundabout at Cline Falls Hwy/ Tumalo Road
• Most seemed to like the roundabout; Devin Hearing (Deschutes County) shared concerns sight distance and the constraint of the river and Tumalo Road bridge
• Mixed reviews on raised intersection. Some were not big fans but others like; general consensus is that there isn’t a need for both the raised intersection and the roundabout
• Roundabout could be a good thing for all the folks using the river put-in, encouraging them to walk to downtown instead of driving
• Agreement that sidewalks on Bruce are important, maybe just on one side
• Most favored transit stop is on Bruce across from the Church – but the Country store could be a good interim location until sidewalks are built on Bruce
  o Country store can be chaotic at peak times
• Lots of support for a connection from Tumalo State Park to Tumalo downtown area, possibly as part of the walking loop

Action Items

• Advisory committee to spread the word about the StoryMap
• Send StoryMap to TCP Advisory Committee

Need to follow up with:

• Rachel Zakem – Share photos of transit stops that are representative of the future Tumalo stop

Chat/Comment Log

[Katie Popp] How would walking & biking fit in with these concepts?

[Theresa Conley] There are numerous driveways along that stretch that people riding bikes & driving need to navigate, I think

[Katie Popp] If you have more thoughts after the meeting, the StoryMap would be a great space to share
MEMORANDUM

Date: Wednesday, August 31, 2022
To: Project Management Team
From: Karen Swirsky and Katie Popp, Kittelson & Assoc.
Subject: TCP Advisory Committee Meeting #3 Minutes

Attendees:

- Andrea Breault, Cascades East Transit (CET) abreault@coic.org
- Chris Cheng, Oregon Department of Transportation (ODOT) Chris.CHENG@odot.state.or.us
- Dave Thomson, County Bicycle & Pedestrian Advisory Committee (BPAC) d.a.thomson@icloud.com

- Tarik Rawlings, Deschutes County Planning tarik.rawlings@deschutes.org
- Theresa Conley, Oregon Department of Transportation (ODOT) Theresa.L.CONLEY@odot.state.or.us

Notes:

**Tumalo Open House Overview; Peter Russell, Deschutes County**

There were approximately 45 people at the open house. Many were confused that it was a meeting about the sewer feasibility study.

The County presented draft goals and policies for transportation, natural resources, open space, land use, environment, etc. Focusing on active transportation, the following generalizations can be made:

- Many attendees expressed opposition to Recreation policy #1. Peter feels that this is a result of an anti-tourist sentiment. In particular, people were uncomfortable with proposed policies that could make Tumalo more of a destination. Specifically, designating the river as Wild and Scenic, improving access to the river, or advertising Tumalo as the key destination on the Twin Bridges Scenic Bikeway. However, most were supportive of wider shoulders for cyclists and pedestrians.
• On the topic of transit in Tumalo, some attendees expressed opposition to a transit stop in Tumalo, mostly on social concerns but also wondering if there is a real need.
• There was support for road standards consistent with rural policy and sidewalk infill – but residents do not want sidewalks in residential areas away from the commercial core.

The County’s next steps with Goals and Polices is to take all the feedback and simplify the language. The County is going to wait until the sewer feasibility study is done to reduce confusion, sometime in October. Therefore, the Active Transportation work will probably have its own online Open House in October in order to meet the grant deadlines.

Initial Concept Plan

Karen Swirsky (Kittelson) walked through the three key topics in the initial concept plan. Discussions from the meeting are documenting as they relate to each topic.

1. Safety & Speed Improvements. *Advisory Committee support, no comments.*

2. Pedestrian Connectivity

*Tumalo to Tumalo State Park Trail*

Chris asks if we have run the “Reconsidering trail from Tumalo to Tumalo State Park” proposal by Oregon State Parks. It’s possible that ODOT swapped right-of-way with Oregon State Parks. Kittelson will check to make sure OSP is okay with the inclusion of the trail concept in the County Transportation Plan. Chris suggested Peter Wanamaker at OSP as a potential contact.

Jeannie asked for clarification on what the issue is with having a trail to Tumalo State Park. Karen explained the known archaeological sites along the trail. Jeannie expressed support for a river trail but there is a greater need on OB Riley Road for a separated path or shoulder widening.

Gabe lives near the existing user trail in that neighborhood and feels that it would be great to have an established trail that is cleaner and nicer than the existing makeshift trail which is often used by dirt bikers. A designated trailhead with parking might attract too many people. The surface could be wood chips or rolled granite, Shevlin Parks style – something that would be better than the existing ankle-deep sand. He understands that everyone wants things to stay the way they are now, but right now they’re not clean and could be nicer.

*Transit*

Jeannie noted that many people she’s talked to are not positive about a stop in Tumalo.

Peter pointed out that the Bend MPO, city and county are under new pressure to provide transit under the new rules to reduce greenhouse gases.

Karen reminded the Committee that the final decision is with CET. Our scope is to identify a potential location for CET.

Andrea said that CET has been collecting customer comment forms for about 12 years and the need to stop in Tumalo has been brought up over the past decade. She will provide these comment to us.

Gabe feels that the Country Store location might induce more negativity from the public and that it might possibly be better to wait until the sidewalks along Bruce Avenue can be constructed.
Theresa asked if we know timing for constructing sidewalks on Bruce. Peter’s response is that most County sidewalks are development-driven. However, in order for the stop to be accessible, the sidewalk would only have to go to the nearest intersection, such as from 7th to the Bruce stop.

Theresa suggested that examples of transit stops from Prineville and La Pine might be useful to illustrate the concept. Peter suggested that we also include a photo of the van that would be used so folks don’t get the idea that it’s going to be a large bus.

**Action Items**

- Kittelson to check to make sure OSP is okay with the inclusion of the trail concept in the County Transportation Plan. Chris suggested Peter Wanamaker at OSP as a potential contact.
- CET to provide Kittelson with customer comments from the past decade that are related to a stop in Tumalo.

**Chat/Comment Log**

[Monday 4:36 PM] CONLEY Theresa L

Do we know the timing for constructing sidewalks on Bruce?

[Monday 4:40 PM] CONLEY Theresa L

I agree and same with transit stops - what if we bring examples from Sisters, Prineville or La Pine on how the bus stops work and what the stops and stop usage looks like?
MEMORANDUM

Date: Wednesday, December 14, 2022
To: Project Management Team
From: Karen Swirsky and Katie Popp, Kittelson & Assoc.
Subject: TCP Advisory Committee Meeting #4 Minutes

Attendees:

- Dave Thomson, County Bicycle & Pedestrian Advisory Committee (BPAC) d.a.thomson@icloud.com
- Devin Hearing, Oregon Department of Transportation (ODOT) devin.hearing@odot.oregon.gov
- Jeannine Fraley, Tumalo Resident jeanninefraley@gmail.com
- Karen Swirsky, Kittelson & Associates kswirsky@kittelson.com
- Katie Popp, Kittelson & Associates kpopp@kittelson.com
- Peter Russell, Deschutes County, peter.russell@deschutescounty.gov
- Rachel Zakem, Cascades East Transit (CET) rzakem@coic.org
- Steve Davidson, The Bite steven.davidson@fib.com
- Tarik Rawlings, Deschutes County Planning tarik.rawlings@deschutes.org
Notes:

Update from County Staff (Peter Russell)

- The next steps for the Tumalo Community Plan-Active Transportation will be to present the plan to the Planning Commission as part of the overall TCP update in January or February when the Sewer Feasibility Study is completed
- The TCP recommendations will eventually be incorporated into the County Transportation System Plan (TSP)

Update from Consultants (Kittelson)

- Karen presented a summary of comments received via the online open house held from October 5th-24th, 2022
- Karen went through a brief overview of what is included in the Final Concept Plan. There have not been any significant changes from the Draft Concept Plan to the Final Concept Plan.
- The last major step of the project is the Implementation Plan (Development Code updates)

Questions/ Comments

- Peter Russell: Would a formal trailhead for the Tumalo to Tumalo State Park be required if that trail is developed along Riverview Ave?
- Karen Swirsky: That would be up to the County and State Park, but likely not.
- Steve Davidson: Riverview Avenue and surrounding roadways are on the border of county maintenance, so those roads are very rustic.
- Peter Russell: Yes, that’s correct. These roads are local access roads, which means they’re publicly maintained but the county does not spend money on them.

Next Steps

- Implementation Plan
- Final concept plan to decision makers
- Incorporation into the Tumalo Community Plan (TCP) update
- Revisions to the Deschutes County Transportation Plan (TCP)

Action Items

- None
Chat/Comment Log

- None
MEMORANDUM

Date: Wednesday, December 07, 2022

To: PMT and TCP Active Transportation Advisory Committee

From: Karen Swirsky and Katie Popp, Kittelson & Associates

Subject: Final Concept Plan

INTRODUCTION

Overview

The Tumalo Community Plan (TCP) Active Transportation Update project focuses on planning efforts for the Active Transportation component of the 2040 Tumalo Community Plan (TCP). Over the past two decades, there have been significant changes in and around Tumalo that have galvanized the transition of the Tumalo core into an active community center. These changes have warranted an update to the Active Transportation element of the Tumalo Community Plan (TCP) to support the growth of a vibrant, livable community with increased transportation choices, including to bicycling, walking, and transit.

The desired outcomes of this project include:

1. Reviewing state, regional, and local plans regarding active transportation
2. Identifying gaps in the Tumalo bicycle and sidewalk system
3. Reaching out to Tumalo residents and business owners regarding active transportation needs
4. Recommending improvements to infrastructure to support active modes of transportation within Tumalo, including potential transit access
5. Creating a list of needed active transportation projects in Tumalo
6. Providing materials and exhibits for amendments to the Tumalo Community Plan and County Transportation System to implement the suggested recommendations for active transportation (provided as separate memorandum to the County)

This Final Concept Plan addresses the outcomes of parts 1-5 of this project, which were accomplished with multiple virtual and in-person Tumalo public engagement events and discussions with the Tumalo Active Transportation Advisory Committee and Project Management Team. These outcomes are organized into three themes for active transportation that emerged throughout the public engagement process:

1. Safety and Speed Improvements
2. Pedestrian Connectivity
3. Transit
Public Outreach

This section discusses public input from multiple public engagement events, including:

1. Tumalo Active Transportation Walking Tour (Wednesday, June 8th, 2022)
2. Interactive StoryMap (June 8th – July 13th, 2022)
3. Virtual open house (October 5th-24th, 2022)

The Tumalo Community Plan Open House, walking tour, and interactive StoryMap supported the development of the Initial Concept Plan. The Initial Concept Plan was then presented in the virtual open house, which gave the public the opportunity to comment on the initial plan and provide any additional feedback to be included in the development of this Final Concept Plan.

In addition to the three public events that were specifically created to receive public input on the Tumalo Active Transportation Plan update, Deschutes County held an Open House for the entire Tumalo Community Plan Update on Wednesday, May 11th, 2022. The Open House included a table introducing the Active Transportation plan update.

Public Event #1: Tumalo Active Transportation Walking Tour

On Wednesday, June 8th from 2-4pm, Kittelson hosted a Tumalo Active Transportation Walking Tour for community members and project stakeholders to share their input on walking, biking, and transit infrastructure in the community. The tour had at least 10-15 participants at a time, with some people joining the tour later and others dropping off before it was complete. The tour started at the fire station and traveled west on 4th Street, then north to the Fit trail Park and Tumalo Community School, east on 2nd Street to Cline Falls Highway and Tumalo Road intersection, then south on Cook Avenue to end at The Bite. Due to time constraints, the tour did not walk along Bruce Avenue, but sidewalks and a CET stop on Bruce were discussed and input is summarized in this memorandum. A map of the walking tour is shown in Figure 1.

While passing by the Tumalo Community School, the tour group observed the afternoon pick-up process. A teacher at the school emphasized that the current process, which has vehicle pick-up at the front of the school and bus pick-up behind the school field on 4th Street, is the most pick-up/drop-off strategy for student safety and general efficiency.
Figure 1: Tumalo Active Transportation Walking Tour Map.

Public Event #2: Online Interactive StoryMap

The online StoryMap was open for comments from June 8th to July 13th, 2022. The interactive StoryMap allowed users to provide comments related to active transportation in Tumalo by clicking a location on a map within the Tumalo boundary. Users could also reply to and “Like” other comments in support. Overall, 22 comments and replies were collected. The responses are provided in Appendix A.

Public Event #3: Virtual Open House

The Tumalo Community Plan (TCP) Active Transportation Update virtual open house was open from October 5-24, 2022. Visitors were introduced to the three leading topics included in the Initial Draft Concept, including (1) Safety and Speed Improvements; (2) Pedestrian Connectivity; and (3) Transit in Tumalo. The open house received 23 total comments provided in Appendix B.
SAFETY AND SPEED IMPROVEMENTS

Cline Falls Hwy/ Tumalo Road Intersection

Over the past decade, Tumalo has seen significant growth in its core business area along Cook Avenue. In conjunction with its role as the community’s core business area, Cook Avenue north of 4th Street provides a connection to the rural area outside of the Tumalo core via Cline Falls Highway, a rural two-lane roadway with a posted speed of 45 mph north of Tumalo Road. Based on input from public events and the online StoryMap tool, many residents are concerned about high vehicle speeds traveling southbound on Cline Falls Highway and eastbound on Tumalo Road.

On Tumalo Road, the 45 mph posted speed limit sign is located before a curve that limits sight distance for all modes of transportation as vehicles are increasing their speed heading eastbound. The Cline Falls Highway and Tumalo Road intersection is especially challenging for pedestrians and cyclists because of high speeds and lack of dedicated infrastructure to separate active modes of transportation from vehicular travel. Additionally, a popular river takeout located on the northeast corner of the intersection prompts pedestrian crossings through the intersection to access the Tumalo core area from the takeout. Improved active transportation infrastructure at the intersection would provide a vital connection to neighborhoods east of the river and the Tumalo Community School.

Residents suggest (1) implementing variable speed warning signs and/or (2) relocating existing posted speed limit signs so that vehicles are not prompted to increase their speeds from 25 mph to 45 mph so close to the intersection, as they do today. Based on discussions with the County, relocating existing posted speed limit signs is not a feasible option due to Speed Zone Orders adopted by the Oregon Department of Transportation (ODOT). However, due to the challenges of the intersection as a transition from a business area to more rural land use patterns, a more significant treatment at the intersection is warranted to enhance the safety of pedestrians and cyclists as well.

Several intersection alternatives for the Cline Falls Highway and Tumalo Road intersection were considered, including a traffic signal, all-way stop, turn lanes, and a roundabout. Based on discussions with the public, project management team, and Active Transportation Advisory Committee, a roundabout is the preferred alternative due to the safety benefits for both motorized and non-motorized transportation users. In further support of the roundabout alternative, a preliminary analysis of projected safety benefits of each potential intersection alternative was conducted using ODOT’s Crash Reduction Factors (CRFs) from the All Roads Transportation Safety Program. The CRF estimates the projected percent decrease in crashes that would result from converting the existing intersection (side street stop control intersection in a rural area) to a given alternative. For example, a CRF of 82% for a roundabout alternative indicates that converting an intersection that has stop control on the side street (such as the Cline Falls Highway/ Tumalo Road intersection) to a roundabout is expected to reduce the number of crashes at the intersection by 82%. CRFs are often used to

---

quantify safety benefits of an intersection improvement alternative. A summary of CRFs for each of the initial alternatives considered is shown in Table 1.

Table 1. Crash Reduction Factors (CRFs) of Intersection Alternatives

<table>
<thead>
<tr>
<th>Alternative</th>
<th>Crash Reduction Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Way Stop Control</td>
<td>48% for all crashes, all severities</td>
</tr>
<tr>
<td>Traffic Signal</td>
<td>77% for angle crashes, -58% for rear end crashes</td>
</tr>
<tr>
<td>Turn Lanes</td>
<td>37% for all crashes, all severities</td>
</tr>
<tr>
<td>Roundabout</td>
<td>82% for all crashes, all severities</td>
</tr>
</tbody>
</table>

1 A traffic signal would reduce the number of angle crashes by 77% but increase the number of rear-end crashes by 58%.
2 Combined CRF of installing a right turn lane on a single major road approach and a left turn lane on a single major road approach (Cline Falls Hwy). The CRF was calculated using guidance from FHWA and the CMF Clearinghouse.

Kittelison & Associates, Inc. is working with Deschutes County to develop a preliminary roundabout concept at Cline Falls Hwy and Tumalo Road. In the short term, variable speed warning signs or a raised intersection at Cook Avenue and 4th Street may be appropriate interim traffic calming treatments that could be implemented before a more significant treatment is developed.

Enhanced Entry Statement

The Cline Falls Highway and Tumalo Road intersection serves as the northern entry point to the Tumalo business area, which has become a popular spot for locals and visitors to shop and eat over the past few years. In addition to speed control and safety measures at the intersection, a more significant entry statement could signify to vehicles entering from the surrounding rural area that the environment is shifting to a downtown/business area, thus prompting lower speeds. Examples of significant entry statements for nearby communities include roundabout art at Prineville/Tom McCall Road and an archway in Redmond, shown in Figure 2. A similar treatment for Tumalo is suggested as a possible treatment to signify the change in environment for all modes of transportation and provide an opportunity for a public art display that embodies the unique character of the Tumalo community.
Shoulder Widening

The project team received several comments in support of widening the shoulders along Cline Falls Highway and Tumalo Road to enhance safety for bicyclists. Both roadways are popular routes for bicyclists and Tumalo Road is included as a segment in the most current map of the Twin Bridges Scenic Bikeway. Widening the shoulders could reduce vehicle-bicycle conflict on these roadways, which are both rural two-lane highways with vehicles traveling at higher speeds.
Safety and Speed Improvement Recommendations

The Safety and Speed Improvements concept is comprised of the following recommendations shown in Figure 3:

- Intersection improvement at Cline Falls Highway and Tumalo Road (roundabout concept)
- Implement a raised intersection at Cook Avenue and 4th Street as an interim treatment before a more significant improvement is developed
- Implement variable speed warning signs on Cline Falls Highway and Tumalo Road
- Enhanced Entry statement at Cline Falls Hwy/ Tumalo Road as a suggestion to signify a change of setting
- Widen shoulders on Tumalo Road from the Deschutes River bridge to Swalley Road (approx. 1 mile)
- Widen shoulders on Cline Falls Highway from Tumalo Road to Highland Drive

![Figure 3. Safety and Speed Improvement Concept #2: Pedestrian Connectivity](image-url)
Existing pedestrian infrastructure in Tumalo is primarily located on Cook Avenue from 7th Street to 4th Street with some east-west extensions off Cook Avenue on 4th Street towards the school and on 7th Street along The Bite property. Currently, pedestrian infrastructure consists mainly of curbed sidewalks. The planned ODOT US 20/4th Street bike/ped underpass offers an opportunity to develop a more complete pedestrian network that targets better access to the Tumalo Community School and accommodates continued growth of businesses in downtown Tumalo that are starting to expand outside of Cook Avenue. The following gaps are identified as priorities for the improvement of the pedestrian infrastructure in Tumalo.

Bruce Avenue

Bruce Avenue is a north-south roadway that parallels Cook Avenue to the west. Several businesses, Tumalo Community Church, and the west boundary of parking lots for The Bite, Tumalo Country Store, and a commercial area at 5th Street/Cook are located along Bruce Avenue between 7th Street and 4th Street. As business continues to grow in the Tumalo core area and abutting properties are zoned commercial, Bruce Avenue will likely transition to a more developed business corridor like Cook Avenue. Consequently, incorporating Bruce Avenue into the pedestrian infrastructure network will accommodate growing foot traffic throughout the core area. Bruce Avenue connects to the back side of Tumalo Community School at 4th Street and would provide an additional connection to the planned 4th Street underpass. Bruce Avenue is also a viable candidate for a CET stop in Tumalo, as described in the Transit section.

4th Street to Fitness Trail

A connection between the planned US 20/4th Street underpass and the Fit Trail Park on the west side of the school is a feasible addition to the active transportation network in Tumalo (Figure 4). The connection would require paving approximately 200 feet of a dirt path that already connects the Fit Trail Park to 4th Street, which is a welcomed connection for residents that frequent the Fit Trail.
Wharton Avenue

Based on input from public events and the online StoryMap, Wharton Avenue is identified as a roadway in need of sidewalks to accommodate future development in Tumalo. Wharton Avenue is a north-south roadway that parallels Cook Avenue to the east. Today, Wharton Avenue is primarily residential. However, Heritage Brand is constructing a 10,000-square-foot facility on the corner of 7th Street and Wharton Avenue that could bring more foot traffic to Wharton Avenue. Additionally, a river access point is located on Wharton Avenue where it transitions to 4th Street. Like Bruce Avenue, Wharton Avenue will likely see additional development as properties on the west side are zoned commercial and an increased need for pedestrian infrastructure as Tumalo’s main business area continues to grow and expand past Cook Avenue.

Tumalo Walking Loop

There is support from local residents for a formalized 1-2 mile walking loop through Tumalo that would promote physical fitness for residents of all ages. With the construction of the planned 4th Street underpass and US20/Cook roundabout, there are opportunities to incorporate the new infrastructure into a walking loop identified by wayfinding signage. The walking loops would be established using existing infrastructure in addition to new infrastructure that will be developed with the 4th Street Underpass and US20/ Cook Avenue roundabout. Residents also identified the frequent use of makeshift dirt trails to access Tumalo State Park at the southern end of the Tumalo unincorporated community boundary. Based on discussions within the
Advisory Committee, some suggested walking loop routes are identified in Figure 5. Ultimately, any formalized walking route loops will be decided by the community.

Figure 5: Walking loop routes

**Tumalo to Tumalo State Park Trail**

A formalized trail connection to Tumalo State Park from the Tumalo core area has been a recurring topic of discussion in the community over the past two decades. A few years ago, the County received a grant from the state to further explore the possible connection. However, the idea was shut down by the State Historic Preservation Office (SHPO) due to the presence of artifacts. The forthcoming update to the Tumalo Community Plan has revived discussions about the potential trail connection. The proposed trail connection would likely utilize existing makeshift trails along Riverview Avenue in southwest Tumalo that connect to State Park via an undercrossing at US20. Based on input through several public outreach events, support for the proposed trail is divided amongst community members. Those against the proposed trail expressed concerns about a trailhead located in the residential area along Riverview Avenue. Trails that pass through County-administered land or private property in unincorporated areas must go through County land use review and approval processes. Trails that pass through Tumalo State Park will need to be approved by
Oregon State Parks. Trails that pass through or along ODOT rights-of-way will need to be approved by the ODOT.

Based on the recommendation of the Advisory Committee, a Tumalo to Tumalo State Park Trail connection is included in this Final Concept Plan. However, due to the mixed support from the community, future planning efforts including additional community engagement would be necessary prior to identifying a final alignment and initiating local, state, or federal approvals.

Pedestrian Connectivity Recommendations

The Safety and Speed Improvements concept is comprised of the following recommendations shown in Figure 6:

- Sidewalk on both sides of Bruce Avenue. For project prioritization purposes, sidewalk should be prioritized on the east side if funds are limited.
- Walkway/multi-use path on west side of Wharton Avenue.
- Continuation of pedestrian facilities north of 4th Street to 2nd Street on both sides (to tie into selected improvement at Cline Falls Hwy/Tumalo Road).
- Wayfinding for a walking loop in Tumalo.
- Consider opportunities to develop a trail from Tumalo to Tumalo State Park (though much of the trail would be outside of the Tumalo unincorporated community boundaries)
Figure 6. Pedestrian Connectivity Concepts
TRANSIT

CET has identified a stop in Tumalo as a new addition to Route 29 as part of the 2040 Master Plan. At the public event, several residents expressed concerns about locating a stop near the school. With those concerns in mind, the following locations are under initial consideration. Ultimately, the location will be decided by CET. The CET vehicle for this new connection in Tumalo would be a Ford Transit van, which has a maximum capacity of 8 people. Additionally, the CET stop must be ADA accessible and connect to a sidewalk network.

Bruce Avenue Stop

The east side of Bruce Avenue between 7th Street and the Tumalo Community Church has been identified as a viable location for a CET stop due to its proximity to downtown Tumalo. This stop would be located behind the parking lot for The Bite which is a primarily commercial area of town. A stop on Bruce Avenue would necessitate the construction of sidewalks on the east side of the street before the development of the stop.

Country Store (5th Street) Stop

The Tumalo Country Store is identified as a potential interim location for a CET stop before pedestrian facilities on Bruce Avenue are improved. CET has partnered with Country Stores in the past and is in favor of locating a stop where drivers can access a restroom and food.

Transit Recommendations

Both the Bruce Avenue and 5th Street stops are viable options for a CET stop in Tumalo, as shown in Figure 7. Ultimately, the location of the stop will be decided by CET.
Figure 7. Transit stop recommended locations
StoryMap Comments Summary

A summary of the StoryMap comments is shown in Table 2.

<tr>
<td>2</td>
<td>Is it possible to improve ped facilities on the Tumalo Bridge to get across the Deschutes River? Add a ped walkway to the outside of the existing structure on either both sides or one side?</td>
<td>2</td>
</tr>
<tr>
<td>3</td>
<td>As traffic increases on Cook, should Wharton receive more bike/ped amenities as a parallel alternate route to Cook?</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td><strong>Reply:</strong> There absolutely needs to be additional alternatives to get through town. Traffic on Cook has increased tremendously and bikes aren’t safe on the road. (3 likes)</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Where practical, widen shoulders on Tumalo Road between Putnam/Tumalo Road and Cline Falls Hwy/Tumalo Road intersections</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td><strong>Reply:</strong> Immediately after the bridge on Tumalo road there are about 3 main neighborhoods where people use Tumalo road to walk towards town. There isn’t a great shoulder for pedestrians or bikes so the walk is pretty dangerous. Would be great to have wider shoulders and more accessible walking conditions (i.e. flatter). (1 like)</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>Any safety improvements to this busy intersection would be great. RAB is the best option in my opinion.</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Reply:</strong> need electronic speed control...by the time they reach this intersection they are speeding up Cline falls road or Tumalo road, I believe this road is not designed for this much traffic...We need a bi-pass away from downtown Tumalo</td>
<td></td>
</tr>
<tr>
<td>6</td>
<td>If Bruce Rd is to house a future transit stop, it will be critical to ensure that the stop is connected to the sidewalk network. It may be a good idea to include sidewalk improvements to Bruce in your plan.</td>
<td>1</td>
</tr>
<tr>
<td>7</td>
<td>This stretch of Cline Falls is very close to the river and it would be good to see active measures taken to prevent road pollution from entering the waterway. Aside from exhaust, oil, grease, and trash, tire fragments have been shown to make their way to the water in high concentrations.</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>Ideally the road could be moved away from the river.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Reply:</strong> The noise pollution on this road as people speed up the hill is also out of control. Would be ideal to have stronger speed enforcement around this corner. It’s also very dangerous for the wildlife crossing here - which happens very often - because people are just flooring it as soon as they get out of town.</td>
<td></td>
</tr>
<tr>
<td>8</td>
<td>The speed limit jumps from 25 to 40 here when heading east. Cars are approaching the bridge from the west at 40 mph. There are often pedestrians on the bridge, or on the northwest side of the river with little protection. There is a house east of the sign that is only 30 feet from the road and on the curve. There are several other houses that are not setback too far from the road further to the east.</td>
<td>2</td>
</tr>
<tr>

<td>---</td>
<td></td>
</tr>
<tr>
<td><strong>Reply:</strong> I agree with this.</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>13</td>
<td>Great idea to have a bus stop in Tumalo for Route 29. Please consider a small covered and safe bus stop station either at 4th St near the pedestrian underpass and/or at the Cline Falls/Hwy20 round about. <strong>Reply:</strong> The risks associated with homeless people getting access to our town far outweigh the benefits for the couple of people in Tumalo who would make use of public transport. It is essential that the consultant run a cost versus benefit analysis on any such investments.</td>
<td></td>
</tr>
<tr>
<td>14</td>
<td>Large commercial building (Heritage Brand) is nearing completion on corner of 7th and Wharton. It appears there will be several driveway entries for this business. As a result, traffic will increase on 7th Street, on Wharton Ave., and on Cook Avenue. Please consider sidewalk needs on 7th and on Wharton.</td>
<td></td>
</tr>
<tr>
<td>15</td>
<td>I see only one proposed pedestrian path (providing sidewalks) that will cross Cook Ave. And that is the one marked at 8th Street. 8th Street is only a few car lengths off of Hwy. 20; and with the Hwy 20 round-about, I question crossing safety. Especially for children who walk or ride bikes to school. Cook Ave. (at any intersection) can be difficult to cross for pedestrians and bikers.</td>
<td></td>
</tr>
<tr>
<td>17</td>
<td>Please complete continuous sidewalk son Cook Ave. from Tumalo Road to the QB Riley Rd/HWY 20 round about.</td>
<td></td>
</tr>
<tr>
<td>18</td>
<td>Please add bike lanes to Tumalo Road between Cline Falls and the community boundary.</td>
<td></td>
</tr>
<tr>
<td>19</td>
<td>Public trail access along the Deschutes, connecting to the street ends (Pine, Fir, etc.) would enhance the rural village feel of Tumalo. Please add trail access to the west side of the river within the community boundary.</td>
<td></td>
</tr>
<tr>
<td>21</td>
<td>County nor consultant seem to understand that most of the 'bicycling' actually consists of amateur cyclists using the farm roads outside of Tumalo unincorporated. It’s not people on eBikes getting their lunch at a food cart. The real issue to be addressed is coexistence between cyclist and farm equipment on rural roads.</td>
<td></td>
</tr>
<tr>
<td>22</td>
<td>Highly congested with parked vehicles from river rafters. Congestion causes blind spots (ie: difficult crossing and pull-out) for vehicles, bicycles, and cars.</td>
<td></td>
</tr>

<th>Response</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>I don't like this</td>
<td>A roundabout at tumalo road is not needed, a 3 way stop would be more than adequate, and utilize the tax payers money much better. A raised intersection isn’t necessary either the stop at tumalo road would take care of this as well. Your roundabout plan would cause all traffic to go through the front lawn of two homes, are they ok with this? Pretty sure no one asked them.</td>
</tr>
<tr>
<td>2</td>
<td>I like this</td>
<td>I would like to see the speed limit reduced to 25 MPH for the first 2 tenths of a mile past the river while heading east on Tumalo road. There is housing density and activity for almost a quarter of a mile there. It would be even better if there was some law enforcement to support the speed limit already in place. Currently 40 MPH</td>
</tr>
<tr>
<td>3</td>
<td>I don't like this</td>
<td>I dont agree that a roundabout is the best solution for the TumaloRd/Cline Falls intersection. Most roundabouts in Bend are already obsolete by the time they are built and put into use. Also, they are expensive and will encroach on residential properties. A roundabout should be a LAST resort -- after all other means of controlling traffic there have been exhausted. How about a 3 way stop, or traffic light? Other options deserve to be explored!</td>
</tr>
<tr>
<td>4</td>
<td>I like this</td>
<td>I live off Swalley so having a roundabout at Tumalo and Cline falls Highway would be a great benefit as cars come fast from both directions and the back-up wait is getting worse. With all the bicyclists would be nice to have shoulders on Swalley as well. Slowing cars down on Cook through downtown with better crosswalks is an excellent idea. With Knife River and other similar rock companies in area the amount of rocks thrown from these trucks onto many of the roads in Tumalo is unbelievable. The new roundabouts are only going to make this worse. As a daily on-road motorcyclist I have almost gone down three times from hitting a patch of lose</td>
</tr>
<tr>
<td></td>
<td></td>
<td>gravel. Please do something about better street cleaning and start charging these companies a surcharge for this or have them coverer their loads. My calls about this issue fall on deaf ears.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>5</td>
<td>I like this</td>
<td>I like the idea of the raised intersection; the ones I've encountered seem effective, and it's a minimal modification. I'm skeptical of an enhanced entry - I feel like that's been tried with the granite Tumalo sign at the Cook/Tumalo Ave. intersection, and at least 2 people have run right into it! I'd rather not see a grand entry like the Prineville or Redmond examples - that seems too grand for Tumalo. There are so many changes coming - it'd be nice to retain Tumalo's humble character. I used to be an avid cyclist in Portland, and to this day I'd feel more comfortable riding in traffic there than I do on the scenic bikeway in Tumalo. Traffic simply moves too fast all along Cline Falls Hwy, much further than a wide shoulder is proposed. I don't think the shoulder will do anything to slow speeds or cure the aggressive drivers who seem to not want to share the road. Having a few extra feet of space would not make me feel any safer, or markedly change my reluctance to ride. I live on the bikeway and find this really unfortunate.</td>
</tr>
<tr>
<td>6</td>
<td>-</td>
<td>I have lived in Tumalo on 7th Street for 36 years. Mule deer have migrated through the proposed new roundabout area forever. I think a couple deer crossing signs are needed in this area if no signs are in the area yet when the new roundabout goes in this December. Regards, Jim Mooers [Submitted via email – not part of open house comments]</td>

</tr>
</thead>
<tbody>
<tr>
<td>7</td>
<td>I don't like this</td>
<td>I agree sidewalks need to be improved in town. But the trail connection to the State park is asinine! Have you considered the effects of this &quot;walkway&quot; to the residents on 4th street and the school? including: light pollution, invitation to homeless to sleep in the tunnel, and a general increase in foot traffic in front of all those folk's homes and the school? Seems like the trail could be moved close to the river -- Adjacent to the Antique store just South of Cook Ave.</td>
</tr>
<tr>

<td>Page 9</td>
<td>I don’t like this</td>
<td>I oppose the pedestrian trail running the length of Riverview Avenue -- which in the map is the north-south (vertical) dotted line between Fir and Birch Lanes. Riverview Avenue is a private, unimproved road that homeowners and nearby property owners already have to deal with wear-and-tear issues such as dust and pothole problems. Again, Riverview is NOT a public road -- how can a trail be established on private property?</td>
</tr>
<tr>

</tr>
<tr>
<td>Page 10</td>
<td>I like this</td>
<td>Support this!</td>
</tr>
<tr>
<td>Page 11</td>
<td>-</td>
<td>Regarding a trail connection to Tumalo State Park, several years ago a similar plan was overwhelmingly rejected by the neighborhoods on streets connected to Riverview Drive. That plan included a trailhead West of the river and north of the Hwy 20 bridge. I personally canvassed the neighborhood collecting signatures against. These were provided to Anthony Raguine and, consequently, the plan was abandoned. Re-writing the trail connection effort will still bring folks driving to the pathway and parking in our neighborhood. Be SURE to include road improvements, parking, security and sanitary considerations with any trail connection thoughts, and then still plan for an overwhelming push-back from the neighborhood.</td>
</tr>
<tr>
<td>Page 12</td>
<td>-</td>
<td>The trail connection should be a real trail. Not too sure about the sidewalk on Wharton Avenue..... At least enough room to walk on. Another issue I have that I want this to get to the right people.......Tumalo is a small community and we need to route all the very large trucks..(.like knife river trucks) bypass this town. They all need to be on the big hwys not driving down our small town pass small houses. I come from the Portland area and I have not seen anything like it..... Thx  Larry</td>
</tr>
<tr>
<td>Page 13</td>
<td>I like this</td>
<td>Connectivity to Tumalo State Park will be nice.</td>
</tr>
<tr>
<td>Page 14</td>
<td>I like this</td>
<td>Looks great. Downtown Tumalo needs a park as this community is underserved for parks in Bend. Having these pedestrian trails connect to a park in downtown would be ideal.</td>
</tr>
<tr>
<td>Page 15</td>
<td>I like this</td>
<td>I am all for accessibility and sidewalks. I would love to see sidewalks continued up Cline Falls so that folks who live less than a mile from Tumalo didn’t have to drive to the Bite! I am concerned that a walkway on Wharton, past a popular river access point at 4th and Wharton, and then again by the Hwy 20 bridge might bring undesirable impacts on the riverbank and the river itself. The informal parking area at Cook Ave. and Tumalo Ave. is overused, dangerous for drivers and pedestrians, and is a disaster for the riverbank and the riparian area alongside. Is there any work being done to mitigate the impacts of creating access to a part of the river that will see an increase of traffic?</td>
</tr>
<tr>
<td></td>
<td>I would also love to be able to walk to Tumalo State Park from its namesake town, but my above concerns apply here, as well.</td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td></td>
</tr>
<tr>
<td><strong>Transit Concept</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>16</td>
<td>I don't like this</td>
<td>From the people who I have talked to about this, only 3 out of 79 thought this was a good idea. That is only 3.7%. This shows me that a transit stop is not necessary for Tumalo. This would cause a much larger carbon footprint than we currently have.</td>
</tr>
<tr>
<td>17</td>
<td>I don't like this</td>
<td>I STRONGLY oppose a transit stop in Tumalo. And I am not sure why Tumalo would need one -- it is not really a &quot;destination&quot; for shopping or services. You are inviting trouble into this tiny rural hamlet. Mass transit will bring homeless, drugs, and crime. My experiences in Bend with Hawthorne station have been horrific! I was assaulted by a homeless man while walking my young children to Juniper, and refuse to shop in that area due to it being unsafe, presence of drug paraphernalia, theft, violence, and loitering of unsavory characters. This is NOT wanted or needed in Tumalo!</td>
</tr>
<tr>
<td>18</td>
<td>I don't like this</td>
<td>I don't see the need for this.</td>
</tr>
<tr>
<td>19</td>
<td>I like this</td>
<td>I think it's important to have transit in Tumalo, either location seems fine -- Country Store and gas station is currently super congested as it is, so maybe Bruce?</td>
</tr>
<tr>
<td>20</td>
<td>I don't like this</td>
<td>No transit bus stops in Tumalo. I do not believe these are necessary and will only invite homeless people to Tumalo.</td>
</tr>
<tr>
<td>21</td>
<td>I like this</td>
<td>Either location. Needs to include parking.</td>
</tr>
<tr>
<td>22</td>
<td>I like this</td>
<td>I'm happy to have transit at all! Seems like the Bruce Ave. option might be better in terms of not disrupting the flow of traffic within Tumalo - there's less traffic on Bruce Ave, while the 5th St/Cook Ave intersection sees quite a bit of turning traffic, both for the gas station and due to 5th ave being the safer street from which to make a left turn onto Hwy 20. I know the left turn issue will be resolved by a roundabout, but it seems like the gas station traffic might be snarled by having a close bus stop.</td>
</tr>
<tr>
<td>23</td>
<td>I don't like this</td>
<td>Tumalo doesn't really have a draw for Transit. Those that live here have cars to go to town for groceries and socialization. A bus transit stop would bring transient persons into town. We are so small we don't have the infrastructure to care for those individuals. We also don't need transients hanging around town with our children at the school so close. Nor do we need to foster any ideas of a houseless camp in Tumalo on any private or public land.</td>
</tr>

TCP Active Transportation Update/ SCVAP Trails Outreach Update - Adoption
MEMORANDUM

Date: Tuesday, January 31, 2023

To: Peter Russell, Nicole Mardell, and Tarik Rawlins, Deschutes County
    Devin Hearing, ODOT

From: Karen Swirsky and Katie Popp, Kittelson and Associates, Inc.
      Brandon Crawford and Matt Hastie, MIG | APG

Subject: TCP Active Transportation Update and SCVAP Trails Expansion Outreach – Implementation Measures (Deschutes County Code)

INTRODUCTION

This memo provides proposed amendments to the Deschutes County Code (DCC) to support implementation of the Tumalo Community Plan (TCP) Active Transportation Update and the Sisters Country Vision Action Plan (SCVAP) Trails Expansion project.

The proposed amendments are a result of a thorough review of Oregon county and state codes, design standards, and active transportation guidance that aligns with the context of Tumalo and Sisters Country. The reviewed documents include:

- Hood River County Bicycle Plan (2010)
- Clackamas County Active Transportation Plan (2015)
- Lane County Bicycle Master Plan (2022)
- Washington County Road Design and Construction Standards (2011)

Proposed Amendments to the Deschutes County Code (DCC)

The County may consider amendments to the Minimum Road Design Standards (DCC 17.48 Table A) and the Minimum Bikeway Design Standards (DCC 17.48 Table) to support implementation of the TCP Active Transportation Update and Sisters Country Vision Action Plan (SCVAP) Trails Expansion project. The proposed amendments as a result of the outcomes of both projects are discussed in this section.
Tumalo Community Plan (TCP) Active Transportation Update

The proposed amendments associated with the outcomes of the TCP Active Transportation Update support the ongoing effort to develop a safe, livable, and connected active transportation network in the growing Tumalo unincorporated community. Based on outcomes from the project and a review of state and county design guidance, amendments to both Table A (Minimum Road Design Standards) and Table B (Minimum Bikeway Design Standards) are proposed. Proposed deletions are shown in strikeout and additions are shown in underline.

Proposed amendments for the Tumalo section of DCC 17.48 Table A:

1. Update the Tumalo Incorporated Community section of DCC 17.48 Table A to include guidance specific to arterials. Based on the Deschutes County “Roads Under Deschutes County Jurisdiction” document updated in September 2022, both Cook Avenue from Cline Falls Highway to US20 and Cline Falls Highway from the northern Tumalo – UGB boundary to Tumalo Road are designated urban arterials.

2. Update the minimum paved with of Path/Trail to 10 feet for paved paths. Add language that defines the minimum separation from roadways for both trails and paths as 2 feet. Remove language about an 8’ minimum paved path from footnote (23), shown with the strikeout text below.
   a. (23) The minimum width is 8 ft. However, 8 ft. wide multi-use paths are not recommended in most situations because they may become overcrowded. They should only be constructed as short connectors, or where long-term usage is expected to be low, and with proper horizontal and vertical alignment to assure good sight distances. 10 ft is the standard width for a two-way multi-use path but they should be 12 ft wide in areas with high mixed-use. Optimum use should be based on the relative use by cyclists and pedestrians. High use by skaters may also require greater width.

The proposed DCC 17.48 Table B (Minimum Bikeway Standards) amendments support the implementation of both the TCP Active Transportation Plan Update and the SCVAP Trails Expansion Outreach project and are shown in 17.48 Table (after the “SCVAP Trails Expansion Outreach” section).

SCVAP Trails Expansion Outreach

The County should consider updates to the County Bikeway Design Standards (DCC 17.48 Table B Minimum Bikeway Design Standards) to support implementation of proposed trails in Sisters Country and the rest of the County. Given the relatively large portion of Forest Service land in the region, the County should consider adopting trail/bikeway design standards and guidelines that are consistent with US Forest Service Standard Trail Plans and Specifications to help ensure consistent trail designs and dimensions.1

18.48.140 Bikeways

E. Mountain Bike Trails.

1. Mountain bike (dirt or other unpaved surface) trails may be used as recreational or interim transportation facilities.

2. Trails used for transportation shall have a two-foot minimum tread width and a six-foot minimum clearing width centered over the trail, and a minimum overhead clearance of seven feet. Trails used solely for recreational use may be narrower with less clearing of vegetation.

3. Trail design specifications are encouraged to follow USDA Forest Service Standard Trail Plans and Specifications to ensure a consistent and coherent bike trail network between County and Forest Service lands throughout Deschutes County.

<td>Same as parent roadway</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Note: A.C. is asphalt-concrete

10 ft is the standard width for a two-way multiuse path; they should be 12 ft wide in areas with high mixed-use. Faster moving bicyclists require greater width than pedestrians; optimum width should be based on the relative use by these two modes. High use by skaters may also require greater width. The minimum width is 8 ft. However, 8 ft. wide multiuse paths are not recommended in most situations because they may become overcrowded. They should only be constructed as short connectors, or where long term usage is expected to be low, and with proper horizontal and vertical alignment to assure good sight distances.

2 Mountain bike trails and other trails may follow the design specifications of the US Forest Service Standard Trail Plans and Specifications in lieu of County standards. In some cases, US Forest Service standards may be required where trails span County and Forest Service land.
MEMORANDUM

Date: Tuesday, January 31, 2023

Subject: TCP Active Transportation Update and SCVAP Trails Expansion Outreach – Implementation Measures (Deschutes County TSP)

INTRODUCTION

This memo provides recommendations for implementing the Sisters Country Vision Action Plan (SCVAP) Trails Expansion Concept Plan and the Tumalo Community Plan (TCP) Active Transportation Final Concept into the Deschutes County Transportation Systems Plan (TSP). The County is currently updating its TSP, and updated goals, policies, and projects should consider the proposed trails and recommendations from both the SCVAP and TCP Active Transportation Concept Plans.

TSP COORDINATION

SCVAP Trails Expansion Outreach

In early 2022, Deschutes County received a Transportation and Growth Management Grant to implement Action 4.1 of the Sisters Country Vision Action Plan\(^1\). The strategy reads:

**Livable Sisters Strategy 4 Action 4.1 (Trails Expansion Outreach)**

"Conduct community outreach to gain input for trail connections between Sisters and Sisters Country."

Community engagement and outreach was conducted via an online open house and survey that was designed to gather input on Sisters Country trail needs and to solicit feedback on conceptually proposed

trails. The open house and survey collected 83 comments. A stakeholder advisory committee\textsuperscript{2} was also formed to help inform and guide trail proposal recommendations over 3 meetings. Stakeholder advisory committee and community involvement helped inform the Sisters Country Trails Expansion Concept Plan.

TSP Adoption Recommendations

Proposed trails will be identified in the TSP in the form of a Sisters subarea trails map showing potential alignments (Figure 1\textsuperscript{3}).

In addition to the proposed trails, the County may consider adopting policies based on the outcomes of this project. This could be done by incorporating those findings directly into a section of the TSP devoted to this topic or the Concept Plan could be cited in the TSP as a supporting document and potentially included as an appendix or exhibit to the TSP. Specific policy recommendations for incorporation in the TSP include the following:

- Consider input from regional non-motorized trails advocacy organizations, such as the STA, COTA, and OET regarding new trails, trail connections, and trail improvements.
- Provide trails that are safe and accessible for bicyclists, pedestrians, and equestrian users.
- Support trail connections to the County’s regional services and amenities.
- Support a trail system that includes trails that are accessible to all users and abilities.
- Coordinate with neighboring counties and other jurisdictions on inter-county or inter-jurisdictional trails.

\textsuperscript{2} The advisory committee included representatives from the following entities: BOC, US Forest Services, City of Sisters, ODOT, Deschutes County, BPAC, Equestrian Board, Sisters Trails Alliance, COTA, and Sisters District, among other community representatives.

\textsuperscript{3} Note this map is only for reference. The adopted regional trails map for the TSP will be in a different format.
Figure 1: Sisters Trails System
Tumalo Community Plan (TCP) Active Transportation Update

Over the past decade, the Tumalo unincorporated community has seen significant growth in its core area, including several new businesses, restaurants, and other amenities. As a result of this growth, Deschutes County is currently going through the process of updating the 2010-2030 Tumalo Community Plan (TCP) to 2020-2040. The County received a Transportation Grant Management (TGM) from the State, of which a portion is dedicated to updating the active transportation element (bike/ped/transit) of the Tumalo Community Plan.

Two public engagement opportunities and discussions with the TCP Active Transportation Advisory committee informed the Final Concept Plan, which established recommendations for sidewalk, trail, traffic calming, and bicycle improvements in Tumalo. The Final Concept Plan will be identified in the TSP in the form of a Tumalo area map showing proposed improvements to active transportation facilities in Tumalo, shown in Figure 2.

TSP Adoption Recommendations

The project team does not recommend any additional recommendations beyond Figure 2 to incorporate into the TSP as a result of this project.

---

5 Note this map is only for reference. The adopted regional trails map for the TSP will be in a different format.
Figure 2: TCP Active Transportation Update Final Concept
The Tumalo Community Plan (TCP) Active Transportation Update project focuses on planning efforts for the Active Transportation component of the 2040 Tumalo Community Plan (TCP). Over the past two decades, there have been significant changes in and around Tumalo that have galvanized the transition of the Tumalo core into an active community center. These changes have warranted an update to the Active Transportation element of the Tumalo Community Plan (TCP) to support the growth of a vibrant, livable community with increased transportation choices, including to bicycling, walking, and transit.

**Key Elements**

- Review state, regional, and local plans regarding active transportation (bicycle, pedestrian, and transit) for relevant goals, policies, and objectives.
- Identify context sensitive projects related to Safety and Speed Improvements, Pedestrian Connectivity, and Transit to address existing gaps and deficiencies in the active transportation network in Tumalo.

**Outreach and Public Involvement**

Public involvement and outreach for the TCP Active Transportation Update project included the following:

1. Tumalo Active Transportation Walking Tour (Wednesday, June 8th, 2022)
2. Interactive Virtual StoryMap (June 8th – July 13th, 2022)
3. Virtual open house (October 5th- 24th, 2022)

The Tumalo Community Plan Open House, walking tour, and interactive StoryMap supported the development of the Initial Concept Plan. The Initial Concept Plan was then presented in the virtual open house, which gave the public the opportunity to comment on the initial plan and provide any additional feedback to be included in the development of the Final Concept Plan.

In addition to the three public events that were specifically created to receive public input on the Tumalo Active Transportation Plan update, Deschutes County held an Open House for the entire Tumalo Community Plan Update on Wednesday, May 11th, 2022. The Open House included a table introducing the Active Transportation plan update.

The TCP Active Transportation Advisory Committee also met four times throughout the project. The Committee consisted of community, regional, and State agencies with local and technical expertise related to active transportation in Tumalo. Some of the interests represented included school districts, local businesses, bicycle and pedestrian advocates, and County and State agencies. Committee members were responsible for reviewing and providing input on various elements of the project.
Project Overview

The Tumalo Community Plan (TCP) Active Transportation Update project focuses on planning efforts for the Active Transportation component of the 2040 Tumalo Community Plan (TCP). Over the past two decades, there have been significant changes in and around Tumalo that have contributed to the transition of the Tumalo core into an active community center. These changes have warranted an update to the Active Transportation element of the Tumalo Community Plan (TCP) to support the growth of a vibrant, livable community with increased active transportation choices including bicycling, walking, and transit.

Project Outcomes

- Reviewed state, regional, and local plans regarding active transportation (bicycle, pedestrian, and transit) for relevant goals, policies, and objectives.
- Provided multiple opportunities for public engagement and involvement, including virtual and in-person engagement opportunities.
- Developed a Final Concept Plan that identifies context sensitive projects related to Safety and Speed Improvements, Pedestrian Connectivity, and Transit to address existing gaps and deficiencies in the active transportation network in Tumalo.
- Provided materials and exhibits for amendments to the Tumalo Community Plan (TCP) and County Transportation System Plan (TSP) to implement the suggested recommendations for active transportation.

Outreach and Public Involvement

Public involvement and outreach for the TCP Active Transportation Update project included the following:

1. Tumalo Active Transportation Walking Tour (Wednesday, June 8th, 2022)
2. Interactive Virtual StoryMap (June 8th – July 13th, 2022)
3. Virtual open house (October 5th- 24th, 2022)

In addition to the three public events that were specifically created to receive public input on the Tumalo Active Transportation Plan update, Deschutes County held an Open House for the entire Tumalo Community Plan Update on Wednesday, May 11th, 2022. The Open House included a table introducing the Active Transportation plan update.

The TCP Active Transportation Advisory Committee also met four times throughout the project. The Committee consisted of community, regional, and State agencies with local and technical expertise related to active transportation in Tumalo. The interests represented included residents, school districts, local businesses, bicycle and pedestrian advocates, and County and State agencies. Committee members were responsible for reviewing and providing input on various elements of the project.

What’s Next?

The County will consider adopting the revised Active Transportation Elements map as part of the County Transportation Plan Update, with adoption expected the spring of 2023.
