- A** Total disposal fee projections reflect management's best estimate of revenues to be collected. Fiscal YTD disposal tons are running ~5% greater than last year-to-date with a larger than budgeted influx of commercial waste. Franchise disposal fee payments of \$951K were not received from Republic Services (Bend Garbage, High Country, Wilderness) and Cascade Disposal by closing.
- B** Annual fees due April 15, 2026; received monthly installments from Republic.
- C** Yard Debris revenue is seasonal with higher utilization in summer months; fiscal YTD volumes are running ~28% higher than last year-to-date.
- D** State Grants funding for the Recycling Modernization Act (RMA) CAA year one Contamination Reduction Program is projected to be higher than budget.
- E** Investment Income projected to come in higher than budget.
- F** Special Waste revenue source is unpredictable and dependent on special clean-up projects; fiscal YTD is running higher than budget for contaminated soil and commercial hazardous waste.
- G** Recyclables revenue is positively impacted by larger than anticipated battery proceeds and projected RMA CAA glass funding.
- H** Local Grants include remaining funds for the Bend EventCycle Solutions grant.

- A** Reflects a 1% increase to departments.
- B** Budget estimate is based on claims which are difficult to predict.
- C** Deschutes County Administrative Policy No. F-13 sets forth the appropriate level of reserves. The reserve is comprised of two parts: 1) Claims Reserve at 1.5 times the valuation amount, and 2) Contingency Reserve at 150% of the value of the Claims Reserve. The level of reserve is set at \$8 million (\$3.2 million claim reserve and \$4.8 million contingency reserve requirements). The reserve requirement amount should be compared to the Total Fund Balance amount in this report.

**Wallowa County Wolf Policy
2026
Submitted Wolf Resolution**

A resolution of Wallowa County establishing a wolf policy for wolf management such that it will protect the wildlife populations at a level that hunting will continue to be optimal and to minimize wolf/livestock conflict and to set maximum management objectives for wolves.

Whereas, the agricultural industry is an important component of the Wallowa County economy and, wolves are having a negative effect on the economics of ranches and the livestock industry; and

Whereas, hunting is a significant component of the Wallowa County custom, culture and food, as well as the economy, and wolves are having a significant effect on elk, deer, and moose populations; and

Whereas, the Wildlife Policy in state law (ORS496.012) and the Oregon Wolf Conservation and Management Plan directs the Oregon Department of Fish and Wildlife (ODFW) *to manage wildlife populations at optimum levels and in a manner consistent with the primary uses of the lands and waters of the state;* and

Whereas, the Wildlife Policy in state law (ORS 610.055) and the Oregon Conservation and Management Plan directs ODFW *that appropriate measures must be taken to assist farmers, ranchers and others in resolving wildlife damage, and that federal, state, county and local government should cooperate in efforts to control wildlife damage;* and

Whereas, the Oregon Wolf Conservation and Management Plan states that ODFW will *effectively address wolf-livestock conflict at a variety of scales, from industry-wide to individual producers;* and

Whereas, the wolf population has created constant conflict in Wallowa County, it is critical to reduce the known number to significantly reduce both livestock depredation and big game predation. The ODFW most recent minimum count was 67 with at least 11 packs within Wallowa County – which is an unacceptably high number; and

Whereas the professional survey conducted of Wallowa County citizens, recently done by the Hoffman Research Group, shows that 62% want no wolves and 22% want less than 25 and 77% felt that wolves had a negative impact on Wallowa Counties social and economic wellbeing; and

Whereas the same survey showed that 68% felt that wolves have reduced hunting opportunities and 77% believe that hunting is an appropriate way to manage wolf populations; and

Whereas, high numbers of wolves in large packs are saturating the county which causes increased wolf depredations on rancher’s livestock causing economic and social devastation to our ranchers; and

Whereas, elk currently number approximately 12,000 animals (down from 26,000 elk in the early 1990’s) which is below the ODFW’s Management objectives in most units; and

Whereas, Wallowa County has exceeded a compatible population of wolves, costing ranchers livestock losses, adding to the decline of our wildlife herds and forcing our citizens to change their customary way of living our lives due to the risk of wolf attacks on livestock, working dogs, and other pets;

Be it resolved Wallowa County Wolf Policy is that the wolf population in Wallowa County not exceed 25 wolves, and wolf management move aggressively to reduce the current population to that level as soon as possible; and

Be it further resolved that Wallowa County wolf policy emphasize wolf presence be centered in areas where “wolves can live with minimal conflict” considering:

- The presence of active grazing, regardless of whether it is on private or public lands, owned or leased
- The presence of residences where people live either permanently or seasonally
- Area needs to be large enough for wolves to be able to live, hunt, and thrive with minimal interactions with domestic livestock or people
- At a population level in balance with the prey base; and

Be it further resolved that Wallowa County encourages wolf management to proactively manage pack size to be 6 or less, reducing the risk of depredations and wildlife impact on predator-prey balance; and

Be it further resolved that Wallowa County supports lethal control of wolves when wolves become a threat to human health and safety, or when wolves take game populations below management objective levels or when wolves become depredators of livestock; and

Be it further resolved that the ODFW normalize wolves and begin developing a proactive management plan with management units and management objectives; and

Be it further resolved that Wallowa County supports efforts that will remove the wolves in Oregon from all Endangered Species Act listings, as either threatened or endangered, whether it be state or federal; and

Be it further resolved that Wallowa County supports research and management activities that will increase knowledge needed to better manage wolves in Oregon, and the County fully supports a pilot program to test the reduction of depredation (livestock) and predation (big game) in targeted areas within suited wildlife management units – utilizing public hunting and trapping as management tools; and

Therefore, be it further resolved ODFW coordinate with Wallowa County to fully implement existing rules and policies which protect the ranching community and hunting resources by acting quickly and decisively to follow the Oregon Wolf Conservation and Management Plan.
