

BOARD OF COMMISSIONERS MEETING

1:00 PM, MONDAY, JUNE 06, 2022 Barnes Sawyer Rooms - Deschutes Services Bldg - 1300 NW Wall St – Bend (541) 388-6570 | www.deschutes.org

AGENDA

MEETING FORMAT: The Oregon legislature passed House Bill (HB) 2560, which requires that public meetings be accessible remotely, effective on January 1, 2022, with the exception of executive sessions. Public bodies must provide the public an opportunity to access and attend public meetings by phone, video, or other virtual means. Additionally, when in-person testimony, either oral or written is allowed at the meeting, then testimony must also be allowed electronically via, phone, video, email, or other electronic/virtual means.

Attendance/Participation options are described above. Members of the public may still view the BOCC meetings/hearings in real time via the Public Meeting Portal at www.deschutes.org/meetings

Citizen Input: Citizen Input is invited in order to provide the public with an opportunity to comment on any meeting topic that is not on the current agenda. Citizen Input is provided by submitting an email to: citizeninput@deschutes.org or by leaving a voice message at 541-385-1734. Citizen input received by noon on Tuesday will be included in the Citizen Input meeting record for topics that are not included on the Wednesday agenda.

Zoom Meeting Information: Staff and citizens that are presenting agenda items to the Board for consideration or who are planning to testify in a scheduled public hearing may participate via Zoom meeting. The Zoom meeting id and password will be included in either the public hearing materials or through a meeting invite once your agenda item has been included on the agenda. Upon entering the Zoom meeting, you will automatically be placed on hold and in the waiting room. Once you are ready to present your agenda item, you will be unmuted and placed in the spotlight for your presentation. If you are providing testimony during a hearing, you will be placed in the waiting room until the time of testimony, staff will announce your name and unmute your connection to be invited for testimony. Detailed instructions will be included in the public hearing materials and will be announced at the outset of the public hearing.

For Public Hearings, the link to the Zoom meeting will be posted in the Public Hearing Notice as well as posted on the Deschutes County website at https://www.deschutes.org/bcc/page/public-hearing-notices.

MEMORANDUM

DATE: May 13, 2022

TO: Board of County Commissioners

FROM: Wayne Lowry, Interim Chief Financial Officer

SUBJECT: Treasury and Finance Report for April 2022

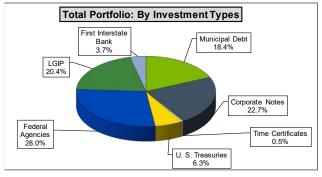

Following is the unaudited monthly finance report for fiscal year to date April 30, 2022.

Treasury and Investments

- The portfolio balance at the end of April was \$269.1 million, a decrease of ~\$9 million from March and an increase of \$30 million from last year (April 2021)
- Net investment income for the month is \$126,919 approximately \$7,000 more than last month and \$39,000 less than April 2021. YTD earnings of \$1,289,814 are \$744,800 less than the YTD earnings last year.
- All portfolio category balances are within policy limits, with the exception of LGIP due to the transition of the CFO
- The LGIP interest rate increased 10 basis points from 55 to 65 effective April 7, 2022. Another 10 basis point increase is expected on May 10th. Benchmark returns for 24 and 36 month treasuries are up again from the prior month by 16 and 42 basis points, respectively.
- Average portfolio yield is 0.58% which is no change from the prior month.
- The portfolio's weighted average time to maturity is at 1.48 years compared to 1.49 in February.

Budget to Actuals Report

General Fund

Revenue YTD in the General Fund is \$38.2 million or 93.8% of budget, a \$600K increase from the prior month. By comparison, last year revenue YTD was \$43.6 million and 116% of budget. This year's YTD revenue collections would be greater except for one-time, unbudgeted CARES Act funds received last year in the General Fund.

Expenses YTD are \$34.2 million and 79% of budget compared to \$38.5 million and 97% of budget last year. Overall expenses are lower this year and represent a smaller portion of the budget this year due to unbudgeted CARES Act expenditures last year offset by an increase in the approved budget transfers this year which are made on a regular monthly basis.

Beginning Fund Balance is \$15M or 111.3% of the budgeted \$13.5M beginning fund balance. Projected ending fund balance is \$12.6M, a decrease of \$200K from March.

- A Total disposal fee projections reflect management's best estimate of revenues to be collected. YTD volumes are running 6% higher than last year-to-date; franchise growth is just below the budgeted amount and is offset by larger than anticipated increases seen in private and commercial disposal. Franchise disposal fee payments of \$419K were not received from Republic Services by closing.
- **B** Revenue is seasonal with higher utilization in summer months; there is a 12% reduction when comparing this fiscal YTD to the abnormally high volumes of last year-to-date
- c Annual fees due April 15, 2022; received March year-to-date monthly installments from Republic and the annual payment from Cascade Disposal
- FY22 projection includes the unbudgeted sale of a utility terrain vehicle and electricity capital credits; miscellaneous tire and appliance revenue is slightly exceeding budget
- E Revenue source is unpredictable and dependent on special clean-up projects; recent large contaminated soil projects from remediation of a gas station, traffic incidents and illegal dumping site
- G Projecting to spend less than anticipated with the postponement of the waste characterization study, timing for mulch grinding, adding 3 FTE Site Attendants versus using temporary labor, environmental and general repair and maintenance costs
- H The new 1 ton service truck and service box ordered in FY21 was rolled into FY22 due to delayed availability
- Principal and interest payments due in Nov and May for existing debt; projection reflects adjustments for partial refunding of existing debt with improved interest and the postponement of the Negus Transfer Station construction funding to next fiscal year

Budget to Actuals Report

General Fund

Revenue YTD in the General Fund is \$37.6 million or 92.2% of budget, a \$500K increase from the prior month. By comparison, last year revenue YTD was \$42.8 million and 114% of budget. This year's YTD revenue collections would be greater except for one-time, unbudgeted CARES Act funds received last year in the General Fund.

Expenses YTD are \$30.7 million and 71% of budget compared to \$35.2 million and 88% of budget last year. Overall expenses are lower this year and represent a smaller portion of the budget this year due to unbudgeted CARES Act expenditures last year offset by an increase in the approved budget transfers this year which are made on a regular monthly basis.

Beginning Fund Balance is \$15M or 111.3% of the budgeted \$13.5M beginning fund balance. Projected ending fund balance is \$12.8M, a decrease of \$100K from February.

A Total disposal fee projections reflect management's best estimate of revenues to be collected. YTD volumes are running 6.5% higher than last year-to-date; franchise growth is just below the budgeted amount and is offset by larger than anticipated increases seen in private and commercial disposal

\$ 583,520

\$ 4,098,565 702%

B Revenue is seasonal with higher utilization in summer months; there is a 9% reduction when comparing this fiscal YTD to the abnormally high volumes of last year-to-date

\$ 3,957,273 550% ;

- Annual fees due April 15, 2022; received February year-to-date monthly installments from Republic and the annual payment from Cascade Disposal
- P FY22 projection includes the unbudgeted sale of a utility terrain vehicle and electricity capital credits; miscellaneous tire and appliance revenue is slightly exceeding budget
- Revenue source is unpredictable and dependent on special clean-up projects; recent large contaminated soil projects from remediation of a gas station and illegal dumping site
- F Projecting to spend less than anticipated with the postponement of the waste characterization study, timing for mulch grinding, adding 3 FTE Site Attendants versus using temporary labor, environmental and general repair and maintenance costs
- G The new 1 ton service truck and service box ordered in FY21 was rolled into FY22 due to delayed availability

\$ 719,918

Principal and interest payments due in Nov and May for existing debt; projection reflects adjustments for partial refunding of existing debt with improved interest and the postponement of the Negus Transfer Station construction funding to next fiscal year

AGENDA REQUEST & STAFF REPORT

MEETING DATE: June 6, 2022

SUBJECT: Discussion and Direction for Drought Funds from the State

RECOMMENDED MOTION:

Provide staff direction as determined by the Board

BACKGROUND AND POLICY IMPLICATIONS:

In the most recent legislative session, the state passed SB 5561 (attached) which provides funding for housing, drought, cannabis enforcement, and other services/programs. Section 10 of the bill identifies \$585,200 to Deschutes County out of the State's General Fund to provide "domestic and community well assistance."

Staff is seeking Board direction on how to spend these funds.

In preparation of this discussion with the Board, staff reached out to NeighborImpact because of their existing home preservation program. Among many other preservation categories, the program provides resources for the replacement of wells that have dried up. However, the program is oversubscribed and there is high demand.

Below is a table that summarizes NeighborImpact's current preservation loan program and what is being proposed by NeighborImpact for the SB 5561 drought relief funds. In prior meetings, the Board has discussed the possibility of retroactive loans; staff will raise this item for discussion at the Board meeting.

5. General Terms.

- a. <u>Assignment.</u> This IGA, and each Party's rights and responsibilities associated with this IGA may not be assigned.
- b. <u>Entire Agreement</u>. This IGA sets forth the entire agreement of the parties with respect to the subject matter of the IGA and supersedes any and all prior negotiations, discussions, agreements and understandings of the parties.
- c. Recitals. The Recitals are incorporated into and made part of this IGA.
- d. <u>Board Meetings</u>. Meetings of the Board shall establish a meeting schedule [that meets quarterly or monthly].
- e. <u>Panel Meetings</u>. Meetings of the Panel shall occur monthly on the date established by the ED.
- f. <u>Dispute Resolution</u>. The Parties agree to attempt to resolve any disputes related to this IGA first by meeting between the City Managers and County Administrator. In the event dispute resolution is unsuccessful, this IGA will be construed, applied and enforced in accordance with the laws of the State of Oregon. Any action or proceedings arising out of this IGA will be initiated in the Circuit Court of Deschutes County, Oregon.
- g. <u>Severability</u>. If any provision of this IGA is held illegal or unenforceable in any respect, the remaining provisions remain in full force and effect to the extent possible.
- h. <u>Access to Records</u>. All parties to the IGA shall maintain fiscal records and all other records pertinent to this IGA.
 - 1. All fiscal records shall be maintained pursuant to generally accepted accounting standards, and other records shall be maintained to the extent necessary to clearly reflect actions taken.
 - 2. All records shall be retained and kept accessible for at least three years, or as otherwise required to be retained by Oregon law.
 - 3. If an audit, litigation or other action involving this IGA is started before the end of the three year period, the records shall be retained until all issues arising out of the action are resolved or until the end of the three year period, whichever is later.
 - 4. All Parties to this IGA and their authorized representatives shall have the right to direct access to all of associated books, documents, papers

- and records related to this IGA for the purpose of conducting audits and examinations and making copies, excerpts and transcripts.
- 5. In the event of a public records request, the Office is considered the custodian of the public records of the Board. To the extent more than one public body is the custodian of a given public record, when a city or county receives a request it has received from another public body, it may consult with the originating body to determine whether the records may be exempt from disclosure.
- i. <u>Amendment/Extension</u>. This IGA may be amended or extended by mutual written agreement of the Parties.
- j. Indemnification. Subject to the limits of the Oregon Tort Claims Act and the Oregon Constitution, each Party shall defend, indemnify, and hold each other Party, and its officers, agents, employees and volunteers, harmless against all liability, claims, losses, demands, suits, fees and judgments (collectively referred to as "claims") that may be based on, or arise out of, damage or injury (including death) to persons or property caused by or resulting from any act or omission of the Party in connection with the performance of this IGA or by conditions created thereby or based upon violation of any statute, ordinance or regulation. This indemnification shall not apply to claims caused by the sole negligence or willful misconduct of the other Party, its officers, agents, employees and volunteers. The Parties agree that they are not agents of each other and are not entitled to indemnification and defense under ORS 30.285 and ORS 30.287.
- k. Each Party has reviewed this IGA with its own legal counsel.
- The persons signing below acknowledge they have read and understood this agreement, and certify that they have authorization from their governing bodies to execute this IGA and be bound by its terms.

AGENDA REQUEST & STAFF REPORT

MEETING DATE: June 6, 2022

SUBJECT: FY2022-2023 Special Funding Requests

BACKGROUND AND POLICY IMPLICATIONS:

The Board of Commissioners have received funding requests from several organizations for fiscal year 2022-2023. Staff have gathered those requests for Board consideration at the June 6th meeting, and have identified potential funding sources in the attached memo. The Board will receive brief presentations from Alfalfa Fire District and the Bend Chamber.

ATTENDANCE:

Chief Chad LaVallee, Alfalfa Fire District Katy Brooks, Bend Chamber CEO Laura Skundrick, Deschutes County Administration

ADMINISTRATIVE SERVICES

STAFF MEMORANDUM

DATE: June 6, 2022

TO: Board of Commissioners

FROM: Laura Skundrick, Administrative Analyst

RE: FY 2022-2023 Special Funding Requests

The Board received funding requests from several organizations for fiscal year 2022-2023. Those requests are attached to this memo and are summarized below with notes from staff regarding potential funding options.

1. Alfalfa Fire District

Request: \$150,000 for Station 901 Construction

Alfalfa Fire Chief Chad LaVallee will provide a brief presentation to the Board of Commissioners at the Monday, June 6 meeting and will be available for questions.

This request would not be eligible for ARPA or Video Lottery funds. If the Board supports funding this request, staff believes the project would need to be funded by the General Fund.

Options for Board consideration:

- A. Continue discussion at a later date to be determined
- B. Support funding this project:
 - i. Fully fund the request by the General Fund; or
 - ii. Partially fund the request by the General Fund and decide the amount
- C. Do not support funding this project

2. Bend Chamber

Request: \$50,000 for Workforce Housing

Bend Chamber CEO Katy Brooks will provide a brief presentation to the Board of Commissioners at the Monday, June 6 meeting and will be available for questions.

If the Board supports funding this request, staff recommends the use of Video Lottery Fund dollars. This request would not be eligible for ARPA funding.

Options for Board consideration:

- A. Continue discussion at a later date to be determined
- B. Support funding this project:
 - i. Fully fund the request with Video Lottery Fund dollars; or
 - ii. Partially fund the request with Video Lottery Fund dollars, and decide the amount
- C. Do not support funding this project

3. Envision Bend

Request: \$50,000 for Bend Vision Project

Executive Director Laura Fritz presented to the Board of Commissioners at the March 16, 2022 meeting and those presentation materials are attached to this memo. Laura has provided a supplemental document, also attached, outlining how the project supports economic development. Staff requested that Envision Bend attempt to identify a proportionate amount of the project that would relate to economic development, but at this point in the process they are not able to provide that level of specificity.

If the Board supports funding this request, staff recommends the use of Video Lottery Fund dollars in support of the economic development objectives as outlined in the supplemental attachment, or General Fund. This request would not be eligible for ARPA funding.

Options for Board consideration:

- A. Continue discussion at a later date to be determined;
- B. Postpone until Envision Bend is able to provide the specific proportionate amounts that relate to economic development;
- C. Support funding this project:
 - i. Fully fund the project with Video Lottery dollars (in support of economic development objectives) or General Fund; or
 - ii. Partially fund the project with Video Lottery dollars (in support of economic development objectives) or General Fund
- D. Do not support funding this project

4. City of Sisters / Citizens 4 Community

Request: \$2,500 for Sisters Country Vision Implementation Support

If the Board supports funding this request, staff recommends the use of Community Development Department (CDD) Long Range Planning Consulting Funds. This request would not be eligible for ARPA funding.

Options for Board consideration:

- A. Continue discussion at a later date to be determined
- B. Support funding this project by the CDD Long Range Planning Consulting Funds
- C. Do not support funding this project

Alfalfa Fire District 25889 Alfalfa Market Rd. Bend, Or 97701 541-382-2333 Station

To Whom It May Concern,

Please accept this proposal on behalf of the Alfalfa Fire District for the request of \$150,000 in funds to help complete construction of the Alfalfa Fire District Station 901.

These funds are being requested to help with completion of the Fire Station construction to bring our project to 100 percent completion. As we considered an essential facility by both state and local regulation, we are seeking funds to help with the installation of a well, Our backup generator, and to complete paving around the building. As a newly formed Fire District and the newest one in not only Deschutes County, but in the State of Oregon, we receive tax revenue from the district as our only stream of revenue. As a small district we have imposed the maximum tax assessment we are allowed by the state at \$1.75 per \$1,000 of assessed value.

This tax rate brings in approx. \$147,000 per year. The smallest of any Fire District in Deschutes County. Our budget consists of the following-

Personnel Services-\$59,000 (Pt Fire Chief, Health ins, Workers Compensation)

Materials and Services-\$46,982 (Operation of building and vehicle maintenance)

Debt Services-\$38,844 (loan repayment for station loan to construct)

Equipment reserve fund-\$5,000 (To replace aging fleet)

Building reserve fund-\$2,000 (Building maint)

Contingency-\$30,000

Capital Outlay-\$122,421 (cost includes Federal Grant which we factor in but may not receive)

Resources-

Available cash on hand-\$53,000

Interest \$70.00

Federal Grant for Equipment-\$104,100

Taxes-\$147.077

The taxes we receive allow for Approx. \$2,000 a year to help maintain the Fire Station. As we are a new Fire District, we have looked at the option for a bond or levy which the community will not support. We have looked at USDA, as well as other loans to help complete the projects needed to finalize and make our building truly and "essential" building. These funds were either not available due to financial constraints, or due to the district being out of the median income requirements because we share the 97701-zip code. The median household income of Alfalfa is represented by the 97701-zip code and has put us well above median incomes for most loans or grants for these types of projects. The Fire Station itself has seen a lot of time and money put into it by the volunteers themselves. As of April 1, 2022, the Volunteers have donated \$22,480 of our own money to complete interior projects such as office space, training room, day use room and grounds maintenance. This does not factor in what we would have paid for labor to have had someone come do the work. The Firefighters are invested in this Department and want to see the continued success we have strived for. This has included help with wildfires in the region, as well as conflagrations around the state to which we have never missed a call for help. This is relatively unheard of with an all-volunteer Fire Department. As well as 24 hr. continued Fire and Ems services to our community.

The funds we are requesting will go to various projects such as a well for a continuous water supply. In the event of a large-scale emergency, we only have 1000 gal of water in a cistern to supply the station. If the building was used by the community to shelter or to be used as a command center for operation, we would have to rely on water delivery to sustain operation. The cost of this well is Approx. \$40,000 based on quotes we are gathering.

Second would be the backup generator installation. We have purchased a backup generator which was funded by both the Fire District, as well as Volunteers pitching in to help purchase. This is a 105 kw generator which would provide backup power to the Fire Station as well as 2 rv spots in the event of power loss. As we are near an aging substation here in Alfalfa, we have lost power 5 times in the last year. This is more than the last 5 years combined. We have spoken with the power company, and they assure us repairs and upgrades are coming. No timeline. In the event we lose power we rely on backup radios, and we manually raise and lower doors which costs valuable time in an emergency. The cost of installation on this generator is \$20,000.

The last project would be the paving around the station. As we currently only have gravel around the station this see's a lot of maintenance because of the heavy equipment turning and creating ruts. We do not train on water supplies or hose drills as these hydro mines the gravel creating more work to maintain. As we are surrounded by agricultural fields, this brings an enormous number of weeds which seed into the rock. This creates a fire hazard around the station as we have to either spray or burn the weeds to control growth. This is not just a patch of weeds; this is an entire acre around the station where you no longer can see the ground underneath. Paving around the station will not only control the fire hazard but will allow for Firefighters to use the grounds for training rather than going out of the district which creates gaps in coverage. Paving around the building would allow for Firefighters to come in and train on various Fire Response tactics without having to go out of district to a paved parking lot to use Fire Hose. Dragging our hose on the gravel all the time damages the hose and becomes costly to replace. The cost for this is \$90,000 and would greatly improv our ability to train Firefighters within our district rather then sending them outside the district and delaying response.

Short term effects on this project are numerous. The Firefighters who serve this community take pride in this station. They have given blood, sweat and tears to see this station be built. They have donated time away from families, money they worked hard for, and have built a Fire Station they are proud of. They would fund this project themselves if they could. It is just not feasible. They are taxpayers and help fund projects within Deschutes County, and they are asking for a little help back.

The community see's the Fire Station as an essential facility, and a point of pride. Knowing a bond or levy would not pass at this time, if the Commissioners and budget managers could approve funds, it would allow for the building to truly become essential and allow for use during an emergency. As we are an aging community this building has been used as a warming shelter when community members heaters stopped working, and they needed a place to get warm, it has been used during the summer as a place to cool off for a little bit for those who do not have air conditioning. It has been a place where families bring their children to see what Firefighters do, to spray water and to build relationships with those we serve. It allows for the Fire District to continue to foster relationships with its County Commissioners, and to hopefully show them that even small districts can flourish with a little help. We have always answered the call when help was needed, without question, and without hesitation. We are now asking this of our County Government. This is not a yearly ask for this district, this is simply a one time ask for help where critical help is needed.

Short term this project would help bridge the gap between what we need and what we can afford given our tax base. As we see more growth in the community and tax revenues rise, knowing that we have completed the major projects to complete construction would allow for the Fire District to use funds to begin to replace an aging fleet of Fire Apparatus, or to upgrade outdated emergency equipment.

The long-term effects of funding allow for the Firefighters to "take a break" in a sense knowing that they do not have to focus on completing the building. They can then focus on response, use the facility to train, and to continue to be proud of what they have built. The long-term effects would allow us to look at future funding options, like a bond or levy. The community may be more apt to approve a bond or levy for operations and funding of more Firefighters in the future. Completing these projects would allow for us to begin the process of going out for out of district personnel. Right now, with no water source, there is no way to put into use a Fire Sprinkler system. The cistern will not support that. Without a water source, by county code we cannot house Firefighters without a way to help protect them. Even now without a water source if there was a fire inside the building we would have to rely on water in the apparatus. If the apparatus were on Fire the building may be a total loss without an effective suppression system.

These projects were on our master plan but cannot be completed due to lack of funds. As a Fire District we have a lot invested in this Station and in our community. A \$150,000 may not seem like a lot, but is a huge amount to the district, and would greatly help our operations. If these projects are funded, we will see that the projects are completed in a timely manner, within the given budgeted allowance, and that the community knows where this funding came from. And that building strong bonds with not only the community we serve, but the County we serve are extremely important to our continued success.

I appreciate your time in looking over this proposal, and if any questions or additional information is needed, I can be reached at the numbers listed below.

Best Regards,

Chad LaVallee- Fire Chief Alfalfa Fire District 503-910-6129 Cell 541-382-2333 Station Clavallee@afdist.org

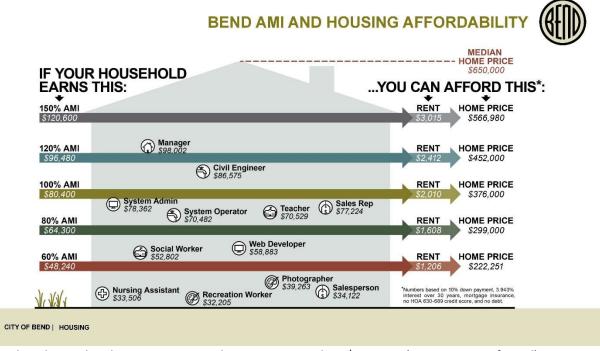

Bend Chamber Workforce Housing Initiative Proposal to Deschutes County Commission

The availability and cost of housing is at a critical level in Bend, making it too expensive for many to live in a reasonable proximity to where they work. And employers know that housing is one of their biggest hurdles in hiring and retaining employees. Housing that is out of reach for many results in a lack of labor and a growing disconnect between who works and lives in Bend and other areas in Deschutes County.

Put simply, the cost of finding a place to live – whether that means paying the rent, or a home mortgage, is driving away those who would otherwise be available to work here. And employers are seeing this significantly impact available talent.

This impacts the stability of services in our community, including healthcare, education, law enforcement, service industries and many other essential jobs. Many people working in these fields, who in the past would have had little trouble finding a place to live in Bend, are now priced out of the housing market.

The Bend Chamber is leading an initiative with employers and community partners to build more workforce housing as quickly as possible.

Note that the median home price in Bend is now greater than \$720,000 (source - City of Bend)

The Solution(s)

Build In, Build Up and Build Out

Solving the Bend and regional housing shortage will require multiple strategies, including:

- Building Auxiliary Dwelling Units (ADUs) in Bend and adjacent Deschutes County rural areas
- Creating well-planned living spaces within existing neighborhoods
- Allowing for higher buildings and more density in designated urban areas in Bend
- Starting the process of strategic additions to our Urban Growth Boundary to increase the amount of land on which we can build

In a survey conducted by the Chamber in late 2021, Bend residents were ready to talk about how to accommodate more housing.

- 67% said they or someone they know has had to leave Bend or couldn't move here due to lack of affordable housing
- 58% said that rising rents was the most worrisome issue
- 68% support building specific urban areas where housing is denser, and buildings are taller

Bend Chamber Workforce Housing Initiative

The Chamber has implemented a comprehensive strategy to support more workforce housing and be a leading voice and convener for solutions. The initiative includes the following:

- 1. An annual poll on the severity of and support for workforce housing strategies and projects
- 2. A comprehensive guide for property owners to building ADUs (in partnership with Leadership Bend, a program of the Bend Chamber)
- 3. A workforce housing policy summit to identify and vet new state legislation in preparation for the 2023 session
- 4. A contracted workforce housing accelerator position that would identify and convene expertise and interested parties to remove obstacles for a variety of lower-cost workforce and mid-range housing projects. This contractor will also work with developers to identify partnerships and assist in convening employers, developers, financers, and investors to increase housing stock.
- 5. A social media platform to share ideas, perspectives, and garner support for more housing

Funding from Deschutes County will match the amount of funds the Chamber is proposing to raise from the City of Bend's community development grant. The Chamber will match these grants with contributions from area employers who are impacted by high housing costs and a shrinking labor force due to cost-of-living/housing disparities.

We propose this funding request come from the County's Oregon Lottery funds supporting economic development, or the County's ARPA allocation, depending on what is most applicable and appropriate.

Discretionary Grant Application, March 2022 Project: Sisters Country Vision Implementation

Applicant: City of Sisters

1. Describe the applicant organization, including its purpose, leadership structure, and activities. The City of Sisters is a municipal government within Deschutes County.

2. Describe the proposed project or activity.

In 2018, the Sisters Country Vision project engaged the people of Sisters Country in a lively conversation about their future. The City of Sisters, along with Deschutes County, The Central Oregon Intergovernmental Council (COIC) and Citizens 4 Community (C4C) served on a project management team that provided oversight and guidance to NXT Consulting, who was selected to lead the vision project and the creation of a Vision Action Plan. The Sisters Country Vision engaged local residents far beyond the City of Sisters, and many projects in the Vision Action Plan require close collaboration with County partners to accomplish, including rural trails initiatives, fire preparedness, and affordable housing. Following adoption of the Vision Action Plan in early 2019 and the end of NXT's contract, the City of Sisters contracted with COIC to serve as the Vision Coordinator and facilitate the creation of a Vision Implementation Team (VIT). Commissioner Adair has served on the Vision Implementation Team since its inception in 2019. Nick Lelack, Deschutes County Administrator, served on the team from 2019-2021. Peter Gutowsky joined the team in 2021. COIC has continued to serve as the VIT Facilitator/Vision Coordinator from 2019-2022.

During this same time period, C4C has successfully expanded their organizational capacity and hired paid staff. In recognition of this growth in local capacity, COIC and C4C have worked together with the Vision Implementation Team to transition facilitation and coordination duties from COIC to C4C, starting summer of 2022. Since 2018, the City of Sisters has been the primary financial supporter of vision implementation, along with some supplemental grant funds provided by The Ford Family Foundation via a regional grant to COIC and a multi-year grant to C4C. We are now requesting support for ongoing facilitation of implementation activities from key community partners, to demonstrate buy-in and support from a broad base of participating organizations, which will in turn support any future grant requests. The City of Sisters will administer these funds, and C4C will utilize this funding for the following activities:

- <u>Project Management:</u> Provide overall project management support for the Sisters
 Country Vision, supporting vision projects, managing the Momentum Grants program, and producing annual progress reports.
- Meeting Facilitation: Facilitate quarterly meetings of the Vision Implementation Team (VIT) and monthly meetings of the Community Builders group, supporting an active connection between the Community Builders group and the Vision Implementation Team. Manage internal communications with team members, coordinate meeting logistics, and create meeting agendas and materials.
- Communications and Outreach Coordination: Serve as the first point of contact for general inquiries about vision implementation, community members working on vision

projects, and community members interested in starting a new vision project. As requested, help with public outreach and engagement for vision projects. Publish monthly "vision spotlights" on the community website social media channels, and coordinate with other organizations to publish periodic vision updates in The Nugget or other local media publications.

 <u>Event Coordination:</u> Coordinate a celebratory vision event annually, and/or collaborate with the organizers of existing community events to increase public visibility of the Sisters Country Vision.

3. Provide a timeline for completing the proposed project or activity.

Although the Sisters Country Vision is an open-ended project, we are requesting financial support for just one fiscal year (2022-23). We have a goal of securing a minimum of \$10,000 from our community partners to support ongoing Vision facilitation and implementation this fiscal year.

4. Explain how the proposed project or activity will positively impact the community.

The Sisters Country Vision is a valuable community planning and coordination tool. Although the VIT provides guidance and helps track progress, the Sisters Country Vision is community-led, meaning that no single leader or entity is solely responsible for making progress on the strategies in the Vision Action Plan. Instead, there is community-wide collaboration between dozens of partners, including local government, local agencies and special districts, non-profit organizations, businesses, and individual community members. The Vision can be a very useful tool for both organizations and community members:

- For organizations, the Vision is an important tool in work plan priority-setting and provides valuable data for grant applications, clearly demonstrating community support and alignment for local projects.
- For community members, the Vision is a tool for focusing and directing momentum to be responsive to community needs and allocating resources to help meet those needs effectively. The Vision provides a helpful framework that channels community energy into clear, achievable goals.

5. Identify the specific communities or groups that will benefit.

The Sisters Country Vision benefits all residents of Sisters Country. The Vision Implementation Team (VIT) creates an important opportunity for regular collaboration and accountability between local leaders, while the annual Vision progress reports create transparency and accountability to community members. It is difficult, if not impossible, to pinpoint specific groups that will benefit from this funding most directly. However, with 4 focus areas, 20 key strategies, and more than 40 active community projects, the Sisters Country Vision is a farreaching tool for many community members to work together toward shared goals and mutual benefit. You can find more information about specific projects and the community partners working on them at: https://sisterscommunity.org/sisters-country-vision/

6. Describe how grant funds will be used and include the source and amounts of matching funds or in-kind contributions, if any. Itemize anticipated expenditures*.

| | | conclusion of the grant | |
| | | period. | |

7. If the grant will support an ongoing activity, explain how it will be funded in the future.

Although the City of Sisters will continue to provide some financial support to ongoing implementation of the Vision, we are hoping to continue the more disbursed funding model we are proposing this fiscal year into the future. The funding provided by the City, County, and other key community partners will hopefully be used to leverage additional grant funding, by demonstrating broad-based financial buy-in for the Vision Plan and community-led projects.

Re: Request for Funding to Support Bend Vision Project

Thank you for the opportunity on April 16 to make a presentation to the Deschutes County Commission about the **Bend Vision Project** for the greater Bend area. This written document serves as Envision Bend's formal written request for funding support of \$50,000 from Deschutes County for this important community initiative. The final result of this 16+ month project spanning December 2021-March 2023 will be a collaborative, forward-looking and exciting shared vision for the future of the greater Bend area.

The **Bend Vision Project** will be a "whole-of-community," nonpartisan conversation emphasizing dialogue, visionary thinking, inclusion and consensus-building. The target audience for our outreach and community engagement is defined as the greater Bend area, including residents of the city of Bend, adjacent outlying areas and unincorporated communities, and county residents who relate to or participate in the life of the city on a regular basis.

Most plans are conducted by a single entity with a particular objective that benefits their organization or furthers their own planning needs. The **Bend Vision Project** is a community-owned plan with no special-interest agenda except to find agreement on a long-term vision for our community (10, 20, 25 years into the future) and near-term actions to move us in that direction. The project is managed by Envision Bend, an independent nonprofit organization that brings diverse stakeholders together to educate, engage and empower all members of the Bend community to have a voice in our city's future. Once completed, the plan will be implemented by project partners across the whole community, including government, civic institutions, private businesses, civic organizations, nonprofits and residents. It will truly be a plan created and owned by the community.

The project is unfolding in five phases encompassing research, outreach, dialogue (incorporating diverse forms of engagement including interviews, listening sessions/focus groups, workshops, community meetings and a survey), action planning, and plan development (see Envision Bend "Process Map" on subsequent page).

The final major outcomes from this project include:

- Core Community Values statement
- o Long-term ("generational") community Vision Statement
- Near-term (five-year) Vision Action Plan including specific actions, several "signature projects,"
 identified plan partners, success measures (community indicators), and ideas for personal action

In addition to the larger 5-year Action Plan that will be developed to further the final vision and major community initiatives, Envision Bend will create a "personal" action plan that will be available at the end of the project. This plan will incorporate ideas that came out of the visioning process that individuals can take on or incorporate into their own lives to help further the goals of the community vision.

Please refer to the next section, "Community Visioning Project Overview," for details about additional project activities and outcomes.

Envision Bend's equitable engagement approach is a collaboration between our nonprofit organization, local community partners that serve marginalized, hard-to-reach or under-represented communities, and Oregon's Kitchen Table (OKT), a program of the College of Urban and Public Affairs at Portland State University. OKT has deep experience in community engagement across the state. Their purpose is to empower Oregonians from every corner of the state to contribute feedback, ideas, and resources to decision-makers, public projects, and initiatives. Local experts and volunteers will be used in partnership with OKT in our engagement process to ensure we reach traditionally marginalized communities, rural voices, and people who often choose not to engage in community projects.

The **Bend Vision Project** is a broad community conversation focused on high-level community aspirations. Our project will be coordinated to align with, inform and support City and County planning efforts. It is not a replacement for a comprehensive land use plan or community plan. Our intent is not to repeat, replicate or compete with other important planning initiatives or projects already in the works. Rather, the **Bend Vision Project** will complement and accentuate information that can inform policy-making and other planning efforts. We believe that the information we gather from interviews, focus groups, a community-wide survey and other engagement efforts will be very useful to the County. To-date Envision Bend has held several meetings with County staff to communicate about this project and the County's Comprehensive Plan update, and we look forward to collaborating to ensure the success of all our efforts.

When the **Bend Vision Project** is completed Envision Bend will take on a number of activities to help ensure our community's vision is achieved over time. First and foremost, we will serve as a facilitator and convenor to help ensure project implementation by lead partners who agree to take on initiatives identified in the vision – partners such as local governmental entities, businesses and community groups. We also plan to establish and monitor a set of "community indicators" in the plan which are generalized measures of progress that will tell us if and how our community is changing for the better. Finally, we will continue to serve as an ongoing voice and platform for community members to discuss and take action on topics of vital interest to our future. Once significant progress has been made on the first 5-year action plan Envision Bend will work with the community to update the next action plan for the vision.

The total cost of the project is approximately \$300,000. Envision Bend is raising all the funds for this important community initiative. We have commitments from a wide variety of local business, foundations, and institutions, as well as support from the City of Bend.

COMMUNITY VISIONING PROJECT OVERVIEW Project Description, Activities/Outcomes, Key Features

Project Description

- A 16-month community visioning process with an overall focus on the future of greater Bend. (Greater Bend defined as city of Bend, adjacent outlying areas and unincorporated communities, and county residents who relate to or participate in the life of the city on a regular basis.)

ECONOMIC IMPACT OF THE BEND VISION PROJECT

Per the request of Deschutes County staff, Envision Bend is providing a broad overview of the economic impact of the Bend Vision Project on Deschutes County. We are providing this information at a very high level but have referenced a few resources and shared links to detailed reports that offer more analysis of economic impact data relevant to this community-wide initiative.

Project Outcome: Community Vision Statement & First Five-Year Action Plan

Envision Bend is gathering community input and data in a variety of ways to create the community vision statement and action plan. From the input and data already collected for this project we know that at least one of roughly five or six focus/priority areas in the vision statement will focus specifically on the economy, jobs and economic development. The first five-year action plan that will accompany the vision statement will include strategies, projects and programs for this economic focus area that the community would like to see in our future.

In fact, the economy likely will serve as a cross-cutting theme throughout the other focus areas of the vision since it interacts and impacts other priority areas, and therefore must be addressed in conjunction with those topics (e.g. transportation system, affordable housing, homelessness, etc.) Many of the other focus areas in the Action Plan will have ties to the economy and to sustainable growth, including ideas and efforts to make the greater Bend area a more resilient and healthy place to live, which has positive economic impacts on the region. There also likely will be a focus area that incorporates education and innovation that addresses emerging sectors of the economy, as well as environment/recreation which plays a huge role in the economy in our county.

Impact of 2005/06 Vision Project

These vision projects have a strong history of having positive economic impacts on the region. Many of the ideas and projects identified in the last vision project undertaken for Bend back in 2005/06 came to fruition through the efforts of many community partners, resulting in tremendously positive economic impacts on both the city and county. Some examples of ideas and projects put forward in the last visioning plan that were realized include the development of a four-year university campus; creation of a regional transit system; targeted industry development to diversity the economy; creation of locally beneficial tourism activities; and creating new links between higher education, innovation and enterprise through the OSU-Cascades' Innovation Co-Lab.

This goes to show that timely visioning is needed to identify the next set of community priorities to keep a thriving and sustainable economy moving forward.

Economic Development Partnerships & Support

Envision Bend has lined up strong support from a very diverse group of entities for the Bend Vision Project because they all believe that this kind of planning and consensus building will help our community thrive as a vibrant place for people to live, work, shop and play. It should be noted that several entities that are drivers of the Central Oregon economy signed up to be key partners for this project. They include the Bend Chamber of Commerce; EDCO; St. Charles Health System & Foundation; and Central Oregon Intergovernmental Council (COIC). These organizations see the direct benefit of having an up-to-date community vision that can both support and guide their own initiatives and strategic planning work for the future.

Intertwined Economic Impacts

Economic impacts are naturally intertwined with other factors such as community amenities, educational opportunities, housing affordability and other quality of life factors. The purpose of the vision project is to plan for the future of our community so that we can protect and improve the quality of life for Bend and Deschutes County residents. We expect that many of the topics that are intertwined with the economy will become key parts of the vision statement and action plan as well.

One specific example of such topics is housing affordability. If low- and moderate- income households cannot afford to live in our region, we cannot attract or retain the workforce that drives our economy. This is why the Bend Chamber of Commerce recently decided to take on the issue of middle-market housing affordability as their number one priority for our region. These and other topics ranging from transportation, community infrastructure, workforce development, and more, will be part of the community conversation to envision our future.

Summary

Central Oregon is one of the fastest growing populations in the nation. It also has some of the fastest job growth in the US, as well as an economy that continues to expand and diversify. It's vital that our community come together now, through the Bend Vision Project, to define the economic future we want for our community, and then drive toward that future.

In 2021, the Oregon travel economy recovered much of what was lost in 2020. Strong demand for overnight accommodations and increased commodity prices led to large gains in visitor spending. Based on the U.S. Travel estimated impacts, Oregon is faring better than the U.S. recovering to 85% of 2019 travel spend compared to 78% for the U.S. (U.S. Travel).

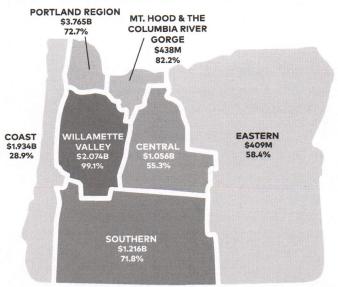

Key Takeaways

- 64.8% Increase in Travel Spending
 Travel spending in Oregon increased 64.8% from
 \$6.6 billion in 2020 to \$10.9 billion in 2021.
- 6,900 Jobs Gained
 Direct travel-generated employment experienced a
 gain of approximately 6,900 jobs, a 7.3% increase in
 travel-generated employment compared to 2020.
- 13.2% Growth in Travel Earnings
 Direct travel-generated earnings experienced a gain of \$408 million, a 13.2% increase compared to 2020.
- 25.2% Increase in Tax Revenue
 Tax receipts generated by travel spending are up
 25.2% compared to 2020. State and local taxes both
 experienced a strong recovery in 2021, growing
 41.2% and 26.5% respectively.
- Residents of Oregon accounted for 38% of visitor spending in Oregon in 2021.
 U.S. residents of states other than Oregon accounted for approximately 60% while international visitors accounted for 2% of travel spending in the state.

Out-of-State visitors were approximately 64% of travel spending prior to the COVID-19 pandemic. In 2020 this share dropped to 42%.

• The largest region in terms of travel impacts is the Portland Region. In 2021 travel spending was \$3.8 billion, contributing 35% of the state total. Prior to 2020 the Portland Region accounted for 44% of travel spending in the state.
