RECREATION DEPARTMENT REPORT

MARCH 2025

Programs Taking Place this Month

- Basketball Training
- Stretch and Strength
- Transformation Fitness
- Babysitting Class

What I Have Been Up To

- Basketball Camp Evaluation Results – About 25% responded. The overall consensus was that everyone enjoyed the program. There may be some slight changes for next year as far as length of the program and potentially implementing more game aspects for the older ages, but overall we had a great program with great volunteer coaches.
- Job openings have been posted on the website for Lifeguards, Recreation Staff, and Swim Team Coach. We are beginning to secure
- I am working on finalizing my summer flyer and hoping to get that emailed out to families on March 28th so that I can then open summer registration on April 1st. I am just waiting on some final details from a few instructors.
- WPRA Discount Ticket Program – As a member, we are given the opportunity to be able to sell tickets to area attractions at a discounted rate throughout the summer months. Attractions such as Noahs Ark, Mount Olympus and other Wisconsin Dells attractions like the Ducks tours, Pirates Cove Adventure Golf, etc, as well as Milwaukee County Zoo. For this program, City of Dodgeville will retain \$1.00 per ticket sold. We will be selling these down at the pool so that it allows patrons more availability to purchase.
- I am honored to be asked to be a part of the interview team at the School District for Football and Volleyball coaches, so will be spending some time at the school this week to assist with that.

Dolphins Swim Team Volunteer Deposit Proposal

Proposal: Families pay an additional \$100 deposit at time of registration. This deposit is per family (not per swimmer) and is returned at the end of the swim team season for those who were able to volunteer. For each “shift” parents are able to volunteer for at the meets/events, they earn \$25 back from their deposit. For the families that do not volunteer at the swim meets and events, their deposit will be kept to apply towards future improvements.

Purpose: Finding volunteers for swim meets has been challenging, and the swim team parent committee feels they need to give some type of incentive to parents to gain their interest in helping and holding them accountable.

What this would look like:

- Participants will register online as normal for \$30, but also with the \$100 additional deposit per family (set up similar to what we do for pool passes and swim lessons currently).
- For every “shift” a parent volunteers, they will earn \$25 from their deposit back. So essentially the swim team is asking for 4 shifts to work per family throughout the season.
- If families do not volunteer, the money is kept and will be used towards future improvements.
- Swim Team Parent Committee will designate one person to track the volunteers and provide a list to Recreation Director at the end of the season so we know who will receive their deposit back.
- Recreation Director and Accounts Payable will work together to get the checks processed.

Explanations & Alternatives:

1. All plastic, rubber and asphalt materials are prohibited from open burning under state law.
2. This synthetic material is “plastic” and may not be burned.
3. Wood that is painted or chemically treated may not be burned under state law.
4. These materials are specifically prohibited from open burning under state law.
5. These materials must be recycled under state and local recycling laws. They cannot be burned. (It is legal to use a small amount of paper or cardboard material to kindle a fire.)
6. These materials contain resins and glues making them unsuitable for burning. They are not “dry unpainted, untreated wood” as referenced and exempted in the law.
7. Even though state law allows burning after removing any plastic, many local recycling programs cover these materials. Recycling is a better alternative. If recycling is not an option, proper disposal is better than burning.
8. Even though state law allows burning, composting and/or beneficial use of this material is a better alternative.
9. Clean dry unpainted untreated wood is legal to burn, but if it isn’t going to be beneficially used for heating, consider options other than burning.
10. This waste paper material is not recyclable. Proper disposal is a better option than burning. Wet paper or paper mixed with plastic can’t be burned.
11. Individuals or businesses may not burn a building. The only exception is that a building may be burned only by a fire department for training purposes after notification to DNR and removal of illegal materials.

Remember:

- All materials emit pollutants when burned. Generally, the materials that cause the most toxic emissions are those that are prohibited from burning under state law. Try to avoid burning any waste material.
- If prohibited and allowed materials are mixed, they cannot be burned. Any prohibited materials must be removed before the allowed materials are burned.
- Check local ordinances! A local municipality may ban the burning of any material even if statewide regulations allow it.
- Check for burning permits. Even if the material is legal to burn, the DNR or the local municipality often requires a burning permit. During periods of high fire hazard, burning may be prohibited.

- Consider other alternatives. Even if the material is legal to burn, more environmentally sound alternatives are available.
- This information only applies to small quantities of household waste being burned on the same property where generated. The regulations do not allow businesses to burn the same materials that a household may. If in question, consult the regulations.
