During public comment, Dodgeville resident Steve DeMuth inquired about the status of the City Administrator position. Mayor Hottmann informed DeMuth that

applications for this position were set to close on Friday, June 12th. Lastly, DeMuth inquired about the city's interest in the Driftless Area Land Conservancy and asked what their intentions with this was. Mayor Hottmann informed DeMuth that at this time, the city had no interest in this building.

Pat Sieling (Dodgeville resident) gave kudos to Gary Bay from White Rose Florist for the hanging baskets downtown. Sieling also expressed concerns to council about the extension of premises request from Bob's Bitchin' BBQ, and asked council to consider reducing this request for parking stalls to 1 or 2 instead of the 3 that they are currently allowed to take as part of this extension.

Wendy Nipple (Dodgeville resident) expressed concerns to council including ice not being removed from handicapped stall, multiple sidewalks needing to be repaired, accessibility issues with the handicap stall at the Free Clinic, delay in response from open records requests, cancellation of Ordinance Committee meeting on May 7th, 2026, ADA coordinator still not being hired by the City, concerns with new hotel coming to Dodgeville, etc.

Carrie Larson (representative from a Dodgeville hotel) expressed concerns with bringing an additional hotel into the City. Larson stated that with the limited food options in Dodgeville, Larson asked council to consider helping current hotels/motels in Dodgeville, and instead encouraged bringing other businesses like coffee shops, etc to the city.

VI. REPORTS/RECOMMENDATIONS

8. Police Report

During the Police Report, Chief Wilhelm first gave thanks to the Council for approval of hiring of additional officers. Wilhelm then informed council that there were 323 calls for service for the month of May. Wilhelm also noted that the Ride Safe event was held at the Ley Pavilion on May 12th and 13th, and stated that 1,000+ kids attended this event. Wilhelm also gave kudos to Officer Pepper, who recently graduated 73 middle schoolers from the DARE program. Lastly, Chief Wilhelm noted that the downtown speed sign was not currently working, due to faulty batteries, but stated these would hopefully be up and running soon.

9. Chamber Update

During the Chamber report, Jenna Vondra (Chamber Director) noted that 892 paying attendees attended the Grilled Cheese Competition held in April 2026, in which people from multiple states including Wisconsin, Minnesota, Texas, etc were in attendance. Project Update

08 June 2026

Dodgeville Public Library Renovation and Expansion

The City of Dodgeville is pleased to share regular updates on the ongoing renovation and expansion of the Dodgeville Public Library. The project, which represents a significant investment in the community's educational and cultural future, continues to move forward on schedule.

Project Background

In 2014 a space needs study conducted by the Dodgeville Public Library Board of Trustees found the library "critically overcrowded" and recommended a 20,000+ square foot library. In February 2020, the City of Dodgeville passed a referendum for a \$7 million library, but the COVID pandemic paused these plans. In 2024, the City of Dodgeville was awarded a \$4.25 million grant from the State of Wisconsin to help fund the new library. Plans were developed for a library that will serve the people of Dodgeville and the surrounding area for the next generation. Thoughtful consideration went into improving efficiencies, creating a resilient space for emergencies, and developing a welcoming space that reflects the historic downtown - all while making choices to keep costs as low as possible.

Budget Outlook

The total project budget is \$8.95 million, supported by a \$4.25 million Flexible Facilities Project Grant, a \$1 million contribution from the Dodgeville Public Library Foundation, and \$3.7 million from the City of Dodgeville. To date, the project is 59% complete, and the City has been reimbursed \$3,368,325 million in grant funds. A reimbursement request of \$881,648 is outstanding.

Two change orders were recently approved - \$78,806.08 for a retaining wall, and \$14,509.76 for electrical and HVAC work associated with the elevator modernization. An additional change order to address hail damage to the original building's roof is forthcoming. The project remains under budget and updated figures will be shared each month.

Construction Progress

Addition - Masonry and air barrier work is ongoing. Mechanical, electrical, and plumbing work continues in the addition. Window installation should start shortly.

Existing Building - Painting has started on the main level. Cabinets and bathroom vanities are being installed.

Southwest corner showing brickwork and mechanical room exits

RE: Dodgeville well #8 Well Rehab Proposal

Brian,

Municipal Well and Pump appreciates the opportunity to submit this proposal for the rehabilitation of Well #8.

As noted in the televising report, the open borehole has significant biofilm growth throughout the well. We believe air shocking the well followed by a chemical rehabilitation will substantially clean the formation and may also reopen fractures, potentially improving well flow and performance.

While specific results cannot be guaranteed, we believe this is the most effective approach for cleaning and rehabilitating the well at this time.

We also recommend brushing the casing and re-televising the well to confirm the overall condition of the casing after cleaning.

Scope of Work

- Mobilize crew and equipment to Well #8
- Brush casing to remove scale and buildup
- Televis casing after brushing to inspect overall condition
- Air shock the well using compressed air to remove remaining biofilm and help reopen fractures within the borehole
- Install tremie pipe to approximately 700'
- Inject rehabilitation chemicals through the tremie pipe during installation to treat the entire open-hole formation
- Install temporary submersible pump assembly
- Circulate WD3100 and sodium hypochlorite through the pump and back down the tremie pipe to aggressively treat the well and formation
- Pump out debris and perform test pumping to evaluate rehabilitation progress
- Repeat chemical treatment process if necessary
- Bail out debris remaining at the bottom of the well

Re: Well #8 Pump Pull inspection report/televising report

Brian,

We have pulled the oil-lubricated pump assembly at Well #8 and completed an inspection of the pump, shafting, oil tube, discharge head, and stuffing box. The following report outlines our inspection findings and recommendations.

Well #8 Pump Assembly

We pulled a 12-stage 10LB Peerless bowl assembly pump with 6" column pipe, 1-1/2" carbon steel shafting, and 2-1/2" oil tube set at 400'.

Inspection Findings

Column Pipe

The total length of 6" column pipe is 400'. From our initial inspection, one 20' section will need to be replaced due to the faces being heavily pitted from corrosion.

The top 6" x 10" spool piece will also need to be replaced because of corrosion throughout the threads.

I would recommend sandblasting and epoxy coating all remaining pipe prior to reinstalling.

Line Shaft, Oil Tube, and Bearings

The line shaft is 1-1/2" carbon steel. One 1-1/2" x 20' shaft will need to be replaced, along with the head shaft and motor shaft. The remaining 19 shafts are in good condition and can be flipped and reused.

The assembly included eighty-two 2-1/2" x 5' oil tubes. Forty-three of these tubes will need to be replaced due to deep pitting throughout the faces. The remaining thirty-nine tubes should be sandblasted and epoxy coated prior to reuse.

The top tube connecting to the discharge head and the bottom tube adapter connecting to the bowl assembly will also need to be replaced because of wear and corrosion.

The bronze oil tube bearings were inspected, and twenty-four bearings will need replacement because they are out of tolerance due to age and normal wear.

Bowl Assembly and Motor

The existing bowl assembly is a Peerless 10LB 13-stage pump. If this bowl assembly is intended for long-term operation, I would recommend replacement due to the age and condition of the bowl castings. The castings are becoming soft externally, and I do not feel the assembly would reliably last another 10+ years. If the pump is only intended for short-term use, I would recommend rebuilding the bowl assembly with new bearings and wear rings.

The existing 75 HP VHS motor is currently being inspected. At this time, it is assumed to be in good condition and suitable for refurbishment.

Discharge Head and Oil Box

The discharge head is in good condition and can be sandblasted and primed for reinstall.

The oil tube tensioner will need to be replaced due to wear.

These repairs are recommended if the pump assembly will remain in long-term service. If it will be reinstalled for short-term use only, some repairs may not be necessary. We can discuss these options further after you review the report.

For long-term operation, I would recommend replacing the oil-lubricated pump assembly with either a submersible or water-lubricated line shaft pump. The oil lubrication system increases the rate of biofilm growth, which contributes to plugging and water quality issues.

Additionally, if lowering the pump is being considered in the future, it would be significantly more cost-effective to purchase materials for either of these alternative systems, especially a submersible pump assembly.

Well Televising Report

After reviewing the televising video, the 14" casing appears to contain a significant amount of scale buildup. I did not observe any evidence of holes in the casing or cascading water entering through the casing wall.

I would recommend brushing the casing and re-televising the well to better confirm the overall condition.

The static water level is approximately 257', which is about 5' below the casing. Within this interval, there was no visible evidence of cascading water. However, cascading water may occur during pumping cycles as the well draws down. This well experiences significant drawdown, so this remains a real possibility.

The rock formation generally appears to have good structural integrity. From approximately 252' to 267', the formation appears somewhat loose, but I do not believe this should create operational issues. Below 267', no sloughing or bridging was observed throughout the open hole.

There does appear to be a significant buildup of iron bacteria, biofilm, or other organic material coating the rock formation beginning below the static water level at 257'. In my opinion, this buildup has contributed to the well's decline in performance over the past 20 years.

If left untreated, the biofilm will continue to grow and likely further reduce well efficiency. To restore performance and manage the buildup, I recommend rehabilitating the well by air shocking it with compressed nitrogen to clean the borehole, followed by a chemical treatment to break down and remove the biofilm and iron. This approach would be similar to the rehabilitation completed on Well #6.

If you would like to explore this option further, please let me know.

The rehabilitation may also help reduce some of the iron buildup that caused restrictions within the pump assembly in the short term. Unfortunately, due to the chemistry of the water, iron fouling will always remain an ongoing issue.

Because of this, my recommendation would be to inspect and pull the pump assembly more frequently rather than waiting another twenty years between pulls.

Re: Agreement Amendment No. 2
TID No. 3 – Bennet Rd & USH 18 – Dodgeville, WI

Dear Barry:

We propose to amend our current Agreement (dated December 3rd, 2024) for engineering consulting services for the TID No. 3 – Bennet Rd and USH 18 Infrastructure project to include the additional services requested. The following services shall be provided:

I. PROJECT UNDERSTANDING:

The City has signed a Development Agreement to move forward with a hotel development which will extend the frontage road currently under design for the Pizza Ranch development (Exhibit A). It is anticipated that the overall frontage road will be bid out together for both developments.

II. SCOPE OF ADDITIONAL SERVICES:

A. Task 1 – Design Phase

1. Conduct a kick-off meeting with the Client to review project requirements, overall concept plan, and design considerations.
2. Coordinate with a subconsultant to complete wetland delineation.
3. A topographic survey was completed in 2024 as part of the Preliminary Site Assessment. Update the existing topographic survey as necessary to verify all current improvements on site.
4. Prepare a base map of the existing conditions for use in the design of the improvements.
5. Update the concept plan to complete 60% design plans for the desired street and utility improvements. The 60% design shall be used to identify any additional design challenges or limiting features affecting the design. The 60% design shall be shared with Client Staff to review prior to preparing the final design. This scope includes up to one design phase meetings with Client Staff as necessary.
6. Coordinate with dry utilities to address any identified conflicts and/or consider any upgrades the utility company may be considering.

7. Prepare final plans of the proposed improvements. Final plans shall include:
 - a) Title Sheet
 - b) Typical Sections and General Notes
 - c) Existing Conditions
 - d) Legend and Contact Information
 - e) Demolition Plan
 - f) Plan and Profile Sheets
 - g) Utility Plan and Profile Sheets
 - h) Erosion Control Plan
 - i) Construction Details per City and/or Regulatory Standards
8. Prepare project bidding documents.
9. Update the Opinion of Probable Cost to reflect the final design and bid quantities.
10. Prepare and submit regulatory agency permits required to gain approval to construct the improvements. Permits anticipated to be required include:
 - a) WDNR Water Main Extension
 - b) WDNR Notice of Intent (Per NR 151.24(3))
 - c) WisDOT Work in Right-of-Way

All necessary supplemental calculations for submittal of said permit applications are included in this item. All permit and review fees are the responsibility of the Client. Consultant shall coordinate with Client to obtain payment and submit fee with all permit or review applications.

B. Task 2 – Bidding Phase

1. Coordinate the bidding process including issuing bidding documents through QuestCDN.com online bid document distribution service. Answer questions during the bid process to provide clarification to the bid documents and issue addenda if necessary.
2. Attend a virtual bid opening and prepare a tabulation of the bids received.
3. Make a recommendation to the Client concerning the award of the project to the lowest responsible bidder.
4. Coordinate securing a contract between the Owner and Contractor using standard Engineer's Joint Contract Documents Committee (EJCDC) documents.

C. Task 3 – Contract Administration Phase

1. Coordinate a preconstruction conference with the Client, Contractor, Utility Companies, and others as determined necessary.
2. Construction Staking: Consultant shall provide one-time horizontal and vertical staking consisting of the following:

- a) Watermain: Consultant shall provide horizontal and vertical locations for the watermain along the alignment. Staking shall include one trip and shall include bends, valves, hydrants, and offsets at 100' intervals.
 - b) Storm Sewer: Storm sewer shall be staked including offsets at structures and at intervals of approximately 100' along pipe runs. Stakes shall indicate an offset distance to the pipe and include a cut/fill to the pipe flow line. This work assumes 4 trips to stake the storm sewer.
 - c) Laterals: Sewer and water laterals shall be staked including offsets to the lateral ends with offset distances to lateral ends and curb stops.
 - d) Subgrade Staking: The subgrade elevation (for streets) shall be staked at 50' intervals along the alignment of the roadway. The offsets shall include a distance to the centerline and a cut/fill to the subgrade elevation.
 - e) Lot 1 Rough Grading: The subgrade elevation (parking lots and driveways) shall be staked in a grid pattern over the parking areas at intervals not to exceed 100'. A cut/fill shall be provided to the subgrade elevation.
 - f) Curb & Gutter: Curb & Gutter staking shall consist of offsets along the curb alignment. Offsets shall be at 25' intervals located 2'-3' behind the back of curb. Cut/fill elevations shall be provided to the finished elevation of the top of curb.
 - g) Staking provided shall be for the sole use by the Client for the purpose intended. Consultant shall not be responsible for work performed by others use of the stakes provided.
 - h) Staking shall be completed at the request of Client provided a minimum of 48 hours' notice is given.
 - i) Staking assumes that the ground elevation shall be within 1-foot of the finished sub-grade elevation for each item to be staked and the site shall be free and clear of any obstructions that would prevent the stakes from being placed in the required locations.
 - j) This contract assumes a one-time staking for each of the various components described. Any re-staking that may be required shall be completed as an additional service on a time and expense basis.
- 3. Review contractor submitted pay applications and recommend action to the Client.
 - 4. Coordinate with WEDC regarding reimbursement of Idle Sites Grant.
 - 5. Review and make recommendations on contractor-requested change orders.
 - 6. Provide general project management and coordination throughout construction.
 - 7. Upon completion of the work, Consultant shall compile for, and deliver to, City of Dodgeville a set of record documents conforming to information furnished to Consultant in part, by construction contractors. This set of documents shall consist

of record drawings showing the reported location of work. Since record drawings are based in part, on information provided by others, Consultant shall have no responsibility for the accuracy of the modified information other than for record information collected in the field by Consultant.

D. Task 4 – Construction Observation

1. Provide a Project Representative (PR) to observe construction activities. The PR shall be on-site on a part-time basis during construction. The presence of the PR shall not relieve the contractor of their obligations to conform to the requirements of the agreement between the Owner and Contractor.
2. Provide weekly project summaries to Client Staff for distribution to Client Officials and affected businesses and residents. Weekly summaries shall include brief descriptions of work completed during the preceding week and planned activities for the upcoming week.
3. Complete a site visit at project completion to develop a punch-list. Coordinate completion of punch-list with contractor to gain project acceptance.

III. SERVICES NOT PROVIDED AS PART OF THIS PROJECT

In addition to the “Services Not Provided as Part of This Contract” section indicated in the attached General Terms and Conditions, the following services are not included as part of this work.

- A. Traffic counts or analysis to determine geometric design negotiations for property rights acquisitions or special assessments.
- B. Wetland Delineation (Coordinated with Subconsultant)

IV. INFORMATION PROVIDED BY OTHERS

In order to complete our scope of services, the following information shall be provided by others:

- A. Record drawings within the project limits to the extent they exist.
- B. Existing soil conditions within the project limits.
- C. Limits of sanitary sewer replacement.
- D. Input as to the desired typical section.

V. SCHEDULE

This Agreement is based upon the following anticipated schedule:

Activity	Date
A. Award of Civil Design Contract	June 16th, 2026
B. Field Data Collection	June 2026
C. Preliminary Design	June 2026
D. Final Plans, Bidding Documents & Regulatory Submittals	July 2026
E. Bid Process	July-Aug 2026
F. Contract Award	August 2026
G. Construction Start	September 2026
H. Construction Complete	May 2027

VI. SCHEDULE OF DELIVERABLES

The following deliverables shall be provided to the Client throughout the course of the project:

- A. Appropriate submittals to WDNR and the Client for water system and sanitary sewer system improvements.
- B. NOI submittal (Per NR 151).
- C. Plans and specifications for bidding.
- D. Bid tabulation.
- E. Computerized (Microsoft Word, Excel, AutoCAD compatible) copy of plans, contract volume, cost estimate, bid tabulation, and record drawings. Records to include PDFs of each plan sheet and construction photographs of utility connections and service laterals.

VII. DESIGNATION OF RESPONSIBLE PARTIES

The designated responsible parties representing the Client and Consultant, respectively, shall have authority to transmit instructions, receive information, and render decisions relative to the project on behalf of each respective party.

Overall coordination and project supervision for Consultant is the responsibility of Logan Hansen, Project Manager. He, along with other personnel, shall provide the services required for the various aspects of the project. Please direct all communications that have a substantive impact on the project to Logan Hansen.

The Client designates Dylan Wadzinski as its representative. Consultant shall direct all communications that have a substantive impact on the project to that individual, and that individual's responses shall be binding on the Client.

VIII. FEES

	4. <u>Task 4</u> : Construction Observation & Staking (Estimate)*	\$7,000
	TOTAL AMENDMENT No.2	\$39,500
D.	Current Total Agreement Amount:	\$103,650

* Observation will be charged for on-site time only. No travel time will be charged for the project.

- E. These fees assume that the work will be completed within the time frame set forth herein. If significant delays to the project occur, which are not due to the negligence of the Consultant including, by way of example and not limitation, decisions of the Client, regulatory approvals, deferrals to the next construction season or calendar year, etc., the Consultant reserves the right to negotiate and adjust an appropriate change to the fees.
- F. Reimbursable expenses are not included in the above stated fees. Fees such as recording documents and permitting shall be billed as reimbursables.

All other terms and conditions of the original Agreement remain in effect.

If the Agreement amendment is acceptable, please sign below and return one executed copy to our Reedsburg office.

Sincerely,

Logan Hansen, PE
Project Manager

Re: Agreement for Engineering Consulting Services
Bea Ann Drive
Dodgeville, WI

Dear Barry:

Vierbicher Associates, Inc. (Consultant) is pleased to submit this Agreement to provide Engineering Consulting Services to City of Dodgeville (Client). All sections included in this Agreement and the General Terms and Conditions form the basis for this Agreement.

I. PROJECT UNDERSTANDING

The project involves a partial reconstruction of Bea Ann Drive. Approximately 200LF of curb and gutter will be added, 60LF of storm sewer, a small storm detention basin, and ditch checks to aid in corrected drainage and erosion issues (Exhibit A).

II. SCOPE OF SERVICES

A. General

Consultant shall provide engineering services for the above project. These services include preparation of engineering drawings and specifications, applying for regulatory agency approval, bidding and contract award, and Contract Administration.

B. Specific Services Provided by Consultant

Task 1 – Design Phase

1. Complete a topographic site map that depicts existing features and conditions. The limits of the topographic site map shall extend 10 feet beyond each right-of-way and include existing surface features, utilities, roadway sections, and other elements that may affect the design. The topographic site map shall include locating existing monumentation to the extent that said monumentation is in existence at the time the field work is completed. Consultant has not attempted to verify property boundaries and/or right-of-ways as a part of locating existing monumentation. Said monumentation may, or may not, represent actual property boundaries and/or right-of-ways and does not constitute a property or right-of-way survey.

The topographic site map shall depict the following items:

- a) Features within the topographic site map limits include, but are not limited to, sidewalk, pavement, curb and gutter, curb cuts, driveways, utilities, utility poles, utility pedestals, utility structures, and signs.
- b) Substantial, visible, above-ground structures and improvements, including any existing buildings, driveways, and parking lots lying within the exterior boundaries of the subject site.
- c) Street trees and trees larger than 12" diameter at breast height (dbh).
- d) Utilities shall be shown based on maps provided to the Consultant by the City of Dodgeville, and as located in the field by Digger's Hotline. The size and invert elevation of sanitary sewers and storm sewers shall be measured by Consultant where practical. Where measurement of said utilities is not practical, size and invert elevations shall be shown based on available record drawings.
- e) The location of private utilities that are not within the standard scope of what would be marked as part of a diggers hotline locate request is not included in the scope. Client shall request private utility locates, if desired. Consultant shall coordinate this work as an additional service.
- f) Topographic survey shots shall be taken at regular intervals and in sufficient detail to prepare a digital terrain model within the exterior boundaries of the subject site.
- g) Contours at one-foot intervals shall be depicted. The Datum upon which the elevations and contours are based shall be noted on the face of the map, (i.e., assumed, NAVD27, NAVD88).

The topographic map does not constitute a boundary survey according to the Minimum Standards for Property Surveys, Chapter A-E7 of the Wisconsin Administrative Code. Consultant shall research available surveys of record and show the property boundary based on found surveys of record to the extent feasible.

- 2. Prepare a base map of the existing conditions for use in the design of the improvements.
- 3. Complete a preliminary design of the desired street and utility improvements. The preliminary design shall be used to identify any design challenges or limiting features affecting the design. The preliminary design shall be shared with Client Staff to review prior to preparing the final design. Preliminary design shall be shared with Client Staff on an ongoing basis to discuss various elements as they become apparent. This scope includes up to two design phase meetings with Client Staff as necessary.
- 4. Prepare a preliminary Opinion of Probable Cost based on the preliminary design for Client Staff to evaluate budget considerations.
- 5. Determine potential conflicts between the proposed construction and existing dry utilities (gas, electric, communication, etc.)

6. Coordinate with dry utilities to address any identified conflicts and/or consider any upgrades the utility company may be considering.
7. Prepare final plans of the proposed improvements. Final plans shall include:
 - a) Title Sheet
 - b) Typical Sections and General Notes
 - c) Existing conditions
 - d) Legend and contact information
 - e) Plan and Profile Sheets
 - f) Utility Plan and Profile Sheets
 - g) Erosion Control Plan
 - h) Construction details per City and/or regulatory standards
8. Prepare project bidding documents.

Task 2 – Contract Administration Phase

1. Coordinate a preconstruction conference with the Client, Contractor, Utility Companies, and others as determined necessary.
2. Construction Staking: Consultant shall provide one-time horizontal and vertical staking consisting of the following:
 - a) Storm Sewer: Storm sewer shall be staked including offsets at structures and at intervals of approximately 100' along pipe runs. Stakes shall indicate an offset distance to the pipe and include a cut/fill to the pipe flow line. This work assumes 4 trips to stake the storm sewer.
 - b) Curb & Gutter: Curb & Gutter staking shall consist of offsets along the curb alignment. Offsets shall be at 25' intervals located 2'-3' behind the back of curb. Cut/fill elevations shall be provided to the finished elevation of the top of curb.
 - c) Detention Basin Staking: Stakes shall be provided for rough grading and final grading to be completed in two trips.
 - d) Staking provided shall be for the sole use by the Client for the purpose intended. Consultant shall not be responsible for work performed by others use of the stakes provided.
 - e) Staking shall be completed at the request of Client provided a minimum of 48 hours notice is given.
 - f) Staking assumes that the ground elevation shall be within 1-foot of the finished sub-grade elevation for each item to be staked and the site shall be free and clear of any obstructions that would prevent the stakes from being placed in the required locations.
 - g) This contract assumes a one-time staking for each of the various components described. Any re-staking that may be required shall be completed as an additional service on a time and expense basis.
3. Review contractor submitted pay applications and recommend action to the Client.

- 4. Review and make recommendations on contractor-requested change orders.
- 5. Provide general project management and coordination throughout construction.

Task 3 – Construction Observation

- 1. Provide a Project Representative (PR) to observe construction activities. The PR shall be available on approximately a ½-time basis throughout the construction. The presence of the PR shall not relieve the contractor of their obligations to conform to the requirements of the agreement between the Owner and Contractor.
- 2. Complete a site visit at project completion to develop a punch-list. Coordinate completion of punch-list with contractor to gain project acceptance.

C. Additional Services if Requested by Client

If requested by Client, Consultant is prepared to provide the following additional services:

- 1. Public Bidding

NOTE: These services are not part of this Agreement. A separate Agreement or Amendment to this Agreement will be necessary to formally contract for this work.

III. SERVICES NOT PROVIDED AS PART OF THIS PROJECT

In addition to the “Services Not Provided as Part of This Contract” section indicated in the attached General Terms and Conditions, the following services are not included as part of this work.

- A. Traffic counts or analyses to determine geometric designs, negotiations for property rights acquisitions, or special assessments.

IV. INFORMATION PROVIDED BY OTHERS

In order to complete our scope of services, the following information shall be provided by others:

- A. Record drawings within the project limits to the extent they exist.
- B. Existing soil conditions within the project limits.
- C. Limits of sanitary sewer replacement.
- D. Input as to the desired typical section.

V. SCHEDULE

This Agreement is based upon the following anticipated schedule:

<u>Activity</u>	<u>Date</u>
A. Award of Civil Design Contract.....	June 2026
B. Field Data Collection.....	June 2026
C. Preliminary Design	July 2026
D. Final Plans,	July 2026
E. Contract Award	August 2026
F. Construction Start.....	August – September 2026
G. Construction Complete.....	September – October 2026

VI. SCHEDULE OF DELIVERABLES

The following deliverables shall be provided to the Client throughout the course of the project:

- A. Bid tabulation.
- B. Five hard copies of plans and specifications for bidding.
- C. Computerized (Microsoft Word, Excel, AutoCAD compatible) copy of plans, contract volume, cost estimate, bid tabulation, and record drawings. Records to include PDFs of each plan sheet and construction photographs of utility connections and service laterals.

VII. DESIGNATION OF RESPONSIBLE PARTIES

The designated responsible parties representing the Client and Consultant, respectively, shall have authority to transmit instructions, receive information, and render decisions relative to the project on behalf of each respective party.

Overall coordination and project supervision for Consultant is the responsibility of Logan Hansen, Project Manager. He, along with other personnel, shall provide the services required for the various aspects of the project. Please direct all communications that have a substantive impact on the project to Logan Hansen.

The Client designates Dylan Wadzinski as its representative. Consultant shall direct all communications that have a substantive impact on the project to that individual, and that individual's responses shall be binding on the Client.

VIII. FEES

A. The fees to provide the scope of services described herein is summarized as follows:

1.	Task 1: Design Phase (Fixed Fee)	\$10,500
2.	Task 2: Contract Administration (Fixed Fee)	\$2,800
3.	Task 3: Construction Observation (Estimate)*	\$1,500
	TOTAL	\$14,800

* This amount is based on two site visits.

B. These fees assume that the work will be completed within the time frame set forth herein. If significant delays to the project occur, which are not due to the negligence of the Consultant including, by way of example and not limitation, decisions of the Client, regulatory approvals, deferrals to the next construction season or calendar year, etc., the Consultant reserves the right to negotiate and adjust an appropriate change to the fees.

C. Reimbursable expenses are included in the above stated fees. Where sub-consultants are required, a 10% administrative charge has been included.

IX. GENERAL TERMS AND CONDITIONS

The General Terms and Conditions dated 4-1-22 and attached hereto are incorporated herein by reference.

Item 10 C of the General Terms and Conditions shall be revised to add the following language at the end of the section:

Nothing contained within this paragraph or Agreement is intended to be a waiver or estoppel of the Client or its insurer to rely upon the limitations, defenses, and immunities contained within Wisconsin law, including but not limited to, those contained within Wisconsin Statutes 893.80, 895.52, and 345.05. To the extent indemnification is available and enforceable, the Client or its insurer shall not be liable in indemnity or contribution for an amount greater than the limits of liability for municipal claims established by Wisconsin law.

We appreciate the opportunity to work with you on this project. If this Agreement is acceptable to you, please sign the Authorization below and return one copy to me at our Reedsburg office. Should you have any questions or require any additional information, please feel free to contact us.

Sincerely,

Logan Hansen, PE
Project Manager

**VIERBICHER ASSOCIATES, INC. (CONSULTANT)
GENERAL TERMS AND CONDITIONS OF SERVICES**

1. Services Not Provided as Part of This Agreement

Environmental studies, resident construction observation services, archaeological investigations, soil borings, geotechnical investigations, flood plain analysis, wetland delineations, public hearing representation, easements, property descriptions or surveys, negotiations for property rights acquisitions, and other detailed studies or investigations, unless specifically identified in this Agreement for Services, are not included as part of this work.

2. Hazardous Environmental Conditions

Unless specifically identified in this Agreement for Services, it is acknowledged by both parties that Consultant's scope of services does not include any services related to the discovery, identification, presence, handling, removal, transportation, or remediation at the site, or the inspection and testing of hazardous materials, such as asbestos, mold, lead paint, PCBs, petroleum, hazardous waste, or radioactive materials. Client acknowledges that Consultant is performing professional services for Client, and Consultant is not and shall not be required to become an "arranger," "operator," "generator" or "transporter" of hazardous substances as defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1990 (CERCLA). Client shall defend, indemnify and hold Consultant harmless from and against any CERCLA-based claims.

3. Additional Services

The Scope of Services in this Agreement is intended to cover services normally required for this type of project. However, occasionally events occur beyond the control of the Consultant or the Client that create a need for additional services beyond those required for a standard agreement.

The Consultant and/or Client shall promptly and in a timely manner bring to the attention of the other the potential need to change the Scope of Services set forth above, necessitated by a change in the Scope of Project, Scope of Services, or the Schedule. When a change in the Scope of Services, Schedule, or Fees is agreed to by the Consultant and Client, it shall be initiated by written authorization of both parties.

4. Client's Responsibility

- A. Provide Consultant with all criteria and full information as to Client's requirements for the project, including design objectives and constraints, capacity and performance requirements, flexibility, expandability, and any budgetary limitations; furnish previous plans, studies and other information relevant to the project; furnish copies of all design and construction standards which Client will require to be included in the drawings and specifications; and furnish copies of Client's standard forms, and conditions, including insurance requirements and related documents for Consultant to include in the bidding documents, or otherwise when applicable.
- B. Furnish to Consultant any other information pertinent to the project including reports and data relative to previous designs, or investigations at or adjacent to the site, including hazardous environmental conditions and other data such as reports, investigations, actions or citations.
- C. Consultant shall be entitled to rely, without liability, on the accuracy and completeness of any and all information provided by Client, Client's Consultants and contractors, and information from public records, without the need for independent verification.
- D. Arrange for safe access to and make all provisions for Consultant to enter upon public and private property as required for Consultant to perform services under this Agreement.

- E. Examine all alternate solutions, studies, reports, sketches, drawings, specifications, proposals, and other documents presented by Consultant and render timely decisions pertaining thereto.
- F. For projects involving construction, attend any pre-bid conference, bid opening, pre-construction conferences, construction progress and other job related meetings, and substantial completion and final payment inspections.
- G. For projects involving construction, if more than one prime contract is to be awarded for the work designed or specified by Consultant, designate a person or entity to have authority and responsibility for coordinating the activities among the various prime contractors, and define and set forth in writing the duties, responsibilities, and limitations of authority of such individual or entity and the relation thereof to the duties, responsibilities, and authority of Consultant.
- H. For projects involving construction, retain a qualified contractor, licensed in the jurisdiction of the Project to implement the construction of the Project. In the construction contract, Client shall require Contractor to: (1) obtain Commercial General Liability Insurance and auto liability insurance and name Client, Consultant, and Consultant's employees and subconsultants as additional insureds of those policies; and (2) indemnify and hold harmless Client, Consultant, and Consultant's employees and subconsultants from and against any and all claims, damages, losses, and expenses ("Claims"), including but not limited to reasonable attorneys' fees and economic or consequential damages, arising in whole or in part out of any act or omission of the Contractor, any subcontractor, or anyone directly or indirectly employed by any of them.
- I. If Client designates a Construction Manager or Contractor or an individual or entity other than, or in addition to, Consultant to represent Client at the site, the Client shall define and set forth in writing the duties, responsibilities, and limitations of authority of such other party and the relation thereof to the duties, responsibilities, and authority of Consultant as defined in this Agreement.
- J. Provide information relative to all concealed conditions, subsurface conditions, soil conditions, as-built information, and other site boundary conditions. Consultant shall be entitled to rely upon the accuracy and completeness of such information. If Client does not provide such information, Consultant shall assume that no conditions exist that will negatively affect the Scope of Services or Project and Client will be responsible for extra costs and/or damages resulting from the same.

5. Additional General Considerations (for projects involving construction)

- A. Consultant shall not at any time have any responsibility to supervise, direct, or have control over any contractor's work, nor shall Consultant have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any contractor, for safety precautions and programs incident to a contractor's work progress, nor for any failure of any contractor to comply with laws and regulations applicable to contractor's work.
- B. Consultant neither guarantees the performance of any contractor nor assumes responsibility for any contractor's failure to furnish and perform its work in accordance with the contract between Owner and such contractor.
- C. Consultant shall not be responsible for the acts or omissions of any contractor, subcontractor or supplier, or of any contractor's agents or employees or any other persons (except Consultant's own employees) at the project site or otherwise furnishing or performing any of construction work; or for any decision made on interpretations or clarifications of the

construction contract given by Owner without consultation and advice of Consultant.

6. Fees

- A. The fees set forth in this Agreement are based on the assumption that the work will be completed within the time frame set forth herein. If significant delays to the project occur, which are not due to the negligence of the Consultant, e.g. decisions of the Client, regulatory approvals, deferrals to the next construction season or calendar year, etc., the Consultant reserves the right to negotiate and adjust an appropriate change to the fees.
- B. Consultant may submit invoices monthly for work completed to date. Fixed fees will be submitted on the basis of percent of the Scope of Services completed. Estimated fees will be submitted on the basis of time and expense incurred in accordance with Consultant's fee schedule in effect at the time the costs are incurred.
- C. Invoices are due upon receipt. For invoices not paid after 30 days, interest will accrue at the rate of 1 ½% per month. Payments will be credited first to interest and then to principal. In the event any portion of the account remains unpaid after 90 days after the billing, Consultant may initiate collection action and the Client shall be responsible for all costs of collection, including reasonable attorneys' fees. As a matter of business practice, Consultant would intend to file lien rights against the property if payment is not received before lien rights would expire. Consultant shall have the right to suspend its services without any liability arising out of or related to such suspension in the event invoices are not paid within 30 days of receipt.
- D. When estimates of fees or expenses are quoted, they are simply that, estimates. Actual costs invoiced may be higher or lower due to actual fees or expenses incurred. When fees or expenses are anticipated to be higher or lower than estimated, Consultant shall make every effort to inform Client in a timely manner, even prior to incurring the costs, if possible.
- E. Consultant will bill additional services, if requested, in accordance with the fee schedule in effect at the time the work is performed or as otherwise negotiated.

7. Sales Tax for Landscape Design Services

State and local sales tax will be applied to projects for Landscape Design Services, where applicable. The sales tax will be reflected on regular Client invoices. Should sales tax be imposed, they shall be in addition to Consultant's agreed upon compensation.

Those services subject to the sales tax will be identified in the Agreement and on invoices sent to the Client.

Applicable sales tax will not be applied to projects for Landscape Design Services if the Client provides a Tax Exempt Certificate.

8. Dispute Resolution

In the event a dispute shall develop between the Client and the Consultant arising out of or related to this Agreement, the Client and Consultant agree to use the following process to resolve the dispute:

- A. The Client and Consultant agree to first negotiate all disputes between them in good faith for a period of at least 30 days from notice first being served in writing to the Client or Consultant of the dispute.
- B. If the Client and Consultant are unable to resolve the dispute by negotiation as described above, the Client and Consultant agree to submit the dispute to non-binding mediation. Such mediation shall be conducted in accordance with Construction Industry Dispute Resolution procedures of the American Arbitration Association.

- C. If the Client and Consultant are unable to resolve the dispute by negotiation or by mediation, they are free to utilize whatever other legal remedies are available to settle the dispute subject to the "Controlling Laws" section of these General Terms and Conditions located below.

9. Insurance

A. Consultant

Consultant maintains general liability and property insurance; vehicle liability; and workers' compensation coverage meeting state and federal mandates. Consultant also carries professional liability insurance. Certificates of Insurance will be provided upon written request.

B. Client

The Client shall procure and maintain, at its expense, general liability, property insurance and, if appropriate, workers' compensation and builders risk insurance. Client waives all claims against the Consultant arising out of losses or damages to the extent such losses or damages are covered by the foregoing insurance policies maintained by the Client.

C. Contractor

For projects involving construction, Contractor shall procure, as directed by the Client and/or as provided in the specifications or general conditions of the contract for construction, Certificates of Insurance for the type and amounts as directed by the Client, and shall require the Contractor to name the Client and Consultant as an additional insured under the Contractor's general and auto liability policies as defined in 4.H. above.

10. Limitations of Liability/Indemnity

A. Definitions:

- 1) Contract Administration. Contract Administration includes services related to construction as outlined in the Agreement. These services may include Construction Staking, Construction Observation, and/or Administration of the Construction Contract between the Owner and Contractor.
- 2) Construction Documents. Documents (plans, and/or specifications) conveying a design intent, used by a qualified, capable Contractor for construction of a project.

B. Limitation of Liability

In recognition of the relative risks, rewards and benefits of different types of projects to both the Client and Consultant, the risks have been allocated such that the Client agrees to the following depending upon the services outlined in the Agreement.

- 1) For Agreements that include Contract Administration or the development of construction documents with Contract Administration:

The Consultant, Consultant's subconsultants (if any), and their agents or employees shall not be jointly, severally, or individually liable to Client for any and all injuries, damages, claims, losses or expenses arising out of this Agreement from any cause or causes in excess of the available limits of Consultant's professional liability insurance policy. Such causes include, but are not limited to, Consultant's negligence, errors, omissions, strict liability, or breach of Agreement.
- 2) For Agreements that include the development of construction documents but do not include Contract Administration services as outlined in the Agreement:

The Consultant, Consultant's subconsultants (if any), and their agents or employees shall not be jointly, severally, or individually liable to Client for any and all injuries, damages, claims, losses or expenses arising out of this Agreement from any cause or causes in excess of five times the fee received by the Consultant, not including reimbursable subconsultant fees and expenses, or the available limits of Consultant's professional liability insurance policy, whichever is less. Such causes include, but are not limited to, Consultant's negligence, errors, omissions, strict liability or breach of Agreement.

- 3) For Agreements that do not include the development of construction documents or Contract Administration services as outlined in the Agreement:

The Consultant, Consultant's subconsultants (if any), and their agents or employees shall not be jointly, severally, or individually liable to Client for any and all injuries, damages, claims, losses or expenses arising out of this Agreement from any cause or causes in excess of two times the fee received by the Consultant, not including reimbursable subconsultant fees and expenses, or the available limits of Consultant's professional liability insurance policy, whichever is less. Such causes include, but are not limited to, Consultant's negligence, errors, omissions, strict liability or breach of Agreement.

- C. Client and Consultant each agree to indemnify and hold the other harmless, and their respective officers and employees from and against liability for losses, damages and expenses, including reasonable attorneys' fees recoverable under applicable law, to the extent they are caused by the indemnifying party's negligent acts, errors or omissions. In the event claims, losses, damages or expenses are caused by the joint or concurrent negligence of Client and Consultant, they shall be borne by each party in proportion to its negligence (whether sole, concurrent, or contributory). Neither Client nor Consultant shall have a duty to provide the other an up-front defense of any claim.
- D. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Client or Consultant to any contractor, subcontractor, supplier, other individual or entity, or to any surety for or employee or any of them.

All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Client and Consultant and not for the benefit of any other party.

11. Betterment

If any item or component of the Project is required due to the omission from the construction documents, Consultant's liability shall be limited to the reasonable costs of correction of the construction, less the cost to Client if the omitted component had been initially included in the contract documents. All costs of errors, omissions, or other changes that result in betterment to the Project shall be borne by Client and shall not be a basis of claim against Consultant. It is intended by this provision that Consultant will not be responsible for any cost or expense that provides betterment, upgrade, added value, or enhancement of the Project.

12. Use of Documents

All documents prepared or furnished by Consultant pursuant to this Agreement are instruments of Consultant's professional service, and Consultant shall retain all ownership and property interest therein, including all copyrights. Consultant grants Client a license to use instruments of Consultant's professional service for the purpose of planning, constructing, occupying or maintaining the project or as otherwise intended. Reuse or modification of any such documents by Client, without Consultant's written permission and professional involvement in the applicable reuse or modification, shall be at Client's sole risk, and Client agrees to waive all claims against and defend, indemnify and hold Consultant harmless from

all claims, damages and expenses, including attorneys' fees, arising out of such reuse by Client or by others acting through Client.

13. Survey Stakes for Construction (for projects involving construction)

Stakes placed by Consultant for use by the Contractor shall only be used for the specific purpose indicated. Any use of stakes by the Client for purposes other than indicated and/or communicated by the Consultant, without Consultant's written permission, shall be at Client's sole risk, and Client agrees to indemnify and hold Consultant harmless for all claims, damages and expense, including attorneys' fees, arising out of such unauthorized use by Client or others acting through Client.

14. Use of Electronic Media

Copies of documents that may be relied upon by Client are limited to the printed copies (also known as hard copies) that are signed or sealed by Consultant except for electronic copies of documents available for printing by contractors during bidding and/or construction from QuestCDN.com or as specified in this Agreement for Services or as specifically indicated in writing by Consultant. Files in electronic formats, or other types of information furnished by Consultant to Client such as text, data or graphics, are only for convenience of Client. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk. When transferring documents in electronic formats, Consultant makes no representations as to long-term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems or computer hardware differing from those in use by Consultant at the beginning of the project.

15. Opinions of Cost

When included in Consultant's scope of services, opinions or estimates of probable construction cost are prepared on the basis of Consultant's experience and qualifications and represent Consultant's judgment as a professional generally familiar with the industry. However, since Consultant has no control over the cost of labor, materials, equipment or services furnished by others, over contractor's methods of determining prices, or over competitive bidding or market conditions, Consultant cannot and does not warrant or guarantee that proposals, bids, or the actual construction cost will not vary from Consultant's opinions or estimates of probable construction cost.

16. Approvals

Client acknowledges that the approval process necessary to estimate or maintain a project timeline is both unpredictable and outside the Consultant's control. Consultant does not guarantee reviews or approvals by any governing authority or outside agency, nor the ability to achieve or maintain any project timeline.

17. Certifications

Consultant shall not be required to sign any documents, no matter by whom requested, that would result in Consultant's having to certify, quantify, or warrant the existence of conditions that Consultant cannot ascertain or otherwise represent information or knowledge inconsistent with Consultant's scope of services for the Project.

18. Third Parties

Nothing contained in this Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against either the Client or Consultant. Consultant's services hereunder are being performed solely for the benefit of the Client, and no other entity shall have any claims against Consultant because of this Agreement or Consultant's performance of services hereunder.

19. No Express or Implied Warranty

Consultant makes no representation nor does consultant extend any warranty of any kind, either express or implied, to client with respect to this agreement or the project and hereby disclaims all implied warranties of merchantability, fitness for a particular purpose, or noninfringement of the intellectual property rights of third parties with respect to any and all of the foregoing.

20. Damages Waiver

In no event shall consultant be liable to client, or anyone, for any consequential, incidental, indirect, special, punitive, or exemplary damages including, without limitation, loss of use, lost income, lost profits, loss of reputation, unrealized savings, diminution in property value, cost of replacement, business or goodwill, suffered or incurred by such other party in connection with the this agreement or the project, arising out of any and all claims including, but not limited to, tort, strict liability, statutory, breach of contract, and breach of express and implied warranty claims (should it be determined that such warranty claims survive the disclaimers set forth in this agreement).

21. Standard of Care

The Standard of Care for all professional services performed or furnished by Consultant under this Agreement shall be the skill and care used by members of Consultant's profession practicing under similar circumstances or similar scope of services at the same time and in the same locality.

22. Termination

The obligation to provide further services under this Agreement may be terminated:

A. For Cause

- 1) By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof, through no fault of the terminating party. The failing party shall have the right, within 30 days, to correct or remedy the cited failures.
- 2) By Consultant
 - a) Upon seven days written notice if Consultant believes that he is being requested by Client to furnish or perform services contrary to Consultant's responsibilities as a licensed professional. Consultant shall have no liability to Client on account of such termination.
 - b) Upon seven days written notice if the Consultant's services for the project are delayed or suspended for more than 90 days for reasons beyond Consultant's control.
 - c) Upon seven days written notice if the Client has failed to pay for previous services rendered and/or if his account is more than 60 days past due.

B. To Discontinue Project

By Client effective upon the receipt of notice by Consultant.

C. Reimbursement for Services

Consultant shall be reimbursed for all services and expenses rightfully incurred prior to termination.

23. Force Majeure/Project Schedule

Neither party shall be deemed in default of this Agreement to the extent that any delay or failure in the performance of its obligations results from any cause beyond its reasonable control and without its negligence. . In the event Consultant is hindered, delayed, or prevented from performing its obligations under this Agreement as a

result of any cause beyond its reasonable control, including but not limited to delays due to power or data system outages, acts of nature, public health emergencies including but not limited to infectious disease outbreaks and pandemics, governmental orders or directives, failure of any governmental or other regulatory authority to act in a timely manner, failure of the Client to furnish timely information or approve or review Consultant's services or design documents, or delays caused by faulty performance by Client's contractors or consultants, the time for completion of Consultant's services shall be extended by the period of resulting delay and compensation equitably adjusted. Client agrees that Consultant shall not be responsible for damages, nor shall the Consultant be deemed in default of this Agreement due to such delays.

24. Successors, Assigns and Beneficiaries

- A. Client and Consultant each is hereby bound and the partners, successors, executors, administrators and legal representatives of Client and Consultant are hereby bound to the other party by this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements and obligations of this Agreement.
- B. Neither Client nor Consultant may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty of responsibility under this Agreement.

25. Municipal Financial Advisor Services

The Consultant is not registered with the Securities and Exchange Commission as a municipal advisor. Consultant does not perform municipal advisory services (as covered under the Dodd-Frank Wall Street Reform and Consumer Protection Act, signed into law on July 21, 2010, as it relates to financial products and services). In the event Client desires such services, it is the Client's responsibility to retain an independent registered advisor for that purpose.

26. Controlling Laws

This Agreement is to be governed by the laws of the state in which the project is located and in force at the time of completion of deliverables.

27. Entire Agreement

These General Terms and Conditions and the accompanying Agreement constitute the full and complete Agreement between Client and Consultant and supersedes all prior understandings and agreements between the parties and may be changed, amended, added to, superseded, or waived only if Client and Consultant specifically agree in writing to such amendment of the Agreement. There are no promises, agreements, conditions, undertakings, warranties, or representations, oral or written, express or implied, between the parties other than as set forth in these General Terms and Conditions and accompanying Agreement. In the event of any inconsistency between these General Terms and Conditions, the proposal, Agreement, purchase order, requisition, notice to proceed, or like document, these General Term and Conditions shall govern.

28. Authority

The person signing the accompanying agreement acknowledges that if the person is signing in a capacity other than individually, the execution and delivery of this document has been duly authorized and the member, owner, officer, partner or other representative who is executing this document have the full power, authority and right to do so, and that such execution is sufficient and legally binding on the entity on whose behalf this document is signed, to enable the document to be enforceable in accord with its terms.

Such reserved parking shall be appropriately indicated by the erection of signs.
- (j) *Parking in Alleys Regulated.* All parking in alleys is prohibited, except in alleys in the business district for the purpose of loading or unloading freight.
- (k) *Parking in Driveways Prohibited.* No person shall park or leave standing any motor vehicle in any private driveway without the permission of the owner or lessee of the property upon which such driveway is located, whether or not such driveway is posted to prohibit parking.
- (l) *Street Maintenance.* Whenever it is necessary to repair a City street or any part thereof, the Director of Public Works shall post such street or parts thereof with appropriate signs prohibiting parking. Such signs shall be erected at least 2 hours prior to the time that street maintenance work is to be commenced. No person shall park a motor vehicle in violation of such signs.
- (m) *Designated Parking Spaces.* The Chief of Police, with the cooperation of the Director of Public Works, shall cause lines or markings painted upon the curb and/or upon the street or parking lot surface for the purpose of designating a parking space. It shall be unlawful to park any vehicle across any line or marking or to park a vehicle in such position that the same shall not be entirely within the area designated by such lines or markings. It shall be unlawful for any person to park in an area where the curb or pavement has been painted yellow.
- (n) *Removal of Chalk Marks Prohibited.* In order to monitor the continuous length of time that a vehicle is parked in a parking space or zone subject to parking time restrictions, it is necessary that the Police Department place a chalk mark or other mark on one or more tires of parked vehicles. It shall be unlawful to remove, erase or alter, or attempt to remove, erase or alter, any chalk mark or other mark of any kind placed upon any tire of a vehicle parked in any parking zone or space subject to parking time restrictions.
- (o) *Legal Holidays Designated.* For purposes of enforcement of parking restrictions in the City, the following days shall be defined as legal holidays:
- (1) New Year's Day;
 - (2) Labor Day;
 - (3) Memorial Day;
 - (4) Thanksgiving Day;
 - (5) Independence Day;
 - (6) Christmas Day;

provided, however, that in the event any of said days falls on a Sunday, the following Monday shall be deemed to be the legal holiday.

(p) *Handicapped Parking Spaces.* Except for a motor vehicle used by a physically disabled person, as defined under §346.503(1), Wis. Stats., no person may park, stop or leave standing a vehicle in the following designated parking spaces, which are hereby reserved for vehicles displaying special registration plates issued under §341.14(1), (1a), (1m), (1q) or (1r)(a) or a special identification card issued under §343.51, Wis. I would make a recommendation for approval based on no known information to deny the license at this time. I note that I have not had the ability to conduct a walk thru as the business is not yet open. A compliance check can be conducted at time of established business.
