REQUEST:

The applicant, Mr. John Bannon of Wood & Associates Engineering, LLC is requesting that the property be used for a mini warehouse. The use of mini warehouse is permitted in the Industrial (IL) zoning classification through the approval of a special exception. The requested use is consistent with the Land Development Code.

The proposed use for the site shall be for a mini warehouse self-storage facility. Hours of Operation shall be from 8 AM to 5 PM. There shall be approximately 5 to 10 number of employees. Storage facility renters shall have 24-hour access to their units via access codes and pin pads at the entrance to the facility. The site will be secured with security fencing and video monitoring. There will be an estimated 13 metal mini-storage buildings, however, the number of storage units within the buildings is preliminary and may vary based on market demand for certain unit sizes, climate control, etc. We estimate approximately 600 to 700 storage units at site buildout. Also, there is currently one steel frame building that has four bays that are being used for mechanical shops.

These may include, but are not limited to, requiring restrictions on hours of operation and size of buildings, additional landscape and buffer areas, limiting vehicular access points and location of off-street parking, and similar conditions. Violation of any such condition or safeguard shall be deemed a violation of the Land Development Regulations and may result in a revocation of any special exception, in addition to any other remedy for such violation provided in the Regulations.

EXPIRATION:

Once approved, a special exception can continue indefinitely unless it expires. The Land Development Regulations include provisions for the expiration of a special exception. The special exception approval will expire if one of the following conditions is met:

1. If a special exception does not begin to serve the purpose for which it was granted permission within 180 days from the date of approval.
2. If a time limit is established as a condition of approval.
3. If the approved use is abandoned for 180 days or more.

DENIAL:

The Planning and Zoning Board may recommend denial of any application for any special exception, and the Town Commission may deny any application for special exception, for one or more of the following reasons:

1. It is inconsistent with the Town of Dundee comprehensive plan.
2. It would violate the concurrency management standards in article 6 of the LDRs.

Solid Waste

Dundee transfers solid waste collected in the Town to the Polk County Landfill. As the operators of the landfill, the County plans for capacity for all municipalities in the county, as well as unincorporated areas. Polk County determined that there is sufficient landfill space for the county, including Dundee, to dispose of household garbage for approximately 65 years.

Roads

Access to the proposed addition will be from within the previously constructed MHP in addition any proposed development will require a full traffic study to determine necessary off-site improvements. Coordination with FDOT is required.

Recreation

The Town currently meets the level of service requirement of 4.5 acres per 1,000 residents as established in the Comprehensive Plan. The applicant will be required to provide recreational opportunities per the Land Development Code. The dedication of land for park and recreation services is 0.0116 acres/dwelling unit. The Town Commission may approve a dedication of land, a fee paid in lieu of dedication, or a combination of the two. The Town Commission makes this determination at time of concept plan.

Environmental Impacts

According to the Fish and Wildlife Service (FWS), the sand skink (endangered species) is endemic to the sandy ridges of central Florida, occurring in Highlands, Lake, Marion, Orange, Osceola, Polk, and Putnam counties. The proposed site is in an area identified as potential habitat for the Gopher Tortoises, Sand Skinks and threatened species so, if the proposed project continues through to site development plan or subdivision review approval stages, specific environmental studies will be completed, and requirements will be addressed.

School Impacts

If necessary, the Polk County School Board will review the proposed project as it continues through the subdivision review and approval stages. Any development will have to address school concurrency issues and any necessary mitigation.

CONSISTENCY WITH THE COMPREHENSIVE PLAN

The following Town of Dundee Comprehensive Plan policies are relevant to the proposed request. The policy is provided with an analysis of how the request may or may not be consistent with the Town's Comprehensive Plan. The request is consistent with the Comprehensive Plan.

Item 2.

Table 2: Consistency with the Comprehensive Plan

Comprehensive Plan Policy	Analysis
FLU Policy 5.1: Direct higher densities and intensity of use to areas where public facilities and services are available or are projected to be available. Limit the density and intensity of use in areas where public facilities and services are not available.	There is an interlocal agreement with the city of Winter Haven.
FLU Policy 5.2: Ensure that development orders or permits for future development and redevelopment are issued only if the public facilities and services necessary to meet the adopted level of service standards are available concurrent with the impacts of the development as established within all Elements of the Town of Dundee Comprehensive Plan, including the level of service standards listed within the following Elements: 1. Infrastructure Element 2. Transportation Element 3. Capital Improvements Element 4. Public School Facilities Element	The proposed impacts of the potential Future Land Use map amendment can be facilitated. There is an interlocal agreement with the city of Winter Haven for potable water and wastewater.
FLU Policy 6.1: Locate Future Land Uses at densities and intensities that will reduce greenhouse gas emissions while encouraging energy efficiency and will discourage urban sprawl and leap-frog development that unduly depletes the physical, social, and fiscal resources of the Town.	The property is located near an existing residential development.
