2. Fitness Connection

The Fitness Connection is a group made up Sarah Goldsmith, Jon Scherbring, Ellyse Ungs, and Lauren Prier. This committee is a branch off the Parks and Recreation Commission and includes individuals who are interested in fitness in our community. When they first brought up the outside fitness area, they received negative feedback. The response is that we need to

update our parks. There was a consensus that we need an inclusive play area in our parks. This would allow all individuals the ability to play on this equipment. Goldsmith met with Jacque Rahe. Rahe is applying for grants to pay for some of the expense on this project. The group also discussed putting fitness stations around the trail at Westside Park. The fitness stations would include items such as: push ups, pull ups, sit ups, box jumps, etc. These items would be made out of steel so there would be less maintenance than if wood or some other material were to be used. Additionally, trails would connect to the inclusive play area and be located around the play area. Rahe also met with Jeff Jacque on this project and he had very positive feedback on it. The location chosen was a good area. It is close enough to the ball diamonds, but far enough away from the street so kids don't venture into the street. The project will vary depending upon the size and different items included in the playground. A large playground would cost upwards of \$200,000. It was mentioned that a campaign may be the best avenue to raise funds for this project. The aspect of flooding was also brought up. It seems that the play area would be able to withstand any flooding issues. Huehnergarth was instructed to speak with the city administrator and then communicate with Goldsmith by Friday to see if this can be presented at the next City Council meeting.

3. Pool Updates

Rahe had suggested to Goldsmith that we need a splash pad. As a commission we have indicated "no" in the past. However, we want people to stay in our community. It was suggested to put the splash pad near the new inclusive park. Another option would be to have the splash pad in the grassy area at the pool. It was divided as to whether this would be included in the pool area or it would be a separate area that would be free to play at. In the past, we have been under the idea that most communities that have a pool do not have a splash pad and vice versa. Scherrman would like it kept separate from the pool. If it was kept separate from the pool area, there is an outside bathroom and the attendees could also access the concession stand from the side window. Ungs likes the idea of a splash pad located at Westside Park. Westside Park is located centrally in our community. Some commission members worry that the splash pad will take away from our pool. Scherrman thinks it depends on the age of your kids. Older kids would rather be in a pool than a splash pad.

For this year, the commission is asking for shade material and maybe bag games or other games to be placed in the grassy area at the pool. We want to make it fun to be at the pool.

4. Baseball & Softball Registrations

Huehnergarth passed out the numbers from this year versus last year. 2nd grade is much smaller than last year. 7th/8th grade division is also smaller due to a tiny class. Most feedback on the T-ball is that dividing the pre-K and Kindergarten into two separate groups was a good decision. Huehnergarth also mentioned having new rules for T-ball put on the website to show this change.

5. Commercial Club ball field improvements

The safety fences have just finished being installed. The Public Works Director will be contacting someone this week to install a sidewalk. Huehnergarth is also hoping the batting cage gets installed soon. Commission members asked about getting netting over the stands to avoid foul balls injuring anyone. Westside Park also needs safety nets. Or, maybe shades instead of nets, since this would offer protection and shade all at the same time. We may want to contact FarmTek to see if they would donate a shade or Out Run the Rays.

6. Aquatic Center employment

We have 11 applications for lifeguards. We also have 5 kids who have said they were coming back, but they have not yet applied. We are certainly short on lifeguards. The ideal number would be 20 lifeguards. It may help to put the new hours out there to help entice kids to apply. Huehnergarth went to Beckman to try to get more kids to apply.

8. Commission Member Comments

The Track Meet is going to be on May 4th. Huehnergarth had 80 kids last year and is hoping for 100 kids this year. Our meet is the same day as Monticello. The State Meet will be on June 4th in Marshalltown.

The Mayor mentioned he would like to construct a community garden. It would be located between the alley and railroad tracks (old soccer field) across from the church. Individuals could rent out a space and would be responsible if they wanted some type of fencing to keep animals out. Water would need to be brought in by the individual. The City would not supply it.

Goldsmith had someone mention having a Sports Equipment Swap Meet. Possibly drop off items from 5 pm - 6 pm and then have the meet from 6 pm - 8 pm. We will need to look into this.

We need to get umps prepared, possibly have a clinic. When teams have practice games, it would be a great time for umps to practice as well. In addition, coaches need to help keep the crowds in check. The umps should not have to deal with angry parents.

9. Set Next Meeting Date for Wednesday, April 17, 2024 at 6:00 P.M.

Memorandum

TO: City Council, Parks and Recreation Commission
From: Adam Huehnergarth, Parks and Recreation Manager

RE: Monthly Directors Report February 2024

CC: Mick Michel, City Administrator

Date: March 18, 2024

Aquatic Center:

The hiring process is winding down. The two assistant managers have been selected and we will be identifying the head guards soon. We have decided to have our lifeguard training indoors in Hopkinton like last year to give myself and city staff ample time to get the pool in order to open on May 25th. The lifeguard class in scheduled for April 28th. Under the advice of other aquatic directors and pool service companies we will begin to fill the pool earlier this year. This way we will use more natural ways to warm the pool water and stabilize the chemical balance.

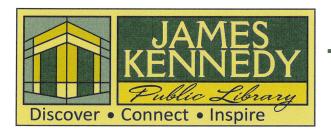

Community Garden:

We are in the initial planning stages to design and use a community garden for this summer. The area identified is the city-owned property north of 1st Ave W between the alley and the railroad tracks. Our beginning idea is to have 20 or so plots roughly 15'x15' separated by a grass pathway. The plots can be "rented" for a small fee. We plan on forming a gardening committee for ideas and to govern. I will be at Iowa Park and Rec meetings next week and will search other communities for ideas and best practices.

Baseball/Softball:

The baseball/softball season starts in 5 weeks. The teams will be drafted and uniforms will be ordered this week. Due to the good weather so far and the decision not to add more lime, the fields will be ready to practice earlier this year than any I remember. We have a total of 20 less baseball players this summer due somewhat to small class sizes in 1st and 8th grades in Dyersville. Softball players have increased by 3 this year. Even with the lower totals, we will have one extra team in the Prairie League this summer. Scheduling is done by the Rec crew in Peosta and the first games are scheduled for the week of April 22nd running to the 4th of July.

I am on the planning committee to try and have an end-of-season tournament for all of the Prairie League teams July 1st and 2nd. It will be an initial test to combat the deterioration of the local Prairie League tournaments. The tournament will be for all softball and C and D league baseball. Many of these games will be held in Dyersville since we have the field availability. We hope to have a better plan as the season progresses.

The host plays a song and each player has to identify the song and mark it off their card if it is listed. The game continues until a participant completes a row, column, or another predetermined pattern on their bingo card. They then call out "Bingo!" and are declared one of the winners of that round. There are multiple winners per round. Singing along is also encouraged! Guests will also be able to purchase additional cards and free spaces – with funds going to support the JKPL. Guests are welcome to arrive at any time but Bingo will begin promptly at 7 pm. Library tables will be grouped together and decorated. Decorations may be taken home by those seated at each table. From: John F. Wandsnider, PE – Public Works Director/City Engineer

Date: March 14, 2024

Subject: Public Works Report: February 15 – March 13, 2024

Things have been operating well, for the most part, in the Public Works Department.

New 'Digs' for the Public Works Director

That's right, since the recent (last few years) addition of the Medium Conference Room to City Hall, the small conference room off the reception area has not seen much use. As of last Monday, it has become the new 'home' of the Public Works Director/City Engineer's office. Please feel free to drop by for a visit!

Operation and Maintenance of Fleet, Highways, Streets, Alleys, Parks, Trails, Rivers, Creeks, etc.

The streets and fleets arm of Public Works is doing an excellent job with the operations and maintenance of Dyersville's streets system and equipment. We continue to experience unseasonably warm and mild conditions – nobody is complaining! We have used very little road-salt since my last report. As time and conditions allow, we have been filling potholes and repairing and maintaining equipment.

We pulled the street sweeper out of winter storage and have been cleaning the streets over the last few weeks. We concentrated especially on the parade and 'gallop' routes this week. We plan to have the flags up, traffic-control devices, and 'no parking' signs out in time for the events.

Ordering for new trucks through Truck Country opened March 1. As authorized, we have placed the order for the replacement of our second of the two 2014 dump-truck/material spreaders. The new Western Star is expected sometime after third quarter, 2024.

Operation and Maintenance of Drinking Water Delivery and Wastewater Disposal Systems

The water and wastewater operations arm of Public Works is also doing an excellent job maintaining Dyersville's drinking water delivery and wastewater disposal systems. The drinking water source, storage, treatment, and distribution systems are serving the city well. The wastewater collection, pumping, treatment, and disposal systems are also operating well. Please refer to the below reports from water and wastewater operations, respectively.

Our two newest employees, Tanner Lueck and Terry Menke began a four-day Wastewater Operator Grade 1 training class at Kirkwood college in Cedar Rapids this week. They went Tuesday and Wednesday, and will go again next Tuesday and Wednesday.

Statuses of Improvement Projects

1st Avenue West - Old Highway Road - Rehabilitation (Added 2/24)

Last month I reported that we had begun planning for utilizing operations dollars toward the rehabilitation of this facility. Following feedback from the City Council, we will be, instead, performing a Preliminary Engineering Study to compare options for this improvement.

Downtown Streetscape Rehabilitation (Added 4/23)

A majority of the downtown streetscape is 20 years old this year! We intend to perform the rehabilitation out of our operations budget, and phase it over about 5 years. The first phase of the project is the streetscape portion (behind the curb to the building line) of the 3rd and the 4th Street intersections and the block between them. All 6 limestone medallions will be reset, this time on concrete, and the cracked and deteriorating buff-colored handicap panels will be replaced with black powder-coated cast-iron panels. A small portion of the colored and stamped concrete will need to be replaced due to excessive cracking and settling. **Work is expected to begin within the next month or two.**

Hwy 52 Manhole Replacement at 2nd Avenue (Added 11/21)

The DOT requires engineered construction plans with a complete traffic-control plan in order to issue a permit for this work to be done. Design work is proceeding and plan drawings are in production for construction this summer.

Downtown Businesses Accessibility – (Added June, 2021)

Once money is available to develop a program to address this issue, design/construction activities will begin on a phase of the work as directed.

Legacy Square – Stage (Added Spring 2021)

The controller was apparently faulty. A new one was installed this week and things seem to be working.

20 West Industrial Park, Phase III Rise Grant App. (Added August, 2022)

Construction of the Contract C double-box-culvert has been completed. Contract D including roadway storm sewer, concrete paving, and lighting is planned for bidding in the spring of 2024 and construction in summer 2024.

1st Avenue W. Bridge Over Bear Creek – Deck Overlay (Added May, 2022)

The final construction cost was \$494,512.09. This represents a reduction in cost of $\frac{$61,480.39}{}$ below the bid price of \$555,992.48.

3rd Avenue SW Bridge (Added to list in February, 2022)

Needs further evaluation

Field of Dreams Stormwater Wetland and Mitigation (Added to list in April, 2020)

Project substantially complete. Temporary erosion control seeding has been placed. Permanent bluegrass seeding has been completed both north and south of Beltline Rd. Native seeding was performed in late November 2022. A map showing areas requiring attention has been prepared by the engineer. Work is expected this spring. A live streaming camera of the site is available for viewing at: https://video.nest.com/live/G4AGPm8tkR

Dyersville East Road Water and Sewer Extension 2020 (Added to list March, 2020)

Contract B Water Main construction is complete and project is ready for city acceptance. Meeting has taken place with controls integrator for Contract C Water Pumping Station and start-up is being scheduled for the week of March 19. Construction for Contract D Lift Station and Linear Sewer Onsite with Portzen Construction is substantially complete with some punch list items remaining to be completed. Construction is complete on the Sanitary Sewer and Force Main (EDA Contract) with Tschiggfrie Excavating. Construction is complete on the original work under Contract E with Top Grade Excavating. The additional change order work to provide utilities to the existing FOD facilities has been completed.

2

Heritage Trail Pavement Extension (Added to list January 2020)

The engineer has submitted the final documents to the DOT for the mandatory audit.

Respectfully submitted,

Preventative maintenance was completed at Well#4 and #5, including exercising water valves and doing well draw down at both wells. Daily rounds were completed for the month at both wells. Meter reading was also completed this month. Joe and I flushed all dead-end hydrants in town the third week of February to maintain good water quality in the dead-end mains. I had an inspection with Amber Sauser with the IDNR on February 13th. The inspection went very well with only a few minor deficiencies to take care of. You can see the full report in the council packet. Start up for the NE Booster Station will begin on April 1St with Automatic Systems doing the programming and then actual startup of the system mid-week. All fiber optic cables were run to each water and wastewater facility to get us one step closer to the full SCADA system. The next step will be programming by Automatic Systems and implementation of the SCADA services.

The plant has been running well. As the weather gets warm things will improve. We have been taking advantage of the nice weather and getting a head start on system maintenance. Now that Terry is getting a better understanding of day to day operations at the plant, it is a big help to have a second person at the plant to help with testing and day to day operations. And with that said Terry and Tanner started their Classes on March 12 at Kirkwood to work on their getting their Grade 1 wastewater which will also be a good addition to our team.

Updates: We took the camera trailer in for the yearly inspection and have received a clean bill of health and ready for another year of inspecting city sewer/ storm sewers this season. And we have been working on getting some more quotes for repairs that will be needed to get the west plant back to better running order. We hope to make some of these this year, so that the plan hopefully will be to switch the plant over in 2025 so that we can maintenance and clean out the east plant like we did to the west plant.

RE:

City Administrator's Report

Date:

March 15, 2024

I am pleased to present the monthly report for February 2024, outlining the progress made on ongoing commitments, priority projects, and initiatives aligned with the goals set forth in our 2024-2025 agenda.

- 1. Update City Logo and Branding Plan: The City Council reviewed and approved the agreement with our consultants to commence work on this vital project. We are now moving forward with the initial phases of the branding plan, ensuring a cohesive and modern identity for our city.
- 2. Wage and Compensation Study 2.0: Collaborating closely with the P&A committee, we have been working on the draft plan to ensure competitive wages for all our dedicated staff members. I anticipate presenting this plan to the City Council for consideration in April 2024.
- 3. Complete SCADA System for Water and Wastewater Facilities: Significant progress has been made towards the implementation of the SCADA system. With the installation of network switches completed, Automatic Systems is scheduled to commence the implementation phase in early April 2024, enhancing efficiency and monitoring capabilities across our water and wastewater facilities.
- 4. FY 2025 Budget: A considerable amount of time and effort has been invested in crafting the FY 2025 budget. I am pleased to report that a draft budget has been completed and forwarded to the Mayor and City Council for their review and consideration.
- 5. Replacement of Ballpark Lights at Candy Cane Park and Westside Park: The City has ordered the approved lights for both Candy Cane Park and Westside Park. Delivery is expected in late April or early May 2024, ensuring improved visibility and safety for nighttime games.

- 6. **RAISE Grant**: The engineering consultants, in collaboration with the city, have dedicated extensive resources to prepare our RAISE grant application. We are confident that our application presents a compelling case for consideration by USDOT, positioning us favorably for potential funding.
- 7. **Professional Ballpark Project**: Progress continues on the project as This Is Iowa Ballpark members work with the consultants and general contractor on finishing design and other critical aspects. We aim to advance the project swiftly, with construction slated for commencement in 2024.

Please do not hesitate to reach out if you require further information or updates on any of the aforementioned items.

To: Public Officials and Fire Departments

Re: Training opportunity

There will be two potential training opportunities available for your community's public officials and fire department members in the coming year. Black Hills Energy (BHE) will offer one training program, and the Pipeline Association for Public Awareness (PAPA) will offer the other.

Pipeline Awareness & Education Meetings for Emergency Responders

Black Hills Energy is a member of the Pipeline Association for Public Awareness (PAPA), and as a benefit, public officials and fire department members in towns we serve are invited to join a scheduled Pipeline Awareness & Education Meetings for Emergency Responders. You will receive an invite and information from the PAPA later this year.

Firefighters may use this program to satisfy two hours toward the required 24 hours of continuous training as identified in Iowa's Minimum Training Standard. The PAPA training program is offered on a rotating basis and invitations will be mailed to scheduled counties. Even if your county is not listed for this year's training, you are eligible to attend training in a nearby county.

Black Hills Energy Public Official Training

If you were unable to attend a PAPA meeting but would still like to take part in emergency responder training in 2023, Black Hills Energy offers instruction for your police and fire departments. If you are interested in participating in this program, please contact me and we will work to coordinate a date and time that is mutually convenient.

You can reach me via email at ivan.hackman@blackhillscorp.com Mon. - Fri. from 8 am to 5 pm.

This Residential Development Agreement, including Exhibits (the "Agreement"), is entered into between the City of Dyersville, Iowa (the "City") and Hageman Homes, LLC. (the "Developer"), as of the _____ day of April 2024.

Preamble

WHEREAS, the Developer is or will become the legal owner of real estate record, the legal description of which is more specifically described on Exhibit A and shown on the map on Exhibit B hereto (the "Property"). That, as of the date of this Agreement, said real estate is currently within the corporate city limits of the City of Dyersville, Iowa; and,

WHEREAS, the Developer intends to either subdivide, develop, or both in 2024; and,

WHEREAS, the City wishes to encourage more development of single-family residential housing units in the City; and,

WHEREAS, Chapter 15A of the Code of Iowa authorizes cities to provide grants, loans, guarantees, tax incentives, and other financial assistance to or for the benefit of private persons; and,

WHEREAS, the Developer intends to develop its real property into a residential subdivision, which is proposed for inclusion in the City and is more specifically described on Exhibit C and shown on the map on Exhibit D hereto (the "Project"); and,

WHEREAS, the City and the Developer intend that the development of a residential subdivision on the Property be undertaken and the subsequent development of single-family residential units; and,

WHEREAS, the Project requires extraordinary development costs related to the construction of improvements and other necessary infrastructure improvements; and,

WHEREAS, the City desires to provide infrastructure assistance to the Developer related to the development of the Project within the municipal boundaries of City; and,

WHEREAS, it has been proposed that the City undertake the provision of financial assistance to the Developer; and,

WHEREAS, the City has reviewed the Developer's request and other relevant provisions of the Dyersville City Code of Ordinances and finds that the economic benefit to the City by this Project being built in the City is demonstrated and that the proposal is eligible for economic incentives, based upon the following findings:

A. The Project proposal shows that there would be potential incremental revenue to the City from the operation of the Project that is not now being received; and,

B. The Project will increase the City's property tax and sales tax base.

WHEREAS, this Agreement is consistent with the City's past and present policies on granting economic development incentives and is in the best interest of the City; and,

WHEREAS, the City Council finds that entering into this Agreement will serve to benefit and advance the public interest and welfare of the City and its citizens by securing the development of the Project within City; and,

WHEREAS, the City is willing to undertake such proposed obligations provided that the Developer agrees to undertake the promotion and development of single-family residential units within the Project; and,

WHEREAS, it is now necessary to set forth the agreement between the City, the Property Owners, and the Developer to the Development of the Property; and,

NOW THEREFORE, the parties hereto agree as follows:

A. Agreement Terms and Provisions

1. General Terms.

1.1. This Agreement is made according to and under the provisions of Chapter 15A of the Code of Iowa. The foregoing preambles and recitations are made part of this Agreement.

2. Duration of Agreement.

2.1. This Residential Development Agreement will remain in effect for ten (10) years from the date of this Agreement.

B. <u>Developer's Covenants</u>

1. Development of the Property.

- 1.1. The Developer agrees to use its best efforts on the Property to cause the construction and development of a single-family residential subdivision and the establishment of a minimum of fifty (50) single-family residential lots following Chapter 166 of the Code of Ordinances for the City of Dyersville except as otherwise provided for herein, and as normally provided by the City of Dyersville, Iowa.
- 1.2. The Developer shall not commence construction or development of the infrastructure or any construction, work, development, or activity associated with or required for the construction or installation of the infrastructure (including but not limited to excavations in roads, sanitary sewer improvements, and water improvements), either within or external to the Project until written consent to commence is obtained

- from the City. However, the City hereby consents to the Developer immediately beginning the installation of electrical lines.
- 1.3. The Developer shall employ a state-certified Professional Engineer to design and supervise all work related to the Infrastructure Improvements under this Agreement.
- 1.4. The Developer agrees to construct the foregoing infrastructure improvements following the plans and specifications approved by the City under the supervision of the Developer's Engineer. The Developer's Engineer must approve any changes in the plans and specifications, and a revised plan and specification must be submitted to the City for approval. The Engineer shall certify the substantial compliance with said plans upon completion. Upon completion, the Developer's Engineer shall provide a complete set of as-built drawings, which must be received prior to the final acceptance of this Project.
- 1.5. The Developer grants to the City, its representatives, agents, and contractors free and uninterrupted access to any and all parts of the lands for the purpose of making inspections and taking samples of materials being used in connection with the construction and installation of the Infrastructure.
- 1.6. If the Developer fails to comply with any of the terms and conditions of this Agreement as required herein, the City Administrator or Mayor may order (either verbally or in writing) the immediate stoppage of any and all work associated with the non-compliance and the removal of materials considered to be unsatisfactory in the City's opinion, and the Developer shall immediately comply with any such order.

2. Infrastructure Improvements.

- 2.1. The Developer agrees to obtain and dedicate to the City such construction easements, permanent easements, rights-of-way, and/or other real property interests (collectively the "Infrastructure Property Interests") from within and outside the Property as are reasonably requested by the City. The Developer acknowledges that the timing of such dedications and the scope and location of the Infrastructure Property Interests shall be determined by the City to best accommodate the tailoring of the Infrastructure Project for the development needs of the Project.
- 2.2. The Developer agrees to install sanitary sewer mains and sewer service laterals following Chapter 166 of the Code of Ordinances for the City of Dyersville. Before installation of said sanitary sewer mains and sewer service laterals, plans and specifications shall be approved by the City.

- 2.3. The Developer agrees to install potable water mains and water service laterals following Chapter 166 of the Code of Ordinances for the City of Dyersville. The city must approve the plans and specifications before installation.
- 2.4. The Developer agrees to maintain the infrastructure improvements for two (2) years from the date the City accepts them, except for provisions outlined in Section C2.3.2 of this Agreement.
- 2.5. The Developer agrees to provide the forgoing construction and maintenance at the sole expense of the Developer as the Property Owner, except as otherwise provided for in this Agreement.
- 2.6. The Developer agrees that water and sewer infrastructure improvements shall continue to the end of said property to assure that future developers or the City can connect to these infrastructure improvements outside said property.
- 2.7. The Developer agrees to locate and install streetlights approved by the City and to use streetlight design standards similar to those of other subdivisions within the City and provided by the electrical utility provider.

3. Platting and Engineering of the Property.

3.1 The Developer shall be responsible for carrying out the future platting, preparation, and development of the Property and for paying the costs thereof, including legal and engineering expenses, except as otherwise provided for in this Agreement.

C. <u>City's Obligations</u>

1. Economic Development Incentives.

1.1. The City agrees to reimburse the Developer for *only* the material cost difference above and beyond the minimum water and sewer main infrastructure improvement standards within the Project as provided under Chapter 166 of the Code of Ordinances for the City of Dyersville. That reimbursement shall be made upon completing the water and sewer infrastructure improvements within the Property. Upon approval from the City, the Developer's detailed statement of actual costs for water and sewer infrastructure improvements will be required.

2. Other City Incentives

2.1. The City agrees to allow all streets within the Project to be part of the municipal street system, provided that these streets are made of Portland Cement Concrete as provided in Section 166.07(E) of the Code of

- Ordinances for the City of Dyersville at a minimum of thirty-two (32) width.
- 2.2. The City shall reimburse the Developer \$25.00 for each square yard of Portland Cement Concrete Pavement Street. That reimbursement shall be made when the Developer's Engineer Certifies the final amount of Portland Cement Concrete Pavement installed eligible for reimbursement. Both parties recognize that, given the dynamic nature of subdivision staging and the increase in concrete costs, it may be necessary to engage in negotiations and potentially amend the terms outlined in this paragraph.
- 2.3. The City agrees to exempt the installation of curbs, storm sewers, and catch basins requirements in Chapter 166 of the Code of Ordinances for the City of Dyersville, provided that the Developer meets the minimum conditions of Section 2.1 of this Article and that Developer's Engineer provides a water run-off analysis report showing a finding of no significant impact to other Properties. If the water run-off analysis report shows a significant impact on other properties, the Developer may address such impact through means other than the installation of curbs, storm sewers, and catch basins as long as such means adequately address the significant impact on the other properties and subject to the approval of City.
 - 2.3.1. The water run-off analysis must be approved by the City before Final Plat approval.
 - 2.3.2. If the Developer's Engineer requires Rock Ditch checks or any other similar storm sewer improvements, the Developer shall maintain said improvements until such time that the Agreement ends or that the subdivision has been fully developed with housing units on each lot.
- 2.4. Said streets within the project shall not become public streets until such time as the provisions of this Article are complied with and the streets are accepted by the City of Dyersville, Iowa.

DYERSVILLE INCLUSIVE PLAYGROUND PROJECT

Presented by: The Fitness Connection

Item 31.

What does it mean to be inclusive?

"Open and safe space carefully designed to promote play among children of differing abilities, ages, and communities."

inclusion			
<i>(</i>		/	
(•••			
\. :		•/	

Inclusive Play Essential	Benefit
Open and safe space for children with different abilities to play together	Social-emotional and communication skills and new friendships
Engagement and friendship with peers of different abilities	Normalizes all levels of abilities, encourages collaboration, eliminates stereotypes
Fun way to get needed exercise outdoors	Fine tuning, adjustment, and development of motor skills
Enjoyable environment where kids of all ages and abilities feel comfortable together	Changes to build social skills, confidence, and self-esteem
Multigenerational equipment for everyone to join the fun	Mutual understanding and community engagement that allows parents, grandparents, and caretakers to play with their children

Statistical Reasoning:

- The U.S. Department of Education reports that nearly 6.7 million school-age children have disabilities.
- 1 out of 1,000 children, 85% will have some form of disability
- 74% of parents believe it's essential for their kids to play with others, including those with differing disabilities.
- Elementary-aged kids need at least an hour of physical activity each day, only 24% of developing children obtain the recommended amount of exercise.

A current playground has a combination of sand and rocks for surfacing, which is not ideal for children with specific mobility devices.

⊘ Inclusive

A playground has accessible routes to the play structures. To make it safer and more accessible, the designer would swap out the surfacing for something like poured-in-place rubber.

⊗ Not Inclusive

A park has an enticing structure, but only stairs are available for access.

⊘ Inclusive

There should be no barriers to a child's ability to play, so the playground would need a ramp to allow kids to access the higher parts of play equipment.

"Play is the foundation of learning, creativity, selfexpression, and constructive problem solving."

The Whole Child

Social-Emotional Interaction, cooperation, selfconfidence, sense of community

Sensory Sight, touch, smell, hearing, taste, vestibular, proprioception

Cognitive Problem solving, abstract thinking, learning

Communication Expression, reception, pragmatic language

Inclusion of *All*

Signed into law on July 26, 1990, the ADA prohibits "the discrimination against people with disabilities in several areas, including employment, transportation, public accommodations, communications and access to state and local government programs and services."

HOW TO CREATE AN INCLUSIVE PLAY AREA

1. BUILD A STRONG COMMITTEE

2. FORM SPECIALIZED TEAMS WITHIN YOUR COMMITTEE.

- a. BUDGET/FUNDRAISING. Estimate the portions of that budget that will likely be funded by the following sources:

 % parks and rec
 % city government
 % private donations/fundraising
 % foundation grants
- b. PUBLICITY. Distribute information about the inclusive playground development process to the community through the press, special events, mailings and a website.
- c. RESEARCH. Gather information on inclusive play areas and your community needs that you can use to support your efforts.
- d. DESIGN. Collaborate with community members and city authorities to design the best inclusive playground for your site and specific purposes.
- e. CONSTRUCTION/INSTALLATION. Coordinate volunteers for construction and installation duties.

START FUNDRAISING. (Potential)

- a. INDIVIDUAL CONTRIBUTIONS. Parents, neighbors, churches and local businesses.
- b. LOCAL AND STATE FOUNDATIONS. Grants from corporate foundations and local non- profit groups.
- c. CIVIC ORGANIZATIONS. Local Jaycees, Lions Club, Rotary, etc.
- d. IN-KIND CONTRIBUTIONS. Local labor or construction companies.
- e. ACTIVITIES. Community fundraising events such as silent auctions, car washes, raffles, gift bricks, etc.
- 4. DESIGN THE PLAY AREA (see document "Designing an Inclusive Playground")

5. INSTALLATION

EDUCATE:

1. ASK LANDSCAPE STRUCTURES/GENERAL RECREATION

Leverage our deep knowledge of inclusive play. Apply our evidenced-based best practices and extensive design expertise to create the best play experiences for the most people.

2. CONNECT WITH PEOPLE WITH DISABILITIES.

❖ When you include people with disabilities as part of your committee and/or planning process, you will glean real-world perspectives on everyday issues that typically-abled people do not routinely consider.

3. USE THIS INSIGHT TO DEFINE AND REFINE YOUR PROJECT.

❖ Pair expert recommendations with the wishes of the community.

DESIGN FEATURES

1. PLAY EXPERIENCE.

Play areas can offer many opportunities for children to further develop physical, cognitive, sensory, and social skills. An inclusive play area design includes a balance of play experiences to build all these skills.

SENSORY STIMULATION.

All children are attracted to sensory activities. A sensory-rich inclusive play environment can bring children together while providing each one with the sensory experiences they seek.

- ✓ Wide range of materials and textures available for touch—rough and smooth, hard and soft, warm and cool
- ✓ Natural elements such as sand and water or flowers and plants provide ever-changing multi-sensory experiences.
- ✓ Interactive play panels captivate kids responses for visually sensitive children; consider simple color schemes in more muted color tones and/or earth tones.
- ✓ Elements that offer strong visual contrast for children with low vision, especially to highlight sudden elevation changes.
- ✓ Many children like to discover sound and enjoy their own musical creations, so consider incorporating music panels and instruments.

SWINGING, SPINNING AND SLIDING.

Most kids enjoy sliding, spinning/rotating and swinging. Besides being fun, these activities sharpen our internal senses—vestibular (awareness of how our body moves through space and against gravity) and proprioception (awareness of body position and how much force is needed for an activity).

SOCIAL/IMAGINATIVE.

As children challenge themselves physically, they also learn how to manage joy and frustration, friendship and conflict, while developing their imagination and dramatic play skills. Whether engaged in parallel play, quiet play or active social play, an inclusive playground provides plenty of social and imaginative play opportunities for children.

✓ Include a variety of gathering spots, some that can accommodate several children as well as cozy, quiet spaces for just a few.

2. VARIABILITY.

Item 31.

This design intention meets a child's curiosity with developmentally appropriate challenge, building comfortably on the skills they already possess to help them gain new skills. By striking this balance and achieving a "just right fit," children are encouraged to challenge themselves in ways that they can control and manage.

DEVELOPMENTALLY APPROPRIATE COGNITIVE AND PHYSICAL PLAY.

Kids learn by doing. Cognitive play can happen individually, in an interactive group, and in teaching moments between adults and children. And all kids benefit from physical activities such as balance and coordination, muscle strength and endurance, cardiovascular exercise, and motor planning.

- ✓ A playground can reinforce learning and enhance problem-solving skills with games, mazes, maps of the world, tracing panel and more.
- ✓ To meet as many needs and skill levels as possible, consider including graduated levels of challenge, complex alternative routes, elements that encourage cross-lateral movement and a variety of developmentally appropriate risks.

FLEXIBILITY/OPTIONS.

While many children readily flock to large play structures, some feel more comfortable in smaller, cozier spaces.

- ✓ Add ground-level activities to allow small groups to explore different play experiences at their own pace.
- ✓ Include overhead events at different heights or create combinations of stepping forms and balance beams.

SELF DIRECTED.

Empowering children to choose the activities that capture their interest puts them in charge, building confidence in their abilities and contributing to their self-esteem.

- ✓ Offer a variety of equitable yet diverse options to accommodate the needs of the widest range of users, for example, install Saddle Spinners at different heights.
- ✓ Enforce the idea to get up and move with the incorporation of workout type equipment.

3. SAFETY, COMFORT AND ACCESS.

Creating a welcoming, safe and accessible environment is just as important as the play equipment you put in it. A well thought out environment makes the space more comfortable and user-friendly for children and families of all ages and abilities.

FENCING.

A fence can help define and contain the activity area, providing a sense of comfort to both children and their parents.

SIGNAGE.

All people feel more comfortable when they have a better understanding of their surroundings.

SHADE.

Children's tolerance levels of sun and heat vary greatly.

SEATING.

Item 31.

Benches with backs and arm rests, tables and game tables may be strategically located around the play are (preferably in shaded areas) for supervision, resting and to promote multigenerational socialization.

PATHWAYS.

Accessible pathways that transition between activity areas should be short and direct. The Americans with Disabilities Act (ADA) requires a minimum 60-inch width—wide enough for a wheelchair and someone walking next to them.

PROTECTIVE SURFACING.

A truly inclusive playground should incorporate a unitary surface such as poured-in-place surfacing or rubber mats/tiles on the accessible routes.

4. CONSIDER THE COMPLETE ENVIRONMENT FOR AN INCLUSIVE PLAY AREA DESIGN

Make sure everyone can access your inclusive playground.

PARKING.

Whenever possible, exceed the ADA minimum required parking spaces. Ideally, accessible parking should be scattered throughout the park, located near the activity areas where inclusive play happens, creating different access points in the park that can be used by all visitors.

PATHWAYS

Whenever room permits, try to exceed ADA width guidelines of 60-inches. Wider pathways allow for easier group access for all visitors while accommodating multiple wheeled devices like wheelchairs and strollers.

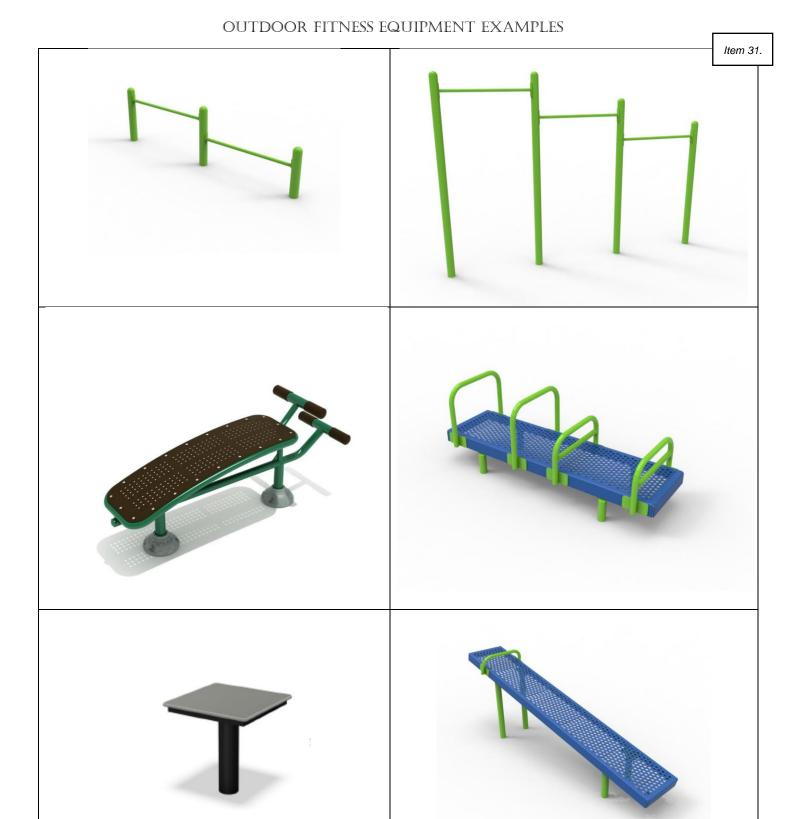

RESTROOMS.

A well-designed park will include accessible restrooms in close proximity to ball fields, playgrounds and activity areas. These restrooms should include at least one family restroom that is large enough to include a full-size changing table. This enables adults with disabilities to stay longer at the park, since they have the restroom supports that they need.

I am writing you to ask for your support in declaring Thursday, April 4, 2024 as Junior Achievement Day in Dyersville. Henceforth, we ask that you proclaim the first Thursday of every April "JA Day" for the foreseeable future.

Junior Achievement is a nonprofit organization with a simple yet powerful mission: to inspire and prepare young people to succeed in a global economy. We believe that every young person has the potential for greatness, and through our programs and initiatives, we strive to unlock that potential by providing them with the knowledge, skills, and confidence they need to thrive in the 21st century.

Our research shows that students who have experienced JA go on to have a greater belief in self and sense of purpose. They report higher levels of career satisfaction, confidence in managing money, and willingness to start and run a business. As we look to the future, we see a world full of challenges and opportunities, where the skills of critical thinking, communication, collaboration, and entrepreneurship will be more important than ever.

Together, we can empower the next generation to dream big, work hard, and achieve their fullest potential. We look forward to partnering with you on this day, and every day.

By declaring April 4, 2024 as JA Day, you will recognize and celebrate JA's mission in Dyersville.

Enclosed is a copy of the proclamation. I ask that you copy the proclamation onto your city letterhead and sign. If possible, we would like to receive a copy for our records. Please send to the address below.

I hope you will join us in this special celebration. Thank you!

Sincerely,
