

AGENDA

Local Planning Agency Meeting

5:30 PM – Thursday, August 07, 2025 – City Hall

Call to Order

Acknowledgement of Quorum and Proper Notice

1. Approval of Minutes

1.1 Approval of Minutes

July 17, 2025 Local Planning Agency Meeting

2. Consideration with Discussion, Public Hearings and Recommendation

2.1 Ordinance Number 25-21: 2025-CPLUS-06 – Future Land Use Map Amendment - Comprehensive Plan Amendment for Annexation of Parcel with Alternate Key Number 1040141

2.2 Ordinance Number 25-24: 2025-CPLUS-07 – Future Land Use Map Amendment - Comprehensive Plan Amendment for Annexation of Parcels with Alternate Key Number Lake County Property Appraiser Has Not Assigned

3. Adjournment

This Agenda is provided to the Commission only as a guide, and in no way limits their consideration to the items contained hereon. The Commission has the sole right to determine those items they will discuss, consider, act upon, or fail to act upon. Changes or amendments to this Agenda may occur at any time prior to, or during the scheduled meeting. It is recommended that if you have an interest in the meeting, you make every attempt to attend the meeting. This Agenda is provided only as a courtesy, and such provision in no way infers or conveys that the Agenda appearing here is, or will be the Agenda considered at the meeting.

If a person decides to appeal any decision made by the board, agency or commission with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based (Florida Statutes, 286.0105). In accordance with the Americans with Disabilities Act of 1990, persons needing a special accommodation to participate in this proceeding should contact the City Clerk 48 hours prior to any meeting so arrangements can be made. Telephone (352) 483-5430 for assistance.

MINUTES

Local Planning Agency Meeting

5:45 PM – Thursday, July 17, 2025 – City Hall

Call to Order: 6:01 p.m.

Acknowledgement of Quorum and Proper Notice

PRESENT: Vice Chair Gary Ashcraft, Michael Holland, Emily Lee, George Asbate and
Chairman Willie L. Hawkins

1. Approval of Minutes

1.1 June 19, 2025 Local Planning Agency Meeting

Motion made by Mr. Holland, Seconded by Vice Chair Ashcraft, to approve the Minutes.
Motion passed on the following vote:

Voting Yea: Vice Chair Ashcraft, Mr. Holland, Ms. Lee, Mr. Asbate, Chairman Hawkins

2. Consideration with Discussion, Public Hearings and Recommendation

2.1 Ordinance Number 25-14: 2025-CPLUS-04 Comprehensive Plan Map Amendment associated with Annexation of Parcels with Alternate Key Numbers 3862860 and 1193532

Jeff Richardson, Deputy Director of Development Services, presented Ordinance Number 25-14 (2025-CPLUS-04). He reviewed the request, including property owner, applicant, and annexation of 6.18 total acres, site location, and evaluation of the request to change the future land use designation from Urban Medium in Lake County to Urban Residential in the City.

The Commission questioned if it creates an enclave with Mr. Richardson explaining it is already in an enclave but it does reduce the large enclave to a number of smaller enclaves.

Mr. Richardson completed his review of staff's analysis of the request and stated staff's recommendation to transmit Ordinance Number 25-14 to the City Commission for consideration.

The Commission asked for a comparison of the densities between the County designation and the proposed with Mr. Richardson stating the County designation allows up to seven units per acre, which is their maximum, and the City's designation allows up to 12 units per acre. Discussion was held regarding the density with Mr. Richardson noting that the surrounding parcels are also Urban Residential and MCR which also has a maximum of 12 units per acre. He indicated that the net acreage would probably be less.

The Commission discussed the code enforcement violations on the site.

Motion made by Mr. Holland, Seconded by Vice Chair Ashcraft, to transmit Ordinance Number 25-14 to the Commission for consideration. Motion passed on the following vote:

Voting Yea: Vice Chair Ashcraft, Mr. Holland, Ms. Lee, Mr. Asbate, Chairman Haw

2.2 Ordinance Number 25-17: 2025-CPLUS-05 Comprehensive Plan Map Amendment Associated with Annexation Parcels Alternate Key Numbers 2704365, 1214041, and 3803090

Mr. Richardson reviewed Ordinance Number 25-17 (2025-CPLUS-05) including the property owner, applicant, annexation of 66.55 total acres for large scale comprehensive plan map amendment, site location, and evaluation of the request to change the future land use designation from Urban Low in Lake County to Suburban Residential in the City. He noted that it is a large scale amendment and provided an overview of the property. He indicated the property does contain some wetlands and commented on the possibility of the applicant having to conduct a floodplain study. He explained that limitations would be put in at the time of the concept plan and PUD agreement.

The Commission asked about any impact on Hicks Ditch with Mr. Richardson responding that staff has not received any development plans at that time.

Mr. Richardson continued his review of staff's analysis of the proposal. He stated the requested land use designation is consistent with the surrounding area; therefore, staff is recommending transmittal to the Commission for consideration.

Mr. Ashcraft asked if they can ask what the plans are for the property prior to annexation with Sasha Garcia, City Attorney, responding they can ask but the applicant does not have to respond as long as they meet all of the code requirements.

Major Stacey stated they will be proposing a single family development with less than four units per acre. He stated there is a cattle pond in the middle which is a low quality wetland and that would be impacted; however, the wetlands to the north is part of a surface water system that drains from the north side of 44 and runs through the property. He indicated there are two twin pipes that go to the west. He stated that the design right now is for 3.5 dwelling units per acre.

Mr. Asbate questioned what assurances the City has that will remain the same with Mr. Stacey responding that is a legal question; however, their intention is not to go above that.

Vice Chair Ashcraft asked if the City had completed the amendments to the Land Development Regulations with Ms. Garcia explaining the state legislature has issued a moratorium on any updates to LDRs for any City impacted by certain hurricanes until October 1, 2027 unless the legislature changes that.

Vice Chair Ashcraft commented on the legislation and stated that it appears to only apply to existing developments that were impacted by the storm. He expressed support with going ahead and proceeding with completing the revisions while awaiting on a clarification.

Attorney Garcia responded that moving forward may be considered a violation. She stated they could request an opinion from the Attorney General. She indicated the annexation was submitted prior to the moratorium and could be processed.

Discussion was held regarding whether or not the density could change.

Attorney Garcia indicated she would try to get an opinion. She noted that there is resolution on the Commission agenda that night to confirm the City's intent to comply with the legislation.

Further discussion was held regarding not having an enforceable agreement that the density would not be increased.

Major Stacey noted the developer held a community meeting. He stated he had a thumb drive that provides more information. He offered to hold individual meetings with the boardmembers.

Discussion was held regarding tabling the item with Attorney Garcia suggesting they could transmit to the Commission and then have further discussion. It was confirmed that if the LPA tables it, then it will be brought back to the LPA, not the Commission.

Motion to table made by Vice Chair Ashcraft, Seconded by Mr. Holland. The motion passed on the following vote:

Voting Yea: Vice Chair Ashcraft, Mr. Holland, Ms. Lee, Mr. Asbate, Chairman Hawkins

3. Adjournment: 6:30 p.m.

**These minutes reflect the actions taken and portions of the discussion during the meeting. City of Eustis

P.O. Drawer 68 • Eustis, Florida 32727-0068 • (352) 483-5430

TO: Eustis Local Planning Agency

FROM: Tom Carrino, City Manager

DATE: August 7, 2025

RE: Ordinance Number 25-21: 2025-CPLUS-06 – Future Land Use Map Amendment– Comprehensive Plan Amendment for Annexation of Parcel with Alternate Key Number 1040141

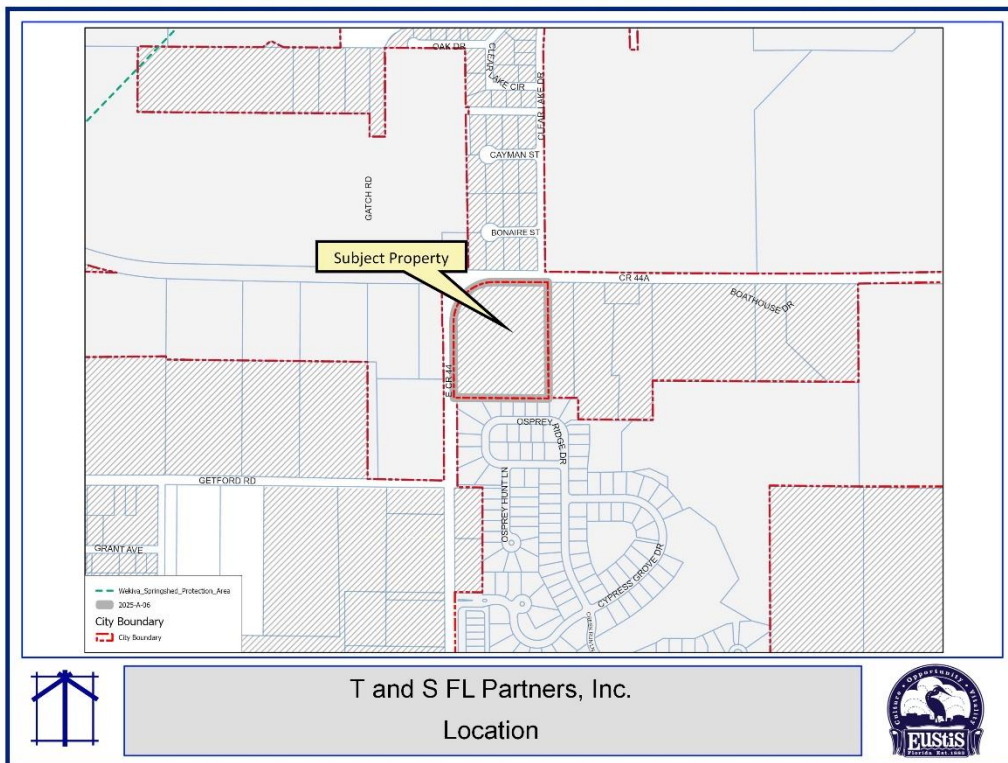

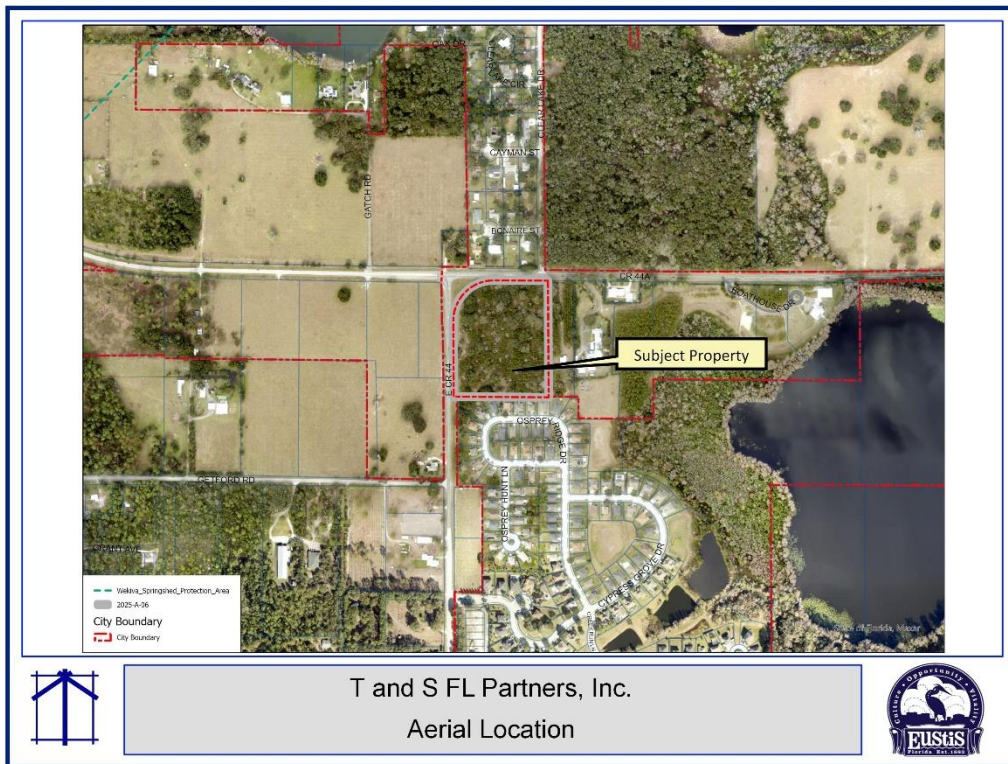

Introduction:

Ordinance Number 25-20 provides for the voluntary annexation of approximately 10 acres located on the east side of the intersection of County Road 44 and County Road 44A (Alternate Key Number 1040141). Provided the annexation of the subject property is approved, Ordinance Number 25-21 would change the Future Land Use designation from Urban Low in Lake County to General Commercial (GC) in the City of Eustis, and Ordinance Number 25-22 would assign the subject property a Design District designation of Suburban Corridor. If Ordinance Number 25-20 is denied, then there can be no consideration of Ordinance Numbers 25-21 and 25-22.

Background:

1. The site contains approximately 10 acres and is located within the Eustis Joint Planning Area. The site is currently vacant and agricultural/silvicultural (Planted Pines)
2. The subject property is contiguous to the current City of Eustis boundary on the south and west property lines.
3. The site has a Lake County Future Land Use Designation of Urban Low, but approval of Ordinance Number 25-21 would change the land use designation to General Commercial (GC) in the City of Eustis.
4. The West Side of the CR 44A/CR 44 intersection is already City of Eustis General Commercial (GC) and Mixed Commercial Residential (MCR).

Location	Existing Use	Future Land Use	Design District
Site	Vacant/Planted Pines	Urban Low (Lake County)	N/A
North	Single-Family Residential	Urban Low (Lake County)	N/A
South	Single-Family Residential	Suburban Residential (SR)	Rural Neighborhood
East	Single-Family Residential	Urban Low (Lake County)	Suburban Corridor
West	Vacant	General Commercial (GC) and Mixed Commercial Residential (MCR)	N/A

Applicant's Request

The applicant and property owner wish to annex the property, change the future land use to **General Commercial (GC)**, and assign a design district of Suburban Corridor. The applicant's application did not detail the intended use of the property beyond future commercial development.

The current Lake County land use designation for the subject property is Urban Low. The Lake County land use designation allows for residential uses of up to four (4) dwelling units per one (1) net buildable acre and civic, institutional, commercial, and office uses at an appropriate scale and intensity to serve this category. Limited light industrial uses may only be allowed as a conditional use.

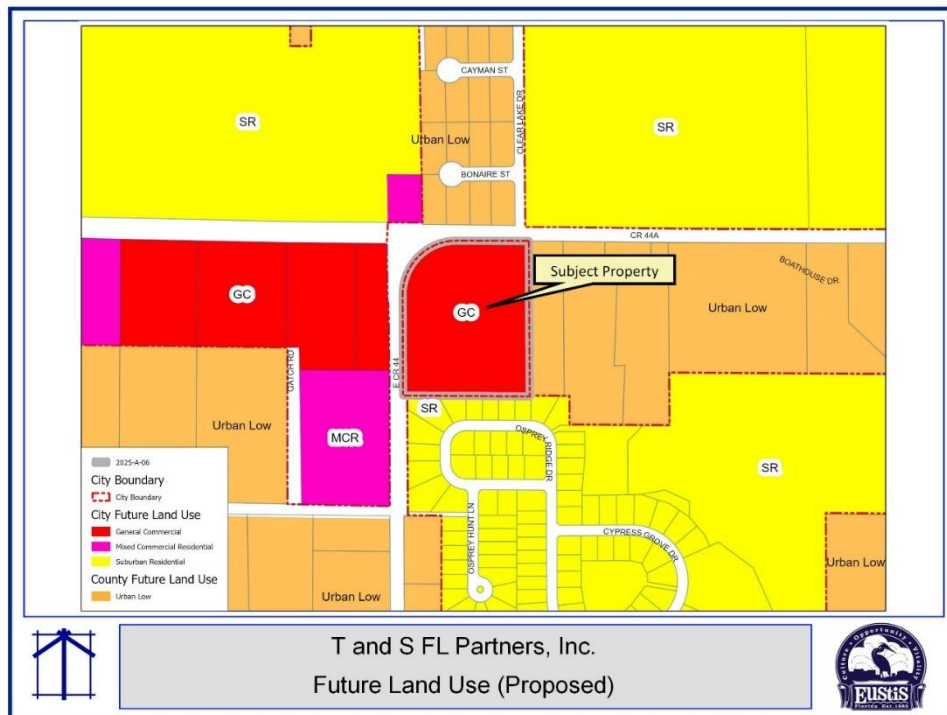

The proposed General Commercial (GC) land use designation within the City of Eustis provides for future commercial development. This future land use district request matches the designations to the west.

A. Analysis of Comprehensive Plan/Future Land Use Request (Ordinance Number 25-21)

In Accordance with Florida Statutes Chapter 163.3177.9, to discourage urban sprawl, the Florida Statutes outlines the Primary Indicators of Sprawl. Staff has reviewed these indicators and finds that the proposed annexation and assignment of Future Land Use does not contradict the intent of the primary indicators of sprawl as outlined. The outline and summary of these indicators are included in the supplement to this report.

B. Per the City of Eustis Comprehensive Plan, Future Land Use Element Appendix

Staff has assessed the proposed amendment to the City of Eustis Comprehensive Plan Future Land Use map relating to the development patterns described and supported within the Plan, including conditions and impacts to utility infrastructure, transportation infrastructure, natural features, and the environment. Staff review finds that the proposed assignment of the General Commercial (GC) future land use will not result in impacts that will cause detriment beyond current patterns. The outline and summary of this analysis are included as a supplement to this report.

Recommended Action:

Development Services finds that the proposed Future Land Use designation is consistent with the Comprehensive Plan, Land Development Regulations, and surrounding and adjacent land uses; therefore, it recommends transmittal of 2025-CPLUS-06 under Ordinance Number 25-21 to the City Commission for consideration, along with the associated annexation.

Policy Implications:

None

Alternatives:

1. Transmit 2025-CPLUS-06 under Ordinance Number 25-21 (Comp. Plan Amendment), to the City Commission for consideration
2. Do Not Transmit 2025-CPLUS-06 under Ordinance Number 25-21 (Comp. Plan Amendment), to the City Commission for consideration

Budget/Staff Impact:

There would be no direct costs to the City beyond the normal City services. There would be no additional staff time beyond the normal review process.

Business Impact Estimate:

The City has determined that a Business Impact Estimate is NOT required as the following exemption applies to the proposed ordinances: Section 166.041(4)(c) : ...enacted to implement comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the municipality.

Analysis of Comprehensive Plan/Future Land Use Request (**Ordinance Number 25-21**)

In Accordance with Florida Statutes Chapter 163.3177.9.:

Discourage Urban Sprawl: Primary Indicators of Sprawl:

The future land use element and any amendment to the future land use element shall discourage the proliferation of urban sprawl. The primary indicators that a plan or plan amendment does not discourage the proliferation of urban sprawl are listed below. The evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality in order to determine whether the plan or plan amendment:

Review of Indicators

1. Low Intensity Development:

Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses.

This indicator does not apply. The requested future land use will provide Commercial uses at a major intersection.

2. Urban Development in Rural Areas:

Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while not using undeveloped lands that are available and suitable for development.

This indicator does not apply. The area is a significant intersection in an urbanizing/suburbanizing area.

3. Strip or Isolated Development:

Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.

This indicator does not apply. The site is within an urbanizing corridor with commercial and industrial land uses designated to the west and residential development to the south.

4. Natural Resources Protection:

Fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

This indicator does not apply. The subject property is a tree farm (silviculture) and is currently planted with pine and mixed natural deciduous trees.

5. Agricultural Area Protection:

Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural and silvicultural activities, passive agricultural activities, and dormant, unique, and prime farmlands and soils.

This property does support active agricultural or silvicultural activities (tree farm/planted pine). However, the property is within an existing developed and further developing area, with similar land uses assigned.

6. Public Facilities:

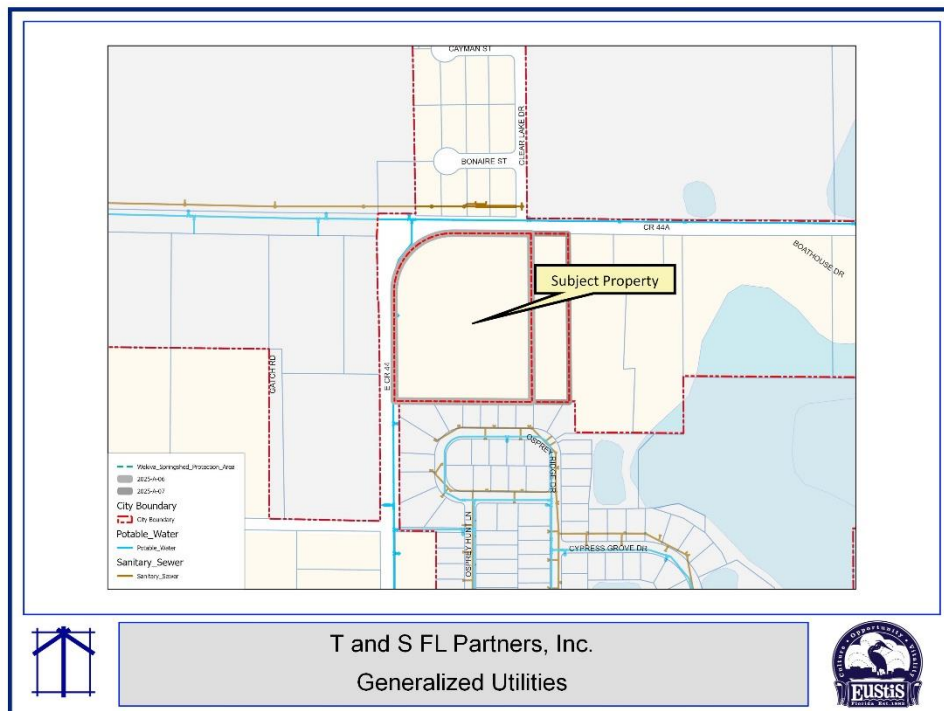

Fails to maximize use of existing public facilities and services.

This indicator does not apply. City water is available to the property. Development of this parcel will maximize the use and efficiency of the City's water service. City Sewer is available to the property and will be addressed via the site development process.

7. Cost Effectiveness and Efficiency of Public Facilities:

Allows for land use patterns or timing that disproportionately increase the cost in time, money, and energy of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

This indicator does not apply. Adequate capacity is available to serve the existing and future development consistent with the requested General Commercial (GC) future land use designation. The City provides these services to other properties in the area, so efficiency will improve.

8. Separation of Urban and Rural:

Fails to provide a clear separation between rural and urban uses.

This indicator does not apply. No other nearby properties contain active agricultural activities or uses. The surrounding area is developed or has development entitlements attached to the land. These developments have densities and intensities that are clearly suburban uses.

9. Infill and Redevelopment:

Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

This indicator does not apply. This property is a logical extension of development for the city.

10. Functional Mix of Uses:

Fails to encourage a functional mix of uses.

This indicator does not apply. The site is surrounded by single-family development on the adjacent properties, which is consistent with permitted uses in the area. A variety of other uses are evident, including various commercial, industrial, and residential uses, within 1 mile of the subject property.

11. Accessibility among Uses:

Results in poor accessibility among linked or related land uses.

This indicator does not apply. The Land Development Regulations include provisions to provide adequate accessibility and linkages between related uses. Development Services will ensure compliance with these standards at the time of development review.

12. Open Space:

Results in the loss of significant amounts of functional open space.

This indicator does not apply. The site does not contain functional open space and is not connected to regionally significant open space.

13. Urban Sprawl:

The future land use element or plan amendment shall be determined to discourage the proliferation of urban sprawl if it incorporates a development pattern or urban form that achieves four or more of the following:

a. Direction of Growth:

Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

The site is adjacent to existing urban/suburban development patterns and is a logical extension of the urban development boundary. The

Comprehensive Plan and Land Development Regulations have provisions to protect natural resources and ecosystems at time of site plan approval.

- b. Efficient and Cost-Effective Services:
Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

Water and sewer service are available.

- c. Walkable and Connected Communities:
Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.

At the time of development, the site must meet the City's Land Development Regulations relating to connection and sidewalks. County Roads 44 and 44A are not City infrastructure and do not currently have a sidewalk system. Interconnectivity to existing and future uses will be a challenge.

- d. Water and Energy Conservation:
Promotes the conservation of water and energy.

The development of the site must meet City development and Florida Building Code standards, which will require energy and water-efficient appliances.

- e. Agricultural Preservation:
Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils.

Not applicable; The site is within an existing developed/developing area.

- f. Open Space:
Preserves open space and natural lands and provides for public open space and recreation needs.

This is not applicable. The site does not provide functional open space or natural areas.

- g. Balance of Land Uses:
Creates a balance of land uses based upon the demands of the residential population for the nonresidential needs of an area.

The proposed land use would allow for additional commercial opportunities to serve existing residential development and capture market for through-commuters.

- h. Urban Form Densities and Intensities:
Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. [163.3164](#).

Not applicable.

In Accordance with the Comprehensive Plan Future Land Use Element Appendix:

All applications for a Plan amendment relating to the development patterns described and supported within the Plan including, but not limited to, site specific applications for changes in land use designations, are presumed to involve a legislative function of local government which, if approved, would be by legislative act of the City and shall, therefore, be evaluated based upon the numerous generally acceptable planning, timing, compatibility, and public facility considerations detailed or inferred in the policies of the Plan. Each application for an amendment to the Map #1: 2035 Future Land Use Map by changing the land use designation assigned to a parcel of property shall also be reviewed to determine and assess any significant impacts to the policy structure on the Comprehensive Plan of the proposed amendment including, but not limited to, the effect of the land use change on either the internal consistency or fiscal structure of the Plan.

Major Categories of Plan Policies:

This Plan amendment application review and evaluation process will be prepared and presented in a format consistent with the major categories of Plan policies as follows:

1. General Public Facilities/Services:

Since the Plan policies address the continuance, expansion and initiation of new government service and facility programs, including, but not limited to, capital facility construction, each application for a land use designation amendment shall include a description and evaluation of any Plan programs (such as the effect on the timing/financing of these programs) that will be affected by the amendment if approved. This analysis shall include the availability of, and actual and anticipated demand on, facilities and services serving or proposed to serve the subject property. The facilities and services required for analysis include emergency services, parks and recreation, potable water, public transportation if and when available, sanitary sewer, schools, solid waste, stormwater, and the transportation network.

- a. Emergency Services Analysis:
Eustis emergency services already provide emergency response to other properties in the area. Any development consistent with the General Commercial (GC) future land use designation would not have a significant negative impact on the operations of Eustis emergency services.
- b. Parks & Recreation:
In 2010, the City prepared a Park Inventory and Level of Service Demand and Capacity analysis as part of the Comprehensive Plan Evaluation and Appraisal Report. The results show that a surplus of park area exists up to and beyond the City's population of 20,015. The current population is 24,500. Pursuant to comprehensive plan policy and Land Development Regulation, residential development will be required to provide on-site park amenities.
- c. Potable Water & Sanitary Sewer:
Water and sewer are available to the subject property. Both the water and sewer systems have adequate capacity to serve the development of the property.
- d. Schools:
The proposed change should not negatively impact schools. At the time of development application verification of capacity will be required from Lake County Schools.
- e. Solid Waste:
The City contracts with Waste Management for the hauling of solid waste. The company already services properties in the general area of the subject property. Serving this property will increase efficiency in the delivery of services.
- f. Stormwater:
The Comprehensive Plan and Land Development Regulations include the level of service standards to which new development must adhere. Projects designed to meet these standards will not negatively affect the existing facilities and services.
- g. Transportation Network Analysis:
This potential added Commercial development will be evaluated at the time a development plan is submitted. At this time, the adjacent transportation network (CR 44/CR 44A) has the capacity to serve the proposed GC land use. Future improvements will depend on the ultimate buildout intensity and specific commercial uses. Prior to the development of the property, site plan approval amongst other approvals

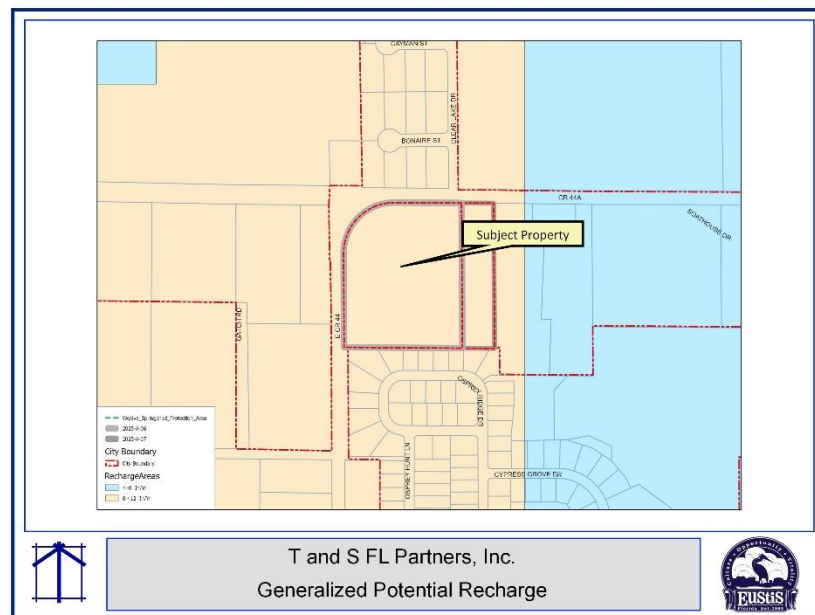

will be required. As part of the site plan review, a traffic study will be required to evaluate traffic impacts.

2. Natural Resources/Natural Features:

The policies of the Plan also contain general regulatory guidelines and requirements for managing growth and protecting the environment. These guidelines will be used to evaluate the overall consistency of the land use amendment with the Comprehensive Plan. Specifically, each amendment will be evaluated to 1) determine the existence of groundwater recharge areas; 2) the existence of any historical or archaeological sites; 3) the location of flood zones and the demonstration that the land uses proposed in flood-prone areas are suitable to the continued natural functioning of flood plains; and 4) the suitability of the soil and topography to the development proposed.

a. Groundwater recharge areas:

The site may be within a high recharge area; a site-specific geotechnical and hydrologic study will be needed to determine the site-specific impact at the time of development. Source: Lake County Comprehensive Plan 2030 Floridian Aquifer Recharge Map.

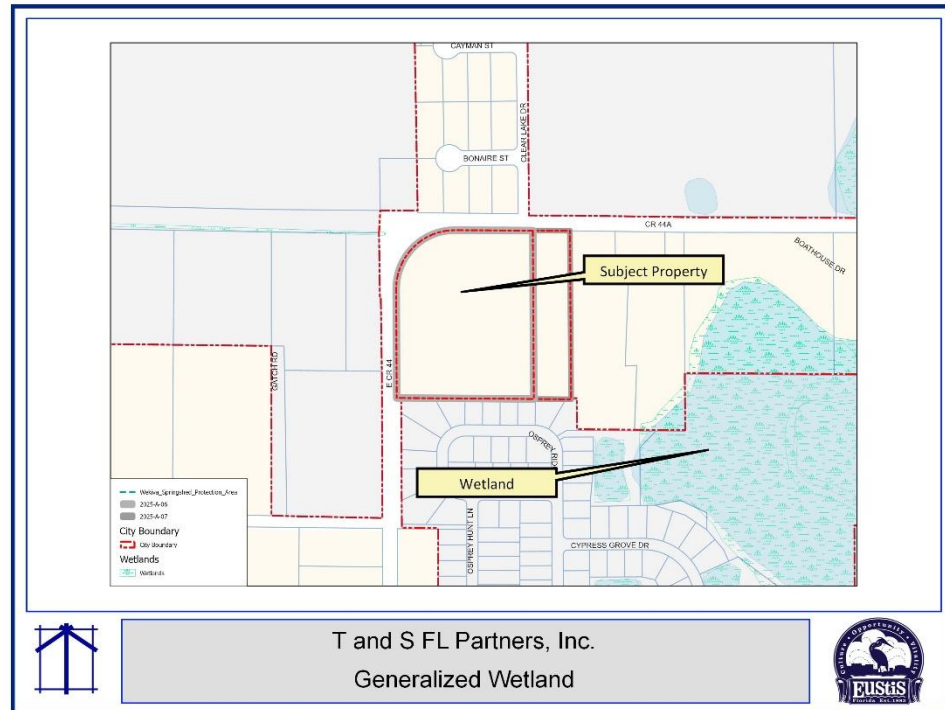

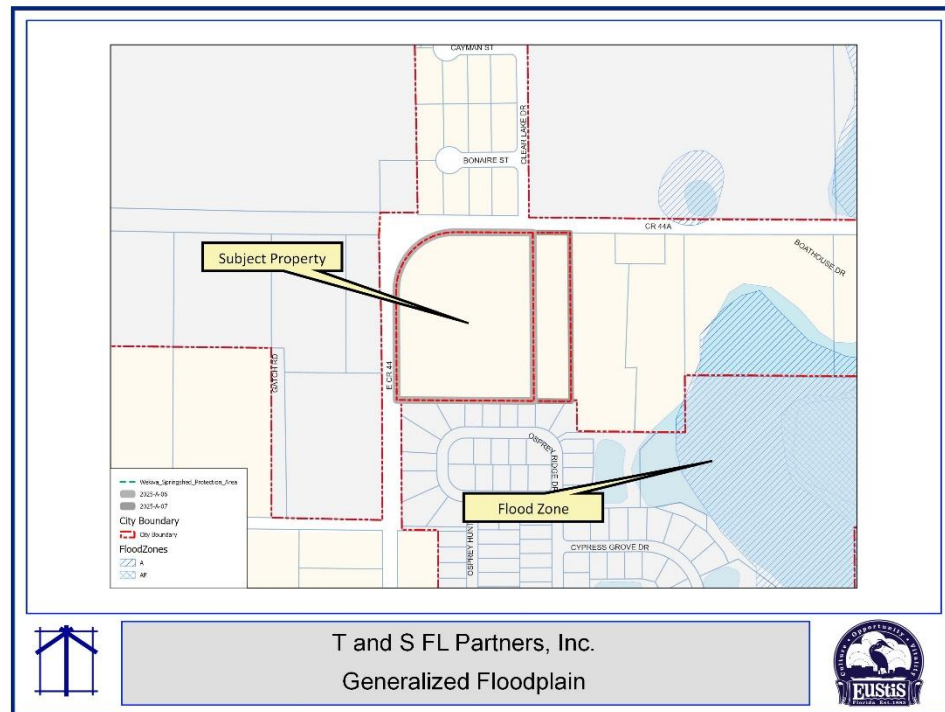

b. Historical or archaeological sites:

The City does not have any record of Florida Master Site Files related to this property, and no known historical or cultural resources exist.

c. Flood zones:

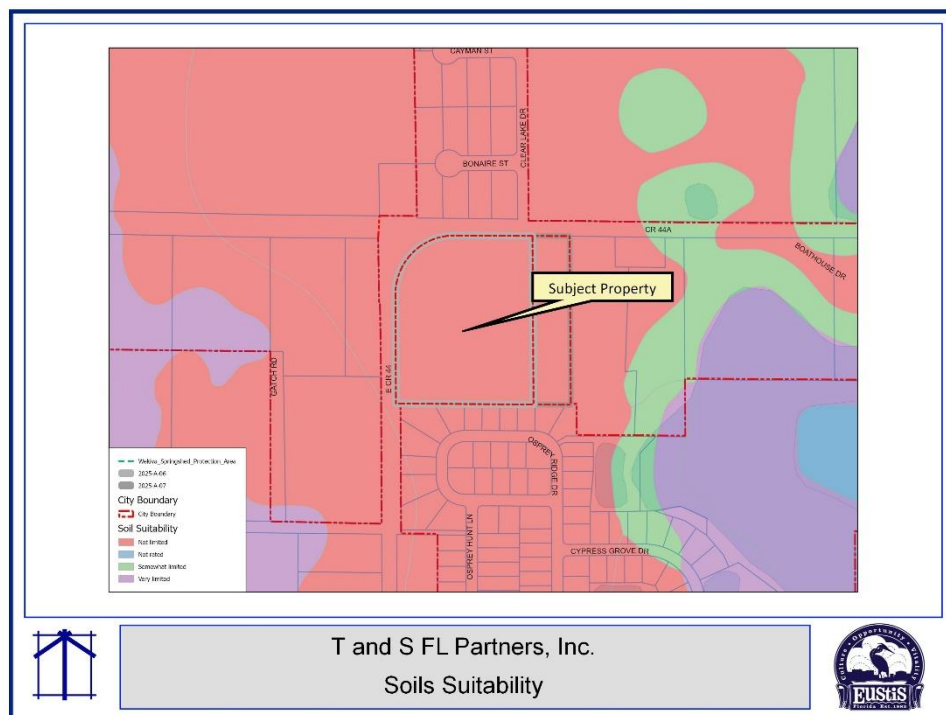

The subject property is not impacted by a 100-year flood zone area. Source - Lake County GIS - 2012 Flood Zones. Development of the property poses no wetland impacts, as no wetlands exist on the property.

d. *Soil and topography:*

The soils appear to pose no limitations for development. At the development application stage, soils and geotechnical reports will be required as part of the application packages as well as for permitting for development with the applicable state agencies.

As site plan and building permit approval must be obtained before development can begin, the Comprehensive Plan and the Land Development Regulations include standards for the protection of environmentally sensitive lands that would apply should conditions at the time of development warrant such protection.

3. Comprehensive Plan Review:

Additional criteria and standards are also included in the Plan that describe when, where and how development is to occur. Plan development policies will be used to evaluate the appropriateness of the compatibility of the use, intensity, location, and timing of the proposed amendment.

Existing Land Use According to the Lake County Comprehensive Plan:

“The Urban Low Density Future Land Use Category provides for a range of residential development at a maximum density of four (4) dwelling units per net buildable acre in addition to civic, institutional, commercial, and office uses at

an appropriate scale and intensity to serve this category. Limited light industrial uses may only be allowed as a conditional use.

This category shall be located on or in proximity to collector or arterial roadways to minimize traffic on local streets and provide convenient access to transit facilities. Within this category any residential development in excess of 10 dwelling units shall be required to provide a minimum 25% of the net buildable area of the entire site as common open space.

The maximum intensity in this category shall be 0.25, except for civic institutional uses which shall be 0.35. The maximum Impervious Surface Ratio shall be 0.60.”

Proposed Land Use According to the Eustis Comprehensive Plan:

General Commercial

(GC)

The GC designation is intended to provide an area consisting of primarily free-standing commercial land uses serving both motorists and local residents.

General Range of Uses: General Commercial may include a variety of free-standing retail and service uses and small strip centers including automotive-oriented uses such as service stations and auto sales as well as outdoor recreation, and schools. Public and utility services and facilities that are 5 acres or less in size are also permitted.

Intensity Range: up to 2.5 FAR subject to restrictions in Section 109-3 of the Land Development Regulations.

Developments within the Wekiva Protection Overlay that include longleaf pine, sand hill, sand pine, and xeric oak communities shall protect these areas as dedicated open space or conservation easements, with total open space equal to at least 35% of the net buildable area.

Comparison of Lake County Development Conditions

The existing Lake County future land use designation of the property is Urban Low, which provides for a range of residential development in addition to civic, commercial and office uses at an appropriate scale and intensity to serve this category. Allowable density and intensity in Urban Low is a maximum of 4 dwelling units per acre and intensity of 0.25 to 0.35 floor area ratio, with the sum of residential density and non-residential intensity not exceeding 100%.

Residential: Lake County limits residential development to 4 du/acre, while the City of Eustis General Commercial (GC) does not allow single-family residential, and multi-family is only allowed by PUD.

Proposed Residential Land Uses.

The City shall limit these uses adjacent to incompatible commercial or industrial lands unless sufficient mitigation, such as buffering and setbacks, is provided and available, which lessens the impact to the proposed residences.

Not applicable.

Proposed Non-Residential Land Uses.

The City shall generally not permit new industrial uses to be located adjacent to existing or planned residentially designated areas.

The proposed future land use does not allow for industrial-type uses that may be incompatible with existing residential uses. Through the site development process, each project is evaluated, and the appropriate land development regulations are applied to mitigate potential incompatibility.

1. Transportation:

Each application for a land use designation amendment will be required to demonstrate consistency with the Transportation Element of the adopted Comprehensive Plan.

This potential added commercial development will be evaluated at the time a development plan is submitted. At this time, the adjacent transportation network (CR 44/CR 44A) has the capacity to serve the proposed GC land use. Future improvements will depend on the ultimate buildout intensity and specific commercial uses. Prior to the development of the property, site plan approval amongst other approvals will be required. As part of the site plan review, a traffic study will be required to evaluate traffic impacts.

2. Water Supply:

Each application for a land use designation amendment will be required to demonstrate that adequate water supplies and associated public facilities are (or will be) available to meet the projected growth demands.

City water service and other services are available. The City's adopted Water Supply Plan anticipated additional growth consistent with this development, so both supply and capacity are available.

In Accordance with Chapter 102-16(f), Land Development Regulations

Standards for Review:

In reviewing the application of a proposed amendment to the comprehensive plan, the local planning agency and the city commission shall consider:

a. *Consistent with Comprehensive Plan:*

Whether the proposed amendment is consistent with all expressed policies the comprehensive plan.

The proposed amendment is consistent with the Comprehensive Plan.

b. *In Conflict with Land Development Regulations:*

Whether the proposed amendment is in conflict with any applicable provisions of these land development regulations.

The proposed amendment is not in conflict with the Land Development Regulations. At the time of development, there will be further review for compliance.

c. *Inconsistent with Surrounding Uses:*

Whether, and the extent to which, the proposed amendment is inconsistent with existing and proposed land uses.

City commercial future land use has been designated for the west side of the CR 44/44A intersection. The General Commercial FLU would not be inconsistent for the area.

d. *Changed Conditions:*

Whether there have been changed conditions that justify an amendment.

The applicant wishes to annex the property into the City limits of Eustis. Assignment of a City of Eustis future land use designation is required. Upon annexation, the subject property will have a full array of municipal services, including central water. These changed conditions warrant a change in the land use designation.

e. *Demand on Public Facilities:*

Whether, and the extent to which, the proposed amendment would result in demands on public facilities, and whether, or to the extent to which, the proposed amendment would exceed the capacity of such public facilities, infrastructure and services, including, but not limited to police, roads, sewage facilities, water supply, drainage, solid waste, parks and recreation, schools, and fire and emergency medical facilities.

City water and sewer services are available and, in close proximity to the site. Adequate capacity is available to serve future development consistent with the requested future land use designation.

Upon annexation, the City will also provide other services such as fire and police protection, library services, parks, and recreation. The City provides these services to other properties in the area, so efficiency will improve.

f. Impact on Environment:

Whether, and the extent to which, the proposed amendment would result in significant impacts on the natural environment.

The site contains no apparent natural resources and is not connected to significant open space.

g. Orderly Development Pattern:

Whether, and the extent to which, the proposed amendment would result in an orderly and logical development pattern, specifically identifying any negative effects on such pattern.

The site is contiguous to the City limits. The annexation would create a logical development pattern as it extends the City limits to a more natural boundary in this area.

h. Public Interest and Intent of Regulations:

Whether the proposed amendment would be consistent with or advance the public interest, and in harmony with the purpose and intent of these land development regulations.

The purpose and intent of the Land Development Regulations is as follows:

“The general purpose of this Code is to establish procedures and standards for the development of land within the corporate boundaries and the planning area of the city, such procedures and standards being formulated in an effort to promote the public health, safety and welfare and enforce and implement the city's comprehensive plan, while permitting the orderly growth and development with the city and Eustis planning area consistent with its small-town community character and lifestyle.”

The requested designation of GC land use will provide for orderly growth and development. This designation would advance the public interest by potentially providing additional commercial options, and the application of the LDRs to future development will ensure consistency with the community character and lifestyle of the city.

i. Other Matters:

Any other matters that may be deemed appropriate by the local planning agency or the city commissioners, in review and consideration of the proposed amendment.

No other matters.

ORDINANCE NUMBER 25-21

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF EUSTIS, LAKE COUNTY, FLORIDA, AMENDING THE CITY OF EUSTIS COMPREHENSIVE PLAN PURSUANT TO 163.3187 F.S.; CHANGING THE FUTURE LAND USE DESIGNATION OF APPROXIMATELY 10 ACRES OF RECENTLY ANNEXED REAL PROPERTY AT ALTERNATE KEY NUMBERS 1040141, GENERALLY LOCATED ON THE EAST SIDE OF THE INTERSECTION OF COUNTY ROAD 44 AND COUNTY ROAD 44A.

WHEREAS, on November 4, 2010, the Eustis City Commission adopted the City of Eustis Comprehensive Plan 2010-2035 through Ordinance Number 10-11; and

WHEREAS, the State of Florida Department of Community Affairs found the City of Eustis Comprehensive Plan 2010-2035 In Compliance pursuant to Sections 163.3184, 163.3187, and 163.3189 Florida Statutes; and

WHEREAS, the City of Eustis periodically amends its Comprehensive Plan in accordance with Chapter 163.3187 and 163.3191, Florida Statutes; and

WHEREAS, the City of Eustis desires to amend the Future Land Use Map Series to change the Future Land Use designation on approximately 10 acres of real property located on the east side of the intersection of County Road 44 and County Road 44A and more particularly described herein; and

WHEREAS, on August 7, 2025, the Local Planning Agency held a Public Hearing to consider the adoption of a Small-Scale Future Land Use Amendment for this change in designation; and

WHEREAS, on August 7, 2025, the City Commission held the 1st Adoption Public Hearing to accept the Local Planning Agency's recommendation to adopt the Small-Scale Future Land Use Amendment contained herein; and

WHEREAS, on August 21, 2025, the City Commission held the 2nd Adoption Public Hearing to consider the adoption of the Small Scale Future Land Use Amendment contained herein;

NOW, THEREFORE, THE COMMISSION OF THE CITY OF EUSTIS HEREBY ORDAINS:

SECTION 1.

Land Use Designation: That the Future Land Use Designation of the real property as described below shall be changed from Urban Low in Lake County to **General Commercial (GC)** within the City of Eustis:

Parcel Alternate Key: 1040141

Parcel Identification Numbers: 06-19-27-0200-000-00500

Legal Description:

A portion of Lots 5, 6, and 7, C.M. Rehner's Subdivision, according to the plat thereof, as recorded in Plat Book 1, Page 50, of the Public Records of Lake County, Florida, lying in Section 6, Township 19 South, Range 27 East, Lake County, Florida, described as follows:

Beginning at the Northwest corner of Tract S, Spring Ridge Estates, according to the plat thereof, as recorded in Plat Book 58, Pages 28 through 30, of the Public Records of Lake County, Florida, and with the Easterly Right-of-Way line of County Road No. 44, North 00°04'26" West, 115.21 feet, to the intersection of the Easterly Right-of-Way line of said County Road No. 44 and the Northerly line of said Lot 7; thence continuing with the Easterly Right-of-Way line of said County Road No. 44, North 00°13'04" West, 366.04 feet, to the beginning of a non-tangent curve concave Southeasterly; thence with a radius of 258.33 feet, a delta of 90°32'39", and a chord bearing and distance of North 45°01'32" East, 367.07 feet, Northeasterly along said curve, an arc length of 408.24 feet, to the end of said curve on the Southerly Right-of-Way line of County Road No. 44A; thence with the Southerly Right-of-Way line of said County Road No. 44A, South 89°36'40" East, 344.52 feet, to a point lying 163.90 feet Westerly of the Westerly line of the lands described in Official Records Book 5581, Page 918, of the Public Records of Lake County, Florida; thence with a line parallel with the Westerly line of said lands described in Official Records Book 5581, Page 918, South 00°20'56" East, 743.66 feet, to the Northerly line of said Spring Ridge Estates; thence with the Northerly line of said Spring Ridge Estates, North 89°29'59" West, 607.20 feet, to the Point of Beginning.

Containing 435,632.66 Square Feet or 10.00 Acres, more or less.

(The foregoing legal description was copied from the Applicant's submitted survey and has not been verified for accuracy)

SECTION 2.

Map Amendment and Notification: That the Director of Development Services shall be authorized to amend the Future Land Use Map of the Comprehensive Plan to incorporate the change described in Section 1 and provide appropriate notification in accordance with Florida Statutes.

SECTION 3.

Conflict: That all Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

SECTION 4.

Severability: That should any section, phrase, sentence, provision, or portion of this Ordinance be declared by any court of competent jurisdiction to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole, or any part thereof, other than the part so declared to be unconstitutional or invalid.

SECTION 5.

Effective Date: That the effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the Department of Economic Opportunity notifies the local government that the plan amendment package is complete. If timely challenged, this amendment shall become effective on the date the Department of Economic Opportunity or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No

development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this amendment may nevertheless be made effective by the adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the Department of Economic Opportunity.

PASSED, ORDAINED, AND APPROVED in Regular Session of the City Commission of the City of Eustis, Florida, this 21st day of August 2025.

**CITY COMMISSION OF THE
CITY OF EUSTIS, FLORIDA**

Willie L. Hawkins
Mayor/Commissioner

ATTEST:

Christine Halloran, City Clerk

CITY OF EUSTIS CERTIFICATION

**STATE OF FLORIDA
COUNTY OF LAKE**

The foregoing instrument was acknowledged before me, by means of physical presence, this 21st day of August 2025, by Willie L. Hawkins, Mayor/Commissioner, and Christine Halloran, City Clerk, who are personally known to me.

This document is approved as to form and legal content for the use and reliance of the Eustis City Commission, but I have not performed an independent title examination as to the accuracy of the legal description.

City Attorney's Office

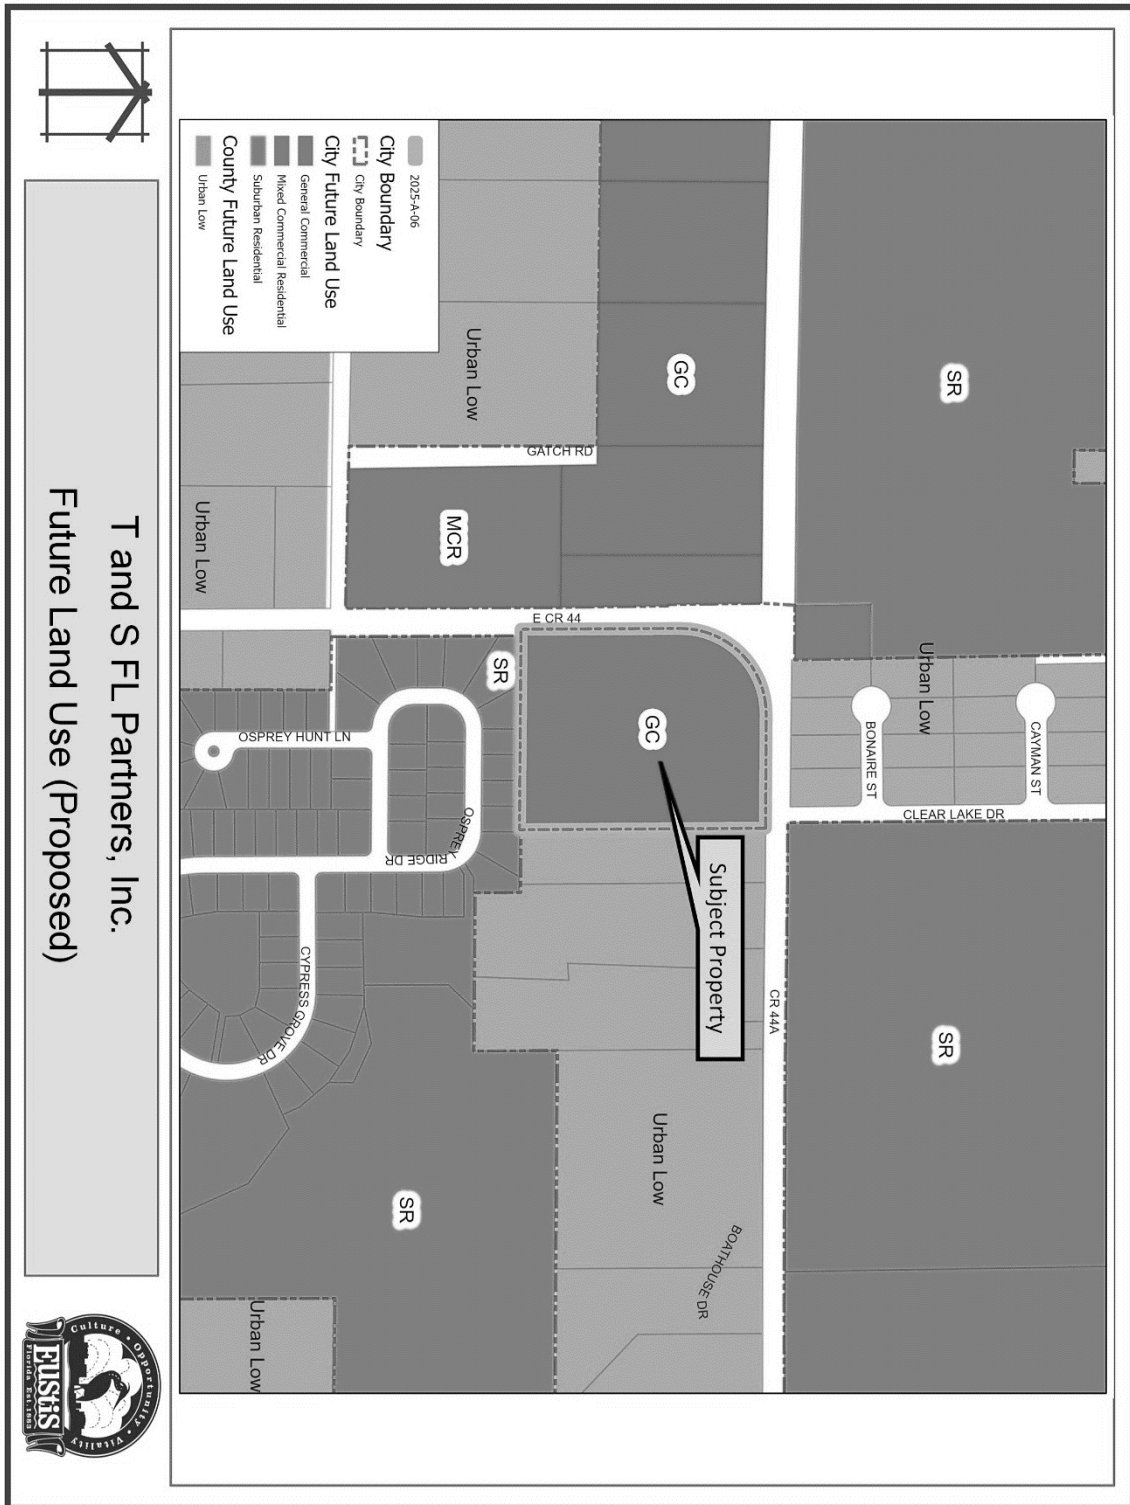

Date

CERTIFICATE OF POSTING

The foregoing Ordinance Number 25-21 is hereby approved, and I certify that I published the same by posting one copy hereof at City Hall, one copy hereof at the Eustis Memorial Library, and one copy hereof at the Parks & Recreation Office, all within the corporate limits of the City of Eustis, Lake County, Florida.

Christine Halloran, City Clerk

Exhibit A

Business Impact Estimate Eligibility Form

Section 166.041(4), Florida Statutes

This form should be included in the agenda packet for the item under which the proposed ordinance is to be considered and must be posted on the City of Eustis' website by the time notice of the proposed ordinance is published.

This form simply assists in determining whether a Business Impact Estimate must be completed under Florida law for the proposed ordinance. Should a Business Impact Estimate be required or should the City opt to provide one as a courtesy based on the selection below then a separate form with the statutory components of Section 166.041(4)(a) shall also accompany the proposed ordinance.

Ordinance Number	25-21
Ordinance Subject	Future Land Use Map Amendment 2025-CPLUS-06
Legal Advertising Date	July 28, 2025
First Reading On	8/7/2025
Second Reading On	8/21/2025

Ordinance Title

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF EUSTIS, LAKE COUNTY, FLORIDA, AMENDING THE CITY OF EUSTIS COMPREHENSIVE PLAN PURSUANT TO 163.3187 F.S.; CHANGING THE FUTURE LAND USE DESIGNATION OF APPROXIMATELY 10 ACRES OF RECENTLY ANNEXED REAL PROPERTY AT ALTERNATE KEY NUMBERS 1040141, GENERALLY LOCATED ON THE EAST SIDE OF THE INTERSECTION OF COUNTY ROAD 44 AND COUNTY ROAD 44A

Based on the City's review of the proposed ordinance (must select one of the following):

- ☒ The City has determined the statutory exemption identified below applies to the proposed ordinance; a Business Impact Estimate is NOT required and therefore not provided.
- ☐ The City has determined the statutory exemption identified below applies to the proposed ordinance; however, the City has prepared the Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance.
- ☐ The City has prepared a Business Impact Estimate in accordance with section 166.041(4), Florida Statutes.

Exemptions

The City has determined that a Business Impact Estimate is NOT required as the following exemption applies to the proposed ordinance:

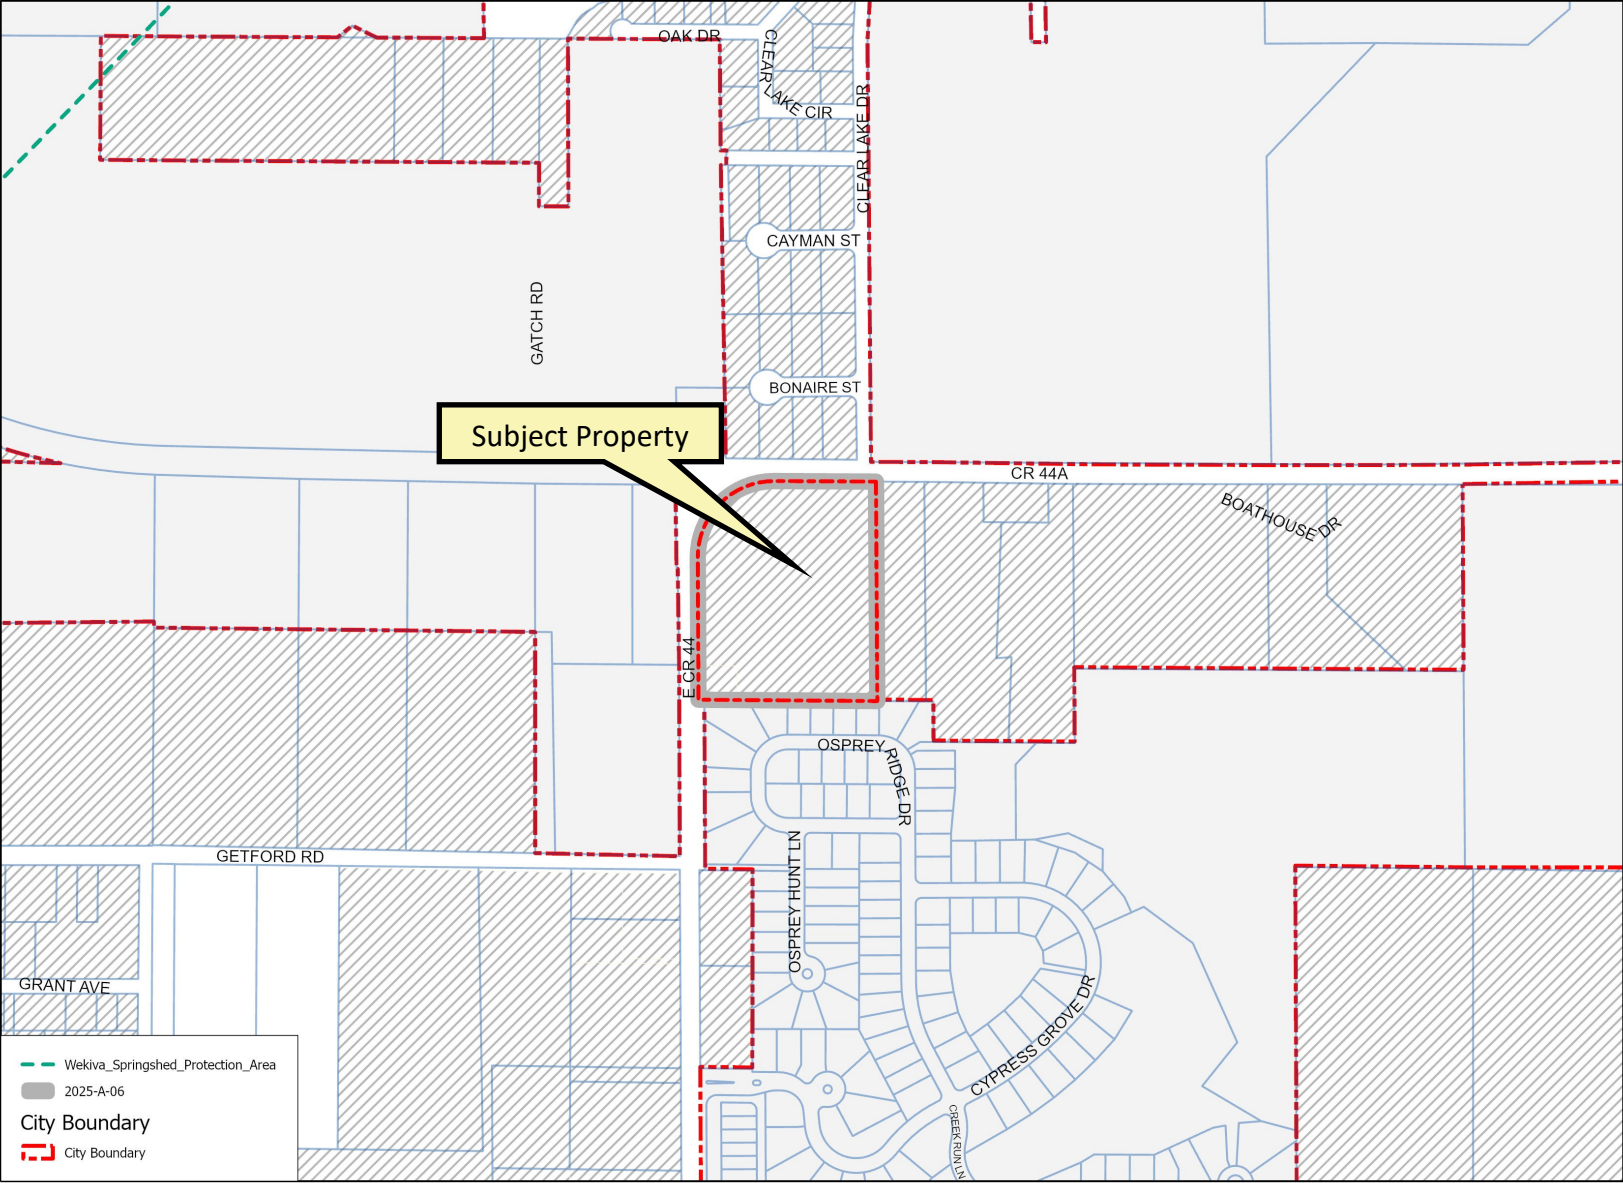

Section 166.041 (4)(c) exemption: It is enacted to implement comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the municipality.

TO: EUSTIS LOCAL PLANNING AGENCY

FROM: Tom Carrino, City Manager

DATE: August 7, 2025

RE: Ordinance Number 25-24: 2025-CPLUS-07 – Future Land Use Map Amendment
Comprehensive Plan Amendment for Annexation of Parcels with Alternate Key
Number *LAKE COUNTY PROPERTY APPRAISER HAS NOT ASSIGNED*

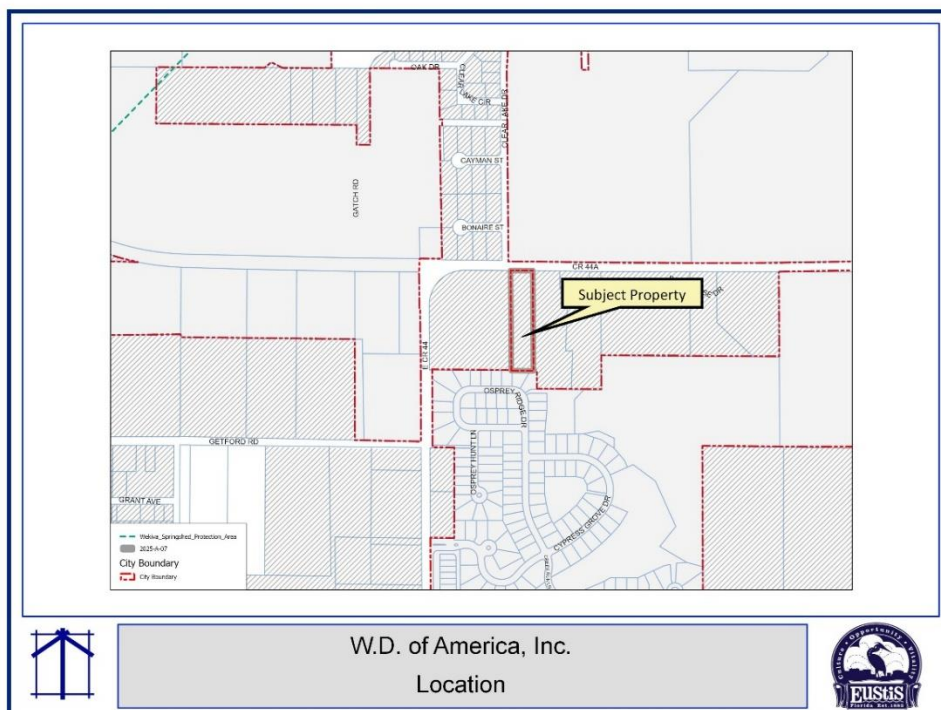

Introduction:

Ordinance Number 25-23 provides for the voluntary annexation of approximately 2.8 acres located on the east side of the intersection of County Road 44 and County Road 44A (Alternate Key Number (Lake County Property Appraiser Has Not Assigned)). Provided the annexation of the subject property is approved, Ordinance Number 25-24 would change the Future Land Use designation from Urban Low in Lake County to General Commercial (GC) in the City of Eustis, and Ordinance Number 25-25 would assign the subject property a Design District designation of Suburban Corridor. If Ordinance Number 25-23 is denied, then there can be no consideration of Ordinance Numbers 25-24 and 25-25.

Background:

1. The site contains approximately 2.8 acres and is located within the Eustis Joint Planning Area. The site is currently Residential and agricultural/silvicultural (Planted Pines)
2. The subject property is contiguous to the current City of Eustis boundary on the south and west property lines.
3. The site has a Lake County Future Land Use Designation of Urban Low, but approval of Ordinance Number 25-24 would change the land use designation to General Commercial (GC) in the City of Eustis.
4. The West Side of the CR 44A/CR 44 intersection is already City of Eustis General Commercial (GC) and Mixed Commercial Residential (MCR).

Location	Existing Use	Future Land Use	Design District
Site	Vacant/Planted Pines	Urban Low (Lake County)	N/A
North	Single-Family Residential	Urban Low (Lake County)	N/A
South	Single-Family Residential	Suburban Residential (SR)	Rural Neighborhood
East	Single-Family Residential	Urban Low (Lake County)	Suburban Corridor
West	Vacant	General Commercial (GC) and Mixed Commercial Residential (MCR)	N/A

Applicant's Request

The applicant and property owner wish to annex the property, change the future land use to **General Commercial (GC)**, and assign a design district of Suburban Corridor. The applicant's application did not detail the intended use of the property beyond future commercial development.

The current Lake County land use designation for the subject property is Urban Low. The County land use designation allows for residential uses of up to four (4) dwelling units per one (1) net buildable acre and civic, institutional, commercial, and office uses at an appropriate scale and intensity to serve this category. Limited light industrial uses may only be allowed as a conditional use.

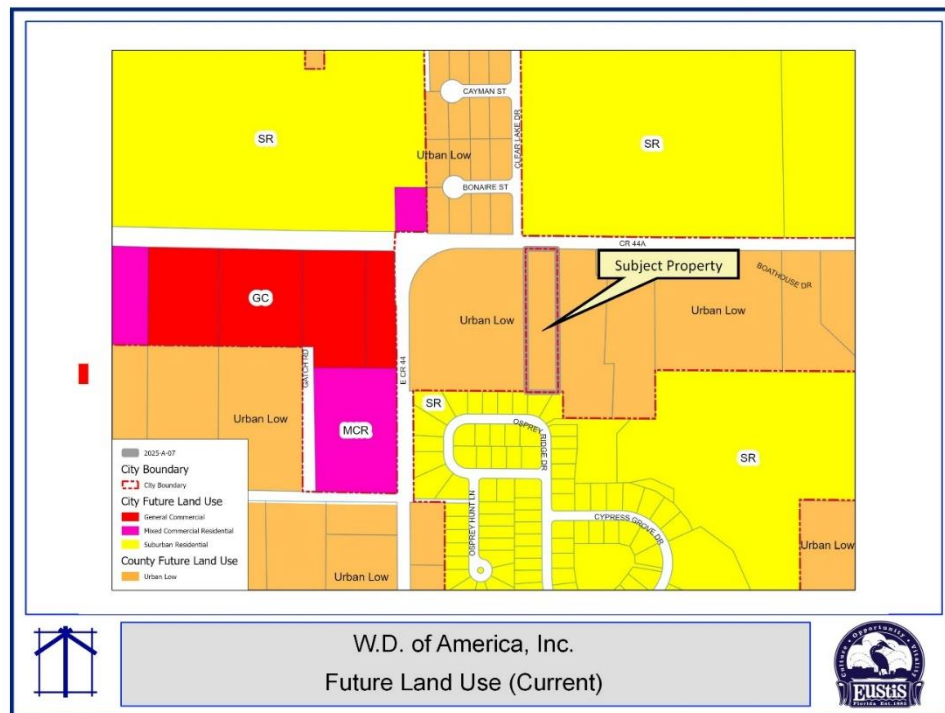

The proposed General Commercial (GC) land use designation within the City of Eustis provides for future commercial development. This future land use district request matches the designations to the west.

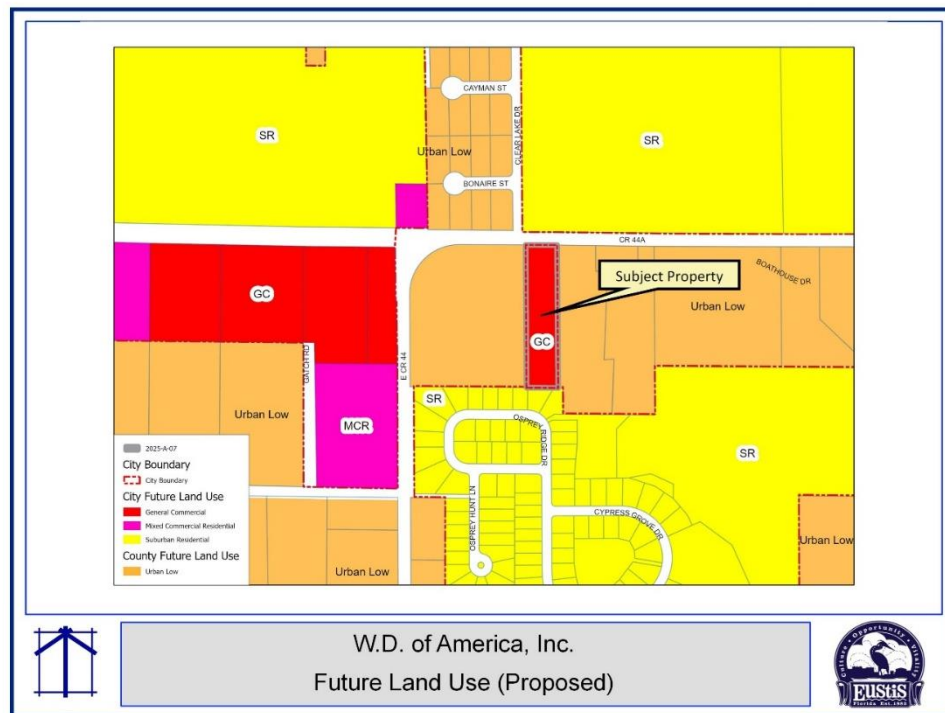

A. Analysis of Comprehensive Plan/Future Land Use Request (Ordinance Number 25-24)

In Accordance with Florida Statutes Chapter 163.3177.9, to discourage urban sprawl, the Florida Statutes outlines the Primary Indicators of Sprawl. Staff has reviewed these indicators and finds that the proposed annexation and assignment of Future Land Use does not contradict the intent of the primary indicators of sprawl as outlined. The outline and summary of these indicators are included in the supplement to this report.

B. Per the City of Eustis Comprehensive Plan, Future Land Use Element Appendix

Staff has assessed the proposed amendment to the City of Eustis Comprehensive Plan Future Land Use map relating to the development patterns described and supported within the Plan, including conditions and impacts to utility infrastructure, transportation infrastructure, natural features, and the environment. Staff review finds that the proposed assignment of the General Commercial (GC) future land use will not result in impacts that will cause detriment beyond current patterns. The outline and summary of this analysis are included as a supplement to this report.

Recommended Action:

Development Services finds that the proposed Future Land Use designation is consistent with the Comprehensive Plan, Land Development Regulations, and surrounding and adjacent land uses; therefore, it recommends transmittal of 2025-CPLUS-07 under Ordinance Number 25-24 to the City Commission for consideration, along with the associated annexation.

Policy Implications:

None

Alternatives:

1. Transmit 2025-CPLUS-07 under Ordinance Number 25-24 (Comp. Plan Amendment), to the City Commission for consideration
2. Do Not Transmit 2025-CPLUS-07 under Ordinance Number 25-24 (Comp. Plan Amendment), to the City Commission for consideration

Budget/Staff Impact:

There would be no direct costs to the City beyond the normal City services. There would be no additional staff time beyond the normal review process.

Business Impact Estimate:

The City has determined that a Business Impact Estimate is NOT required as the following exemption applies to the proposed ordinances: Section 166.041(4)(c): ...enacted to implement comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the municipality.

Prepared By:

Jeff Richardson, AICP, Deputy Director, Development Services

Analysis of Comprehensive Plan/Future Land Use Request (**Ordinance Number 25-24**)

In Accordance with Florida Statutes Chapter 163.3177.9.:

Discourage Urban Sprawl: Primary Indicators of Sprawl:

The future land use element and any amendment to the future land use element shall discourage the proliferation of urban sprawl. The primary indicators that a plan or plan amendment does not discourage the proliferation of urban sprawl are listed below. The evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality in order to determine whether the plan or plan amendment:

Review of Indicators

1. Low Intensity Development:

Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses.

This indicator does not apply. The requested future land use will provide Commercial uses at a major intersection.

2. Urban Development in Rural Areas:

Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while not using undeveloped lands that are available and suitable for development.

This indicator does not apply. The area is a significant intersection in an urbanizing/suburbanizing area.

3. Strip or Isolated Development:

Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.

This indicator does not apply. The site is within an urbanizing corridor with commercial and industrial land uses designated to the west and residential development to the south.

4. Natural Resources Protection:

Fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

This indicator does not apply. The subject property is a tree farm (silviculture) and is currently planted with pine and mixed natural deciduous trees.

5. Agricultural Area Protection:

Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural and silvicultural activities, passive agricultural activities, and dormant, unique, and prime farmlands and soils.

This property does support active agricultural or silvicultural activities (tree farm/planted pine). However, the property is within an existing developed and further developing area, with similar land uses assigned.

6. Public Facilities:

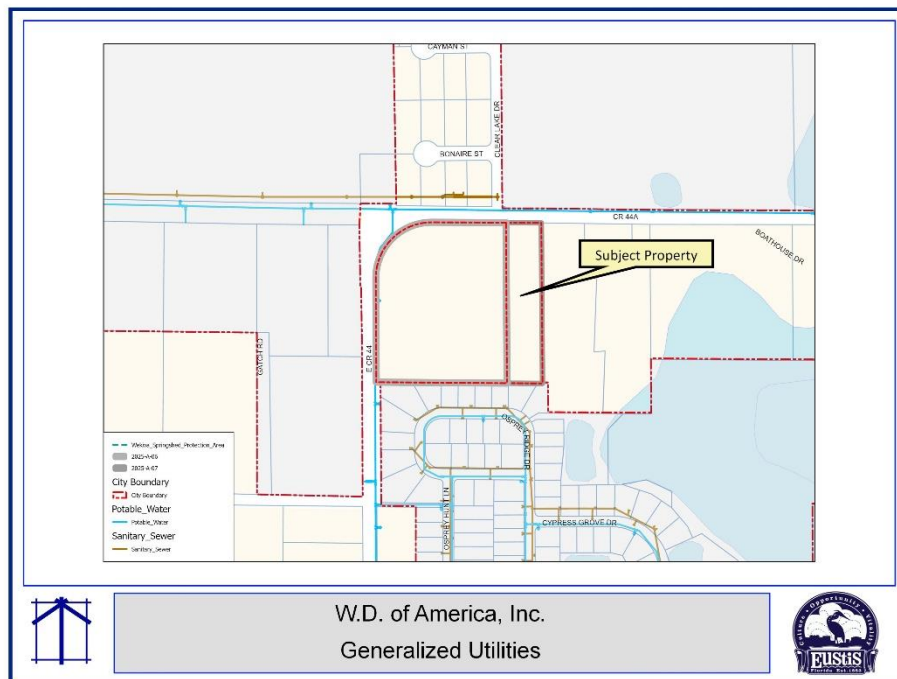

Fails to maximize use of existing public facilities and services.

This indicator does not apply. City water is available to the property. Development of this parcel will maximize the use and efficiency of the City's water service. City Sewer is available to the property and will be addressed via the site development process.

7. Cost Effectiveness and Efficiency of Public Facilities:

Allows for land use patterns or timing that disproportionately increase the cost in time, money, and energy of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

This indicator does not apply. Adequate capacity is available to serve the existing and future development consistent with the requested MCR future land use designation. The City provides these services to other properties in the area, so efficiency will improve.

8. Separation of Urban and Rural:

Fails to provide a clear separation between rural and urban uses.

This indicator does not apply. No other nearby properties contain active agricultural activities or uses. The surrounding area is developed or has development entitlements attached to the land. These developments have densities and intensities that are clearly suburban uses.

9. Infill and Redevelopment:

Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

This indicator does not apply. This property is a logical extension of development for the city.

10. Functional Mix of Uses:

Fails to encourage a functional mix of uses.

This indicator does not apply. The site is surrounded by single-family development on the adjacent properties, which is consistent with permitted uses in the area. A variety of other uses are evident, including various commercial, industrial, and residential uses, within 1 mile of the subject property.

11. Accessibility among Uses:

Results in poor accessibility among linked or related land uses.

This indicator does not apply. The Land Development Regulations include provisions to provide adequate accessibility and linkages between related uses. Development Services will ensure compliance with these standards at the time of development review.

12. Open Space:

Results in the loss of significant amounts of functional open space.

This indicator does not apply. The site does not contain functional open space and is not connected to regionally significant open space.

13. Urban Sprawl:

The future land use element or plan amendment shall be determined to discourage the proliferation of urban sprawl if it incorporates a development pattern or urban form that achieves four or more of the following:

a. Direction of Growth:

Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

The site is adjacent to existing urban/suburban development patterns and is a logical extension of the urban development boundary. The Comprehensive Plan and Land Development Regulations have provisions to protect natural resources and ecosystems at time of site plan approval.

- b. Efficient and Cost-Effective Services:
Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

Water and sewer service are available.

- c. Walkable and Connected Communities:
Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.

At the time of development, the site must meet the City's Land Development Regulations relating to connection and sidewalks. County Roads 44 and 44A are not City infrastructure and do not currently have a sidewalk system. Interconnectivity to existing and future uses will be a challenge.

- d. Water and Energy Conservation:
Promotes the conservation of water and energy.

The development of the site must meet City development and Florida Building Code standards, which will require energy and water-efficient appliances.

- e. Agricultural Preservation:
Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils.

Not applicable; The site is within an existing developed/developing area.

- f. Open Space:
Preserves open space and natural lands and provides for public open space and recreation needs.

This is not applicable. The site does not provide functional open space or natural areas.

- g. Balance of Land Uses:
Creates a balance of land uses based upon the demands of the residential population for the nonresidential needs of an area.

The proposed land use would allow for additional commercial opportunities to serve existing residential development and capture market for through-commuters.

- h. Urban Form Densities and Intensities:
Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. [163.3164](#).

Not applicable.

In Accordance with the Comprehensive Plan Future Land Use Element Appendix:

All applications for a Plan amendment relating to the development patterns described and supported within the Plan including, but not limited to, site specific applications for changes in land use designations, are presumed to involve a legislative function of local government which, if approved, would be by legislative act of the City and shall, therefore, be evaluated based upon the numerous generally acceptable planning, timing, compatibility, and public facility considerations detailed or inferred in the policies of the Plan. Each application for an amendment to the Map #1: 2035 Future Land Use Map by changing the land use designation assigned to a parcel of property shall also be reviewed to determine and assess any significant impacts to the policy structure on the Comprehensive Plan of the proposed amendment including, but not limited to, the effect of the land use change on either the internal consistency or fiscal structure of the Plan.

Major Categories of Plan Policies:

This Plan amendment application review and evaluation process will be prepared and presented in a format consistent with the major categories of Plan policies as follows:

1. General Public Facilities/Services:

Since the Plan policies address the continuance, expansion and initiation of new government service and facility programs, including, but not limited to, capital facility construction, each application for a land use designation amendment shall include a description and evaluation of any Plan programs (such as the effect on the timing/financing of these programs) that will be affected by the amendment if approved. This analysis shall include the availability of, and actual and anticipated demand on, facilities and services serving or proposed to serve the subject property. The facilities and services required for analysis include emergency services, parks and recreation, potable water, public transportation if and when available, sanitary sewer, schools, solid waste, stormwater, and the transportation network.

a. Emergency Services Analysis:

Eustis emergency services already provide emergency response to other properties in the area. Any development consistent with the GC future land use designation would not have a significant negative impact on the operations of Eustis emergency services.

b. Parks & Recreation:

In 2010, the City prepared a Park Inventory and Level of Service Demand and Capacity analysis as part of the Comprehensive Plan Evaluation and Appraisal Report. The results show that a surplus of park area exists up to and beyond the City's population of 20,015. The current population is 24,500. Pursuant to Comprehensive Plan policy and Land Development Regulation, residential development will be required to provide on-site park amenities.

c. Potable Water & Sanitary Sewer:

Water and sewer are available to the subject property. Both the water and sewer systems have adequate capacity to serve the development of the property.

d. Schools:

The proposed change should not negatively impact schools. At the time of development, application verification of capacity will be required from Lake County Schools.

e. Solid Waste:

The City contracts with Waste Management for the hauling of solid waste. The company already services properties in the general area of the subject property. Serving this property will increase efficiency in the delivery of services.

f. Stormwater:

The Comprehensive Plan and Land Development Regulations include the level of service standards to which new development must adhere. Projects designed to meet these standards will not negatively affect the existing facilities and services.

g. Transportation Network Analysis:

This potential added Commercial development will be evaluated at the time a development plan is submitted. At this time, the adjacent transportation network (CR 44/CR 44A) has the capacity to serve the proposed GC land use district. Future improvements will depend on the ultimate buildout intensity and specific commercial uses. Prior to the development of the property, site plan approval amongst other approvals will be required. As part of the site plan review, a traffic study will be required to evaluate traffic impacts.

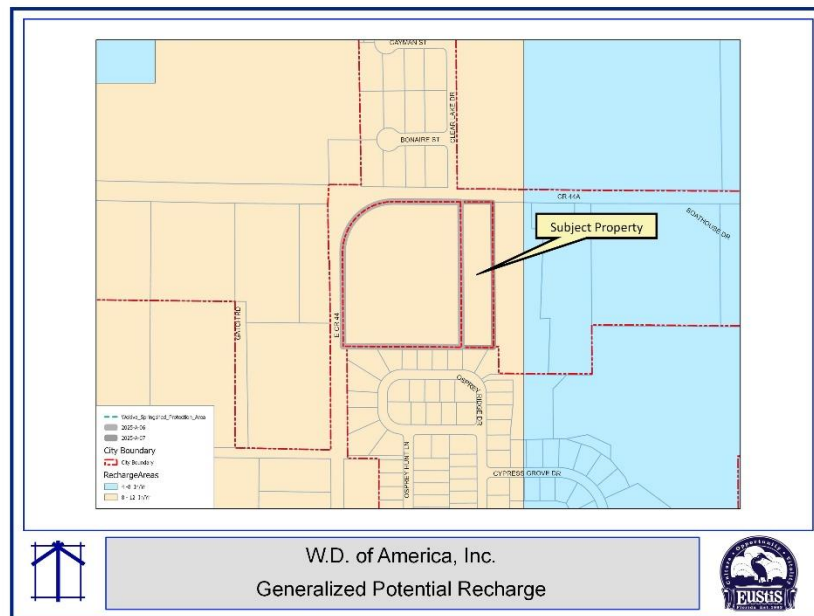

2. Natural Resources/Natural Features:

The policies of the Plan also contain general regulatory guidelines and requirements for managing growth and protecting the environment. These guidelines will be used to evaluate the overall consistency of the land use amendment with the Comprehensive

Plan. Specifically, each amendment will be evaluated to 1) determine the existence of groundwater recharge areas; 2) the existence of any historical or archaeological sites; 3) the location of flood zones and the demonstration that the land uses proposed in flood-prone areas are suitable to the continued natural functioning of flood plains; and 4) the suitability of the soil and topography to the development proposed.

a. Groundwater recharge areas:

The site may be within a high recharge area; a site-specific geotechnical and hydrologic study will be needed to determine the site-specific impact at the time of development. Source: Lake County Comprehensive Plan 2030 Floridian Aquifer Recharge Map.

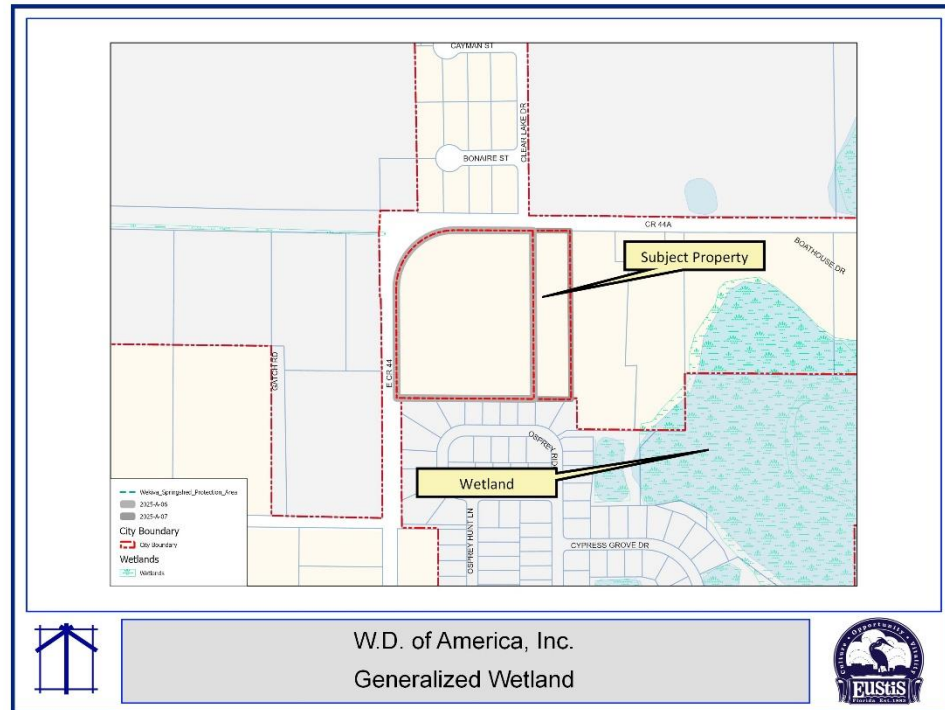

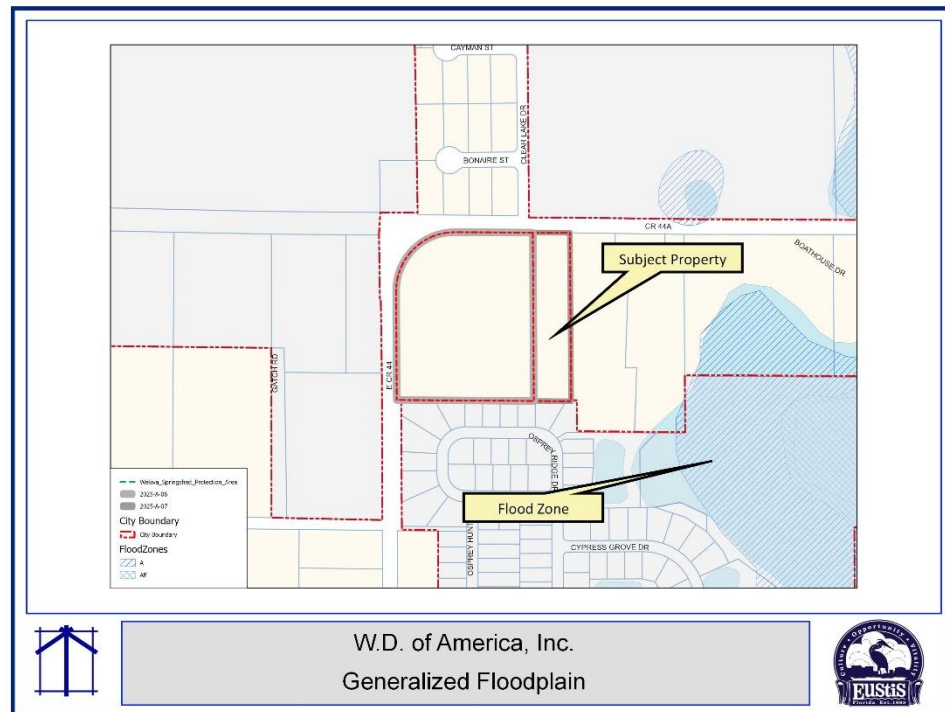

b. Historical or archaeological sites:

The City does not have any record of Florida Master Site Files related to this property, and no known historical or cultural resources exist.

c. Flood zones:

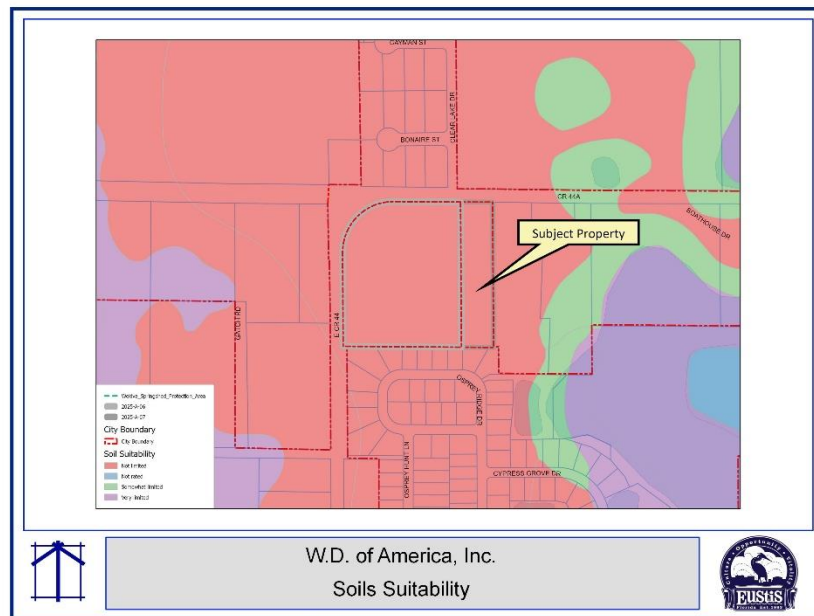

The subject property is not impacted by a 100-year flood zone area. Source - Lake County GIS - 2012 Flood Zones. Development of the property poses no wetland impacts, as no wetlands exist on the property.

d. *Soil and topography:*

The soils appear to pose no limitations for development. At the development application stage, soils and geotechnical reports will be required as part of the application packages, as well as, for permitting for development with the applicable state agencies.

As site plan and building permit approval must be obtained before development can begin, the Comprehensive Plan and the Land Development Regulations include standards for the protection of environmentally sensitive lands that would apply should conditions at the time of development warrant such protection.

3. Comprehensive Plan Review:

Additional criteria and standards are also included in the Plan that describe when, where and how development is to occur. Plan development policies will be used to evaluate the appropriateness of the compatibility of the use, intensity, location, and timing of the proposed amendment.

Existing Land Use According to the Lake County Comprehensive Plan:

“The Urban Low Density Future Land Use Category provides for a range of residential development at a maximum density of four (4) dwelling units per net buildable acre; in addition to civic, institutional, commercial, and office uses at an appropriate scale and intensity to serve this category. Limited light industrial uses may only be allowed as a conditional use.

This category shall be located on or in proximity to collector or arterial roadways to minimize traffic on local streets and provide convenient access to transit facilities. Within this category any residential development in excess of 10 dwelling units shall be required to provide a minimum 25% of the net buildable area of the entire site as common open space.

The maximum intensity in this category shall be 0.25, except for civic institutional uses which shall be 0.35. The maximum Impervious Surface Ratio shall be 0.60."

Proposed Land Use According to the Eustis Comprehensive Plan:

General Commercial

(GC)

The GC designation is intended to provide an area consisting of primarily free-standing commercial land uses serving both motorists and local residents.

General Range of Uses: General Commercial may include a variety of free-standing retail and service uses and small strip centers including automotive-oriented uses such as service stations and auto sales as well as outdoor recreation, and schools. Public and utility services and facilities that are 5 acres or less in size are also permitted.

Intensity Range: up to 2.5 FAR subject to restrictions in Section 109-3 of the Land Development Regulations.

Developments within the Wekiva Protection Overlay that include longleaf pine, sand hill, sand pine, and xeric oak communities shall protect these areas as dedicated open space or conservation easements, with total open space equal to at least 35% of the net buildable area.

Comparison of Lake County Development Conditions

The existing Lake County future land use designation of the property is Urban Low, which provides for a range of residential development in addition to civic, commercial and office uses at an appropriate scale and intensity to serve this category. Allowable density and intensity in Urban Low is a maximum of 4 dwelling units per acre and intensity of 0.25 to 0.35 floor area ratio, with the sum of residential density and non-residential intensity not exceeding 100%.

Residential: Lake County limits residential development to 4 du/acre.

Proposed Residential Land Uses.

The City shall limit these uses adjacent to incompatible commercial or industrial lands unless sufficient mitigation, such as buffering and setbacks, is provided and available, which lessens the impact to the proposed residences.

Not applicable.

Proposed Non-Residential Land Uses.

The City shall generally not permit new industrial uses to be located adjacent to existing or planned residentially designated areas.

The proposed future land use does not allow for industrial-type uses that may be incompatible with existing residential uses. Through the site development process, each project is evaluated, and the appropriate land development regulations are applied to mitigate potential incompatibility.

1. Transportation:

Each application for a land use designation amendment will be required to demonstrate consistency with the Transportation Element of the adopted Comprehensive Plan.

This potential added commercial development will be evaluated at the time a development plan is submitted. At this time, the adjacent transportation network (CR 44/CR 44A) has the capacity to serve the proposed GC land use. Future improvements will depend on the ultimate buildout intensity and specific commercial uses. Prior to the development of the property, site plan approval amongst other approvals will be required. As part of the site plan review, a traffic study will be required to evaluate traffic impacts.

2. Water Supply:

Each application for a land use designation amendment will be required to demonstrate that adequate water supplies and associated public facilities are (or will be) available to meet the projected growth demands.

City water service and other services are available. The City's adopted Water Supply Plan anticipated additional growth consistent with this development, so both supply and capacity are available.

In Accordance with Chapter 102-16(f), Land Development Regulations

Standards for Review:

In reviewing the application of a proposed amendment to the comprehensive plan, the local planning agency and the city commission shall consider:

a. Consistent with Comprehensive Plan:

Whether the proposed amendment is consistent with all expressed policies the comprehensive plan.

The proposed amendment is consistent with the Comprehensive Plan.

b. *In Conflict with Land Development Regulations:*

Whether the proposed amendment is in conflict with any applicable provisions of these land development regulations.

The proposed amendment is not in conflict with the Land Development Regulations. At the time of development, there will be further review for compliance.

c. *Inconsistent with Surrounding Uses:*

Whether, and the extent to which, the proposed amendment is inconsistent with existing and proposed land uses.

City commercial future land use has been designated for the west side of the CR 44/44A intersection. The General Commercial FLU would not be inconsistent for the area.

d. *Changed Conditions:*

Whether there have been changed conditions that justify an amendment.

The applicant wishes to annex the property into the City limits of Eustis. Assignment of a City of Eustis future land use designation is required. Upon annexation, the subject property will have a full array of municipal services, including central water. These changed conditions warrant a change in the land use designation.

e. *Demand on Public Facilities:*

Whether, and the extent to which, the proposed amendment would result in demands on public facilities, and whether, or to the extent to which, the proposed amendment would exceed the capacity of such public facilities, infrastructure and services, including, but not limited to police, roads, sewage facilities, water supply, drainage, solid waste, parks and recreation, schools, and fire and emergency medical facilities.

City water and sewer services are available and, in close proximity to the site. Adequate capacity is available to serve future development consistent with the requested future land use designation.

Upon annexation, the City will also provide other services such as fire and police protection, library services, parks, and recreation. The City provides these services to other properties in the area, so efficiency will improve.

f. *Impact on Environment:*

Whether, and the extent to which, the proposed amendment would result in significant impacts on the natural environment.

The site contains no apparent natural resources and is not connected to significant open space.

g. Orderly Development Pattern:

Whether, and the extent to which, the proposed amendment would result in an orderly and logical development pattern, specifically identifying any negative effects on such pattern.

The site is contiguous to the City limits. The annexation would create a logical development pattern as it extends the City limits to a more natural boundary in this area.

h. Public Interest and Intent of Regulations:

Whether the proposed amendment would be consistent with or advance the public interest, and in harmony with the purpose and intent of these land development regulations.

The purpose and intent of the Land Development Regulations is as follows:

“The general purpose of this Code is to establish procedures and standards for the development of land within the corporate boundaries and the planning area of the city, such procedures and standards being formulated in an effort to promote the public health, safety and welfare and enforce and implement the city's comprehensive plan, while permitting the orderly growth and development with the city and Eustis planning area consistent with its small-town community character and lifestyle.”

The requested designation of GC land use will provide for orderly growth and development. This designation would advance the public interest by potentially providing additional commercial options, and the application of the LDRs to future development will ensure consistency with the community character and lifestyle of the city.

i. Other Matters:

Any other matters that may be deemed appropriate by the local planning agency or the city commissioners, in review and consideration of the proposed amendment.

No other matters.

Analysis of Design District Request (Ordinance Number 25-22):

Form-Based Code:

The City's Land Development Regulations are a form-based code. Design districts are unique to form-based codes. Lake County still uses traditional Euclidean zoning, so there are no design districts for parcels in unincorporated Lake County. When a parcel annexes into the City of Eustis, the City must assign a consistent design district that follows the urban, suburban and rural transect

1. Standards for Review:

The Land Development Regulations include the following standards for review of an amendment to the Design District Map. In approving a change in the designation, the City Commission shall consider: Whether the amendment is in conflict with any applicable provisions of the Code.

a. Section 102-17(a) "...Section 109-3 Design Districts:

identifies the definition, structure, and form of each design district. The assignment of design district must follow the district pattern and intent."

The requested amendment assigns a newly annexed parcel a designation that meets the district pattern and intent (Suburban Corridor). The Suburban development pattern and intent, and the Suburban Corridor definition, structure and form description are stated below. The assignment of a Suburban Corridor design district designation is appropriate due to the established and proposed development patterns in the area.

b. Sec. 109-3.4. Suburban development pattern intent statements:

Intent. Suburban development pattern...relies primarily on a pattern of residential development that provides the majority of property owners with substantial yards on their own property. The street layout, comprised of streets with fewer vehicular connections, helps to reduce cut-through traffic and establishes distinct boundaries for residential communities/subdivisions. Each land use provides for pedestrian and bicycle connections.

Design districts – Suburban center.

- a. Definition. Mix of commercial, office, and potentially multifamily residential uses.*
- b. Structure. Development blocks organized with streets, pedestrian walkways and driveways.*
- c. Form. Mix of nonresidential uses from office to commercial with supportive uses adjacent to larger use types.*

A Suburban Corridor designation follows the district pattern and intent outlined in the Land Development Regulations and is consistent with the existing transect in the area.

c. Section 102-17(a)

The following guidelines must be followed when proposing the reassignment of design district:

Compatible intensities should face across streets. Changes in design districts should occur along rear alleys or lanes or along conservation edges.

Reassignment is not being proposed. A Eustis design district designation must be assigned to annexed property. The proposed design district is compatible with the surrounding design districts.

d.Consistent with Comprehensive Plan:

Whether the proposed amendment is consistent with all elements of the comprehensive plan.

The requested amendment is consistent with the Comprehensive Plan.

e.Consistent with Surrounding Uses:

Whether, and the extent to which, the proposed design district is consistent with existing and proposed land uses.

The Suburban Corridor definition, structure and form are compatible with the existing uses and any proposed uses permitted under the General Commercial and Suburban Residential future land use designations in the area.

f.Changed Conditions:

Whether there have been changed conditions that justify amending the design district.

The subject property is proposed for annexation, and a design district assignment is necessary. The conditions have changed from land located in unincorporated Lake County without central services to a site within the City of Eustis with municipal services.

g.Public Facilities.

Whether, and the extent to which, the proposed redistricting would result in demands on public facilities, and whether, or to the extent to which, the proposed change would exceed the capacity of such public facilities, including, but not limited to police, roads, sewage facilities, water supply, drainage, solid waste, parks and recreation, schools, and fire and emergency medical facilities.

A redistricting is not proposed. Assigning a design district to an annexation property will not change the demand impact on public facilities. The Future Land Use designation controls the density and intensity permitted on the site, so the Design District map amendment would not result in impacts beyond that already anticipated. Also, see the analysis of public facilities in the above sections of this report.

h.Impact on Environment:

Whether, and the extent to which, the redistricting would result in significant impacts on the natural environment.

The proposed Design District designation for this property does not change the development potential of the parcel. Design Districts control the form and function of any development that does occur.

The Future Land Use designation controls the density, intensity, and minimum open space permitted on the site, so the Design District amendment would not result in additional impacts on the natural environment. As building permit approval must be obtained before development can begin, the Comprehensive Plan and the Land Development Regulations include standards for the protection of environmentally sensitive lands that would apply should conditions at the time of development warrant such protection.

i. Property Values:

Whether, and the extent to which, the proposed redistricting would affect the property values in the area.

Redistricting is not being proposed; a City of Eustis design district designation must be assigned to the annexed property. This request should not affect property values because the proposed Design District designation is consistent with the surrounding development patterns and design districts.

j. Orderly Development Pattern:

Whether, and the extent to which, the proposed redistricting would result in an orderly and logical development pattern.

The request is the assignment of a design district to an annexation parcel, not redistricting. However, the proposed Design District designation is consistent with the suburban development pattern identified in Section 109-5.5 of the Land Development Regulations. Assignment of the requested designation will result in a more orderly and logical development pattern; making the designation consistent with the surrounding area designations and established development patterns.

k. Public Interest and Intent of Regulations:

Whether the proposed redistricting would be in conflict with the public interest, and in harmony with the purpose and intent of these regulations.

The request is the assignment of a design district to an annexation parcel, not redistricting. The proposed Design District is not in conflict with the public interest and reflects the purpose and intent of the regulations.

l. Other Matters:

Any other matters that may be deemed appropriate by the city commission, in review and consideration of the proposed redistricting.

The request is the assignment of a design district to an annexation parcel, not redistricting. The City's Land Development Regulations are a form-based code. The Design District designations define the development form, but not the types of land use, densities, intensities, or required open space.

The districts, therefore, must be consistent and follow the urban, suburban, and rural transects. This request assigns a Suburban Corridor design district designation to an annexation parcel, which is consistent with the existing transect.

Business Impact Estimate Eligibility Form

Section 166.041(4), Florida Statutes

This form should be included in the agenda packet for the item under which the proposed ordinance is to be considered and must be posted on the City of Eustis' website by the time notice of the proposed ordinance is published.

This form simply assists in determining whether a Business Impact Estimate must be completed under Florida law for the proposed ordinance. Should a Business Impact Estimate be required or should the City opt to provide one as a courtesy based on the selection below then a separate form with the statutory components of Section 166.041(4)(a) shall also accompany the proposed ordinance.

Ordinance Number	25-24
Ordinance Subject	Future Land Use Map Amendment 2025-CPLUS-07
Legal Advertising Date	July 28, 2025
First Reading On	8/7/2025
Second Reading On	8/21/2025

Ordinance Title

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF EUSTIS, LAKE COUNTY, FLORIDA, AMENDING THE CITY OF EUSTIS COMPREHENSIVE PLAN PURSUANT TO 163.3187 F.S.; CHANGING THE FUTURE LAND USE DESIGNATION OF APPROXIMATELY 2.8 ACRES OF RECENTLY ANNEXED REAL PROPERTY AT ALTERNATE KEY NUMBERS (Lake County Property Appraiser Has Not Assigned), GENERALLY LOCATED ON THE EAST SIDE OF THE INTERSECTION OF COUNTY ROAD 44 AND COUNTY ROAD 44A.

Based on the City's review of the proposed ordinance (*must select one of the following*):

- ☒ The City has determined the statutory exemption identified below applies to the proposed ordinance; a Business Impact Estimate is NOT required and therefore not provided.
- ☐ The City has determined the statutory exemption identified below applies to the proposed ordinance; however, the City has prepared the Business Impact Estimate as a courtesy and to avoid any procedural issues that could impact the enactment of the proposed ordinance.
- ☐ The City has prepared a Business Impact Estimate in accordance with section 166.041(4), Florida Statutes.

Exemptions

The City has determined that a Business Impact Estimate is NOT required as the following exemption applies to the proposed ordinance:

Section 166.041 (4)(c) exemption: It is enacted to implement comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the municipality.

ORDINANCE NUMBER 25-24

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF EUSTIS, LAKE COUNTY, FLORIDA, AMENDING THE CITY OF EUSTIS COMPREHENSIVE PLAN PURSUANT TO 163.3187 F.S.; CHANGING THE FUTURE LAND USE DESIGNATION OF APPROXIMATELY 2.8 ACRES OF RECENTLY ANNEXED REAL PROPERTY AT ALTERNATE KEY NUMBER (Lake County Property Appraiser Has Not Assigned), GENERALLY LOCATED ON THE EAST SIDE OF THE INTERSECTION OF COUNTY ROAD 44 AND COUNTY ROAD 44A.

WHEREAS, on November 4, 2010, the Eustis City Commission adopted the City of Eustis Comprehensive Plan 2010-2035 through Ordinance Number 10-11; and

WHEREAS, the State of Florida Department of Community Affairs found the City of Eustis Comprehensive Plan 2010-2035 In Compliance pursuant to Sections 163.3184, 163.3187, and 163.3189 Florida Statutes; and

WHEREAS, the City of Eustis periodically amends its Comprehensive Plan in accordance with Chapter 163.3187 and 163.3191, Florida Statutes; and

WHEREAS, the City of Eustis desires to amend the Future Land Use Map Series to change the Future Land Use designation on approximately 2.8 acres of real property located on the east side of the intersection of County Road 44 and County Road 44A and more particularly described herein; and

WHEREAS, on August 7, 2025, the Local Planning Agency held a Public Hearing to consider the adoption of a Small-Scale Future Land Use Amendment for this change in designation; and

WHEREAS, on August 7, 2025, the City Commission held the 1st Adoption Public Hearing to accept the Local Planning Agency's recommendation to adopt the Small-Scale Future Land Use Amendment contained herein; and

WHEREAS, on August 21, 2025, the City Commission held the 2nd Adoption Public Hearing to consider the adoption of the Small Scale Future Land Use Amendment contained herein;

NOW, THEREFORE, THE COMMISSION OF THE CITY OF EUSTIS HEREBY ORDAINS:

SECTION 1.

Land Use Designation: That the Future Land Use Designation of the real property as described below shall be changed from Urban Low in Lake County to **General Commercial (GC)** within the City of Eustis:

Parcel Alternate Key: **Lake County Property Appraiser Has Not Assigned**

Parcel Identification Numbers: **Lake County Property Appraiser Has Not Assigned**

Legal Description:

A portion of Lot 5, C.M. Rehner's Subdivision, according to the plat thereof, as recorded in Plat Book 1 , Page 50, of the Public Records of Lake County, Florida, lying in Section 6, Township 19 South, Range 27 East, Lake County, Florida, described as follows:

Commencing at the Northwest corner of Tract S, Spring Ridge Estates, according to the plat thereof, as recorded in Plat Book 58, Pages 28 through 30, of the Public Records of Lake County, Florida, and with the Easterly Right-of-Way line of County Road No. 44, North 00°04'26" West, 115.21 feet, to the intersection of the Easterly Right-of-Way line of said County Road No. 44 and the Northerly line of said Lot 7; thence continuing with the Easterly Right-of-Way line of said County Road No. 44, North 00°13'04" West, 366.04 feet, to the beginning of a non-tangent curve concave Southeasterly; thence with a radius of 258.33 feet, a delta of 90°32'39", and a chord bearing and distance of North 45°01'32" East, 367.07 feet, Northeasterly along said curve, an arc length of 408.24 feet, to the end of said curve on the Southerly Right-of-Way line of County Road No. 44A; thence with the Southerly Right-of-Way line of said County Road No. 44A, South 89°36'40" East, 344.52 feet, to the Point of Beginning.

Thence continuing with the Southerly Right-of-Way line of said County Road No. 44A, South 89°36'40" East, 163.90 feet, to the Westerly line of the lands described in Official Records Book 5581, Page 918, of the Public Records of Lake County, Florida; thence departing the Southerly Right-of-Way line of said County Road No. 44A, and with the Westerly line of said lands described in Official Records Book 5581, Page 918, South 00°20'56" East, 743.98 feet, to the Northerly line of said Spring Ridge Estates; thence departing the Westerly line of said lands described in Official Records Book 5581, Page 918, and with the Northerly line of said Spring Ridge Estates, North 89°29'59" West, 163.90 feet; thence departing the Northerly line of said Spring Ridge Estates, and with a line parallel with the Westerly line of said lands described in Official Records Book 5581, Page 918, North 00°20'56" West, 743.66 feet, to the Point of Beginning.

Containing 121,902.10 Square Feet or 2.80 Acres, more or less.

(THE FOREGOING LEGAL DESCRIPTION WAS COPIED FROM THE APPLICANT'S SUBMITTED SURVEY AND HAS NOT BEEN VERIFIED FOR ACCURACY) SECTION 2.

Map Amendment and Notification: That the Director of Development Services shall be authorized to amend the Future Land Use Map of the Comprehensive Plan to incorporate the change described in Section 1 and provide appropriate notification in accordance with Florida Statutes.

SECTION 3.

Conflict: That all Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

SECTION 4.

Severability: That should any section, phrase, sentence, provision, or portion of this Ordinance be declared by any court of competent jurisdiction to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as a whole, or any part thereof, other than the part so declared to be unconstitutional or invalid.

SECTION 5.

Effective Date: That the effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the Department of Commerce notifies the local government that the plan amendment package is complete. If timely challenged, this amendment shall become effective on the date the Department of Commerce or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this amendment may nevertheless be made effective by the adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the Department of Commerce.

PASSED, ORDAINED, AND APPROVED in Regular Session of the City Commission of the City of Eustis, Florida, this 21st day of August 2025.

**CITY COMMISSION OF THE
CITY OF EUSTIS, FLORIDA**

Willie L. Hawkins
Mayor/Commissioner
