Public Comments

Michael Penick of 2121 Silver Circle addressed the Council. Now, I am not a resident of the City, but I am a resident of the County. I live about a block out of the City limits. I would like to discuss a problem that I have with the City's storm sewer system. On the north side of Kaiser Street, Ace Hardware routinely, I will say, almost daily, wash their equipment that has been rented and returned. The dirt, oil, and other foliage wash off these items, directly into the City's storm sewer system opening. I believe the City storm sewer system drains into the Lahontan Reservoir, and that's why I care. I have addressed this issue with the management of Ace Hardware, but they don't seem to care. I have videos on my phone that I can show you, but I am not smart enough to get those off my phone. I have a couple of photos, showing how they wash the returned equipment. It flows down onto Kaiser Street and into the City's storm sewer system, and I believe it's contaminating the City's storm sewer system, and Lahontan Reservoir, and that's why I address the Council.

Mayor thanked Mr. Penick. Brian Byrd and Adrian Noriega are here from Public Works, if you would like to step into the hall, they can talk to you about that right now.

Mr. Penick thanked the Mayor.

Wha...wha...what's that like...when it talks about uh, if they don't respond with their pager or phone call within 30 minutes, they lose it? Ye...ye...yeah, I think it needs to be defined.
