OLD BUSINESS:**3. Council Discussion and Approval of Case # CUP-2025-03- Conditional Use Permit for 4959 and 4965 West St. to establish a childcare center within the Single-Family Residential District (RS)-PCD Department****Background/History:**

The applicant requests approval for a Conditional Use Permit **to establish a childcare center within the Single-Family Residential District (RS) in Ward 2, per Sec 8-8-28.** - Single-family residential district (RS), Pre-k facilities, and daycare centers require a conditional use permit to operate within the Single-Family Residential District. On July 17, 2025, the Planning Commission approved the Conditional Use Permit Request with conditions. **The conditions are as follows:**

If the applicant ceases to operate the business at this location, any subsequent operator or the property owner must obtain a new Conditional Use Permit (CUP) prior to commencing operations. Continued use of the property for this business type within the Single-Family Residential (RS) District shall not be permitted without prior approval of a new CUP by the Planning Commission and Mayor & Council.

If the applicant ceases operating the business at this location, the property owner is required to adhere to section 8-8-90. - Parking standards (1) *Driving surfaces.* All parking areas, including parking spaces, interior drives, and ingress/egress into parking areas, must be paved with asphalt or concrete. All parking areas shall be clearly painted to show each parking space.

The proposed location has been granted a conditional use permit in the past to operate a daycare center, but due to there not being a consistent business use at this location, the ordinance requires that any new applicant reapply for a Conditional Use Permit. If the Mayor and Council approve the Conditional Use Permit Request, the applicant will move forward with her business plans to establish a childcare facility for children aged 6 weeks to 12 years.

NEW BUSINESS:**4. Council Discussion and Approval to enter into a contract with New Image Towing & Wrecker Services-Police Department****Background/History:**

The City has contracted towing services with New Image Towing since FY2020. These services consist of towing, removal, storage, and impoundment of wrecked and disabled vehicles for private citizens within Forest Park, GA, and include towing services for City-owned vehicles. The Police Department requests to continue these services by utilizing the cooperative contract with Clayton County and New

Image Towing, which is located in Forest Park. This is a revenue-generating contract with admin fees paid to the city at \$50 per vehicle and no charge for city-owned vehicles.

5. Council Discussion and Approval of Surplus Items from the Public Works Fleet Department- Public Works Department

Background/History:

The Public Works Department would like to declare the surplus items listed in Exhibit A. They consist of tools, equipment, and vehicles that are either broken or non-operable and occupy space that can be better utilized to secure operable equipment.

6. Council Discussion on the Recycling Center at 327 Lamar Drive- Public Works Department

Background/History:

Recycling has long been a priority issue for Forest Park, both at the leadership level and among residents. However, past efforts, including the operation of a City-managed recycling center, encountered significant limitations:

During the COVID-19 pandemic, many services, including recycling, were reduced or eliminated due to budget constraints. In 2022, a new operational contract with Waste Management was executed, prioritizing cost control and service oversight. That contract introduced real-time monitoring capabilities for curbside carts, providing the City with new enforcement and education tools.

To pilot a monitored, community drop-off recycling program that maximizes education, minimizes contamination, and builds the foundation for a permanent, scalable recycling solution.

Pilot Features:

1. Duration: 1 month (Trial Period)
2. Location: 327 Lamar Drive
3. Schedule: 6 hours of Operation
4. Accepted Materials: Clean, pre-sorted recyclables (specific list to be distributed in public materials)
5. Partnership Terms:
 - Waste Management will waive hauling costs during the trial.
 - The City will cover the cost of the on-site service attendant to support operations and educate residents.

EXECUTIVE SESSION: (When an Executive Session is required, one will be called for the following issues: Personnel, Litigation, or Real Estate.)

ADJOURNMENT:

In compliance with the Americans with Disabilities Act, those requiring meeting accommodation should notify the City Clerk's Office at 404-366-4720 at least 24 hours before the meeting.

July 27, 2023

Dear Mr. Cox,

InterDev is honored to have the opportunity to continue to serve the City of Forest Park. The relationship we've developed with the City over the last three (3) years is special. So much so, we view our relationship through the lens of a partnership. As your partner, it would be our top priority to deliver services to the City of Forest Park in a manner that advances the following priorities.

Security	24x7 Responsiveness	Cost Savings
InterDev strives to build and maintain a security environment that promotes cybersecurity, and that reduces the likelihood of external threats that could impair the City of Forest Park's ability to operate.	When there is a security threat, InterDev will be poised to deliver the very best we have to offer to mitigate and minimize harm, while also aggressively working to remove the threat. Our responsiveness also extends to employee-related matters. When there is a need for tutorials, or workplace IT maintenance matters, InterDev will respond with proficiency.	At every turn, InterDev will strive to recommend equipment replacement, software, hardware, and processes that ensure maximum performance for the IT environment we build, and best-of- breed resources at a price that promotes cost savings.

We thank you for allowing us an opportunity to have an impact on the employees and citizens of the City of Forest Park. It would be an honor to continue to serve your needs.

Sincerely,

WORK ORDER / TROUBLE TICKET SYSTEM:

Below are abbreviated workflow diagrams of our Incident Management, Problem Management, and Change Management processes.

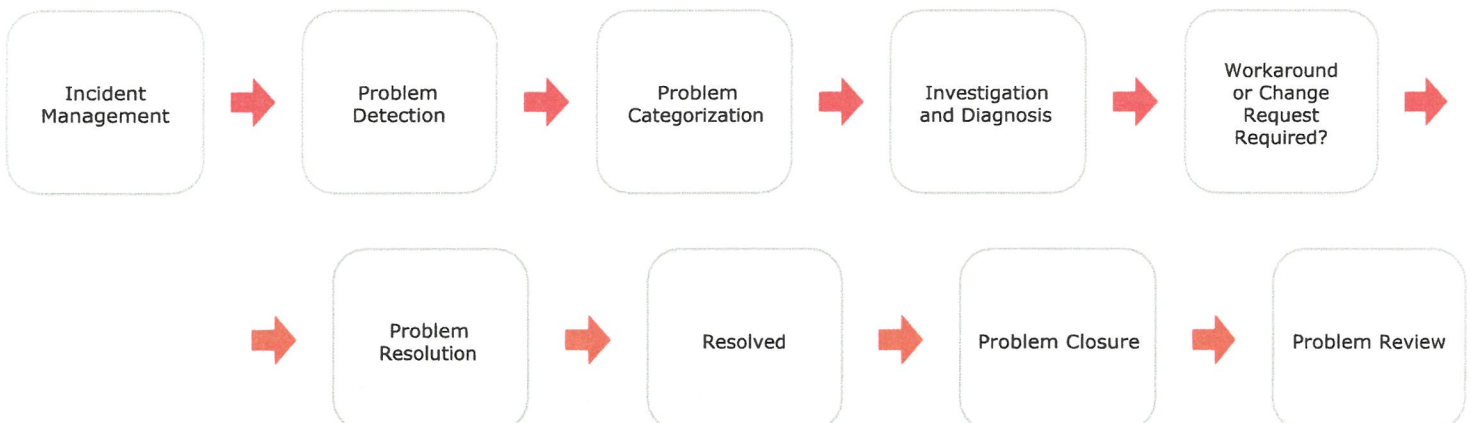

Incident Management Process

Problem Management Process

Staff Availability and Support Services Response

SUPPORT SERVICES RESPONSE

Service Levels and Response Times

InterDev will work with Forest Park to determine the most appropriate levels of support for each category of incident. This process will ensure InterDev's response is in sync with Forest Park expectations, business needs, and budgets. Defined SLAs are only valid during normal business hours, which are 8 AM to 5 PM EST Monday through Friday, unless otherwise agreed upon by InterDev and the client.

Urgency + Impact = Priority

An Incident's priority is determined by assessing its impact and urgency, where:

- Urgency is a measure of how quickly a resolution of the Incident is required
- Impact is a measure of the extent of the Incident and of the potential damage caused by the Incident before it can be resolved.

Incident Urgency (Categories of Urgency)

SERVICE NAME	DESCRIPTION
High (H)	The damage caused by the Incident increases rapidly. Work that cannot be completed by staff is highly time sensitive. A minor Incident can be prevented from becoming a major Incident by acting immediately. Several users with VIP status are affected.
Medium (M)	The damage caused by the Incident increases considerably over time. A single user with VIP status is affected.
Low (L)	The damage caused by the Incident only marginally increases over time. Work that cannot be completed by staff is not time sensitive.

Incident Impact (Categories of Impact)

SERVICE NAME	DESCRIPTION
High (H)	Many staff are affected and/or not able to do their job. Many customers are affected and/or acutely disadvantaged in some way. The damage to the reputation of the business is likely to be high. Someone has been injured.
Medium (M)	A moderate number of staff are affected and/or not able to do their job properly. A moderate number of customers are affected and/or inconvenienced in some way. The damage to the reputation of the business is likely to be moderate
Low (L)	A minimal number of staff (single user incidents) are affected and/or able to deliver an acceptable service but this requires extra effort. A minimal number of customers are affected and/or inconvenienced but not in a significant way. The damage to the reputation of the business is likely to be minimal.

A defined SLA (SERVICE LEVEL AGREEMENT) structure increases our efficiency and effectiveness of dispatching tickets and getting them resolved in a timely manner. It also helps to set the City's staff expectations for when they can anticipate their incident or service requests to be filled. These levels can be modified if higher response levels are necessary for certain City services (i.e., Police, Fire, Emergency Operations.)

The finalized Priority Matrix for each Service Level or SLA layer would resemble the draft version below. The City's actual SLA's will be determined jointly between Forest Park and InterDev.

Patch Management – InterDev uses Ninja RMM (Remote Monitoring and Management) as our system monitoring and patch management tool. InterDev will configure the patch management policies in concert with the client to find a balance between rapid deployment of critical patches with the least disruption to operations. Patch management includes operating system patches and a library of common third-party applications such as Google Chrome, Mozilla Firefox, Adobe, etc. Ninja also has the capability to provide image backups of servers and workstations as well as data backup capabilities.

Managed Endpoint Detection and Response (MDR) - We have partnered with SentinelOne to provide an enterprise-grade, lightweight and highly effective endpoint protection platform with our high security configuration. This product is backed by a cybersecurity insurance product. We have witnessed this product stop browser-based web attacks in near real time. This is the security team's go-to tool when performing incident response to ensure an environment is fully protected. This offer comes in two variations to fit any budget.

Active Threat Hunting – InterDev has partnered with Huntress Labs to provide an active threat hunting agent that can find persistence mechanisms that anti-virus may not detect. It also provides external visibility for any exposed network ports that may present a risk and ransomware canaries that serve as an early warning that an individual system may be under attack. These canaries also act as a thumbprint if a breach ever occurs, we can use the canary to trace it back and determine what data may have been exfiltrated.

Total Email Security - Provided by Barracuda networks and hardened by our security team, this platform ensures that malicious email does not reach your users' mailbox. For our Office 365 customers, we also leverage Barracuda's Impersonation Protection that leverages a behavior-based AI (Artificial Intelligence) engine to prevent account take-over, auto-remediate phishing attempts and prevent domain spoofing. Our Email security offering also includes mail archive for compliance and backup of Microsoft 365 environment to include Exchange Online, SharePoint, OneDrive, and Teams

Monthly Vulnerability Scans - Using the RapidFire Tools platform, the InterDev team conducts monthly scans of the internal and external Internet Protocol (IP) address space to identify any vulnerabilities or misconfigurations that could impact overall security. This also serves to help validate that all patches have been applied correctly and identify systems not covered by automated patching.

Firewall Management - Having your firewall hardened and managed by our security team will ensure that only authorized communications traverse your network boundary. The team also ensures that the platform is backed up, updated and current with manufacturer recommendations.

DNS Security and Filtering - Provided through Cisco Umbrella, securing your DNS traffic is one of the number one strategies to defeat malware as it detects potential malicious activity prior to the connection being established. It provides this protection whether on or off network and extends on-premises web filtering to mobile users. This also provides our security team with the ability to detect and manage potentially unwanted or malicious applications in your Microsoft 365 environment.

Dark Web Monitoring - Using Kaseya's ID Agent platform, the security team monitors and is alerted when your credentials are found on the dark web allowing us to take pre-emptive action to protect against account compromise.

INTERDEV PROJECT STANDARDS

InterDev will consider any non-base services and/or tasks as a project that will be billed per the rate card within the proposal. InterDev defines a project as a fundamental change or upgrade to a system or the implementation of a new system or technology that would exceed ten (10) hours of total work. All projects will be completed on a best effort basis as submitted by the client with an agreed upon schedule. Break Fix items do not constitute a project if the item is covered under the contracted base services.

InterDev will provide the following items below when engaging with the clients on any projects.

- Statement of work – Will contain a detailed list of what work will be completed with an overall estimate of hours of work and any overall cost estimates known or required to start the project process.
- Project Plan – This is a list of major milestones with estimated dates or span of time that constitute the whole of the project.
- Stakeholder Document – Will contain the list of approvers for each portion of the project. This could be financial approvers and/or timing or outage approvers.
- Project supporting documents – As needed, the project must be documented to provide knowledge transfer for ongoing support. Diagrams, Serial numbers, circuit ID's, and others will be placed here to formalize the project completion.
- Project closing – This will be a signed document certifying the approved completion.

Projects requiring InterDev billing tracking: These must be approved by the Director and client, along with being tracked to document hours worked. This process is documented in a separate document stored by InterDev and maintained by InterDev but can be given to the client upon request.

The rate card includes the discounted rates offered to InterDev MSP (Managed Services Provider) clients.

3. Council Discussion and Approval of Case # CUP-2025-03- Conditional Use Permit for 4959 and 4965 West St. to establish a childcare center within the Single-Family Residential District (RS)- PCD Department

Background/History:

The applicant is requesting approval for a Conditional use permit **to establish a childcare center within the Single-Family Residential District (RS) in Ward 2.** Per Sec 8-8-28. - Single family residential district (RS), Pre-k facilities and daycare centers require a conditional use permit to operate within the Single-Family Residential District. On July 17, 2025, The Planning Commission voted to approve the Conditional Use Permit Request with conditions. **The conditions are as follows:**

If the applicant ceases to operate the business at this location, any subsequent operator or the property owner must obtain a new Conditional Use Permit (CUP) prior to commencing operations. Continued use of the property for this business type within the Single-Family Residential (RS) District shall not be permitted without prior approval of a new CUP by the Planning Commission and Mayor & Council.

If the applicant ceases operating the business at this location, the property owner is required to adhere to section 8-8-90. - Parking standards (1) *Driving surfaces.* All parking areas, including parking spaces, interior drives, and ingress/egress into parking areas must be paved with asphalt or concrete. All parking areas shall be clearly painted to show each parking space.

The proposed location has been granted a conditional use permit in the past to operate a daycare center, but due to there not being a consistent business use at this location, the ordinance requires that any new applicant reapply for a Conditional Use Permit. If the Mayor and Council approve the Conditional Use Permit Request, the applicant will move forward with her business plans to establish a childcare facility for children aged 6 weeks of age to 12 years of age.

The applicant is requesting approval for a Conditional Use Permit (CUP) to establish a childcare center within the Single-Family Residential District (RS) in Ward 2. In accordance with Sec. 8-8-28 – Single-Family Residential District (RS), pre-k facilities and daycare centers are permitted only through the issuance of a Conditional Use Permit.

On July 17, 2025, the Planning Commission voted to approve the Conditional Use Permit request with the following conditions:

1. If the applicant ceases operating the business at this location, any subsequent operator or the property owner must obtain a new Conditional Use Permit (CUP) prior to commencing operations. Continued use of the property for this business type within the Single-Family Residential (RS) District shall not be permitted without prior approval of a new CUP by the Planning Commission and Mayor & Council.
2. If the applicant ceases operating the business at this location, the property owner is required to adhere to section 8-8-90. - Parking standards (1) *Driving surfaces*. All parking areas, including parking spaces, interior drives, and ingress/egress into parking areas must be paved with asphalt or concrete. All parking areas shall be clearly painted to show each parking space.

The proposed location has previously been granted a Conditional Use Permit to operate a daycare center. However, due to the lack of a consistent business use at this address, the ordinance requires any new applicant to reapply for a Conditional Use Permit.

On August 4, 2025, Mayor and Council voted to table this item to allow Council Members additional time to visit and assess the site in person, with particular attention to the current condition of the property and its parking lot needs and requirements. If the Mayor and Council approve the Conditional Use Permit request, the applicant will proceed with plans to establish a childcare facility for children aged 6 weeks to 12 years.

SUMMARY & BACKGROUND

The applicant is requesting approval of a Conditional Use Permit (CUP) to establish and operate a childcare center serving children aged 6 weeks to 12 years at 4959 and 4965 West Street. The proposed use includes utilizing the building at 4959 West Street for infants and toddlers (ages 6 weeks to 2 years), while the building at 4965 West Street will accommodate preschool-aged children (ages 3–4) and school-aged children enrolled in afterschool care. This site has previously been used as a childcare center under prior ownership, demonstrating a history of similar operations at this location. The property is situated within a residential neighborhood, and

consideration has been given to compatibility with surrounding land uses, potential traffic impacts during peak hours, and the importance of maintaining communication with nearby residents to minimize disruptions.

ZONING CRITERIA AND ANALYSIS

1. **Would the proposed amendment be consistent and compatible with the City's land use and development, plans, goals, and objectives?** The proposed use aligns with the City's land use and development goals and objectives. The property is located within the Single-Family Residential (RS) District and previously operated as a childcare center.
2. **Would the proposed amendment tend to increase, to decrease, or to have no impact on traffic safety and congestion in the streets?** The proposed use is not expected to have a significant impact on the transportation infrastructure, given the site's previous use. However, depending on student enrollment, there may be increased traffic during drop-off and pick-up times, which could contribute to localized congestion on surrounding streets.
3. **Would the proposed amendment tend to increase, to decrease, or to have no relationship to safety from fire and other dangers?** The proposed use is not anticipated to significantly alter fire safety or other hazard risks, based on the property's prior use and the anticipated enrollment size.
4. **Would the proposed amendment tend to promote, to diminish, or to have no influence on the public health and general welfare of the city?** The proposed development does not appear to be a detriment to the public health, safety, morals, or general welfare if the Conditional Use Permit is granted.
5. **Would the proposed amendment tend to increase, to decrease or to have no influence on the adequacy of light and air?** The proposed use will not increase, decrease, or have any influence on the adequacy of light and air.
6. **Would the proposed amendment tend to cause, to prevent, or to have no influence on the overcrowding of land?** No.
7. **Would the proposed amendment tend to cause, to prevent, or to have no relationship on the population distribution within the city, thus creating any area so dense in population as to adversely affect the health, safety, and general welfare of the city?** The proposed use will not increase the population or density as to adversely affect the health, safety, and general welfare of the city.
8. **Would the proposed amendment tend to impede, to facilitate, or to have no impact on the adequate provision of transportation, water, sewerage, other public services, utilities, or facilities?** The proposed use will not cause any additional impact on the water/sewer and other utilities or other public services considering the previous use of this property was a childcare center in the past.
9. **Would the proposed amendment tend to be compatible with environmental conditions in light of surrounding developments? If compatible, what factors, if any, would diminish the value, use and enjoyment of surrounding properties?** The subject property is not subject to any zoning restrictions that would negatively

impact the value or enjoyment of surrounding properties. Located within the Single-Family Residential (RS) District, childcare centers are allowed with an approved Conditional Use Permit. To minimize potential disruptions, applicants are encouraged to maintain open communication with neighboring residents regarding school schedules and operations.

10. **Would the proposed amendment tend to promote, to diminish, or to have no influence upon the aesthetic effect of existing and future uses of the property and the surrounding area?** Granting a Conditional Use Permit would not diminish the future use of the property and surrounding area.
11. **Would the proposed amendment have measurable adverse economic effect on the value of surrounding or adjacent property?** The use appears suitable for the nearby properties based on the City of Forest Park Zoning Ordinance Sec 8-8-28 Single Family Residential District (RS). This section of the ordinance states that Pre-k and Daycare centers are permitted as a conditional use under this said ordinance. There is no indication of any potential detrimental causes that would decrease the property value of surrounding or adjacent property.
12. **Would the proposed amendment create an isolated district unrelated to adjacent and nearby districts?** The Conditional Use Permit would not create an isolated district.

STAFF RECOMMENDATION

Staff recommends **APPROVAL OF A CONDITIONAL USE PERMIT** to open and operate a childcare center for children aged 6 weeks to 12 years of age within the Single-Family Residential District (RS). **WITH THE FOLLOWING CONDITIONS:**

1. The applicant must adhere to the City of Forest Park, GA Zoning Ordinance Parking standards outlined in Section 8-8-90.
2. If the applicant ceases to operate the business at this location, any subsequent operator or the property owner must obtain a new Conditional Use Permit (CUP) prior to commencing operations. 6. Council Discussion on the Recycling Center at 327 Lamar Drive- Public Works Department

Background/History:

Recycling has long been a priority issue for Forest Park, both at the leadership level and among residents. However, past efforts, including operation of a City-managed recycling center, encountered significant limitations:

During the COVID-19 pandemic, many services—including recycling—were reduced or eliminated due to budget constraints. In 2022, a new operational contract with Waste Management was executed, prioritizing cost control and service oversight. That contract introduced **real-time monitoring capabilities** for curbside carts, presenting the City with new enforcement and education tools.

Background and Historical Context

Recycling has long been a priority issue for Forest Park, both at the leadership level and among residents. However, past efforts, including operation of a City-managed recycling center, encountered significant limitations:

1. **High contamination rates** rendered large volumes of recyclable materials unusable.
2. **Elevated landfill costs** were incurred due to improper sorting, negating environmental and financial goals.
3. **Lack of monitoring** and accountability under earlier subsidy models led to widespread misuse.

During the COVID-19 pandemic, many services—including recycling—were reduced or eliminated due to budget constraints. In 2022, a new operational contract with Waste Management was executed, prioritizing cost control and service oversight. That contract introduced **real-time monitoring capabilities** for curbside carts, presenting the City with new enforcement and education tools.

To pilot a monitored, community drop-off recycling program that maximizes education, minimizes contamination, and builds the foundation for a permanent, scalable recycling solution.

Pilot Features:

1. **Duration:** 1 month (Trial Period)
2. **Location:** 327 Lamar Drive
3. **Schedule:** 6 hours of Operation
4. **Accepted Materials:** Clean, pre-sorted recyclables (specific list to be distributed in public materials)
5. **Partnership Terms:**
 - Waste Management will waive hauling costs during the trial.
 - The City will cover the cost of the on-site service attendant to support operations and educate residents
