All:

Here is an update on the Georgia Fund 1 resolution process. First and foremost, I believe we are ready for the URA Board to schedule its meeting. We will NOT have the actual resolution ahead of time. Rather it is all done digitally online now. All we need the Board to do is to authorize the Chair to sign the resolution.

For purposes of giving the Board something to look at, I have attached an illustrative paper copy of the resolution which was done by the City of Hampton which was done prior to their transition to digital resolutions. The meat and potatoes are the same as what the URA will adopt, the only differences are for our URA-specific data.

The primary things the resolution does are:

1. Authorizes actual participation by the URA in the Georgia Fund 1 program
2. Designates who may make decisions on behalf of the URA with respect to deposits and withdrawals.
3. Designates who may simply view account information.
4. Designates which bank accounts the URA will be using.

I am suggesting that for item 2 you designate the City's Finance Director, City Manager and the Chair of the URA as decision makers. These people will be granted online access to the account(s) with authority to make deposits and request withdrawals. For redundancy purposes, you may want to add another staff member or another board member. (I am thinking about practical situations where a withdrawal is needed to be made, but people are out of town, sick, etc.)

I am suggesting that for item 3 you designate the Financial Advisor, Economic Development Director and Secretary of the URA as persons who are able to access account balances and other account information but on a read-only basis.

As I reviewed the process and information needed, it became clear to me that I should not be making the application in a vacuum, so your input/feedback regarding the above items is important.

Additionally, the process is a tad more involved than I originally had thought, particularly when it gets to the document signing stage. It is all done online as stated above. So that you all understand the process clearly, I am highly recommending that you all watch the 30-minute video they have prepared to aid people in submitting the resolution (a written instruction guide is also attached as PDF:

<https://vimeo.com/640390260>

As you will see, three people are required to complete the process online: (1) the original submitter; (2) Chair James (3) Randi Rainey, our City Clerk, who will serve as the notary. (Of course you can choose a different notary, but they application requires that you make that designation up front.)

I am suggesting that Jeremi Patterson be the original submitter as they are asking for bank account information, etc. I (with Ed Wall's help) will assist him in preparing the original submission and filling out the rest of the resolution. Once that is finalized (they say it is roughly a 24 hour process), then emails will be generated to Chair James and Randi Rainey complete the resolution via DocuSign.

Please let me know if you have any questions. I can set up a zoom conference call for us all to discuss if that is helpful.
