CITY COUNCIL WORK SESSION (immediately following the adjourned meeting)

A) CALL MEETING TO ORDER

B) ITEMS FOR DISCUSSION

1. Overview of Draft Oil and Gas Regulations.

The purpose of this work session is to provide: 1) an adoption schedule for zoning and setback restrictions for new or modified oil and gas facilities in the Land Use Code; 2) updates regarding recent developments in regional oil and gas regulations and compliance issues for existing oil and gas facilities; and 3) recommendations for refinements to reverse setback regulations for new land development near existing oil and gas facilities.

2. Draft Active Modes Plan.

The purpose of this work session is to present the draft Active Modes Plan to Council for feedback in advance of December adoption hearings. The Active Modes Plan combines and updates the 2011 Pedestrian Plan and 2014 Bicycle Plan as well as incorporating micromobility devices such as skateboards and scooters. The plan identifies key opportunities to significantly improve and expand the city's active modes networks, support facilities, policies, and programs. The project team has incorporated feedback received from the community during the July 25 – August 24 public comment period into the draft Active Modes Plan.

3. **15-Minute City Analysis.**

The purpose of this work session is to get feedback from Councilmembers on the 15-Minute City Analysis as one of the adopted 2021 – 2023 Council Priorities. The 2022 City Budget funded an offer to expand the scope of the Active Modes Plan to examine how to achieve a 15-Minute City. The general concept of a “15-Minute City” is a community where every resident can access daily needs within 15 minutes via active modes of transportation such as walking and bicycling. The analysis defines what a “15-Minute City” means for Fort Collins, examines existing conditions, identifies gaps in active transportation networks and land use patterns that are barriers to creating a 15-Minute City, and recommends strategies to remove these barriers. The analysis identifies existing initiatives that are helping to achieve 15-minute access as well as identifying opportunities for improvement.
