We have been in this neighborhood for 55 years-
Built our home, raised our children in a safe
neighborhood. It isn't good to destroy an old
neighborhood by adding rental properties then
charge a huge rent. As underserved progress is
necessary - but empty space is just as important
Lets not ruin Glen Rose. Would you want duplexes

INDIVIDUAL ITEMS FOR CONSIDERATION

7. Discussion, consideration, and possible action regarding a request to rezone *the property located at 1113 Wren St., Acres: 0.387, Tract: C7-11, Abst: A136, A136 MILAM CO SCH LD, TRACT C7-11 from B-2 (General Commercial District) to R-2 (Single and Two Family District)*

Pam Streeter, Chairman of the Planning and Zoning Commission, reported that the commission had thoroughly examined the zoning in the area. She explained that while at some point the zoning along Barnard Street had been changed from residential to business commercial, everything around and across the street from the property in question is residential. Therefore, changing this property to R-2 would not constitute spot zoning and would be in keeping with the current use of neighboring properties. The commission unanimously recommended approval of the rezoning.

David Dickens represented the project and explained that they were seeking to rezone from B-2 to R-2 to allow for single-family detached housing instead of attached housing. The plan is to build three individually detached single-family homes rather than a quadplex. They are working with Teresa at Texas Surveying to replat the lot into three lots to fit a 25-foot by 80-foot alley-load entry product.

Council member noted that there appeared to be issues with notification letters, with 13 out of 15 letters unconfirmed as received. It was clarified that proper notification had been provided through multiple channels, including posting on the property site, in the newspaper, and on the city website.

MOTION by George Freas and **SECOND** by Stuart Mann to rezone the property from a B-2 to an R-2 **MOTION CARRIED** by unanimous vote.

8. Discussion, consideration, and possible action regarding a request a Re-plat on the property located at 1113 Wren St, as submitted by Teresa McGee, Texas Surveying & Engineering, Inc, *Acres: 0.387, Tract: C7-11, Abst: A136, A136 MILAM CO SCH LD, TRACT C7-11*

Teresa McGee (104 South Walnut Street, Weatherford, TX) represented the owner and explained they were requesting three lots total. She noted they had requested variances on corner lot setbacks as well as frontage requirements. For R-2 zoning, 60 feet of frontage would be required, but they

have proposed 45, 45, and 49 feet. Similarly, the square footage requirement would be 6,000 square feet, which they fall slightly short of meeting.

David Dickens clarified that the proposed homes would be between 1,800 and 2,000 square feet and would cost approximately \$400,000 each. He noted that construction costs currently run about \$200 per square foot. The homes would be two stories with two-car garages accessed from the rear of Wren Street, with the front of the residences facing Barnard Street.

Ms. There was a discussion about an unidentified strip of land at the southwest corner of the property. McGee explained they could not discover who owned this strip, which might have been intended for widening Wren Street.

Council Member Freas expressed support for the project, noting that it would add the needed housing density in an established neighborhood. The Council discussed that while the homes might not be affordable for everyone, the city needs housing at all different levels.

MOTION by George Freas and **SECOND** by Candace Scholz to approve the replat. **MOTION CARRIED** by unanimous vote.

9. Discussion, consideration, and possible action regarding the recommendations for amending 14.02.005 Definitions

Pam Streeter with PNZ, went through with definitions that went through the commission. Artisan shop, formal definition. Assisted living facility: allow in private residence, need to have at least four(4) to be put under state regulations. Gun manufacturing: secondary definition in gunsmithing. Needs to have a defined difference. Notes on schedule of uses, ice cream truck, cannot stop within 200 feet of establishment unless a customer has waived you down, stop for 5 minutes, 7 am 5 pm, M-F, School Zone—definition of outdoor seating for restaurants.

MOTION by Lauri Mapes, **SECOND** by Rich Bruning, approve all definitions with the exception of changing the times to 7 am to 5 pm. **MOTION CARRIED** by unanimous vote

10. Discussion, consideration and possible action regarding the recommendations for amending Chapter 14 Appendix A, Schedule of Uses to include but not limited to Short Term Rentals allowed in the B-3 District

MOTION by Rich Bruning and **SECOND** by Lauri Mapes to approve the recommended schedule of use changes with the removal of the residential assisted living. **MOTION CARRIED** by a unanimous vote.

Pam Streeter recommends not approving the schedule of uses change for the Assisted living as a specific use permit in all residential zones.

MOTION by Candace Scholz and **SECOND** by George Freas to do additional research regarding assisted living in a residential zone. **MOTION CARRIED** by unanimous vote.

11. Discussion, consideration, and possible action regarding an increase in trash rates for the City of Glen Rose

MOTION by George Freas and **SECOND** by Candace Scholz to increase all residential and commercial trash rates by 4.95%. **MOTION CARRIED** by unanimous vote.

PUBLIC WORKS REPORT

Public Works Director Report

September 2025

Demand- average daily demand was 510,000 Gallons per Day (G.P.D.)

Total Monthly Production – 15,297,000 gallons

- **TxDOT- Safe Routes to School/Transportation Alternatives Project**

The project is considered substantially complete. TxDOT put a hold on construction of the ramp at the corner of Hereford Street/S.W. Barnard Street. I have been told by the contractor that the engineer is redesigning the sidewalk ramp. I have reached out to TxDOT for an explanation.

- **Well No.3 – Well No.5 Ground Storage Tank Replacement Project**

The contractor has completed the punch list items and provided the necessary close out items for the completion of the project. The Final Pay Application has been processed for payment of the retainage amount. The contractor maintains a 12-month warranty from the date of substantial completion, which was achieved on August 6, 2025. The warranty will expire on August 6, 2026.

- **Texas Community Development Block Grant (TxCDBG) Project**

This grant was applied for back in January of 2023 through Public Management, Inc. (Jake McAdams). The CDBG is administered by the Texas Department of Agriculture. The city was awarded \$500,000 to be utilized on drainage, and street improvements, specifically on the south side of the Paluxy River. The CDBG requires a \$25,000 match from local funds. The project scope will include re-construction of a portion of Clay Street, Webster Street, and Third Street, complete with new curb and gutter. The construction plans and specifications have been completed. Atmos Energy has been given an opportunity to review the plans before the street improvements begin. This will allow any old gas lines to be replaced, and any conflicts to be resolved before the street re-construction project begins. After coordinating with Atmos Energy, it appears that there are existing underground gas lines that will be in conflict with the street re-construction project. Because the gas lines are dated and too shallow, the lines will need to be replaced before the street re-construction project begins. We have agreed to yield to Atmos until early Spring of 2025. The plan is to advertise for acceptance of formal bids in late February- early March 2025. I have confirmed with Public Management that this proposed timeline will not jeopardize the grant funds. City Council approved ML Contracting as the contractor for the CDBG Street Improvements Project. Freeman-Millican, Inc. will be preparing the Notice of Award letter,

as well as the Contract Documents. A pre-construction meeting was completed on April 24th. The project bid amount is much lower than originally what was anticipated. This allows the city to increase the scope of work in the area that has been environmentally cleared. The mobilization of equipment and materials has been postponed until the additional work is reviewed and approved by the Texas Department of Agriculture. The TDA approved the additional work on July 22, 2025. The associated construction and engineering change orders have also been approved. The contractor's surveyors have staked the right-of-way. Third, Clay, and Webster Streets have been milled and dry cement has been blended into the existing base and subgrade. Once the required compaction tests have been completed, the construction of concrete curb and gutter will begin.

- **Well Site No.2 Pump Station Improvements**

Enprotec/Hibbs & Todd have begun the design work for the pump station improvements at Well Site No.2. The improvements will allow continuous use of the groundwater well enabling the system to be much more reliable. Also, upon project completion, this project will allow operators to fill the standpipe at Well Site No.4 (Bryan Street) from two different groundwater sources, in the event of a well failure, or if a ground storage tank is taken out of service. I met with the electrical engineers at Well Site 2, on Monday August 5th, to discuss proposed pump types, locations, and options for upgrading the electrical service to comply with the existing codes. A lot of things have changed since 1954, when the original water well was drilled. Now would be a great time to bring everything into compliance, not just the new equipment. This will increase the project cost. A geotechnical investigation was recently started at the jobsite. The field work was completed in late February. We are expecting the written report with conclusions and recommendations of the investigation. The engineers submitted the plans and specifications to TCEQ for review and possible comments on August 20th. The TCEQ review process usually takes up to 60 days.

- **TWDB EDAP Grant @ GR Wastewater Treatment Facility**

The TWDB has reviewed and approved the last phase of improvements to be completed at the wastewater treatment plant. The project is currently being advertised for bid acceptance, scheduled for opening on January 16th. Bids were opened and read aloud at City Hall on Thursday January 30th. The lowest apparent bidder was A&V Water at \$664,181.93. Once eHT have completed their review of the references provided by the contractor, a recommendation of award letter will be provided to the city, along with the bid tabulation. Currently, we are waiting for the bonds from the contractor. The contract documents have been executed. A preconstruction meeting was completed on April 30th. A Notice to Proceed letter has been issued to A&V Water. A & V Water began construction the week of July 7-11.

- **N.E. Barnard Street Sidewalk Project**

P.E. Carlos Aguilar from Freeman-Millican, Inc. provided a contract for engineering services for the N.E. Barnard Street sidewalk project (Grace St. to Big Rocks Park). The contract has since been executed, and the project area has been surveyed by Freeman-Millican, Inc. on May 7th-8th. I met with Carlos Aguilar on Wednesday, July 17th to discuss the sidewalk plans that were provided. Sidewalk easements will be needed for several properties. The easement surveys, and exhibits have been completed by Freeman Millican, Inc. The easement documents have been completed by the attorney, and are ready to be presented to the property owners. Once the property owners have signed the agreements, the documents will be filed with Somervell County. The job will then be advertised for bid acceptance. This project has been awarded to ML Contracting. A Notice of Award letter has been issued, and the contract documents have been executed. All of the needed sidewalk easements have been obtained. The contractor began construction the week of July 7. **The handrailing has been constructed and installed at the two drainage crossings. The cleanup, backfill, sodding has been completed. The engineer is working with TxDOT to resolve a possible Change-Order to eliminate additional concrete curb near the east end of the project.**

- **Glen Hotel Project**

The construction drawings for the hotel renovation project have been submitted for review, and a pre-construction meeting is tentatively scheduled for October 13, 2025.
