To the GV City Council,

My non-profit has been working to help the GV/NC animal shelter, raising money and fixing kennels. The shelter is old and staff and visitors agree a plan to envision the future of the shelter is desperately needed.

Is there a plan to create a new animal shelter in the future?

Thank you.

Dear City Council,

I am thrilled that Memorial Park has reopened and the improvements are great. As I live nearby, I frequent it year round.

However, I am concerned that there are now only two picnic tables in the section across from the pool. When the pickleball and basketball courts and bathroom were added, all the trees were removed as well the the tables. (But thank you for putting grass back in!) Those tables were always in use whenever I strolled by with my dog in the afternoons and every weekend. During the Covid mandates, I was able to meet with small groups of friends where we are able to sit outside, masked and socially distanced.

More tables may be in the works. Please update me as you can

To Whom it May Concern:

The recent updates to memorial park are amazing, but it seems like one detail was missed: fancy lights for pickleball-- nothing but darkness for the basketball court. I am a part of the vibrant basketball community up in GV. We have a group of nearly 50 people who participate in pick-up games at Condon and Memorial park multiple times a week. These players range from 16 all the way to a few in their early 60s. With the recent time change, playing during the week has become impossible for anyone working a 9-5 job.

I would ask that the city council consider putting lights on the court. There are multiple contractors within the basketball community who have said they will help at a discounted rate; we could host a basketball tournament to help raise funds--the only obstacle to this happening is any potential red tape that we need the council's help with!

Subject: Lights for Basketball Court at Memorial Park

You don't often get email from michael.angelillo@gmail.com. [Learn why this is important](#)

Hello City Council Members,

I am resident of the unincorporated area of Grass Valley and a member of a thriving basketball group. We often play every weekday after work until the sun goes down at Memorial Park. Many of us are also part of the basketball league run by Rich at the Vets Memorial Hall.

I speak for everyone when I say we absolutely love the new courts and hope more parks in the area adopt the same quality construction. We used to play at Condon but these new courts quickly replaced it.

During the winter months and daylight savings our time to play is often less than 1-2 hours which makes things difficult for us.

We were hoping that the city would consider adding lights on a timer like they have for the pickleball courts. We've observed these pickleball courts being lit past 8-9 PM. It would appear that the underground electrical is already there so the trenching would be minimal and would just require the equipment.

Several of the group members are tradespeople who have volunteered their labor for free if that would help. Others of us are willing to donate money for the materials.

I truly hope the city council will consider this as all we are asking for is parity with the pickleball community.

Respectfully,
Michael Angelillo

Hello. My name is Louie Costanzo. I've been a member of the basketball community in Grass Valley for almost a decade. We have quite the community between rec league three nights a week and the parks. We are ecstatic over the new court at memorial park and are enjoying it so much. Our only question is why we didn't get any lights? Once time change happens we hardly get to use the courts. We've obviously noticed the pickle ball courts lit up until about 9pm every night and are feeling a little left out. Is there any chance that we could get some lights installed? What if we raised money? We aren't looking for a handout, just an opportunity to play the game we love year round. We're willing to jump through hoops and put in the work if necessary. Thanks for hearing us out! And thank you so much for the new parks! They're beautiful!

Title: Local Emergency Proclamation (Drought Conditions)

Recommendation: Drought Conditions proclamation declaring a Local State of Emergency

Prepared by: Timothy M. Kiser, City Manager

Council Meeting Date: 12/13/2022

Date Prepared: 12/9/2022

Agenda: Consent

Background Information: On May 10, 2021, Governor Newsom modified a State of Emergency Proclamation that declared that a State of Emergency to exist in California due to severe drought conditions to include 41 counties, including Nevada County. The Proclamation directed state agencies to partner with local water suppliers to promote conservation through the Save Our Water campaign, a critical resource used by Californians during the 2012-2016 drought. Some municipalities have already adopted mandatory local water-saving requirements, and many more have called for voluntary water use reductions.

Nevada Irrigation District (NID) declared a drought emergency throughout the District's service area on April 28, 2021, which includes portions of the City of Grass Valley, and requested that customers conserve 10 percent of their normal water usage. Both NID and Nevada City have now mandated at least 20% conservation requirements.

On June 22, 2021, City Council approved Resolutions No. 2021-41 declaring a local emergency due to drought conditions and No.2021-42 mandating water conservation. All treated Water Customers are required to reduce water use by 20%.

Council Goals/Objectives: This resolution executes portions of work tasks towards achieving/maintaining Strategic Plan - Water and Wastewater Systems and Underground Infrastructure. The City of Grass Valley is devoted to providing a safe Place to Live, Work and Play.

Fiscal Impact: The Fiscal Impact to the Water Fund should be minor, but if the drought continues for several years the impact could be more significant.

Title: Reimbursement of Employee Expenses for the Maintenance and Training of Peer Support Dogs Policy

Recommendation: That Council 1) approve a Resolution No. 2022-87 - Adopting a Policy to Reimburse Employee Handlers of Peer Support Dogs; and 2) authorize the Administrative Services Director to make any budget adjustments and/or transfers associated with the reimbursement of employee expenses for the maintenance and training of peer support dogs policy.

Prepared by: Timothy M. Kiser, City Manager

Council Meeting Date: 12/13/2022

Date Prepared: 12/07/2022

Agenda: Consent

Background Information: On November 22, 2022, City Council approved the Facility Dog Program and obtaining a Facility Dog for the City through 4 Paws 2 Freedom. As part of the action on November 22, 2022, the City Attorney was authorized to prepare an agreement between the City and the handler regarding the terms for splitting of dog expenses and responsibilities. After discussions with the City Attorney, it was decided a City Policy would be the better way to document each parties' responsibilities. The primary handler would be responsible for the dog and treat it as a pet during non-work shifts, taking responsibility for feeding, grooming, toys, treats, and other non-work-related items. The City would be responsible for liability insurance, veterinary expenses (except for injuries during non-work hours), pet health insurance costs, training equipment, and supplies related to the dog's work duties. Attached is a the resolution and policy on reimbursement of employee expenses for the Maintenance and Training Peer Support Dogs.

Council Goals/Objectives: The action executes portions of work tasks towards achieving/maintaining Strategic Plan - High Performance Government and Quality Service.

Fiscal Impact: Costs associated with the purchase of a facility dog will be primarily offset by funds from 4 Paws 2 Freedom through a grant they received. Other costs, to the extent not funded by the Primary Handler, can be covered with budgeted reserve funds

- PART 10 - California Existing Building Code
- PART 11 – California Green Building Standards Code
- PART 12 - California Referenced Standards Code
- International Property Maintenance Code, 2021 Edition
- International Swimming Pool and Spa Code, 2021 Edition

AND AMENDING THOSE PORTIONS OF THE CALIFORNIA CODE OF REGULATIONS TITLE 24 AS IDENTIFIED HEREIN.

The City Council of the City of Grass Valley does ordain as follows:

SECTION 1: Repeal - Chapters 15.02 thru 15.06 of Title 15 of the City of Grass Valley Municipal Code are hereby repealed in their entirety.

SECTION 2: Purpose and Authority - The purpose of this Ordinance is to adopt by reference the 2022 edition of the California Building Standards Code, Title 24 – Parts 1; 2; 2.5; 3; 4; 5; 6; 8; 9; 10; 11 and 12 of the California Code of Regulations, the 2021 International Property Maintenance Code, and the 2021 International Swimming Pool and Spa Code subject to the definitions, clarifications, and the amendments set forth in this Ordinance. The purpose of this Ordinance is also to provide minimum requirements and standards for the protection of the public safety, health, property, and welfare of the City of Grass Valley. This Ordinance is adopted under the authority of Government Code Subsection 50022.2 and Health and Safety Code Section 18941.5.

SECTION 3: Findings of Fact and Need for Modifications to California Building Standards Code - Pursuant to California Health and Safety Code sections 18941.5 and 17958, the City Council of the City of Grass Valley hereby finds that the amendments adopted herein are reasonably necessary because the city has unique local climatic and topographic conditions. These local conditions have an adverse effect on the prevention of (1) major loss fires and (2) the potential for life and property loss, making the changes or modifications in the California Building Standards Code necessary in order to provide a reasonable degree of property security, and fire and life safety in the City. Below are adverse local climatic, geological and topographic conditions that necessitate the modifications to the California Building Standards Code.

A. Climatic Findings of Fact.

1. The City of Grass Valley weather is mild during the summer when daytime temperatures tend to range in the 70-90-degree Fahrenheit range, and cold during the winter, which daytime temperatures tend to be

in the 40-degree Fahrenheit range. The City experiences large temperature variations between night and day during the summer; the difference can be up to 40 degrees Fahrenheit.

2. The City has a mix of urban population growth interspersed with areas of vegetation growth. Intensive use of land in urban areas means bigger buildings, which can also create complex problems for fire safety.

3. Average yearly rainfall for the City is approximately 55 inches. This rainfall normally occurs from November to May. Precipitation creates a condition where emergency responders need to drive more cautiously. Snow and ice can be present during winter months, contributing to freezing and slick roadways and resulting in numerous vehicle collisions.

4. The City of Grass Valley also has a Mediterranean Climate characterized by warm, dry summers that cause an increase in fire risk during the summer and fall months. A significant portion of the City resides in a Very High Fire Hazard Severity Zone, as classified by the California Department of Forestry and Fire Protection (CAL FIRE).

B. Topographical Findings of Fact.

1. The City is bisected by numerous topographical features including creeks, natural parkways, open space, bridges/overpasses, freeways, drainage canals, wildland and hillside areas. These topographical features significantly impact the ability of emergency responders to extinguish or control wildland or structure fires. The City resides at an elevation varying between 2200 to 2800 feet.

2. Moderate traffic congestion on the City's major streets and intersections at peak times acts as a constraint to timely response for fire and emergency vehicles. As a result of increased development both within the City and in the unincorporated area of the County, some roadways and intersections in the City are expected to have significantly increased traffic flow rates in the future. In the event of an accident or other emergency sections of the City could be isolated or response time could be sufficiently slowed so as to increase the risk of injury or damage.

3. Extended response times for a full fire fighting force to a known fire have the strong potential for increased risk to life and increased property damage and built in fire protection systems such as automatic fire alarm and automatic fire sprinkler systems are necessary, where they are otherwise not required by this code, to limit the threat to life and increased property loss.

C. Summary. The local climatic and topographical conditions affect the acceleration, intensity and size of fires in the community. Times of little or no rainfall, or low humidity and high temperature create extremely hazardous conditions, particularly as they relate to wood shake and shingle roof fires. Grass Valley's downtown and surrounding areas contain numerous historic and older buildings that are located close together, which can exacerbate the fire condition from dry conditions, wind, and shake shingle roofs. Additionally, the City's development pattern contributes to its unique fire protection needs as the City is intersected by natural features and is also subject to traffic conditions. Local vegetation contributes to the fire dangers in the City, as the vegetation provides ready fuel for fast-spreading wildfires. These structures and the flammable material are susceptible to ignition by embers from a wild land fire, furthering the spread of fire to adjacent buildings.

SECTION 4: Chapter 15.02 "Building Standards Codes" of City of Grass Valley Municipal Code is hereby added to read as follows:

15.02.010 Title. This Chapter shall be known as the City of Grass Valley Building Standards Code, and may be cited as such, and will be referred to herein as "this Code."

15.02.020 Application. This Code shall be the exclusive source of regulations for all new construction and any alterations, repairs, relocations, or reconstruction of any building or any portion thereof including any electrical, mechanical, gas, plumbing, or fire protection equipment installed on any property or used on or within any building.

15.02.030 Conflicts with other laws, rules, etc. In the event of any conflict between this Code and any law, rule or regulation of the State of California, that requirement which establishes the higher standard of safety shall govern. Failure to comply with such standard of safety shall be a violation of this Code.

SECTION 5: Chapter 15.04 "Adoption of Building Standards Codes" of City of Grass Valley Municipal Code is hereby added to read as follows:

Section 105.5 “Expiration” is amended to read as follows:

Section 105.5 Expiration. Every Grading, Building, Plumbing, Mechanical, and Electrical permit issued by the city under this code shall expire by limitation and become null and void two (2) years after the date of issuance or if the building or work authorized by such permit is not commenced within 180 days from the date of issuance, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced. Suspension and/or abandonment shall be determined by a lack of progress inspections for a period of more than 180 days since a previous passing inspection. The maximum allowable length for all permits is 2 years, unless otherwise noted. Extensions will not normally be considered. Applicants with extenuating circumstances may submit written request and a filing fee prior to the expiration of the permit to the Building Official. Such requests are required to outline extenuating circumstances that did not allow for the completion of the work as permitted.

If a permit has expired, no work can recommence until a new permit is obtained.

105.5.1 - The cost of a new permit, the purpose of which is to facilitate completion of work for which a permit has expired, will be based on a quantitative estimation of inspections deemed necessary for completion. If costs for providing services to the project exceed the estimated fees collected at permit issuance, additional fees will apply. Said fees will be in accordance with the City’s Building Division Fee Schedule established by resolution of the City Council. It is the responsibility of the permittee to schedule all inspections necessary for a permit to remain current and valid. All inspections for this purpose must verify progress.

105.5.2 - Permits may be issued for a limited period when deemed necessary by the Building Official to abate dangerous, substandard, and/or illegal conditions. In such cases, the Building Official will establish the expiration at 30, 60, 90, or 180 days depending on the health and/or safety hazards. Such permit term limitations may be shorter if deemed appropriate and/or necessary by the Building Official.

With regard to reinspection, if the work is not complete and correct at the first reinspection, a minimum reinspection fee which shall be established by resolution of the City Council from time to time, shall be charged for any and all subsequent re-inspections for the same work. To obtain a reinspection the applicant shall first pay the reinspection fee(s) which are established by resolution of the City Council.
