**Project Name:** Tyler Energov Community Development software migration

**Department:** Information Technology

**Project No.:** 301-094

### Project Description

This project is to implement the migration of all Community Development (CD) software functionality from the existing, on-premise Tyler Technologies New World ERP CD module to Tyler's cloud-based Energov product. This will provide advanced capabilities for the Business Licensing, Permitting and Code Enforcement functions of the Building Department, integrated with New World ERP Financial Management. It will also provide significantly expanded public engagement capabilities through online and mobile interfaces for two-way communication between the City and its population.

### Operating Impact Created by Project:

Projected Operating Expense: \$96,340

Estimated Useful Life: 10 years

Description of Operating Impact: Annual subscription fees for Software as a Service (Saas), providing always available, updated software and support

**Project Name:** Bowman Street Improvement

**Department:** Public Works

**Project No.:** 301-192

### Project Description

This project will improve the portion of Bowman Street between Wallace Street and Military Trail to City street standards, including pavement repair, stormwater drainage, sidewalk installation, and pavement markings. In FY 2012, FDOT agreed to the City's request to include improvement of the connection between Bowman Street and Military Trail in the scope of work for their resurfacing project. In FY 2013, the private owner of this portion of Bowman Street deeded the 20' right-of-way to the City and the owner of the property to the south deeded 5' of land to the City for a combined right-of-way of 25". In FY

was done and improvement plans begun. In FY 2019, construction plans were completed. Due to a change in scope, FDOT's start of construction and duration were pushed back. Upon completion of FDOT's project, estimated for early FY 2022, the City's improvements will be constructed.

### Operating Impact Created by Project:

Projected Operating Expense: Included in Public Works Department maintenance budget

Estimated Useful Life: 20 years +

Description of Operating Impact: When complete, maintenance needs will be reduced.

Item #1.

Project Description								
<p>This project provides for ongoing repairs and upkeep of the City's Public Parks. General wear and tear, age, past repair history and cost are taken into account in the planned replacement of each item. In FY 2020, the baseball and softball fields at Freedom Park were converted to soccer fields, a pickleball court was constructed on the north end of the park and a bankshot basketball court was constructed in the south end of the park. Also, a shade structure picnic pavillion was constructed on the north end of the park. In Fiscal Year 2021, the City constructed (4) volley ball courts at the northwest part of Freedom Park. In FY 2022, the City will install a play structure and amenities at the Harvest Pines green area. City Staff will also review several Park enhancement options for all Park facilities.</p>

Item #1.

Project Description

This project provides for the orderly replacement of air conditioning systems at public buildings throughout the City. Funds are budgeted to replace those units whose life expectancy is nearing expiration along with unexpected repairs and/or replacement due to general wear and tear, and equipment failure. Age, usage, past repair history and repair costs are taken into account as to when each unit should be replaced. A matrix showing the schedule of replacements from FY 2021 through FY 2026 is attached.

**Operating Impact Created by Project:**

Projected Operating Expense: \$0

Estimated Useful Life: Varies

Description of Operating Impact: New units will reduce electricity and repair expenses.

Item #1.

Project Description								
<p>The first phase of the project entailed retaining a Landscape Architect consultant to research and design an appropriate landscape treatment for the City's unirrigated roadway medians to rejuvenate the existing plantings. Two alternatives were chosen for further investigation: artificial turf and irrigated natural landscaping. The Jog Road and Lake Worth Road medians were enhanced in FY 2020. In FY 2021, the planning, design, permitting and bidding were completed for the Forest Hill Blvd medians. In FY 2022, landscape enhancement for the Forest Hill Blvd medians will take place.</p>

**Project Name:** Septic to Sewer  
**Department:** Public Works  
**Project No.:** 306-231

Item #1.

Project Description								
<p>To provide for sanitary sewer service to eighty six (86) properties in the City's Original Section along Swain Boulevard from Lake Worth Road northwards to approximately 300 feet south of 10th Avenue North. which would positively impact the values of the properties in the area due to enhanced quality of life. During FY2021 the City will engage a construction engineer to develop plans for the construction of a sewer system to reduce the amount of pollutants discharged into the groundwater system through collection of all wastewater through the sewer system ultimately reducing pollutants leading into the LWDD Canal E-3, LWDD Canal L-11 and LWDD Canal L-10</p>
