The Chair asked if anyone from the audience wished to speak in opposition to the proposed request. No one wished to be heard.

PASSED UNANIMOUSLY.

Motion by Gafa, seconded by Brown, that the City Council concur with the City Planners' recommendation as presented and approve the Special Land Use request for an off-ice training facility (Detroit Premier Hockey) at 20481 Mack Avenue, subject to the following conditions:

1. All doors and windows parallel to Mack Avenue remain uncovered at all times to contribute to an active street presence.
2. Downward directed and shielded exterior lighting will be installed on the rear building façade, replacing the existing lighting.

This recommendation is based on the following findings:

- A. **Consistency with the Master Plan.** The subject site is designated as “Corridor Mixed Use” on the Future Land Use Map of the 2024 Master Plan. The proposed use aligns with the intended uses of the Corridor Mixed Use designation, which includes retail, restaurant, and personal service establishments serving nearby residents. Additionally, the current zoning district of the site (C, Commercial Business) is consistent with the Corridor Mixed Use designation.
- B. **Compatible Surrounding Land Uses.** The site is located on an existing commercial corridor. Improvements to the rear exterior lighting will provide a better transition for the adjacent residential properties.
- C. **No Anticipated Nuisance or Public Hazard.** The nature of the proposed business (off-ice hockey training facility offering fitness classes and private lessons) is not anticipated to create disruptive noise, smoke, odor, glare, or vibration.
- D. **Support for Walkable, Mixed-Use Development.** The site is located on Mack Avenue, a commercial corridor designed to accommodate pedestrian-oriented businesses and promote a walkable environment. The reuse of an existing commercial storefront supports compact, efficient development. The windows and doors parallel to Mack Avenue will remain unblinded and uncovered by glass advertising clings and decals. Activity inside will be visible from Mack Avenue, contributing to a positive street presence.
- E. **Compliance with Zoning Ordinance Intent.** The proposed fitness training facility is consistent with the intent of the C, Commercial Business District to support local business development that benefits both residents and merchants.
