Gustavus Disposal & Recycling Center (DRC) Quarterly Staff Report
Ian Barrier, DRC Manager/ Operator
February, 2026

Item #3.

General Operations and Management

General operations and management haven't changed since my last report other than dealing with cold temperatures in December and then an epic snowstorm over the holidays and into January which turned into a special situation from my perspective. In December during the sustained cold spell we relied heavily on our block heaters, fuel additive, and battery chargers to keep equipment functioning and often crossed our fingers when firing up the baler in the morning. Some machines like the alligator shears would not function at all due to thick, cold hydraulic oil causing it to trip the breaker. Happy to report nothing broke. (Other than the food waste quonset collapsing) After the epic snowstorm; activities at the DRC crawled to a halt much like the rest of the town. I had never quite experienced such a heavy snowfall in such a short time before and soon I realized this amount of snow was barley manageable with our A770 skid steer even though it is the biggest skid steer in town. For snow removal our only attachments are our buckets which can only be used to push snow ahead of the machine and this has lead me to think it might be time to get an actual plow because a blade can be angled to push snow to the side and doesn't get packed with snow and ice during use. Other than plowing the DRC, I remained on call to plow first responders driveways and was happy to help when requested to do so. Syd and I also shoveled the roofs at City Hall, the pavilion at Salmon River Park, and the roof at the DRC. Some minor shoveling was done at the Community Chest as well.

Labor

After things settled down around town regarding the snow I had an opportunity to take some time off that was definitively needed. Since I have taken my position as manager (and even before) it has been difficult to take any time off due to how busy the DRC becomes during the summer, and a lack of reliable help during winter to cover for me. With Syd here I was able to take that opportunity without being worried about the state of the DRC.

Annual Report

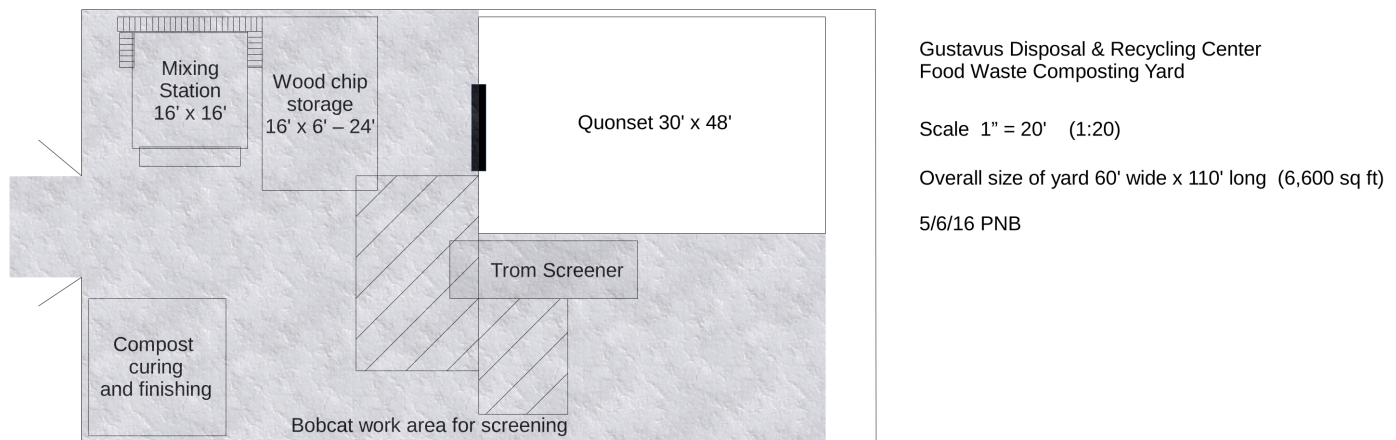

At the bottom of my quarterly report is our annual report for the fiscal year of 2025. Our annual report gives council and my other readers to see how much material are we processing, what recycling streams were focal points for the year, and the return from those streams. Something relatively new that I have been including in my our annual report is "Recycling Shipped Per Fiscal Year" dating back to FY08 and this gives us a general idea of how the waste stream is changing in Gustavus. The most noticeable trend in this data that I have noticed is the uptick in scrap metal that we have been receiving over the last few years with FY25 totaling 92,597 pounds of scrap. It is worth mentioning that timing our shipments can have a large impact on this report; and scrap metal is the perfect example of how concentrated load timing can create dramatic spike in data as you see. With this said, it can be assume that FY26 will have a much lower amount of scrap recycling shipped because in FY25 we had two scrap shipments back to back that in theory one of the shipments could have been done during the next fiscal year; hopefully that is clear.

Community Chest

This has been a very productive quarter for the Community Chest and they has been receiving a lot of good feedback lately. The public has noticed the place appears cleaner and less cluttered with happier volunteers. I have had Syd working at the CC on Wednesdays to help with organization, sorting of goods, and receiving and providing in person feedback to and from/between the public, volunteers, and myself as management. I worked on creating a general handbook for the volunteers with standards for all the tasks at the CC and everyone appears content with that. I also have been asking volunteers who frequently work when the CC is open to the public to sign a volunteer agreement. We have also created a Facebook page for the CC to post items for sale; the CC and I are still working on how to handle access before we start using it frequently. Likely Syd and I will be the only ones with access for now and volunteers will have to inform us of what to post. During this period I was also in communication with the White Elephant in Sitka, another volunteer ran thrift shop. One thing that they do in regards to donations is having a "STOP" & "GO" sign to tell the public when they are or are not receiving donations. I'm waiting for a steady hand to finish painting the letters on the sign, so it isn't up yet; but keep an eye out!

Quonset

During the snowstorm our food waste quonset collapsed. It really wasn't a surprise considering its condition and that Paul Berry had been trying to get the compost yard upgraded since 2016. Looking at Paul's original proposal; Paul mainly wanted a good work surface because the ground around the DRC turns into mud very quickly and makes managing a tidy yard with compost piles difficult. Paul's original idea was to use D1 over rock as a work surface but in my opinion it would eventually get mixed with material from the composting operation. Further down the road the project evolved to include an actual building and things proceeded to become more complicated with the use of grants and the addition of a truck with a wood chipper which continued to increase the cost and so on and so forth. Jumping ahead into the present day with the current situation at the DRC the option I see as best for the DRC is to pave the yard and add more concrete "eco blocks" to create separate bays for our materials. This is a simple yet effective solution that can be easily expanded upon in the future and will satisfy the needs of Gustavus and the DRC. It also shouldn't require any engineering which appears to be the biggest expense with any of our projects and that should please the public. This is very similar to many other composting programs as well according to the research I have done.

Gray area is where the cover soil is to be removed, the ground compacted and 18" to 24" of rock applied with a final 8" cap of D1. Final cap should be slightly higher than surrounding ground to encourage water to shed.

Surface area to receive rock is 4,840 sq ft. Assuming 2' thick total rock volume is 9,680 cu ft or 358.5 cu yards.

Compost

I have seen people discussing compost on social media or often asking questions about what we take as compost; often related to animal products from subsistence hunting & gathering. Therefor I want to clarify that we do accept animal carcasses, bones, and hides for composting. If you need to dispose of a whole animal larger than a chicken; please contact us first at the office (697-2118) and we can likely find a solution for your case, just don't dump it in the hopper please (This has not happened just to clarify) Dairy products are also okay to compost in our operation. If you have questions, please ask.

Final Remarks

As always council members, the public, and other city staff are always invited to visit the landfill to ask questions or request a tour to have a fuller understanding of how and why we operate the way we do.

The End, thank you.

Report compiled by ian.barrier@gustavus-ak.gov

02/04/2026

City of Gustavus, Alaska
Disposal & Recycling Center (DRC)
Fiscal Year 2025 (July 1, 2024 - June 30, 2025)
Annual Report of Waste Processing, Income & Expenses

What the DRC Received from the Community

- 224,914 pounds of recyclable waste, *(exported or re-used)* ~55.50% of total.
- 175,495 pounds of non-recyclable waste, *(placed in the mound)* ~44.5%.
- 107 pounds of household hazardous waste collected ~0.0%.

Total of 400,516 pounds of waste (~200 tons). Our diversion rate is ~55.50%¹.

- Ash, Construction/ Demolition (C/D) waste & Sheetrock – ~128 cubic yards

Ash, Sheetrock and C/D waste does not pass over the scale and is therefore not included in the above totals or in the diversion rate. The cubic yard total is uncompressed material.

- The DRC was open to the public on 168 days. Total number of days receiving waste was 223.
- 6,099 customer transactions (Trash Flow tickets).
- Peak activity occurred on 08/17/2024 with 87 inbound loads weighing a total of 6,821 lbs.

What the DRC Recycled

Exported Recyclables

	Pounds Recycled	Value		
Aluminum Beverage Cans	13,798	\$8383.10	Number of shipping events	8
Tin Cans	11,422	\$665.73	GST – JNU shipping charges	\$17,560
Scrap Metal	92,597	-\$945.00	JNU – SEA shipping charges	\$8,827.94
Irony Aluminum	3,911	\$1486.18	GST – SEA shipping charges	\$0.00
Cardboard	17,966	\$626.60	Trucking Charges	\$457.04
Copper Wire	1,508	\$1296.88	Demurrage Fees	\$120.00
Mixed Paper & Books	11,047	\$301.05	Total shipping charges	\$26,964.98
White Sheet Paper	0	\$0.00	Total return	-\$15,456.53
Type 1 – PETE Plastic	3,174	\$0.00		
Type 2 – HDPE Plastic	2,063	\$0.00		
CRT & LCD TV's	2,657	-\$697.17		
Circuit Boards & E-Waste	1,750	\$391.05		
Totals	165,291	\$11,508.45		

Note: Due to the frequency of how often certain recyclables are shipped, some materials such as batteries, e-waste or non-ferrous metals are stockpiled and are shipped less frequently. What was received in a year does not equal what was shipped in a year.

Locally Recycled Materials

74,960 pounds of food waste was composted (composted food waste cures for 6 to 9 months)

- Approximately 21.90 cubic yards of marketable compost from the previous year was sold (some remaining) generating a return of \$4,206.

25,200 pounds of glass bottles and jars were pulverized and land-spread.

¹ Recyclables recovered from deliveries of non-recyclable waste is not recorded in the diversion rate.

Recycling Shipped Per Fiscal Year

In FY25 the DRC shipped an exceptional amount of ferrous scrap metal with a total weight of 92,597 pounds. The upward tick in ferrous scrap can be attributed to the timing of shipments and the acceptance of larger, bulkier, and more complex items such as fuel tanks, misc commercial scrap, and automotive scrap that would often be refused in the past.

Where the Money to Operate the DRC is Spent

The average cost for processing each pound of waste received by the facility is \$0.37 per pound (rounded). This average does not include waste that does not flow across the scale: Sheetrock, Ash and C/D waste, estimated at ~128 cubic yards (uncompressed).

Where the Money to Operate the DRC Comes From

Financial and Miscellaneous Notes

The DRC completed the fiscal year within budget. Income was \$26,121.54 greater than budgeted and expenses were \$18,932.31 less than budgeted resulting in an actual City subsidy of \$6,160.20 for the DRC.

Reserved

Compost sales (\$4,206) and thrift sales at the DRC (\$65.00) are included in “User Fees/ Sales” income.

There was a total of 2,785.75 hours of paid labor at the DRC: 1822.50 hours by the Manager/Operator (includes PTO) and 963.25 hours by the DRC Temporary Labor Pool.

The Pool had 2 members respectively all of which were active at various times. There was 1 regular position employee during FY25.

Non-revenue waste streams (recyclable and non-recyclable) picked up by or delivered to the DRC include:

Account	Pounds waste	Account	Pounds
Community Chest	4,805	Marine Facilities	743
Fire Department	2,450	City Hall / SR Park	1,168
Litter	1,110	Library	563
Fish Waste Bin	454		
Total pounds waste	11,267		

Community Chest statistics for the fiscal year

The Community Chest does not record the volume (or weight) of the merchandise that is sold and reused by the community (and consequently kept out of the landfill), so there is no direct measure of this very important benefit.

- Open or had transactions on 115 days
- Peak sales of \$425.00 on 07-06-2024
- Peak income of \$1194.00 on 05-28-2025 due to a \$1000.00 donation
- Total income: \$14,567.00
- 4,805 pounds (2.40 tons) waste hauled to DRC
- Total sales minus major expenses (electricity \$415.69, heating oil \$638.69 & waste \$1,131.90) equals an approximate net income of \$12,380.72
- Several donations of usable items to out-of-town charitable organizations

GUSTAVUS VISITORS ASSOCIATION

Gustavus is an incredibly special place, one that has cultivated a powerful connection with adventurers for over half a century. Southeast Alaska is a must-see and do destination and Gustavus is ideally situated in a beautiful wilderness and surrounded by Glacier Bay National Park. We excel in experience and hospitality in an increasingly competitive Alaska market. We continue to innovate while honoring the deeply rooted history, geography and singularity that has landed us prominently on the map. The travel and tourism sector are currently the driving force behind Gustavus's economy.

Mission Statement

The Gustavus Visitors Association's (GVA) primary mission is to enhance the economics of the City of Gustavus through tourism marketing that increases business revenue, tax revenue and creates jobs.

Target Audience

- New & returning independent travelers
- Independently traveling artists
- Independent adventure travelers
- Science & eco-oriented travelers
- Families traveling independently

1. Bring Gustavus to the forefront as a destination to visit.
2. Increase the visitor length of stay.
3. Increase visitor spending in the Gustavus economy.
4. Build and support positive relationships with local vendors, businesses, and travel industry partners.
5. Market the character of this: wildlife packed & unique Alaskan experience
6. Hold a visitor industry event and gathering at a venue such as the Fireweed Gallery to exchange ideas of how Gustavus views the future of tourism in Gustavus.

Strategic Initiatives for Ongoing Marketing

1. **Increase** visibility and the average visitor “stay time” in Gustavus, through:
 - a. Increased global interest with the placement of marketing videos across all mediums of digital and social media.
 - b. Increasing visibility through website engagement.
 - c. Encouraging local tour companies and accommodations to develop multi-day activity packages.
2. **Develop** Targeted local business marketing by:
 - a. Show casing on a scheduled basis individual business through social media marketing.
 - b. Video & digital scheduled promotions
 - c. Promoting activities happening here in Gustavus across marketing platforms.
3. **Build** Partnerships and bridges with our neighboring communities by:
 - a. Creating itineraries around the Alaska Marine Highway system
 - b. Creating itineraries around neighboring community events
 - c. Welcome reciprocal progressive events from community to community of art, musicians, retreats and events of specific interest.
4. **Boost** and maintain positive relationships with local vendors, businesses, non -profit organizations and travel industry partners:
 - a. Creating value added incentives for businesses and non-profits to join GVA.
 - b. Maintaining and growing our travel industry contacts and associations to market Gustavus both regionally, nationally, and globally.
 - c. Working with the city and businesses to build a measurable financial model so we can fine tune our target marketing.
5. **Maintain** a Gustavus Community & Visitor Information Center by:

Keeping our website up to date with current events, neighborhood news, wildlife, and bird sightings as blog/social media posts.

1. Retain memberships/advertising with the following:

- Create another video, utilizing the local personal audio interviews gathered by Frostline Studios.
- Alaska Travel Industry Association (ATIA)
- Travel Juneau (formerly the Juneau Convention and Visitors Bureau)
- Alaska Travel Publication
- Southeast Alaska Tourism Council- Alaska's Inside Passage (SATC)
- Alaska Airlines Magazine
- Alaska Magazine
- The Milepost
- KTOO radio program
- Social Media

2. Improve the visitor experience and SEO of our website by distributing it through a [Content Delivery Network](#) - (CDN - Likely Amazon's Cloudfront, or Cloudflare) This will improve page load speeds with the aim of earning us a passing score on Google's [Core Web Vitals](#), which have a sizable impact on search rankings (Because of the relatively low traffic on our site this will likely be very inexpensive and could possibly be free)

3. Continue to identify and implement [structured data](#) opportunities on our website for rich search results on search engines.

4. Implement [UTM URL parameters](#) in current and future print and web advertising campaigns for better analytics reporting. This will give us a more accurate measurement of the return on our ad spend so we can have better data on which to make our advertising decisions.

5. Identify goals and create measurement reporting for visitor "Conversions" on our website so we can better understand our user journey, improve analytics reporting, and generate individualized reports for our members to showcase the impact the GVA is having on their business. (ie. # of phone calls, clicks to their website, etc)

6. Update our home page to more effectively direct traffic towards our identified visitor goals, and measure conversion rates.

7. Further optimize business listings by removing duplicate data, fixing broken phone links, adding logos, updating images, etc.

8. Continue to methodically improve the quality of the content on pages across our website with content revisions and updates.

9. Construct and launch a "Local voices" blog section of the GVA website where we can showcase our wonderful community in more detail, publish content from local businesses, authors, artists, etc. This will include a monthly staff-written blog post, posts highlighting community events, as well as guest posts from local contributors and businesses.

10. Build a form to begin building an email list for increased marketing reach via direct emails. Send marketing emails to subscribers highlighting new and updated content, new blog posts, and community events.

Quarterly Clerk Report
02-09-2026
Submitted on 02-04-2026
Submitted by: Liesl Barker

The past few months have been whirlwind here in the clerk's office. Over the last quarter I facilitated council member training, attending 14 hours of website training with civics plus, attended Alaska Association of Municipal Clerk Conference/Alaska Municipal Conference, prepped for the end of year and being away, and was out for about 5 weeks of medical leave. I would like to thank Morgan Park, Sally McLaughlin, and Ben Sadler for helping to cover my main duties while I was out of the office.

Website Update: Civics Plus has completed their portion of the new website. Over the course of the next month Morgan and I will be working on cleaning up the site, checking links, and overall making it look pretty. We will have a preview of the website for council at an upcoming meeting. Morgan and I will also provide staff training ahead of the launch. Then we will have a community launch party for the new website at the library to show it off. I am very excited about all the new features this website will have.

Clerk Development/Training – Thank you for your continued support and invest in me professionally!

- AAMC Conference Report
 - Due to our beautiful Alaskan weather, I missed the first two days of the conference. I was able to attend the last day of the main conference; “Elections lessons learned panel”, a session about IIMC and AAMC committees, AAMC business meeting, “AI Tools and Best Practices – A Clerk's Guide for Success (It's not here to replace you!)”, Division of Elections Update, and the “Wild and Wacky World of Clerks”.
 - Elections Panel: I had a few key takeaways from this session, one being the importance budgeting for elections as well as honoring the years of service for our election official volunteers, and to make sure I am training election officials in how to assist voters if needed and requested to meet ADA standards.
 - AI Tools - We talked a lot about the importance of cyber security training for employees and volunteers using city devices. This is an item I would like to have in the budget. There are companies/programs that run these trainings and have continuing education throughout the year. This would also be a great item to put in future IT Contracts. We also spoke about how to use it without disclosing confidential information and how to always human verify afterwards.
 - Division of elections update: I found out that I can apply to have access to VERMS which would aid in faster authentication of individuals being registered to vote. There is also a house bill that if passed would add an additional 10 days to early voting prior to elections. If this passes it may lead to necessary ordinance amendment for the city. I also learned that if a voter needs a new voters' card from division of elections, they need to call to request it. It also helps division of elections to receive back any pieces of mail that cannot be delivered or for a person who is no longer at the mailing address. It helps them be able to clean up the register, which is a long multiyear process.
 - I was able to attend the Athenian dialogue the next day. For Athenian dialogues participants must read the chosen book prior to attending them we have a facilitated discussion about leadership and lessons learned though the book. Some key themes (there were a lot) for this year were your own mistakes when you

make them, always try your best, learn from each attempt/experience, importance of teamwork, knowing when to lead and when to follow.

Learning = Competence = Confidence but competence without confidence is useless and confidence without competence is dangerous. We then take these themes and apply them to our work and home environments.

- For the 2025 conference I had served on the finance committee, banquette decorating committee, education committee, and the vendor committee. I also helped the fundraising committee a little as well.
 - This year the vendor committee (myself and 2 other two clerks) received the “Above and Beyond Award” for bringing in \$21,000+ above what the association had budgeted to receive.
- For this upcoming year I have been asked and accepted to be the Vendor Committee Chair, which also places me on the conference planning committee. I am also serving on the education committee, chairing the Athenian subcommittee, and serving on the finance committee, and fundraising committee. These committee roles do not significantly impact my day-to-day responsibilities to the city. They will contribute toward my Master Municipal Clerk (MMC) certification and allow me to build relationships with clerks throughout Alaska. Serving on these committees also creates opportunities for leadership, professional growth, and sharing best practices while positively representing our city and strengthening its reputation statewide.

○ AML Conference Report

- I was able to attend 1.5 days of the AML Conference with sessions including “Navigating the Not So Perfect Storm: Preparing for the future of Emergency Management” and “Resilience”. The large takeaway from this session is the continuing theme of federal support is not a guarantee for emergency management. There are several organizations in the state that can help with planning several are for tribal primarily but then there are other overarching organizations such as Alaska Emergency Management Association (AKEMA). There is an AK emergency management conference each year in April. All the speakers recommended that all communities increase community education and networking with more local community partners in the private sector. They spoke about the importance of having MOU’s prior to the emergency, having back up methods of communication including land lines numbers was another highlighted item. I was able to connect with several folks including the AEMA president who can help connect us with other regional leaders and CERT training information.
- The other valuable session I attended was about Addressing and GSI. In this session I learned all about the first steps to take when working on creating an addressing system that is verifiable for a city. In overarching theme is this is not a one-time project, it is an ongoing forever item. Setting up addressing takes manpower, GSI mapping and other software needs. There are items we can start with, some of which the city has in place such as a requirement for roads. Otherwise, one would start with standardized rules for roads, a quality copy of DOT maps, community consensus on road names, and figuring out which of the three methods for addressing would be best. I was able to make connections with several of the presenters and have lots of very lengthy notes to help get us started. This

might be another item we would like to think about when working on the budget unless the city wants to do this initial phase as a project.

- I also went to session about revitalization. For this session they spoke about re-zoning and lessening rules which we really don't have so that didn't apply much for here. The largest take away was a group called Music Alaska that helps with tracking and such of the 92 music festivals in Alaska. They help local businesses and small venues with permitting, grant money, etc. They also have playlists of Alaska music for businesses and places like airports to play to help show off the local talent and for visitors to get the "feel of Alaska". They have found that music brings in a lot of money for local areas and is a great way to bring people to smaller towns/cities.

I am still working on the Public Information Officer Program through FEMA's courses. There are two courses, I have started IS-29 Public Information Officer Awareness. This program is asynchronous. I am working on it when time allows.

For completion of my Certified Municipal Clerk (CMC) course, I need to have completed 50 experience points and 60 education points. I currently have approximately 37.25/50 experience and 60/60 education points. I will most likely not be able to complete my certification after I attend the International Institute of Municipal Clerks conference in Reno Nevada this May. I will be submitting my scholarship application for this conference in the next day or two.

After completing the CMC I hope to have continued support of working towards my registered parliamentarian and my Master Municipal Clerk Certification. I will use online training as much as possible to help achieve these certifications. I would like to have the opportunity to attend the Northwest Clerks Institute this June for professional development 3. This is the third course in a series, and I have already completed the other two with my co-hort. It would be greatly appreciated to finish the series with my co-hort. The points earned would be able to apply to my MMC. I do plan on applying for scholarship for this training to help with the expenses.

Goals and projects for 2026

- Launch new website
- Continuing to work to change the city hall set up so community members as well as council members can see the electronically displayed packet and improve the camera/video recording to help make the zoom experience better and more personable for our community members attending meeting remotely or viewing the recording.
- Update our records retention schedule and records policy
- Continue to serve a lesion for the ordinance committee
- Start micro-training videos on topics for council

The City Council attendance history.

This record starts with October 7, 2024, special meeting where the new council was sworn in.

Special Meeting/Work Session Present						
General Meeting Present						
Absent (unexcused)						
Absent (excused)						
Section 2.20.100 - Vacancies.						
(f) Is unexcused from any five (5) meetings in a calendar year including, but not limited to work sessions, and regular or special meetings.						
Section 2.30.040 - City council member attendance policy for regular meetings.						
(a) Any absence of a city council member from a regular meeting of the city council shall be deemed to be unexcused unless the city council member is absent from the meeting as a result of attending to official business on behalf of the City of Gustavus, for extenuating medical reasons, or for other significant cause as determined by the city council, in which case the absence shall be deemed to be excused.						

Google Analytics for City Website:

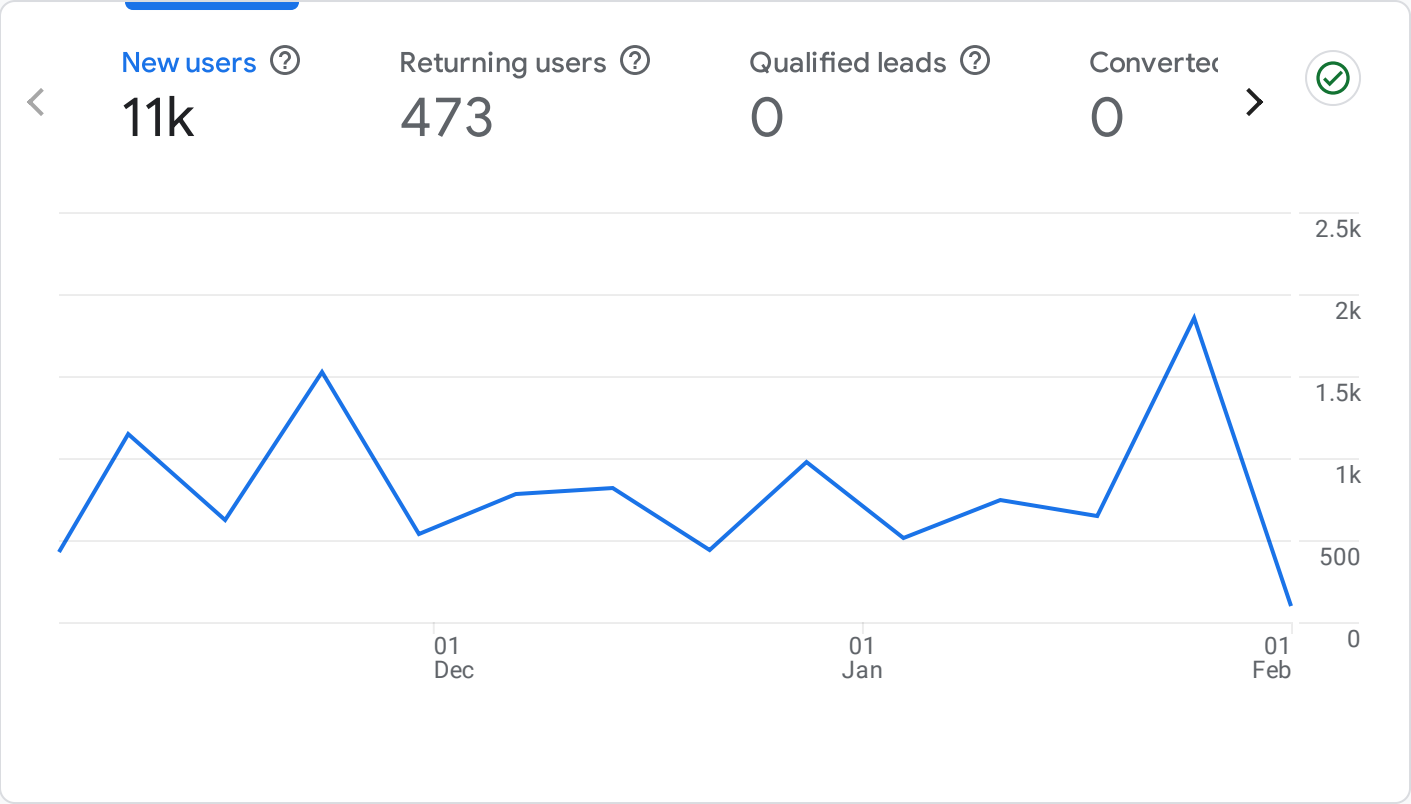

I started Google Analytics for the city website several months ago. I was hoping to be able to use the information to see how the website is currently being used to help improve engagement and future design of the website. I have pulled some reports and attached them so that you all can see them as well. These reports are from November 1st, 2025, through February 1st, 2026. I particularly enjoyed see what types of devices people are using to view the website, what pages, how long they are on a page, and what “events” or actions are being taken. It’s also interesting to see all the different places that view our site. On the events report it’s important to note that a scroll means that individual scrolled down to view at least 90% of the page. The clicks are when they used links within the site to view something. I would love to see this number decrease with the new site. I am new to Google Analytics so if there is something in particular you would like to see that I did not present please let me know.

Questions?

Respectfully Submitted,

Liesl Barker, City Clerk

- **Grants/Projects update:**

- Compost Facility

No Update – No other NOFO has been published yet. It is unclear whether there will be more funding for this program for other entities.

- DRC - Recycling Center

Update – After meeting to negotiate with one of the bidders, we are working through an updated proposal and hope to have a professional services agreement in place this week. Completed grant reports for this project. We will have had an update meeting with Region 10 project person before the General Meeting

- Good River Bridge Repair and Embankment Stabilization Project

Update – We met again with Nikki Navio of the Denali Commission. She suggested that we not submit the supplemental request until we have the 100% design documents which will be in early May. That way we will have a better handle on costs. John Barry and I will be preparing this request with input from RESPEC.

- PIDP – Dock/Floats Protection - MARAD funding

No Update – The grant has been submitted, and we are awaiting notification – one way or the other. We can still resubmit for 2026 pending notification.

[MARAD-250225-001 Updated PIDP Notice of Funding Opportunity | MARAD](#)

- FLAP – Federal Lands Access Program for the sidepath from Good River corner to the NPS Boundary

No Update – The application has been submitted and we are awaiting notification.

- Rural and Tribal Assistance Pilot Program (RTA) Application

No Update – Applications are still being reviewed. Nothing has been posted regarding a notification date.

<https://www.transportation.gov/buildamerica/RuralandTribalGrants>

- FEMA – AFG Water Tender

No Update – The contract has been signed. Extension is being requested for the period of performance.

- Septage Management

Update – We received the final 100 percent Engineering Report on Gustavus Septage Management improvements/alternatives. We are linking it for you to review and so it is publicly available via this report.

Link: [gst0001_20251230 ww septagemgmt_per-final_unsigned.pdf](#)

At some point we need to have a worksession or town hall on this issue, hopefully along with an ADEC representative. As part of ADEC's Capital Improvement Projects program process, at some point VSW would like to receive a resolution from the City indicating its disposition regarding the alternatives and recommendations in the PER. We as a City are going to have to have a serious conversation about whether or not to take on water/Wastewater authority – which is expensive.

John and I met with a representative from the Rural Community Assistance Corporation (RCAC) who I met at the AML Annual meeting in December. RCAC is a 501(c)(3) nonprofit organization. The RCAC provides environmental assistance to small municipal and nonprofit water systems, wastewater systems and solid waste management programs in 11 western states which includes Alaska. Here is a link to their services:

Link: [Rural Water and Waste Disposal Programs & Assistance - RCAC](#)

- Safe Streets for All (SS4A)

Update –We are now engaging with AML for the next phase of the process. AML prepares reports, but we will need to input them.

- Thriving Communities Cohort

Update - This ongoing grant allows AML and ADOT&PF to work with us to identify community transportation needs and projects, help us prioritize them, and offer help in making those needs a reality. I sent out to Staff and Council our recently developed transportation-focused community workplan template and a couple of additional pertinent documents. So far the only input I have received is from Justin who has offered to help once we engage with AML in picking a contractor.

- **Strengthening Gateway Communities:** The NPS has reached out to schedule another meeting which will likely be scheduled for the end of February or early March. We are still waiting for an update from the NPS on the items discussed at the last meeting.
- A list of other tasks/items:
 - Worked with Department of Homeland Security and Emergency Management (DSHEM) to ascertain what the City needed to do in terms of the disaster declaration. Among other tasks, I submitted the initial forms needed to apply for disaster public assistance related to damages incurred by the Southeast Winter Storm. I am awaiting them to schedule an Applicants Brief with us.
 - Worked on more logistical support surrounding the storm/snow event including contacting various agencies to be able to obtain the DOT Case loader to help with snow removal. It was a team effort but finally got approved for short term use. This event took up a lot of staff resources.
 - Assisted Red Cross who called about certain verifications from applicants.
 - Participated regularly in scheduled Infrastructure Office Hours and other related meetings and seminars, including community engagement, grant/project updates and our Thriving Communities cohort.
 - Various HR items, including updating Job Descriptions and meeting on a performance evaluation.
 - Provided an update and documents on select projects for the CIP and CAPSIS
 - Participated in a BABA Webinar (Build America, Buy America Act) – BABA requires that all iron, steel, manufactured products, and construction materials used in U.S. federally funded infrastructure projects must be produced domestically, meaning all manufacturing processes, including component sourcing, happen in the U.S. – A complex provision for many projects.
- Council Questions or Comments?

**CITY OF GUSTAVUS, ALASKA
ORDINANCE FY26-12NCO**

**AN ORDINANCE FOR THE CITY OF GUSTAVUS PROVIDING FOR THE AMENDMENT OF
THE CITY HELD ACCOUNTS IN FISCAL YEAR 2026 – CLOSING OUT CAPTIAL PROJECT

Section 2. For the Fiscal Year of 2026, the following City held account balance transfers are to be made for the reasons stated.

Section 3. For the current fiscal year, City held accounts are amended to reflect the changes as follows:

CITY HELD ACCOUNTS	Amounts		Amended Balance	Change
	Account Balance*			
	*Approximate, this is a dynamic value			
CP24-02 Same Old Road Drainage <i>Transferring funds and closing out CP24-02</i>	\$ 69,003.00	\$ 0.00	\$ 69,003.00	
AMLIP Capital Improv Long-Term <i>This transfer will move funds from FNBA Checking to Capital Project Long Term.</i>	\$ 685,027.83	\$ 754,030.83	\$ 69,003.00	
Total Change in City Held Account Balances			\$ 0.00	

Section 4. The City held accounts are hereby amended as indicated.

Section 5. Effective Date. This ordinance becomes effective upon its adoption by the Gustavus City Council.

DATE INTRODUCED: January 19, 2026

DATE OF PUBLIC HEARING: February 9, 2026

PASSED and **APPROVED** by the Gustavus City Council this XX day of _____, 2026.

Sally A McLaughlin, Mayor

Attest: Ben Sadler, City Treasurer

Attest: Liesl M. Barker, City Clerk

City of Gustavus, Alaska
Gustavus Volunteer Fire Department (GVFD)
Position Description

Title: Fire Chief

Position: Exempt Regular Part-time Position (.75 FTE)

The Fire Chief position is an exempt, part-time position (.75 FTE). The Chief is expected to work the equivalent of approximately 30 hours per week, but with flexible hours to provide emergency response and as mutually determined with supervisor.

Supervisor: City Administrator

Supervises: Volunteer Assistant Chief, Fire Captain, Lead Dispatcher, and department volunteer fire responders. Collaborates with EMS Coordinator on scheduling and training for EMS volunteers.

Summary: The Fire Chief holds responsibility for most aspects of fire department operations, including fire suppression and prevention and rescue efforts, develops and coordinates updates to emergency management plans and hazardous materials response, provides local inspections and delivers community safety education. Maintains readiness of the department infrastructure,, equipment and tools. Coordinates fire drills and fire trainings with input from volunteers. Regularly collaborates with the EMS Coordinator to help recruit GVFD volunteers, develop and implement EMS protocols and policies, and cooperates with other agencies for EMS fire response. Builds and maintains positive relationships with the community, other agencies and stakeholders.

Essential Duties and Responsibilities:

Fire Chief is accountable for the following essential duties, but the Chief may delegate duties to department volunteers.

- Plans, coordinates, supervises and evaluates department operations for fire and emergency management.
- Recruits, provides training opportunities, and directs the activities of volunteer firefighters to ensure that trained firefighters are available in the event of a fire.
- Serves as an effective leader of the department volunteer responders through a shared understanding of the role of the GVFD and its volunteers as an essential function within the City of Gustavus.
- Manages department administrative functions including inventories, maintenance records, training records, agency reporting, run sheets, ambulance billing, and HIPAA compliance assurance.
- Responds to emergency calls: Coordinates department resources for a proper and timely response. Is prepared to take the role of incident commander at major incidents.
- Ensures effective command and control techniques are in place at the scene of the fire.
- Assigns equipment and personnel for response to calls for outside aid where mutual aid agreements are in force and in other cases only when the absence of such equipment and personnel will not compromise the City's ability to provide fire protection and emergency medical services within the City of Gustavus.

- Responsible for maintaining fire department facilities and keeping equipment in a clean, organized, safe, and ready condition. Conducts or coordinates maintenance and inspections of response vehicles, equipment, turnout gear and station facilities to assure response readiness within approved budget. Maintains data for maintenance logs.
- Plans departmental operations along with EMS Coordinator with respect to equipment, apparatus, supplies, company assignments, personnel, and safety requirements. Supervises the implementation of such plans.
- Negotiates fire service contracts and mutual aid agreements as appropriate.
- Develops, maintains, and enforces department operating procedures governing training, maintenance, and operation of the GVFD.
- Organizes regular fire drills or training sessions scheduled on a regular basis. Collaborates with EMS Coordinator for EMS drills and trainings or joint trainings where applicable
- Coordinates with private, state, and federal training officers for the additional training of department personnel. With the EMS Coordinator, maintains training records for responders.
- Prepares, in consultation with the EMS Coordinator, City Administrator, Treasurer and Mayor, the draft GVFD annual budget, including operational and capital requirements.
- Plans and oversees fire facility improvements within budget approved by City Council and makes recommendations for new or replacement facilities and equipment.
- Serves as GVFD purchasing agent. Controls departmental expenditures within Council-approved budget appropriations, in accordance with the City's purchasing policies and procedures and direction from the City Treasurer.
- Maintains necessary records and other controls over all response gear such as inventories, maintenance records, maps etc.
- Conducts community outreach for fire prevention, emergency preparedness, pre-fire planning, fire extinguisher, first aid, and CPR training.
- Participates in community service programs and public relations efforts, such as assisting with community events, parades, 4th of July BBQ, and other activities.
- Collaborates with the EMS Coordinator when they arrange for the services of a medical director to provide for safety, effectiveness, and legal compliance in responses to medical emergencies.
- Prepares and submits a quarterly report of GVFD activities to the City Council. Prepares and submits other GVFD reports as requested by the Council.
- Meets with elected or appointed officials, other Fire/EMS officials, community and business representatives and the public regarding GVFD activities. Serves as the City representative with the National Park Service at Bartlett Cove regarding Fire protection and response.
- Assists the State Fire Marshal and other authorities in the investigation of causes and origins of fires within City limits. Enforces applicable State fire protection and prevention regulations within the City as directed by State Fire Marshal and authorized by State law.
- Attends training, conferences, and meetings subject to approval and budget to remain current on regulations, standards, and best practices.
- Develops and submits grant applications, in compliance with City policies and procedures to support departmental operations, facility improvements and equipment purchases.

- Communications:
 - Sufficient clarity of speech and hearing, which permits the employee to communicate effectively
 - Contributes successfully to discussions and meetings
 - Fosters open channels of communication
 - Communicates in a manner that is appropriate while representing the department and the City
 - Conveys information via clear and concise spoken communications and/or legible directions/information, particularly in radio communications and incident protocols
 - Is readily available for discussion, debriefs, and encourages open communication among responders, dispatchers and others
- Other job-related duties as assigned and agreed

Required Minimum Qualifications

- Graduation from high school or GED equivalent
- State Firefighter 1 certification
- EMT 1 or higher certification
- EMT-2 Certification or obtain the certification prior to one year anniversary of hire
- General work experience or certifications involving leading, managing, training, and supervising workers or volunteers.
- This position requires recruiting/selection, training, financial and supervisory skills as evidenced by experience and performance in an all-volunteer or combination emergency response or similar system
- Twenty-five years of age or older at time of hire.
- Possess or be able to obtain within 2 months of hire, a valid **State of Alaska** Driver's License. (Commercial Driver's License preferred)

Desired Qualifications

- Other higher level or advanced EMS certifications
- Enrolled in or completed the National Fire Academy's Executive Fire Officer Program
- Advanced Firefighter/Fire Officer certifications
- Additional ICS and Hazardous Materials Operations credentials (not already included as part of FF1 certification)
- Advanced college-level training - certificate or degree (i.e., AS in Fire Sciences or BS in Fire Management/Administration)
- Prior work experience of a progressively responsible nature providing for and/or managing firefighting and prevention, and/or emergency medical services, and/or hazardous material response including supervisory duties.

- Ability to meet physical demands of emergency response activities in the Southeastern Alaskan environment.
- Teaching experience with the ability to plan and conduct training for Fire, EMS, SAR and other emergency management operations
- Experience in mitigation, preparedness, response, and recovery from natural and human-caused disasters and involvement in plan development for emergency response – such as a Hazard Mitigation Plan (HMP)

Other Job Requirements and Expectations:

- Maintain EMT I or higher certifications in the State of Alaska on an ongoing basis
- Maintain Firefighter certifications while employed with the department
- Possession of a current valid driver's license issued by the State of Alaska
- Must be available to be on-call 24/7 unless on an approved absence
- Must use appropriate Personal Protection Equipment ("PPE")
- Must remain physically fit and able to perform the physical requirements of a firefighter or EMT
- Attendance at relevant committee and commission meetings as well as Council meetings which may occur after regular work hours

Knowledge, Skills, and Abilities:

Position requires familiarity with municipal government structure, roles, and processes, plus knowledge, skills, and abilities in:

- Modern fire suppression, prevention, and emergency medical services principles, including procedures, techniques, and equipment.
- Identifying and applying laws, ordinances, departmental standard operating procedures and regulations necessary and appropriate to the provision of fire suppression, prevention, and emergency medical services.
- Recruiting, training, and leading volunteer fire fighters and EMS responders in a small-town department
- Using tools and equipment needed for operation and maintenance of GVFD response equipment.
- Effective written communications skills including the ability to prepare reports, business documents and correspondence, using office productivity software and customized software for medical services operations.
- Clear and effective public relations and public speaking skills
- Exercising sound judgment in evaluating situations and in making decisions.
- Establishing and maintaining effective working relationships with Department volunteers, other City employees, the Council, supervisors, and the public.

**Physical Demands:**

The physical demands described here are representative of those the position is expected to encounter. (May be required to undergo regulatorily mandated medical exams.)

- Must frequently lift and/or move objects weighing up to 20 pounds, and occasionally up to 70 pounds.
- Will have to carry heavy firefighting equipment while climbing ladders and going through buildings.
- Vision requirements for this job include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.
- Must hear well enough to discern oral and radio communications in a noisy emergency response environment.
- Will be required to don, and perform work in, personal protective equipment including fire turn-out gear, self-contained breathing apparatus, air-purifying respirator, eye protection, and hearing protection.

Work Environment Conditions:

The work environment conditions described here are representative of those the position is expected to encounter while performing the essential job functions. The work is performed in the fire hall office, in public meetings, on the apparatus floor, in vehicles, and in outdoor settings, under all weather conditions, including temperature extremes, during day and night, and in emergency and stressful situations. The work may involve physical draining and exhausting activities, which may include taking command of a fire scene, participating in emergency response situations and being involved in physically dangerous situations.

They may additionally be exposed to the following work conditions and hazards:

- Working outside in cold and/or wet or other inclement weather
- Fire and explosion hazards
- Airborne inhalation hazards including toxic smoke, gasses, vapors, dusts, mists, and fumes
- Hazardous liquids such as petroleum products and toxic household or light industrial materials
- Hazardous physical agents such as electric shock, noise (which may exceed 100 dBA for brief periods), vibrations of handheld equipment, and heavy work in ergonomically awkward positions
- Hazardous biological agents such as blood-borne pathogens

Tools and Equipment Used:

Emergency medical vehicles and equipment, EMS supplies, fire apparatus, fire pumps, hoses, and other standard firefighting equipment, ladders, emergency medical equipment, radio, pager, 911 communication system, computers, e-mail, phone, and facsimile.

**Notice**

CoG 3.03.010(a) (3) (B)

All positions are located within the City of Gustavus, and all work will be conducted in the City of Gustavus, unless the employee is on an authorized business or training trip or is authorized to conduct business while on approved absence.

CoG 3.04.02 (d) (2) (B)

The examples of duties and responsibilities included in this position description are intended only as illustrations of the various types of work typically performed. The omission of specific statements of duties and responsibilities does not exclude them from the position if the work is similar, related or a logical assignment to the position.

This position description does not constitute an employment agreement between the City of Gustavus and an applicant for the position or an employee holding the position. The position description is subject to change by the City of Gustavus, in its sole discretion, as the needs of the City and requirements of the position change.

The City of Gustavus is an Equal Opportunity Employer

Friday 04:00 PM - 09:00 PM

Attestations

As an applicant for a liquor license renewal, I declare under penalty of perjury that I have read and am familiar with AS 04 and 3 AAC 305, and that this application, including all accompanying schedules and statements, are true, correct, and complete.

I agree to provide all information required by the Alcoholic Beverage Control Board or requested by AMCO staff in support of this application and understand that failure to do so by any deadline given to me by AMCO staff will result in this application being returned and the license being potentially expired if I do not comply with statutory or regulatory requirements.

I certify that in accordance with AS 04.11.450, no one other than the licensee(s), as defined in AS 04.11.260, has a direct or indirect financial interest in the licensed business.

I certify that this entity is in good standing with Corporations, Business and Professional Licensing (CBPL) and that all entity officials and stakeholders are current and I have provided AMCO with all required changes of the ownership structure of the business license and have provided all required documents for any new or changes of officers.

I certify that all licensees, agents, and employees who sell or serve alcoholic beverages or check identification of patrons have completed an alcohol server education course approved by the ABC Board and keep current, valid copies of their course completion cards on the licensed premises during all working hours, if applicable for this license type as set forth in AS 04.21.025 and 3 AAC 305.700.

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

☒ License Renewal Application

☐ Endorsement Renewal Application

Dear Licensee:

Our staff has reviewed your application after receiving your application and the required fees. Your renewal documents appear to be in order, and I have determined that your application is complete for purposes of AS 04.11.510, and AS 04.11.520.

Your application is now considered complete and will be sent electronically to the local governing body(s), your community council if your proposed premises are in Anchorage or certain locations in the Matanuska-Susitna Borough, and to any non-profit agencies who have requested notification of applications. The local governing body(s) will have 60 days to protest the renewal of your license.

Your application will be scheduled for the **April 14th, 2026** board meeting for Alcoholic Beverage Control Board consideration. The address and call-in number for the meeting will be posted on our home page. The board will not grant or deny your application at the meeting unless your local government waives its right to

protest per AS 04.11.480(a). Information about this board meeting can be found on our website closer to the date of the board meeting. [Home, Alcohol & Marijuana Control Office](#)

Please feel free to contact us through the Alcohol.licensing@alaska.gov email address if you have any questions.

Dear Local Government:

We have received completed renewal applications for the above-listed licenses within your jurisdiction. This is the notice required under AS 04.11.480. A local governing body may protest the issuance, renewal, relocation, or transfer to another person of a license with one or more endorsements, or issuance of an endorsement by sending the director and the applicant a protest and the reasons for the protest in a clear and concise statement within 60 days of the date of the notice of filing of the application. A protest received after the 60-day period may not be accepted by the board, and no event may a protest cause the board to reconsider an approved renewal, relocation, or transfer.

To protest any application(s) referenced above, please submit your written protest for each within 60 days to AMCO and provide proof of service upon the applicant and proof that the applicant has had a reasonable opportunity to defend the application before the meeting of the local governing body. If you have any questions, please email amco.localgovernmentonly@alaska.gov.

Sincerely,
Reece Parks, Licensing Examiner II

Kevin Richard, Director

Project Planning: Attachment A
City of Gustavus
PROJECT DEVELOPMENT SHORT FORM

Item #12.

Project Eligibility: All projects may start with a Project Development Short Form. More complex projects will require the Project Development Long Form. Complex projects include those with a multi-phase, multi-year planning and implementation process, significant funding requirement, and/or broad impact.

Does the proposed project represent a complex project? YES ☐ NO ☒

If no, please fill out the additional Project Budget section of this form.

Will the proposed project result in a fixed asset (e.g., land, major equipment, building or other structure, road or trail) with an anticipated life of at least two years? YES ☒ NO ☐

Will the project provide broad community benefit? YES ☒ NO ☐

If you answered yes to any of the above questions, please provide the following additional information.

1. Project title: **Heavy Equipment Procurement - CAT 950 Wheel Loader with Forks and Snowplow Attachment**

Project description and benefit. Describe the project in half a page or less, including specific features /affected parties?

The City of Gustavus requires an adequately sized, versatile wheel loader to protect, manage, and maintain local assets, most importantly our almost 24 miles of gravel roads, parking lots, and includes other operational needs such as at the DRC and gravel pit, that undersized equipment cannot handle.

Extremely outdated, in some cases undersized, and unreliable private equipment results in high rental costs, equipment downtime, additional contractual costs, causes delays in emergency responses, and puts critical infrastructure and public assets at risk. Enhanced capability is needed for emergency cleanup, snow removal, and securing areas, thereby protecting public safety and reducing liability and must be a priority for the City.

Acquisition of a new machine to successfully execute winter and supplementary road and drainage maintenance activities and assisting with other city operations, without disruption of services, will enhance risk mitigation, provide for operational proficiency, and provide long-term cost savings. Investing in this loader is an initiative-taking, necessary measure to protect local assets from deterioration and damage. It will provide a return on investment through improved operational efficiency, and improved response times to emergencies.

Specifications attached.

2. Plans and progress. Describe in one or two paragraphs what has been accomplished so far (if anything). This may include feasibility study, conceptual design, final design/engineering/permitting, fundraising activity, and total funds raised to date. **Quote has been obtained from Juneau, Alaska branch of NC Machinery using Sourcewell, which applies a significant municipal discount.**

This was discussed at 1/26/2026 City Council Work Session and agreed it should be part of the CIP and a priority to include in CAPSIS.

3. Project cost:

A. TOTAL COST (including funds already secured) = \$ 538,530.00

B. For construction projects, break out preconstruction costs (feasibility/design/permitting):

Preconstruction costs = \$ _____ Construction costs = \$ _____

4. Timeline: Indicate when you hope to complete each phase of the project. **Equipment delivered and in place by 10/15/2026**

A. For projects that consist of land or equipment purchase only, state when the purchase would be made: **Approximately 6 months prior to delivery (lead time for manufacturing)**

For construction projects:

B. Preconstruction phase to be completed by N/A

C. Construction phase to be completed by N/A

5. Provide a quality digitized photo, drawing, map, or other graphic image of your project if possible.

6. Date and name of person submitting form. **1/27/2026 Kenneth J. Marchbanks**

**CITY OF GUSTAVUS, ALASKA
RESOLUTION CY26-XX**

**A RESOLUTION BY THE CITY OF GUSTAVUS APPROVING THE SUBMISSION OF CAPITAL
IMPROVEMENT FUNDING REQUESTS**

WHEREAS, the City of Gustavus does not have a Public Works Department and therefore issues RFP's to contract with local businesses to maintain its 24 miles of gravel roads, city facilities access, and parking. Local contractors are limited to an undersized and severely aged equipment fleet in our remote community that is engaged in everything from gravel extraction and road/drainage maintenance, to snowplowing and snow removal. And since this equipment was found to be inadequate to perform the task of removing the extreme quantities of snow in an acceptable and safe manner during the recent December 25/January 26 record setting snow event, the City of Gustavus determined that in order to protect, manage and maintain local assets, thereby protecting public safety and reducing liability, it needs a piece of heavy equipment, when locally owned equipment is unavailable or inadequate. The City would also be able to utilize a large loader to help assist with our ever limited gravel pit extraction processes, as well as at our landfill and boat harbor for routine operations currently being accomplished with older undersized equipment; (or not at all) and,

WHEREAS, Glen's Ditch is the primary drainage route on the west side of Gustavus Airport, Wilson Road and Glen's Ditch Road. It was platted as a State DOT&PF-maintained drainage easement and constructed five decades ago to drain the airport ponds. DOT&PF has declined to clean it from Gustavus Road south claiming the drainage easement has expired. Because Glen's Ditch runs along a City road, it falls to the City of Gustavus to maintain and upgrade it to prevent flooding of critical airport lands and City roads. It is badly restricted by vegetation and requires cleaning and replacement of culverts to accommodate the increasing flow needs from heavier storms occurring. The City proposes to replace two culverts with simple "flat rack" bridges to prevent future restrictions due to isostatic rebound. The project will require engineering design and specifications by a consultant; and,

NOW, THEREFORE, BE IT RESOLVED, that the Gustavus City Council approves and prioritizes the following FY26 Capital Improvement Project (CIP) funding requests to the Alaska Legislature in the amounts indicated below and urges the Legislature and Governor to consider them favorably.

- | | |
|---|--------------|
| 1. Heavy Equipment Procurement – CAT950 Loader w/ Attachments | \$538,530.00 |
| 2. Glen's Ditch Cleaning & Culvert Replacement | \$100,000.00 |

PASSED and **APPROVED** by a duly constituted quorum of the Gustavus City Council, this __th day of _____, 2026, and effective upon adoption.

Sally A. McLaughlin, Mayor

Attest: Liesl M. Barker, City Clerk

**CITY OF GUSTAVUS, ALASKA
ORDINANCE FY26-13NCO**

**AN ORDINANCE FOR THE CITY OF GUSTAVUS PROVIDING FOR THE AMENDMENT OF
THE CITY HELD ACCOUNTS IN FISCAL YEAR 2026 –
CLOSING CAPITAL PROJECT CP19-06 DRC COMPOSTING FACILITY**

BE IT ENACTED BY THE GUSTAVUS CITY COUNCIL AS FOLLOWS:

Section 1. Classification. This is a **Non-Code Ordinance**

Section 2. For the Fiscal Year of 2026, the following City held account balance transfers are to be made for the reasons stated.

Section 3. For the current fiscal year, City held accounts are amended to reflect the changes as follows:

CITY HELD ACCOUNTS	Amounts		Amended Balance	Change
	Account Balance*			
	*Approximate, this is a dynamic value			
CP19-06 DRC Composting Facility <i>Transferring funds and closing out CP19-06</i>	\$ 66,645.85	\$ 0.00	\$ 66,645.85	
AMLIP Capital Improv Long-Term <i>This transfer will move funds from AMLIP Capital Current to Capital Improvements Long Term.</i>	\$ 692,626.70	\$ 759,272.55	\$ 66,645.85	
Total Change in City Held Account Balances			\$ 0.00	

Section 4. The City held accounts are hereby amended as indicated.

Section 5. Effective Date. This ordinance becomes effective upon its adoption by the Gustavus City Council.

DATE INTRODUCED: February 09, 2026

DATE OF PUBLIC HEARING: March 09, 2026

PASSED and **APPROVED** by the Gustavus City Council this XX day of _____, 2026.

Sally A McLaughlin, Mayor

Attest: Ben Sadler, City Treasurer

Attest: Liesl M Barker, City Clerk

CITY OF GUSTAVUS, ALASKA POLICIES AND PROCEDURES

POLICY AND PROCEDURE FOR APPLYING FOR AND AWARDING GRANTS FROM THE ENDOWMENT FUND EARNINGS SECTION II

POLICY:

The goal of Endowment Fund grants is to improve the quality of life for Gustavus residents and to help realize the goals expressed in the city's Vision Statement by encouraging and supporting citizen led, community-based projects. Priority for Endowment Fund grant awards shall be given to qualifying projects conducted by Gustavus-based groups or individuals. City department proposals for projects that are outside those functions authorized for the city through code ordinance (in accordance with Ordinance Title, Section 4.13.110 and 4.13.1200) shall have higher priority than those for code authorized functions. Priority may also be given to projects for which the Fund grant may be leveraged to match grants from outside agencies. Fund grants shall not be made to for-profit enterprises, although a non-profit organization may contract with a for-profit business for services, such as construction, in support of the Endowment funded project.

The Mayor shall ensure that the steps outlined in this procedure are completed and documented.

PROCEDURE:

1. Eligibility for Award. Grants may be awarded to city departments, local non-governmental organizations or other local entities. To be eligible, the applicants:
 - a. Must be a local, domiciled resident(s) of Gustavus
 - b. Must not be delinquent on any City taxes, forms or payments
 - c. At least one (1) of the project's administrators must be at least eighteen (18) years of age.
 - d. Must be proposing a specific local project that benefits the community of Gustavus.
 - e. **Must submit their request using the attached application form.**
 - f. Grant funds shall not be awarded for operating expenses of the City or other organizations.
 - f. Grant Funds shall not be awarded to for-profit enterprises although a non-profit organization may contract with a for-profit for services.
 - g. Projects must be completed by the end of the next calendar year (unless an extension is granted) and applicants may not receive an Endowment Fund Grant (EFG) for more than three (3) consecutive funding cycles.
2. Grant Application Preliminary Review. Applicants interested in a preliminary review shall submit their application to City Hall by September 30th. By October 14th the City Treasurer and City Administrator will determine if the

applicants have met the criteria outlined in the grant application packet. If not, the application will be returned with suggestions, and the applicant will have the opportunity to correct and resubmit the application. All reviewed applications will be available for pickup at City Hall when the applicant is notified by the City Treasurer.

All applications are due by October 31st.

3. ~~EFG Special Advisory Committee~~ (EFGC) **Scoring Panel** will be established at the September General Meeting; appointments to the committee will be made at the October General Meeting.
 - a. The ~~EFGC~~ **Scoring Panel** will consist of the City Treasurer, serving in an advisory capacity only; and
 - b. A minimum of three (3) and maximum of seven (7) Gustavus community members, who have applied to the City, have been nominated by the Mayor and approved by the City Council.
 - c. No member of the ~~EFGC~~ **Scoring Panel** shall apply for the grant **or be affiliated with any organization that is an applicant** in the same year they are serving on the ~~EFGC~~ **Scoring Panel**.

Following the appointment of the ~~committee~~ panel members, the ~~EFGC~~ Treasurer will set a date for a ~~special work session where~~ **meeting at which** applicants with qualifying applications will be invited to give a five (5) minute presentation in person or virtually and answer any questions about their project. Applicants who are unable to attend due to special circumstances may request a separate meeting with the committee to present their project.

4. Proposals will be scored by the ~~EFGC~~ **Scoring Panel** based on the criteria outlined in the Application packet: Before meeting, the ~~EFGC~~ **Scoring Panel** will receive notification of the total amount of funds available for distribution, a copy of each application, and the scoring criteria. The average of the ~~EFGC~~ **Scoring Panel** members total scores will be used as the application's final score. Applications must receive a minimum average of 50 points in this process to be considered for award. **The Scoring Panel may make partial awards, i.e. if the total funds requested exceed the total funds available or if the Panel determines that only a portion of the application meets criteria. The Treasurer/Advisor may provide guidance on making partial awards, if necessary.**
5. Grant Awards. Endowment Fund Grants will be awarded at the General Meeting in December. If the Council wishes to amend the recommendations of the ~~EFGC~~ **Scoring Panel** they must consider each award using the same scoring criteria used by the ~~EFGC~~ **Scoring Panel**. Each recommended award will be voted on by the Council.
6. If the City does not receive any qualifying applications or none are recommended by the ~~EFGC~~ **Scoring Panel** or awarded by the Council, the annual grant funds shall be carried forward to the next funding cycle.

7. Award Notices. Grantees shall be notified of their award within one week after the General Meeting in December. The notification will include directions for receiving payments, reporting requirements, and a reminder of the one-year deadline for the grant to be completed. Letters will be sent to unsuccessful grant applicants notifying them of award decisions and thanking them for their applications.
8. Payments. Payments for grant projects will be disbursed from the Endowment Fund checking account to the grantee, or directly to a third party, with proof of expenses for reimbursement or advance payment. Payments shall be made within two (2) weeks of an approved request. The Treasurer may approve advance payments in special circumstances. The last 10% of the grant shall not be paid until a final report has been accepted, unless the Treasurer has granted an exception.
9. Monthly and Final Reports. The grantee shall complete and submit a monthly progress report by the last day of each month until the final report is submitted. Reports shall include progress and expenditures for the previous month. The final report shall include a narrative of the project, copies of any materials or pictures the project team wants to share, the number of people served by the project or its various elements, and a description of the project's outcomes. This report will be shared with the public.
10. Modifications. Minor grant modifications that do not alter the goal of the project or cause expenses to exceed the awarded total will be considered. All modifications should be submitted to the City Administrator. If a monetary modification is less than or equal to five (5) percent of the total grant award, the City Treasurer can determine whether to make the modification after consultation with the City Administrator and Mayor. If the modification request is greater than five (5) percent of the granted amount, Council action is necessary. Non-monetary modifications shall be considered on a case-by-case basis and shall be handled by the City Administrator in consultation with the Mayor.
11. Unused Granted Funds. Any unused funds from a closed grant or completed shall be retained in the fund grant checking account if under one thousand dollars (\$1,000) or returned to the Endowment Fund account if over one thousand dollars (\$1,000) and re-designated as available for future award.
12. ~~EFG Special Advisory Committee~~ **Scoring Panel** Continuity. To ensure continuity, at the ~~Committee~~ **Panel's** last meeting, ~~EFGC~~ members will recommend one or more of its members to apply to serve on next year's Group.
13. Definitions for P&P for Awarding Endowment Fund Grants
- Capital Outlay - money spent to acquire or upgrade the long-term assets of a project, which are defined as assets that are not intended to be sold. Capital outlays are expected to provide benefits beyond an accounting period
- Conflict of Interest - refers to a situation where an individual's financial interests could potentially compromise their objectivity or integrity in a particular decision

or situation, or a situation in which a person is in a position to derive substantial financial benefit from actions or decisions made in their official capacity

Funding Cycles - a funding cycle incorporates the application process, grant awards process and the completed grant project report

Entity - a person, city department, non-profit group, or ad hoc community group.

Expenditures - An expenditure is any payment or cost incurred for goods or services. Examples could include paying for materials, buying supplies, or purchasing a new item necessary for the success of the project.

Operating Expenses - the funds a project needs in order to run the daily operations, distinct from the costs directly tied to producing goods or services. These expenses include items like rent, utilities, salaries, marketing and insurance. Essentially, they are the costs needed to keep the business running.

Operating Funds - refers to the financial resources allocated for the ongoing day-to-day operations of an organization, whether it's a business, nonprofit, or government entity.

Resident – a local, domiciled resident

Scoring Criteria – numerically weighted values used to determine the quality of evidence on the three areas described on the Endowment Grant application; Project Description, Project Goals and Objectives and Budget

Scoping Document - a project statement that defines what will be included and/or excluded for a project and the predicted timeline of that project.

Scoring Guide - a document that includes rows of specific criteria that carries a quantity of points and/or is used to make decisions to award grant funds

Specific – a clearly defined or identified project

Gustavus Vision Statement

We envision a distinctive community...

- that prospers while, and by, protecting its natural resources,
- with a sustainable economy and infrastructure that assures public health and safety and promotes personal development and initiative,
- where all members take social responsibility and actively participate in decisions affecting growth development, regulation and enforcement,
- in which people can retain a closeness with, and caring for, each other individually and collectively, and work together to accomplish community goals while preserving community traditions.

Sally A. McLaughlin, Mayor

Date

Mayor's Monthly Report

February 2026

Xunaa Borough: *No new updates to report, but I am leaving last month's here in case anyone missed it.* An Appellant's Opening Brief was filed in Alaska Superior Court on December 19, 2025. There will now be time for both Hoonah and the LBC to file response briefs and then the communities can respond to those. Hoonah has filed a Notice of Routine Extension and was granted a new due date of February 27, 2026; the due date to file our response is March 19, 2026. The next step will be oral arguments in Court and then the Court has up to six months to make their decision.

Welcome Back, Liesl! We missed our marvelous Clerk while she was on extended leave. As Acting "Deputy Junior" Clerk, Morgan did an outstanding job filling in for Liesl, but we are happy to have Liesl back at her post and cleaning up the messes we made in her absence. City Hall is now fully staffed again with Kathy back as well.

Staff Meeting: The January staff meeting took place on January 14th; departments reported on the following regarding the snow event: *What was your biggest challenge? What went well? What losses did your department suffer? What can you or the City do to be better prepared in the future?* This was a good discussion, and notes were taken which can be used in future planning efforts. I'm pleased to report that good communication was mentioned by all departments.

Kudos to the Conservation Lands Advisory Committee! Committee members are dedicated and committed to their task. The display they arranged for the Gateway Gallery at the GCC was very well done, informative and professional looking. Unfortunately, after all their hard work to hang the maps and information during the heavy snow and lousy road conditions, they had to postpone their opening reception until three weeks later. I hope that many people took the time to look at the maps and familiarize themselves with the many parcels of public lands in Gustavus, and to admire the work of the committee members.

Other: It was a full schedule for meetings this month; re-scheduled regular meetings backed up to our Capital Improvement Plan Work Session which was then immediately followed by our February regular meetings.

Additionally, I spent time this past month on:

- Mugs & Matters at the Fireweed, Fridays at 11
- Met with Vice Mayor Beck prior to his departure for vacation
- Met with the City Administrator for a 6-month review regarding the ¾ time status of her position
- Regular Friday meetings with the City Administrator
- Worked on amendments to the Endowment Fund Policy & Procedure

- Developed a draft Policy & Procedure for city travel to review with staff this month
- Worked with Ben to schedule upcoming budget-related meetings
- Met with Liesl to discuss Policy Updates and Ordinance Review
- Met with Liesl, Morgan and Kathy to review the status of the new website
- Had a couple of conversations with Pelican Mayor, Barry Bryant
- Worked with the US Census worker in town to assist in assessing vacant properties
- Attended the CLAC Opening Reception at the GCC on January 30th

As always, community members, council members and city staff are encouraged to contact me if you have concerns or want to share thoughts or ideas.

Or join me at the Fireweed, Fridays at 11!

Sally McLaughlin, Mayor
