**LAND LEASE AND EASEMENT AGREEMENT**

THIS LAND LEASE AND EASEMENT AGREEMENT (the "Agreement") is made, dated and effective as of the \_\_\_\_ day of \_\_\_\_\_, 2025, (the "Effective Date"), between the TOWN OF HALFMOON, a municipal subdivision of the State of New York (together with its transferees, successors and assigns, as ("Owner"), and GREEN COMMUNITY DEVELOPMENT LLC, a New York limited liability company (together with its transferees, successors and assigns, ("Grantee"), and in connection herewith, Owner and Grantee agree, covenant and contract as set forth in this Agreement. Owner and Grantee are sometimes referred to in this Agreement as a "Party" or collectively as the "Parties".

1. Lease. For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by Owner and Grantee, upon the terms and conditions set forth in this Agreement, including the Payment Terms as set forth in Exhibit B, Owner hereby leases to Grantee, and Grantee hereby leases from Owner, a +/- twenty-five (25) acre portion of the 32.80 acres of real property including the air space thereon, located at 250 Lower Newtown Road, Town of Halfmoon, County of Saratoga, State of New York, and is identified as follows: Section Block Lot ("SBL") No. 279.-3-19.111, titled in the name of Town of Halfmoon by deed recorded in the Saratoga County Clerk's Office in Book 1355 of Deeds at page 387, which is more particularly described in Exhibit A-1 attached hereto and incorporated herein (the "Property"), and which leased portion consists of approximately twenty-five (25) acres and is described in Exhibit A-2 attached hereto and incorporated herein (the "Leased Premises"), and which Leased Premises and Exhibit A-2 shall be more particularly described pursuant to Section 4.1 below.

1.1 Purposes of the Lease. This Agreement is solely and exclusively for Solar Energy purposes (as such term is defined below) and not for any other purpose, and Grantee shall have the exclusive right to develop and use the Property for Solar Energy purposes and to derive all profits therefrom, including but not limited to the following activities (collectively, "Site Activities"):

(a) Converting solar radiation emitted from the sun ("Solar Energy") into electrical energy, and collecting and transmitting the electrical energy so converted;

(b) Determining the feasibility of Solar Energy conversion and a related substation on the Property or on adjacent lands, including studies of Solar Energy emitted upon, over and across the Property and other meteorological data, environmental studies and extracting soil samples;

(c) Constructing, laying down, installing, using, replacing, relocating, reconstructing and removing from time to time, and monitoring, maintaining, repairing and operating the following improvements for the benefit of the Project or Projects (as defined below) (i) Solar Energy collection and electrical generating equipment of all types including, without limitation, any such equipment utilizing photovoltaic and/or solar thermal technology (collectively, "Solar Generating Equipment"); (ii) overhead and underground electrical distribution, collection, transmission and communications lines or cables, electric combiners, inverters, transformers and substations, energy storage facilities, and telecommunications equipment; (iii) roads and crane pads; (iv) meteorological measurement equipment; (v) control buildings, operations and maintenance facilities and building; and (vi) installing, operating, maintaining, repairing and replacing any other improvements, whether accomplished by Grantee or a third party authorized by Grantee, that Grantee reasonably determines are necessary, useful or appropriate to accomplish any of the foregoing (all of the above, including the Solar Generating Equipment, collectively "Solar Facilities"). The term "Project" or collectively, "Projects", for the purposes of this Agreement, means an integrated Solar Energy generation system, consisting of Solar Facilities, that is constructed and operated on the Property, and/or adjacent lands, by Grantee, or a third party authorized by Grantee. Grantee may determine whether any group of Solar Facilities constitutes a single Project or

multiple Projects for purposes of this Agreement, and in the case of multiple Projects, which portion of the Property shall be included within each Project.

2. Grant of Easements.

2.1 Owner hereby grants, conveys and warrants to Grantee, and Grantee hereby accepts the following additional easements upon, over, across and under the Property for the purposes of the Project:

(a) Non-Obstruct. An exclusive easement to capture, use and convert the unobstructed flux of Solar Energy over and across the Property from all angles and from sunrise to sunset on the Property during each day of the Term;

(b) Operating Easement. An exclusive easement for all activities necessary to develop and operate the Project, including but not limited to, electromagnetic, audio, visual, view, light, noise, vibration, electrical, radio interference, or other effects attributable to the Solar Generating Equipment, the Project or any Site Activities;

(c) Access Easement. A non-exclusive easement for the benefit of the Project or Projects, exercising the right of ingress to and egress from the Project or Projects (whether located on the Property, on adjacent property or elsewhere) over and across the Property by means of roads and lanes thereon if existing or later constructed by Owner, or otherwise by such route or routes as Grantee may construct from time to time;

(d) Utility Easement. An easement to extend the Utility Lines (as hereinafter defined) to the Project from existing poles or other sources on the Property where necessary, and with the prior written approval of Owners, and to use such Utility Lines for its Project.

(e) Other Easements. All other easements reasonably necessary to accomplish the activities permitted by this Agreement, including but not limited to those activities described in Section 1.1.

3. [Reserved for Substation Property Option, if applicable]. Intentionally Omitted.

4. Term. The Term of this Agreement shall commence on the Effective Date and continue for the following describe periods (collectively, the "Term").

4.1. Development Term. The Agreement initial term (the "Development Term") shall commence upon the Effective Date and continue for up to three (3) years thereafter, in order to allow Grantee time to evaluate the Property suitability for the Project and to determine the feasibility of Solar Energy (as defined in Section 1.1), including in-depth site analysis, transmission, capacity, permitting constraints and a renewable energy sales agreement, and to allow Grantee time to complete development to secure the necessary permits for the Project on the Leased Premises (as defined below) and to identify and permit any supporting improvements for the utility interconnections for the Commercial Operation of the Project. During the Development Term, Grantee shall have the right to more particularly describe the Leased Premises upon identifying areas of the Property that Grantee reasonably determines cannot be developed with the Project due to physical and/or environmental conditions (including, without limitation, wetlands, soil and subsurface conditions or resources, slopes, bedrock outcroppings or physical or environmental conditions) and/or conditions or restrictions mandated by local, State, or federal governmental agencies (other than setbacks prescribed by applicable laws and/or codes ). The Leased Premises shall be the portion of the Property used for the Project, as set forth in an "ALTA Survey" for the Project. The Parties agree to add to Exhibit A-2 the legal descriptions of the Leased Premises and Easements

upon issuance of the ALTA Survey. During the Development Term, Grantee agrees to defend, indemnify and hold Owners harmless against any and all damages, claims and liabilities that may arise from Grantee's access to the Leased Premises or the Property and/or any tests and inspections conducted by Grantee hereon.

4.2 Extended Development Term. Intentionally omitted.

4.3 Construction Term. At any time prior to the expiration of the Development Term, Grantee may provide to Owner written notice of the date upon which it will proceed with the commencement of construction activities (the "Development Term Expiration"). The Construction Term (the "Construction Term") shall commence on the Development Term Expiration and continue for up to one (1) year. "Commencement of construction" and "commences construction" as used in this Agreement means the date on which Grantee begins construction on the Leased Premises for the Project, including site mobilization, procurement of equipment, construction of the buildings and facilities, testing and commissioning, together with all ancillary equipment and subsystems necessary to produce output of electricity and all supporting improvements and other interconnections for the Commercial Operation of the Project.

4.4 Operation Term. Provided that Grantee has not fully surrendered or terminated this Agreement and Owner has not terminated this Agreement in accordance with Section 16, then upon the completion of construction of the Project and commencement of the Commercial Operation Date of the Project (in accordance with Section 4.5 below), the term of this Agreement shall automatically extend to the later of (i) the same date as the end date of the term of a executed power purchase agreement between Grantee and an established power purchaser, or (ii) the twenty (25) year anniversary date of the Commercial Operation Date (the "Operation Term").

4.5 Commercial Operation Date. The Commercial Operation Date of the Project, shall commence on the date on which both the following conditions have been met: (i) the Solar Generating Equipment is substantially complete, operational and capable of delivering Solar Energy, and Grantee has accepted such Solar Generating Equipment from its equipment supplier(s) and installer(s); and (ii) the Solar Facilities have been interconnected with an established third party purchaser's electrical system in full compliance with the interconnection procedures and applicable laws ("Commercial Operation Date"),

4.6 End of Term. Notwithstanding the foregoing, the Term of this Agreement shall terminate no later than 49 years from the Effective Date.

5. Payments to Owner. In consideration of the rights granted hereunder, Grantee shall pay Owner the amounts set forth in Exhibit B attached hereto (on the terms and conditions set forth herein).

6. Ownership of Solar Facilities. Owner shall have no ownership, lien, security or other interest in any Solar Facilities installed on the Property, or any profits derived therefrom, and Grantee may remove any or all Solar Facilities at its sole discretion. Except for those payments described herein and in Exhibit B, Owner shall not be entitled to any other payments or benefits accrued by or from the Project, including renewable energy credits, environmental credits or tax credits. Notwithstanding anything to the contrary stated above, Owner shall retain all rights in and to the Property outside the Leased Premises, including the rights to profits derived from timber, and crop harvest, provided, Owner's exercise of such rights does not interfere with Grantee's easements rights over the Property and operation of the Project on the Leased Premises during the Term of this Agreement.

7. Timberland and Crop Harvest Rights. Intentionally omitted.

8. Owner's Review. Owner acknowledges that Owner has been afforded sufficient time to review and understand the terms and effects of this Agreement and to submit it to legal counsel of Owner's

choosing for review and advice. Owner represents that the agreements and obligations herein are made voluntarily, knowingly and without duress.

9. Taxes and Utilities. Owner shall pay all taxes, assessments, or other governmental charges, general and specific, in connection with its ownership of the Property and any improvements exclusive of the Project as of the Effective Date of the Agreement (the "Owner's Taxes"). The amount of the 2025 ad valorem taxes for the Property itself shall constitute the Owner's Taxes that shall or may during the Term be imposed on, or arise in connection with the Property itself. Upon commencement of the Construction Term, Grantee shall be responsible for any incremental increase over and above Owner's Taxes, in taxes, assessments, or other governmental charges resulting from assessments upon the value of the Solar Facilities installed upon the Leased Premises or any other increase over and above Owner's Taxes imposed for any reason other than development of the Property outside the Leased Premises ("Grantee Taxes"). To the extent the applicable taxing authority provides a separate tax bill for the Grantee Taxes to Grantee, Grantee shall pay such Grantee Taxes directly to the applicable taxing authorities prior to the date such Grantee Taxes become delinquent. If a separate tax bill for the Grantee Taxes is not provided to Grantee, Grantee shall pay the Grantee Taxes within thirty (30) days following receipt of written demand from Owner of the amount of the Grantee Taxes with a copy of the applicable tax bill. If any such property taxes, assessments, and/or real property taxes are due and payable and either Party fails to fulfill its obligations under this Section 9, then the other Party may, but shall not be obligated to, pay the taxing authorities the entire amount due on the tax bill and obtain reimbursement for such amount paid on behalf of such Party plus interest (computed from the date of payment) at a rate equal two percent (2%) per annum. If Grantee pays taxes, assessments, and/or real property taxes on behalf of Owner that are Owner's obligation hereunder, Grantee may offset the amount of such payments against amounts due Owner under this Agreement.

9.1 Grantee shall pay when due all charges for electricity, water, gas, telecommunications and other utility services consumed by Grantee on the Property. Grantee, at its sole cost and expense shall be responsible for installation of electrical, telephone, water, gas or other utility lines from the utility providers' point-of-presence to the Property suitable for Grantee's Project (collectively, "Utility Lines"). Owner grants Grantee an easement to extend the Utility Lines to the Project from existing poles or other sources on the Property where necessary, and to use such Utility Lines for its Project. Grantee shall pay for all utility services consumed in the use and operation of its Project at the Property. Grantee shall arrange for and separately provide Utility Lines and meter its utility consumption at its own expense and establish its own accounts for its use of any utility services to the Project on the Property. In the event it is not practicable for the service provider to separately bill Grantee for its utility consumption, Grantee shall install sub-metering devices and remit payment to Owner for its pro-rata share of actual utility charges within thirty (30) days of Owner delivering to Grantee the utility provider's invoice for same.

10. Indemnity/Liability.

10.1 Each Party (the "Indemnifying Party") shall defend, indemnify and hold harmless the other Party and such other Party's Related Persons (as defined below) (each, an "Indemnified Party") from and against any and all third party (excluding Related Persons as defined below in Section 10.6) claims, litigation, actions, proceedings, losses, damages, liabilities, obligations, settlements, costs and expenses, including reasonable attorneys', investigators' and consulting fees, court costs and litigation expenses (collectively, "Claims") suffered or incurred by such Indemnified Party, arising from the negligence or intentional misconduct of the Indemnifying Party.

10.2 In no event shall either Party be liable to the other Party to the extent any Claim is caused by, arising from or contributed by the negligence or intentional misconduct of such other Party or any Related Person thereof.

10.3 Except to the extent expressly set forth herein, in no event, whether as a result of breach of contract, warranty, indemnity, tort (including negligence), strict liability or otherwise, shall either Party be liable to the other Party for loss of profit or revenues, loss of business opportunities or for any other special, consequential, incidental, indirect or exemplary damages.

10.4 In no event shall Grantee or its Related Persons be liable to Owner for property damage or personal injuries to Owner or its Related Persons attributable to risks of known and unknown dangers associated with normal day-to-day operation of electrical generating facilities, such as noise and electromagnetic fields.

10.5 Other than required pursuant to Section 17.7, in no event shall either Party or its Related Persons be liable to the Other Party for expenses incurred in such other Party's lawful enforcement of its rights under this Agreement for a default during any applicable cure period.

10.6 As used herein the term "Related Person" shall mean any affiliates, contractors, lessees, and sub-lessees of a Party, and each of their respective, principals, officers, employees, servants, agents, representatives, subcontractors, licensees, invitees, and/or guests.

10.7 This Section 10 shall survive expiration or earlier termination of this Agreement.

11. Grantee's Representations, Warranties, and Covenants. Grantee hereby represents, warrants, and covenants to Owner that:

When signed by Grantee, this Agreement constitutes a valid and binding agreement enforceable against Grantee in accordance with its terms.

11.2 Minimal Impacts. Grantee agrees to conduct its Site Activities and to locate and operate its Solar Facilities in such a way as to reasonably minimize impacts to the Property and to Owner's activities on the Property, to the extent practical, without negatively impacting the Solar Facilities. If Owner's Property is fenced, all access roads constructed by Grantee on the Property shall be gated by Grantee at Grantee's expense, and Owner shall be furnished with keys or other ability to open and close such gates.

11.3 Insurance. Grantee shall, at its expense, be responsible for assuring that insurance coverages, as would be customary and reasonable for similarly situated companies performing the work carried out by Grantee at such time, are maintained, including, without limitation, adequate coverage to cover any personal injuries or accidents that could reasonably be expected as a direct result of the Site Activities conducted by Grantee or its Related Persons on the Property.

11.4 Requirements of Governmental Agencies. Grantee, at its expense, shall comply in all material respects with valid laws, ordinances, statutes, orders, and regulations of any governmental agency applicable to the Solar Facilities. Grantee shall have the right, in its sole discretion, to contest by appropriate legal proceedings, the validity or applicability to the Property or Solar Facilities of any law, ordinance, statute, order, regulation, property assessment, or the like now or hereafter made or issued by any federal, state, county, local or other governmental agency or entity. Any such contest or proceeding shall be controlled and directed by Grantee.

11.5 Construction Liens. If any mechanic's lien or other lien or claim of lien are publicly recorded in the applicable land records' office for labor and services performed on, materials, supplies, or

equipment furnished to the Property in connection with Grantee's use of the Property pursuant to this Agreement, Grantee shall, within sixty (60) days after it receives notice of the filing of such lien, remove, pay or cancel said lien or secure the payment of any such lien or liens by bond or deposit of moneys pursuant to applicable law or provide Owner with title insurance insuring Owner's interest in the Property against such lien claim. Grantee shall have the right, at all times and at its own cost and expense, to defend, on behalf of Grantee or the Owner, any action involving the cancellation, validity or removal of such lien or liens.

11.6 Hazardous Materials. Neither Grantee nor its Related Persons shall violate federal, state, or local law, ordinance, or regulation relating to the generation, manufacture, production, use, storage, release, discharge, disposal, transportation or presence of asbestos-containing materials, petroleum, explosives or any other substance, material, or waste which is now or hereafter classified as hazardous or toxic, or which is regulated under current or future federal, state, or local laws or regulations, on or under the Property or in any manner which may affect the Property (each, a "Hazardous Material"). Grantee shall promptly notify Owner if any violation occurs.

11.7 Litigation. No litigation is pending, and, to the best of Grantee's knowledge, no actions, claims or other legal or administrative proceedings are pending, threatened or anticipated with respect to, or which could affect Grantee's obligations under this Agreement or the Property. If Grantee learns that any such litigation, action, claim or proceeding is threatened or has been instituted, Grantee shall promptly deliver notice thereof to Owner.

12. Owner's Representations, Warranties, and Covenants. Owner hereby represents, warrants, and covenants as follow:

12.1 Owner's Authority. Owner is the sole owner of the Property and has the unrestricted right and authority to execute this Agreement and to grant to Grantee the rights granted hereunder. Each person signing this Agreement on behalf of Owner is authorized to do so. When signed by Owner, this Agreement constitutes a valid and binding Agreement enforceable against Owner in accordance with its terms.

12.2 No Interference. Owner's activities and any grant of rights Owner makes to any person or entity, shall not, currently or prospectively, disturb or interfere with: the construction, installation, maintenance, or operation of the Solar Facilities, whether located on the Property or elsewhere; access over the Property to such Solar Facilities; any Site Activities; or the undertaking of any other activities permitted hereunder. Without limiting the generality of the foregoing, Owner shall not erect any structures, plants or other equipment, or enter into any third party agreements or amend or extend any existing agreements ("Third Party Agreements") or undertake any other activities (an "Owner Action" or collectively the "Owner Actions") that may: (i) interfere with Grantee's right to install Solar Facilities on any portion of the Property, (ii) potentially cast a shadow onto the Solar Facilities, (iii) cause a decrease in the output or efficiency of any Solar Facilities, (iv) interrupt the flux of Solar Energy upon, across and over any portion of the Property used or to be used by the Solar Facilities, or (v) otherwise interfere with Grantee's operations on the Property (each an "Interference"). Prior to undertaking an Owner Action, that may cause an Interference, Owner shall consult with Grantee to confirm that such Owner Action will not cause any Interference. If Grantee reasonably determines the Owner Action could cause an Interference, then Owner shall not be permitted to undertake such Owner Action. Owner shall not disturb or permit the disturbance of the subsurface such that may impact in any way the structural integrity or the operations and maintenance of the Solar Facilities. Grantee shall have the right to trim existing trees (with reasonable notice to Owner and opportunity to object) to maintain approximately their same height and width as exists as of the date hereof for the purpose of not interfering with the flux of Solar Energy from any angle upon, across and over the Property. Notwithstanding the foregoing,

nothing in this Section 12 or in this Agreement shall affect Owner's Rights as described in Section 7 of this Agreement.

12.3 Liens and Tenants. Except as may be disclosed in the real property records of the County, or as disclosed by Owner in writing to Grantee on or prior to the date hereof, Owner represents there are no encumbrances, leases, mortgages, deeds of trust, deeds to secure debt, or similar liens or security interests encumbering all or any portion of the Property that could interfere with Grantee's operations on the Property, including mechanic's liens nor any liens on Owner's fee interest in the Property. If any of the foregoing arise that are not caused by Grantee, including mechanic's liens that may, in Grantee's reasonable determination, interfere with Grantee's rights under this Agreement, then Owner shall fully cooperate and assist Grantee in removing or limiting such interference, including obtaining a subordination and non-disturbance agreement where Grantee deems it necessary, with terms and conditions reasonably requested by Grantee to protect its rights hereunder, from each party that holds such rights (recorded or unrecorded). In the case of monetary liens such as mechanic's liens, Owner agrees to bond over any such liens in an amount that may be reasonably requested by Grantee. If Owner fails to pay or to fails to commence efforts with commercially reasonable diligence to bond over any such liens within fifteen (15) days of Grantee's request, Grantee may pay or bond over any such liens on behalf of Owner that are Owner's obligation hereunder, and Grantee may offset the amount of any such payments or the actual cost of any bond against amounts due to Owner under this Agreement.

12.4 Requirements of Governmental Agencies and Setback Waiver. Owner shall assist and fully cooperate with Grantee, at no out-of-pocket expense to Owner, in complying with or obtaining any land use permits and approvals, building permits, environmental impact reviews or any other approvals required for the financing, construction, installation, monitoring, replacement relocation, maintenance, operation or removal of Solar Facilities, including execution of applications and documents reasonably necessary for such approvals, and including participating in any appeals or regulatory proceedings respecting the Solar Facilities. Owner hereby consents to and authorizes Grantee to sign and file on Owner's behalf all applications and related documents required for Grantee to obtain any land use permits, building permits, environmental impact reviews or any other approvals necessary for the construction, operation or financing of the Solar Facilities. To the extent permitted by law, Owner hereby waives enforcement of any applicable setback requirements respecting the Solar Facilities to be placed on or near the Property that are reasonably necessary, in Grantee's sole and absolute discretion, to carry out Grantee's power-generating activities on or near the Project.

12.5 Hazardous Materials. Neither Owner nor its Related Persons shall violate reasonable federal, state or local law, ordinance or regulation relating to the generation, manufacture, production, use, storage, release, discharge, disposal, transportation or presence of any Hazardous Material on or under the Property or in any manner which may affect the Property. Owner shall promptly notify Grantee if any such violation occurs. To the best of Owner's actual knowledge, (i) no underground tanks are currently located or at any time in the past have been located on the Property or any portion thereof, (ii) no Hazardous Material has been generated, manufactured, transported, produced, used, treated, stored, released, disposed of or otherwise deposited in or on or allowed to emanate from the Property or any portion thereof other than as permitted by all health, safety and other laws (each, an "Environmental Law") that govern the same or are applicable thereto and (iii) there are no Hazardous Materials in, on or emanating from the Property or any portion thereof which may support a claim or cause of action under any Environmental Law. Owner certifies it has never received any notice or other communication from any governmental authority alleging that the Property is or was in violation of any Environmental Law. Owner shall indemnify and hold harmless the Grantee from any actions, claims, damages or penalties arising from the violation of this paragraph and shall reimburse the Grantee for any costs, including reasonable attorney fees, incurred by Owner as a result of such breach.

12.6 Litigation. No litigation is pending, and, to the best of Owner's knowledge, no actions, claims or other legal or administrative proceedings are pending, threatened or anticipated with respect to, or which could affect, the Property. If Owner learns that any such litigation, action, claim or proceeding is threatened or has been instituted, Owner shall promptly deliver notice thereof to Grantee.

12.7 Title Insurance. Owner agrees that Owner shall execute and deliver to Grantee any documents reasonably required by the title insurance company and/or a financing party within ten (10) business days after presentation of said documents by Grantee at Grantee's sole cost and expense; provided however, in no event shall such documents materially increase any obligation or materially decrease any right of Owner hereunder. Owner shall have no obligation to initiate the process to obtain title insurance on behalf of the Grantee.

13. Assignment.

13.1 Collateral Assignments. Grantee shall have the absolute right in its sole and exclusive discretion, without obtaining the consent of Owner, to do any of the following with respect to financing all or any portion of the Property: (i) finance Solar Facilities with a Lender (as defined in Section 13); and/or (ii) mortgage, encumber, hypothecate, pledge or transfer to one or more Lenders any and all of the rights granted to Grantee hereunder, including the leasehold interest easements and/or any or all right or interest of Grantee in the Property or in any or all of the Solar Facilities .

13.2 Non-Collateral Assignments. Grantee shall have the right without the prior consent of Owner (but with notification to Owner) to sell, convey, lease, assign or transfer (including granting co-easements, separate easements, sub-easements) any or all of its rights hereunder in and to all of the Leased Premises and Easements. Grantee shall remain liable for all of its obligations arising under this Agreement from and after the effective date of such transfer, unless and until such transferee assumes all of Grantee's obligations under this Agreement. Upon such transferee executing an agreement to assume all of Grantee's obligations under this Agreement, Grantee shall automatically be released from all of its obligations under this Agreement.

13.3 Acquisition of Interest. The acquisition of all interests, or any portion of interest, in Grantee by another person shall not require the consent of Owner or constitute a breach of any provision of this Agreement and Owner shall recognize the person as Grantee's proper successor.

14. Default. If a Party defaults in or otherwise fails to perform an obligation under this Agreement, the non-defaulting Party shall not have the right to exercise any remedies hereunder if the default is cured by the defaulting Party within forty five (45) days of receiving written notice of such default specifying in detail the default and the required remedy (a "Notice of Default"); provided, that if the nature of the default requires, in the exercise of commercially reasonable diligence, more than sixty (60) days to cure, the non- defaulting Party shall not have the right to exercise any remedies hereunder as long as the defaulting Party commences performance of the cure within sixty (60) days, and thereafter completes such cure with commercially reasonable diligence. Further, if the Parties have a good faith dispute as to whether a payment is due hereunder, the alleged defaulting Party may deposit the amount in controversy in escrow with any reputable third party escrow, or may interplead the same, which amount shall remain undistributed and shall not accrue interest penalties, and no default shall be deemed to have occurred, until final decision by a court of competent jurisdiction or upon agreement by the Parties. No such deposit shall constitute a waiver of the defaulting Party's right to institute legal action for recovery of such amounts.

14.1 Remedies. Except as qualified by Section 15 regarding Lender Protections, should a default remain uncured beyond the applicable cure periods, the non-defaulting Party shall have and shall be entitled to exercise any and all remedies available to it at law or in equity, all of which remedies shall be

cumulative, including the right to enforce this Agreement by injunction, specific performance or other equitable relief.

15. Lender Protection. In the event that any mortgage, deed of trust, deed to secure debt, or other security interest in this Agreement or in any Solar Facilities, or any portion thereof, is entered into by Grantee (a "Security Deed"), then any person who is the Lender of a Security Deed (a "Lender") shall, for so long as its Security Deed is in existence and until such Security Deed has been extinguished, be entitled to the protections set forth in this Section 15. Grantee shall send written notice to Owner of the name and address of any such Lender; provided that failure of Grantee to give notice of any such Lender shall not constitute a default under this Agreement and shall not invalidate such Security Deed.

15.1 Lender's Right to Possession, Right to Acquire and Right to Assign. A Lender shall have the absolute right: (i) to assign its security interest in this Agreement or in the Solar Facility; (ii) to enforce its lien and acquire title to the leasehold and/or easement estate created by this Agreement by any lawful means; (iii) to take possession of and operate the Solar Facilities or any portion thereof, to exercise all of Grantee's rights hereunder, and to perform all obligations to be performed by Grantee hereunder, or to cause a receiver to be appointed to do so; and (iv) to acquire the leasehold and/or easement estate by foreclosure or by an assignment in lieu of foreclosure and thereafter to assign or transfer the leasehold and/or easement estate to a third party. Owner's consent shall not be required for the acquisition of the encumbered leasehold, easement or sub-easement estate by a third party who acquires the same by foreclosure or assignment in lieu of foreclosure.

15.2 Notice of Default; Opportunity to Cure. As a precondition to exercising any rights or remedies as a result of any default of Grantee, Owner shall give a Notice of Default to each Lender of which it has notice, concurrently with delivery of such notice to Grantee. In the event Owner gives a Notice of Default, the following provisions shall apply:

(a) A "Monetary Default" means Grantee's failure to pay when due any fee, payment or other monetary obligation of Grantee under this Agreement. Any other default by Grantee is a "Non-Monetary Default."

(b) The Lender shall have the same period after receipt of the Notice of Default to remedy the default, or cause the same to be remedied, as is given to Grantee, plus, in each instance, the following additional time periods: (i) thirty (30) days, for a total of seventy five (75) days after receipt of the Notice of Default in the event of any Monetary Default; and (ii) sixty (60) days, for a total of one hundred twenty (120) days after receipt of the Notice of Default in the event of any Non-Monetary Default, provided that such 120-day period shall be extended for the time reasonably required to complete such cure, including the time required for the Lender to perfect its right to cure such Non-Monetary Default by obtaining possession of the Property (including possession by a receiver) or by instituting foreclosure proceedings, provided the Lender acts with reasonable and continuous diligence. The Lender shall have the absolute right to substitute itself for Grantee and perform the duties of Grantee hereunder for purposes of curing such default. Owner expressly consents to such substitution, agrees to accept such performance, and authorizes the Lender (or its employees, agents, representatives or contractors) to enter upon the Property to complete such performance with all the rights, privileges and obligations of the original Grantee hereunder. Owner shall not take any action to terminate this Agreement in law or equity prior to the expiration of the cure periods available to a Lender as set forth above.

(c) During any period of possession of the Property by a Lender (or a receiver requested by such Lender) and/or during the pendency of any foreclosure proceedings instituted by a Lender, the Lender shall pay or cause to be paid the Development Term, Extended Development Term, Construction and Commercial Operation Term Fees (as defined in Exhibit B) and all other monetary charges payable by Grantee hereunder which have accrued and are unpaid at the commencement of said period and those which accrue thereafter during said period. Following acquisition of Grantee's leasehold and easement estate by the Lender or its assignee or designee as a result of either foreclosure or acceptance of an assignment in lieu of

foreclosure, or by a purchaser at a foreclosure sale, this Agreement shall continue in full force and effect and the Lender or party acquiring title to Grantee's leasehold and/or easement estate shall, as promptly as reasonably possible, commence the cure of all of Grantee's defaults which are reasonably susceptible of being cured by the Lender or party acquiring title, hereunder and thereafter diligently process such cure to completion, whereupon such defaults shall be deemed cured without incurring any default hereunder.

(d) Any Lender or other party who acquires Grantee's leasehold and/or easement interest pursuant to foreclosure or assignment in lieu of foreclosure shall be liable to perform the obligations imposed on Grantee by this Agreement for such interest so long as such Lender or other party has ownership of the leasehold and/or easement estate or possession of the Property.

(e) Neither the bankruptcy nor the insolvency of Grantee shall be grounds for terminating this Agreement as long as all material obligations of Grantee under the terms of this Agreement are performed by the Lender in accordance with the terms hereunder.

(f) Nothing herein shall be construed to extend this Agreement beyond the Term or to require a Lender to continue foreclosure proceedings after a default has been cured. If the default is cured and the Lender discontinues foreclosure proceedings, this Agreement shall continue in full force and effect.

15.3 New Agreement to Lender. If this Agreement terminates because of Grantee's default or if the leasehold and/or easement estate is foreclosed upon, or if this Agreement is rejected or disaffirmed pursuant to bankruptcy law or other law affecting creditors' rights, Owner shall, upon written request from any Lender within ninety (90) days after such event, enter into a new agreement for the Property on the following terms and conditions:

(a) The terms of the new agreement shall commence on the date of, foreclosure, rejection or disaffirmance and shall continue for the remainder of the Term, subject to the same terms and conditions set forth in this Agreement.

(b) The new agreement shall be executed within thirty (30) days after receipt by Owner of written notice of the Lender's election to enter a new agreement, provided said Lender: (i) pays to Owner all monetary charges payable by Grantee under the terms of this Agreement up to the date of execution of the new agreement, as if this Agreement had not been terminated, foreclosed, rejected or disaffirmed; (ii) performs all other obligations of Grantee under the terms of this Agreement, to the extent performance is then due and susceptible of being cured and performed by the Lender; and (iii) agrees in writing to perform, or cause to be performed, all non-monetary obligations which have not been performed by Grantee and would have accrued under this Agreement up to the date of commencement of the new agreement, except those obligations which constitute non-curable defaults. Any new agreement granted to the Lender shall enjoy the same priority as this Agreement over any lien, encumbrances or other interest created by Owner.

(c) At the option of the Lender, the new agreement may be executed by a designee of such Lender without the Lender assuming the burdens and obligations of Grantee thereunder.

(d) If more than one Lender makes a written request for a new agreement pursuant hereto, the new agreement shall be delivered to the Lender requesting such new agreement whose Security Deed has priority, and the written request of any other Lender whose lien is subordinate shall be void and of no further force or effect.

(e) The provisions of this Section 15 shall survive the termination, rejection or disaffirmance of this Agreement and shall continue in full force and effect thereafter to the same extent as if this Section 15 were a separate and independent contract made by Owner, Grantee and such Lender, and, from the effective date of such termination, rejection or disaffirmance of this Agreement to the date of execution and delivery of such new agreement, such Lender may use and enjoy said Property without hindrance by

Owner or any person claiming by, through or under Owner, provided that all of the conditions for a new agreement as set forth herein are complied with.

15.4 Lender's Consent to Amendment, Termination or Surrender. Notwithstanding any provision of this Agreement to the contrary, the Parties agree that so long as there exists an unpaid Security Deed, this Agreement shall not be modified or amended in a manner materially adverse to Lender and Owner shall not accept a surrender of the Property or any part thereof or a cancellation, termination or release of this Agreement from Grantee prior to expiration of the Term without the prior written consent of the Lender. This provision is for the express benefit of and shall be enforceable by such Lender.

15.5 No Waiver. No payment made to Owner by a Lender shall constitute an agreement that such payment was, in fact, due under the terms of this Agreement; and a Lender, having made any payment to Owner pursuant to Owner's wrongful, improper or mistaken notice or demand, shall be entitled to the return of any such payment.

15.6 No Merger. There shall be no merger of this Agreement, or of the leasehold or easement estate created by this Agreement, with the fee estate in the Property by reason of the fact that this Agreement or the leasehold estate or the easement estate or any interest therein may be held, directly or indirectly, by or for the account of any person or persons who shall own the fee estate or any interest therein, and no such merger shall occur unless and until all persons at the time having an interest in the fee estate in the Property and all persons (including Lender) having an interest in this Agreement or in the leasehold estate or in the estate of Owner and Grantee shall join in a written instrument effecting such merger and shall duly record the same.

15.7 Estoppel Certificates, Etc. Owner shall execute such estoppel certificates (certifying as to such matters as Grantee may reasonably request, including without limitation that no default by Grantee then exists under this Agreement, if such be the case) and/or consents to assignment (whether or not such consent is actually required) and/or non-disturbance agreements as Grantee, any transferee of Grantee or Lender may reasonably request from time to time. The failure of Owner to deliver any estoppel certificate within thirty (30) days after Grantee's written request therefor shall be conclusive evidence that (i) this Agreement is in full force and effect and has not been modified; (ii) any amounts payable by Grantee to Owner have been paid through the date of such written request; (iii) there are no uncured defaults by Grantee; and (iv) the other certifications requested by Grantee in its estoppel, are in fact, true and correct.

16. Termination.

16.1 Grantee's Right to Terminate. Grantee shall have the right to terminate this Agreement without cause: (i) as to all or any part of the Property prior to the commencement of the Construction Term, and (ii) as to all of the Leased Premises upon the expiration of the Commercial Operation Term, effective upon written notice to Owner from Grantee.

16.2 Owner's Right to Terminate. Subject to Section 15.4, Owner shall have the right to terminate all or any portion of its rights in this Agreement after the fifth (5<sup>th</sup>) anniversary of the Effective Date if, at the time Owner's written termination notice is delivered, Grantee has not provided written notice of its intention to proceed with the commencement of construction activities on the Property. The terms "commencing construction" and "commencement of construction" as used in this Agreement shall mean that date on which Grantee begins excavation of foundations on the Property for the Solar Generating Equipment.

16.3 Effect of Termination. Upon termination of this Agreement, Grantee shall, as soon as practicable thereafter, but not later than twelve (12) months after the termination, remove above-ground and below-ground (to a depth of three (3) feet below grade) Solar Facilities from the Property. All Property disturbed by Grantee shall be restored to a condition reasonably similar to its original condition as it existed

upon the Effective Date, excluding re-planting of trees. If Grantee fails to remove such Solar Facilities within twelve (12) months of termination of this Agreement, or such longer period as Owner may provide by extension, Owner shall have the right to restore the Property and remove, or to cause removal of, any property owned by Grantee to the extent required by Grantee under this Section 16.3, and the right to receive reimbursement, less the salvage value of the Solar Facilities, from Grantee for any remaining amounts incurred for removal and restoration of the Property. Furthermore, upon termination of this Agreement, Grantee shall, as soon as practicable thereafter, but not later than thirty (30) days after the termination, for no consideration, provide Owner all Project site maps, data recordings, report and studies concerning the Project site, provided, however, that Grantee may exclude any Project data that Grantee is prohibited from disclosing pursuant to a third party agreement and/or that includes Grantee's trade secrets. In addition, Owner shall retain, free and clear, all sums paid by Grantee hereunder, without any proration, for Owner's sole account.

16.4 **Removal Security.** Prior to Commencement of Construction, Grantee shall provide Owner with a decommissioning plan and bond, letter of credit or other security ("Decommissioning Security") with and as required by the governing jurisdiction to ensure the removal and decommissioning of the Project. In the event the governing jurisdiction does not require such Decommissioning Security, then Grantee shall provide such Decommissioning Security to Owner naming Owner as the beneficiary thereof.

#### 17. Miscellaneous.

17.1 **Force Majeure.** If performance of this Agreement or of any obligation hereunder is prevented or substantially restricted or interfered with by reason of an event of Force Majeure (defined below), the affected Party, upon giving notice to the other Party, shall be excused from such performance to the extent of and for the duration of such prevention, restriction or interference, and the Term or any other time periods herein shall be extended for such period of time. The affected Party shall use its reasonable efforts to avoid or remove such causes of nonperformance and shall continue performance hereunder whenever such causes are removed. "Force Majeure" means fire, earthquake, flood, or other casualty, condemnation or accident; strikes or labor disputes; war, civil strife or other violence; any law, order, proclamation, regulation, ordinance, action, demand or requirement of any government agency or utility; or any other act or condition beyond the reasonable control of a Party hereto.

17.2 **Confidentiality.** To the fullest extent allowed by law, Owner shall maintain in the strictest confidence, and Owner shall require each Related Person of Owner to maintain in the strictest confidence, for the sole benefit of Grantee, all information pertaining to the financial terms of or payments under this Agreement, Grantee's site or product design, methods of operation, methods of construction, power production or availability of the Solar Facilities, and the like, whether disclosed by Grantee or discovered by Owner, unless such information either (i) is in the public domain by reason of prior publication through no act or omission of Owner or any Related Person of Owner, or (ii) was already known to Owner at the time of disclosure and which Owner is free to use or disclose without breach of any obligation to any person or entity. To the fullest extent permitted by law, Owner shall not use such information for its own benefit, publish or otherwise disclose it to others, or permit its use by others for their benefit or to the detriment of Grantee. Notwithstanding the foregoing, Owner may disclose such information to any auditor or to Owner's family members, lenders, attorneys, accountants and other personal advisors; any prospective purchaser of or lenders for the Property; or pursuant to lawful process, subpoena or court order; provided Owner in making such disclosure advises the party receiving the information of the confidentiality of the information and obtains the agreement of said party not to disclose the information.

17.3 **Successors and Assigns.** This Agreement shall inure to the benefit of and be binding upon Owner and Grantee and, to the extent provided in any assignment or other transfer under Section 13 hereof, any transferee, and their respective heirs, transferees, successors and assigns, and all

Commented [SP1]: think this is acceptable and something we will allow for

17.4 Memorandum; Recording. At Grantee's option: (i) Grantee may record a copy of this Agreement, or (ii) upon request from Grantee, Owner shall execute in recordable form, and Grantee may then record, a memorandum of this Agreement substantially in the form of Exhibit C attached hereto, incorporating only those non-substantive changes to the form as may be required by the applicable jurisdiction in which recording is sought and to reflect the terms of this Agreement. Owner hereby consents to the recordation of the interest of a transferee of Grantee in the Property. With respect to the Commercial Operation Term, upon request from Grantee, Owner shall execute, in recordable form, and Grantee may then record a memorandum evidencing the Commercial Operation Term, as applicable; provided that the execution of such memorandum is not necessary for such Commercial Operation Term to be effective.

17.5 Notices. All notices or other communications required or permitted by this Agreement, including payments to Owner, shall be in writing and shall be deemed given when personally delivered to Owner or Grantee, or in lieu of such personal delivery services, the same day if sent via facsimile with confirmation, the next business day if sent via overnight delivery or five (5) days after deposit in the United States mail, first class, postage prepaid, certified, addressed as follows:

All of the provisions of Exhibit B shall be treated as if such provisions were set forth in the body of this Agreement and shall represent binding obligations of each of the Parties as part of this Agreement. Any agreement, understanding or representation respecting the Property, or any other matter referenced herein not expressly set forth in this Agreement or a subsequent writing signed by both Parties is null and void. This Agreement shall not be modified or amended except in a writing signed by both Parties. No purported modifications or amendments, including without limitation any oral agreement (even if supported by new consideration), course of conduct or absence of a response to a unilateral communication shall be binding on either Party. Provided that no material default in the performance of Grantee's obligations under this Agreement shall have occurred and remain uncured, Owner shall cooperate with Grantee in amending this Agreement from time to time to include any provision that may be reasonably requested by Grantee for the purpose of implementing the provisions contained in this Agreement or for the purpose of preserving the security interest of any transferee of Grantee or Lender.

Notwithstanding any other provision of this Agreement, the Parties agree that in no event shall the Term, or the term any easement granted herein be longer than, respectively, the longest period permitted by applicable law.

17.9 Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original and all of which when taken together shall constitute one and the same document.

17.10 Tax and Renewable Energy Credits. All benefits and incentives that result from Grantee's development and use of the Property for Solar Energy purposes shall accrue to the benefit of Grantee, including but not limited to any reductions or credits in taxes and/or assessments, rebates, financing, federal, state and local grants, reductions in fees, and participation in federal, state or local special programs or tax districts. If under applicable law, the holder of a leasehold or easement estate becomes ineligible for any tax credit, renewable energy credit, environmental credit or any other benefit or incentive for renewable energy established by any local, state or federal government, then, at Grantee's option, Owner and Grantee shall exercise good faith and negotiate an amendment to this Agreement or replace it with a different instrument so as to convert Grantee's interest in the Property to a substantially similar interest that makes Grantee eligible for such credit, benefit or incentive.

17.13 Approvals; Consents. Whenever any party to this Agreement is given an approval/consent right and unless otherwise expressly stated in this Agreement, any such approval/consent shall not be unreasonably withheld, conditioned or delayed. If any such approval is not granted within ten (10) days of the date on which the request is delivered, then approval shall be deemed granted. If approval is withheld, the withholding party shall state in writing with particularity the reason or reasons for the withholding of approval and shall propose conditions or changes that would facilitate approval. *[Signatures Commence on Following Page]*
