Why we need this

CALL VOLUME INCREASE:

As our population grows and development continues, so has the demand for our services. From 2002 to 2015 we've witnessed a staggering 110% increase in our call volume and a 62% increase from 2015 to 2022.

INCIDENT RESPONSE TIME:

Response time is vital for firefighters because every second matters in an emergency. Quick action saves lives, reduces property damage, and prevents fires from spreading. Fast medical assistance improves survival and recovery chances for those injured. Based on studies, THE current Station 70 is not strategically located. Essentially, the faster the response, the more lives and property are protected.

Also, since 2000 significant housing development has occurred in Harrison which places more responsibility on our Fire Rescue team to serve and protect all Village residents and properties.

DECONTAMINATION AREAS:

The current stations were not designed with personal decontamination in mind. Structures are no longer comprised mostly of wood. Today's structure fires contain various plastics and other known carcinogens that leads to increased cancer risks for firefighters. The new station will provide dedicated personal decontamination spaces; improving the overall health of our responders.

TRAINING:

Training is critical to all emergency response scenarios. Station 70 will have a 2,000 square foot Emergency Operations Center and training room for managing emergency response and providing training for fire department members. Currently, there's no such facility on this side of Calumet County.

Why we need this

SPACE NEEDS:

Our current Station 70 is a pole shed built with one-and-a-half vehicle bays, **but now houses seven vehicles**. As firefighting equipment gets larger, on-site storage space for supplies is vital for safe and effective operations. Using storage space at the nearby Harrison Utilities building causes delays in emergency preparedness.

GENDER PRIVACY:

The firefighting workforce demographic continues to evolve. The current stations were designed for mainly male employees. However, the number of female staff members continues to increase.

Providing spaces for both men and women is crucial for the comfort and privacy of all staff.

Long-term Planning

FUTURE NEEDS:

As Harrison continues to grow and calls increase, the need for living quarters becomes apparent. In 2025, the Village will complete a study to determine when we will need to change our service model from paid on-call volunteers to full-time career firefighters. When justified, the Village will be ready to transition.

FUTURE FIRE STATION 70 CONSTRUCTION

WHERE OPPORTUNITY LIVES

Questions & Answers

WHAT WILL IT COST & HOW WILL IT BE FUNDED ?

The anticipated project budget for the new fire station is estimated at $11.5 M. Funding for this project will come from a combination of the General Fund Unrestricted Balance, Shared Revenues, Impact Fees, and Capital Borrowing.

WAS RENOVATING CONSIDERED?

Considerations were made for renovating **Station 70**. However, since it is located at the western edge of the village, it cannot adequately serve the growth the village is experiencing. With higher call volumes, workforce changes, and the need for personal decontamination areas, the Village Board decided that building a new facility is the most fiscally responsible choice.

The village has future plans to renovate **Station 60**, located in Sherwood. It will continue to serve the southern areas of Harrison, the Village of Sherwood, and the Town of Woodville. This project may include adding vehicle bays, decontamination areas, ADA-compliant rooms, and other building updates.

WHERE WILL STATION 70 BE LOCATED?

The new station will be built on village-owned land in a developing commercial district near CTH N and Manitowoc Rd. This location was chosen because it optimizes response times.

WHO WILL DESIGN THE NEW STATION?

Station 70 will be designed by Wendel/Five Bugles, a team specialized in public safety service facilities. They have designed many fire station/EMS facilities in Wisconsin. For details, visit their website: fivebuglesdesign.com

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From: Chad Pelishek, Assistant Village Manager **Meeting Date:** 1/28/2025

Title: Assistant Village Manager, Planning and Zoning Report

Issue: N/A

Background and Additional Information:

STH 114/State Park Road Safety Concerns:
The Calumet County Sheriff's Office has provided the crash data for this intersection. According to the DOT, only one of the five crashes reported at this intersection in the past five years could be identified as "Failure to Stop." The rest were "Failure to Yield". Supplementing existing stop signs with round flashing beacons (what the DOT allows) can help address "failure to stop" not "failure to yield". In the case of the intersection being majority of Failure to Yield crashes, a flashing beacon typically does not do much.

So, at this point, staff is recommending doing nothing, because the Village would have to pay for purchase, installation and electricity to run the beacon, when it would probably not help much due to the nature of the crashes at this intersection. We are still working with We Energies to install two overhead lights to help light the intersection during the night.

CivicPlus Website and Municode Meetings
The new website is now live. Staff is trained on maintenance which is much easier. Staff is also trained in Municode meetings. The 1/28 meeting will be launch of the meetings and online voting. In February staff will be training the Plan Commission how to use the same platform to look at meeting documents and vote as well. This was a future agenda item by Trustee Lancaster. In late February, we are also scheduled to start implementation of the citizen reporting portal.

Future Land Use Plan Update:
Staff has finalized a detailed review with the consultant of the land use plan update. In February, the GIS login will be shared with the board to start looking at the parcels and provide comments to the staff. The goal is to have public meetings in late Feb/early March on the updates and hopefully line up for the board to approve the plan at the March meeting.

Update of the Bicycle and Pedestrian Plan:
Recommended changes on the plan and updates have been provided to Calumet County GIS to map them as a GIS layer and be made available on the GIS page for the public. Once we get a draft back from the County, we will share it with the Board. This is a future agenda item.

New Building Inspector:
On January 13, 2025, Jason Gruetzmacher joined the Village as the Building Inspector. Jason has multiple years of experience in the building trades. For the month of January, Jason is working 2-3 hours per day with Paul. He will start full-time in February. Jason had some building construction projects to finish. He is studying to take 4 certifications in Uniform Dwelling Code Inspector in 2025. He also anticipates getting the commercial inspector and electrical inspectors certifications over the next few years. The goal is for Jason to be certified in all disciplines except plumbing (which is not sure he will be able get).

Community Risk Reduction Officer- FD: The position was posted on 1/16/2025. The position was posted in multiple locations and shared locally in social media channels.

Senior Housing- Future Agenda Item
After discussion with some Senior Housing developers, it appears to the make the most sense to complete a senior housing needs assessment to determine what type of the senior housing is needed in the Village and then complete as part of the needs assessment a market study. After the study is completed the Village Board can take action on what type of housing they could support. Staff would work with interested developers once we know type of housing. The next step would be a request for proposals. Staff is working on the RFP to be issued in February and will report back either in February or March.

CVMIC
Staff has worked with CVMIC to develop a training calendar for the 2025. Staff is also working to host 2-3 sessions of leadership training as well.

Recommended Action: None

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From:
Brandon Barlow, Utilities Office Manager

Meeting Date:
January 28, 2025

Title:
Harrison Utilities

Issue:
Monthly Report to the Board

Background and Additional Information:

1. **2025 Meter Change, Clear Water Inspection, and Residential Cross Connection Survey Program:** The Department of Natural Resources (DNR) and Public Service Commission (PSC) require that utilities conduct programs to ensure safety and efficiency of water and sanitary sewer services. A key aspect of compliance with DNR and PSC regulations is the meter change, clear water inspection, and residential cross connection survey program. Harrison Utilities has elected to conduct the program whereby meters are replaced and inspections are conducted on a 20-year cycle, meaning that approximately 5% of customers (excluding meters larger than 1") are notified annually about the required appointment. Utilities Billing Clerk Jessi Flohr conducts the mailing of the notification letters and coordination of the appointment schedule. The 2025 program includes 147 customers.
2. **Transition of Engineering Services:** Staff has been meeting with representatives from Martenson & Eisele as well as McMahon regarding the transition of records and responsibilities. McMahon is also evaluating options for the Lift Station #3 Force Main replacement project as well as the Geographic Information System (GIS) database.
3. **Neenah-Menasha Sewerage Commission (NMSC)**: A regular meeting of the NMSC was held on Tuesday, January 28th. Agendas and minutes for the meetings of the Neenah-Menasha Sewerage Commission are available at www.nmscwwtp.com

WHERE OPPORTUNITY LIVES

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From:
Chad Pelishek, Assistant Village Manager

Meeting Date:
January 28, 2025

Title:
Conditional Use Permit – Paul and Kate Meyer – N7943 State Park Rd – Parcel 40248

Issue:
Should the Village Board recommend approval of a Conditional Use Permit for a water closet (toilet) in a detached accessory building?

Background and Additional Information:
The applicant seeks a Conditional Use Permit (CUP) to install a toilet and sink (water closet) in a new detached garage. The zoning permit for the detached garage was issued October 29, 2024 with a condition that a water closet shall not be installed without an approved CUP. The garage is 46x42 square feet and located northeast of the house at N7943 State Park Rd. The property is 4.52 acres and zoned Rural Residential [RR] with Shoreland Overlay [SHO].

Per Section 117-54(a)(7): Any detached accessory use, building and/or structure with a water closet (toilet facility) shall require a conditional use permit, pursuant to article XI, Conditional Use Permits.

More information as provided by the applicant:

- The use of the detached garage is for boat and vehicle storage with a workshop for tinkering.
- The water closet is only a sink and toilet. No shower. It is for the applicant's convenience and to potentially avoid injury during inclement weather months by not having to make bathroom trips to the house.
- There will be no living quarters built out within the detached garage.

Findings of Fact:

- Staff finds that the Conditional Use Permit request will comply with the Harrison Zoning Ordinance with the below conditions.
- Property owners within a 300-feet of the subject property have been notified via first-class mail.

Recommended Action:
The Plan Commission recommends approval of the Conditional Use Permit (CUP) to install a toilet and sink in an accessory building at N7943 State Park Rd with the following conditions:

1. The detached accessory building shall not be used as a secondary dwelling (per Section 117-54(a)(9).
2. The detached garage shall follow the blueprints as submitted with the approved zoning and building permits.
3. The applicant shall acknowledge the conditions of approval and agree to abide by all conditions. Failure to abide by conditions maybe cause for revocation of Conditional Use Permit or further municipal action.
4. The Conditional Use Permit shall be non-transferable.

Title:
Zoning Map Amendment (Rezoning) – Crossroad Business Park – County KK & Hwy 55

Issue:
Should the Village Board recommend approval of a zoning map amendment (rezoning)?

Background and Additional Information:
The applicant—the Village of Harrison—is proposing to rezone from Office & Retail Commercial [COR] to Business Park [BP] for Crossroads Business Park, located east of Friendship Drive and south of County KK, but north of State Hwy 55.

Findings of Fact:
- A Class 2 notice was published for the proposed zoning Map Amendment.
- Property owners within 300-feet of the subject property have been notified via first-class mail.

Recommended Action:

Employment Agreement

This Employment Agreement is made and entered into by and between the Village of Harrison, Wisconsin ("Employer") and Chad Pelishek ("Employee") for the position of Village Manager for the Village of Harrison, Wisconsin on this _____ day of January 2025. Employer and Employee ("Parties") hereby state as follows:

WHEREAS, the Village of Harrison (Employer) wishes to employ Chad Pelishek (Employee) as the Village Manager for the Village of Harrison, Wisconsin; and

WHEREAS, Chad Pelishek wishes to accept employment as Village Manager for the Village of Harrison, Wisconsin; and

WHEREAS, Employer and Employee (collectively "Parties") desire to enter into this Agreement regarding the compensation, duties, and other benefits, consideration, and mutual understandings set forth herein;

THEREFORE, in consideration of the mutual promises and assurances set forth below, the Parties agree to the following:

1. Position and Duties.

- Chad Pelishek is hereby appointed as the Village Manager for the Village of Harrison. The Village Manager is an exempt salaried position.

- The Village Manager shall perform all duties specified for that position in the Village Charter of Ordinances Section 1.05(A)(c), position descriptions and policies, the laws of the State of Wisconsin, and to perform such other proper duties as assigned by the Village Board of Trustees ("Village Board") as well as any other duties or obligations mutually agreed by the Parties in the course of, and pursuant to, Mr. Pelishek's employment as Village Manager.

- Mr. Pelishek shall be present at the Village of Harrison in his office Monday through Friday each week during normal business hours, including attending all Village Board meetings each Tuesday evening until such meetings are completed except as otherwise set forth in this Agreement.

2. Term of Employment.

- Chad Pelishek is hereby appointed as the Village Manager for the Village of Harrison for an indefinite term starting on the date set forth in this Employment Agreement, subject solely to "for cause" termination defined as neglect of duty, misconduct, malfeasance, or incompetence by a vote of at least five-to-two (5 – 2) by the Village Board or upon voluntary resignation by Employee. *See* Section 6.

3. Compensation.

- For Calendar year 2025, Mr. Pelishek shall receive an annual salary of $140,000.00 pro-rated from the commencement of his hiring as Village Manager.

- Base salary for the calendar year 2026 and thereafter shall be determined by the Village Board during the budget and evaluation process and shall be commensurate with the across-the-board adjustments for non-represented employees of the Village.

- Mr. Pelishek may also be eligible for additional compensation or financial enhancements at the discretion of the Village Board based on merit and/or annual performance evaluations that exceed the general adjustments for Village employees.

4. Benefits. Except as set forth in this section, Mr. Pelishek shall receive all employee benefits provided by the Village of Harrison employee handbook and Benefits Brochures provided to all Village employees with the following modifications:

- The Village acknowledges Mr. Pelishek's sixteen (16) years of prior and extensive municipal experience and agrees to provide equivalent Paid Time Off (PTO) per the Village Handbook.

- In the event of Mr. Pelishek's resignation, the Village shall pay the equivalent of Mr. Pelishek's accrued vacation as of his last date of employment. See Section 6.

- The Village shall pay for Mr. Pelishek's professional memberships in administrative-related organizations including, but not limited to, ICMA, WCMA. Such compensation extends to conferences and attendance at agreed events for Wisconsin municipalities, subject to budgetary constraints and as agreed by the Parties.

- The Village shall pay up to $2,500.00 per year for any trainings, conferences, or continuing education relating to Mr. Pelishek's professional development as Village Manager.

- Employer shall reimburse Mr. Pelishek for any mileage associated solely with his travel for job-related events, conferences, or trainings agreed by the Parties. All mileage and reimbursements shall utilize current Internal Revenue Service (IRS) rates. Mr. Pelishek will provide all mileage reimbursement requests to the appropriate Village department no later than seven business days following any work-related travel. (This excludes his regular commute and any consequential community events that Mr. Pelishek will attend.)

5. Residency, Community Events, and Inclement Weather.

- In order to preserve the extensive re-location costs that would be incurred by the Village of Harrison regarding Mr. Pelishek's family's relocation, the Village of Harrison agrees that Mr. Pelishek is fully capable, experienced, and qualified to sufficiently and effectively manage Village affairs as required without permanent relocation of his family to the Village of Harrison. The Village shall not require Mr. Pelishek's relocation and acknowledges that Mr. Pelishek's personal residency shall not affect the quality of his duties, work, and obligations as Village Manager in any way.

- Mr. Pelishek agrees that he shall not seek reimbursement or mileage for his regular commuting and driving time to the Village of Harrison on a daily basis and for any Harrison events that he and his family may participate in.

- Mr. Pelishek may work remotely in the event of inclement weather. Such remote work due to inclement weather shall not limit Employee's duties and commitment to ensure all obligations are carried out as reasonably possible during inclement weather situations. Inclement weather is defined as any that creates hazardous driving or road conditions including, but not limited to, severe storms, ice, winter storms, or other common inclement weather conditions.

6. Termination and Resignation.

- It is the express intention of the Parties that Employee Chad Pelishek can only be terminated for just cause by a vote of five-to-two (5 to 2) by the Village Board. Any vote by the Village Board under this section requires all Village Board members to be present and a full vote of all Village Board members.

- For purposes of this Agreement, "just cause" is defined as neglect of duty, misconduct, malfeasance, or incompetence.

- It is the express intent of the Parties to this Agreement that this provision supersedes the Village Charter Ordinance in relation to Mr. Pelishek's termination as provided under Sec. 1.05(A)(b).

- The Parties agree that the ordinary disciplinary process under this Agreement is a four-step process that includes (1) oral warning , (2) written warning supported by written facts, (3) a reasonable opportunity for correction not to exceed 30 days, and (4) termination. The Parties agree that Mr. Pelishek will be afforded Notice of any charges, presentation of Employer's evidence, and an opportunity to be heard as set forth under law. *See Loudermill v. Cleveland Board of Education v. Loudermill,* 470 U.S. 532 (1985).

- Notwithstanding the foregoing, in the event that the Board votes by a margin of at least five-to-two (5 to 2) that Employee engaged in a course of action that is illegal, highly likely to put the Village, its citizens, or its employees at a substantial risk of irreparable harm, the Village reserves its right to skip any of the above steps and proceed directly to termination.

- Notwithstanding the foregoing, in the event that the Board votes by a margin of at least five-to-two (5 to 2) that the Board has lost confidence in Employee's ability to effectively manage the affairs of the Village and perform the duties set forth in this Agreement and/or the Charter Ordinance, the Board may nevertheless terminate Employee without a finding of "just cause;" however, any severance due under this Agreement shall be doubled.

- The Parties agree that there will be no reduction in pay or benefits whatsoever through the duration of Mr. Pelishek's employment.

- Employer agrees to pay severance to employee [in lump sum OR in the usual course of payroll] within thirty days of any termination for which he is entitled to severance. The severance period shall begin at six months' worth of wages beginning at the date of signing this Agreement. Following each annual satisfactory performance evaluation, one month shall be added to Employee's severance period. Severance amounts for Employee shall not exceed an aggregate severance period of 12 months' worth of wages which shall be the maximum severance period (unless doubled as provided in this Section 6). No severance shall be due if Employee is convicted of a crime in a court of competent jurisdiction relating to any for-cause termination of Employee; and the Village may suspend payment during the pendency of any such criminal action until fully adjudicated. In the event the Board votes by a margin of at least five-to-two (5 to 2) that substantial evidence of financial malfeasance exists, Employer may withhold payment of severance for a reasonable period of time to allow Employer to conduct an internal investigation and refer charges to the District Attorney.

- For purposes of this Agreement, termination includes the dissolution of the Village Manager position or any significant reduction in job duties without the signed consent of all Parties to this Agreement.

- In the event of Mr. Pelishek's resignation, he shall provide one hundred and twenty (120) days' written notice to the Village Board. In the event of Mr. Pelishek's resignation, he shall receive compensation for any accrued vacation earned or due up to the date of resignation (final date of employment).

7. Performance Evaluations.

- Each year, beginning in 2025, Mr. Pelishek will be provided with an annual performance evaluation no later than September 30 of every year. The performance evaluation will be completed by the Village Board President with input from the Village Board. Such evaluations shall include annual adjustments commensurate with the Village standards for non-represented employees of the Village.

- The Village Board President, with input from the Village Board, shall provide the process, form, criteria, and format for all annual performance evaluations of Mr. Pelishek in a timely manner based on Agreement between Mr. Pelishek and the Village Board President.

8. Outside Employment.

- As Village Manager, Mr. Pelishek agrees that he shall neither seek nor accept any outside employment nor any contracting for services to any other municipality while serving as Village Manager. Mr. Pelishek shall devote his time, energy, and attention to the business of the Village of Harrison and shall hold no other employment or invest with any firm, corporation, or legal entity that violates the ICMA Code of Ethics.

9. Modification.

- This Agreement shall remain in full force and effect until modified by the Parties. Any modification of the terms of this Agreement must have the concurrence of three-fourths vote of the Village Board, be in writing, and be executed by both the Village of Harrison and Employee Chad Pelishek.

10. Conflicts With Other Ordinances or Village Policies.

- To the extent the terms of this Agreement conflict with any ordinances, policies, laws, or customs, this Agreement shall supersede and prevail over all other policies, laws, or ordinances.

11. Entire Agreement.

- This Agreement constitutes the entire understanding and agreement of the Parties and shall govern the terms of Mr. Pelishek's employment as Village Manager with and for the Village of Harrison. This Agreement supersedes all negotiations or previous agreements between the parties.

12. Governing Law.

- This Agreement shall be construed according to the laws of the State of Wisconsin, without giving effect to the conflict of law provisions thereof.

13. Severability.

- lf any provisions of this Agreement, or any portion thereof, is held by a Court of competent jurisdiction to be unconstitutional, invalid, or unenforceable, the remainder of the Agreement or portion thereof shall be deemed severable, shall not be affected, and shall remain in full force and effect.

IN WITNESS WHEREOF, the parties hereby execute this Agreement:

Title: Concept Plan for Luniak Property- North Shore Road

Issue: Does the Village Board conceptually approve the Luniak Property single-family development?

Background and Additional Information:

The parcel is located at the Old Highway Road/STH 114 and North Shore Road. This subdivision would be serviced by Harrison Utilities. The future land use plan for the village shows this area as single family residential. Surrounding land uses are single family. The corner parcel of (shown as Outlot 1 on the concept plan) is zoned commercial. Staff supports rezone of this parcel as one lot of the commercial will not provide enough density to support commercial in this area. Staff will need to work with the developer on Lots 47-53 related to wetland issues and size/configuration of the lots.

Budget Impacts: None, developer funded

Recommended Action: Motion to adopt the concept plan for Luniak Property- North Shore Road.

Title:
V25-01 Ordinance Creating Ch. 16, Sec. 16-7, Hemp-Derived or Synthetic Cannabinoid Regulations

Issue:
Does the Board wish to adopt an ordinance regulating the possession, sale, and use of hemp-derived or synthetic cannabinoid products?

Background and Additional Information:

REACH, Calumet County's substance misuse prevention coalition, has requested the Village of Harrison to take action to protect our youth by adopting an ordinance that would restrict the possession, sale, and use of hemp-derived or synthetic cannabinoid products to anyone under the age of twenty-one.

Included in this memo is a handout prepared by the REACH Coalition Workgroup called "What the Hemp?" It is very educational and provides information and reasons why the Village should create this ordinance.

Budget Impacts:
None

ORDINANCE V25-01

AN ORDINANCE CREATING CHAPTER 16, SECTION 16-7, HEMP-DERIVED or SYNTHETIC CANNABINOID REGULATIONS

WHEREAS, Regulation of products containing cannabis or cannabis-derived compounds also remained within the US Food and Drug Administration (FDA), under the Federal Food, Drug, and Cosmetic Act (FD&C Act) and section 351 of the Public Health Service Act (Gottlieb, 2018).

WHEREAS, To align with the new federal bill, the Wisconsin legislature adopted the 2019 Wisconsin Act 68 (effective date of November 28, 2019), which modified state law in accordance with the 2018 Farm Bill and made several other changes regarding hemp-related actions in Wisconsin. The 2019 Wisconsin Act 68 also clarified the relationship between hemp products and certain cannabidiol (CBD) products, expanded and repealed certain requirements of the state's Controlled Substances Board (CSB), and set a threshold level of delta-9 THC for purposes of certain offenses that would prohibit a restricted controlled substance in a person's blood (Otis & Queensland, 2020).

WHEREAS, Following the passage of 2019 Wisconsin Act 68, the Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP), was assigned to license, inspect, and test hemp grown in the state. This was the case until January 1, 2022, when Wisconsin hemp growers were licensed by the US Department of Agriculture (DATCP, n.d.).

WHEREAS, The availability and accessibility of CBD and THC-containing products in retail establishments or via online vendors is widely unrestricted for sale or transport on a federal or state-level (USPS, 2019).

NOW, THEREFORE, BE IT ORDAINED, by the Village Board of the Village of Harrison, Calumet County, Wisconsin, that the Harrison Municipal Code of Ordinances, Chapter 16, Section 16-7 be created as follows:

Sec 16-7. HEMP-DERIVED OR SYNTHETIC CANNABINOID REGULATIONS

(a) In this subsection, hemp-derived cannabinoid constitutes one of the many intoxicating cannabinoids found in the cannabis plant or a synthetic version thereof.
   (1) A cannabinoid other than delta-9 tetrahydrocannabinol (THC), or an isomer derived from such cannabinoid (delta-8 THC, delta-10 THC, hexahydrocannabinol (HHC), HHC-O, THCA, THC-O, THCP, THCV); or
   (2) A hemp-derived product containing delta-9 tetrahydrocannabinol in a concentration of 0.3 percent or less.
   (3) Does not include non-intoxicating cannabinoids, including cannabidiol (CBD), which is an active ingredient in cannabis, but does not cause intoxication by itself, is not addictive, and does not contain other isomers as listed above.

(b) It shall be illegal for a person under the age of twenty-one (21) to possess or use any amount of a hemp-derived cannabinoid including delta-8 THC, delta-10 THC, HHC,

HHC-O, THCA, THC-O, THCP, or THCV except as specifically allowed by Wisconsin law.

(c) It shall be illegal to sell or deliver any hemp-derived cannabinoid product containing delta-8 THC, delta-10 THC, HHC, HHC-O, THCA, THC-O, THCP, or THCV to a person under the age of twenty-one years, except as specifically allowed by Wisconsin law.

(d) It shall be illegal to sell or deliver any hemp-derived cannabinoid product containing delta-8 THC, delta-10 THC, HHC, HHC-O, THCA, THC-O, THCP, or THCV to a person without having first verified their age by having the purchaser present valid photo identification.

(e) Hemp-derived cannabinoids shall not be sold within 750 feet of a hospital, church, or youth-serving organization such as, but not limited to: childcare centers, pre-schools, public or parochial schools, tribal schools, playgrounds, city or county parks, sporting arenas, or organizations with specific interest to serve children (Boys & Girls Club, YMCA, Head Start, etc.) The distance shall be measured by the shortest route along a designated roadway or walking path from the main entrance of the youth-serving business/organization to the premises selling hemp-derived cannabinoid products. The prohibition in this section does not apply to businesses selling hemp-derived cannabinoids from a location used for said sales on December 1, 2022.

(f) Any person who violates any provision of this section, or who conducts any activity or makes any sale for which violates any provision of this section, shall upon conviction be subject to penalties and forfeitures as provided in sections 1-7, 1-10, and 28-178.

REACH is Calumet County's substance misuse prevention coalition. A core purpose of REACH is to reduce youth access to dangerous substances. This workgroup is dedicated to restricting youth access to intoxicating hemp products.

Hemp-derived products are impacting Wisconsin communities.

Hemp derivatives such as Delta 8 and HHC are commonly sold at gas stations and other retail locations in the form of vapes, edibles and drinks.

These products are created through chemically altering legally grown hemp products which have a legally regulated amount of THC, the psychoactive component in marijuana.

PSYCHOACTIVE HEMP DERIVATIVES

Products derived from
the *Cannabis Sativa* plant

Each of these products is a form of THC (tetrahydrocannabinol) synthetically derived from the hemp plant. The key similarity is that they are not naturally grown. These products are often compared to marijuana (Delta 9 THC) as they have similar psychoactive properties. They are consumed in the same ways as traditional marijuana: vapes, dabs, waxes, leaf, buds, live resins, edibles like candy or brownies, and drinks like seltzers. Occasionally, they are mixed with other substances such as nicotine or alcohol.

Sugar High

Cannabis High

Above, you see two pictures of what looks like similar candies. On the left is a "normal" product and a "cannabis-laced" product is on the right. Clearly, the packaging is very similar.

In the bottom picture, can you distinguish between the two product types without their packaging? One of the concerns regarding these look-alike products is that they are often marketed to children and may be indistinguishable from candy.

These unregulated products are available to youth in the Village of Harrison

In the state of Wisconsin, psychoactive hemp derivatives are not regulated. (Examples of regulated products are alcohol and tobacco products.) Unregulated products can be sold by any retailer to any buyer, regardless of the buyer's age.

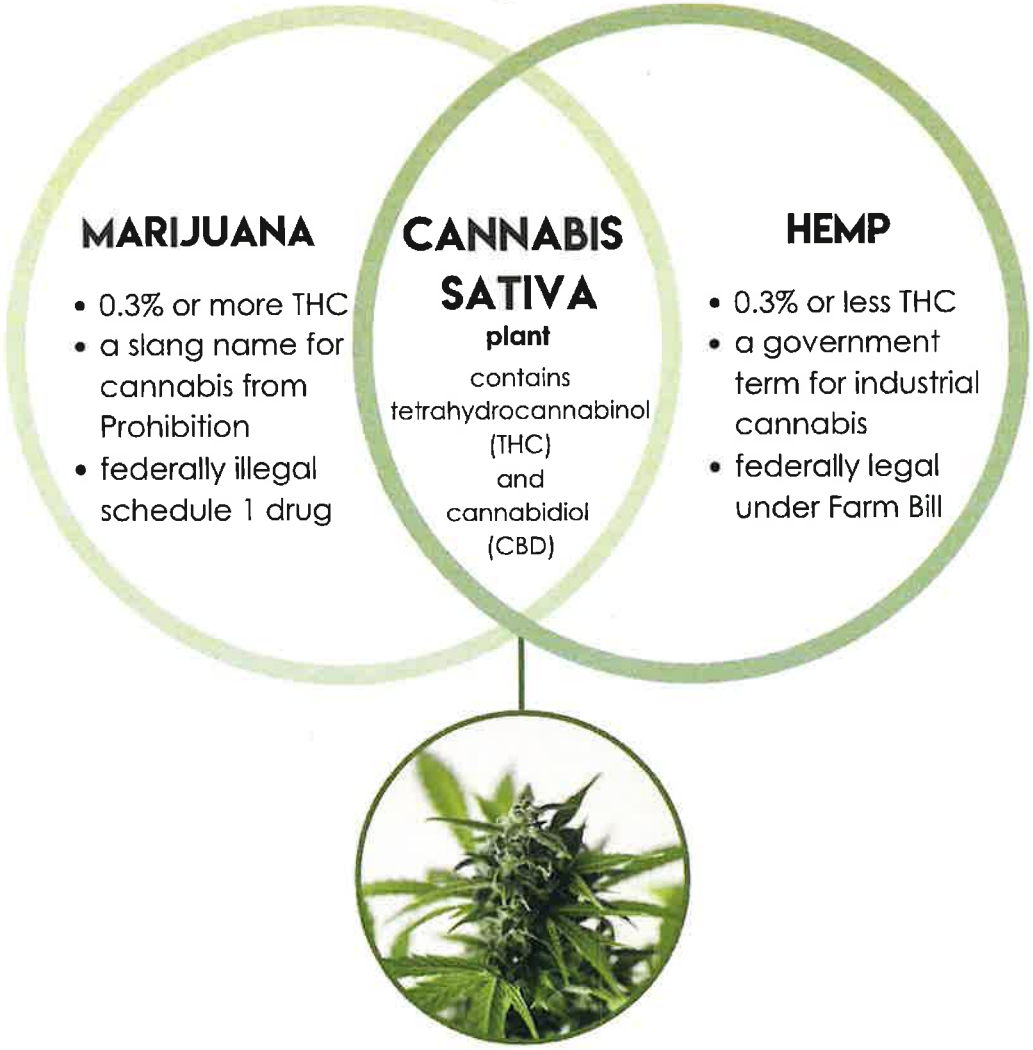
Hemp

- 0.3% or less THC
- Regulated as an agricultural product; federally legal under the 2018 Farm Bill
- Hemp is a government term for industrial cannabis

Marijuana

- 0.3% or more THC
- Federally, a Schedule 1 controlled substance; currently legal for recreational use in 24 states and for medical use in 41 states

The main difference between hemp and marijana is how much, THC, or Delta-9 tetrahydrocannabinol, they contain. THC is the psychoactive component of cannabis and is responsible for the "high" we associate with mariujana.



See above for another way to look at marijuana and hemp. The defining difference is the levels of their psychoactive component, tetrahydrocannabinol (THC). Hemp has 0.3% or less THC, meaning that hemp plants don't contain enough THC to create the "high" traditionally associated with marijuana. However, once the hemp is chemically altered, the hemp-derived products can produce intoxicating effects that are similar to, or even more intense than, the effects of marijuana.

Study overview:

- Tested 16 samples of Delta 8 THC products purchased from legal vendors across the US

- The average THC concentration was 3.4%, 10 times greater than the USDA limit of 0.3%
  - None of the products were THC-compliant with the 2018 Federal Farm Bill
- No samples were "generally safe" for consumption
  - All contained mixtures heavy metals
  - Seven samples contained acetone, ethanol, ethyl acetate, heptane, and isopropanol
  - Numerous "unknown" ingredients were also detected

ProVerde Laboratories: Independent Testing Study

The "natural" plant product, hemp, is chemically synthesized into potentially very potent products. Because of this chemical processing, hemp-derived products can also contain dangerous chemicals.

Q: Why should you be concerned?
A: There is increased incidence of poisoning.

1. Hemp-derived products are unregulated.

They are not evaluated, tested, or approved by the FDA. There is extreme variability in formulations, labeling, content, and concentrations. The products may expose consumers to higher levels of concerning substances than naturally occur in hemp. There is no oversight for the therapeutic health claims made by the products' manufacturers.

2. The effects of use are inconsistent and may be harmful.

Some products are psychoactive and intoxicating. Immediate adverse effects may include hallucinations, vomiting, tremors, anxiety, dizziness, confusion, and loss of consciousness. The effects of long-term use have not been studied.

3. There is Increasing evidence of the potential for becoming addicted.

Why does any of this matter?

Middle and high school students living in the Village of Harrison are using these products inside and outside of school.

- The products are currently legally for sale at a retailer near you
- There are no age restrictions for sales
- There is no licensing requirement for sellers

Delta 8 use was reported by 11% of 12th graders in the 2023 Monitoring the Future national study.

Risks of Youth Substance Use

The younger someone is when they start using a substance, the more likely they are to become addicted to a substance.

Substance use is especially harmful for teens and young adults:

- Substance use affects normal brain development and may lead to problems with learning, memory, coordination, reaction time, and judgment.
- Substance use may lead to short- and long-term effects on both physical AND mental health.
- Using a substance may lead to addiction and/or the use of other substances.

The concerns related to youth substance use apply to youth use of psychoactive hemp-derived products.

Call For Action

REACH requests that the Village of Harrison take action to protect youth by restricting the sale of psychoactive hemp derivatives to buyers aged 21 or older.

Regulating retailers by requiring licenses to sell hemp-derived products and monitoring sales practices through retail sale age compliance checks are additional evidence-based actions to decrease youth access to potentially dangerous products.

2018 Farm Bill

Agriculture Improvement Act of 2018, P.L. 115-334

"legalizes the cultivation, processing, marketing, and the sale of *hemp* and any cannabinoid if it is derived from hemp that is produced by a licensed grower and produced in a manner that is consistent with the 2018 farm bill, including any associated USDA regulations and applicable state regulations."

In 2018, Congress passed a comprehensive agricultural policy bill called the Farm Bill. In this legislation, Congress legalized the sale and production of hemp. The 2018 Farm Bill defines hemp as "the plant *Cannabis sativa* L. and any part of that plant… with a delta-9 THC concentration of not more than 0.3 percent on a dry weight basis." The Farm Bill does not mention other cannabinoids derived from hemp. This has led to the proliferation of other hemp-derived cannabinoids, such as delta-8 THC, delta-10 THC, THC-O, THCA, THC-B, HHC-P, etc.

The creation of these semi-synthetic cannabinoids derived from the CBD in hemp was not the intent of the Farm Bill. The immense variety and potency of these products that are available makes regulation almost impossible because there is potential for an unlimited number of derivations of these products to be created.

-ISSUE BACKGROUND (From CADCA- Substance Misuse Prevention Association)

Delta-8-THC use reported by 11% of 12th graders in 2023

Use of the psychoactive cannabis product is higher in states without existing delta-8 regulations or cannabis legalization, NIH-funded study finds.

Approximately 11% of 12th-grade students across the United States reported past-year use of delta-8-tetrahydrocannabinol (delta-8-THC, or delta-8 for short), according to an analysis of data from the 2023 Monitoring the Future survey, which is funded by the National Institutes of Health. Delta-8 is a psychoactive substance that is typically derived from hemp, a variety of the *Cannabis sativa* plant. Delta-8 has intoxicating effects similar to delta-9-THC(delta-9), the primary THC component responsible for the "high" people may experience from using cannabis.

The researchers measured delta-8 use for the first time in 2023 to investigate the drug's popularity among teens as more hemp-derived THC products enter the market and become more accessible. Studies show an association between cannabis use and negative health impacts for teens, underlining the importance of monitoring use of delta-8 and other cannabis products among younger people.

Among those who reported delta-8 use, close to 91% also reported marijuana use, contributing to the approximately 30% of 12th graders overall who reported past-year marijuana use. The survey also showed delta-8 use was more common in the South and Midwest regions and in states without cannabis legalization or delta-8 regulations. In contrast, levels of marijuana use did not differ by state-level cannabis policies. The findings were published as a brief report in *JAMA*. The Monitoring the Future survey is conducted by researchers at the University of Michigan, Ann Arbor, and funded by the National Institute on Drug Abuse (NIDA), part of NIH.

"11% is a lot of people – that's at least one or two students in every average-sized high school class who may be using delta-8. We don't know enough about these drugs, but we see that they are already extremely accessible to teens," said Nora Volkow, M.D., NIDA director. "Cannabis use in general has been associated with negative impacts on the adolescent brain, so we must pay attention to the kinds of cannabis products teens are using, educate young people about potential risks, and ensure that treatment for cannabis use disorder and adequate ment[illegible]ealth care is provided to those who need it."

Delta-8 is one of over 100 cannabinoids in the *Cannabis sativa* plant. There is no federal minimum age requirement to purchase delta-8 products, which may be sold online or in gas stations and convenience stores. In 2022, the U.S. Food and Drug Administration issued a consumer update warning of the serious health risks associated with use of delta-8 THC, including reports of adverse events involving use of delta-8 products and risks of exposure to toxic byproducts.

Numerous studies have found that adolescent cannabis use is associated with adverse effects on learning, memory, and attention; changes in brain development; and the development of cannabis use disorder and other psychiatric disorders, such as depression, psychosis and suicidality. There are no existing medications to treat cannabis use disorder, and current treatments are primarily through psychosocial interventions, such as cognitive behavioral therapy. More research is needed to understand how delta-8, specifically, impacts these and other health outcomes.

This analysis of Monitoring the Future survey results also found that approximately 14% of 12th graders in the South and 15% in the Midwest reported delta-8 use, compared to 10% in the Northeast and 5% in the West. Around 14% of those in states without cannabis legalization reported delta-8 use, compared to 8% in states with legalization. In states without existing delta-8 regulations, 14% reported use compared to 6% in states with delta-8 legislation.

"Delta-8 products are out there where teens can easily find and buy them, and there needs to be continued surveillance of its use, as well as public health efforts to help youth and parents stay informed and safe," said Alyssa Harlow, Ph.D., MPH, clinical assistant professor of population and public health sciences at the University of Southern California (USC), a member of the USC Institute for Addiction Science and lead author of the study.

"The national trends documented by the Monitoring the Future survey provide critical information for research and policy to keep pace with new developments in the market for cannabis products, which has seen considerable change in recent years," said Richard A. Miech, Ph.D., team lead of the Monitoring the Future study at the University of Michigan and co-author of the study.

Because the survey is taken in school settings, students who were absent, not enrolled, or with less engagement in school – a known risk factor for drug use – may have been less likely to participate in the survey, the investigators note. This exclusion may have potentially led to an underestimation of adolescent use of delta-8. Future work will need to assess delta-8 use in younger teens; include a larger survey sample across a wider range of states; and examine the use of other hemp-derived products, including delta-9 and delta-10.

The Monitoring the Future survey is given annually to students in classrooms in eighth, 10th, and 12th grades who self-report their substance use behaviors over various time periods, such as past 30 days, past 12 months, and lifetime. In 2023, the survey included questions on delta-8 for the first time, and they were administered to a randomly selected one-third of 12th grade students, resulting in 2,186 12th graders in 27 states. Given the prevalence of use found in the 2023 survey, questions on delta-8 have been added to future surveys for all age groups.

Learn About How *THC is Changing*

We are so excited to share our *THC is Changing* campaign! The creation of THC is Changing was created in response to increased community need for resources addressing novel, or new and emerging, THC products produced and sold in Wisconsin. The THC is Changing Campaign is driven by the Northwoods Coalition Advisory Board THC ad-hoc committee. The images and design were created by the Creative Services team at Marshfield Clinic Health System.

This campaign was created to educate the influencers of youth about the potential health hazards THC may cause while youth are targeted with the newest THC-infused products. Tetrahydrocannabinol or THC is the chemical in the cannabis plant that is responsible for psychoactive qualities when consumed. A loophole in the 2018 Farm Bill allows the sale of products containing a certain level of THC in Wisconsin. These products can be purchased by anyone, including youth, in most Wisconsin counties.

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From: Vicki Tessen, Clerk **Meeting Date:** January 28, 2025

Title:
Ordinance V25-03 Amending Chapter 6, Section 6-42(b) Kennel Licenses

Issue:
Does the Board wish to allow kennels in Rural Residential zoned districts, disallow kennels in Community Commercial zoned districts, change investigation authority, and remove a reference to an incorrect state statute?

Background and Additional Information:
Harrison currently issues three kennel licenses to residents. Two have been operating kennels, with ten dogs each, for eight or more years. Staff is not sure what the properties were zoned when the kennel licenses were initially licensed, but they are currently zoned rural residential. The third resident has had her kennel license for three years and owns or boards a total of four dogs on her over three-acre lot in a residential zoned district.

A fourth resident, also in a Rural Residential zoned district, has requested a kennel license for 2025. In reviewing kennel and zoning ordinances for this request, staff discovered the inconsistency between ordinances and past practices.

Staff (from the licensing and zoning departments) does not oppose adding kennels as an acceptable use in Rural Residential zoned districts. There have not been any known complaints regarding any of the three licensed kennels.

However, there are some reservations of a kennel possibly opening in a Community Commercial zoned district. The hope is to attract businesses, like coffee shops, offices, and retail stores, to the various commercial districts in the Village. A kennel, with its space requirements and noise, may not be conducive to that vision.

For these reasons, staff recommends adding kennels as a permitted use in Rural Residential zoned districts and removing kennels as a permitted use in Community Commercial zoned districts. If the board chooses to approve this change, staff will take the necessary steps to amend village zoning codes for Board consideration at an upcoming meeting.

Furthermore, an amendment is being requested to update the investigating authority from the Village Board to Law Enforcement. It is possible this was an oversight when the Village incorporated the Town's code of ordinances. In practicality, if a complaint was reported to the office about a kennel, staff would refer the issue to law enforcement first to investigate. If the issue, or issues, were significant enough to warrant consideration of revoking or not renewing their license then it would be brought to the Board.

Finally, staff is requesting striking the section referencing Wisc. Stats. Ch. 948 as that chapter does not address the care of dogs nor kennels. The intended considerations (for minimum standards of kennels) that are struck in this amendment will be incorporated in either the upcoming zoning code amendment proposal, in a rewrite of the municipal code, or in a formal kennel license policy.

Budget Impacts:
None

Recommended Action:
Motion to approve Ordinance V25-03 amending Municipal Code Chapter 6, Section 6-42(b) Kennel License to remove kennels from Community Commercial zoned districts, allow kennels in Rural Residential zoned districts, change the investigating authority from the Village Board to law enforcement, and strike the section referencing Wisc. Stats. Ch. 948.

AN ORDINANCE AMENDING CHAPTER 6, SECTION 6-42(b) KENNEL LICENSES

WHEREAS, Village ordinance 6-42(b) Kennel License, adopted in 2015, states (dog) kennels may only be located in General Agricultural or Community Commercial zoned districts, and

WHEREAS, there is a public interest in operating kennels in Rural Residential zoned districts, and

WHEREAS, the Rural Residential zoning code allows for agricultural and general farming, and housing of livestock, as acceptable accessory uses and structures, and

WHEREAS, Harrison is marketing its Community Commercial zoned districts to attract retail type business, and

WHEREAS, it may be more suitable to permit kennels in Rural Residential than Community Commercial zoned districts.

NOW THEREFORE, BE IT ORDAINED, the Village Board of the Village of Harrison, Calumet County, State of Wisconsin, does hereby amend ordinance 6-42(b) as follows:

Sec. 6-42. Issuance of dog and kennel licenses.

(b) *Kennel licenses.*

(1) Any person who keeps or operates a kennel may, instead of the license fee for each dog required by this chapter, apply for a kennel license for the keeping or operating of the kennel. Such person shall pay for the license fee established by Wis. Stats. § 174.053(1). Kennels may only be located in a General Agricultural [AG] or ~~Community Commercial [CC]~~ or Rural Residential [RR] zoning district pursuant to the village zoning regulations.

V25-04 Ordinance Amending Chapter 24, Sections 92-93 Hotel and Motel Room Tax.

Issue:
Does the Board wish to approve the amendment to the Hotel and Motel Room Tax Ordinance?

Background and Additional Information:
In 2024, the Village received room tax payments for 1st and 3rd quarters for stays at vacation rentals. Upon reviewing these payments, I reached Pam Seidl at the Fox Cities Convention and Visitors Bureau (CVB) to discuss our current room tax ordinance. It became clear that the ordinance was outdated. As a result, for 2024, the Village will follow the existing ordinance. However, in 2025 we will implement the amended ordinance.

In 2000, when the City of Appleton built the Performing Arts Center (PAC), municipalities in the area raised the room tax rate from 3% to 5% to help repay the bonds. Once these bonds were paid off, the Village ordinance should have been reverted back to 3%. However, since the Village did not receive room tax revenue until this year, the ordinance was never updated.

While amending the ordinance, state statutes were reviewed to ensure compliance with all relevant guidelines. (66.0615(1m)(d)1.) The statute stipulates that at least 70% of the room tax collected must be allocated to tourism promotion and development, which are the funds directed to the CVB.

Ten municipalities in the area make up the Fox Cities Tourism Zone and collect a 10% room tax to repay bonds for the Fox Cities Exhibition Center and Champion Center. The Village of Harrison and eight other municipalities are not part of the zone, so therefore do not have to pay for those bonds but are still served and benefit from the CVB.

Budget Impacts:
None

Recommended Action:
Motion to approve the amended ordinance as presented and circulated.

AN ORDINANCE AMENDING CHAPTER 24, SECTIONS 92 and 93 HOTEL AND MOTEL ROOM TAX

WHEREAS, in 2004 the Town of Harrison established and began imposing a tax on the rentals of room(s) or lodging by the public, and

WHEREAS, the purpose of this tax was to contribute funds to the Fox Cities Convention and Visitors Bureau in the expectation it would provide more jobs and a better economic climate for the Town, and

WHEREAS, the rate was set at 5%, due to having to repay bonds for the Performing Arts Center (PAC) at that time, and

WHEREAS, the bonds have since been repaid, and

WHEREAS, there have been updates to state statutes regarding room tax since 2004, and

WHEREAS, it is in the best interest of the Village to amend its ordinance by reducing the room tax rate to 3%.

NOW THEREFORE, BE IT ORDAINED, the Village Board of the Village of Harrison, Calumet County, State of Wisconsin, does hereby amend the following ordinance as follows:

Sec. 24-92. Room tax established.

(a) Pursuant to Wis. Stats. § 66.0615, a tax is hereby imposed on the privilege and service of furnishing, at retail, of rooms or lodging to transients by hotel keepers, motel operators and other persons furnishing accommodations that are available to the public, irrespective of whether membership is required for the use of the accommodations. Such tax shall be at the rate of ~~five~~ three percent of the gross room receipts for such retail furnishing of rooms or lodging. Such tax shall not be subject to the selective sales tax imposed by Wis. Stats. § 77.52(2)(a)1. The proceeds of such tax shall be remitted quarterly to the clerk.

(b) The clerk shall direct ~~five~~ twenty-five percent of the total amount collected to the general fund, ~~60~~ with the remaining 75 percent of the balance ~~of the proceeds~~ directed to the Fox Cities Convention and Visitors Bureau to be used for the promotion of the Fox Cities as a convention location and visitor area. ~~The remaining 40 percent of the balance shall be directed to the Fox Cities Area Room Tax Commission until such time as notification is made by the Fox Cities Area Room Tax Commission that such funds are no longer necessary.~~

Sec. 24-93. Filing quarterly returns.

(a) This section shall be administered by the clerk. The tax shall be payable quarterly and shall be due on the last day of the month next succeeding the calendar quarter for which imposed. A return shall be filed with the clerk by those furnishing at retail such rooms and lodging on or before the same date on which such tax is due and payable. Such return shall show the gross room receipts of the preceding calendar quarter from such retail furnishing of rooms or lodging, the amount of taxes imposed for such period, and such other information as the clerk deems necessary. ~~Every person required to file such quarterly~~

~~return shall, with his first return, elect to file an annual calendar year or fiscal year return. Such annual return shall be filed within 90 days of the close of each such calendar or fiscal year.~~

(b) ~~The annual return shall summarize the quarterly returns, reconcile and adjust for errors in the quarterly returns, and shall contain certain such additional information as the clerk requires. Such annual returns shall be signed by the person required to file a return or his duly authorized agent, but need not be verified by oath. The clerk may, for good cause, extend the time of filing any return, but in no event longer than one month from the filing date.~~

Ordinance V25-05 Repeal and Recreate Chapter 2, Section 2-123 & 2-124; Plan Commission

Issue:
Does the Board wish to repeal and recreate Sections 2-123 and 2-124 to formally reduce the number of Board members represented on the Plan Commission?

Background and Additional Information:
At a Board meeting in 2024, the Board discussed and agreed (by unanimous vote) to reduce the number of Board members on the Plan Commission from three to two starting with the 2025 appointments.

Currently, three Board members serve on the Plan Commission for a term concurrent to their Board terms. These include President Blackmer (term 2023-2025), Trustee Bartlein (term 2023-2025), and Trustee Van Hefty (term 2024-2026).

As it stands now, Trustee Van Hefty has one more year to his Board term and thus is already appointed to serve on the Commission next year. The president will begin their first year of the next two-year term in May of 2025. Therefore, the Board will only need to appoint two citizen members (one to fill the expiring citizen term and one to fill the new citizen term) in April 2025.

In 2026, the Board will have to decide if they want to continue appointing an even-year elected trustee (to serve two years on the commission) or open the appointment to any one of the trustees, even if the appointment would end in one year with their elected term.

Subject: Ru Evaluation Inspection at Village of Harrison

Dear Chad,

Thank you for speaking with me on January 6, 2025, to discuss the Village of Harrison's Recycling Program. The Department of Natural Resources (DNR) conducts recycling program evaluations to ensure RUs maintain the requirements of an effective recycling program according to ch. NR 544, Wis. Adm. Code. Upon review of the village's recycling file and the information you provided on the phone, the village is meeting effective program criteria. A copy of the completed inspection form is being sent.

Overall, the Responsible Unit (RU) has a well-run program, as demonstrated by years of collecting more than the minimum per capita collection standard of 106.55 lbs. per capita. We discussed your recycling ordinance from 2014. When making amendments in the future, here is the link to the DNR ordinance template on the DNR website: https://dnr.wisconsin.gov/topic/Recycling/RU.html. The information needed is under KEY REQUIREMENTS OF AN EFFECTIVE RECYCLING PROGRAM, scroll down to the first bullet point and click on "sample ordinance."

We also discussed the Compliance Assurance Plan (CAP), thank you for sending the most recent copy to the department. When making updates to the CAP in the future, guidance on developing a CAP can be found at the same DNR link: https://dnr.wisconsin.gov/topic/Recycling/RU.html. The information needed is also under using information on KEY REQUIREMENTS OF AN EFFECTIVE RECYCLING PROGRAM, scroll down to the third bullet point and click on "developing a compliance assurance plan for an effective recycling program." If any new updates are made to the recycling ordinance or CAP, please send a copy to the department.

You shared with me that your outreach efforts include information on the RU website, social media, and quarterly newsletters. If you choose to do more outreach in the future (such as adding links to the DNR's resources to the RU website) the DNR has many publications available. They are free to either print or order on the DNR website using the DNR Waste and Materials Management Program Publication Order Form at https://dnr.wisconsin.gov/topic/Recycling/Outreach.html

Thank you for your current and future efforts to increase recycling in your community. If you still have any other questions or concerns, please feel free to contact me or Jennifer Semrau, DNR Waste Reduction and Diversion Coordinator at (608) 381-0960 or Jennifer.semrau@wisconsin.gov.

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From:
Russ Van Gompel, Interim Manager

Meeting Date:
January 28, 2025

Title:
Reviewing and re-writing Harrison's Municipal Code

Issue:
Should the Village engage the services of Russ Van Gompel, McMahon Public Safety and Municipal Management team to review and re-write and modernize the Village of Harrison Municipal Code.

Background and Additional Information:
When the Village incorporated from a town in 2013, the Municipal Code was updated by basically doing a search and replace and substituted Village to replace Town. The current code has numerous references to Wisconsin Statue Section 60, which is the statute governing towns. As a Village, the Municipal Code should reference Statues from Chapter 61, Villages, or Chapter 66, General Municipality Law.

With my time as a coach for the new Finance Director and Manager winding down, I was asked to review this project and present a plan to continue to work for the Village to complete this project. I am estimating the time to conduct this project is about 250 hours. My plan would include reviewing the Village of Harrison Code with the Village of Fox Crossing, the Village of Greenville, the Village of Little Chute and the Village of Caledonia. Attached is a summary of these 5 communities.

I would prepare a draft change of various chapters. I would then present the changes to staff and the Village Attorney. Ultimately the proposed changes would be presented to the Village Board for their consideration. I could perform most of my work remotely and still come into the office once per week or maybe even twice a month. I will provide a monthly report of my time and would come back to the Board prior to exceeding 250 hours.

This project could be provided under the previously approved contract for Management Counsel.

Budget Impacts:
The 2025 Operational budget includes $35,000 for this project under the Village Manager Budget.

Recommended Action:
Motion to approve engaging McMahon to re-write and modernize the Harrison Municipal Code.

4. DESIGN NARRATIVE

4.1 HVAC

4.1.1 Existing Garage Space (Adjacent to Area of Work)

4.1.1.1 Demolition

4.1.1.1.1 The existing MUA-X in the existing garage can be demolished due to age and to upgrade the system to meet current code requirements on parking garage ventilation. All associated wiring and accessories can also be demolished with the unit. The existing hood on the roof will remain in place and be reused.

4.1.1.1.2 The existing exhaust fan on the East exterior wall will be demolished. All associated wiring, ductwork, and accessories can be demolished with it.

4.1.1.1.3 The penetrations through the existing fire walls can be reused to pass ductwork through to the North exterior wall where the new exhaust fan will be located.

4.1.1.2 New Construction

4.1.1.2.1 The owner would like to include a welding fume hood (WFH-1) collection system. At this time, it is believed that the welding will be infrequent and for short durations. Therefore, a mobile fume collector on wheels with an adjustable arm shall be provided in this application. During final design, if the frequency and duration of welding is learned to be more significant, a larger system may be needed.

4.1.1.2.2 A new make-up air unit (MAU-1) will be installed at the location of the demolished unit. Reuse the existing intake hood on the roof if appropriate. Interlock a new exhaust fan (EF-5) with (MAU-1). The system shall be controlled via a gas detection system. See 4.1.4.1.1 for an explanation of the system control per code.

4.1.1.2.3 Install EF-5 on the North exterior wall to the far East of the existing garage space. The ductwork will need to route above the ceiling of the new office renovation, through the existing fire wall, and down to 16 inches above finished floor.

4.1.2 Business: Office Space (Renovation)

4.1.2.1 Demolition

4.1.2.1.1 The existing wash bay space has a waste oil tank (WOT-1) that is being relocated to outside the building as part of this project.

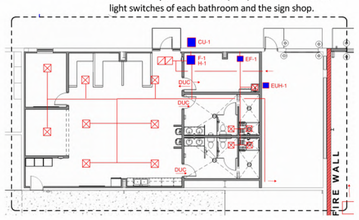
4.1.2.1.2 There are openings in the existing 3-HR fire wall that separates the existing wash bay from the drive thru bays. All the penetrations need to be resealed to the appropriate fire rating if they are not reused in new construction. There is a large transfer opening covered by grilles on both sides. This penetration needs to be filled or reused to maintain the 3-HR fire rating. No air will be transferred between the spaces. The vent pipe from the waste oil heater needs to be resealed with fire rating. The duct at the east end of the wash bay will be demolished. This penetration needs to be filled to maintain the 3-HR fire rating. The exhaust fan (EF-X) it is connected to is being demolished. Due to the space's new occupancy, it is no longer needed. Field verify the fan's airflow and relocate it as the fan for the new wash bay if it meets the demand.

4.1.2.1.3 The existing wash bay has a gas fired radiant tube heater (RH-X). The heater and all associated wiring, piping, etc. shall be demolished.

4.1.2.2 New Construction

4.1.2.2.1 A new oil pump (P-1) and piping will be required to provide the oil to the existing waste oil heater (WOH-X) in the existing garage from the new tank location.

4.1.2.2.2 The office space will be served by a new single natural gas furnace system (F-1) with a cooling only condenser (CU-1) and duct mounted humidifier (H-1). The supply air will be ducted to diffusers to evenly supply the conditioned air to each room based on their calculated cooling load. One return will be in the break room. Each room, excluding the bathrooms, will transfer air into the break room through lined ductwork above the ceiling. Door grilles on the bathrooms will transfer the required make-up air for exhaust. The bathrooms and mechanical room will be exhausted by an exhaust fan (EF-1) interlocked with all light switches of each bathroom and the sign shop.



4.1.3 S-1 Storage: Sign Shop (Renovation)

4.1.3.1 New Construction

4.1.3.1.1 The ventilation system in the sign shop will be provided by F-1. This space meets all the exceptions for natural ventilation of a parking garage per SPS 364. Note, any occupants in the space need a way to manually open the door from the inside.

4.1.3.1.2 The heat in the sign shop will be provided by F-1 and supplemented by a small electric heater (EUH-1) in case the garage door is opened during colder months unexpectedly.

4.1.4 S-2 Storage: Garage and Wash Bay (Addition)

4.1.4.1 New Construction

4.1.4.1.1 The ventilation system in the Garage will consist of 100% outside air ventilation via a direct fired make up air unit (MUA-2), interlocked damper (M-1) and exhaust fans (EF-2), (EF-3), and (EF-4). EF-4 will be an inline fan mounted indoors and ducted to a louver (L-1) with a backdraft damper. EF-2 and EF-3 will be mounted on the roof with backdraft dampers in the curb. Mount MUA-2 on grade on a 6" concrete pad. Per SPS 364.0404, The system shall be arranged to operate intermittently for a total of at least 5 hours in each 24–hour period at a minimum rate of 0.75 cfm/sf and shall also include the installation of carbon monoxide and nitrogen dioxide sensors as appropriate for the room or space. The system shall also be designed to address the requirements listed in s. SPS 364.0404 (2) and (3). The system shall be arranged to operate automatically upon detection of carbon monoxide at a level of 35 parts per million by automatic detection devices. If diesel–fueled vehicles are stored, the system shall be arranged to operate automatically upon detection of nitrogen dioxide at a level of one part of per million by automatic detection devices. The system shall maintain the garage at negative or neutral pressure relative to other spaces.

4.1.4.1.2 The heating system in the garage will consist of gas fired radiant tube heaters (RH-1) and (RH-2). They shall be size for envelope loss and located between the bays. In addition, supplemental heat will be provided by natural gas unit heaters. They shall be sized for quick recovery when the garage doors are opened. Each unit heater shall be wall or column mounted. Design for low efficiency, 80% AFUE unit heaters. Higher efficiency heaters require condensate drainage and acid neutralization from the flue. Provide sealed combustion units with concentric venting through the exterior walls. All the venting systems shall be terminated in accordance with IFGC 503.8.

4.1.4.1.3 The ventilation system in the wash bay will operate as part of the MUA-2 system. The fan shall be a wall-mounted upblast exhaust fan mounted high.

4.1.4.1.4 The heating system in the wash bay will consist of a gas fired radiant tube heater (RH-3) sized for the calculated envelope loss. The unit will be ceiling mounted. Due to high humidity from car washing, the radiant heater shall be selected for harsh environments.

1. PROJECT OVERVIEW

1.1 BACKGROUND

The Town of Harrison is building a new Public Works Addition and Remodel located in Harrison, Wisconsin. CPH's design will be performed to develop a design narrative which will be used to solicit design/build construction bids.

The new addition will be used for parks and streets maintenance vehicle storage and wash bay. The new renovation will be used for additional offices, expanded break room, and new bathroom.

1.2 SCOPE

The project scope of work covered by this design narrative will consist of using all new HVAC/Plumbing equipment. This design basis is based on the relevant Standards and Codes of Practice listed in the specified sections. CPH will ensure that the following objectives are incorporated into the design:

- An economic fit for purpose of design
- Consistency and standardization of design
- Health, safety, and environmental arrangements

McMahon will be providing the environmental, civil, structural, and architectural design narratives while CPH will be providing the HVAC, plumbing and electrical design narratives.

1.3 DELIVERABLE

1.3.1 Project Deliverable

1.3.1.1 Design Narrative – The MEP Contractors shall use this design narrative as a basis of design for gathering a projected project cost. The Contractors are responsible for providing cost estimates to complete the project. The information in the design narrative is preliminary and should not be used as a final design document. Further work shall be done to ensure a complete design if the project moves forward.

1.3.1.2 Cost Estimate – The MEP Contractors shall create detailed cost estimates for the installation of the systems described within this document. This design narrative only includes estimated equipment costs. It does not include any installation labor cost.

1.3.1.3 Currently Unknown – any items in blue text do not significantly impact the budget cost, but will be required for the design stage.

2. BUILDING DESCRIPTION

The new Department of Public Works building addition will be used by the Parks Maintenance Department and is a pre-engineered metal building. The addition will be approximately 60' x 150' and consist of three drive thru bays and one drive thru wash bay.
The project also includes an office renovation inside the existing wash bay. The 40' x 60' office space will have one office, file room, break area, cubicles, bathrooms with showers, mechanical storage room, and a sign shop.

N/A **GOVERNMENT PROGRAMS:** Seller shall deliver to Buyer, within _____ days ("15" if left blank) after acceptance of this Offer, a list of all federal, state, county, and local conservation, farmland, environmental, or other land use programs, agreements, restrictions, or conservation easements, which apply to any part of the Property (e.g., farmland preservation agreements, farmland preservation or exclusive agricultural zoning, use value assessments, Forest Crop, Managed Forest, Conservation Reserve Program, wetland mitigation, shoreland zoning mitigation plan or comparable programs), along with disclosure of any penalties, fees, withdrawal charges, or payback obligations pending, or currently deferred, if any. This contingency will be deemed satisfied unless Buyer delivers to Seller, within 7 days after the deadline for delivery, a notice terminating this Offer based upon the use restrictions, program requirements, and/or amount of any penalty, fee, charge, or payback obligation.

CAUTION: If Buyer does not terminate this Offer, Buyer is hereby agreeing that Buyer will continue in such programs, as may apply, and Buyer agrees to reimburse Seller should Buyer fail to continue any such program such that Seller incurs any costs, penalties, damages, or fees that are imposed because the program is not continued after sale. The Parties agree this provision survives closing.

MANAGED FOREST LAND: If all, or part, of the Property is managed forest land under the Managed Forest Law (MFL) program, this designation will continue after closing. Buyer is advised as follows: The MFL is a landowner incentive program that encourages sustainable forestry on private woodlands by reducing and deferring property taxes. Orders designating lands as managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the MFL program changes, the new owner must sign and file a report of the change of ownership on a form provided by the Department of Natural Resources and pay a fee. By filing this form, the new owner agrees to the associated MFL management plan and the MFL program rules. The DNR Division of Forestry monitors forest management plan compliance. Changes a landowner makes to property that is subject to an order designating it as managed forest land, or to its use, may jeopardize benefits under the program or may cause the property to be withdrawn from the program and may result in the assessment of penalties. For more information call the local DNR forester or visit https://dnr.wisconsin.gov/topic/forestry.

USE VALUE ASSESSMENTS: The use value assessment system values agricultural land based on the income that would be generated from its rental for agricultural use rather than its fair market value. When a person converts agricultural land to a non-agricultural use (e.g., residential or commercial development), that person may owe a conversion charge. To obtain more information about the use value law or conversion charge, contact the Wisconsin Department of Revenue's Equalization Bureau or visit http://www.revenue.wi.gov/.

FARMLAND PRESERVATION: The early termination of a farmland preservation agreement or removal of land from such an agreement can trigger payment of a conversion fee equal to 3 times the per acre value of the land. Contact the Wisconsin Department of Agriculture, Trade and Consumer Protection Division of Agricultural Resource Management or visit http://www.datcp.state.wi.us/ for more information.

CONSERVATION RESERVE PROGRAM (CRP): The CRP encourages farmers, through contracts with the U.S. Department of Agriculture, to stop growing crops on highly erodible or environmentally sensitive land and instead to plant a protective cover of grass or trees. CRP contracts run for 10 to 15 years, and owners receive an annual rent as well as certain incentive payments and cost share assistance for establishing long-term, resource-conserving ground cover. Removing lands from the CRP in breach of a contract can be quite costly. For more information call the state Farm Service Agency office or visit http://www.fsa.usda.gov/.

SHORELAND ZONING ORDINANCES: All counties must adopt uniform shoreland zoning ordinances in compliance with Wis. Admin. Code Chapter NR 115. County shoreland zoning ordinances apply to all unincorporated land within 1,000 feet of a navigable lake, pond or flowage or within 300 feet of a navigable river or stream and establish minimum standards for building setbacks and height limits, cutting trees and shrubs, lot sizes, water runoff, impervious surface standards (that may be exceeded if a mitigation plan is adopted and recorded) and repairs to nonconforming structures. Buyers must conform to any existing mitigation plans. For more information call the county zoning office or visit https://dnr.wi.gov/. Buyer is advised to check with the applicable city, town or village for additional shoreland zoning or shoreland-wetland zoning restrictions, if any.

FENCES: Wis. Stat. § 90.03 requires the owners of adjoining properties to keep and maintain legal fences in equal shares where one or both of the properties is used and occupied for farming or grazing purposes.

CAUTION: Consider an agreement addressing responsibility for fences if Property or adjoining land is used and occupied for farming or grazing purposes.

PROPERTY DEVELOPMENT WARNING: If Buyer contemplates developing Property for a use other than the current use, there are a variety of issues that should be addressed to ensure the development or new use is feasible. Buyer is solely responsible to verify the current zoning allows for the proposed use of the Property at lines 251-255. Municipal and zoning ordinances, recorded building and use restrictions, covenants and easements may prohibit certain improvements or uses and therefore should be reviewed. Building permits, zoning or zoning variances, Architectural Control Committee approvals, estimates for utility hook-up expenses, special assessments, changes for installation of roads or utilities, environmental audits, subsoil tests, or other development related fees may need to be obtained or verified in order to determine the feasibility of development of, or a particular use for, a property. Optional contingencies that allow Buyer to investigate certain of these issues can be found at lines 244-304 and Buyer may add contingencies as needed in addenda (see line 682).

Buyer should review any plans for development or use changes to determine what issues should be add

■ SATISFACTION OF FINANCING COMMITMENT CONTINGENCY: If Buyer qualifies for the loan described in this Offer or another loan acceptable to Buyer, Buyer agrees to deliver to Seller a copy of a written loan commitment. This contingency shall be satisfied if, after Buyer's review, Buyer delivers to Seller a copy of a written loan commitment (even if subject to conditions) that is:

(1) signed by Buyer; or,

(2) accompanied by Buyer's written direction for delivery.

Delivery of a loan commitment by Buyer's lender or delivery accompanied by a notice of unacceptability shall not satisfy this contingency.

CAUTION: The delivered loan commitment may contain conditions Buyer must yet satisfy to obligate the lender to provide the loan. Buyer understands delivery of a loan commitment removes the Financing Commitment Contingency from the Offer and shifts the risk to Buyer if the loan is not funded.

■ SELLER TERMINATION RIGHTS: If Buyer does not deliver a loan commitment on or before the Deadline on line 357. Seller may terminate this Offer if Seller delivers a written notice of termination to Buyer prior to Seller's Actual Receipt of written loan commitment from Buyer.

IF THIS OFFER IS NOT CONTINGENT ON FINANCING COMMITMENT Within _____ days ("7" if left blank) after acceptance, Buyer shall deliver to Seller either:

(1) reasonable written verification from a financial institution or third party in control of Buyer's funds that Buyer has, at the time of verification, sufficient funds to close; or

_____ [Specify documentation Buyer agrees to deliver to Seller].

If such written verification or documentation is not delivered, Seller has the right to terminate this Offer by delivering written notice to Buyer prior to Seller's Actual Receipt of a copy of Buyer's written verification. Buyer may or may not obtain mortgage financing but does not need the protection of a financing commitment contingency. Seller agrees to allow Buyer's appraiser access to the Property for purposes of an appraisal. Buyer understands and agrees that this Offer is not subject to the appraisal meeting any particular value, unless this Offer is subject to an appraisal contingency, nor does the right of access for an appraisal constitute a financing commitment contingency.

N/A **APPRAISAL CONTINGENCY:** This Offer is contingent upon Buyer or Buyer's lender having the Property appraised at Buyer's expense by a Wisconsin licensed or certified independent appraiser who issues an appraisal report dated subsequent to the date stated on line 1 of this Offer, indicating an appraised value for the Property equal to or greater than the agreed upon purchase price.

This contingency shall be deemed satisfied unless Buyer, within _____ days after acceptance, delivers to Seller a copy of the appraisal report indicating an appraised value less than the agreed upon purchase price, and a written notice objecting to the appraised value.

This Offer shall be null and void if Buyer makes timely delivery of the notice objecting to appraised value and the written appraisal report and:

(1) Seller does not have the right to cure; or

(2) Seller has the right to cure but:

(a) Seller delivers written notice that Seller will not adjust the purchase price; or

(b) Seller does not timely deliver the written notice adjusting the purchase price to the value shown on the appraisal report.

NOTE: An executed FHA, VA or USDA Amendatory clause may supersede this contingency.

N/A **CLOSING OF BUYER'S PROPERTY CONTINGENCY:** This Offer is contingent upon the closing of the sale of Buyer's property located at _____ no later than _____ (the Deadline). If closing does not occur by the Deadline, this Offer shall become null and void unless Buyer delivers to Seller, on or before the Deadline, reasonable written verification from a financial institution or third party in control of Buyer's funds that Buyer has, at the time of verification, sufficient funds to close or proof of bridge loan financing, along with a written notice waiving this contingency. Unless otherwise provided, Seller is not obligated to give Buyer notice prior to any Deadline, nor is any particular secondary buyer given the right to be made primary ahead of other secondary buyers. Buyer may declare this Offer null and void by delivering written notice of withdrawal to Seller prior to delivery of Seller's notice that this Offer is primary. Buyer may not deliver notice of withdrawal earlier than _____ days ("7" if left blank) after acceptance of this Offer. All other Offer Deadlines that run from acceptance shall run from the time this Offer becomes primary.

A "Foreign Person" is a nonresident alien individual, foreign corporation, foreign partnership, foreign trust, or foreign estate. The "Amount Realized" is the sum of the cash paid, the fair market value of other property transferred, and the amount of any liability assumed by Buyer.

CAUTION: Under this law if Seller is a Foreign Person, and Buyer does not pay or withhold the tax amount, Buyer may be held directly liable by the U.S. Internal Revenue Service for the unpaid tax and a tax lien may be placed upon the Property.

Seller hereby represents that Seller is a non-Foreign Person, unless (1) Seller represents Seller is a Foreign Person in a condition report incorporated in this Offer per lines 94-97, or (2) no later than 10 days after acceptance, Seller delivers notice to Buyer that Seller is a Foreign Person, in which cases the provisions on lines 637-639 apply.

Seller shall, no later than closing, execute and deliver to Buyer, or a qualified substitute (attorney or title company as stated in IRC § 1445), a sworn certification under penalties of perjury of Seller's non-foreign status in accordance with IRC § 1445. If Seller fails to timely deliver certification of Seller's non-foreign status, Buyer shall: (1) withhold the amount required to be withheld pursuant to IRC § 1445; or, (2) declare Seller in default of this Offer and proceed under lines 601-608.

IF SELLER IS A FOREIGN PERSON. If Seller has represented that Seller is a Foreign Person, Buyer shall withhold the amount required to be withheld pursuant to IRC § 1445 at closing unless the Parties have amended this Offer regarding amounts to be withheld, any withholding exemption to be applied, or other resolution of this provision.

COMPLIANCE WITH FIRPTA. Buyer and Seller shall complete, execute, and deliver, on or before closing, any instrument, affidavit, or statement needed to comply with FIRPTA, including withholding forms. If withholding is required under IRC §1445, and the net proceeds due Seller are not sufficient to satisfy the withholding required in this transaction, Seller shall deliver to Buyer, at closing, the additional funds necessary to satisfy the applicable withholding requirement. Seller also shall pay to Buyer an amount not to exceed $1,000 for actual costs associated with the filing and administration of forms, affidavits, and certificates necessary for FIRPTA withholding and any withholding agent fees.

Any representations made by Seller with respect to FIRPTA shall survive the closing and delivery of the deed.

Firms, Agents, and Title Companies are not responsible for determining FIRPTA status or whether any FIRPTA exemption applies. The Parties are advised to consult with their respective independent legal counsel and tax advisors regarding FIRPTA.

☐ **SELLER PAYMENT OF COMPENSATION TO BUYER'S FIRM:** Seller agrees to pay to Buyer's Firm the amount of _____ (e.g., dollar amount, % of purchase price, etc.), toward Buyer's brokerage fees at closing. INFORMED CONSENT AND AGREEMENT TO USE ELECTRONIC DOCUMENTS AND SIGNATURES

("Consent and Agreement")

Please carefully review this Informed Consent and Agreement to Use Electronic Documents and Signatures. If you consent and agree to electronically receive, review and sign the documents in the envelope subject to the terms below, check the "I agree to use Electronic Records and Signatures" box and then click the "Review Document" button below.

Why We Are Asking for Your Consent

We must ask for and obtain your consent before using electronic documents and signatures in its relationship with you. This is for documents such as investment advisory agreements with us and account agreements and related documents with the Custodian, as described in more detail below. We and the Custodian are each required by law to give you certain information "in writing" – which means you are entitled to receive and review paper documents and, if your signature is required, to sign the paper documents by hand. In order to use an electronic process instead of paper, we and the Custodian need your consent.

Your Consent and Agreement and What it Means

Your Consent is optional. It is solely up to you whether or not to do so. If you want to use electronic documents and signatures, then you must consent and agree to the terms and conditions relating to the system and process that we and the Custodian will use, as set forth below. You will be asked for your consent each time we send you an envelope of electronic documents.

By checking the "I agree to use Electronic Records and Signatures" box and then clicking the "Review Documents" button below, you will be giving your informed consent and agreement to use the electronic documents and signature system and process described below to electronically receive, review, and electronically sign paperless documents sent to you in electronic envelopes. You will be agreeing to be bound by any documents you electronically sign the same as if you had received a paper copy of the document and signed it by hand with an ink pen. If you do not agree to the terms of this Consent and Agreement, do not check the "I agree" box. Note that even if you agree now, in the future after receiving an electronic document, you will be able to choose whether or not to electronically sign that document or ask for a paper version to sign. You may also withdraw your consent as described below.

To Whom You are Giving Your Consent

This Consent and Agreement is between you and either (a) the independent investment advisory firm whose investment advisory agreement or other Advisor Form (as defined below) is presented for your electronic signature ("*Investment Advisor*") or (b) or the broker-dealer/custodian whose account application or other Custodian Form (as defined below) is presented for your electronic signature (the "*Custodian*," depending on whether the documents presented to you are Advisor Forms or Custodian Forms, as defined below. We are independent of and not owned, affiliated with or supervised by the Custodian. If the electronic document presented is an Advisor Form, then this Consent and Agreement is between you and us and are not reviewed or maintained by Custodian. If the electronic document presented is a Custodian Form, then this Consent and Agreement is between you and the Custodian. For ease of reference, the terms "*Counterparty*," "*we*" and "*us*" as used in this Consent and Agreement refer to either Investment Advisor or the Custodian, as applicable, based on whether the electronic document presented is an Advisor Form or a Custodian Form, as defined below.

What Documents You will Receive Electronically

By agreeing to this Consent and Agreement you will receive, review and sign electronically the electronic documents presented in the envelope. These electronic documents may include, but are not limited to

- Investment Advisor’s documents, such as, but not limited to, Investment Advisor’s investment advisory or similar agreement, and Investment Advisor’s Form ADV or other disclosure brochure ("*Advisor Forms*").
- Custodian documents, such as, but not limited to, the account application agreement and other documents and forms relating to your account with the Custodian ("*Custodian Forms*").

We may always, in our sole discretion, provide you with any document on paper, even if you have authorized electronic delivery. Sometimes the law, or our agreement with you, requires you to give us a written notice. You must still provide these notices to us on paper, unless we tell you how to deliver the notice to us electronically.

How you will Receive Electronic Documents

Investment Advisor is your agent who chooses which electronic documents to send you for review and electronic signature. This is the case whether those documents are Advisor Forms or Custodian Forms. Investment Advisor will place electronic documents, which may or may not require your signature, in an electronic envelope on the DocuSign system (as described below), and a link to the envelope will be emailed to you. You will access the envelope and electronic documents, review them, and, if you choose, electronically sign them using the DocuSign system. Investment Advisor, and not the Custodian, is responsible for the content of the electronic documents sent to you. Even if the electronic documents are Custodian Forms, they will be selected and prepared by Investment Advisor and sent to you at the direction and on behalf of Investment Advisor. You acknowledge and agree that if you receive any information or electronic document that is erroneous, not intended for you, or, in the case of Custodian Forms, deemed ineligible for electronic signature by the Custodian upon its receipt, it is solely the responsibility of Investment Advisor and not the Custodian. You agree to immediately notify Investment Advisor if you receive any electronic document or information that appears to be in error or not intended for you.

How Electronically Signed Documents are Processed

You acknowledge and agree to the following regarding your receipt of electronic documents and your use of electronic signatures. If an electronic document requires the signatures of others besides you, it will not be submitted to Counterparty for processing or effective as to its contents or any actions it instructs or authorizes until all required signatures have been obtained. If any party whose signature is required declines to electronically sign, then the electronic signature of any party previously obtained will not be effective, and all parties will be required to hand sign a paper document.

Withdrawing Your Consent

Counterparty will ask you for this Consent and Agreement each time it presents an envelope of electronic documents. Once you give your Consent and Agreement for an envelope, you cannot withdraw it for that envelope. You can, however, choose not to give your consent in the future when you are presented with subsequent envelopes. If you do this, you will be unable to proceed

electronically and you may be required to use paper documents and signatures. If you give your Consent and Agreement for an envelope, although you may not withdraw it, you can still choose not to electronically sign any or all electronic documents in that envelope. Once you electronically sign a particular document, you cannot withdraw the Consent and Agreement for that document, but you can choose to not electronically sign any other documents included in the same envelope. In addition, before you complete an electronic signature of a document, you may cancel and exit the electronic signing process before clicking the "Confirm Signing" (or other similarly titled button) and closing your browser.

Retaining Electronic Documents

You should retain a copy of all electronic documents we provide to you, including this Consent and Agreement, for your future reference. You can do this by printing the page on paper or saving it to your computer or mobile device. A copy of this Consent and Agreement, as it may be amended from time to time for consents to be given in the future, will also be available to you at www.docusign.com.

Getting Paper Documents

If instead of receiving and signing electronic documents, you would rather use paper documents, you should contact Investment Advisor. If you electronically sign a document, you can, in addition to printing a paper copy and/or saving it to your computer, obtain a paper copy from Counterparty by contacting Investment Advisor or the Custodian.

DocuSign System

Investment Advisor has entered into an agreement with DocuSign, Inc. or a third party vendor (“Vendor”) for use of their DocuSign, Inc. license ("*DocuSign*") to make the DocuSign electronic signing system available to facilitate your receipt, review and electronic signature of electronic documents. Your use of the DocuSign system is subject to DocuSign’s Terms of Use available at www.docusign.com/company/terms-of-use. Investment Advisor, Vendor, the Custodian, and DocuSign are not affiliated with each other. Neither Investment Advisor nor the Custodian is responsible for the DocuSign system, and Investment Advisor and the Custodian each disclaims any representations and all warranties regarding the DocuSign system. Your use of the DocuSign system is entirely your choice and solely your responsibility.

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From: Chad Pelishek, Assistant Village Manager **Meeting Date:** 1/28/2025

Title: Purchase of a new speaker sound system for the Board Room

Issue: Does the Village Board working with Camera Corner/Connecting Point to provide and install new sound system with request to speak options in the Village Hall Board Room.

Background and Additional Information:
Two local companies provide wireless microphone systems and also can provide support for installation and operation. Amplify Technologies' bid for a 10-mic wireless system was $36,900 and from Camera Corner the 10-mic wireless system with an allowance of $5,000 to assist in set up is $27,196. The 10 mics would be used as follows: 7 for Trustees, 2 for staff and 1 for public comments.

The Shure wireless mic system was recommended from the City of Appleton IT Director as Appleton has used the system in their council room for many years. This wireless system also allows the speakers to be put in a que and allowed to speak by the chair of the meeting.

Staff recommends proceeding with Camera Corner/Connecting Point option for $27,196.

Budget: This has not been budgeted and would need to be taken from the contingency amount.

Recommended Action: Motion to approve the $27,196 to provide and install new sound system in Village Board room.

MEMORANDUM

DATE: **January 20, 2025**

TO: **Chad Pelishek, Assistant Village Manager**

FROM: **Lee R. Reibold, P.E.**

RE: **Woodland Road Speed Study Update**
Lake Park Road to CTH N

The Calumet County Sheriff's Department deployed their speed trailer for a period of seven days, for both west bound and east bound traffic. The results of the data collection included average speed, 50th and 85th percentile speed, pace speed range, minimum and maximum speed and traffic volume. The data was collected between December 11th, 2024 and January 9th, 2025.

There are several factors that are reviewed as part of a speed study, including the following:

- 85th percentile speed.
- Crash data for the past five years.
- Assessment of the roadway geometrics including roadway width, curves, roadway hazards, sight distances, shoulder width and condition.
- Determination of the 10mph pace.
- Determination of the average speed.
- Evaluation of the density of roadway development in terms of the number of driveways and access points where vehicles can enter the roadway.
- Parking practices and pedestrian and vehicle activity.
- Current level of speed enforcement.

The results of the speed data collected by the Calumet County Sheriff's office indicate that the 85th percentile speed is within 5 mph of the posted speed limit, in this case 45mph, the posted speed limit falls within the range of the 10mph pace data collected, and the average speed data collected is within 5 mph of the posted speed limit. There have been no recent roadway alignment, horizontal or vertical, changes, or changes in width. With the recent Creekside Estates and Harrison Heights Subdivision Developments, there have been a few additional driveways and roadway access points constructed. Based upon the data collected by the Calumet County Sheriff's Department is within 5mph of the posted speed limit and that there have been no changes to the roadway geometrics, a complete speed study was not warranted and per the Wisconsin Department of Transportation Chapter 13 Section 5, Speed Limits, no change to the posted speed limit is warranted at this time.

VILLAGE BOARD MEETING **VILLAGE OF HARRISON**

From: Chad Pelishek, Assistant Village Manager **Meeting Date:** 1/28/2025

Title: Board Decision on whether to have fireworks or a drone show for Village Celebration on proposed date of July 17, 2025.

Issue: Does the Village Board support a drone show at Farmers Field in lieu of the fireworks for the Village celebration event?

Background and Additional Information:
In 2023 and 2024, the Village received multiple complaints on the debris from the Village sponsored fireworks show at Darboy Park. Village staff has been working with the Kiwanis Club to consider moving the July 17, Sport night event to Farmers Field since it is a larger park with more off-street parking and less houses to be affected by the fireworks.

Village staff has been researching the completion trying a drone show in lieu of the fireworks. It costs about $120 per drone and with the budget we could get about 20–25-minute show with 200 to 250 drones that the Village would help develop. We found a vendor in WI that could complete the show. If a drone show is selected, it would need to move to Farmers Field for space to launch the drones.

An example of the 200 drone show in Rockford Il:
https://drive.google.com/file/d/1dUqTuKOr1_qBagbtfL2Kw6sVjGu9ZUo8/view?usp=drive_link

Staff believes this would be something different and unique for the area and suggests giving it a try as something different.

Budget Impacts: $30,000-35,000 budgeted expense.

Recommended Action: Motion to recommend staff work with the Northern Lights Drone Show to develop a drone show at Farmers Field for the Village Celebration.

Title: Approval on contract with McMahon for schematic design for the Farmers Field concession stand building

Issue: Does the Village Board approve the contract with McMahon for schematic design of the Farmers Field concession stand building?

Background and Additional Information:

Village staff is recommending a schematic design phase for this building to work with project partners of Darboy Kiwanis, River of Surge Soccer Club, Kimberly High School ACE Academy and Village staff to design a building that can be built by the high schoolers. This community project will save money and give the Kimberly High School (free labor) a project for their 2025-2026 school year.

Once the schematic design is complete, McMahon will be able to complete the final design to prepare bidding documents for the materials only. Some of the material costs would be covered by the Kiwanis grant donation.

During the schematic design stage, meetings will also happen wit the soccer clubs to make sure we are address their needs as well.

Budget Impacts: $6,000, Park Impact Fees

Recommended Action: Motion to approve McMahon to complete a schematic design for Farmers Field concession stand building for $6,000.

1.1 Services: McMahon Associates, Inc. (McMahon) shall perform services consistent with the professional skill and care ordinarily provided by engineers/architects practicing in the same or similar locality under the same or similar circumstances. McMahon shall provide its services as expeditiously as is consistent with such professional skill and care and the orderly progress of the Project.

1.2 Client's Representative: McMahon intends to serve as the Client's professional representative for those services, as defined in this Agreement, and to provide advice and consultation to the Client as a professional. Any opinions of probable project costs, approvals and other decisions made by McMahon for the Client are rendered based on experience and qualifications and represent our professional judgment. This Agreement does not create, nor does it intend to create a fiduciary relationship between the parties.

1.3 Warranty, Guarantees, Terms and Conditions: McMahon does not provide a warranty or guarantee, expressed or implied, for professional services. This Agreement or contract for services is not subject to the provisions of uniform commercial codes. Similarly, McMahon will not accept those terms and conditions offered by the Client in its purchase order, requisition or notice of authorization to proceed, except as set forth herein or expressly accepted in writing. Written acknowledgment of receipt, or the actual performance of services subsequent to receipt, of any such purchase order, requisition or notice of authorization to proceed is specifically deemed not to constitute acceptance of any terms or conditions contrary to those set forth herein.

2. PAYMENT AND COMPENSATION

2.1 Invoices: McMahon will bill the Client monthly with net payment due in 30-days. Past due balances shall be subject to an interest charge of 1.0% per month. Client is responsible for interest charges on past due invoices, collection agency fees and attorney fees incurred by McMahon to collect all monies due McMahon. Client is responsible for all taxes levied on professional services and on reimbursable expenses. McMahon and Client hereby acknowledge that McMahon has and may exercise lien rights on subject property.

2.2 Reimbursables: Expenses incurred by McMahon for the project including, but not limited to, equipment rental will be billed to the Client at cost plus 10% and sub-consultants at cost plus 12%. When McMahon, after execution of an Agreement, finds that specialized equipment must be purchased to provide special services, the cost of such equipment will be added to the agreed fee for professional services only after the Client has been notified and agrees to these costs.

2.3 Changes: The stated fees and Scope of Services constitute McMahon's professional opinion of probable cost of the fees and tasks required to perform the services as defined. For those projects involving conceptual or process development services, activities often cannot be fully defined during initial planning. As the project progresses, facts uncovered may reveal a change in direction, which may alter the Scope. Changes by the Client during design may necessitate re-design efforts. McMahon will promptly inform the Client in writing of such situations so changes in this Agreement can be negotiated, as required.

2.4 Delays and Uncontrollable Forces: Costs and schedule commitments shall be subject to re-negotiation for delays caused by the Client's failure to provide specified facilities or information, or for force majeure delays caused by unpredictable occurrences, including without limitation, fires, floods, riots, strikes, unavailability of labor or materials, delays or defaults by suppliers of materials or services, process shutdowns, infectious diseases or pandemics, acts of God or the public enemy, or acts or regulations of any governmental agency. Temporary delay of services caused by any of the above, which results in additional costs beyond those outlined, may require re-negotiation of this Agreement.

3. INSURANCE

3.1 Limits: McMahon will maintain insurance coverage in the following amounts:

Worker's Compensation ..... Statutory

  Bodily Injury - Per Incident/Annual Aggregate ..... $1,000,000 / $2,000,000

3.2 Additional Insureds: Upon request and to the extent permitted by law, McMahon shall cause the primary and excess or umbrella policies for Commercial General Liability and Automobile Liability to include the Client as an additional insured for claims caused in whole or in part by McMahon's negligent acts or omissions. The additional insured coverage shall be primary and non-contributory to any of the Client's insurance policies and shall apply to both ongoing and completed operations.

To the extent permitted by law, Client shall cause the contractor, if any, to include McMahon as an additional insured on contractor's Commercial General Liability, Automobile Liability and Excess or Umbrella policies to include McMahon as an additional insured for claims caused in whole or in part by contractor's negligent acts or omissions. 4. CLAIMS AND DISPUTES

4.1 General: In the event of a dispute between the Client and McMahon arising out of or related to this Agreement, the aggrieved party shall notify the other party of the dispute within a reasonable time after such dispute arises. 4.2 Mediation: If an agreement cannot be reached by the Client and McMahon unresolved disputes shall be submitted to mediation per the rules of the American Arbitration Association. The Client and McMahon shall share the mediator's fee and any filing fees equally.

4.3 Binding Dispute Resolution: If the parties do not resolve a dispute through mediation the method of binding dispute resolution shall be litigation in a court of competent jurisdiction.

5.3 Suspension for Non-Payment: McMahon may, after giving 48-hours' notice, suspend service under any Agreement until the Client has paid in full all amounts due for services rendered and expenses incurred.

6. COPYRIGHTS AND LICENSES

6.1 Instruments of Service: McMahon and its subconsultants shall be deemed the author and owner of their respective Instruments of Service (IOS), including the Drawings, Specifications, reports, and any computer modeling (BIM, etc.), and shall retain all common law, statutory and other reserved rights, including copyrights.

6.2 Licenses: McMahon grants to the Client a nonexclusive license to use McMahons' IOS solely and exclusively for the purposes of constructing, using, and maintaining the project, provided that the Client substantially performs its obligations under this Agreement, including prompt payment of all sums due.

6.3 Re-use: Use of IOS pertaining to this project by the Client for extensions of this project or on any other project shall be at the Client's sole risk and the Client agrees to defend, indemnify, and hold harmless McMahon from all claims, damages and expenses, including attorneys' fees arising out of such re-use of the IOS by the Client or by others acting through the Client.

7. AGREEMENT CONDITIONS

7.1 The stipulated fee is firm for acceptance by the Client within 60-days from date of Agreement publication.

7.2 Modifications: This Agreement, upon execution by both parties hereto, can be amended only by written instrument signed by both parties.

7.3 Governing Law: This Agreement shall be governed by the law of the place where the project is located, excluding that jurisdiction's choice of law rules.

7.4 Mutual Non-Assignment: The Client and McMahon, respectively bind themselves, their agents, successors, assigns and legal representatives to this Agreement. Neither the Client nor McMahon shall assign this Agreement without the written consent of the other.

7.5 Severability: The invalidity of any provision of this Agreement shall not invalidate the Agreement or its remaining provisions. If it is determined that any provision of the Agreement violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Agreement shall be construed, to the fullest extent permitted by law, to give effect to the parties' intensions and purposes in executing the Agreement.

7.6 Third Party: Nothing contained in this Agreement shall create a contractual relationship with, or a cause of action, in favor of a third party against McMahon.

8. MISCELLANEOUS PROVISIONS

8.1 Additional Client Services: The Client agrees to provide such legal, accounting and insurance counseling services as may be required for the project for the Client's purpose.

8.2 Means and Methods: McMahon is not responsible for direction or supervision of construction means, methods, techniques, sequence, or procedures of construction selected by contractors or subcontractors, or the safety precautions and programs incident to the work of the contractors or subcontractors.

8.3 Purchase Orders: In the event the Client issues a purchase order or other instrument related to McMahon's services, it is understood and agreed that such document is for Client's internal accounting purposes only and shall in no way modify, add to, or delete any of the terms and conditions of this Agreement. If the Client does issue a purchase order, or other similar instrument, it is understood and agreed that McMahon shall indicate the purchase order number on the invoice(s) sent to the Client.

8.4 Project Maintenance: The Client (or Owner if applicable) shall be responsible for maintenance of the structure, or portions of the structure, which have been completed and have been accepted for its intended use. All structures are subject to wear and tear, and environmental and man-made exposures. As a result, all structures require regular and frequent monitoring and maintenance to prevent damage and deterioration. Such monitoring and maintenance is the sole responsibility of the Client or Owner. McMahon shall have no responsibility for such issues or resulting damages.

8.5 Consequential Damages: Notwithstanding any other provision of the Agreement, neither party shall be liable to the other for any consequential damages incurred due to the fault of the other party, regardless of the nature of this fault or whether it was committed by the Client or the Design Professional, their employees, agents, subconsultants or subcontractors. Consequential damages include, but are not limited to, loss of use and loss of profit.

8.6 Corporate Protection: It is intended by the parties to this Agreement that McMahon's services in connection with the project shall not subject McMahon's individual employees, officers, or directors to any personal legal exposure for the risks associated with this project. Therefore, and notwithstanding anything to the contrary contained herein, the Client agrees that as the Client's sole and exclusive remedy, any claim, demand, or suit shall be directed and/or asserted only against McMahon, a Wisconsin corporation, and not against any of McMahon's employees, officers, or directors.

8.7 Contingency: McMahon's professional services are not a warranty or guarantee. The project will evolve and be refined over time. The Client shall provide appropriate contingency for design and construction costs consistent with the reasonable progression of the project. The Client and McMahon agree that revisions due to design clarifications or omissions which result in changes in work during the construction phase which amount to 5% or less of construction costs shall be deemed within the contingency and consistent with the professional standard of care. The Client agrees to make no claim for costs related to changes in work within this threshold. Claims in excess of this threshold shall be resolved per the dispute resolution process.

8.8 Project Costs Associated with Agency Plan Review: McMahon will not be responsible for additional project costs due to changes to the design, construction documents, and specifications resulting from the agency plan review process. The project schedule shall either allow for the agency plan review process to occur prior to the Bid Phase or if this review occurs after the Bid Phase the Client agrees that any additional costs would be considered part of the project contingency.

8.9 Hazardous Materials: McMahon shall have no responsibility for the discovery, presence, handling, removal, or disposal of, or exposure of person to, hazardous materials or toxic substance in any form at the project site.

8.10 Climate: Design standards which exceed the minimum requirements within current codes and regulations are excluded. If requested by the Client, climate-related design services or evaluations can be provided for additional compensation.

Background and Additional Information:

Budget Impacts: $25,000- budgeted in planning department budget.

Recommended Action: Motion to approve the draft RFP for consultants to complete a senior housing needs assessment and market study.

Draft Request for Proposals

Village of HARRISON

REQUEST FOR PROPOSALS (RFP)

Senior Housing Needs Assessment/ Market Study for the Village of Harrison

Client: Village of Harrison, W5298 State Road 114, Harrison, WI 54952

RFP Deadline: _____, 2025, at 3:00pm

Estimated Study Deadline: 8 months

Background:
The Village of Harrison incorporated from the Town of Harrison in 2013. Since that time the Village has seen aggressive growth in single family residential. In the past five years, the Village has also seen expansive growth in multi-family/apartment development. Like many Wisconsin communities, Calumet County's population is growing older and the Harrison has an interest in providing a livable community with a balance of housing for all residents. The focus of this study on senior housing specifically, indicates that there has been a lack of senior housing constructed. In reviewing the local market with developers, many said the Village should complete a needs assessment and market study prior to recruiting actual developers.

Study Purpose:
This Request for Proposals (RFP) is issued for the purpose of selecting a qualified firm to complete a Senior housing needs analysis and market demand study for the Village of Harrison, and the development of a comprehensive strategy to address senior housing needs within the community with projections to 2040. The successful responder shall demonstrate that they have the experience needed to complete the data collection and technical aspects of this study, as well as the ability to educate the stakeholders on the needs and gaps identified by the study, and gather stakeholder input to assist in the development of the comprehensive housing strategy.

The purpose of this housing study is to analyze the senior housing stock, inventory existing housing resources, identify gaps in the local housing market, identify trends that may affect the senior housing market over time, and help develop strategies to address the current and future needs of the community, with the overall goal of ensuring that senior housing opportunities are provided for households of all types, ages, and income levels.

Scope of Service:
The following is not intended to be a comprehensive itemization of tasks or activities needed to complete this housing study, but rather a guide to better explain the Harrison's intentions. Harrison will rely on its consultant's professional expertise to ensure that all pertinent factors are analyzed and is open to additional or alternative approaches to achieve the overall goal of identifying gaps between the Village's current housing supply and the existing and future housing needs of the community.

Potential project tasks and activities include the following:

Background/Demographics

1. Completion of a comprehensive population and demographic profile of the Village of Harrison in comparison to the recently completed Comprehensive Plan.
    - Define a primary housing draw area for the Village of Harrison.
    - Examine population and household growth trends and projections to 2040.
    - Include demographic data including, but not limited to, age, household size, net worth, tenure, incomes, household type, diversity, disability, etc.
    - Prepare summary of demographics and their impact on multi-family, workforce, and senior housing demand.
    - Discuss the implications of the findings on housing demand in Harrison.

2. Examine Employment Trends impacting housing needs and affordability
    - Summarize local data on resident employment (based on place of residence).
    - Summarize major employers and wages.
    - Identify commuting patterns and summary of place of residence to place of employment.
    - Interview economic development specialists, major employers, and local officials regarding major employment changes and other issues that may impact long-term employment projections.
    - Project job growth to 2040 and identify any sector expansion or contractions that might impact local housing market.
    - Analyze local wages compared to current housing costs and provide a summary of existing and the projected gap of housing units available at affordable levels compared to local wages.
    - Discuss the implications of the finding of senior housing demand in Harrison.

Housing Analysis

1. For-Sale Housing Market Analysis - provide an analysis of existing for-sale homes, housing value trends for existing homes and an inventory of active subdivisions with homes affordable for seniors, including low- and moderate- income households.

2. Senior Housing Market Analysis - provide an analysis of existing senior housing

including rental, for-sale, for-sale active adult, independent living, assisted living and memory care facilities. Prepare summary report on year built/remodeled, monthly rents, vacancies, per sq. ft. rents, unit types/sizes and features, common area amenities, etc

- Summarize pending senior developments in Appleton, Menasha and/or Kaukauna and the surrounding area and provide insight as to impact on market
- Identify need for additional senior housing by type, target markets, and income level including market rate and subsidized based on the following:
  - Units needed at or below 30% AMI
  - Units needed for 31-50% AMI
  - Units needed from 51-80% AMI

Conclusion and recommendations

The results of the demographic study, housing inventory and market analysis conducted above shall be used to determine what deficiencies and surpluses of housing units exist for senior owner of various sizes, incomes, and types.

A gap analysis should be prepared to help Harrison identify senior housing needs in the community and aid efforts to develop and prioritize strategies to address these needs. The goal is to provide an estimate of the number of senior housing units needed (both rental and for sale) to meet the existing and future needs of the community based on unit type, number of bedrooms, price point, and location in relation to income levels and age categories.

Title: Resolution V2025-04, requesting a review from the U.S. Postal Service for Assignment of a Zip Code and to be added to upcoming Federal Legislation.

Congressman Weid's office anticipates the 119th Congress taking up this bill in the coming weeks and indicated that if the Village could provide a resolution supporting being added to this legislation Harrison would have a good chance to be added.

Recommended Action: Motion to approve V2025-04, requesting a assignment of the zip code and be added to the upcoming Federal Legislation.

Resolution V2025-04

RESOLUTION V2025-04

VILLAGE OF HARRISON
Calumet and Outagamie Counties

Requesting a Review from U.S. Postal Service for Assignment of a Zip Code and Inclusion in Federal Legislation.

WHEREAS, the Village of Harrison, Wisconsin, has a population of 15,566 people and is divided into five ZIP Codes—54952, 54915, 54169, 54130, and 54129—served by five different US Post Offices; and

WHEREAS, the Village of Harrison has experienced years of delivery errors and service lapses, including delayed absentee ballot delivery, and problems with errors in the delivery of utility bills and property tax payments; and

WHEREAS, Village of Harrison officials have worked to no avail with local postal officials to try to correct these measures, particularly those that occur with absentee ballots, and yet they persist with every election; and

WHEREAS, it appears that the confusion of the Village of Harrison being divided into five ZIP Codes is more than the local post offices can address on their own; and

WHEREAS, the US Postal Service has a process for reviewing ZIP Codes for efficiency and accuracy of mail delivery; and

WHEREAS, the only solution to the myriad problems that pervade our local mail delivery is to have the entire Village of Harrison served by one Zip Code located in Harrison; and

WHEREAS, the ZIP Code is used as a resource by more government agencies than the US Postal Service and that has led to errors relating to the Village of Harrison being considered a part of the City of Appleton or City of Menasha, including with the Department of Transportation, US Census Bureau, and the Wisconsin Department of Revenue; and

WHEREAS, the ZIP Code is also used by many private businesses, such as insurance carriers, which has caused further confusion beyond just the delivery of USPS mail.

THEREFORE, BE IT RESOLVED, the Village President and Trustees, do hereby request a review from the US Postal Service for a ZIP Code assignment such that all Village of Harrison mail be addressed as Harrison Wisconsin, and be processed and delivered by a singular US Post Office in order to improve postal efficiency, minimize errors in delivery and processing of Village of Harrison mail, and increase USPS accountability to its customers in Harrison, and

BE IT FURTHER RESOLVED, the Village President and Trustees request that the Village of Harrison, located in Calumet and Outagamie Counties, State of Wisconsin, be added

to upcoming Federal Legislation, similar to HR8753, that would require the U.S. Postal Service to designate a single, unique Zip Code to specified communities, and is anticipated to be introduced in the coming weeks of the 119th Congress.

Adopted by the Village Board of the Village of Harrison, Calumet and Outagamie Counties, Wisconsin, on this 28th day of January 2025.
