She noticed that the dispatched calls for service has gone up and the overall combined calls for service are up for 2025. She also pointed out that the officer initiated calls for service has increased as well. She asked the Chief what kind of calls he has seen this year compared to previous years. Chief Sibert shared that it's not necessarily a larger call volume but the complexity of the call. He shared the involvement and the time to answer the call and then the follow up has expanded on the officers. He also shared that the officers are doing what they need to do to stay up to date with the appropriate tools and training in order to be prepared for those calls for service. He shared that adding the two extra positions last year was a proactive move to stay on top of the demand. Councilmember Ramirez also asked about the graph showing the grant money used by quarter. She asked if the reason the grant money used is down is because of the increase calls for service. Chief Sibert stated that it is part of reason. He shared that the report is behind because the current quarter ended after the report was generated. He also shared that looking at the preliminary numbers for this quarter, the numbers are still down.

Councilmember Ramirez thanked the Chief for all the hard work that the officers do and the report showing the increased in traffic volume. She stated that the department is essential to the safety of everyone in the Town. She continued to state that the Council should consider adding more officers to the force in the next budget season.

Mrs. Kyriazi shared that she is still following up on the fees with the County. Councilmember Baker asked for updates on the Town sidewalk project. Mrs. Kyriazi stated that the project is with the land use permit manager and also waiting on a follow up from the Engineering Group who need to give a final punch list to assure the project has been completed and all the steps have been followed. 3. Town Park RFP Design

Town Manager Emily Kyriazi led the discussion on the draft RFP for the pavilion at the Town Park. She started with a memo that she prepared with an updated scope of work. She stated that she would like Council to discuss the scope of work that she drafted. She also provided scenarios. First was to post the design RFP to completion before continuing with the engineering RFP. She stated that her concern with this scenario would be that would slow the process down. The other scenario would be for her to prepare a second RFP for engineering services which would reaffirm the master plan from 2015 or elements of it. A site plan which would be done through a preliminary plan. Then the final site plan which would give the engineering that is needed to go out and get bids for construction while working at the same time on the design RFP. She stated that this could be a collaborative effort between the Town and the two companies. She also stated that they could get the public input through each step of the process.

She continued with the square footage of the building and provided examples. She stated that the old house was approximately 1800 square feet and that a pavilion that size could hold up to 175 people. The Town Council discussed the examples of the square footage of the pavilion and the number of restrooms needed. Mrs. Kyriazi suggested that the language state up to 3 restroom facilities since there are other plans for the park that could require more facilities. There was also a concern about parking if the pavilion was built to the same squared footage of the house. Mrs. Kyriazi continued to state that it would need to analyzed in comparison to the

zoning ordinance and going off of the parking requirements that the Town currently has. She shared that this would all come up in the engineering phase so that there would be plans on the minimum and also on how popular it could be. She looked for a directive from Council on the scope of work and preferred scenario. A discussion continued on the size of the pavilion and the intended use. A question was raised if the restroom facility is included in the square footage of the pavilion. Mrs. Kyriazi shared that the restroom facility would be a separate building with its own square footage on the property. There was also a short discussion on the water and electric service for both the pavilion and restrooms. Mrs. Kyriazi shared that there could be water and electric services to both even if they are separate stand alone buildings. There was a discussion on operation and maintenance costs. There was a suggestion of designing the building based on future maintenance operating costs. The Council directed Mrs. Kyriazi to reach out to the County to see what the operational costs are for one of the facilities similar in size to the projected size of the pavilion, such as James Long Park. The Council also agreed that they would prefer the second scenario. They also gave a directive to design the pavilion to the floor plan of the old park house. The Town Council directed staff to proceed with the scope of work that was presented and discussed at this evenings meeting and staff begin working on RFP for the engineering work of the town park.

Outdoor Events Ordinance

Town Manager Emily Kyriazi shared that this item was previously addressed. She shared that there has been some outdoor events recently. She provided a draft of the ordinance for discussion. She stated that she needs to follow up with Chief Sibert on the safety aspects of it and permitting process communication with the police department on a security plan. A discussion followed on appropriate means of security and the section in the ordinance regarding transfers. Town Attorney Simmons provided suggested language for that section. Lastly, there was a discussion on the timeline. Mrs. Kyriazi shared that she would like to have the ordinance in final draft form for Council to authorize public notice at the July work session.

Memorandum

To: Haymarket Town Council

From: Finance Liaisons

Re: July 2025 Monthly Report

Date: July 30, 2025

The Finance Liaisons (FLs), appointed at the beginning of each new term by the Town Council (TC) at its organizational meeting, are the governing body's representatives that liaise between the staff and the TC. The FLs main responsibility is to perform financial oversight of the town's budget, revenue, and expenditures, as well as all other financial related matters on behalf of the TC. The intent of this report is to communicate to the TC and all interested parties the discussion occurring at FL meetings and liaison oversight activities to ensure transparency and accountability with respect to the town's finances.

The FLs and staff met on 7/16/25, with an added meeting in July scheduled after this report is due for publishing, and report the following:

- The Balance Sheet where Assets = Liabilities and Owner's Equity, continues to show a strong financial position for the town
- Attached are the minutes drafted by Town Clerk, Kim Henry, summarizing the discussion from the 7/16/25 FL meeting
- The next FL meeting is scheduled on Thursday, 7/31/25, at 2 pm
 - o In addition to the pro-forma agenda and staff items, the FLs will include any financial items/concerns, upon request, that council members wish to discuss
 - o Minutes from the 7/31/25 meeting, if applicable, will be part of the next monthly report

Open Items (with financial/policy implications):

- Development of a draft policy for sole source procurement
- Completion of the Personnel Manual. TM and Chief to evaluate what outstanding items are necessary to bring the manual to completion, with projected funding needs

The FLs are available to council for follow-up questions about this report, attached minutes and any details related to meeting discussions.

TOWN COUNCIL FINANCE LIASON MEETING

Wednesday, July 16, 2025 at 2:00 PM

Conference Room - 15000 Washington St., STE 100 Haymarket, VA 20169 http://www.townofhaymarket.org/

MINUTES

Present: Councilmember Alexander Beyene, Councilmember Joe Pasanello, Mayor TracyLynn Pater, Town Manager Emily Kyriazi, Town Treasurer Roberto Gonzalez, Cnief of Police Al Sibert

Town Manager Emily Kyriazi called the meeting to order. Mrs. Kyriazi presented a new agenda format for the liaisons to consider. She shared that this format will keep them on track and gives her an aide on follow up items during the meeting. The agenda is attached to this report.

- 1. **Review of Invoices and check signing** The liaisons and Emily reviewed the invoices for the period.
- 2. **Police Department** Emily gave the floor to Chief Sibert on a question that was raised at the last meeting regarding hot spot charges on the AT&T First Net bill for the Police Department. Chief Sibert said that he looked at the bill and has a meeting with the First Net representative. He shared that even though the phones have hot spot capabilities, they do not use the capability. He stated that the rep can get rid of the feature and will discuss decreasing the bill. There was a concern at the last meeting about packages being delivered to personal addresses. Chief stated that this was Amazon only purchases because of the sensitivity of some of packages, the Amazon driver does not make sure the package is received by a person even though instructions on shipment state that instruction. It was decided that the delivery will be Town Hall for signatures and staff will let PD know of the package.
- 3. **FY25 Budget**: Roberto shared that the FY25 year ended in the positive. He said he did not have too many concerns on the expense side. His only real concern was the invoices for the park sidewalk posting. Liaisons complimented staff on a good job with projections.
- 4. **Review of FY26 Budget Process**: A discussion took place on what was done right in the last budget season and what went wrong. And a solution going forward. Roberto suggested that in order to have a budget resolution ready for approval, the tax rate should be adopted at an earlier date. Discussion also took place on a more detailed timeline and possibly more budget work session meetings and encouraging Council to come with input at each meeting with changes and recommended answers to the change. Discussed a meeting in the fall with Stephanie Davis from Virgina Tech on updating strategic plan and incorporating it to the FY27 budget.
- 5. **FY26 Budget**: Roberto shared that right now the year is in the negative because of some front loading expenses. He said it will balance out in the fall. This brought up the leases and the repairing the AC unit at Washington Street Realty building. Discussion followed on the lease agreement with Washington Street Realty and rent abatement for the two weeks that they were without electricity. Also on the start date to replace the unit. Emily shared that Washington Street Realty is ending their lease early. They gave a move out date of August 15. Discussed and gave directive for Emily to start advertising the space. Emily shared that she has been in touch with architectural engineer who will be evaluating the building, the museum and the Cupcake Heaven building.

- 6. **Internship**: Emily will be checking with Stephanie Davis for recommendations.
- 7. **Compensation Study Update**: Emily shared that she met with the Councilmembers that were assigned to this study.
- 8. **Event Accounting**: Emily showed the spreadsheet that staff uses to track revenues and expenses on Events. Haymarket Day revenues funds the other Town events throughout the year. Agreed to add Government Open House to the Town's yearly events funded by sponsorships and Haymarket Day. Youth in Government to be funded by a different line item.
- 9. **Website Quote**: Emily provided the quote to redesign the Town's website. Questions on what the fee would be after 3 years and do we own the code. Emily will follow up and report back.
- 10. Washington Street Realty: Discussed in item #5
- 11. Town Owned Structures: Discussed in item #5
- 12. **Town Center Interior Building Plan**: Emily still waiting on numbers from John Hetzel
- 13. **Town Center Site Plan Quotes**: Emily provided quotes. Liaisons directed her to proceed and will share with Council
- 14. **Tenant Space**: Emily presented a proposal on utilizing one of the upstairs office spaces for the Town Engineer. Roberto shared that there may be a new tenant in one of spaces. Liaisons directed Emily to proceed with conversation with the Engineer to negotiate terms.
- 15.Food For Thought: Emily asked if Town should give donation to the local food pantry. She provided some information on their needs. She will get back with additional information. Maybe promote Town Hall as a drop off point and do a food drive at events like Farmer's Market.
- 16. Other/New Items: None to discuss
- 17. **Next Meeting Date/Time**: Because the July 28th work session has an early closed session scheduled, liaisons will meet on Thursday, July 31st at 2 pm.
